Q So taking 1913 and 1914 together for two years, do they make an average above what they have been in the habit of paying per year?

A Some, not very much.

Q As a matter of fact, the two years taken together divided by two represent a fair average of dividends per year as shown for a period of ten years?

A Yes, sir. 20

Mr. Merrey. It seems to me those things are all matters which are apparent. It is just a little less if you want to do it yourself.

Commissioner Donges. The statement, of course, shows; it is mere mathematics.

Mr. Merrey. The suggestion I was going to make was, that the fair thing to do in computing an average was to exclude 1914.

Mr. Minard. We cannot eliminate that in striking an average. 30

Commissioner Donges. That is a matter of argument.

Q You were asked, Mr. Crawford, about the estimated advantage to be derived from the advance in rates given in C. F. A. territory by the decision of the Interstate Commerce Commission in July, particularly with regard to the fifteen per cent. of the traffic intra-territorial in that district which was the basis of your figures. Can you explain that? 40

Charles P. Crawford, direct.

10 A I have had—since the last hearing, I have had a conference with the officer of our department who prepared the estimate and he informed me that the fifteen per cent. represents our estimate of the revenue which accrues to the Erie lines in C. F. A. territory, not only from local traffic, but freight traffic also in which other roads are interested. I think that was your question, sir.

Q You were asked, also, Mr. Crawford, to ascertain what advantage the Erie expected to gain from the increase of the mileage books. It was stated by a member . . . the commission that when the application for that increase was before the commission the statement was made that the roads interested would benefit by ten million dollars. Have you ascertained what proportion of that amount will come to the Erie?

20 A I have conferred with an officer of our passenger department and he tells me that they made the estimate which was included in the ten million dollars which went to make up the total of all the railroads.

Q Did they give you the figures which they had furnished at that time to make up the ten millions?

A They did.

Q Have you it in the form of a statement so that you can hand it to the commission?

30 A There is a memorandum.

Mr. Minard. I will offer that as an explanation of the details of that.

(Memorandum showing basis of estimate of additional revenue to be secured by the Erie R. R. Co. on account of advance in price of mileage books, received and marked Exhibit R-127.)

Q (*By Mr. Minard.*) It shows then, Mr. Crawford, does it not, that our interest—

Charles P. Crawford, direct.

Commissioner Donges. This shows only the estimated increase on the Erie line.

Mr. Minard. That is all.

Commissioner Donges. I understood Mr. Minard's question to embrace other lines as well.

Mr. Minard. I did not mean to.

Q Our benefit out of that increase this statement shows how much, Mr. Crawford? 10

A \$48,842.

Q And six-and-four cents?

A Yes, sir.

Q There are a couple of notes there, Mr. Crawford, I believe. Will you just read into the record what those notes say?

A Which of the two?

Q (*By Mr. Merrey.*) Is this your own information or what somebody told you? 20

A This is received from an officer of the passenger department.

Mr. Merrey. You might just as well read it yourself.

Mr. Minard. I will just offer the statement.

Commissioner Donges. The statement has been marked; it is not necessary to read it in.

Mr. Minard. I might say those statements explain certain contingencies that might arise in that change of price that would affect our revenue so we would not realize as much as that, but, of course, we cannot tell definitely whether they will come or not. 30

Mr. Merrey. Is that all on that statement?

Mr. Minard. Yes.

Mr. Merrey. I would like to ask a question or two on that.

Charles P. Crawford, direct.

Q (*By Mr. Merrey.*) This refers to the number of books sold, the amount sold by the Erie. Does that refer to interchangeable books?

A The first item does, trunk lines.

Q Does that mean the amount that the Erie sells?

A That is the number of books the Erie sold.

10 Q Would there be other revenue if other passengers used the books of other companies on your road?

A Yes; you will notice the second column is headed "Value of mileage coupons collected."

Q (*By Mr. Minard.*) I understand this statement shows not the value—is not based upon the value of the books which we sell, but upon the value of the coupons which we collected no matter where they were sold.

A The statement shows, yes, sir.

20 Q (*By Mr. Merrey.*) If you have not taken into consideration the fact that a number of passengers may use other kinds of transportation, such other kinds would bring a greater revenue, would they not, than the mileage books?

A If the rate was greater than two and a quarter cents, of course.

Q Most other forms are greater, are they not?

A I don't know that most other forms are. Some of them are, many of them are.

30 Q That is, your rate is two and a half cents for ordinary passenger ticket?

A I am not really familiar with the details.

Mr. Minard. If it were, they would still buy mileage at two and a quarter cents.

Q As I take it, you mean, that people, if they see a fairly large saving, they might buy a mileage book; where they don't see that, they might buy an ordinary ticket; that is what you mean by that, is it?

40 A This is an estimate made on an inquiry from the trunk line officials of what the additional revenue of the Erie Railroad Company might obtain with the

Charles P. Crawford, direct.

rates of mileage books advanced and the estimate is merely based on the value of our mileage books, mileage coupons collected and that increase figured out twelve and a half per cent., which is the one-quarter cent; that is all it is intended to be.

Q That second paragraph says it doesn't take into consideration the fact that due to an increase in price a large number of people might change the form of transportation which they would use; are you prepared to say that would make a loss or gain? 10

A No, sir, I am not prepared to say.

Q Most likely it would give you further revenue?

A I couldn't say.

Mr. Minard. That is pure speculation anyway.

Mr. Merrey. I don't know, you ought to know.

You changed other systems of tickets, take your ten trip tickets, you don't use them as much now. 20

Q (*By Mr. Minard.*) Mr. Crawford, I believe you took away a copy of the statement of the cost of the full crew law which was offered in evidence. 20

A I have already furnished the reporter with another copy.

Q Mr. Crawford, were you also asked to explain what seemed to be a large difference in the amount of interest on unfunded debt as it appeared in the statement of July and August, 1914, as compared with July and August, 1913, on the income statement? 30

A Yes, sir. In the months of July and August, 1914, the statement showed charges to that account amounting to \$73,389, while for the same period in the previous year the charges were but \$10,813.

Q Will you explain what the difference represents?

A I find that the principle items of difference is, for the reason that two notes, one of five million and one of one million, total six million dollars, were run- 40

Charles P. Crawford, cross.

ning during the two months of 1914 and not in 1913 and the accrued interest and proportionate discount applicable to that period for the both notes was \$68,000.

Q What was the next item which was in that way any different?

10 A That explains all but a difference of about \$5,000 and in looking the matter up I find in the months of July and August, 1913, we included some interest on mortgages on construction obligations amounting to \$5,975 which should not have been included. The accounts were adjusted in later months, so these items possibly should not appear here. I think that explains the entire difference of \$63,000.

Q Did the company pay, during July and August, 1914, any interest on bills for materials, accounts that were due and unpaid?

20 A Yes, sir, \$985.

Q Explain what that was for.

A People demand interest on some of our larger bills when we are not able to pay them or don't pay them within the sixty or ninety or three months' time which they are allowed on the invoices. That is, they exact interest on account of our delay in paying some of our bills.

Q Any particular reason for the delay?

30 A None, except that we did not have the money to meet them as promptly as we should.

Mr. Minard. That, I believe, is all the information requested by the commission, according to my notes.

Cross examination by Mr. Merrey.

Q I notice this item of two months' proportion of interest on the five million dollar note, the rate of discount must have been something above six per
40 cent., wasn't it?

F. B. Lincoln, direct.

A Yes, sir.

Q What rate were you paying?

A It cost us on the basis of seven per cent.

Q (*By Commissioner Donges.*) It was what?

A The note for five million was discounted on the basis of seven per cent. per annum, the note issued March 2nd, 1914, maturing October 1st, 1914.

Q Is that a high rate or a low rate, as far as the company has been generally paying? 10

A I think that is higher than they have been paying.

Q Did I understand that five million dollar note issued in March, 1914, was a renewal?

A No, sir, that was an original note. It was renewed in October and appeared, I think, on one of the other exhibits.

Q You explained before what the note was issued for? 20

A Yes, sir.

F. B. LINCOLN, sworn on behalf of respondent.

Direct examination by Mr. Minard.

Q Mr. Lincoln, are you the general superintendent of the Erie Railroad Company?

A Yes, sir.

Q How long have you been in the railroad business? 30

A Twenty-eight years.

Q How long have you been with the railroad company?

A About seventeen years altogether.

Q Where did you begin as a railroad man?

A Where?

Q Yes.

A With the Erie Railroad.

Q In what capacity? 40

F. B. Lincoln, direct.

A As a civil engineer on the general corps.

Q How long were you an engineer on the railroad, civil engineer?

A About eight years.

Q Are you a graduate of any college?

A No.

Q Where did you get your degree of civil engineer?

A Didn't get any.

Q Your work then has been practical work entirely?

A Absolutely.

Q As an engineer, what official position did you have with the Erie?

A I started in as rod man and wound up as division engineer.

Q In charge of a division, the engineering work of a division?

A Yes, sir.

Q After eight years with the Erie did you then leave the railroad company?

A Oh, no.

Q What did you do then?

A I was transported to the traffic department for about a year and a half and then to the operating department.

Q And how long did you remain with the Erie after that?

A About five or six years.

Q Then where did you go?

A From the Erie I went to the Buffalo and Susquehanna Railroad interests.

Q How long were you with them?

A About two years.

Q As operating or as engineering?

A General manager of the coal companies.

F. B. Lincoln, direct.

Q What other companies have you had experience with?

A The Delaware & Hudson Railroad.

Q For how long?

A A year and a half.

Q Operating or engineering?

A Division superintendent.

Q What other companies?

10

A The Pittsburg, Shawmut & Northern Railroad.

Q How long were you with the Pittsburg, Shawmut & Northern?

A Eight years.

Q What was the condition of the Pittsburg, Shawmut & Northern while you were there?

A You mean its operating situation?

Q Yes.

A It was in the hands of a receiver.

Q During the entire time?

20

A Yes.

Q Who was the receiver?

A Frank Sullivan Smith.

Q What is his profession?

A Lawyer.

Q Who was the operating official of the railroad company?

A I was.

Q What was your title?

A Assistant to the receiver.

30

Q On the strength of your experience with the Erie and with other railroad companies I would like to have you make a statement to the commission discussing the situation which confronts the Erie Railroad at present, particularly with regard to its ability to furnish money at the present time for the improvements, for the elimination of grade crossings in Paterson, and giving your opinion as to whether this

40

F. B. Lincoln, direct.

work ought to be done under present conditions and if not, why.

Mr. Merrey. Is that a matter of argument?

Mr. Minard. No, it is not a matter of argument; simply a matter of stating the railroad company's condition for the benefit of the commission.

10 *Mr. Merrey.* Haven't we that in the statement before us?

Mr. Minard. Not in the way Mr. Lincoln can give it. We have the bare financial situation.

Mr. Merrey. I think that is a matter for a lawyer summing up on the situation.

Commissioner Donges. If it is a mere matter of argument based on the statements, based on the conditions as shown.

20 *Mr. Minard.* Our idea about that is this: that the whole railroad situation bristles at the present time with economic necessities and things are being done along the line in the way of improvements at the present time in the order of their necessity, because of the fact as the financial statements will show you, that we have not had money enough to do what was necessary, and therefore we have had to marshal our assets in order to take care of things in the order of their necessity. The purpose of Mr. Lincoln's testimony will be to show facts in which this commission is directly and particularly interested with regard to our ability to render safe and adequate service to the public and what if we are required to spend this money for grade crossing elimination—the ways in which that will impair the service which we are to offer to the public and which you are to conserve.

30

40 *Commissioner Donges.* If it be a statement of facts—

F. B. Lincoln, direct.

Mr. Minard. I will confine it to facts.

Commissioner Donges. Not argument.

Mr. Minard. No.

Commissioner Donges. Very well, any facts affecting this question may be put in.

Mr. Minard. Mr. Lincoln will understand that he is not to sum the case up for us. We have been over the matter and I understand what he has in mind and I know it will not only be pertinent, but it will be interesting to the commission. 10

Commissioner Donges. Very well.

Q Proceed, Mr. Lincoln.

A Under those instructions I will confine myself, if I may, pretty closely to some notes I have made on this matter. The operating income of the property in the last year shows a decrease of \$3,741,000. The operating income is vital to the development of any work of this character and it is the direct responsibility of the operating department to make its recommendations based as far as possible on the ability of the operating income to stand the expense. The trend of business at the present time is indicated by last year's experience and this year's experience up to date. 20

Q Mr. Lincoln, from time to time I will ask you a question perhaps to expedite the matter a little. Have you made an investigation of improvements necessary to the line of the order of their importance from the standpoint of safety, which in your judgment are demanded under present conditions? 30

A I have.

Q Will you proceed with that list explaining each one, the nature of the improvement required and why you have given it the present position in the order of safety.

A The primary consideration of all expenditure on a railroad and certainly as governed by the operating 40

F. B. Lincoln, direct.

department is safety of operation. The basic consideration and first requirement of safety is double track on any railroad. We have voted the largest share of the available funds that we could secure for construction purposes from any source for a number of years to double tracking. We have under way or authorized double track construction which will require an additional expenditure of seven millions.

10

Q (*By Mr. Merrett.*) Where?

A At different points on the line, not at any one isolated location; largely west of Salamanca, but some portion of it east of Salamanca. There is still some work to be done to complete the double track line on what we call the Erie division proper east of Salamanca. The balance of that expenditure comprised within the seven million dollars which has been estimated upon is west of Salamanca.

20

Q (*By Mr. Minard.*) How much has been spent for double tracking in the last few years to carry out this scheme of double track; have you any idea?

A Not offhand; I should have to go to the records to locate those figures.

Q What is the reason for your placing double tracking first among the list of those improvements intended for safety?

A Because it is the basic safety requirement on a railroad.

30

Q And the reason for that?

A For the protection of the public in traveling, for the protection of the company in the operation of its property. A secondary consideration is the added ability to earn money. The construction of double track necessarily facilitates movement of traffic, reduces the cost of operating. That is a secondary consideration, but a very vital consideration.

40

Q In regard to the saving of the money, what are the items or elements which enter into that saving?

F. B. Lincoln, direct.

A The whole thing resolves itself into a greater facility of train movement.

Q What have you to say about the cost due to delay for a train passing and so on?

A The construction of double track and double track operation reduces the cost of operation by a very large percentage, simply because it reduces the time of getting trains over the railroad.

10

Q Has that condition been exaggerated lately by legislation on the question of hours of service and so on?

A Very largely.

Q In what particular?

A In reducing the time allowed on the road by train crews, so that trains must be moved over the operating territory that will not keep the employees on duty over sixteen hours which is, under some phases of operation, a practical impossibility. If train crews are not relieved inside of sixteen hours the company is penalized by practically double expense for train operation, and the construction of double track eliminates that contingency very largely.

20

Q Then, in your judgment, the completing of the double tracking which is estimated to cost seven millions is the matter of first importance confronting the railroad company at the present time?

A Absolutely. Now, that seven million does not cover all of the additional track work which we contemplate and which we regard as a very important necessity. Ahead of any other expenditure that we have in view, the next important large item in that connection is the construction of additional tracks between Jersey City and Suffern in this immediate territory. The element of safety is a very large factor in that for the reason that a very dense passenger traffic is now handled over the tracks on which we have to move freight. As an element of safety to the

30

40

F. B. Lincoln, direct.

public we feel it is imperative to construct additional tracks in the commuter territory so that we can take the freight service off of the passenger tracks. That means additional construction between Jersey City and Suffern for which we have already made estimates amounting to \$3,500,000.

Q How will that improvement affect Paterson?

- 10 A There is a very considerable proportion of the commuter travel going into Jersey City which comes from Paterson and it will certainly make travel from Paterson to Jersey City safer and will facilitate the movement of trains. There will be less delay to passenger movement if we have additional tracks from Crockston yard outside of the City of Paterson. It would be a very great benefit to the people of Paterson generally. That makes a total in sight now of estimated expenditures for that class of work
- 20 that we are now figuring on of \$10,500,000.

Q Under present conditions is that money available in the way of loans?

A No, it is not.

Q How would you expect to obtain that money?

- A We do not expect to obtain it under present conditions, counsel. We haven't the earnings, we haven't the income at the present time which would justify making a loan of that character and I don't think we could make such a loan because the bank
- 30 would not advance the money on any basis that would be within reason.

Q Proceed with your list then of improvements.

- A The next item I have taken into consideration on which we have already made estimates for safety provisions required is that of signalling. We have got our railroad partly signalled, but there is a considerable percentage—I don't recall exactly how much—yet to be done and the estimated requirement
- 40 is \$500,000.

F. B. Lincoln, direct.

Q When you say signals, what do you refer to?

A Block signals for protection of train movement.

Q Automatic signals?

A Automatic signals.

Q There are some places where these automatic signals are not now provided?

A There are on the property and we deem it a vital necessity to proceed with that work just as rapidly as the funds can be secured. The amount now involved to complete the signalling on the main line and such side lines where the density of traffic require it amounts to \$500,000. 10

By Commissioner Douglas.

Q That is the estimate?

A That is the estimated further cost. The next item that we are facing—

Q (*By Mr. Minard.*) Do you know how much has been spent on this automatic signalling recently? 20

A No, I could not answer that without—I haven't the figures right here.

Q What proportion can you say of the general work is done, the larger or the less?

A More than half of it is done; probably, I should say, two-thirds.

Q So what you now contemplate then is finishing up the whole proposition so that the whole road will be benefited by the automatic signals? 30

A Exactly; simply finishing what work that is under way or authorized. The next item of safety expenditure is one which we have no defense against whether we want to or not and that is the application of safety appliances to operating equipment under the United States Safety Appliance Act. The Federal Act requires that our equipment shall be fitted to meet Federal specifications by July 1st, 1916. The original amount involved for that work was \$1,750, 40

F. B. Lincoln, Director.

000. We still have to expend \$1,354,741, and that money will have to be spent before July 1st, 1916, or we will not be able to use our equipment.

Q Has the railroad company been proceeding with this work right along or has it been necessary to postpone it?

10 A Why, we have proceeded with it right along, that is, it is all the time under way. The amount that we do on it varies with the character of the equipment force, shop forces, but at no time is there any cessation in that work.

Q When did this work begin?

A About two years ago.

Q Do you know how much has been spent? Does this difference represent the amount that has been spent?

A Exactly.

20 Q \$400,000. Has the work been spread out evenly over that period, or is there more to do in the future than there has been in the past?

A A great deal more to do than we have done. The work in the past has been governed partly by the exigencies of the equipment. In other words, we have not been able to take equipment out of service many times, to apply these features.

30 Q So that between now and July 1st, 1916, it will be necessary for us to complete an expenditure of \$1,354,741?

A We shall have to do that or take the equipment out of service.

Q A while ago you spoke of the amount being authorized; what do you mean by that; expenditure being authorized?

A Authorized by the Board of Directors, based on estimates submitted.

40 Q Does the Board of Directors pass on the necessity of the thing before they authorize it?

F. B. Lincoln, direct.

A Absolutely in every instance.

Q So when it is authorized it is considered by them to be necessary?

A Yes.

Q Proceed with your statement.

A The next item to which we are giving consideration of large volume and one that probably more directly concerns the people of Paterson than almost anybody else is that of the construction of a passenger terminal at Jersey City. We have outgrown the present, the existing passenger facilities, as I presume everybody knows, and plans have been made for the reconstruction and the erection of suitable facilities at Jersey City. We are handling through that terminal now an average of about 55,000 people a day. At times that runs up to 90,000 in a given twenty-four hours, but the average is about 55,000 people daily now, and it is very difficult to handle them successfully and safely. We have done it so far, but it is growing more difficult every year. That terminal serves a population of about from three-quarters to a million people directly tributary to our line within forty miles of Jersey City and as an element of safety and as an element of convenience to the public and as a necessity to the growth of our business we have got to face the construction of a suitable terminal at that point. The estimates so far for the passenger terminal itself involve an expenditure of seven million.

Q Does that involve any other changes that are expensive?

A It necessitates very large other expenses for the reason that the absorption of the entire area in the passenger terminal, the facilities between Bergen tunnel and the water front, will involve our taking all of the locomotive facilities, shop facilities, out of Jersey City. We cannot construct the required pas-

F. B. Lincoln, direct.

senger facilities unless we remove all the shop facilities. We haven't the room there to develop a passenger terminal without removing the engine terminal. That involves the construction of the necessary engine terminal facilities outside of the tunnel.

Q Where had you considered putting it?

10 A Just west of Bergen tunnel, what is known as Crockston yard, and the estimates for shop and yard facilities there to take care of the engine equipment involves an expenditure of three and half million dollars.

Q The place you propose to put them is still in Jersey City?

A I don't know, I guess it is within the city limits of Jersey, but outside of the tunnel.

Q Just at the west end of the tunnel?

A Yes.

20 Q (*By Commissioner Treacy.*) Why is it necessary to change your shops to the west end of the tunnel, for engines?

A There isn't room—

Q Is it because they are built so close to the present terminal?

30 A Yes. We have to move back from the water front. In any comprehensive plan of development there, we have to move back from the water front with the passenger terminal and the engine terminal is right in the rear of our train shed now, practically within about two hundred or three hundred feet; in addition to which the widening out of that passenger terminal, commissioner, which is necessary, involves wiping out all that locomotive equipment from Pavonia avenue clear over to what we call the north side shops, and there is no place on our property, our holdings in Jersey City east of the tunnel, that will adapt itself to the size of the engine terminal we have
40 got to have. We are taking care of five hundred ca-

F. B. Lincoln, direct.

gines a day there and have to have more room for that alone. Our existing facilities in that particular are inadequate, subjecting us to more or less delay and also a great deal of extra expense at the present time.

Q Your yard for your engine terminal facilities is now west of the entrance to the subway, to the Hudson & Manhattan tubes?

A Yes.

10

Q Would your passenger terminal go farther west than the entrance to the Hudson & Manhattan?

A No, not the main buildings themselves would not, but then the train sheds and approaches would absorb all of that room out there. That is the contemplated layout.

Q (*By Mr. Minard.*) You spoke of three and a half million dollars necessary to change the engine and shop facilities. That is in addition to the seven million dollar terminal expenditure?

20

A Yes. In other words, the total expenditure involved in the change of the passenger terminal facilities there is not less than ten and a half million dollars as now contemplated.

Q Proceed with your next item.

A The next important large expenditure on our line is the installation of steel underframes in passenger train equipment. A very large share of the passenger train equipment now in use is wooden cars, and regardless of any legislation which we may naturally expect in that particular, we have prepared to put steel underframes under all of our passenger service equipment. The work is partly under way, we have made some very heavy expenditures on it already and the estimated cost to complete that work is \$741,-854. That we regard as a safety measure because it is quite vital to the equipment, for the protection of it in its movement and for the benefit of the people that ride in it. The additional expenses that we are

30

40

F. B. Lincoln, direct.

facing, one of the biggest items involved is that of the legislation that has probably originated with labor organizations, known as the Full Crew law. The Full Crew law is now costing us an excess charge for wholly unnecessary expenditure of \$277,691 a year, approximately, in other words, in round figures, \$275,000 a year increased charge of operation for which we get no recompense and which we have to find out of our operating earnings. Another burden that we are facing is an increase in direct payroll charge arising from wage increase of substantially three million dollars a year which has to come out of operating earnings.

Q Have you any statement there on the wage increase?

A Yes.

Q (*By Commissioner Treacy.*) At the bottom of this statement, R-125, I notice in the recapitulation it is stated that the expense of the Full Crew law, the increased expense of the Full Crew law upon the Erie, New York, Susquehanna & Western and New Jersey & New York Railroad is \$287,000, and the Erie Railroad only is \$277,000.

A Yes, that is without the New York, Susquehanna & Western.

Q Or the New Jersey & New York?

A That is the Erie proper.

Q So that the increased cost on the Susquehanna and the New York & New Jersey is only \$10,000 a year?

A \$10,000 a year on those two lines as estimated there.

Q (*By Mr. Minard.*) Both short lines?

A Short lines.

Q And run short trains?

A A good deal of that service, a whole lot of short

F. B. Lincoln, direct.

passenger trains, don't come within the scope of the laws; less than five car trains.

Q Have you figures here on the increased cost of the payroll which you have just spoken of?

A Yes. The payroll increases—these figures were made for the year ending June 30th, 1913. I haven't had them made up for this past fiscal year yet.

Q That statement was made, as I understand it, by Doctor Dickson of the Bureau of Railroad Economics, was it not? 10

A Yes.

Q And was offered in evidence in the Anthracite Coal cases before the Interstate Commerce Commission?

A Yes, it was.

Q What does that show with regard to the Erie Railroad Company up to that time? Just read the figures across there and the heads of the columns so as to indicate what they mean. 20

A It shows compensation paid in the year ending June 30th, 1913, on Erie property, \$24,751,614.01 and the compensation which would have been earned by the same employees under the rates prevailing in the year ending June 30th, 1909, would have amounted to \$22,006,946.01, showing an increase of \$2,744,688, or twelve and a half per cent. on the payroll.

Q That is on the annual basis, is it not?

A That is on the annual basis. 30

Q (*By Commissioner Donges.*) This statement is for the year ending June 30th, 1913.

A 1913.

Q (*By Mr. Minard.*) Has the same increased rate prevailed during 1914?

A No; there have been two other wage increases made effective which increased the difference in the fiscal year ending June 30th, 1914.

Q By how much?

40

F. B. Lincoln, direct.

A Wait a minute—one in the fiscal year ending June 30th, 1914, and one taken effect since.

Q What was the amount of that increase?

10 A The increase becoming effective July 1st, as the award of the arbitration commission to the conductors and trainmen which was handed down as retroactive to October 1st, 1913, but by an adjustment with our employees they accepted the new rates as applying from July 1st, 1914. That increase on our payrolls will amount to \$400,000 a year.

Q In addition to the increase mentioned in the statement that you just read?

A Yes.

Q You say there has been an increase since then, since 1914?

A No, that is the last one.

20 Q Have any wages been reduced or any wages of any class of employees been reduced to offset this?

A None whatever.

Q Then this increase which you have described here will amount to a total of more than three million dollars, will it not, as an increase in wages?

A Yes.

Q Is there any way of getting that back out of the business at the present time?

30 A Not unless we can get an increase in freight rates.

Q (*By Commissioner Donges.*) Do I understand the increase, using round figures, between twenty-two and twenty-four million covers the same service for the same number of employees?

40 A Yes, the new rates applied on exactly the same number of hours of labor. The next item of increase of importance is the hours of service law to which reference was made a little while ago, under which we are prohibited from using our train service employees over sixteen hours continuously or our telegraph and

F. B. Lincoln, direct.

telephone operators over nine hours, without penalty payments, and that is costing us on an average of \$140,000 a year.

Q (*By Mr. Minard.*) Over and above what the same service would cost otherwise?

A Yes; in other words, the penalty which we pay for the excess hours under the hours of service law which is unavoidable, averages about \$140,000 a year. 10
The next item of increased charges we are facing is that of the increase in taxes. The taxes on our property have doubled in ten years. They were nine hundred thousand dollars ten years and they are \$1,800,000 in 1914.

Q Was that increase general or more or less in some places?

A That is taking the property as a whole. As a matter of fact, the taxes in the State of New Jersey have trebled in ten years. They are three times as much as they were ten years ago in the State of New Jersey. The growth is practically at the rate of ten per cent. a year and if they are to keep on that rate we will be facing taxes of over three millions in about ten years more or an increase of another million which has to be met out of operating earnings. 20

The cost of maintenance of way, maintenance of permanent way of the road which is met out of operating earnings, shows an increase on an average of about \$500,000 a year. That is to say, the increase, the betterment of the standard of upkeep requires a growing charge of about \$500,000. If we could hold our maintenance of way charges at a level that is to say, if we could simply maintain the property at a given level continuously, our charge would be about seven millions a year as we now spend the money, but each year we face an increase of about a half million for raising the standard of maintenance, increased rails, heavy weight of bridges, more and better ballast 30
40

F. B. Lincoln, direct.

and other betterments that are required from the growth of the traffic, from the heavier locomotives and larger cars we have to handle and other safety precautions. The maintenance of our signal system—

Q What effort is the railroad company making to offset this increase?

A In maintenance?

10 Q Yes, the heavier rail, the heavier bridges, ballast, and so on.

A They are not making any effort to offset it; we have to face it.

Q What causes that, what produces that situation?

A The growth of traffic and the growth in the standard of the requirements of the public for better service, more rapid service, heavier equipment.

20 Q Has the hours of service act and the Full Crew law had anything to do with the lengthening of trains and the increasing of the size of cars?

A No.

Q You spoke of seven million a year for the cost keeping the railroad at a given level of condition and the increase of \$500,000 a year that is necessary; can you say whether recently it has been necessary to postpone this work or defer this annual expenditure?

30 A Why, yes, from lack of funds we have been obliged to postpone a great deal of betterment and considerable maintenance work that we otherwise should do. We have reduced our forces since the first of September and have done very much less work this year than we did last year, for lack of funds to do the work with.

Q What does that mean in the long run?

A It simply means that we have deferred necessary upkeep work which will have to be done later.

40 Q In your judgment, how soon—how long can this work be postponed?

F. B. Lincoln, direct.

A The important work on which we have deferred expenditure to the extent of possibly \$200,000 since July 1st, will have to be done within a year. We cannot defer it beyond next spring or summer.

Q (*By Commissioner Douges.*) What work is that?

A Rail and tie renewals, very largely, ballasting to some extent. We found ourselves short of funds after the first of the fiscal year and reduced our estimates for the ballast requirements very largely and put over some rail renewals and a considerable share of tie renewals in order to reduce force. Part of the ties are on yet and others are included in our estimates for this year which we feel have got to go under the track between now and sometime next summer. Normally we have put in those ties and made those rail renewals prior to December 1st. This year we could not, so that work has been deferred until next spring, and with due regard to safe conditions of the track I believe we could not defer it in the spring; they must go in then if we can find the money. 10 20

Q Will that then interfere with the annual increase of cost of maintenance which will accrue for next year?

A Oh, no, the same general average of increasing costs is running all the time.

Q Whether the work is postponed or not?

A You might put over a part of it for one year and you would have to double up the following year. The permanent way of the railroad is in the nature of a savings bank and when you get hard up you borrow from that bank, but you always have to pay it back with a very large rate of interest. 30

Q What is the next item you have there?

A Maintenance of equipment.

Q What has been done in the last year or so regarding the equipment, keeping it in repair? 40

F. B. Lincoln, direct.

A The normal maintenance of equipment charge is running now about eleven million dollars a year which, of course, comes out of operating earnings, but the principal factor entering into an increase in that charge has already been taken into consideration in the safety appliance act and the steel underframes.

10 Q Is there an accumulation now or has there been up to recently an accumulation of cars which needed repairs but to which repairs had not been made?

A We had on the first of August a very large accumulation of bad order cars, because we had deferred the repair work for lack of funds.

Q How long had that work been deferred?

A Well, the shop forces have been on a reduced time basis since last January.

20 Q How many cars accumulated or what proportion of the equipment, do you know?

A About ten and a half per cent. of the total equipment owned was in bad order on the first of August.

Q What has been done to bring that up?

30 A We have increased the shop time and increased the force because we had to have the cars for use. We could not allow the cripples to accumulate and the prospective demands of business indicated we would have to repair more cars than we were doing so we increased the shop forces and have now reduced the percentage of bad order cars to about four and a half. That is a fluctuating condition and governed quite largely by our funds.

Q Have you any idea what this has cost, this emergency work of restoring cars?

A No, I couldn't say.

Q How much additional cost?

40 A There is no additional cost involved above the average cost of upkeep of the equipment. It costs

F. B. Lincoln, direct.

about seventy-five dollars per year to maintain a car. You have to maintain the car if you keep it in service and the money has to be spent at some one time or another. If you defer it at one time you have to apply it later. The only excess charge involved is, that when you are working your men full force and full time you get better efficiency; when you shut your shops down and run them on part time and part force you lose efficiency and the unit costs are necessary slightly increased. In the matter of equipment, we have got to buy a million dollars worth of passenger train service cars per year for the next ten years to properly protect the traffic.

10

Q And what is the occasion for that?

A The obsolescence of equipment now in service and the growth of traffic. We are not going to spend a million for passenger train equipment this year because we haven't got the money, but the best estimates we are able to make as to the requirement, based on our past experience, indicate that we will have to spend an average of one million dollars a year for ten years.

20

Q Have you any idea what proportion of this passenger equipment is used in New Jersey?

A Well, no, not offhand. I have an assignment of passenger service equipment here, I think, but it would be pretty hard to tell the exact percentage. A very large share of it is used in New Jersey because the biggest part of our passenger train service is in the commuter service.

30

Q Generally speaking, is three-fourths of the passenger car equipment used here?

A Yes, I should say approximately that; it would not be far off.

Q What have you to say about the necessary expenditures for freight car equipment, freight equipment? Are you looking up something there?

40

F. B. Lincoln, direct.

A I was looking for the assignment of passenger train service cars. Out of six hundred and ninety-seven passenger service cars there are 407 in suburban equipment alone and 200 in other local service, so that seventy-five per cent. of the total passenger service equipment is probably in the State of New Jersey; substantially.

10 Q (*By Commissioner Treacy.*) You say seventy-five per cent. of the total passenger service?

A Pretty near.

Q The total passenger service on all Erie Railroad lines between New York and Chicago?

A Yes, sir.

Q Seventy-five per cent. of it is used in New Jersey?

A Four hundred and seven cars out of 697. That is in suburban service alone.

20 Q Have you only 697 passenger cars on the whole Erie system?

A That is all.

Mr. Taylor. That, Mr. Commissioner, is substantially the same evidence as we put in in the commutation case. Of the cars used in passenger service something like 600 out of 800 were in use in New Jersey.

By Mr. Minard.

30 Q What about the necessary expenditures for freight equipment?

A The requirements for freight equipment in the next ten years will average \$2,500,000 a year.

Q What makes this necessary?

A The deterioration of cars in service, requiring a dismantelling, and the growth of business. That estimate is based on the average rate of growth of business and average purchase of equipment in the
40 past, and the known rate of depreciation of our equip-

F. B. Lincoln, direct.

ment now in service. The same conditions will apply in that particular as with the passenger service equipment. We have no order, nor do we expect to buy this year two and a half million dollars worth of freight equipment, because it will be impossible for us to pay for it, but on the average we will be obliged to make those purchases if we are to take care of the service required and take care of the people tributary to our line. It is a condition, particularly in freight service, that we must meet, because the population living tributary to the Erie and quite largely tributary to the Erie alone have got to be taken care of. 10

Q Do you know anything about the necessary expenditures for locomotives?

A I haven't taken that into consideration.

Q Generally speaking, what is the tendency now in the purchase of locomotives?

A You mean as to the kind of locomotives we are going to buy? 20

Q Yes.

A The tendency is to buy larger locomotives all the time.

Q Do you know in a general way whether a large proportion of your locomotives or whether a large proportion of your tractive power has got to be replaced in the next few years?

A I wouldn't say a large proportion of it, but we have to make very expensive purchases of motive power in the next ten years. 30

Q To take care of the heavier car equipment, passenger and freight?

A Yes, sir. We have to purchase a very large number of locomotives, although I cannot say just how many we have estimated on now, and of a type that are costing us from \$25,000 to \$28,000 a piece as compared with locomotives that served the purpose ten years ago which cost us \$15,000 or \$17,000 a piece. 40

F. B. Lincoln, direct.

Our average price for a locomotive now is about twenty-five thousand dollars, the type of engine we have to buy.

10 *Mr. Hervey.* It seems these last items, several of them are the ordinary purchases that we would expect a road would have to go on and do, nothing extraordinary about them at all, the witness does not testify to that. The question of double tracking and some other things of that kind, signals and so on, are all matters which seem to me were pertinent to show the commission that some extraordinary expenditure was to be made or was contemplated, but these last several items that have gone into the record, the witness is simply saying, we are going to spend money in the future because business is going to increase, about the same ratio they spent it in the past. I don't see it is at all pertinent.

20

Commissioner Donges. It is in now.

Mr. Minard. Our opinion about that is—

Commissioner Donges. It is in, Mr. Minard.

Q Mr. Lincoln, on the general situation as involved in the different items which you have mentioned, what, in your judgment, what have you to say with regard to your opinion of the necessity as against the expenditure of three millions or more for the elimination of grade crossings in Paterson?

30

A Well, from the point of view of the operating department there is only one answer to that. The list of capital expenditures that I have referred to I should regard as of far more importance both as safety measures and from the standpoint of affording better facilities for operation and increased earnings.

Q From the standpoint of safety, why do you say that they are of greater importance?

40 A The double tracking alone is an element of safe-

F. B. Lincoln, direct.

ty in the protection of a very much greater number of people all over the system than the mere elimination of some grade crossings in the specified locality, necessarily.

Q Doesn't that go to practically all of the expenditures that you have referred to there? In all those cases is there not a great number of people whose safety is involved than there are at a grade crossing? 10

A Most assuredly, because the question of additional tracks and additional terminal facilities and the signalling of the operation and the strengthening of the equipment all apply to the entire patronage of the Erie Railroad as against possibly a few people who may be affected by certain grade crossing eliminations.

Q On the standpoint of service, there is no doubt in your mind that the company would be enabled to render more adequate service in proportion to the number of these expenditures that it is able to make? 20

A Assuredly so.

Q From the standpoint of savings, can you give us an illustration of what is to be accomplished by these changes in track, involved in double tracking. For instance, I assume that double tracking will involve, in some cases, elimination of curves and grades, is that true?

A Yes, quite largely. 30

Q Can you give an illustration of how savings are—a concrete illustration of how savings are accomplished in that direction? Have you had any experience along that line?

A I have had a good deal of experience in the effect the reduction of grades and increasing of operating facilities has had on the expense of operation. The reducing of grades necessarily increases the train load, which reduces the cost of operation on all railroads. I have had some personal experience in that 40

F. B. Lincoln, direct.

line where the immediate effect was an increase, with a very small expenditure, was an increase of perhaps ten or fifteen per cent. in the average train load on the property; an expenditure of \$7,000 resulting in an earning of \$25,000 in a year.

Q Is that a concrete case or just an illustration?

10 A Absolutely a concrete case within my own experience. That same general condition applies on any work of the character that involves double tracking and reducing of grades and elimination of curvature.

Q Do you know how much money the company spent the last five years along the lines of these improvements you mentioned here?

A In the way of betterment expense?

Q Yes.

A Substantially \$35,000,000.

20 Q (*By Commissioner Donges.*) In the way of what expense?

A Betterment expense.

Q (*By Mr. Minard.*) These have consisted chiefly of what?

A Double tracking, renewals of bridges, purchase of increased volume of equipment. Those are the three principal items, double track, new bridges and new signals, increased equipment.

30 Q Then the items mentioned as necessary expenditures in the future are simply the completion of a general plan along the lines that you have discussed?

40 A Yes, sir. We now have, duly authorized by the Board of Directors, capital expenditures for necessary added facilities, \$22,000,000 to expend. That is to say, the authorities under which these expenditures are to be made cover thirty million dollars of estimated cost. We have spent eight million of that and a very considerable share of that work in spread out as under way. We have \$22,000,000 to spend under existing authorities. The most of those are deferred,

F. B. Lincoln, cross.

that is to say, although authorized they have been held up. They have been authorized so far as our files are concerned and our records are concerned, the authorities have been passed to the operating and engineering departments to make the expenditures, but the actual work has been held up by executive order simply for lack of funds; otherwise all of that work would be under way or completed. 10

Q All that work has been, as you stated a while ago, passed upon as to the necessity for its being done?

A Absolutely every bit of it.

Q (*By Commissioner Treacy.*) Is any part of that thirty millions authorized for the elimination of grade crossings?

A Yes. There are a very few grade crossing eliminations in that list. I don't recall exactly how many there are. 20

Mr. Minard. I will give you the details of those presently; another witness will do that.

Q (*By Mr. Minard.*) Were you through, Mr. Lincoln?

A Unless you have some further questions.

Q Have you any information there as to the revenue per ton mile covering the past year?

A The revenue per ton mile?

Q Yes, on the road.

A Yes. 30

(Question read.)

Witness. The revenue per ton mile, 1914, shows a decrease of 6.2 per cent., as compared with 1913. In other words, a decrease in the average revenue received per ton mile.

Cross examination by Mr. Merrey.

Q Mr. Lincoln, you put the work of double tracking which you wish to do on the road ahead of the 40

F. B. Lincoln, cross.

removal of grade crossings, on the ground of safety?

A Yes.

Q Safety to what?

A The public.

Q The general public?

A The general public.

10 Q What has been your experience in the last year on the road, so far as safety to the public was concerned on signal track parts of the road?

A As to accidents that have occurred?

Q Yes. Have you had any accidents in which any of the public have been injured because the road was not double tracked?

A We have.

Q Whereabouts?

20 A We had one in March, I think it was, where a passenger train ran into a freight train on a single track, killed the locomotive engineer and injured a large number of passengers, which would not have occurred if the railroad had been double tracked at that point.

Q How many people were injured in that?

A I don't remember exactly, ten or fifteen.

30 Q Have you kept any records of the number of people who have been injured on your road for some time past, say a period of ten years, because of the lack of double tracking?

A We have kept no record from that particular standpoint, but we have an exact record of all the people injured on the property for ten years.

Q Haven't you been advertising during various years that you have not killed a passenger?

A Yes, we are pretty proud of that record.

Q You have had that record several years?

A Yes.

40 Q Notwithstanding the fact you had a great deal of single track?

F. B. Lincoln, cross.

A Yes.

Q Did you ever have a year you did not kill a great many people on grade crossings?

Mr. Minard. On one grade crossing?

Q On all grade crossings and on the grade crossings in question.

A I could not say as to the grade crossings in Paterson, but I should say off-hand there never has been a year when we have not killed people on the total grade crossings on the Erie Railroad. 10

Q As a matter of fact, don't you have a great many more casualties on grade crossings than you do on your trains by reason of not having double track?

Mr. Minard. You ask us to eliminate all grade crossings?

Mr. Merrey. I am asking the witness a simple question. 20

(Question read.)

A I should say that we injure a great many more trespassers in that way than we do on our trains.

Q Don't call them trespassers; people, the public. You haven't any record or haven't any knowledge yourself how many people you have killed and injured on the Paterson grade crossings in the last year?

A Not of my knowledge at the moment. We have a record, of course. 30

Q You pay no attention to it?

A I pay attention to it, to the extent that those cases are all reported to me over the entire road the minute they occur.

Q Do you keep any record to know how many they amount to so when you make a statement that the elimination of single track road is more important than the elimination of grade crossings you are sure of your ground? 40

F. B. Lincoln, cross.

A Yes, I think the records are in such shape that that statement will be susceptible of proof.

Q Do you admit you kill more people and injure more people on your grade crossings than you do on your trains?

A Yes.

10 Q Why do you say that there is greater necessity for the saving of life and limb of the public generally in eliminating these single track portions of your road than in eliminating the grade crossings?

20 A For the reason that in the operation of passenger trains on single track the lives of a great many people are in constant jeopardy and those people are defenseless against that jeopardy on their own part, because they have to ride on these trains, whereas the average traveler on the public highway has an absolute and perfect defense in himself against accident
30 in any crossing if he will observe the law and be careful in going over the crossing. There is no possible risk to anyone on the highway if they will take proper precautions, under any circumstances I ever heard of.

Q So you have gone on the theory that anybody who gets hurt on your grade crossings is a trespasser and the company has no duty it owes to him?

30 A Not necessarily. I don't go as far as that, but I do say no one has ever been hurt on a grade crossing in any case I ever heard of, where, if they exercised proper precaution, they could not have avoided the accident.

Q You have been looking at it entirely from the standpoint of the company?

A No, because I am a very frequent traveler over grade crossings.

40 Q But when you make this statement as to the necessity of eliminating this single track first, double

F. B. Lincoln, cross.

tracking; you are looking at that from the standpoint of the company.

A No, I am looking at it from the standpoint of proper operation and from the standpoint of elimination of risk for the people so far as passenger service is concerned.

Q You know people do get killed on grade crossings in great numbers every year?

10

A Yes, undoubtedly.

Q And you think their lives are not as important as those that travel on the trains, is that the idea? The fact that they are probably careless is no reason they should be protected, because they could not get hurt unless there was some degree of carelessness?

A They certainly could not.

Q (*By Commissioner Donges.*) Did you ever know of accidents occurring on single track road by reason of collision of trains or other ordinary causes of such accidents unless there was negligence on the part of some individual? It usually is the result of negligence on the part of someone.

20

A The largest proportion of them, yes, can be traced to that.

Q (*By Mr. Merrey.*) In other words, where you depend on the human element, as you have to do in the operation of a railroad, you are going to have sometime when it breaks down and there is carelessness?

30

A Yes.

Q And if you have a certain number of people passing over a grade crossing there will come a few times when some of them let down and are a little careless; that is as sure as fate, isn't it?

A Yes.

Q So as a matter of fact, as time goes on and people are just as careful as they usually are and just as careless, you are going to have a great many more

40

F. B. Lincoln, cross.

casualties on grade crossings than you will from the operation of your single track?

A I should hope so.

Q Do you think it is at all possible to eliminate that carelessness or that percentage of carelessness from the ordinary person who uses the grade crossing?

10 A Do I think it is possible to do that?

Q Yes. In other words, don't you think that a certain number of people are going to be careless at one time or other if they cross often?

A No, I don't think that necessarily follows. I think that is a matter of education.

Q That may do some of it, but you cannot educate all that carelessness out of the human system; you cannot do it with your railroads, can you, with your employees, can you?

20 A No.

Q You find no matter how you train them and educate them, at some time or other they will break down. That is the same thing with regard to the person who crosses the grade crossing; there comes a time when he is going to forget and be careless, isn't that true.

A Yes.

30 *Mr. Minard.* It seems to me merely like an argument between the witness and counsel based on the theory that there is an obligation—

Commissioner Donges. The witness was asked questions. Object to the questions instead of making a statement.

Mr. McCreary. I didn't know there was any obligation on the part of the railroad company to prevent people from being hurt at grade crossings.

40 *Commissioner Donges.* If there is no objection, you may continue.

F. B. Lincoln, cross.

Q Did you have in mind when you said that was more important, the fact that any accidents occurring upon your single track, which would probably be due to the carelessness of some employee, that the company is made responsible in the courts for damages, whereas on grade crossings you are rarely made responsible?

A No, I didn't have that in mind at all, I hadn't thought of it. 10

Q You find that accidents on grade crossings are less costly to the company than they are on the operation of the road?

A Well, that may be true from a financial point of view.

Q You know that is true?

A I presume so.

Q You didn't have that in mind however when you made that statement? 20

A I did not, because that phase of it never entered my head.

Q You also said you had in mind the fact there was less damage to the property of the company; did you mean by that that on accidents on single track you smashed up a lot of cars whereas when a person was injured at a grade crossing very little damage was done to the train?

A I don't recall saying anything about damage to the property. 30

Q You did speak about great damage being done to your property in case of accidents on your single track.

Mr. Minard. Did you or did you not say that?

Witness. I don't recall any such statement.

I don't see the exact application, therefore I do not recall making the statement.

Q You still say that so far as experience is concerned you are likely to have more accidents, casual- 40

F. B. Lincoln, cross.

ties on this single track portion of your road than you are at grade crossings?

Mr. Minard. I object to that.

Commissioner Donges. He is an intelligent witness, quite able to say what he testified to. You have a right to object to the question.

10

Mr. Merrey. I am asking him if he still thinks something.

Commissioner Donges. If there are objections let them be made to the board and they will be ruled on. Don't get into argument.

Mr. Minard. Objected to as a misstatement of the witness's testimony.

Commissioner Donges. If the witness didn't say that—

20

Mr. Merrey. He didn't quite say that. I think it is a fair enough question.

Mr. Minard. If he admits he did not say that then my objection is good.

Commissioner Donges. Answer the question.

Witness. I think, Mr. Counsel, you misrepresented me. I did not make any such statement as that.

Q What statement did you make about that?

A You asked me—

30

Q But in the beginning, on the examination by Mr. Minard you said you placed this expenditure first; tell us what you did say about it being of greater necessity.

Mr. Minard. Objected to for the reason that the record will show what he did say and is more reliable than the witness's cross examination.

Commissioner Donges. It is proper cross examination to ask him again what he said.

40

Witness. My recollection of the wording of my original statement would be, that I regarded

F. B. Lincoln, cross.

the necessity of double tracking the railroad as of the most vital importance from the standpoint of safety, that I have put it down as first in my list of expenditures contemplated in the line of their relative importance and as a whole on the property we regard the requirement of double tracking as of the first importance beyond all other things at the present time.

10

Q Now then, I asked you if you find more danger on the single track part of your road than you do on the grade crossings so far as the general public is concerned, whether they are passengers or whether they are trespassers or people crossing grade crossings.

A That is absolutely a matter of judgment, because there are no statistics to answer that kind of a question, but I do say there is a far greater risk to a greater number of people in the movement of passenger trains over single track than the number of people involved in this in going over grade crossings.

20

Q How is it that for a great number of years past—I take it you admit that is true—that there have been more injuries on these grade crossings and on the grade crossings probably in question here than there has been on this single track road?

A We have minimized that risk to the best of our ability by careful operation.

30

Q Then the single track road if operated carefully would not produce the number of accidents that these grade crossings do?

A That I should not say; I would not answer that affirmatively.

Q Then you don't know?

A I don't know.

Q Then you don't know as a matter of fact from a point of safety it would be best to double track or eliminate the crossings?

40

F. B. Lincoln, cross.

A I say in my judgment that is unquestionably so.

Q Your judgment then is not based on statistics, a study of the situation thoroughly.

Mr. Minard. Judgment is never based on statistics, or else you never need to exercise judgment.

10 *Commissioner Douglas.* He may answer the question.

(Question read.)

A My judgment is based upon a very careful study of the situation on our property and that is my conclusion and my best judgment.

Q Do you think it is a thorough study when you have not taken into mind the actual experience of your road so you know the number of accidents you have upon the single track and upon the grade crossings?

20 A I do know those number of accidents. They are all matters of record. I haven't them here off-hand to cite, but those matters have been given consideration.

Q You don't know whether you have more accidents on your single track or upon the grade crossings, do you?

A Yes.

30 Q Where do you have the most accidents?

A On grade crossings; I said that some time ago.

Q Then you think it is still more important to eliminate the single track than to eliminate the grade crossings?

A Yes, I do.

Q You spoke about you need more tracks between Jersey City and Suffern?

A Yes.

40 Q And it would cost three and a half million; is it your intention to put in six tracks?

F. B. Lincoln, cross.

A The present plan contemplates two more tracks, two freight tracks.

Q How many tracks have you between Jersey City and Suffern now?

A Four.

Q All the way?

A Yes.

Q So that will mean six?

10

A Yes. It will be six tracks all the way. That is substantially what it would work out.

Q And in order to make the system six track between Jersey City and Suffern it will cost three and a half million?

A Yes.

Q You spoke about rendering the situation more safe in Paterson if you did that. You run very little freight through Paterson now?

A More safe to the citizens of Paterson because they are very vitally concerned on the traffic out across the meadows as now handled. 20

Q You consider that a point of danger, on the meadows?

A I consider that a point of danger, more or less risk involved in handling that dense suburban traffic mixed in with freight trains.

Q The system contemplates a low grade freight line?

A Yes.

30

Q Not adjacent to the present line?

A No, it diverges just the other side of the Hackensack bridge.

Q (*By Commissioner Tracy.*) Where?

A Just west of the Hackensack bridge.

Mr. Merreg. The map which they presented to the commission last Thursday shows it, I think.

Q (*By Mr. Merreg.*) The object of that is to save expense by having a lower grade, is it not?

40

F. B. Lincoln, cross.

A That is one of the objects, yes, sir, improved operation.

Q The expenditure you speak of in the passenger terminal, Jersey City; does that include anything with a view to the electrification of the road?

A No, except as it would fit in with an electrified railroad later.

10 Q Have you taken that into consideration at all, the possibility of electrification?

A Not in these figures.

Q Would that passenger terminal accommodate such a road?

A Yes.

Q Is it planned in view of the possibility of change?

20 A Yes, the buildings, the layout of tracks would lend themselves to electrification later. That is to say, our development would be of a character that would permit of fitting electrification to it.

Q Has it been studied out in conjunction with the tubes at New York City?

A Yes.

Q If you had tubes to New York City and direct connections, the terminal would not be necessary, a large terminal would not be necessary, would it?

30 A That is another factor, another feature altogether. That is not within the scope of this present plan. That would cost a great deal more than this contemplated development.

Q I understand that three-fourths of your passenger business is done within this district very near to the City of New York.

Mr. Minard. He said three-fourths of the passenger cars.

Mr. Merrey. I understood that, but I presumed the other thing followed.

F. B. Lincoln, cross.

A I would not care to go on record on that question because I don't know as to the division of revenues.

Q In the planning of this terminal then you have not taken into consideration the possibility of running your train direct to New York City by a tube?

A Yes, all of the possibilities, I think, have been pretty well canvassed, Mr. Merrey.

10

Q In making a terminal that would cost seven million?

A Yes.

Q If you put in a tube or if you connected with the tubes now in wouldn't your terminal requirements be very much reduced?

A I am not prepared to answer that question, sir; I haven't gone into that study of it.

Q This equipment you speak about, buying new passenger cars, new freight equipment and all that, is in the same proportion that you have been buying for a number of years past, except there is an increase of business or expected increase of business?

20

A No, it is not on the proportion we have been buying. If we had bought in the past ten or fifteen years in that ratio we would not have so much to buy now. As a matter of fact, we are pretty badly behind on passenger business and that is one reason why we have got to make rather extraordinary expenditures in the very near future. We cannot expect to take the *pro rata* share of expenditure on this year, it is impossible, we haven't the funds to do it. It simply means we are again deferring a very necessary requirement and piling up a burden which we will have to face a little later.

30

Q You buy these cars on car trust certificates?

A Some have been bought that way, others have been bought outright in the past. I think it is a rea-

40

F. B. Lincoln, cross.

sonable assumption if we buy any more we will have to buy them on the car trust.

Q A little more expensive, I suppose?

A No, not particularly in the long run. Those car trusts are worked out on an equitable basis of interest accruals.

10 Q (*By Mr. Minard.*) What have you to say about the dangers of grade crossings if the public use as much caution in using the grade crossings as you use in operating a single track?

A I think there would be very few people hurt on grade crossings, Mr. Counsel.

Q You spoke of the low grade—that line on the map was referred to as the low grade line outside the present right of way; that would nevertheless take the freight trains away from the tracks you propose to use for passenger trains?

20 A Certainly, that is the primary consideration.

(Adjourned until Wednesday, November 4th, 1914, at the State House, Trenton, N. J., at 2.00 o'clock, P. M.)

30

40

Robert C. Falconer, direct.

SEVENTEENTH HEARING.

BOARD OF PUBLIC UTILITY COMMISSIONERS

Trenton, N. J., Wednesday, November 4, 1914.

PATERSON GRADE CROSSING ELIMINATION, }
ERIE RAILROAD COMPANY. }

Before the following commissioners:

R. W. E. Donges, Esq.

T. J. Hillery, Esq.

J. J. Treacy, Esq.

For the petitioner appears E. F. Merrey, Esq.

For the respondent appear D. E. Minard, Esq., and
G. S. Hobart, Esq.

10

Commissioner Donges. My impression was the
cross examination of Mr. Lincoln was completed;
is that true, Mr. Merrey?

20

Mr. Merrey. I understood so.

ROBERT C. FALCONER, sworn on behalf of re-
spondent.

Direct examination by Mr. Minard.

Q Mr. Falconer, what is your official position
with the Erie Railroad Company?

A Superintendent of construction with the duties
of the chief engineer.

30

Q Your functions then are really what is generally
those of the chief engineer of a railroad company?

A Yes.

Q What is your jurisdiction in that matter?

A My jurisdiction extends over all of the Erie
Railroad lines, including the New York, Susquehanna
& Western and all leased or affiliated lines.

Q And you have charge of all construction work
of the entire system?

40

A Yes.

Robert C. Falconer, direct.

Q Do you also participate in the consideration of these improvements with regard to their necessity for the road?

A Yes.

Q And in the main you are familiar not only with the nature of the improvements but with the reason for their being made?

10 A Yes.

Q How long have you been in the railroad business?

A The railroad business alone about eleven years.

Q How long have you been an engineer?

Mr. Merrey. Wasn't this all gone into by Mr. Falconer before?

Mr. Minard. He has never testified.

A Nineteen years.

20 Q During that time have you been engaged in practical engineering work continuously?

A Continuously, yes.

Q How long have you been with the Erie Railroad?

A Nine years.

Q Have you been in any other department of railroading than engineering?

A I have been in the operating department for one year as division engineer.

30 Q And then you came into headquarters engineering department?

A Yes. I was originally in the engineering and construction department; then left that department and spent one year in the operating department and came back to the construction department.

Q How long have you been fulfilling the duties of chief engineer?

A Since February 7th, 1913.

Q And before that what was your position?

40 A Principal assistant engineer.

Robert C. Falconer, direct.

Q For how long?

A About six months.

Q How long a time—for how long a time have you been familiar with the work of construction and the reason for this work in the construction department of the Erie?

A Well, I have been familiar with all of the work only since my appointment as superintendent of construction, but previous to that time during my entire service with the Erie, I have been familiar with the necessity in the plans of considerable portions of the work. 10

Q In connection with this case or in any other connection, have you gone over the system alone or with other officials for the purpose of determining what improvements were essential to be made within a given period?

A I don't know exactly how to answer that question. I have not actually travelled over the system with them personally to determine what is necessary but these questions come up constantly and we periodically prepare a list of improvements which we think are essential. 20

Q Have you prepared, or has a list been prepared in your department of the given number of improvements to be made in a given time?

A Yes, we have prepared several such lists. 30

Q Is there one now in existence, the current list?

A Yes. I have a list here which I prepared on the basis of a list which was prepared last fall, about a year ago.

Q And the improvements mentioned in such a list, are the improvements mentioned in such a list authorized to be made?

A Some of them have been authorized and the work help up, some of them are now authorized and 40

Robert C. Falconer, direct.

under process of completion, some of them have never been authorized.

Q Have all of them been passed upon as to their necessity?

A Yes, by the officers of the company, by the Board of Directors.

10 Q Those which have been authorized, I understand from previous testimony, are those which have been approved by the Board of Directors as to the necessity for the work?

A Yes.

Q Have you such a list with you?

A Yes.

Q In the first place, have you a list of the improvements made by the railroad company for a given period of time?

20 A I have not a list of all the individual improvements but I have here a statement of expenditures for additions and betterments.

Q For the general improvement of the road?

A For the general improvement of the road from 1906 to 1914, inclusive.

Q Aggregating how much money?

A \$55,727,039.

30 Q And this list is so arranged into columns as to indicate what proportion, if any, of the expenditure is charged to capital account and what proportion is charged to income?

A Yes.

Q Or paid for out of income?

A Paid for out of income, yes, sir.

Q And this list shows in a general way what the improvements were for, doesn't it?

A Yes.

Mr. Minard. I will offer that list for the information of the board.

40 *Commissioner Donges.* It will be marked.

Robert C. Falconer, direct.

(Statement entitled "Expenditures, additions and betterments—road 1906 to 1914, inclusive," received and marked Exhibit R-128.)

Q Mr. Falconer, what have you to say with regard to whether the list which you have of necessary improvements is or is not a carrying out of a general plan for the improvement of the system which was begun with these expenditures of fifty-five millions or more? 10

A This is a carrying out of that same system of improvements, plan of improvement.

Q As to any or all of these proposed improvements, do they represent the completion of those already begun in that list?

A Well, they represent largely the completion. There are many minor things which are not included in my list, of lesser cost, of less importance, which would have to be constructed or improved in order to complete the scheme in its entirety. 20

Q Are there any items in this list that you are about to discuss that are necessary for the purpose of bringing into use facilities toward which money has been already expended and the work is unfinished?

A Yes.

Q Mr. Falconer, referring to that list, will you proceed to mention the features which you consider most important for the improvement of the system to make it an efficient railroad as a whole? 30

Mr. Merrey. Are you offering this list now?

Mr. Minard. Not now; I want to discuss it. I am willing to offer it in evidence. I will offer it now.

Commissioner Donges. It may be marked then as Exhibit 129. 40

Robert C. Falconer, direct.

(Statement entitled "Approximate estimate of cost of construction expenditures which should be made within five years" received and marked Exhibit R-129.)

10 A We have spent a great deal of money to secure a double track railroad. The double tracking is not completed. We have spent a great deal of money to
20 reduce grades; the grade reduction is not complete. When the double tracking and grade reduction are completed they will enable the railroad to handle a much greater volume of traffic than it has in the past or than it does now, and will necessitate large improvements to our terminal facilities, not only division terminals, intermediate points on the road, but to our terminals at the ends of the railroad. The most important things aside from safety seem to be
20 the completion of the double tracking and the completion of the grade reduction and the increase in the capacity of the terminals. The order in which—

 Q Just let me ask right there—is there in your judgment, an element of safety in those things you have mentioned, terminal improvements and grade reductions and double tracking?

 A Yes. There is a very large element of safety in double tracking and in grade revision. In terminal improvements, such of the terminal improvements as
30 have to do with the handling of passenger business is an element of safety.

 Q Proceed with your list then.

 A The order of importance of these items on the list is a little different from the order in which they are placed. The item of first importance to my mind, is the completion of the work of double tracking from Marion to Lomax, which is the fifth item on the list.

 Q Proceed Mr. Falconer, and explain that double tracking and what it will accomplish and the necessity for it.
40

Robert C. Falconer, direct.

Commissioner Donger. Marion, Ohio, to Lomax, Indiana?

Witness. Yes, sir.

A We originally had a single track through this distance, 205 miles with five-tenths per cent. grades. The country was particularly adapted for low grade line which would reduce the cost of operation so that grades were reduced at the time the double tracking was done. Authority was granted for the double tracking in 1912 and seven and a half millions of dollars have been expended in the work. The work is very nearly completed and is being completed now. We have yet to expend— 10

Q (*By Commissioner Treacy.*) About two million to complete it?

A No, \$651,000 at the time these figures were made. 20

Q What is the importance of the completion of that work, in your judgment?

A It is very necessary to complete it because of the density of traffic out there on that division, and to reduce operating expenses, and to increase the safety.

Q How much is there to be double tracked yet in order to make the division double track?

A There remains only less than ten miles now.

Q Out of 205 miles on the division? 30

A Yes.

Q And the completion of those ten miles which will cost the amount you stated, you will then have a double track division?

A Yes, from Lomax. There still remains thirty-six miles of single track between Lomax and Griffith. Griffith is right in there (indicating). That is the item of next importance, the double tracking of that and the grade reduction between Lomax and Griffith. 40

Robert C. Falconer, direct.

Q (*By Commissioner Treacy.*) That is about thirty-five miles?

A Thirty-six miles.

Q (*By Mr. Minard.*) How much will that cost?

A \$2,051,000.

Q (*By Commissioner Treacy.*) There is about twenty-five miles left of the other part of the division?

10 A Ten miles.

Q It is the ten miles between Marion and Lomax?

A Yes, between Marion and Lomax, that has not been completed. There is really less than that. They are finishing it up very fast. I cannot give you the absolute figure, but there is less than ten miles.

Q (*By Mr. Minard.*) With regard to that stretch between Lomax and Griffith, is that work being done?

A No, that is not authorized.

Q Has any work been done on that part at all?

20 A We have made the surveys and we have had authority to buy part of the right of way, but no work, no actual construction work has been undertaken.

Q Do you know why?

A We didn't have the funds.

Q Proceed with your list. Are there any grade reductions?

A I would like to say there is a very important grade reduction in both directions. The ruling grade on that portion of the line is now five-tenths per cent.

30 Q From Lomax to Marion?

Q A No, from Lomax to Griffith, and it is proposed to reduce the grades to two-tenths per cent. westbound and three-tenths per cent. eastbound. The operating division containing this stretch of track is seventy-seven miles long and extends from Huntington, Indiana, to Hammond, Indiana, and now that whole division must of necessity be operated on a five-tenths per cent. grade basis and pusher engines used on the
40 single track portion of the line. On the basis of five-

Robert C. Falconer, direct.

tenths per cent. grade a H-21 engine, which is our most common type of freight engine in that territory, can haul fifty-three forty-ton cars, whereas if the grade is reduced as contemplated, the same engine and crew would haul seventy-five forty-ton cars eastbound and ninety-four westbound.

Q (*By Commissioner Treacy.*) How many now?

A Fifty-three. We almost double the westbound train, thereby cutting in two the item of labor and very materially reducing the item of coal and engine repairs, all those things are approximately cut in two when we can increase a train. 10

Q (*By Mr. Minard.*) The eastbound train will be increased about fifty per cent.?

A Yes.

Q Have you got the cost of that work?

A Yes, the cost was estimated at \$2,051,000. 20

Q What have you to say as to the grade reductions and the difference of the train haul in that district from Marion to Lomax?

A The same thing applies. We had the same rate of grade, five-tenths per cent. originally, and we are reducing to two-tenths per cent. westbound and three-tenths per cent. eastbound between Huntington and Lomax, and two-tenths per cent. both ways between Huntington and Marion.

Q (*By Mr. Merrey.*) Where is the operating division east of Huntington? 30

A Runs from Huntington to Marion.

Q (*By Mr. Minard.*) Proceed with the list, Mr. Falconer.

A The next item, the item that seems to me to be of next importance, is the grade reduction and double tracking from Steamburg to Jamestown.

Q Just indicate that on the map.

A Jamestown, New York. Steamburg is right there (indicating). We have completed the double 40

Robert C. Falsinger, director.

track and grade reduction from Salamanca to Steamburg, finished it up last year.

Q What is the necessity for that work?

A The additional track is necessary on account of the congestion. The grade reduction is necessary on account of—as a matter of economy in operation. We have already expended five million on the Meadville division east.

Q What is the advantage to be gained from the Steamburg to Jamestown change?

A We will reduce grades from eight-tenths per cent. to two-tenths per cent. eastbound and three-tenths per cent. westbound.

Q And what will be the effect on the train load?

A A H-21 engine on an eight-tenths per cent. grade will haul thirty-nine forty-ton cars up the grade, whereas on a three-tenths per cent. grade westbound it would haul seventy-five and on the two-tenths per cent. eastbound it would haul ninety-four. That is an increase of practically double on the three-tenths per cent. and nearly three times on the two-tenths per cent. grade. The additional track on the ten mile stretch which is now single track will also furnish relief which is badly needed.

Q What is the cost of that work, the estimated cost?

A That is estimated to cost \$2,600,000.

Q Has any part of that work been done?

A Not of this Steamburg to Jamestown.

Q But this portion is a portion of the scheme from Jamestown to Salamanca, part of which is carried out, is that right?

A Yes, in there it is a portion, yes, from Jamestown to Salamanca, but it goes through beyond Jamestown, from Meadville to Salamanca. That is the whole operating division.

Robert C. Falconer, director.

Q Is all the rest of the division now double track except this ten miles?

A Yes.

Q Is any part of this work under way, this ten miles?

A No.

Q Has anything been done about it yet?

A Only surveys and estimates.

10

Q What is the reason the work was not done or undertaken?

A We did not have the funds. Let me make a correction; this work is more than ten miles long. We have only ten miles of single track in this stretch but the grade reduction extends a good deal farther. Some of our double track will have to be revised as to grade.

Q What is your next item?

A The next item is a little stretch of single track on the Alleghany division east of Salamanca, between mile post 401 and CY tower, east of Carrolton, only about four and a half miles long. No grade reduction is contemplated at that point. The grades are good now, but the alignment is very bad and we only have a single track.

20

Q How much will that cost?

A Estimated to cost \$514,000.

Q Is that another division from the Salamanca to Jamestown division?

A Yes, it is on the Alleghany division.

30

Q What other portion of the Alleghany division is a single track; any?

A No, if we consider the Genesee River Railroad as one track and the old main line as another we can consider the whole Alleghany division as double tracked. We have two tracks to all points excepting this one.

Q Then this small piece of work here would enable the use of the double track on the whole division?

40

Robert C. Fahrner, direct.

10 A It amounts to that, yes. The Genesee River Railroad is a low grade freight line extending from Cuba Junction on the main line to Hunts Junction on the Buffalo division and it is used for freight only, the freight trains passing over this railroad and thence by the Buffalo division to Howell. The old main line passes over two high summits, one near Alfred and one east of Cuba, and the Genesee River Railroad avoids both of them. The old line is used for passenger business and such local freight as must of necessity go that way. All other freight goes by the Genesee River Railroad. This gives us two tracks, although it is not exactly the same as a double track railroad, because they go by different routes.

 Q So far as handling of traffic is concerned you have the same advantage as two tracks?

20 A Practically. We separate the freight traffic from the passenger traffic and the passenger traffic is not very dense, so that we accomplish a great deal in the way of safety as well as facility in operation.

 The next change of importance, or the next improvement in the order of importance, as I see it, is the grade reduction from Buchanan Junction to Elenango on the Meadville division, west.

 Q What will that grade reduction accomplish?

30 A We have at present a single track between these points with grades, ruling grades of about one per cent. in each direction. We now operate some west-bound freight trains over the Bessemer & Lake Erie shown in purple on the map between these points, as this railroad has lower grades than ours. The Bessemer & Lake Erie throughout a large portion of this distance is also a single track railroad, and cannot take care of our traffic in both directions. We of necessity operate our eastbound trains over our own line, notwithstanding the fact that the grades are
40 so bad.

Robert C. Falcus, director.

Q What will be the result of this grade reduction so far as hauling power is concerned?

A A comparison of the trainloads of the H-21 engine would be as follows; on one per cent. grade, the present grade, the engine can haul thirty forty-ton cars, whereas on a two-tenths per cent. grade it could haul ninety-four and on a three-tenths per cent. grade would haul seventy-five.

10

Q In other words, on the two-tenths per cent. grade you would carry as many cars as you now carry in three trains?

A Just as many, a little more.

Q And two and a half times the number on the three per cent. grade?

A Yes, on the three-tenths per cent. grade.

Q What is the cost of this work?

A \$1,204,000.

Q Has it been undertaken?

20

A No.

Q Has it been authorized?

A No.

Q Has it been decided upon to do it?

A Well, we have had schemes for six or seven years to do this work but we never have had the money to devote to it, so I have been advised.

Q Proceed with your list.

A There are in addition to the items named, two smaller items which I included in the first part of my list, in the first group in my list, one the Pennsylvania detour at Belfast, New York, costing \$100,000. This is a new piece of new track.

30

Q Where is Belfast?

A On the Genesee River Railroad at the point where the Genesee River Railroad crosses the Genesee Valley, crosses the valley of the Genesee River.

Q About half way between the ends of the Genesee River Railroad?

40

Robert C. Falconer, direct.

A Yes. When we built the Genesee River Railroad, we, in crossing the Pennsylvania, we agreed to construct a concrete arch to let them under our embankment which is about seventy-five feet high across that valley, and this concrete arch was to be wide enough for a double track and of sufficient height. We built the arch and when we built the embankment

10 the soil was so treacherous and the arch failed, so we cut their railroad in two. We then cut a hole through our embankment to the west of the arch and put a temporary detour through there and they have been running through this temporary detour ever since, but they have been insisting, and rightly so, that we construct their railroad in a permanent and satisfactory manner, and we are under obligations to do so, and that is this item of \$100,000 which is chargeable

20 to the cost of the Genesee River Railroad and which of course, we have to pay.

Q (*By Commissioner Donges.*) You have track-age rights only over the Genesee River Railroad?

A No, we own the Genesee River Railroad.

Mr. Merrey. It is a railroad they built, owning the stock of the railroad.

Mr. Minard. I don't know much about the details of that, but as I understand it, the company was organized and the Erie took all the

30 stock of the company, the same as they did to get the Bergen archways.

Witness. The Erie furnished all the money.

Mr. Minard. They organized a local company for some legal reason, to build that road, then took the stock. It was done that way, as I understand it.

Commissioner Donges. That is one of the lines that should be shown in red then, under the legend.

Robert C. Falconer, direct.

Mr. Minard. That is my understanding of it. I may be wrong.

Witness. There is an agreement with the Genesee River Railroad, as I understand it, whereby we pay them trackage rights which consists simply of the cost of maintaining the railroad. The Erie Railroad Company furnished all the capital to build it and owns all the stock.

10

The double tracking of the Ferrona branch is a small item amounting to \$386,000. The Ferrona branch is a railroad called the Sharon Railroad, extends from New Castle, Pennsylvania, to Sharon, Pennsylvania.

Q Is that in green?

A That is in green, yes, sir. There are two portions of it that are very badly congested, the northern end through Sharon and the southern end at New Castle. It is desired to establish passenger service on that railroad which it has not now.

20

Q (*By Mr. Minard.*) Isn't it true, Mr. Falconer, that the Erie did maintain passenger service at New Castle, Pennsylvania, some years ago?

A I don't know.

Mr. Minard. I know that is true, because I have been to New Castle in the last few weeks on that matter or a similar matter regarding some crossings. The railroad company had to discontinue passenger service down there because conditions were such as to make it unsafe to continue. The railroad company had to turn its passenger traffic over to the Pittsburg & Lake Erie Railroad Company, because we did not have facilities there to handle it.

30

Q How much does that cost?

A The length at Sharon which we propose to double track, that is the Erie, would cost \$386,000. The Pittsburg & Lake Erie Railroad under an agree-

40

Robert C. Falconer, direct.

ment propose to double track the end at New Castle and furnish the money for it under an agreement where they will be eventually recompensed, and that I have not included in my list.

Q What is next?

A The next group consists of additional tracks and grade reduction in addition to the above. In
10 other words, items that are not so absolutely essential as those in the first list.

Q Right there, what is the total on that first list that you just completed now?

A The total estimated cost of the first list is \$7,806,000.

Q In your judgment, what is the nature of the importance of that list of work?

A This first list?

Q Yes?

20 A I think it and the improvement of the necessary terminal improvements; those two are of prime importance.

Q What in your judgment, is their importance with relation to the elimination of grade crossings at Paterson?

A I think they are much more important than the elimination of grade crossings.

Q Do you consider they are more important for the benefit of the traveling public as well as for the
30 railroad company?

A Yes, I do.

Q (*By Mr. Merrey.*) You mean by traveling public, those that travel over your line?

A Yes.

Mr. Minard. All the public at large, I will make the question that way.

Q (*By Mr. Minard.*) What is your view of their importance with regard to the ability of the railroad
40 company to adequately handle its interstate business?

Robert C. Falconer, direct.

A They are of prime importance to enable the railroad company to handle its interstate business. The business of the railroad company is very largely interstate and all of these improvements, every single one of them, and the terminal improvements, are all necessary to aid in handling interstate business.

Q In your judgment, if the railroad company was required at this time to spend three millions or more for the elimination of grade crossings in Paterson, would its ability to handle the improvement, its duty with regard to interstate business be impaired? 10

A In my opinion it would. In my opinion that three million or whatever it is, should be expended in making some improvement that would enable the railroad to earn a greater income and it might thereby be enabled to set aside sums to carry out work which is not non-income producing. The elimination of grade crossings in Paterson or any other city produces no income, adequate, when compared to the expenditure. The saving in expenses is a very small fraction of one per cent. of the cost of the elimination, as a rule, and it will be so in Paterson. In other words, if the Paterson elimination is undertaken, the company will be burdened by fixed charges equal to the interest on the cost of construction and will save practically nothing in operating expenses, whereas if this same amount of money is expended at a point where operating expenses are reduced, such as grade reduction or additional tracks where they are necessary, the saving in operating expenses will help to pay for such improvements at a later time. The credit of the company is impaired by expenditures which do not improve, which do not increase its revenue. The credit of the company is improved by expenditures which do increase its revenue and the company, as I see it, cannot make expenditures of such magnitude as the Paterson grade crossing elimination without borrowing money. 20 30 40

Robert C. Falconer, direct.

Q Proceed with your list of improvements which in your judgment are necessary. I understand that you connect up the terminal improvements, that is the necessity for terminal improvements, with double tracking and grade reduction which you have already mentioned?

A Yes.

10 Q Suppose you proceed with them and discuss it in that connection?

A I connect the terminal improvements for the reason that as the double tracking is completed and the grade reduction is completed our business increases. It has been found true that wherever we have made an improvement enabling the railroad to handle more business that the business has followed in every case. Now then, our terminals have already reached their capacity as they are at present developed and
20 we are working under difficulties at present. If we complete our double tracking and grade reduction we certainly will have to increase our terminals simultaneously.

Q Right now with regard to handling of passenger traffic, what is your opinion about the present necessity of improving the passenger terminals at Jersey City?

A I think it would be a very desirable thing to do. We have about reached the capacity of our present
30 passenger terminal. I don't see how we could increase the number of trains or the number of people handled there very materially without better facilities.

Q Proceed with your list of terminal facilities necessary?

A The first item on the list is the revision of the Jersey City terminal, including a new office building, that is the Jersey City passenger terminal and the facilities freight and otherwise in the immediate vicinity which would have to be changed at the same time.
40 That is estimated to cost six million.

Robert C. Falconer, direct.

Q Have you considered a number of plans in that connection?

A Yes, there have been a number of plans considered.

Q Did you consider any plan that would cost seven million, to which Mr. Lincoln referred?

A Yes.

Q This plan for six million, has that received any preference? 10

A No plan has been adopted finally. There are a number that are receiving favorable consideration.

Q Proceed with the list of other features there? .

A We have at Weehawken a terminal improvement which consists of the entire remodeling of the yard to increase its capacity to provide receiving tracks sufficiently long so incoming trains will not have to be cut at Willow avenue. It embraces the extension of all the piers to the pier head line, double decking and widening pier A, the construction of new fire proof covered pier double decked, and the construction of two open piers for handling heavy freight. Our present facilities are so small that the freight is only handled at excessive cost. 20

Q Do you know what that excessive cost is over and above what it would cost with an adequate terminal?

A I do not.

Q What is proposed to spend to bring those facilities up to where necessary? 30

A Four million. The next item is a very small one, a new mill on the Long Dock that was discussed in Mr. Crawford's testimony, estimated cost \$42,000. This mill is owned by the Erie Railroad Company and it is in such bad condition that we will either have to abandon it or renew it within the next five years. The mill is leased to a feed company. It is especially valuable to us on account of its close proximity to the grain elevator. 40

Robert C. Falconer, direct.

Q Does it or does it not enable you to handle grain through the elevator that otherwise you would not be able to handle?

A Yes, it does.

Q Grain in different condition?

A Yes.

Q (*By Commissioner Donges.*) This is not the mill leased to the Long Dock Mills & Elevator Company?

A Yes.

Q (*By Mr. Minard.*) What is the next item?

A The Duane street improvement.

Q What is the nature of that?

A That consists of extending the existing piers to the pier head line, renewing the present timber sheds built in 1880, cutting off the piles under the timber sheds at low water and erecting a new sub-structure between low water and the present flooring and putting in new flooring; estimated to cost \$500,000.

Q What is the necessity for that improvement?

A We lease this pier from the city and are under obligations to keep it in repair and return it to the city at the end of our lease is as good condition as when we leased it and all additions and improvements above, I believe it is the water line—I am not sure whether it is the water line or the floor line, I think it is the water line—are to be paid for by the railroad company and become the property of the city on the expiration of the lease.

Q (*By Commissioner Donges.*) The tenure is for what length of time?

A I don't know exactly but I think this lease has about twenty years to run yet. I am not sure about that figure.

Q (*By Mr. Minard.*) Is it true that in order to maintain our facilities at Duane street we have got to make this improvement?

Robert C. Falconer, direct.

A Yes. Duane street is very badly crowded now. On one of these piers we handle practically all of the fruit from California that comes to New York and the other one we handle our east and westbound freight. The fruit pier is very badly congested.

Q Proceed.

A The Twenty-eighth street storage warehouse, estimated cost \$1,190,000. It is thought that the construction of a storage warehouse at twenty-eighth street will result in increased shipments to that point, increased revenue, by reason of the facility offered the public of storing their goods, and will reduce the cost of operation. 10

Q How much is estimated for that?

A The construction of this warehouse is necessary, because we are unable with present facilities to handle business consigned to our 28th street station. 20

Q The cost of that?

A \$1,190,000.

Q I understand some improvement there is necessary in order to handle present, regardless of contemplated, business?

A Yes, business is badly overcrowded now.

Q What is the next item?

A The next item is the Harlem Terminal, 150th street. That was estimated to cost \$200,000.

Q What is the necessity for that? 30

A We are at present occupying jointly with the D., L. & W. Railroad, a terminal at 135th street. We will be forced out of this location shortly on account of the city's program for constructing subways, which will so interfere with the operation of this joint yard, that the D., L. & W. which controls it will be only able to handle their own business, consequently we will have to provide a similar station at some other point, which we have selected at 150th street. 40

Robert C. Falconer, direct.

Q (*By Commissioner Treacy.*) What is that yard used for?

A Freight, inbound and outbound. We take over freight either by barge or car float.

Q Transfer to what roads?

A To deliver to the public and receive from the public; a freight house there.

10 Q You mean, to deliver to the public in New York City?

A Yes.

Q In that vicinity?

A Yes.

Q You transfer the freight cars there instead of delivering your freight at Weehawken or Jersey City terminals?

A Take the freight cars right over there and handle them at 150th street.

20 Q (*By Mr. Minard.*) The next item.

A Bulkhead shed on Pier 7, East River; \$10,000; that is a small item.

Q What is the purpose of that?

A On account of increased business our present bulkhead shed at pier seven is inadequate. We are handling westbound business at that point at an extra cost. The construction of the new bulkhead shed will relieve the situation.

Q What is next?

30 A Pier 36, East River, \$170,000.

Q What is the purpose of that?

A Our present pier facilities on the East River are inadequate and this results in the crowding of the present pier seven, so that the cost of handling traffic is much greater than it should be.

(*Informal discussion.*)

Mr. Minard. Suppose we have this marked.

(Statement entitled "Memorandum, re various improvements, received and marked Exhibit B-130.)

Robert C. Falconer, direct.

Q Mr. Falconer, I will ask you to call our attention to any other feature of this Exhibit R-129 which you think requires an explanation or discussion by you?

A Well, under the second group, entitled, additional tracks and grade reduction necessary in addition to the above.

Q Can you discuss those briefly, in view of the fact that the statement is already in evidence as to cost and so on? 10

Mr. Merrey. It won't help any if that is on the statement.

Witness. That is not on the statement.

Mr. Merrey. Very well.

A I don't think it is necessary to discuss the Penhorn Creek Tangent Line, except to say it is a short line across the meadows for passenger business, in order to give additional space for development of Bergen yard; a more direct route for passenger trains from Hackensack River bridge to the west end of the Bergen archways. 20

Q Will it shorten or improve passenger facilities as they are now?

A It will both shorten and improve them.

Q Will it enhance the safety of the operation?

A Yes, it will eliminate two curves. I may say that work was authorized and the work about three-fourths done when we stopped for lack of funds, and it is still uncompleted and has been for over a year. 30

Q And you think it will cost \$80,000 to finish it?

A That is the estimate.

Q And put the whole work in operation?

A Yes.

Q The next item.

A Grade reduction and two additional tracks from Croxton to Suffern, estimated to cost \$3,560,000. 40

Robert C. Fulconer, direct.

Q Those are the ones discussed by Mr. Lincoln the other day, are they not?

A Yes.

Q You consider them necessary from the standpoint of passenger operation as well as freight?

A Yes, necessary, but not so necessary as the items in the first list.

10 Q Is there any other item here you desire to call attention to particularly?

A Grade reduction and two additional tracks from Suffern to Newburgh Junction, giving us four tracks from Newburgh Junction. From Newburgh Junction to Port Jervis we have four tracks most of the way now. We had two tracks on the old main line and two tracks by way of Erie & Jersey Railroad, as far as Graham. From Graham down to Port Jervis we only have three tracks. There are quite a number of
20 passenger trains from Middletown to Newburgh and so forth that are in the nature of suburban trains, although they are suburban trains, and makes this territory between Suffern and Newburgh Junction more or less congested with the freight business, and that condition is getting worse every year. Four tracks are desirable now and they will be absolutely necessary before very long. There is a grade reduction to be accomplished in there at the same time and a very decided improvement in the alignment which
30 will add to the safety of the railroad.

Q Is there any other item here that you want to mention particularly?

A There is an item, Columbus to Concord, grade reduction, \$2000,000. This is grade reduction through Corry, Pennsylvania. Corry is at the top of a hill and low grades on both sides. We cannot quite reach the summit. We will have to cut down our tracks through Corry in order to reduce a pusher grade. We are operating a pusher engine there now but it is only
40 a short grade and we can get along with it for a while.

Robert C. Falconer, Director.

Youngstown to Cleveland, grade reduction, \$4,700,000, is a very important item. That is over the Cleveland and Mahoning Valley Railroad, shown in green on the map. We lease it on a long term basis and as I understand it, the improvements have to be paid for by the Erie Company.

Q Is it true, Mr. Falconer, that that is our ore line principally? 10

A It is.

Q And our tonnage is unusually heavy over that line?

A Very, very heavy.

Q Therefore the advantage of this grade reduction would yield very large if it could be done?

A It would. A very great saving in operating expenses would result from this improvement. Here is some memoranda I made on that point.

Q This memoranda that you are referring to now is additional data on several of the items mentioned in R-129? 20

A Yes.

Q And the data which you have in mind with relation to each of these details is mentioned under the heading of the given subject, is it not?

A Yes.

Mr. Minard. We can save that much time if we will put that right in.

Commissioner Donges. That may be marked. 30

(Memorandum regarding various improvements, received and marked Exhibit R-131.)

Witness. The other items on this list are of lesser importance.

Q (By Commissioner Donges.) All regarded by you, as I understand your testimony, as being essential to the operation of the road in the line of improvements that ought to be made?

A Yes, sir. 40

Robert C. Falconer, direct.

Q You have here several items aggregating \$1,200,000 under head of extensions to yards and terminal facilities at division points. They are all mentioned here with regard to their location, are they not?

A Yes.

10 Q And the amount you estimate it would cost to carry this out?

A These amounts are only approximate.

Q In a general way as applicable to all of these points, is it not true that the extension of the yards has become imperative on account of the increased size of trains?

A Yes, it is true.

Q Isn't it also true that in some cases the trackage facilities are so small at these yards they cannot now take care of the trains, the length of trains which come in?

20 A That is true.

Q Isn't it true, Mr. Falconer, that at certain points there are no trackage facilities now to hold the whole train operated at the present time?

A It is true.

Q These changes then are imperative immediately in most cases?

A Yes.

30 Q (*By Commissioner Dwyer.*) Have these extensions to yard and terminal facilities been authorized?

A None of these on the list have been authorized. We have made a number of such extensions which are completed.

Q (*By Mr. Winard.*) Isn't it true, Mr. Falconer—
Mr. Merrey. I have not objected to this, but every question that counsel has put has been very leading, practically testifying himself.

Mr. Winard. All right.

40 Q Is there any case, Mr. Falconer, where these yard facilities—where the trackage space is so small

Robert C. Falconer, direct.

that the length of the train is shortened on that account, because of the inability of the terminal to handle a larger train if it was carried?

A No, I don't know of any such case, but I do know that difficulty is experienced and time is lost in making up trains on the main track sometimes or in making them up and getting them out of the yard. At Hammond we are very badly crowded.

10

Q Are there any cases where there is not room in the yard to assemble a long train and it has to be done on the main track?

A The train is assembled on two or more tracks in the yard and when it is ready to pull out they couple up the several pieces of the train, occupying a part of the main track to do the work, which results in delays.

Q Does it result in any interference to traffic on the track?

20

A Yes, undoubtedly it does.

Q Is there any other item here—for instance here on page two, bridges and buildings; have you any memorandum discussing these bridges in detail and the necessity for them?

A No, I have none.

Q In a general way, do you consider their renewal or repairs necessary?

A Yes, absolutely necessary. All of the bridges listed, all individual numbers, are absolutely necessary.

30

Q Do they have any relation to the safety of operation of trains?

A They have a very important relation to the safety of operation of trains.

Q I see here an item, bridge program for 1913 and 1914, is that the bridge program for the last fiscal year?

A Yes.

Q What does that indicate there, \$438,000?

40

Robert C. Falconer, direct.

A That covers repairs and renewals to a number of bridges, others than those listed above, which are included on this general program.

Q Does that indicate or does it not, that that amount of work of the program for the last fiscal year fell short of being done?

A It was none of it authorized.

10 Q For what reason, do you know?

A We did not have the money to carry it out; I say none of it was authorized, I am mistaken; \$230,000 was authorized to be expended before January 1st, 1915, and I presume the balance of it will be authorized in the first part of 1915.

Q How do you make up your bridge program for a given year?

A Do you want just the details of how it is done?

20 Q Is there a department which goes out and looks the bridges over and inspects them, and considers the necessity of repairs within the year to come?

A We have bridge inspectors constantly going over the line.

Q Are they under your supervision?

A Part of them are, a number of them are under the supervision of the operating department.

Q Is that bridge program made up and submitted to the executives?

30 A Yes.

Q And do they appropriate the amount of the program or as much of it as the earnings of the company will permit, or how do they do it?

40 A They, recognizing the necessity of bridge work, they authorize as much as they can set aside for that purpose, as I understand. We sometimes don't get our authority the year we ask for it and we, in such cases, have to take such steps as are necessary to secure the safety of the bridges, even without authority, but generally we get our program the following year.

Robert C. Falconer, direct.

Bridge work is something that cannot be put off indefinitely.

Q Here are other items, yearly station renewals, averaging \$100,000 a year; what does that represent?

A That represents renewal of small stations.

Q Passenger stations?

A Passenger stations and freight stations.

Q (*By Mr. Merrey.*) In this vicinity?

10

A Over the whole railroad. There are some items in here; there is one new freight station at Akron, Ohio, estimated to cost \$233,000.

Q Going on down here, I see there is a list of automatic signals and interlocking here. This statement shows the amount of doing the work and the location of each one. Have you anything to say about the necessity for this work?

A The interlocking?

Q Yes?

20

A The automatic signals?

Q Yes?

A As a matter of safety for the traveling public.

Q It is a matter almost entirely of safe operation of trains, is it not?

A Very largely so. The automatic signals allow a more dense operation of trains safely, but the prime object in installing them is safety.

Q What is the purpose of the interlocking?

A Interlocking is for the protection of railroad crossings at grade. 30

Q What is the effect of interlocking?

A As a matter of safety it prevents—

Q Does it or does it not prevent a train from running into another?

A It does prevent one train from running into another.

Q (*By Commissioner Donges.*) When you say grade crossing, you mean crossing by another railroad of your track? 40

Robert C. Falconer, direct.

A Yes, sir.

Q (*By Mr. Minard.*) You have here a statement regarding grade crossings, Erie Railroad's proportion of cost of eliminating grade crossings covered by existing agreements, orders of courts and commissions?

10 *Commissioner Donges.* First let me ask, whether the list, automatic signals, and the interlocking, the sum of \$669,700 has been authorized by your record?

Witness. No, the items marked A are those now or at one time authorized.

Q (*By Commissioner Donges.*) But the work has not yet been started?

A The work in some of these items has been started and nearly completed.

20 Q (*By Commissioner Treacy.*) Although not authorized?

A When authorized, but in some other cases the work has not been started and the authority temporarily withdrawn. We will take for instance, interlocking at North Judson; the work was authorized, but it has not been completed. The interlocking at S.J. tower is under way now, cost \$12,000 to complete it. From Leavittsburg to Kent the work is nearly completed; \$42,709 represents only the cost needed to complete.

30 Q (*By Mr. Minard.*) Does the letter A in front of any item on this list mean, authorized?

A Yes, it means the item has been authorized at some time; the authority may have been withdrawn.

Q (*By Commissioner Donges.*) That is to say the money may not have been appropriated for the purpose?

A No.

40 Q (*By Mr. Minard.*) This list here relating to grade crossings at the bottom of page two, I understand those are crossings where the railroad is under

Robert C. Falconer, direct.

obligation either by agreement or by orders of courts or commissions to do the work; is that right?

A Yes.

Q And that aggregates as shown here \$3,317,000?

A Yes.

Q (*By Commissioner Donges.*) In the case of Buffalo for example, by agreement?

A Yes.

Q (*By Mr. Merrey.*) That is complete?

A No, not complete in Buffalo by any means.

Mr. Minard. That is the case testified to the other day where Buffalo was advancing the money.

Q (*By Mr. Minard.*) Do you know how the money is being furnished for Buffalo?

A We are paying for it as the work proceeds.

Q In what proportion?

A The work on the railroad right of way is paid for entirely by the railroad company. The work which is on the street or which is common to the street and right of way, as, for instance, bridges covering railroad track and the abutments, are paid for sixty-five per cent. by the railroad company and thirty-five per cent. by the city. The property necessary for streets or for construction purposes is paid for on the same basis, sixty-five and thirty-five. The damages consequential damages are paid for fifty-five per cent. by the railroad company and forty-five per cent. by the city.

Q (*By Commissioner Donges.*) That is by agreement?

A By agreement. However, they had the power and still have to make us do this work and while we agreed, we did so because we could not avoid it.

Mr. Merrey. This is a new work to the one that the comptroller testified to the other day?

Mr. Minard. That is a different work.

Robert C. Falconer, direct.

Mr. Merrey. This is a second work evidently at Buffalo.

Witness. We have been—the grade crossing elimination work has been going on for several years.

10 *Mr. Merrey.* Mr. Crawford testified the other day that there were a number of obligations of the company outstanding held by the City of Buffalo and the railroad was paying a certain amount of interest.

Witness. That was done under another agreement sometime before, yes.

Q (*By Mr. Minard.*) Is it not true, Mr. Falconer, that the Legislature of the State of New York passed an act a year or so ago —

20 *Commissioner Donges.* I suppose the act speaks for itself, better than Mr. Falconer can, Mr. Minard?

Mr. Minard. The act may speak for itself, but what I was trying to get at is not in the act.

Commissioner Donges. You are asking whether an act did not provide certain things.

Mr. Minard. I will change the question.

Q Is there a grade crossing commission in the City of Buffalo?

A Yes.

30 Q Is it in connection with that commission that this work is being done?

A All of it, which is assigned to Buffalo.

Q You referred to their having the power to do certain things. Was it the power in this commission you referred to or some other?

A The power in this commission.

Q Is there any other improvement here that you want to call attention to particularly?

40 A Yes. The second item, Youngstown, Ohio, estimated cost \$1,730,000. That has been included under

Robert C. Falconer, direct.

the heading of grade crossing work for the reason that the court had ordered us to do the work but I wish to explain that a very large part of that work is a part of our grade reduction scheme which we would carry out whether we eliminated the grade crossings or not. We are not only eliminating grade crossings but we are reducing our ruling grade through Youngstown at the same time, so all of this \$1,730,000 is not chargeable to grade crossing elimination. 10

Q (*By Commissioner Donges.*) Is it included in the item under the second sub-division, \$4,769,000?

A No, it is not.

Q (*By Mr. Minard.*) Do you know by what authority this work has been ordered for Youngstown?

A Ordered by the court.

Q And was there a trial fixed in this matter a week or so ago? 20

A You are referring to Himrod avenue.

Q That is another one?

A Yes, that is included in that sum total, \$1,730,000.

Q Do you know whether that proceeding was carried out when it came to trial?

A I believe the case was postponed.

Q Do you know why?

A I think the city wanted to have a meeting of the parties interested, the various railroads interested, with the city officials to see whether it could not be amicably settled out of court. 30

Mr. Merrey. I don't see that is evidence in this case.

Mr. Minard. I thought if Mr. Falconer knew, I wanted in the record the reason why the case was postponed.

Q Is there any other item you want to call attention to particularly?

A No. 40

Robert C. Falconer, direct.

Q There is another subject here, Erie Railroad's proportion of cost of eliminating grade crossings in regard to which proceedings are now pending; none of those cases have been determined, have they?

A No.

10 Q And of course, this is an estimate only of what it would cost if we were ordered to do them on the basis now contemplated?

A Yes. The estimate of the Erie Railroad's proportion only, on the basis which we think is likely to be adopted. Of course, that is a matter of guess to a certain extent.

Q With the exception of certain states where fixed by law?

A Yes.

20 Q Is there any other State in which you have anything to do in railroad work where there is not a portion paid by the State or by the public?

A Well, in Pennsylvania the portion is fixed by the Public Service Commission and it may be entirely all put on the railroad, I suppose in certain cases; I don't know. In no other case, no other State, with the exception of New Jersey.

Commissioner Treacy. What difference does it make whether the public are required to pay anything or not?

20 *Mr. Minard.* Frankly it makes this difference, that sooner or later I think this State will come to consider—

Commissioner Donges. We have to act on the law as it stands.

Q Mr. Falconer, referring to the list as a whole, is there anything on this list which does not affect the company's ability to render adequate interstate service?

A The list as a whole?

40 Q Yes?

Robert C. Falconer, direct.

Commissioner Donges. You mean by that, every item is?

Mr. Minard. Yes, that is what I want to know.

Commissioner Donges. On the same basis, I presume, that if you had no tracks over New Jersey from the terminal points, you would not be able to render interstate service?

Mr. Minard. Not exactly on the same basis, 10
because that would be obviously—that would be an obvious proposition but some of these are not obvious.

Mr. Merrey. It means a lot of things affected, may be economical, and several other things. You may say that about everything you have got and everything you have not got.

Mr. Minard. Inasmuch as Mr. Falconer is supposed to answer we will let him decide.

Mr. Merrey. The question is whether you have 20
any right to ask that question.

Commissioner Donges. If not objected to, let the witness answer it.

Witness. I see nothing on this list, with the exception of the grade crossing elimination at the end, the two groups of grade crossing elimination work which don't either directly or indirectly give greater facility for the handling of interstate business.

Q (By *Commissioner Donges.*) You mean by 30
that that every improvement made anywhere along the line is some assistance in the operation of trains over the entire line?

Mr. Minard. No, Mr. Falconer—

Commissioner Donges. Let Mr. Falconer answer.

A No, not exactly that. Every improvement 40
which tends to increase our facilities for handling through business past that point. For instance I see

Robert C. Falconer, direct.

one—no I don't. For instance—well, I can hardly think of an improvement which does not indirectly affect interstate business, a revenue producing improvement.

Q Would stational improvements at intermediate points affect interstate business?

10 A It might. For instance, at Jamestown, an important town, a new station might slightly increase our business, our passenger business.

Q Then isn't it simply; any improvement anywhere over the system of any character is a change in the direction of improved service whether it be intrastate or interstate?

20 A Yes, with the exception of the grade crossing elimination. I cannot see that the grade crossing elimination either adds to our business or reduces our operating expenses or makes it more desirable to travel or ship by our road as against another road.

Q Only to the extent that damages incident to accidents at crossings and the cost of maintaining protection; wouldn't they be elements that ought to be considered?

A Yes, but the cost of maintaining the protection is so much less.

Q But they are factors?

30 A Yes, they are factors. I wish to say however, that this list contains in the main, items which are very important to the handling of interstate business and most of them have a direct bearing on the handling of such business and not an indirect or a far-fetched one. For instance, our grade reduction, our double tracking, strengthening our bridges, increase of our individual terminals, increase of the terminals at the ends of the railroads, terminal facilities, are very important to interstate business.

Q And equally important to the traffic within the States in which they are located?

40 A Yes.

Robert C. Falconer, cross.

Q (*By Mr. Minard.*) Do you know what per cent. of the cost of eliminating grade crossings, the total expense of accidents and protection amounts to?

A I haven't any definite figures. I know the amount we pay for damages is very slight compared to what would be the cost of eliminating the grade crossings, compared to the interest on the cost of eliminating the grade crossings.

10

Q The cost of damages is very slight as compared with the interest on the cost of eliminating grade crossings?

A Yes; there are probably exceptions.

Q (*By Commissioner Donges.*) Of all the grade crossings on your line?

A Yes. There are probably exceptional crossings where we have passed considerable more in damages, but as a rule that is very slight.

Q That is to say, more in damages than interest on money required to eliminate, to separate grades at that point?

20

A There may be such. They certainly are very few.

Cross examination by Mr. Merrey.

Q You said your terminal facilities in Jersey City were crowded, that is the passenger terminal?

A Both passenger and freight.

Q You added the Susquehanna terminal to the Erie a short time ago, didn't you?

30

A Yes, we brought the Susquehanna trains into Jersey City.

Q They take up a considerable portion of the terminal?

A Yes; we added two tracks when we brought them in.

Q If the Susquehanna ran in, as it used to, another terminal, would you still be crowded so far as passenger terminal is concerned?

40

Robert C. Falconer, cross.

A Yes, we would in one respect; we would be crowded at the terminal tower where the interlocking is just west of the station. That is a congested point.

10 *Mr. Minard.* I don't think that statement ought to go by, the inference that if we did not have the Susquehanna here we would have more room. I think the commission knows as a matter of record, we left the Pennsylvania because we were notified to leave, the same as the Lehigh Valley and we had to go somewhere.

Q The readjustment, the rebuilding of your terminal facilities at Jersey City are principally for the passenger service, are they not, caused by increase in passenger business?

A Not entirely.

20 Q Nearly all caused by increase of passenger business at that point?

A Yes, I think that is largely true, although our space in Jersey City is so valuable that we cannot much longer use it as it is being used, and we will have to rearrange our terminal so as to make more of it available for freight, if possible, and at the same time increase our passenger facilities.

Q As I understand the greatest amount of passenger service is intrastate at the Jersey City terminal?

30 A Yes, I presume so. I have no figures on it. I understand—

Mr. Minard. I think practically none of it is intrastate.

Commissioner Donges. I think Mr. Lincoln testified that your heaviest traffic on the rails was between Jersey City and points within the State of New Jersey.

40 *Mr. Minard.* That may have been the effect of what he said, that may have been one interpretation of it. My recollection of that testimony

Robert C. Falconer, Cross.

is, that seventy-five per cent. of the passenger business was done on this end in commuter district, out of New York. Of course that is all to New York, so that is interstate.

Mr. Merrey. How do you know it is in New York?

Mr. Minard. If it is from Paterson to New York it is interstate. 10

Commissioner Donges. I think the statement was, it was what is called the commuter district.

Mr. Minard. That is my understanding; not that it was intrastate business.

Commissioner Donges. Whatever Mr. Lincoln's testimony is, it stands as given.

Q Do you know anything about the cost to the railroad company for damages in grade crossing accidents?

A No, I have no figures. 20

Q You spoke a little while ago about the amount of the damages being less than the interest on the cost of the elimination; did you speak with any knowledge of the facts?

A Two or three years ago I got some figures, approximate figures on what that cost was.

Q Have you any idea?

A I don't remember the figures. I got them to get an idea of how much it was costing us per year, as compared with what it would cost us if the crossings were eliminated and we were paying the interest on the money, and the idea in my head is, all I am testifying on, that was a very small per centage. 30

Q That is, the company rarely pays damages, any grade crossing damages; that is the conclusion you came to?

A Very rarely, I imagine so. I have really very little to do with the grade crossing accidents, so I am not—my testimony is not really worth much in that respect. 40

Robert C. Falgout, cross.

Q How many other things does that remark refer to?

A It applies to accident on grade crossings only. You are asking me questions about them.

Q You did testify about the cost of accident on grade crossings and now you say you have very little knowledge of it?

10 A It is handled by the legal department. Of course they don't come to me, unless we ask for the information.

Q You are not taking into consideration the number of people crossing grade crossings every day; you haven't had that brought to your attention, have you?

A I don't understand your question.

Q I say, you have not had it brought to your attention the number of people who cross the grade crossings of the railroad every day?

20 A If you mean that we do not have a man out at each crossing counting the men or people that cross, my answer is, we do not have such a man, and I don't know how many people cross the grade crossings.

Q Have you ever had an estimate made?

A On all grade crossings on the system?

Q Yes, or any of them?

A On all or any of them?

Q Yes.

A We have had counts made on a great many.

30 Q You are not familiar with the result?

A Yes, I saw nearly all of the results, practically all.

Q Did you consider the importance of the elimination of grade crossings to the public, in crossing the crossings every day when you gave the testimony which you have?

A I did.

40 Q You still believe the items that you set down here are far more important, taking all the traveling public into consideration, those who cross the cross-

Robert C. Falconer, cross.

ings and those who travel on your trains, these other items of double tracking and so on, are more important?

A I do. I don't think the travelling public, as you say, are the only public to be considered. There is another public, a greater public, which is interested in the service that the railroad can give.

Q That is always a question of money to them? 10

A No, not entirely. It is a question of time, it is a question of money, it is a question of the facility that we can give.

Q (*By Commissioner Donges.*) In other words, your view is that it is really more important to the public, as well as to the railroad, more important to the public that they should be transported quickly with a saving than that persons at grade crossings should be protected from the danger of collision?

A No, I have not said that. 20

Q Is that your view?

A Well, that is hardly a fair—

Q In other words, don't you view it—isn't your view that of an operating man? Don't you view entirely the question of operation of trains and the questions incident to operation of trains as of more importance than the safety of people passing over the crossings?

A No, that is not my view. I am a member of the public, I cross a grade crossing every day in my life. 30
When I get to the grade crossing, I never fail to stop, look, and listen. Probably the reason I do that is because I recognize more clearly than the general public does, the danger on the grade crossing, but there isn't a man with the same mind in the United States that is not capable of realizing the danger on a grade crossing and it is the duty of every such man to stop and look and listen and see whether a train is coming before he goes across the crossing. If he fails to do so, it is his own fault. The man however 40

7
8
7

Robert C. Falconer, cross.

who buys a ticket and gets on the train, he has no help, he has no way of helping himself, he puts himself at the mercy of the railroad company. If the railroad company—if the engineer runs into another train and he is killed, he blames the railroad company; he could not have helped it, the passenger could not have helped it, and I say, the passenger on the
10 train is defenseless and his safety should be looked after first. Now then, when you take into consideration the great number of people who pass a crossing on a train, pass a given crossing on trains, as compared with the number of people who pass on foot, some crossing on foot or in wagons, I think you can realize my point, that it is more important to protect the people on the trains than it is those on the ground.

Q (By Commissioner Donges.) I say, it is to you, a question of operation?

20 A If I had no connection with the railroad, I would feel it was more important for the railroad company to protect me while I was on their train than it was when I am on the ground.

Q That is all incident to the operation of the train?

A Yes.

Q So I say, if I get your view of this, that matters that are incident to the operation of trains are of greater importance, whether it be for the safety of
30 the passengers or economy of time or money in such operation or from whatever point of view, the question of one of operation?

A Yes.

Q And that is of greater importance than to—adopting your view of the situation—to protect the man who perhaps does not do all he might do to protect himself at the crossing? If I get it that is your view.

A Yes, now as to—

Robert C. Falconer, cross.

Mr. Minard. Wait a minute. I don't like to have that—

Commissioner Donges. I am trying to get his view, he is an intelligent man.

Mr. Minard. That wasn't his view at all.

Commissioner Donges. Let him say so.

Mr. Merrey. I think the witness is perfectly able to take care of himself. 10

Commissioner Donges. I certainly am not trying to cross examine the witness, or get anything but his view.

Q (*By Mr. Merrey.*) I would like to ask Mr. Falconer if he has ever considered the passenger on the trolley car who crosses one of these grade crossings and who cannot be blamed for an accident that may happen?

A The passenger on the trolley car is in substantially the same position as the passenger on the train. 20

Q Yes; so that a passenger on the trolley car may be injured or killed without any fault on his part, at one of these grade crossings?

A Yes.

Q Have you any idea how many people pass these grade crossings in a day on trolley cars, the crossings in Paterson, I mean now?

A I have seen the count, I don't recall the number.

Q You spoke in answer to Commissioner Donges concerning the number of passengers on trains who pass a grade crossing and those who pass over the crossing, in a manner that led me to believe that you thought more people passed on the train than crossed any other way? 30

A I don't know how they compare. With some few of the crossings, Market street for instance, it may be that Market street, the people on the ground exceed those on the trains. It may be at some other street crossings. I don't recall the figures, as I say. 40

Robert C. Falconer, cross.

Q How many people pass through Paterson daily on Erie trains?

A I cannot tell you.

Q I understood Mr. Lincoln to say it averaged about fifty-five thousand a day, that was going into the Jersey City terminal.

10 *Mr. Minard.* I think that is better from the mouth of Mr. Lincoln anyway. He is qualified to testify to that.

Q So in making your comparison you would have to add the number who cross at all these crossings, to compare them with the number who cross in the train, would you not, to make the basis of a fair comparison?

20 A I suppose so, if all the crossings which were necessarily involved in one group of elimination, but there is a very large proportion of those people who are not in any danger at all. They pass across the tracks between the time of trains. They are not all in danger. Most of the people pass over perfectly safely, in no danger at all.

Q In answering Commissioner Donges then, you did not take into consideration that there were probably five or six times as many people using these crossings daily, as there were crossing over them in trains of the Erie Company?

30 A I don't know what the proportion is. You stated that proportion.

Q You were under the impression that a great many more people passed in the trains?

A As a general grade crossing elimination proposition, yes, and it is true as a general proposition.

Q Do you not think that a man no matter how careful, at times will let down a little and be careless?

40 A It is equally true of the locomotive engineer.

Robert C. Falconer, cross.

Q That is human nature. So if 100,000 people pass a grade crossing in a day, there is bound to be a certain percentage of them who may be careless?

Mr. Minard. I object to the question as immaterial, for the reason that the railroad company—

Commissioner Donges. That is argumentative.

By Mr. Minard.

Q In your discussion of the importance of these items, here, did you discuss them from the standpoint of train operation by the railroad company or from the standpoint of the safety and convenience of the passengers in the train?

A You mean that list?

Q Yes.

A I discussed them from both, that is, I had both in mind. I discussed them largely from the question of operation by the railroad company. 20

Q But not entirely so?

A Not entirely so.

Q When you speak of discussing them from the standpoint of operation, the quality of the operation is or is not the quality of the operation a factor in the safety of the passengers, whether it is a careful operation or a safe operation?

A Yes, it is a very important factor.

Q When you say that you are discussing it from an operating standpoint, do you mean you are discussing it from the railroad company's operating standpoint or from the public's operating standpoint? 30

A So much of my discussion as related to increasing train loads was largely from the railroad standpoint. The public are interested in our being able to increase train loads indirectly, because we offer them better facilities, but the railroad company is more directly interested in that. In the question of safety of operation, the public is equally as much in- 40

Robert C. Falconer, cross.

terested as the railroad company, perhaps more so; pretty hard to say which is.

Q (*By Commissioner Donges.*) Which is more concerned in safe travel?

A Yes, sir.

Q (*By Mr. Minard.*) In other words, the railroad company can stand a fatal accident but a victim
10 would not stand more than one?

A That is so.

Q Your attention was called to the people who pass in trolley cars, Mr. Falconer, and it was stated that these passengers in the trolley cars were also helpless; is or is there not any agency in control of the trolley car, to protect the passengers in that car?

A Yes, there is.

Q Are there any additional precautions at the grade crossing where trolley cars pass?

20 A There are at important grade crossings.

Q What are the forms of this protection?

Mr. Merrey. I don't think that is important.

Mr. Minard. It is.

Commissioner Donges. We will let it in.

Q You was discussing the condition of passengers in the cars. What do these consist of, the precautions?

30 A The usual precaution consists of a derail on each side of the track so arranged that the conductor must get off the car; the car must stop and the conductor get off and cross the track ahead of the car and throw the derails so the car can proceed, otherwise the car would be derailed before it reached the crossing.

Q Is there any need for anybody on the highway to be in danger at a grade crossing?

A In my opinion there is no need for anybody being in danger. I must except the trolley car by reason of—
40

Robert C. Falconer, cross.

Commissioner Treacy. People in an automobile, people being driven in automobiles, except the driver and in other vehicles?

Mr. Mervey. Cases where two trains are crossing, a lot of other cases where the Supreme Court—

Witness. The person who is driving the automobile, no reason for his being in danger. The passengers in the car may have no control over it. 10

Q (*By Mr. Minard.*) In everyone of the cases mentioned, the street car or the automobile or any other vehicle that has been mentioned here, is there any danger if the person in whose charge they are is careful in crossing the track?

A If the person in whose charge they are uses the ordinary and proper precaution there is no danger.

Q (*By Commissioner Donges.*) You mean, Mr. Falconer, if I get your idea, that grade crossings— if the person approaching the crossing will use measures that will inform him of the approach of the train that all accidents are avoidable? 20

A Exactly.

Q May I ask this question, whether in your discussion of these various questions you have considered the importance to the public generally, those traveling upon the highway, by not having traffic and other passage over the grade crossings impeded by the passing of trains? 30

A Yes, I have considered that.

Q You regard the elements and factors which you have discussed as being more essential to operation and to the public interest in such operation, than to cease the interruption of travel on the highway?

A Yes.

Q And you would say in your judgment, it was more important than the two elements of interruption to travel on the highways, coupled with some danger to the traveling public; I mean highway travel? 40

Robert C. Falconer, cross.

A There might be individual cases, of course, where in my opinion, it might be to our advantage to eliminate a grade crossing. As a general proposition, I think it much more important to carry out these improvements for double tracking and grade reduction and so forth, than the elimination of grade crossings.

10 Q Then it would, to carry out any scheme for the general elimination of grade crossings?

A Yes, in nearly all cases. There may be a few—there are exceptions to all rules—there may be a few individual cases that would be exceptions to that.

Q And they would be because of the damages that are likely to be paid by the company together with what other elements, if any, would enter into your consideration?

20 A No, I think it would be the matter of congestion of traffic on the crossing.

Q That is, travel over the highway?

A Both railroad and highway.

Q (*By Mr. Merrey.*) Then you think that there are some crossings that it would be well to remove, from the standpoint of the general public?

A Yea, I think it would be well to remove them all, but I think these other things are of more importance and should be done first.

30 Q Do you know which is the most traveled crossing on your system now, of grade crossings?

A Do I know what is the most traveled crossing?

Q Yes.

A I don't know, I am sure.

Q Wouldn't Market street, Paterson, about approach that, if it is not the most traveled crossing?

A I am not at all sure it is.

Mr. Minard. I can tell you; Jamestown, New York, has a great deal more people than Market street, Paterson, crossing.

Robert C. Falconer, cross.

Q Which is the most important crossing on your system in New Jersey, so far as bulk of travel is concerned?

A I presume Market street is, in New Jersey.

Q (*By Commissioner Donges.*) Market street, Paterson?

A Yes.

Mr. Minard. We have put in for three days, 10
a lot of data. I don't want to delay the thing
a minute but I think if we could simplify this
data in some memorandum which we could submit
in a couple or three days after we get the
testimony, it might benefit the commission.

(Informal discussion.)

Commissioner Donges. This case will go to
conference, subject to the submission of briefs by
Tuesday, November 17th.

Mr. Merrey. On points brought out in the ad- 20
ditional testimony.

Commissioner Donges. Mr. Minard will submit a brief touching on the financial question only, to the Board and Mr. Merrey, and Mr. Merrey will submit his, if he desires to do so.

30

40

Discussion in re Petition for Further Hearing.

BOARD OF PUBLIC UTILITY COMMISSIONERS

Newark, N. J., Friday, February 3, 1915.

PATERSON GRADE CROSSING ELIMINATION,
ERIE RAILROAD COMPANY.

10 Before the following commissioners:

R. W. E. Donges, Esq., T. J. Hilliery, Esq., J. J. Treacy, Esq.

F. H. Sommer, Esq., General Counsel.

For petitioner, City of Paterson, appears E. F. Merrey, Esq.

For respondent, Erie Railroad Company, appear G. S. Hobart, Esq., D. E. Minard, Esq., and H. A. Taylor, Esq.

20 For various switch owners appears William B. Gourley, Esq.

For Public Service Corporation appears L. D. H. Gilmour, Esq.

Commissioner Donges. The question, as was pointed out in the report of the board, is confined to the one matter of determining what time is to be allowed in the order for doing the work.

30 *Mr. Hobart.* If the commission please, before that matter is taken up we desire to present certain facts which may make it unnecessary to go into that question, and we ask leave to file a petition for a further hearing on the matter which has been drafted, and if the commission please, I shall be glad to present it at this time, and if the commission desires, I will be glad to read it.

Commissioner Donges. You may state as fully as necessary what the petition contains.

Mr. Hobart. Perhaps I need not read it fully, but follow the paragraphs as I read.

Discussion in re Petition for Further Hearing.

Paragraph One states the conclusion of the board in regard to certain matters in connection with the proceeding.

Paragraph Two: "Respondent, Erie Railroad Company, represents that it infers from the said report that it is the intention of this board when it issues its order upon said report, to direct that the expense of the elimination of certain grade crossings shall be paid by this respondent, except such portion of the expense as may be legally chargeable to the Public Service Railway," and certain other companies. 10

Paragraph Third: "Respondent therefore respectfully calls the attention of the board to the fact that its answer and amended answer, and the undisputed testimony offered on its behalf at the hearings show that this respondent is not the owner of the right of way upon which said railroad tracks are constructed and over which this respondent runs certain trains, but that the fee of the same, and the franchise to operate a railroad thereon, are, and for many years past have been, owned by two other companies, part of said right of way and franchises being owned by a corporation organized under the laws of the State of New Jersey known as the president and board of directors of the Paterson & Hudson River Railroad Company, and part thereof being owned by a corporation organized under the laws of the State of New Jersey known as the Paterson & Ramapo Railroad Company; the testimony shows that this respondent runs trains over said right of way of said companies by virtue of certain leases made under date of September 9th, 1852," and so forth; "the testimony further shows that this respondent does not own or control the fee of any of the right of way or property where said grade crossings are proposed to be eliminated, except that it owns or controls certain 20 30 40

Discussion in re Petition for Further Hearing.

property adjacent to said right of way," and so forth, "upon which are located certain side tracks," and so forth.

10 Fourth. "Respondent further shows that it does not own any of the right of way upon which such trains are run, but that it runs trains over the crossing in question only as lessee under the two leases above referred to, and in so far as the obligation to the State is concerned, it runs the same only as an agent of said Paterson and Hud-
son River Railroad Company and Paterson and Ramapo Railroad Company, and that the obligation to the State of New Jersey and the people thereof for the operation of said railroad, is imposed by their respective charters solely upon the Paterson and Hudson River Railroad Com-
20 pany and the Paterson and Ramapo Railroad Company; and that therefore the said two companies, and each of them, are the companies operating such railroad, within the meaning of Chapter 57 of the Laws of 1913, upon which this proceeding is based. Wherefore, this respondent urges and insists that any order made by this board should direct that said two companies should eliminate said crossings, and bear the expense thereof as their respective interests may appear, and that no part of the expense thereof
30 should be borne by this respondent, except so much, if any, as it may be legally chargeable with under Section A of said statute."

Commissioner Donges. What is the period for which the leases are drawn.

Mr. Hobart. During the life of the charter of the original company.

Mr. Merrey. Or any extension thereof?

Mr. Hobart. Or any extension thereof, no time limit is expressed in the charter of the original company, but there are certain terms under
40

Discussion in re Petition for Further Hearing.

which the leases are forfeited all the terms terminated.

Commissioner Donges. So that as long as the right to operate the roads exists the Erie Railroad Company has the right to operate under the leases?

Mr. Hobart. Under the leases, and solely under the leases. Each lease is forfeited under any act of the Erie Railroad Company, failure to pay taxes or consent of the parties or consent for the taking over of the road, if they have the right, that terminates the leases. 10

Commissioner Donges. The Erie has rights which are equal to those of the lessor?

Mr. Hobart. That is the conclusion which I wouldn't admit in quite that broad term. The only rights we have are the rights expressed in those leases. 20

Number Five, "Respondent further urges and insists that if this board should find this respondent is one of the companies operating said railroad, or any part thereof, within the meaning of said statute, then and in that event any order made by this board with respect to the elimination of said crossings, or any or either of them, should direct that said crossings be eliminated jointly by said two companies and the Erie Railroad Company, so the cost will be apportioned among them by the appropriate proceedings." 30

Six, "Respondent further says that from said report it appears that the board has decided to adopt a plan for the elimination of said crossings which will cost approximately \$2,950,000.00; and the board has decided to divide the work into five sections, and so on, said five sections numbered from "A" to "E," sections "A," "B" and "E," the cost of eliminating, according to the estimate of this respondent, would be approxi- 40

Discussion in re Petition for Further Hearing.

10 mately \$2,400,000.00, are on the right of way of the Paterson and Ramapo Railroad Company; that sections "C" and "D," the cost of eliminating which, according to the estimates of this respondent, would amount to \$980,000.00, are on the right of way of the Paterson and Hudson River Railroad Company. Then, without going into the figures in detail set forth in the same paragraph, that these costs amount to more than the total assessed valuation of the two properties and therefore to compel this respondent to pay more than the present value of the property, for the portion of those other properties, in the event of forfeiture, would amount to taking the properties of this defendant without due process and would be confiscation.

20 *Commissioner Donges.* By the terms of the leases, with which I do not pretend at this moment to be thoroughly familiar, is there a provision that whatever expenditures are made by the lessee shall be repaid by the lessor at the termination of the lease?

Mr. Hobart. Yes, sir. That is why they ought to be made joint parties.

Mr. Merrey. They are.

30 *Mr. Hobart.* And they ought to be made; they should be ordered to do the work and fight it out among themselves.

Commissioner Donges. Doesn't the statute provide that the company operating the road be ordered?

Mr. Hobart. Yes.

40 *Commissioner Donges.* In this proceeding didn't the Erie Railroad, by its answer and in its testimony, agree that it was the company operating the road? That is my present impression, it did. There is no issue raised on that point.

Discussion in re Petition for Further Hearing.

Mr. Hobart. There is no doubt that the Erie Railroad runs certain trains over that road.

Mr. Sommer. Also there is no doubt the other companies do not.

Mr. Hobart. No; the proof is they do.

Commissioner Donges. Wasn't it agreed expressly that under the lease the Erie Railroad Company was operating the entire line? 10

Mr. Hobart. No. The same points are raised in both answers.

Mr. Merrey. Doesn't your lease show you took over the entire equipment of the other two roads at a certain valuation, all the rolling stock they had?

Mr. Hobart. No. I would refer to the terms of the leases to be clear on that point. Of course, the point which we desire to call attention to, which has been already raised, but we desire to raise more specifically, the companies charged with the duty of operating those particular lines are these particular companies. We are operating as lessee; that duty rests on the original company rather than on the respondent. 20

Commissioner Donges. The Erie Railroad Company and each of the other roads are co-respondent; that the Erie Railroad Company is under no obligation under the terms of the Grade Crossing Act to eliminate. 30

Mr. Hobart. Yes, sir.

Commissioner Donges. As the operating road?

Mr. Hobart. Yes, sir.

Commissioner Donges. And owes no duty whatever to the public of the State, if that theory is right.

Mr. Hobart. Not the State directly. The duty is owing by the original lessor company, because those companies owed the duty to run the road. 40

Discussion in re Petition for Further Hearing.

10 *Commissioner Treacy.* Under your objection and your contention, Mr. Hobart, all that a railroad company operating or desiring to operate a road would need to do would be to first organize a dummy corporation, then have that corporation take title to the land and then lease it to some operating company. Your original operating company is a small one, a hundred thousand dollars, but the operating company is a hundred million dollars corporation, and the operating company could escape any obligation to the State and the lessor company would not have the means apparently of complying with the laws of the State.

20 *Mr. Hobart.* That may be one possible result of the argument. It isn't very apt in this case, because neither company has the means.

Commissioner Donges. Certainly the lessor company—there would be some doubt about the ability of the lessor companies to make the improvements.

Mr. Hobart. There is much more doubt about the other company.

Mr. Merrey. There wouldn't be any doubt if they were turned over to the company.

30 *Commissioner Donges.* Did I understand a moment ago you said the order should either place the duty on the two lessor companies, the Paterson and Ramapo and the other company, the Hudson River Railroad Company, or upon those two companies and the Erie?

Mr. Hobart. Yes, jointly.

Commissioner Donges. Upon what theory would you suggest that the three roads be ordered to do the work?

40 *Mr. Hobart.* Because if the Erie can be considered the operating company at all it can only be such because of the terms of this lease. In

Discussion in re Petition for Further Hearing.

other words, it is acting as agent of the lessor company in so doing. And if this particular piece of track is owned by each of the three companies, it is shown in particular detail, it isn't for this board to decide how much, if any, should be apportioned among the three companies.

Commissioner Donges. It isn't?

Mr. Hobart. I don't think so. That is a matter for the Court of Equity or Court of Law, as the fact develops. 10

Commissioner Donges. You think the order of this board should be that these three companies, as operating companies—

Mr. Hobart. Yes.

Commissioner Donges. —pay the expense of altering the grade.

Mr. Hobart. Only in the event the board decides it should limit its order to those. Passing that, if that is decided against them, I submit this should be against all three of them. 20

Commissioner Donges. I am trying to get the idea you have in mind, in which you say an order involving all three roads should be passed.

Mr. Hobart. It is on the theory that the Erie Railroad Company is operating as agent under the terms of the lease.

Commissioner Donges. If it is operating as agent is it customary to bind an agent to pay the debts of a principal? 30

Mr. Hobart. Under the statute oughtn't they to be required?

Commissioner Donges. Under the statute ought they to be required?

Mr. Hobart. They really, in a sense, evade the question.

Commissioner Donges. Isn't it directly involved? You say the Erie Railroad Company is merely the agent of the other two companies. 40

Discussion in re Petition for Further Hearing.

Mr. Hobart. That is all it is, from our viewpoint; absolutely so; which is absolutely liable to be terminated.

Commissioner Donges. Only by its own fault.

Mr. Hobart. No, terminated by consent, by itself, or act of the State.

10 *Commissioner Donges.* That involves action on the part of the Erie?

Mr. Hobart. No, action by the State.

Commissioner Donges. And the other afterward?

Mr. Hobart. Yes.

Commissioner Donges. And then only on payment, of course, of a sum which would be adequate to compensate it?

Mr. Hobart. Yes.

20 *Commissioner Donges.* The State, of course, wouldn't confiscate. So practically the only way that these charges—the only way the companies, any of them, could lose, is either by their assent or their default.

Mr. Hobart. There may be circumstances, where under the terms of the lease, over which we have no control; terminated by act of the parties.

Mr. Merrey. That is the only way by which you could lose.

30 *Mr. Hobart.* And the State of New Jersey.

Commissioner Donges. Assume the taking over by the State were followed by the State making compensation.

Mr. Hobart. The difficulty is, under the terms of the lease the State is only required to pay the value of the original company; the cost of three million dollars without adding a cent to the real value.

40 *Mr. Sommer.* Is that true in a rate case?

Discussion in re Petition for Further Hearing.

Commissioner Donges. Is it true in a capitalization case?

Mr. Hobart. We are only discussing this case.

Mr. Sommer. If that is true the Erie ought not to ask for capitalization.

Mr. Hobart. To issue stock for three million dollars or bonds to make these improvements, that would be an entirely different proposition. 10

Commissioner Donges. You state the two companies owning the property in fee are entitled or bound to pay the cost of all improvements made by the operating company; why should the board now join them at this time, place on them any part of the expense of eliminating this crossing?

Mr. Hobart. The practical answer is because they have not three million dollars to reimburse us. That is one.

Commissioner Donges. If the lease provides, at the termination they should pay for such improvements as are put on the property, how can you burden them with any expense now? 20

Mr. Hobart. That is a matter for the court, how much to pay. We ask that question be raised by the board so the court can pass on the question, whether these other two companies should contribute in whole or any part of the eliminating of these crossings.

Commissioner Donges. At this time?

Mr. Hobart. Yes. We want to guard against the possibility of anything happening, or the forfeiture of the lease at the termination of the terms of it. 30

Paragraph Number Seven: "Respondent further says that the conclusion of this board, above referred to (d), to the effect that this respondent contemplates spending larger sums than would be required for the purpose of eliminating the crossings in question, in making other improve- 40

Discussion in re Petition for Further Hearing.

10 ments and the position of the board, above referred to (e), that it is not satisfied that this respondent will not be able to secure the necessary funds to eliminate the crossings in question, indicate that the uncontradicted evidence submitted to the board by this respondent was not understood and that the board has mistaken the company's desire to make needed improvements for its ability to secure or expend the sums required therefor; that as a matter of fact, the respondent does not now and at the time of the giving of the testimony in this proceeding did not contemplate the spending of larger sums than would be required for the elimination of these crossings, nor indeed any considerable sums, in making other improvements, for the reason, as the evidence submitted shows, that the respondent did not at that time have, nor has it now, nor can it at the present time obtain, the necessary funds or any considerable part thereof beyond what is actually required for the continuance of safe operation on its railroad, either for the making of such other improvements or for the elimination of the crossings in question."

20

30 *Commissioner Donges.* Do I understand by this clause you deny the testimony submitted by the Erie Railroad that the estimate of the proposed expenditures involved a greater sum than would be involved—

Mr. Hobart. Not at all.

Commissioner Donges. That is what the board said, that the company said they proposed to spend larger sums of money. No such money had been proposed?

Mr. Hobart. Not proposed to spend, but would like to spend it if we had it.

40 *Commissioner Donges.* Do you mean to say your testimony on the program of the Erie Rail-

Discussion in re Petition for Further Hearing.

road, it was not said that these things were appropriated, some of which the board of directors have sanctioned—

Mr. Hobart. Yes.

Commissioner Donges. And that the appropriations were made?

Mr. Hobart. As soon as we had the money. We contemplated the expenditure of it. You can't contemplate it until you get it. 10

Commissioner Donges. If the board of directors has authorized it, there isn't any doubt but what it is contemplated?

Mr. Hobart. A good deal of doubt. The testimony was we hadn't it and weren't likely to have it.

Commissioner Donges. Isn't it only a matter of time when you will get it?

Mr. Hobart. It may be one hundred years. 20

Commissioner Donges. It is a matter of time then?

Mr. Hobart. In that sense it is. Continuing: "that as shown by the evidence heretofore submitted, this respondent's net income available for expenditure on improvements during the fiscal year ending June 30th, 1914, was \$662,295.87, being its entire net income less such amounts as were required to be devoted to sinking and other reserve funds under prior existing mortgages. That the results of the company's operations for the six months following June 30th, 1914, indicate that the amount of income available for expenditure on improvement will not exceed, if it equals, the amount available during the preceding year, and even this result can be obtained only by the exercise of the most rigid economy in operation and postponement of expenditures actually required. That the company has already, during the six months ending De- 30 40

Discussion in re Petition for Further Hearing.

10 cember 31st, 1914, been required to expend for necessary improvements, principally in the interest of safety in operation, such as the furnishing of additional ballast, heavier rails and tie plates and reconstructing and strengthening bridges, safety appliances and steel underframes on cars and locomotives, over \$700,000.00, and expenditures of this character must continue to large amounts. Your respondent is also under legal obligation to spend large sums for improvements under existing contracts, or orders of the courts or of public authorities, as set forth in section 8 below. Your respondent has no capital funds outside of its income to devote to these purposes except the remaining proceeds of certain capital obligations heretofore issued, amounting to approximately \$300,000.00, all of which is required by an obligation heretofore incurred, to be devoted to a particular work now in the course of construction, under order of the public authorities; that your respondent has no additional capital obligations available for issue and disposition for the purpose of securing new capital funds over and above what is required for the payment of capital obligations about to mature."

20

30 Paragraph Eight. "Respondent further says that it will be required during the remaining portion of the year ending June 30, 1915, by obligations already incurred under orders of public authorities, or contracts heretofore made, to expend for improvements the amount of \$885,900.00, as shown more in detail on Schedule "A" attached hereto; but during the next twelve months this respondent will be obliged to expend under similar obligations the amount of \$2,052,400.00, as shown more in detail on Schedule "A" attached hereto."

Discussion in re Petition for Further Hearing.

Commissioner Donges. Schedule "A" was the information—

Mr. Hobart. Beg pardon?

Commissioner Donges. The statements contained in Schedule "A" were in the testimony before this board?

Mr. Hobart. I am not sure whether all of them were or not.

Mr. Taylor. May I ask a question? To whom, in your opinion, should we look for the money expended under these legal obligations, incurred in these grade crossings in Paterson?

Commissioner Donges. The board didn't state from what source the company would take it, but simply said there appeared in the testimony matters for which the company was contemplating expending larger sums of money, and it seemed to the board it might possibly be this was more important work.

Mr. Taylor. I assume you did not have in mind, in making your statement, obligations we were only under legal obligations to carry out?

Commissioner Donges. No.

Mr. Hobart. And where do these appear in the testimony? They aren't in the testimony of the witness as they now appear; that is the total amount required for this purpose; it is practically all in item C. There does appear certain amounts were spent in six months and certain other amounts in the course of a year, and so on. That is the purpose of it. Of course, this incidentally has a very important bearing on the time, which is the one matter suggested for this morning.

Ninth. "Respondent further says that during the next twelve months, repairs and renewals of bridges on its railroad will be absolutely necessary for the safety in the operation of its railroad

10

20

30

40

Discussion in re Petition for Further Hearing.

at an estimated cost of \$1,094,825.00." In other words, what is put down in Schedules "A" and "B" are only items that we can't possibly avoid. A large number are things required by orders of the court and other commissions. The second set are required, otherwise there is the danger of a capacity of a bridge going down, and changes which must be done, otherwise we would have to stop the railroad.

The next paragraph says: "Respondent further says that the various improvements set forth in the evidence heretofore presented by it in this proceeding should be made, and that in particular the sum of upwards of \$12,000,000, as set forth more in detail in Schedule "C" attached hereto, should be expended at once upon improvements and betterments of its railroad and property for the purpose of enabling it to render safe, adequate and proper service in the transportation of the traffic in interstate commerce which is now offered to it," and so forth.

The next paragraph, paragraph eleven: "Respondent further shows that from and by the report of the said board, it appears that it is the determination of the board that the heaviest burden of expense for the elimination of said crossings will fall upon this respondent, but said report does not announce any determination of the board as to what, if any, other persons or corporations will share in the cost of such eliminations, or to what extent they or either of them should so share; this respondent respectfully calls the attention of this board to the provisions of Section 2, Chapter 37, Laws of 1913. Respondent shows that the Public Service Railway Company is a street railway, and as such, uses the crossings at Market street, Broadway and River street, three of the crossings involved in

one comprehensive plan or scheme which the board has adopted in its report as a general plan covering all of the crossings involved in this proceeding; and this respondent respectfully urges and insists that said Public Service Railway Company should be chargeable with ten per cent. of the total cost of eliminating all of said crossings involved in said plan or scheme so adopted by said board, in addition to all costs and expenses legally chargeable to said Public Service Railway Company or made necessary by reason of changes in, or the removal of, property, constructions, tracks, wires, poles or other appurtenances thereto, which may be necessary to conform its property or constructions to any order which this board may make in this proceeding. 10

Twelve. "Respondent further says that in and by said report the board finds, among other things, that the crossing of each of the streets involved in this proceeding and the railroad tracks of this respondent at the same level, is dangerous to public safety, and that public travel on such highway is impeded thereby; these conclusions are predicated upon the finding of the board that a large number of freight trains, passenger trains and drill engines pass daily over said crossings, or some of them, thereby endangering public safety and impeding public travel; that inasmuch as this respondent cannot assume the cost which would be imposed upon it by an order of the commission requiring it to eliminate the grade crossings in question, this respondent urges that if the board concludes that under existing circumstances such an order must be made, an opportunity should be given this respondent to present plans whereby the number of trains or engine movements, or the manner of the same, 20 30 40

Discussion in re Petition for Further Hearing.

or both, over said crossings, may be changed so as to remove the danger and impediment to public travel."

Commissioner Donges. What do you mean by that?

10 *Mr. Hobart.* Reduce the number of trains passing over the crossings. If the crossings are dangerous because one hundred trains pass over them, certainly they are not nearly so dangerous as ten trains or five trains, or comparatively few trains.

Commissioner Treacy. They wouldn't be dangerous at all, if no trains passed over them.

Mr. Hobart. I suppose not. It is all a question of degree.

Commissioner Donges. Would it necessarily stop the danger to remove some of the trains?

20 *Mr. Minard.* It would depend on the board's decision.

Mr. Hobart. I wouldn't say. We think this danger can be substantially reduced by reducing the train movements over these crossings. I would not say the trains, but the train movements over these crossings. "Wherefore, this respondent, expressly reserving, and not waiving, any and all objections heretofore made, and saving all legal rights or defenses heretofore asserted or claimed, respectfully prays that further hearing be granted for the purpose of considering the following matters, and taking testimony thereon so far as may be necessary.

30

"(a) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company as the railroad companies operating the railroad over the crossings in question within the meaning of Chapter 57, Laws of 1913.

40

Discussion in re Petition for Farther Hearing.

"(b) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company, the Paterson and Ramapo Railroad Company and this respondent jointly, so that the cost thereof may be apportioned between and among said companies by appropriate proceedings.

"(c) Whether this respondent is financially able to carry out the terms of any order made in this proceeding if the heaviest burden of the cost thereof falls upon it. 10

"(d) Whether such order would impose a burden upon the interstate traffic of this respondent, and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers.

"(e) Whether in any order made in this proceeding the Public Service Railway Company should not be chargeable with ten per cent. of the total cost of eliminating all of the crossings involved in said plan or scheme adopted by the board, in addition to all costs and expenses legally chargeable to said Public Service Railway Company under Section 4 of said statute. 20

"(f) If the board reaches the conclusions that under existing circumstances an order must be made requiring this respondent to eliminate the grade crossings in question, whether the danger to public safety and the impediment to public travel could not be removed by reducing the number of train movements over said crossings, or some of them, in accordance with plans which this respondent will submit." 30

We ask leave to file this petition with the board.

Commissioner Donges. It may be filed and the board will consider the petition. You may 40

Discussion in re Petition for Further Hearing.

proceed on the question then which we are called upon to deal with to-day.

Mr. Gourley. In regard to the plan for the switches; the engineer agreed that the plan adopted, the switches be omitted; the plan adopted shows the sidings omitted.

Commissioner Donges. Inadvertently omitted?

10 *Mr. Gourley.* Not inadvertently, but it was not put on.

Commissioner Donges. On the original?

Mr. Harder. It was on the original.

Mr. Minard. We would like to know which one.

Mr. Gourley. Augur & Simon.

Mr. Minard. That is the one Mr. Merrey contended was not in use.

Commissioner Donges. Do you concede—

20 *Mr. Minard.* We don't concede to it. We will have to have our engineer's consideration on it.

Mr. Merrey. Isn't it a fact though by the change of the grade it is practically out of the zone of the change? Those switches not being used, as it is shown on the plan. I don't think any order of the board will interfere with it at all.

Commissioner Donges. It is not within the zone?

30 *Mr. Gourley.* Provided in the plan.

Commissioner Donges. It is not within the zone affected, it would not be put on there—

Mr. Minard. Our position on that is we are anxious to preserve all the sidings we can.

Mr. Gourley. This is quite practicable because the other switches are so low from those sidings; it is omitted from the plan adopted.

Commissioner Donges. If it is not affected by the change in grade.

40 *Mr. Gourley.* That is quite satisfactory.

Discussion in re Petition for Further Hearing.

Commissioner Donges. That seems to be the situation.

Mr. Minard. Right at this point it becomes appropriate to say if the board finds it necessary to make the order imposing the greatest proportion of the expense on this company, this company will reserve the right to reconstruct and perhaps reorganize and change entirely the switch service in Paterson. That will be a matter incident to our necessity under any order that is made. 10

Commissioner Donges. The plan here provides for the general plan of elimination.

Mr. Taylor. I would like to say a word in connection with what Mr. Minard has said, and in regard to the last point made in our petition which was the service there to avoid this elimination. I think the board must appreciate this is a very serious matter to the Erie Railroad Company. While we have no desire whatever to modify in any way which would be in the slightest degree objectionable to any of our patrons in Paterson, the present service which is afforded in Paterson, either passenger service or private siding; if it comes to the alternative of expending the amount of money which would be imposed on the railroad company by this elimination under the board's order or modify our service in Paterson so as to minimize the danger of the public crossings, we must insist on our proposition that we be given an opportunity to formulate plans of that sort and give it serious consideration. 20 30

Commissioner Donges. You have had an opportunity to do that.

Mr. Taylor. Not exactly in the same way. Of course that is an alternative which we wouldn't 40

Discussion in re Petition for Further Hearing.

wish to consider or resort to until everything else has passed, except as a last alternative.

Mr. Merrey. You mean to say you think it possible you would reduce your service, number of trains in Paterson?

10 *Mr. Taylor.* I don't mean to say that we would reduce the number of trains to Paterson, but I say we could materially reduce the number of train movements or engine movements involved over the crossing.

Mr. Merrey. That is one?

Mr. Taylor. All of them.

Commissioner Donges. That comes under your petition.

Mr. Taylor. It has a bearing on the side track proposition.

20 *Mr. Gilmour.* I would like to ask whether, so far in this proceeding there has been any consideration by the board of the part of the cost the Public Service Railway Company must assume to pay?

Commissioner Donges. Yes, that will be provided for in the order.

30 *Mr. Gilmour.* While the railway company has been a party to these proceedings all along with the other companies, there have been no copies of any of the findings transmitted to the railway company excepting the notice of this hearing this morning. We did get certain plans, maps, which were transmitted to the company with the information that they were tentatively considered as a method of eliminating those crossings.

Commissioner Donges. When did you receive those?

Mr. Gilmour. About two weeks ago.

40 *Commissioner Donges.* They weren't tentative plans; they were the plans approved by the board.

Discussion in re Petition for Further Hearing.

Mr. Gilmour. Then I understand that those plans have been approved by the board as the method of eliminating the crossings, and those plans contemplating putting a reverse curve in the railway, in the tracks of the Public Service Railway, where they go over the Erie Railroad at River street.

Commissioner Donges. I think that is true, but they speak for themselves. 10

Mr. Gilmour. The plans that we received made no change in that condition and it makes a very material disadvantage to the railway company.

Commissioner Donges. That was testified to by your expert.

Mr. Gilmour. And ought to be considered.

Commissioner Donges. And was considered by this board. 20

Mr. Gilmour. And ought to be considered in connection with the amount of work the railway company is supposed to do—

Commissioner Donges. I think the statute fixes the amount the railway company has to do.

Mr. Gilmour. No; the statute fixes a limit.

Commissioner Donges. The limit is ten per cent.?

Mr. Gilmour. Yes; not to exceed ten per cent.

Commissioner Donges. The board has considered that and will provide for it in the order. 30

Mr. Minard. May I inquire whether that point has been considered as exclusive of all costs which may be necessary to conform their property to the change in grades?

Mr. Gilmour. Certainly not.

Commissioner Donges. We don't propose to get into a discussion of that now. That point has been considered by the board.

Mr. Minard. That is all I ask. 40

H. J. Harder, direct.

Commissioner Donges. There is no good threshing over and arguing that case over again now, on those points.

Mr. Minard. We are prepared on the question then.

Commissioner Donges. We will hear you.

Mr. Merrey. Who will you hear first?

10 *Commissioner Donges.* The railroad company, we will hear them.

Mr. Minard. We are defendant, or respondent.

Commissioner Donges. We will hear you, Mr. Merrey.

H. J. HARDER, resumes the stand for petitioner, City of Paterson.

Direct examination by Mr. Merrey.

20 Q Have you examined the plans adopted—have you studied the plans adopted by the Public Utility Commissioners for the elimination of the grade crossings in Paterson?

A Yes, sir.

Q Have you formed an opinion as to how long the work will take?

A I have, in doing the work in two sections, yes, sir.

30 Q Tell us how long you think it would take them to make the change of the entire—under the plan including the entire work, that is beyond Madison avenue?

A From a point 1,530 feet west of Madison avenue to the Passaic River I have estimated that it would take about three years.

Q That is for the entire change?

A Yes, sir.

Q Section A?

40 A Section A, from the beginning of Cedar and First street to six hundred feet west of River street, two and a half years.

H. J. Harder, cross.

Q That is the main section?

A That is right through the middle of the town, yes, sir.

Q You have then ascertained other operations of this kind?

A I secured the time that was spent in eliminating Lackawanna tracks at Newark, the Pennsylvania tracks at Rahway, the Erie tracks at Jersey City, and the Pennsylvania in Elizabeth, and arrived at my conclusion from the time taken for these other eliminations of like character. 10

Q Was there any reason that would cause delay in the plan adopted by the commission or make it a very difficult proposition?

A I don't understand.

Q Any operation in rock cuts, or matters of that kind, that would delay it longer than usual?

A No, there is no rock cuts. 20

Cross examination by Mr. Minard.

Q In considering this time period you used the Newark, Rahway, Jersey City and Elizabeth cases as a basis of computing?

A Yes, sir.

Q Did you, in connection with these cases, get the detail of the number of cubic feet excavation, fill or concrete?

A No, I didn't go into all that.

Q Did you get the number of train movements necessary to take into consideration in the construction of the work? 30

A No.

Q Did you take the number of tracks necessary to be kept open to carry on the railroad work done in that time?

A In the case of Rahway I did.

Q Any others?

A No. Let me tell you; I got this information from the engineers in the different cities. I simply 40

H. J. Harder, cross.

asked them for the length of time it took and the distance that has been affected.

Q When did you begin your time, with the beginning of the work or the beginning of the plan?

A I imagine upon the beginning of the work.

Q Then the whole information you have on this subject is not based on any information on those details, is that true?

10 A No. I got this information from what I considered authoritative sources. The engineer in each town; I have used that.

Q Do you know whether that includes the time of making the plan or letting the contract?

A I only know it took so long.

Q Your information under your understanding did not include the time of making the plans or letting the contract? Did you assume that?

20 A I did assume the time it took to do the work.

Q Just doing the work. You got your information from the city engineer's office of the resident city?

A Yes, sir.

Q Did you get it from the city engineer personally or simply from their records?

A I got—I had a letter from the engineer in Rahway and in Elizabeth and a direct communication from Mr. Van Kowen in Jersey City and a letter from Mr. Howell, engineer of highways in Newark.

30 Q Do you know whether in those cases the engineer who gave you the information was the engineer in charge of the work?

A I don't know.

Q Did you have any other source of information for detailing the length of time required?

A No other.

Q Is the Rahway work done yet?

A It is still under way.

40 Q Your figures of time on the Rahway work were up to the present time or estimated in the future?

H. J. Harder, cross.

A Mr. Marshall, the engineer, advised me that it would take three years to complete the work. It was substantially finished in the city, but they were eliminating outside the city.

Q How long would that part of it take?

A Over two years, three years.

Q Do you know the estimated elevation of the changes?

10

A In Elizabeth the elevation was twenty-five feet.

Q That is only the estimated elevation?

A The only one I know the height.

Q Do you know whether in any cases other changes had to be made incident to the track elevation?

A No.

Q You know none of those elevations were made under this act?

A I don't know that.

20

Q Do you know that in some of those cases the actual work of making the elevation was carried on by the railroad company, but the other changes which are included in this act were carried on by the other people, the city in some instances?

A I only know what I asked these engineers and what they told me.

Q That is the only source of your conclusion that it would take three years for the section you mentioned and two and a half years for the other section?

30

A By comparing it with the time they gave me, yes.

Q Did you employ any mathematical process to reach that conclusion?

A No, I didn't; just averaged it.

Q You didn't consider the amount of work to be done on this job in order to base a determination of the length of time?

A I took the average.

40

H. J. Harder, cross.

Q You took four cases from somewhere else and struck an average?

A Yes.

Q You added the length of time of all those four together and then divided them by four?

A Yes. All of which were more difficult than this would be?

10 Q You think so?

A Yes.

Q You don't know how much more?

A No.

Q How many crossings were involved in each of the cases?

A I think I said awhile ago I don't know the number.

Q You don't know how many sidings there were?

A No.

20 Q Do you know whether any freight yards depended on that construction work, while the work was carried on, depending on the track being changed?

A I have no personal knowledge of local conditions.

Q Do you know what amount of work was necessary in order to enable the railroad company to make those passenger stops at the stations that might be involved in the proceedings?

30 A I have no knowledge of the conditions existing during the work.

Q Didn't you prepare what engineers call a program for your work?

A A program.

Q Yes.

A I prepared those plans.

Q Do you know what a program is for carrying on the work?

A I have an idea what you mean.

H. J. Harder, cross.

Q Do you know what an engineer calls a program for the work?

A I never used anything like that.

Q You never have?

A We don't use it in new work.

Q You don't use it in new work; show what is the first step, how much concrete fill, what is the second step, how much is involved in that, how long would it take; allow certain days for bidding and starting of the work; you didn't prepare that? 10

A I didn't go into that.

Q You have the length of track involved in each of the other cases?

A Yes; that is the way it is involved, the length of the track and the time it did take in these other situations.

Q Just tell us by what process you reached your conclusion as to the length of track involved. 20

A In Newark the Lackawanna elevation was 2.23; they had a lot of delay, Mr. Howell tells me; some legal complications and trouble with the canal.

Q You have all those but the trouble with the canal?

A You have some property along the line. The Lackawanna took five years in Newark. In Rahway two miles, and it took three years; Jersey City, 1.45 miles, and it took two years; in Elizabeth, 2.8 miles, and it took three years. 30

Q I understand you have taken the length of the railroad, not knowing the number of tracks involved?

A The tracks of the railroad?

Q Yes, two, four or six.

A In Rahway there are six tracks; in Jersey City four; in Newark two tracks; and Elizabeth I am not sure of.

Q So the number of tracks hadn't any influence on your determination of the length of time? 40

H. J. Harder, cross.

A No. Now, in Paterson the elevation from a point fifteen hundred—the proposed change from 1,530 feet west of Madison avenue to the river is a mile and sixty-five hundredths; I allowed three years, because it is more time than any allowed here.

Q That is the only reason you allowed it, because it is more time than any other?

10 A I estimated it would be a fair allowance from these other distances.

Q What is that?

A I estimated it would be a fair allowance because of these other distances.

Q Then what you have said is merely an estimate based on your information given from other sources and involves no calculation of this one?

A No, sir, that is what I said in the beginning.

20 Q Are you familiar with the report which the board has filed in this case?

A I have read it.

Q You wanted to divide the work up into different sections than the board did?

A I didn't.

Q You divided it into two sections?

A The board divided it into four.

Q Five?

A Five.

Q Why did you divide it into two instead of five?

30 A I didn't.

Q The first section you mentioned—you say you mention two sections—

Mr. Merrey. That is the whole work.

Q You say you divided it into two sections—

Mr. Merrey. He didn't; I object to that. That is the entire work.

Commissioner Donges. He said he divided it into two sections. He may tell how the sections are made up.

40

H. J. Harder, cross.

Witness. To arrive at an estimate of the time we started at 1,530 feet west of Madison avenue, just at the beginning of one of the sections—

Q Beginning of which section?

A I think C.

Q This report shows Sections A, B, C, D and E?

A Yes.

Q Section A is Market street to Lafayette; is that included in your first section? 10

A Part of it. Yes, all of it.

Q B includes Keen, Warren and River streets; is that in your first section?

A Yes.

Q C includes Straight to Market street; is that included in the first section?

A Yes.

Q D includes the elimination of Madison; is that in your first section? 20

A No; I didn't consider D at all. I started west of Madison.

Q You didn't include Madison avenue at all in your estimate?

A No; I understood that was to be left out.

Q Does your estimate include Section E, Fifth avenue, if River street is eliminated?

A That is my total length.

Q Your total length then is based on all of the crossings involved in the proceeding except Madison avenue? 30

A Yes.

Q Why did you leave out Madison avenue?

A I understood it was to be left out.

Q Who told you it was to be left out?

A I don't know. I heard it somewhere.

Q Some one told you to leave it out?

A I think I heard Mr. Merrey say that.

Q Did he give you any reason for having to leave it out? 40

H. J. Harder, cross.

A Wasn't that the section to be started west of Madison, because there was rock at Madison west and east of it?

Q We are asking your reasons?

A These plans show.

Q Is that the reason, because there was rock?

A No; the section on this plan starts 1,520 feet
10 west of it.

Q Did anyone tell you why you were to leave it out?

A It seems to me I heard that; I am not sure.

Q At any rate you have not included it?

A Not included.

Q Are you prepared to give me an estimate of what the length of time would be if you included Madison avenue?

A Only guess at it.
20

Q But it would materially extend this period?

A Yes.

Q Especially if it is rock, as I understand?

A I understand it is rock.

Q Then that would materially extend this time, would it not?

A Yes. If this proposed improvement was carried south of Madison avenue.

Q The excavation work on rock is slower?

A Yes.

Q Where blasting and that sort of work is required?
30

A Yes.

Q You aren't prepared to make an estimate on the same authority your estimate is made as to how long it would take?

A No. I told you in the beginning the only information I got was from the different cities of the work that had been done.

40 *Mr. Minord.* That is all.

H. J. Harder, cross.

By Mr. Mervey.

Q Mr. Harder, as you know, and as Mr. Minard ought to know—

Mr. Minard. I object to any question as to what I ought to know.

Q Section D includes the elimination of Madison avenue on the commission's plan?

10

A I would have to look at it. Section D includes the elimination of Madison avenue.

Q Under the commission's plan that is provided for by a bridge, eliminating that street?

A Yes.

Q There isn't any rock-cut there, is there?

A The rock cut would be there if the track were lowered as we proposed.

Q As the city proposed?

A Yes.

20

Q Not as the commission proposes?

A Not now, because the commission's plan doesn't disturb the track there.

Q So your estimate of three years included everything except Section D?

A Yes; starting 1,530 west of Madison avenue and taking everything west of that.

Q The plan of the commission doesn't interfere with the grade of the railroad at that point?

A No.

30

Q Simply provides for raising the street?

A Yes.

Q If that was started at this time would it take anything like three years to make that change?

A From where do you mean?

Q Just Section D; the elimination of the grade crossing at Madison avenue, taking it up over the Erie Railroad as the commission proposes?

A Not as the commission proposes.

40

H. J. Harder, cross.

Q That wouldn't add any time at all to your estimate of three years?

A Simply building a bridge and approaches.

Q This other section you propose of starting 1,500 feet west of Madison avenue was for the entire rest of the work outside of the Madison avenue change?

A Yes.

10 Q You said you had spoken of two sections, that is Section A alone?

A Section A alone, between Cedar and Essex street for 1,500 feet west of River street.

Q As directed by the commission?

A As directed by the commission.

Q If Section A was to be separated from the other work and done at one time you say it would take two and a half years?

A Yes.

20 Q And let the other work follow after that if it was so stated?

A Yes.

By Mr. Minard.

Q Why didn't you base your estimate of the time on the sections as decided by the commission so you could get the length of time on each section?

A I had no particular reason for not doing it that way.

30 Q You read the commission's report?

A Yes.

Q You read they decided it should be done in sections?

A Yes.

Q A, B, C, D?

A It might be done in sections, they said.

Q I understood that to be the determination of the commission—

40 *Commissioner Donges.* The work might be done that way.

Robert C. Falconer, direct.

Commissioner Treacy. Might be done that way; not should be done that way.

Q Why didn't you adopt the divisions the commission said in which it should be done?

A I haven't any reason, except this we did adopt included those.

Q Isn't it true the section you took, the length of time lend themselves to no appropriate comparisons with other cities and that is the reason you adopted it that way? 10

A That isn't true.

Mr. Minard. As I read the report, it said it should be done.

Commissioner Treacy. It should be permitted to be done. It may be done, if you so desire. It doesn't say you must.

Mr. Minard. Is there any other conclusion in determining which way it shall be done? 20

Commissioner Treacy. You are to determine that now.

Commissioner Donges. Is there anything further, Mr. Merrey?

Mr. Merrey. No, sir.

Commissioner Donges. Do you desire to submit anything?

Mr. Minard. Yes.

ROBERT C. FALCONER, sworn on behalf of respondent, Erie Railroad Company. 30

Direct examination by Mr. Minard.

Q You have been sworn in this case and appeared as a witness?

A Yes.

Q Have you considered, or had considered, the question of the time and method of performing the work of eliminating the grade crossings mentioned 40

Robert C. Falconer, direct.

along the line indicated by the commission's report in this case?

A Yes; and I have had it considered.

Q Have you gone over the result of that conclusion?

A Yes; but not in minute detail.

10 Q In sufficient detail to explain and outline the proposition of the board?

A Yes, I think so.

Q Proceed, will you, with what you have prepared on that, beginning with Section A?

A Do you mean as to a program?

Q Yes, length of time.

A Or simply length of time?

Q To do this work?

20 A Section A itself, after all the specifications and plans were made and after the contracts were let, would require, we estimate, three years to complete.

Q And how long will it take to make the survey and prepare the plans necessary for advertising for bids, for instance?

A It will take about a year.

Q How long would it take to advertise for bids and let the contracts?

A Well, it would probably take about three months for each section, for each contract.

30 Q Is that included in the year you have figured on?

A I don't think it is. I am not quite positive about that. It doesn't so indicate here.

Q What is that?

A It doesn't so indicate here, and in my opinion it should not be included. I believe a full year will be required to make the survey and to prepare plans, exclusive of any time required to take bids and let the contracts.

Robert C. Falconer, direct.

Q Mr. Falconer, have the details of the various steps and quantities of material, and so forth, been estimated in your department?

A Approximately.

Q Who estimated them?

A Mr. Brameld.

Q He is an engineer in your department?

A Yes, sir. 10

Q He is here to testify to those?

A Yes.

Q On Section B what time do you think it will take to carry out the work proposed for Section B?

A We estimate that Section B, done by itself, would require about one year and three months.

Q Inclusive or exclusive of the preparation of plans and the letting of contracts?

A Exclusive of the preparation of plans and letting of contracts. 20

Q What period of time for making surveys, preparing plans, and letting contracts on that section will be required?

A The survey and plans are all included in the year, that could all be made within a year. There would be about three months more required for the letting of the contracts on Section B. There would be about three month's time required for the letting of contracts.

Q (*By Commissioner Donges.*) Do I understand, in your estimate of one year, Mr. Falconer, you had included surveys and plans of actually doing the work? 30

A My estimate of one year for surveying and plans includes the survey and plans of the whole work.

Q (*By Mr. Minard.*) All five sections?

A Yes. We would have to make most of the plans for the whole work before we could begin on any, in order to have them fit together. Of course, there 40

Robert C. Falconer, direct.

would be some details that could be left until later; the main plans would have to be done at one time.

Q (*By Commissioner Donges.*) Your estimate of three months for letting the plans is in addition to the one year and three and a half months, or is that included?

10 A No, in addition to that. There is about three months required to send out specification on a big job like this and give the contractor ample time to make his bid, consider it and get it approved and let the contract, and it sometimes takes more than three months; where commissions and cities are involved, there is sometimes delay.

Q (*By Mr. Minard.*) On Section C how long, in your judgment, would it take?

20 A Exclusive of surveys, preparation of plans and letting of the contract, we estimate one year and eight and a half months, about.

Q Section D is Madison avenue; what estimate have you made as to the time it will take to do that work?

A Well, the estimate is made for six months, but I don't think it can be completed in all its details in six months.

Q (*By Mr. Merrey.*) How long would it take to complete it in all its details?

30 A I think it would take from nine to ten months.

Q (*By Mr. Minard.*) That, of course, is on the assumption the surveys and plans will be made within the year you spoke of awhile before?

A Yes.

Q What conclusion do you reach as to the whole job, doing the work in sections?

A Doing it one section at a time, and following one section immediately by another?

40 Q Yes; if you can do it without any intermission between the sections?

Robert C. Falconer, direct.

A If we continued without any interruption in the work, but letting the contracts for the succeeding section just before the previous one was finished, it would take, in my estimation, about eight years.

Q How long have you been engaged in construction work of large magnitude?

Mr. Merrey. May I just ask if this is the position of the railroad company on this question? 10

Mr. Minard. That is our evidence we offer.

Mr. Merrey. Is that your position?

Mr. Minard. That is the evidence.

Mr. Merrey. Do you take that position or intend to show by others it will take longer?

Mr. Minard. We aren't through with this testimony.

Mr. Merrey. I may shorten things.

Commissioner Donges. What Mr. Merrey asks is whether, on the estimate of Mr. Falconer as to the length of time likely to be required, you are willing to rest that phase of this case. 20

Mr. Minard. I don't know of any other testimony to the contrary than that at the present time.

Mr. Merrey. We will consent, if the commission feels like making this order, that a year is a reasonable time to prepare their plans for the whole work and three years for the first section. We think that is about as fast as the Erie could be expected to do that work. Other roads might do it quicker. 30

Commissioner Donges. As far as the time is concerned, you are willing to rely on this testimony?

Mr. Merrey. Yes; a year for the plans and three years for the first section, and the time mentioned in the others.

Commissioner Donges. That relieves you of any other testimony on that point. 40

Robert C. Falconer, direct.

Mr. Minard. No, we have testimony to show what section should be done first.

Mr. Merrey. What section do you want done first?

Mr. Minard. Our evidence will show that.

Mr. Merrey. Section A ought to be done first.

10 *Mr. Minard.* Our position is this: If an order is made as indicated by this report it ought not to be like the butt end of the corn put in the sheller first; it ought to be the little end, so we can start the work and carry it through. The most favorable condition under which we could start would be beginning with the small end of the proposition first.

Mr. Merrey. That is, from the financial end of it.

20 *Mr. Minard.* Certainly. Obviously from the financial end of it. If the commission is inclined to make the order as indicated, we certainly don't want to choke to death on the first dose.

Commissioner Donges. My recollection of Mr. Brameld's testimony was when he stated this work might be done in sections, but the work ought to be done beginning with Section A first. He gave the designations of the sections in accordance with his judgment.

Mr. Minard. I presume he gave them—

30 *Commissioner Donges.* He gave the order the work should be done, beginning with Section A.

Mr. Minard. From an engineering standpoint. We are discussing it from a financial standpoint now.

Mr. Merrey. Considering it from the standpoint of danger, Section A is certainly the most dangerous. Section E there isn't so much danger.

40 *Mr. Minard.* That may be true it is not so dangerous. With all due respect to the danger at the crossings we have got to do the things we can and not the things we can't do.

Robert C. Falconer, direct.

Commissioner Donges. You have already submitted your testimony on the financial side of the case.

Mr. Minard. Surely.

Commissioner Donges. The single question that the board wanted the parties interested to be heard on to-day is how long a time will be required to do the work on each of these sections. 10

Mr. Minard. That question will depend very largely in the beginning—

Commissioner Donges. If you have no money you will never begin; we will take that to be true; you needn't prove that; if you never get the money you will never do the work.

Mr. Minard. Sometimes you can get a smaller amount when you can't get a bigger.

Commissioner Donges. Is that all?

Q In your judgment, which of the sections, if an order is made and the burden of the expense falls on the company, which of the sections ought to be done first? 20

Mr. Merrey. From a financial or an engineering standpoint?

Mr. Minard. From the only standpoint which makes it possible to do any of them.

A In my opinion Section D, involving the Madison avenue elimination only. This section is not affected by any work on any of the other sections, the expense is the lightest, and it will furnish at least some relief to the City of Paterson, and it is the section which the railroad company can nearest afford to undertake. 30

Q Now, in your judgment what is the next section in order?

A Well, I think that either section B, I think it is, involving the River street crossing—

Q I will give you a diagram and you can refresh your recollection (handing witness diagram). 40

Robert C. Falconer, direct.

A Yes; Section B, involving the Keen, Warren and River street, or Section C, from Straight to Market street, either one of these could be undertaken.

Q Then whatever of Section C or B is done first or second, then the next one ought to be third?

A I think so. I think it will work out perfectly feasible in that.

10 Q (*By Commissioner Donges.*) Which one do you say?

A The other one, either B or C, whatever you took first, the other should be second.

Q You think either could be second?

A I think so. I don't see now any practical difficulty of taking either first.

Q (*By Mr. Minard.*) When you say practical difference between them, from what standpoint do you mention that practical difference?

20 A From an engineering standpoint. There is a difference in the cost, and considering the difference in the cost it would be preferable to undertake Section B before you undertake Section C.

Q Now then, you would then— Your notion would be to take Section A last then?

A Yes.

Q Section A would be the fourth one and last section to be done?

A Yes.

30 Q Is that entirely practical from an engineering standpoint, that arrangement?

A Yes.

Q (*By Commissioner Donges.*) Have you taken them in the order in which the burden would fall lightest on the company?

A Yes.

Q Section D, the cost is \$319,000 odd, according to the Erie Railroad estimate; and Section B, \$491,000; Section C, \$652,000; and Section A, \$1,666,000?

40 A Yes.

Robert C. Falconer, cross.

Mr. Minard. Pardon me; the estimate of Madison avenue, according to the city's plan it would be still lower, this plan as substituted.

Commissioner Donges. Yes, it would be \$192,000.

Mr. Minard. Yes.

Commissioner Donges. No, I think \$127,000.

Mr. Minard. Whatever the amount is. 10

Commissioner Donges. It is a saving of \$192,000. On Section B, \$339,000, as shown on Schedule D.

Cross examination by Mr. Merrey.

Q Section D is entirely independent of the rest of the work, isn't it?

A Yes.

Q How long would it take you to prepare a plan for that work and have it actually constructed? 20

A Actually constructed?

Q Yes.

A To prepare the plan—make surveys, prepare the plan and construct it would take, depending on the time of year when we began our survey, would take from a year to sixteen months.

Q If you had the money you could do it in a year without any trouble?

A It would depend on the time of the year we started to make the survey. If we got our survey and plan done in the middle or beginning of the winter we would have to wait until next spring to do the construction work and then lose four months of winter. If we got the preparing of the plan done and the contracts let, ready to begin work at the beginning of the season, then we would do it in a shorter time. The season of the year makes a difference in the estimate of time. 30

Q You could do it in less than a year? 40

Robert C. Falconer, cross.

A I don't think we could. I am satisfied we wouldn't do it in less than a year.

Q What would prevent you making surveys now, in this weather?

A We have to locate all those property lines with extreme accuracy and I can't say we have surveys of Paterson which show any property lines, even on our right of way.

Commissioner Donges. I can't hear.

Witness. Our maps of Paterson—

Mr. Minard. A little louder.

Witness. Our surveys of Paterson, this part of the line, are very old and they are very incomplete. We can't say with any accuracy even our own right of way line or our own tracks, and before any work can be started, it will be necessary to make an accurate survey showing not only our own right of way line, track, buildings, everything, but also with equal accuracy the dividing lines and the street lines of all property within the zone lines to be affected.

Q How long would that take you?

A It depends altogether on the condition of the city records and whether we can locate the city records to give us that information.

Q Suppose the city engineer was to give you that information to-morrow; you would have some time?

A We would still have to trace it out on the ground and check the survey. We found in many instances that the city maps are not correct, any more than our own. It is the actual distance we want, not what they ought to be.

Q What city maps do you refer to?

A I haven't any in mind, but in many cases the city maps are not correct.

Q You mean maps made by private individuals?

Robert C. Falconer, cross.

A No, I mean city tracings furnished by the city engineer's office, which give the widths of the various lots and the lengths of the blocks, and you couldn't measure them on the ground and make them agree with the map.

Q You mean in this case?

A No, I don't know anything about Paterson. I don't know anything about how good your records are in Paterson. 10

A I simply say if we could get the information we would still have to check it and locate those points.

Q Why is it necessary for you to locate property lines?

A Because they are affected by the construction work. The damages are affected. We must know whether or not we are encroaching on property; we must know where the street lines are in order to build the sidewalks and sidewalks and curbs. We can't build hit or miss. 20

Q You don't know whether that information is all on the ground or not?

A No, I don't know anything about it.

Q You are making your statement if there is no information there you will have to get it yourself?

A We will have to get it, yes; we will have to make the survey. We are making a survey of Youngstown, checking with the city engineer, and the city engineer is changing his plans to agree with our survey, because he admits his own plans are wrong, his maps. 30

Q All other sections are connected together, are they not, really part of one project?

A Yes, in the sense they are connected together in that they—in that if done separately they will overlap.

Q Have you considered whether you could start Section B ahead of Section A?

A Yes. 40

Discussion.

Q The estimates that were given to the commission were not based on that idea, were they?

A No—I am not quite sure about that. I didn't make the estimate personally. I prefer not to answer that question.

Q All the important crossings are embraced in Section A, are they not, the ones used most?

10 A River street is a very important crossing. That is not in Section A.

Q That is in Section B?

Mr. Merrey. That is all.

Mr. Minard. That is all.

Mr. Hobart. If the commission please, in view of the city's consent, it will take eight years to do this, we don't care to submit further evidence on that point. It seems unnecessary; but we do desire to call the commission's attention to our position that none of the
20 work should be ordered done at this time in view of the situation shown in the petition already presented this morning and especially paragraph seven, and we say no work should be started for at least a year to see where we are coming out in these terrible times of financial depression. If the commission wants, we are prepared to-day to offer evidence in support of this part of the petition, supplemental to the evidence on the same subject which is already before the commission. If the board should, however, finally
30 decide that all work be started at once, the plans prepared and the work started, and so on, then we would like to have the board consider further the question whether the board wants all the work done or would order some portion done and then reserve the future decision whether the following sections shall or not be done, as circumstances develop.

Commissioner Donges. You mean one section be done within the time to be fixed that the time within which the next section be taken up, be deferred?

40 *Mr. Hobart.* Yes.

Discussion.

Commissioner Douglas. Consideration of that question be deferred until some future time?

Mr. Hobart. Yes.

Mr. Merrey. When I said I would consent to the time mentioned, nobody considered doing anything else but Section A first; in fact, I don't see how the commission could consider anything else. Section A is the heart of this work; it includes the important crossings. That is the work we are really anxious to have done; there is nothing outside—perhaps with the exception of the River street crossing—we would be willing to wait until a year from now, and they would have eight years to do that. Something may develop in that time. It seems to me the order should go for the entire work, Section A first. They will have to spend very little money in this first year. All they will have to spend is for the cost of preparing these plans, which is not very great. They say in this petition they don't expect to make as much money this year as last. Of course, I notice in the newspapers they are doing a little better this year than last. We realise this is a year of depression. It can't last forever. The experience has been in the past years these periods of depression pass away. It is certain within a year or so times are going to change; this railroad is going to have money. If something should happen between now and a year the commission could take care of it. I think the order ought to go to prepare their plans within a year and they be prepared to go ahead with the first section for the three years thereafter and then they start—

Commissioner Treacy. Go ahead and complete it.

Mr. Merrey. Go ahead and complete it, four years have it completed.

Commissioner Douglas. In other words, adopt Mr. Falconer's suggestion as to time?

Mr. Merrey. We submit that. We don't concede to this bridging charge.

Discussion.

Commissioner Donges. Madison avenue?

Mr. Merrey. Madison avenue, and the street at the present time is not used as extensively as the other crossings. Madison avenue is going to be used in the future. It will develop, in six years probably there will be a great deal more necessary than there is now, because the city is growing that way.

10 *Commissioner Donges.* Is there anything further?

Mr. Hobart. I think I have already stated if the commission desires further consideration on the question, I am not asking for delay.

Commissioner Donges. On the question of finances?

Mr. Hobart. Yes.

20 *Commissioner Donges.* The board is of the opinion opportunity was afforded you to present your testimony fully on that point and the only question the board desired to hear you to-day was on the question of time.

Mr. Hobart. Yes, the question of time depends in a sense on the financial ability; there have been changes in other matters which come in since the last testimony.

Commissioner Donges. The question of the time is the question of what time you can do the physical part of the work in.

Mr. Hobart. Of course, the petition is on file.

30 *Commissioner Donges.* The board will consider that.

Mr. Hobart. I was going to ask the board's consideration that if there should develop any matter therein that the board desired testimony on we are prepared at any time or any place to go ahead. We are prepared to-day.

Commissioner Donges. The board will consider that, but limits the taking of testimony to-day to the single point.

Mr. Merrey. Are you through?

40 *Commissioner Donges.* Is that all?

Mr. Hobart. I think that is all.

REPORT OF THE BOARD OF EXAMINERS

IN THE MATTER OF THE ESTATE OF JAMES A. HARRIS, DECEASED.

NOTICE OF ACCIDENT.

Name of Corporation owning, leasing or operating
road: 3/27/1913.

Erie Railroad. New York Division.

Date and hour of accident :

March 24th, 1913, 6.21 P. M.

Precise location of accident :

Keene Street crossing, Paterson, N. J.

Number and description of train :

No. 135 first class.

Conductor :

J. H. Doty.

Engineman :

R. Thornhill.

Nature of Accident :

Train No. 135 engine 847 struck and killed a man by the name of James Eakins who approached Keene Street crossing from the south side and crossed over diagonally to westbound main track where he was struck. Crossing is protected by crossing bell which was in good condition and ringing for the train in question. Cross is protected by flagman between the hours of 6.30 a. m. and 6.30 p. m. Engine whistle was also sounded for this crossing. Crossingman endeavored to prevent the man from crossing but without result. Speed of train was 12 miles per hour.

Exhibits P-52 to P-54.

Number and names of passengers killed or injured:
None.

Number and names of other persons killed or injured:
1 James Eakins, killed.

Number and names (if known) of trespassers killed
or injured:
None.

Names and occupations of employes killed or injured:
None.

Extent of damage to property and equipment:
None.

Note:—No allowance has been made for the extra operating cost to the Erie R. R. Co. caused by interference with regular schedules.

No allowance has been made for property damage caused by the lowering or raising of streets, by the elimination or alteration

Exhibit P-55.

of sidings, nor for the cost of altering buildings to meet new conditions.

The estimate includes the cost of changing sidings located on the Erie right-of-way, but not of those located on other property.

The 10 per cent. added to each section is to cover fencing and incidentals, and also extra foundations, drains, etc., made necessary by conditions found during construction and not possible of determination until then.

Respectfully,

H. J. HARDER,
City Engineer.

(Condensed)

(Public—No. 336)

(H. R. 21279)

An Act Making appropriations for the service of the Post Office Department for the fiscal year ending June thirtieth, one thousand nine hundred and thirteen, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled, that the following sums be and they are hereby appropriated for the service of the Post Office Department in conformity with the Act of July second, one thousand eight hundred and thirty-six, as follows:

* * * * *

For railway post office car service four million seven hundred and seven thousand dollars: Provided, that no part of this amount shall be paid for the use of any car which is not sound in material and construction and which is not equipped with sanitary drinking water containers and toilet facilities, nor unless such car is regularly and thoroughly cleaned: Provided further that after the first of July, one thousand nine hundred and seventeen, the Postmaster General shall not approve or allow to be used or pay for any full railway post office car not constructed of steel or steel underframe or equally indestructible material, and not less than twenty-five per centum of the railway post office cars of a railroad company not conforming to the provisions of this Act shall be replaced with cars constructed of steel annually after June, one thousand nine hundred and thirteen; and all cars accepted for this service and contracted for by the railroad companies after the passage of this act shall be constructed of steel: Provided further that the Postmaster-General is authorized to pay for

EXHIBIT R-15.**PATERSON CROSSING CASES.****ABSTRACT OF TITLE.**

1. The main line of railroad maintained and operated by the Erie Railroad Company in the City of Paterson was constructed under the Charters of The President and Directors of the Paterson and Hudson River Railroad Company and The Paterson and Ramapo Railroad Company granted by certain Acts of the Legislature of the State of New Jersey and amended by Supplements thereto.

2. The President and Directors of the Paterson and Hudson River Railroad Company is a corporation organized under an Act of the Legislature of New Jersey passed January 21st, 1831 (P. L. 1826, page 24), in which it was authorized, among other things, to survey, lay out and construct etc., a railroad from Paterson to the Hudson River. A copy of said Act and Supplements thereto are hereto attached and marked "Exhibit 1."

3. The property and franchises of said The President and Directors of the Paterson and Hudson River Railroad Company are now held and operated by the Erie Railroad Company under a certain lease dated September 9, 1852, originally made to the Union

Exhibit R-15.

Railroad Company, a copy of which lease and schedules therein referred to are hereto attached and marked "Exhibit 2."

4. The Paterson and Ramapo Railroad Company is a corporation organized under an Act of the Legislature of New Jersey passed March 10, 1841 (P. L. 1840-1, page 97), in which it was authorized, among other things, to survey, lay out, and construct, etc., a railroad from Paterson to the division line between the Township of Franklin, in the County of Bergen, and the State of New York—a copy of said Act and of the Supplements thereto are hereto attached and marked "Exhibit 3."

5. The property and franchises of the said The Paterson and Ramapo Railroad Company are now held and operated by the Erie Railroad Company under a certain lease dated September 9th, 1852, originally made to the Union Railroad Company, a copy of which lease is hereto attached and marked "Exhibit 4."

6. Said leases were assigned to the New York and Erie Railroad Company by the Union Railroad Company September 10, 1852, such assignments being affirmed by an Act of the Legislature of the State of New Jersey approved March 14, 1853 (P. L. 1853, page 480), and Laws of 1862, page 206—copies of such assignments are attached hereto and marked "Exhibit 5."

7. The New York and Erie Railroad Company was a corporation of the State of New York, duly incorporated in the year 1832 under an Act of the Legislature of the State of New York passed April 24, 1832, known as Chapter 224 of the Laws of 1832, "with power to construct a single, double or treble railroad or way from the City of New York to Lake Erie," and with other powers therein stated. Under the Act aforesaid, previous to the year 1852, the New

Exhibit R-15.

York and Erie Railroad Company did construct the railroad which it was authorized to construct.

8. Upon the first day of June, 1858, by a mortgage acknowledged the 11th day of June, 1858, and known as the Fifth Mortgage, the New York and Erie Railroad Company mortgaged its property, rights and franchises to James Brown and John C. Bancroft Davis, as Trustees for the bondholders, recorded in Passaic County Clerk's office June 18th, 1858, in Book II of Mortgages, pages 368 to 377 inclusive. This mortgage was foreclosed in accordance with its terms and conditions because of default, and upon foreclosure the property, rights and franchises described therein were duly sold. The foreclosure and sale were made pursuant to the laws then existing and particularly pursuant to Chapter 160 of the Laws of 1860, and Chapter 119 of the Laws of 1861, of the State of New York.

9. By virtue of such foreclosure and sale all the property, rights and franchises of said railroad corporation were conveyed by Philo T. Ruggles, Referee, and others, to Dudley S. Gregory and John C. Bancroft Davis, as Trustees, by deed dated December 28, 1861, recorded in Passaic County Clerk's office October 8, 1862, in Deed Book M-2, page 402.

10. The Erie Railway Company was incorporated April 30, 1861, under an Act of the Legislature of the State of New York passed April 2, 1861, known as Chapter 119 of the Laws of 1861, hereinbefore referred to, and all of the aforesaid property, rights and franchises were vested in said Erie Railway Company by deed given by Dudley S. Gregory and John C. Bancroft Davis, as Trustees, to Erie Railway Company, dated December 28, 1861, recorded in Passaic County Clerk's office October 8, 1862, in Deed Book M-2, page 432, etc., and said Erie Railway Company was confirmed in its rights to the property so acquired by it

Exhibit B-13.

by Chapter 66 of the Laws of 1862 of the State of New York, said foreclosure and sale having been authorized by Chapter 229 of the Laws of 1860 of the State of New Jersey.

11. Said Erie Railway Company mortgaged all its property, rights and franchises to The Farmers' Loan and Trust Company by mortgage dated February 4, 1874, recorded in Passaic County Clerk's office April 2, 1874, in Mortgage Book D-2, page 7. At the time this mortgage was made, said Erie Railway Company had come to be the owner and operator of railroad lines in the State of New Jersey and in the State of Pennsylvania, and said mortgage was also recorded in the proper County Clerk's offices in each of said States.

12. In 1875 actions to foreclose this mortgage were commenced in the Supreme Court of the State of New York, in the Court of Chancery in the State of New Jersey, and in the Courts of Common Pleas for Wayne County in the State of Pennsylvania, and elsewhere, and such proceedings were thereafter duly had in said foreclosure that judgments of foreclosure and sale were duly entered, and the property was duly sold on the 24th day of April, 1878, in the City of New York, to Edwin D. Morgan, John Lowber Welsh and David A. Wells, Trustees, and George Tichnor Curtis, the Referee making said sale, by a deed dated April 26th, 1878, duly conveyed said property to said Trustees, said deed being recorded in the office of the Clerk of Passaic County August 2, 1878, in Liber D-6 of Deeds, page 40, and in the proper County Clerk's offices of the various States. To confirm said sale the Erie Railway Company itself conveyed its property to the same Trustees by deed dated April 26, 1878, recorded in Passaic County Clerk's office August 2, 1878, in Liber D-6 of Deeds, page 25.

Exhibit R-15.

13. Said Erie Railway Company was reorganized pursuant to the Act of 1874, and the Acts amendatory thereof, by a Certificate of Incorporation duly filed with the Secretary of State at Albany, N. Y., on the 27th day of April, 1878, and thereupon, and on the same day, said Morgan, Welsh and Wells, Trustees, duly conveyed the property, rights and franchises so conveyed to them, to the said reorganized corporation known as The New York, Lake Erie and Western Railroad Company; the deed of conveyance being recorded in Passaic County Clerk's office August 2, 1878, in Liber D-6 of Deeds, page 50, and also recorded in the proper States and County Clerk's offices.

14. Said corporation, The New York, Lake Erie and Western Railroad Company, on the 5th day of October, 1878, mortgaged all of its property, rights and franchises to The Farmers' Loan and Trust Company, as Trustee for bondholders, to secure the payment of certain bonds and indebtedness of said corporation, according to the terms and conditions thereof, said mortgage being recorded in Passaic County Clerk's office November 6, 1878, in Book K-2 of Mortgages, page 188; said mortgage also being recorded in the various County Clerk's office of the various States wherein the property was located.

15. Thereafter The Farmers' Loan and Trust Company brought suits to foreclose such mortgage for default in the payment of principal or interest as there in provided, and such proceedings were duly had in such foreclosure suits in the Circuit Court of the United States for the Southern District of New York, also for the Northern District of New York, also for the District of New Jersey, also for the Eastern District of Pennsylvania, also for the Western District of Pennsylvania, also for the Northern District of Ohio, also for the Southern District of Ohio, also for the District of Indiana, also for the Northern District

Exhibit R-15.

of Illinois, also for the Southern District of Illinois, that Arthur H. Masten, Esq., as Special Master under the foreclosure decree, sold the entire property, rights and franchises on the 6th day of November, 1895, at Ramapo, N. Y., to Charles H. Coster, Louis Fitzgerald and Anthony J. Thomas, as the representatives of a majority of those interested in the property sold as bondholders or stockholders.

16. On November 11, 1895, said Arthur H. Masten, as Special Master, conveyed the lands so sold by him to said Coster, Fitzgerald and Thomas, by deed recorded in Passaic County Clerk's office November 18, 1895, in Liber C-12 of Deeds, page 456, and also recorded in the Clerk's offices of the various Counties in the various States mentioned.

17. Pursuant to the laws of the State of New York, a Certificate of Incorporation was duly filed with the Secretary of State of the State of New York on the 14th day of November, 1895, whereby said Respondent, the Erie Railroad Company, was duly organized as a corporation and thereafter exemplified copies of such Certificate of Incorporation were duly filed, and other steps were duly taken in the several States in which the property so sold was located, whereby said corporation became a corporation and empowered to take the title of the property so sold and to operate such property as a railroad in the several States wherein it was located.

Chapter 688 of the Laws of 1892 was in force in the State of New York when said Certificate of Incorporation was filed and by filing such Certificate of Incorporation the Erie Railroad Company subjected itself to the provisions thereof and in particular to the provisions of Section 3, Subdivision 4, which provides as follows:

"Any plan or agreement which may have been entered into at or previous to the time of sale, in anticipation of the formation of the new corpora-

Exhibit R-15.

tion, and pursuant to which such purchase was made, such corporation shall be vested with and be entitled to exercise and enjoy all the rights, privileges and franchises, which at the time of such sale belonged to, or were vested in the corporation last owning the property sold, or its receiver, and shall be subject to all the provisions, duties and liabilities imposed by law on such corporations."

18. To more effectually vest all the property, rights, privileges, franchises, powers and immunities of the old corporation or corporations in the said reorganized corporation, said Erie Railroad Company, on the 14th day of November, 1895, said Coster, Fitzgerald and Thomas duly conveyed the same to said Erie Railroad Company, by a deed dated and acknowledged that day, and said deed was duly recorded in Passaic County Clerk's office November 18, 1895, in Liber C-12 of Deeds, page 456, and said deed was also recorded in the County Clerk's offices of the various States wherein said property was located.

Further to confirm the rights of said Erie Railroad Company in and to the property as sold on foreclosure, John G. McCullough and Eben B. Thomas, as receivers of the New York, Lake Erie & Western Railroad Company, pursuant to the decree of foreclosure and sale, duly conveyed all the property and franchises aforesaid to said Erie Railroad Company by a deed dated February 26, 1896, acknowledged April 6, 1896, and recorded in the office of the Register of Deeds, in the City and County of New York, on the 13th day of April, 1896, in Liber 44, Section 3 of Cons., page 254.

To still further confirm the right of the Erie Railroad Company to all the property, rights and franchises heretofore mentioned, The Farmers' Loan and Trust Company conveyed the same to said Erie Railroad Company by a deed dated February 26, 1896.

and recorded in the Clerk's office of Rockland County, N. Y., March 4, 1896, in Liber 182 of Deeds, at page 522.

Upon the 14th day of November, 1895, said Erie Railroad Company took possession of all the property, rights and franchises so sold on foreclosure, described in its Certificate of Incorporation and covered by the statutes under which said reorganization was effected, and said Erie Railroad Company has since that time continued to possess and to operate the same as a common carrier of passengers and freight for hire; that the property so obtained, and additional property soon thereafter obtained, constitutes the line of railroad extending from the City of New York, through the States of New Jersey, Pennsylvania, New York, Ohio, Indiana and Illinois, to the City of Chicago, and reaching such cities as Buffalo and Cleveland, and thereon said Erie Railroad Company is engaged in interstate commerce.

In and by the Acts of the Legislature, the mortgages, the foreclosures, the sales, the deeds, the reorganizations, the certificates of incorporation, and the other acts and deeds hereinbefore recited, the Erie Railroad Company, on the 14th day of November, 1895, became vested with title to all the property, rights, privileges, franchises, powers and immunities of each and every of its predecessors from 1832 to November 14, 1895, so described or referred to in its certificate of incorporation of November 14, 1895, or conveyed to it by virtue of any of the mortgages, foreclosures, sales or deeds hereinbefore mentioned, or made to it but not herein set forth and mentioned.

The Erie Railroad Company has complied with the conditions and requirements of Chapter 11 of the Laws of New Jersey of 1898.

Copies of descriptions of lands conveyed to or taken by The President and Directors of the Paterson and Hudson River Railroad Company and The Paterson

and Ramapo Railroad Company and used for the construction, operation and maintenance of their respective railroads, are hereto attached and marked "Exhibit 6."

PATERSON GRADE CROSSING CASES.
AN ACT
TO INCORPORATE THE PATERSON AND
HUDSON RIVER RAILROAD COMPANY.

Passed January 21, 1831.

Sect. I. Be it enacted by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That John Colt, Robert Carriek, Abraham Godwin, Jr., Richard R. Morris, William S. Buckner, Elias B. D. Ogden and Andrew P. Hopper, and such other person or persons as may hereafter be associated with them, shall be, and are hereby ordained, constituted and declared to be a body corporate and politic, in fact and in name, by the name of "THE PRESIDENT AND DIRECTORS OF THE PATERSON AND HUDSON RIVER RAILROAD COMPANY," and by that name they and their successors and assigns shall and may have continued succession, and shall be persons in law capable of suing and being sued, pleading and being impleaded, answering and being answered unto, defending and being defended, in all courts and places whatsoever; and shall have power to make and use a common seal, and the same at pleasure to alter; and they and their successors, by the same name and style, shall be capable of purchasing, holding and conveying any lands, tenements, goods and chattels, necessary or expedient to the objects of this corporation, and shall be clothed with all the rights, powers and privileges pertaining to corporate bodies, and requisite for the purposes aforesaid.

II. And be it enacted, That the capital stock of said company shall be two hundred and fifty thousand

dollars, with liberty for the Company to increase the same to five hundred thousand dollars, and shall be divided into shares of fifty dollars each, which shall be deemed personal property, and transferable in such manner as the said Corporation shall by their by-laws direct.

III. And be it enacted, That the above named persons, or a majority of them, shall open books to receive subscriptions to the capital stock of the said Corporation, at such time or times, and place or places as they, or a majority of them may think proper, giving notice thereof at least twenty days prior to the opening of said books, by publishing the same in the newspapers printed in Paterson, and in a paper printed in the city of New York; and that the said books shall be kept open as long as the said persons, or a majority of them, shall think proper; and if more subscriptions be taken than the amount of the capital stock, it shall be in the power of the said persons, or a majority of them, to apportion the stock to the subscribers as they may deem expedient and conducive to the object of the incorporation.

IV. And be it enacted, That at the time of subscribing for said stock, ten dollars shall be paid to the above named persons, or some one of them, upon each share subscribed for which money shall be paid over to the treasurer of the Company as soon as one shall be appointed; and when the said capital stock shall be subscribed for, and the books closed, and the apportionment made, if the same become necessary, it shall be the duty of the persons named in the first section of this Act, or a majority of them, to call a meeting of the stockholders, upon like notice as above, to choose seven directors; and such election shall be made by ballot, at the said time and place, by such of the stockholders as shall attend for that purpose, either in person or by lawful proxy, each share of the

capital stock entitling the holder thereof to one vote; and the said named persons, or a majority of them, shall be inspectors of the first election of directors of said Corporation, and shall certify under their hands the names of those persons duly elected, and deliver over the subscription books to the said directors; and that annually thereafter, upon like notice being given by the directors for the time being, the stockholders shall in the same manner elect the same number of directors; and the time and place of holding the first meeting of directors shall be fixed by the said persons named in the first section of this Act, or a majority of them; and the directors chosen at any of the elections of said Corporation, shall, as soon as may be after every election, choose, out of their own number, a president; and in case of the death, resignation or removal of the president or any director, such vacancy or vacancies may be filled, for the remainder of the year wherein they may happen, by the said board of directors, or a majority of them; and in case of the absence of the president, the said board of directors, or a majority of them, may appoint a president pro tempore, who shall have such power and functions as the by-laws of the said Corporation shall provide.

V. And be it enacted, That in case it should happen that an election of directors should not be made during the day, when, pursuant to this Act, it ought to have been made, the said Corporation shall not for that cause be deemed to be dissolved, but such election may be held at any other time, on notice as aforesaid; and the directors for the time being shall continue to hold their office until new ones shall have been chosen in their places.

VI. And be it enacted, That five directors of said Corporation shall be competent to transact all business of the said Corporation, and they shall have power to call in the remainder of the capital stock of

Exhibit R-15.

said company, by such installments, not exceeding five dollars on each share at any one time, and at such times as they may direct, and in case of the non-payments of said installments, or any one of them, to forfeit the share or shares upon which such default shall arise; and to make and prescribe such by-laws, rules and regulations as to them shall appear needful and proper, touching the management and regulation of the stock, property, estate and effects of the said Corporation, and shall also have power to appoint a secretary, treasurer, engineer, agents, superintendents and such servants as may be required to transact the business of the Corporation, with such compensation to them and the president, as to the board shall seem proper, and that they shall exact from the treasurer sufficient security for the due performance of his trust; Provided, said by-laws be in no respect repugnant to the laws of this State or of the United States.

VII. And be it enacted, That the President and directors be, and they are hereby authorized and invested with all the rights and powers necessary and expedient, to survey, lay out and construct a railroad, or lateral roads, from one or more suitable place or places in the town of Paterson, one at least of which shall either commence at, or pass in its course, within fifty feet of the corner of the present lower race-way, in the town of Paterson, at the intersection of Congress and Mill Streets, near the Catholic Chapel, to Weehawken, and from thence to any other suitable place or places on the Hudson river, opposite to the City of New York, within fifty feet of the high water mark, not exceeding sixty-six feet wide, with as many set of tracks and rails as they may deem necessary, crossing the Hackensack river upon or adjoining the present bridge, belonging to the New Barbadoes Toll Bridge Company, with their consent, but if such consent cannot be obtained, then as near the said bridge as practicable, with a draw, in a line, and correspond-

Exhibit R-15.

ing with the present one, and of equal or greater width; and it shall be lawful for the said president and directors, their agents, engineers, superintendents, and others in their employ, to enter, at all times, upon all lands and waters for the purpose of exploring, surveying, levelling and laying out the route or routes of such railroad, or lateral roads, and of locating the same; and to do and erect all necessary works, buildings and appendages thereof, doing no unnecessary injury to private or other property; and when the route or routes and the location of such road or lateral roads shall have been determined upon, and a survey of such route or routes, or location, deposited in the office of the secretary of state, then it shall be lawful for said company, by its officers, agents, engineers, superintendents, contractors, workmen, and other persons in their employ, to enter upon, take possession of, hold, have, use, occupy and excavate any such lands, and to erect embankments, bridges and all other works necessary to lay rails, and to do all other things which shall be suitable and necessary for the completion or repair of the said road or roads, and to carry into full effect the object of this incorporation; and may also take and use any stone, gravel, sand, clay or other earth, on or near the said route, which may be required for the construction of, repairing, altering or extending the said road or roads, or of any of the works or appendages, subject to such compensation to be made therefor as is hereinafter provided, and repairing any breaches they may make in enclosures: Provided, always, that the payment, or the tender of the payment, of all damages for the occupancy of lands through which the said railroad or railroads may be laid out, be made, before the said company, or any person under their direction or employ, shall enter upon, or break ground in the premises, except for the purpose of surveying and laying out said road or roads, unless the

consent of the owner or owners of such lands be first had and obtained in writing: And provided also, that it shall be lawful for any person or persons owning any ferry on the Hudson river, opposite to the city of New York, or any landing on the Passaic river, or manufactory within the corporate limits of the town of Paterson, to which said railroad shall not be laid by this Company, to erect and build a branch railroad, to intersect said railroad, at such point or points, within the said limits, as may be deemed expedient, and to charge the tolls thereon, in the same manner and at the same rates as this Corporation is authorized to charge, and for the purpose of constructing said branch railroad, he or they shall be invested with the same privileges, and be subject to the same liabilities and reservations as this Corporation are entitled and subject to.

VIII. And be it enacted, That when said Company or its agents, cannot agree with the owner or owners of any such required lands or materials for the use or purchase thereof, or in case any such owner or owners thereof shall be feme covert, or under age, non compos mentis, or reside out of the State, then it shall and may be lawful to and for the said directors to apply to any justice of the supreme court of this State, who upon such application, is hereby authorized and empowered, enjoined and requested to frame and issue one or more writ or writs, as occasion shall require, in the nature of a writ ad quod damnum, to be directed to the sheriff of the county in which such lands are tenements shall be, commanding him that, by the oaths or affirmations of twelve good and lawful men of his bailiwick, who shall be indifferent to the parties, he shall inquire whether the person or persons owning any lands, tenements or hereditaments, necessary to be used by the said directors, or which may be injured in establishing such railroad or roads, which person or persons shall be

Exhibit B-15.

named, if known, and which lands and tenements shall be described in such writ or writs, will suffer and sustain any and what damages, by reason or means of taking such lands, tenements or other real hereditaments, gravel or materials, necessary or expedient for the use of such railroad or roads, or the repair thereof, or the works thereto belonging; and to return the said writ, together with the finding of such jury, to the next supreme court of this State, after the finding thereof, on or before the first day of said term; and upon such writ being delivered to the sheriff, he shall give at least twenty days' notice, in writing, to all and every owner or owners of the lands and tenements in the said writ described, or to so many of them as can be found, or to the agent or agents of such owners, if known; and if not known, such notice to be published in some newspaper printed in the county in which such lands lie, for the same length of time, before executing said writ, of the time of executing the same; and he shall cause to come upon the premises, at the time appointed, twelve good and lawful men of his bailiwick, who shall be selected in such manner, and upon like notice to the parties, as struck juries usually are, to whom he shall administer an oath or affirmation that they will diligently inquire concerning the matter and things in the said writ specified, and a true inquisition make according to the best of their skill and judgment, without favor or partiality; and thereupon the said sheriff and inquest shall proceed to view all and every the lands and tenements in such writ specified, and having considered the quantity of lands, materials and other matters and things, necessary or requisite to be vested in said Company, for the purposes aforesaid, they shall cause the same to be minutely and accurately described by metes and bounds, or other particular descriptions, and shall value or appraise the value of the land, and the injury or damages, if

any, which the owner or owners of said lands, tenements, or improvements or materials, will, according to their best judgment and skill, sustain and suffer, by means of so much of the said lands and tenements being vested in the said Company, or by means of such improvements being destroyed or rendered useless, or of less value, defining and ascertaining as well all such lands and tenements and privileges so to be vested in said Company, as the several sums at which the said injuries and damages shall be so assessed; and in making such valuation and appraisement, it shall be the duty of the jury or juries to allow compensation for the lands, tenements and hereditaments, to be taken for the use aforesaid, at the fair value they would have come to before the location of the said road or roads, and a full value for all gravel and other materials, that may be used by the said Company, for the purposes aforesaid; and that said sheriff and jury shall make an inquisition, under their hands and seals, distinctly and plainly setting forth all the matters and things aforesaid, and the sheriff shall return the same, together with the said writ, to the office of the clerk of the Supreme Court, according to the command of the court; and the justices of the said court shall examine the same, at the term to which it is returned, and if the said writ shall appear to have been duly executed, and the return thereof sufficiently certain, to ascertain the lands and tenements, rights and privileges intended to be vested in the said Company, and the several compensations awarded to the owners thereof, then the said court shall enter judgment, and the said Company, paying the said inquisition assessed, or bringing the same into the said court, over and besides the costs of such writ, and executing and returning the same, to be taxed by the justice who issued it, shall be entitled to have and to hold, to them and their successors and assigns, forever, all and every the lands, tenements, rights and privileges in

Revised 02-13.

the said inquisition described, as fully and effectually as if the same had been granted to them by the owners thereof; and if any return so to be made shall not be sufficiently certain for the purposes aforesaid, the said court shall award an inquisition *de novo*; and upon payment or bringing into court all such moneys as by such judgment shall be required to be paid or brought into court, all such lands, tenements, rights and privileges, shall be fully and absolutely vested in the said corporation, who shall become seized and possessed thereof, in like manner as the then late owners was or were seized or possessed thereof.

IX. And be it enacted, That it shall be the duty of the said Company to construct and keep in repair, good and sufficient bridges or passages over and under the said railroad or roads, where any public or other road shall cross the same, so that the passage of carriages, horses and cattle on the said road shall not be prevented thereby, and also where the said road shall intersect any farms or lands of any individual, to provide and keep in repair suitable wagon ways, over and under said railroad, so that they may conveniently pass the same.

X. And be it enacted, That the President and Directors of the said Company shall have power to have constructed or to purchase with the funds of the Company, and to place on any railroad constructed by them, all machines, engines, wagons, carriages and vehicles for the transportation of persons or any species of property thereon that they may think reasonable, expedient and right: Provided, they shall not charge more than at the rate of six cents per mile per ton for the transportation of property on the said road or roads, or six cents per mile for carrying each passenger on said railways in the carriages of the Company, or three cents per mile for each ton of property transported, or three cents per mile for each passenger carried on said railways in carriages of

Section 12-13.

others, and three cents per mile for each empty carriage; and that said Company are hereby authorized to demand and receive money for toll, and the transportation of persons, and every species of property at the aforesaid or such less rates as they from time to time shall think reasonable and proper; and the railroad or roads and appendages, and the land over which the same shall pass, and all the works and improvements, steam engines, carriages and all other property whatsoever, belonging to the said Company, at any time or times, are hereby vested in the said Company incorporated by this Act, and their successors and assigns during the continuance of this Act.

XI. And be it enacted, That the President and Directors of the said Company, as soon as the affairs of the Company will allow, shall declare and make such dividend as they may deem prudent and proper of the net proceeds thereof, and shall in like manner, semi-annually, thereafter, declare such dividends, and pay the same to the stockholders or the said Company in proportion to the amount of shares held by them respectively, as they may deem prudent and proper; and in case they fail so to do, they shall assign their reasons in writing to the stockholders for such failure.

XII. And be it enacted, That if any person shall wilfully impair, injure, destroy or obstruct the use of any railroad constructed under the provisions of this Act by the said Company, or any of their necessary works, wharves, bridges, carriages or machines, such person or persons so offending shall forfeit and pay to the said Company any sum not exceeding two hundred dollars, at the discretion of the court or jury, to be by them recovered in an action of debt in any court having competent jurisdiction, and also shall be liable to pay to said Company double the amount of damages sustained thereby, to be sued for in an action of trespass.

Exhibit R-15.

XIII. And be it enacted, That the said Company may have and hold real estate at the commencement and termination of said road or roads not exceeding two acres at each place, and not approaching nearer than fifty feet of high water mark at either of the present ferries of Hoboken, Weehawken or Jersey City, without the consent of the owner or owners of the ferry or ferries opposite which said land may be taken, and may erect and build thereon houses, warehouses, stables, machine shops, and other buildings and improvements as they may deem expedient for the safety of property, and construction of carriages and other necessary uses, and take and receive the rents, profits and emoluments thereof; and shall have the privilege and authority to erect, build and maintain on the rivers Passaic and Hackensack, respectively, such wharves, piers, bridges and other facilities as they may think expedient and necessary for the full enjoyment of all the benefits conferred by this Act, subject to the aforesaid restrictions; and for the safety of the navigators one or more lamps shall be placed at one side of the draw of said bridge which lamp or lamps shall be lighted every evening thereafter as long as said bridge shall stand, before it grows dark, and continue lighted until daylight, at the expense of the said Company; and shall keep, or cause to be kept at the said bridge, a careful person to open the draws for the free passage of vessels with standing masts; and for each and every neglect in opening the draws, and each and every night's neglect to light the lamp or lamps, the directors of said Company shall pay the sum of ten dollars, to be recovered in an action of debt by any person suing for the same; Provided, that nothing herein contained shall be so construed as to give the Company hereby incorporated the right to establish or carry on a ferry for the carrying of passengers or freight.

Exhibit R-15.

XIV. And be it enacted, That the road or roads authorized by this Act, be, and the same are hereby declared a public highway, and free for the passage of any railroad carriage thereon, with passengers or property, upon payment of the tolls prescribed by this Act: Provided, always that the said carriages so used thereon shall be of the same description as those used by the Company, and shall be so regulated as to time of starting, rates of travelling and rates of tonnage, as not to interfere with the carriages of the Company, or injure the said road.

XV. And be it enacted, That if the said railroad shall not be commenced in one year from the fourth of July next and completed at the expiration of five years from the same time, that then, and in that case this Act shall be void.

XVI. And be it enacted, That no part of the capital stock or moneys of the Company incorporated by this Act shall be used or employed by said Company for banking purposes under the penalty of forfeiting this charter.

XVII. And be it enacted, That at any time after the expiration of fifty years from the completion of the said road, the Legislature of this State may cause an appraisement of the said road and the appendages thereof to be made by six persons, three of whom shall be appointed by the Chief Justice of this State for the time being, the remaining three by the Company, who, or a majority of them, shall report the value thereof to the legislature within one year from the time of their appointment; or, if they cannot agree, they shall choose a seventh, who, with the aforesaid six, shall report as aforesaid, or in case the said Company shall neglect or refuse to appoint the said three persons on their part for two months after the said appointment by the said chief justice, then the three persons so appointed by him shall proceed to

Exhibit R-15.

make such appraisement, which shall be binding on the said Company; or in case the said six commissioners shall be appointed as aforesaid, and they cannot agree upon the seventh man, then, upon two weeks' notice to the said Company, the said chief justice shall appoint such seventh man as aforesaid, to make such appraisement as aforesaid, and thereupon the State shall have the privilege for three years of taking said road, upon the payment to the Company of the amount of the said report within one year after electing to take said road, which report shall be filed in the office of the secretary of this State, and the whole property and interest of said road, and the appendages thereof, shall be vested in the State of New Jersey upon payment of the amount so reported to the said Company; and that it shall be the duty of the president of the Company to lay before the Legislature, under oath or affirmation, when they shall so request, a full and fair statement of the costs of the said road, and of all the receipts and disbursements of the Company; Provided always, that the aforesaid valuation shall be made without reference to the receipts or disbursements of the Company, or advance of the stock, and the said valuation shall in no case exceed the first costs of the said railroad, with the lands and appendages thereof.

XVIII. And be it enacted, that from and after the completion of the said railroad, it shall be the duty of the treasurer of the said Company, under oath or affirmation, to make annual returns of the number of passengers and the number of tons of merchandise and other articles transported thereon, to the treasurer of this State; and that the said Company shall, after the expiration of five years from the passing of this Act, pay to the treasurer of this State, yearly and every year, a tax of one quarter of one per cent upon their capital stock paid in; and yearly and every year after the expiration of ten years, a tax of

Exhibit R-15.

one half of one per cent upon the capital stock so paid in as aforesaid, and that no further or other tax or impost shall be levied or assessed upon said company.

XIX. And be it enacted, That this Act shall be deemed and taken as a public Act, and shall at all times be recognized as such in all courts and places whatsoever.

A SUPPLEMENT to an Act entitled "An Act to Incorporate the Paterson and Hudson River Railroad Company" passed January twenty-first, eighteen hundred and thirty one. Passed the 18th November, 1831.

Sect. I. Be it enacted, By the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That it shall be lawful for the president and directors of the Paterson and Hudson River Railroad Company, their successors and assigns, to locate and form their road from the east side of Berry's Hill, in the county of Bergen, to the Hudson River, upon such route as may by them be thought advisable: Provided, however, that in making the same they shall not interfere with the vested rights of any other Company; and shall, in all things, comply with the requisitions of the thirteenth section of the Act to which this is a supplement, as to the bridges over the Hackensack and Passaic rivers; And provided also, that the bridge over the Hackensack river shall not be more than thirty feet wide in the line of the draw, the opening of which draw shall be at least thirty feet wide in the narrowest part, and be placed by said Company in a line with the course of the river, and in such position as to do the least injury to the navigation, they having a due regard to the wishes and views of the navigators thereof: And provided further, that the draw shall not be constructed to be opened by lifting.

Exhibit R-15.

II. AND WHEREAS it may be found expedient for the president and directors of the Paterson and Hudson River Railroad Company, their successors or assigns, to form a tunnel under the Weehawken or Bergen Hill, which would add greatly to the expenses of making their road, and be a great public accommodation: Therefore, be it further enacted, That if the said tunnel shall be made, it shall be lawful for the said president and directors of the Paterson and Hudson River Railroad Company, their successors and assigns, in addition to the tolls already allowed, to charge for passing through said tunnel, for each passenger, the sum of twelve and a half cents, and for every ton of goods, wares and merchandise, the sum of ten cents.

III. And be it enacted, That the said president and directors of the Paterson and Hudson River Railroad Company, their successors and assigns, in their bridge over Berry's Creek, shall make a draw, with an opening at least twenty-four feet wide, which shall be so constructed that it may be easily opened by the boatmen who have occasion to navigate the creek.

IV. And be it enacted, That this Supplement shall be taken and considered as a public Act.

A FURTHER SUPPLEMENT to an Act entitled "An Act to Incorporate the Paterson and Hudson River Railroad Company." Passed January twenty first, one thousand eight hundred and thirty one.

SECT. I. Be it enacted, by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That so much of the fifteenth section of the Act to which this is a supplement as requires that the said railroad shall be completed at the expiration of five years from the fourth day of July, one thousand eight hundred and thirty one, be, and the same is hereby repealed; and when the permanent railroad of the New Jersey Railroad and Trans-

portation Company shall be constructed through Bergen Hill and thence to the Hudson River, and put in use, it shall be lawful for the president and directors of the Paterson and Hudson River Railroad Company, their successors and assigns, to charge for the transportation of goods, wares and merchandise thereon, from the junction to the river, or on any branch thereof, twelve and a half cents per ton per mile; and that it shall not be lawful for said Company, directly or indirectly, to charge for the transportation of property on their road, and on the said permanent road, from the junction and on its branches, more than the tolls prescribed by the tenth section of their Act of Incorporation and by this Supplement; and if the owners and occupants of property on Main and Congress streets in Paterson, or of a majority thereof in value, shall require the same, and the Paterson and Hamburg Turnpike Company, without compensation, shall consent thereto in writing (if their consent be necessary), that then the president and directors of the Paterson and Hudson River Railroad Company, their successors and assigns, shall be authorized and required, within six months after such requisition and consent shall be obtained, with reference to said street, to extend a track down Main Street, to or within one hundred feet of its intersection with Broadway; and that within one year from the fourth day of July next, they shall lay a track down Congress street, to the point designated in their Act of incorporation.

II. And be it enacted, That so much of the seventeenth section of the said original Act, as authorizes the legislature of the State, to cause an appraisement of said road to be made, at any time after the expiration of fifty years from the completion of said road; and that so much of the eighteenth section as requires the treasurer of said company to make annual returns to the treasurer of this State, from and after the com-

pletion of the said railroad, be, and the same are hereby repealed; and that the legislature may cause such appraisement to be made at any time after the expiration of fifty years from the fourth day of July one thousand eight hundred and thirty six; and that it shall be the duty of the treasurer of the said company, from and after the said fourth day of July one thousand eight hundred and thirty six, to make the annual returns required by the said eighteenth section.

III. And be it enacted, that this supplement shall be taken and considered as a public Act.

Passed February 27, 1835.

A FURTHER SUPPLEMENT to the Act entitled "An Act to Incorporate the Paterson and Hudson River Railroad Company."

Sec. I. Be it enacted by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That it shall be lawful for the president and directors of the Paterson and Hudson River Railroad Company, their successors and assigns, to increase their capital stock the further sum of two hundred thousand dollars, by loan or otherwise, which shall be divided into shares of fifty dollars each, and to be raised in such manner as they may deem expedient and most conducive to the objects of the incorporation.

II. And be it enacted, that so much of the eighteenth section of the Act to which this is a supplement, as requires the said Company to pay to the treasurer of this State an annual tax of one quarter of one per centum upon their capital stock paid in, be, and the same is hereby repealed.

Passed March 3, 1837.

**AN ACT for the better protection of the Navigation
of the Passaic River.**

Sect. I. Be it enacted by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That each and every bridge or viaduct hereafter to be erected over the Passaic River, between the head of navigation and the Newark Bay, shall be so constructed as to contain a draw for the free passage of vessels navigating the said river, the opening of which draw shall be at least thirty five feet wide in the narrowest part, and shall be placed in such position as to do the least possible injury to the navigation thereof.

II. And be it enacted, That as soon as the Passaic River, by the construction of locks and other sufficient devices, shall be made navigable to the bridge of "The Paterson and Hackensack Turnpike Company" for vessels requiring a draw thirty five feet wide, it shall be the duty of "The Paterson and Hudson River Railroad Company" to have completed in their bridge or viaduct which crosses the said river below the present head of navigation, a draw of thirty five feet in width in the narrowest part, so as to permit the free passage, as well in entering as in leaving the said draw, of all vessels navigating in said river to and from the said Turnpike Bridge.

III. And be it enacted, That this Act shall go into operation immediately on the passage thereof.

Passed March 10, 1842.

RESOLUTION respecting the Tax on the Capital Stock passed in March, 1842, by the Legislature.

Resolved, That the treasurer of this State be authorized and directed, in computing and collecting the annual taxes from "The Paterson and Hudson River Railroad Company" to compute and estimate them upon the original capital stock of \$250,000 until the Company shall divide six per cent per annum; and

that payments of taxes made by the Company upon such computation, shall be esteemed and taken as a full compliance by them with that requirement of their charter.

AN ACT to facilitate the improvement of the Paterson and Hudson River Railroad.

WHEREAS it is represented by the petition of "The President and Directors of the Paterson and Hudson River Railroad Company," that they have negotiated an arrangement for the purchase of iron for improving their railroad, by agreeing to issue the bonds of the Company, to bear six per cent interest per annum and to be secured by mortgages upon the property and franchises of the Company, but that doubts have arisen whether they have sufficient powers to make such bonds and mortgages, and they thereupon having requested legislative aid in the premises, therefore,

Sect. I. Be it enacted, by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That it shall and may be lawful for the board of directors of "The President and Directors of the Paterson and Hudson River Railroad Company," to issue the bonds of the said Company to the amount of one hundred thousand dollars, of no less denomination than five hundred dollars, for the purpose of buying iron and of borrowing money, payable to the owners, or bona fide holders thereof, at such times as to them shall appear expedient and can be agreed upon, bearing an interest of six per cent per annum; and for securing the due payments of the bonds, with the interest to accrue thereon, it shall and may be lawful for them to pledge or hypothecate by way of mortgage, trust or otherwise, the Paterson and Hudson River Railroad, with all its appendages and appurtenances, and all the lands,

tenements, premises, chartered rights, franchises and privileges belonging to the said Company, and such pledges, hypothecations, mortgages or trusts shall be valid for the security of the due payments of all bonds, with the interest thereof, which may be intended to be secured thereby, and of all new bonds which may be issued upon the cancellation of any original bonds; and in case a default shall be made in the payment of any bond so issued, or of the interest thereof, the person or persons, body politic or corporate, or their legal representative or assigns, claiming under any such pledge, hypothecation, mortgage or trust, may, by the process of law, acquire and have, hold, use, enjoy or sell the said railroad, with its appendages and appurtenances, and the property of the said Company; and they, or any purchaser or purchasers thereof, may enjoy and dispose of the property, and may take and receive the tolls, issues and profits of the said railroad, and enjoy the rights of the said Company during the whole residue of the term for which the said Company is chartered, in as full and ample a manner as the stockholders of said Company could or might have disposed of, used and enjoyed the same; subject, nevertheless, to all the restrictions, limitations, impositions and conditions which are upon said Company.

II. And be it enacted, That this Act shall go into operation immediately upon the passage thereof.

Passed January 18, 1844.

AN ACT to enable parties having claims against The New York and Erie Railroad Company, and others, using the Paterson and Hudson River Railroad and the Paterson and Ramapo Railroad, to prosecute for such claims or damages in the Courts of this State, and to legalize the leases or contracts made by the Paterson and Ramapo Railroad Company and

Exhibit R-15.

the Paterson and Hudson River Railroad Company to the Union Railroad Company.

WHEREAS, the New York and Erie Railroad Company are now in possession of the Paterson and Hudson River Railroad and the Paterson and Ramapo Railroad under certain leases and contracts made by said companies, and are now carrying on the business of said roads under said leases and contracts; and whereas, the New York and Erie Railroad Company being a foreign corporation, and any other corporation or individuals using said roads, or either of them, and transacting the business of the same, ought to be liable to actions for damages done in operating said roads as fully as the said companies are by their charters now liable, and to effect that purpose all doubts as to the authority of said companies to make such leases and contracts ought to be removed; and whereas, all persons having claims for debt or damages of any and every kind ought to be enabled to prosecute said foreign corporation in the Courts of this State; therefore:

I. Be it enacted, By the Senate and General Assembly of the State of New Jersey, that the New York and Erie Railroad Company, and any other Corporation or individuals using the aforesaid roads or either of them, shall be, and they are hereby declared liable for all claims for debts, damages, omissions and delinquencies arising from the running or operating said Railroads, and carrying freight and passengers on the same, as fully as the said the Paterson and Hudson River Railroad Company, and the Paterson and Ramapo Railroad Company, are now liable by the laws of this State.

II. And be it enacted, That whenever any action shall be commenced against the said The New York and Erie Railroad or any other foreign Corporation, using said roads, in any of the courts of this State,

the first process to be made use of may be a summons or subpoena, a copy whereof shall be served on the president, or one or more of the directors, or the superintendent, or on any station agent of said Corporation, six entire days before its return.

III. And be it enacted, That when the sheriff or other officer shall return such summons or subpoena "served" or "summoned" the defendants shall be considered as appearing in court, and may be proceeded against accordingly.

IV. And be it enacted, That the power and authority of the said Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company, to make such leases and contracts is hereby declared and affirmed, and said leases and contracts are hereby declared legal and valid; provided, that said leases and contracts shall not be held to grant any power, privilege or right, not granted to said Companies respectively by their charters, and the supplements thereto.

V. And be it enacted, That the Legislature may at any time alter, amend or repeal this Act.

Approved March 14, 1853.

AN ACT to authorize the New York and Erie Railroad Company to purchase and hold lands, and to complete and finish the Railroad of the Paterson and Hudson River Railroad Company.

WHEREAS, The New York and Erie Railroad Company, by virtue of certain leases and agreements, made by the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company to the Union Railroad Company, bearing date the ninth day of September, eighteen hundred and fifty two, and assigned to the New York and Erie Railroad Company, have the right to use the railroads of said two first mentioned Companies, during

Exhibit R-15.

their respective charters, and have the right to extend said Paterson and Hudson River Railroad, and to make a railroad from any point in the same to the Hudson River, at some point opposite the City of New York, which leases and agreements were approved and confirmed by an Act of the Legislature of this State, approved March fourteenth, eighteen hundred and fifty three. And whereas, it is desirable that the New York and Erie Railroad Company should have the power to purchase and hold in their own name such lands, necessary and convenient for the transaction of their business, as said Paterson and Hudson River Railroad Company, and other Companies incorporated by this State, may by law purchase and hold at their stations and depots, and to proceed in their own name to construct and extend said railroad from the Paterson and Hudson River Railroad to the Hudson River, and to hold the lands necessary for such construction, in their own name.

I. Be it enacted, by the Senate and General Assembly of the State of New Jersey, That the New York and Erie Railroad Company are hereby authorized to purchase and hold in their own name, such and so much land and real estate in the County of Hudson, at or near any station or depot that they may establish in said County, as may be necessary for the convenient transaction of their business, for storing and working upon their engines, cars, fuel and materials to be used upon their roads, for receiving, delivering and keeping property, transported or to be transported on their road, to the best advantage for side tracks, platforms and station houses, and for all other purposes strictly connected with and appertaining to their business of transporting passengers and **freight**: **Provided**, that two acres of land at any such depot or station, and no more, shall be exempt from city, townships and county tax.

II. And be it enacted, That the New York and Erie Railroad Company may proceed in their own name to make and construct a railroad from any point in the railroad of the Paterson and Hudson River Railroad Company, to any point on the Hudson River, opposite the City of New York, according to the provisions of the Act incorporating said Paterson and Hudson River Railroad Company, and the several supplements thereto, and that for that purpose they are hereby authorized to survey, lay out, and locate such extensions or continuation of said railroad of any width, not exceeding one hundred feet, and when such location has been filed in the office of the Secretary of State, to purchase and hold all lands necessary or convenient for the continuation of said road, and in all cases provided for in the eighth section of the Act, entitled "An Act to Incorporate the Paterson and Hudson River Railroad Company," are authorized to proceed to acquire the title to the same, by proceeding in their own name in the manner provided in such eighth section, and upon paying the inquisition assessed with the costs, or bringing the same into court, as in said section provided, shall be seized of the lands in such inquisition described, in the same manner as the Paterson and Hudson River Railroad Company would have been; Provided, that in this proceeding to acquire lands, this section shall confer the same power upon the New York and Erie Railroad Company as was vested by the said Act in the Paterson and Hudson River Railroad Company, and no greater power; and provided further, that said road, from the east side of Palisade Avenue, for the distance of thirty five hundred feet westwardly through the City of Hudson, shall not be constructed with an open cut, but shall be tunnelled or arched over, except proper and suitable openings and shafts for light and ventilation.

Exhibit R-15.

III. And be it enacted, That for the purpose of enabling the State of New Jersey to take the said railroad upon an appraisment of its value, at any time after the fourth of July, eighteen hundred and eighty six, in the manner provided for by the seventeenth section of said Act to incorporate the Paterson and Hudson River Railroad Company, the continuation of said railroad and its depots and appendages, constructed, purchased and acquired by virtue of the provisions of this Act, shall be considered part of the road of the Paterson and Hudson River Railroad Company, and may and shall be taken by the State at the same time and in the same manner as the State may take the road of said Company, except, nevertheless, that the lands, railroad and appendages thereto, acquired or purchased by the New York and Erie Railroad Company and owned by them, shall be appraised separately from the residue of said railroad and appendages, and the value thereof paid to the New York and Erie Railroad Company.

IV. And be it enacted, That the said New York and Erie Railroad Company shall, as soon as they shall have completed the said railroad to the Hudson River, make and file in the office of the Secretary of this State, a map and plan of said railroad, from the point where it shall be constructed from the present road to the Hudson River, and of all side tracks and switches connected therewith, and the ground covered thereby, and of the land occupied by them as depots or stations, not including therein more than two acres of land not occupied by their track at each station or depot, verified by the oath of the President and Engineer of said Company, and shall attach thereto a just and true account of the costs of said lands and tract and the improvements thereon, verified by the oath of the President and Engineer; and said Company shall thereafter pay to the Treasurer of this State yearly, and every year, a tax of one-half of one per

Exhibit R-15.

centum upon the amount of said cost in lieu of all other taxes on the same, and the lands included in said plan or map and said account, shall be subject to no other tax, impost or assessment, except city assessments for improvements upon or near the same, to which they shall be liable as all other lands.

V. And be it enacted, That this Act shall not affect or impair any contract or agreement heretofore made and entered into between the New Jersey Railroad and Transportation Company of the one part, and the President and Directors of the Paterson and Hudson River Railroad Company of the other part, or between any other parties or corporations.

VI. And be it enacted, That the Governor, the Chancellor, the Attorney General, the Treasurer and Secretary of this State, the Justices of the Supreme Court and the Judges of the Court of Errors of this State, whilst traveling for the purpose of discharging the duties of their offices, and the members and officers of both Houses of the Legislature of this State, during their annual or other sessions, shall pass and repass on the railroads of the President and Directors of the Paterson and Hudson River Railroad Company, including the extension hereby authorized, and of the Paterson and Ramapo Railroad Company, in the cars of any company running on said railroads, free of charge, subject to the rules and regulations of such Company.

VII. And be it enacted, That this Act shall take effect immediately.

Approved, February 21, 1856.

A FURTHER SUPPLEMENT to the act, entitled, "An Act to Incorporate the Paterson and Hudson River Railroad Company."

I. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the President

Exhibit R-15.

and Directors of the Paterson and Hudson River Railroad Company be, and they are hereby authorized, to sell and convey or exchange their depot lands and premises in the City of Paterson, and the lands owned by them between said depot and the intersection of said road with the Paterson and Ramapo Railroad, and to exchange the same for or purchase other lands in the said city for another depot, and for a track or road for said Paterson and Hudson River Railroad, from such new depot, south of Market street, and to change the present terminus of their road, in the City of Paterson, for a terminus at such new depot; Provided, that this Act shall not authorize them to purchase or hold any greater quantity of land than are now authorized by law to purchase and hold for railroad purposes; and provided also, that the lands so to be acquired shall not be used for any but railroad purposes.

II. And be it enacted, That the President and Directors of the Paterson and Hudson River Railroad Company are hereby empowered to make contracts and agreements with the Union Railroad Company, or the New York and Erie Railroad Company, for the purpose of substituting such new depot and track or road in the place of the old depot and track or road.

Approved March 13, 1856.

AN ACT to promote the safety of travellers upon the Paterson and Hudson River Railroad.

I. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the Paterson and Hudson River Railroad Company be, and they are hereby authorized to straighten parts of their road between Paterson and the Boiling Spring, in such manner as they may deem necessary, for the more safe transit of passengers on the same; and after locating and filing in the office of the Secretary of

Exhibit R-15.

State, the route of said alterations, they shall be authorized to enter upon, use and acquire title to the lands occupied by the same, under the provisions of the Act incorporating said Company, which shall thereafter for all purposes be considered and taken as parts of their railroad.

Approved March 14, 1856.

CHAPTER XXVIII.

A supplement to an act entitled "An Act to authorize the New York and Erie Railroad Company to purchase and hold lands and to complete and finish the railroad of the Paterson and Hudson River Railroad Company," approved February twenty-first, one thousand eight hundred and fifty-six.

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That the New York and Erie Railroad Company are hereby authorized to purchase and hold in their own name, such and so much land and real estate, at or near any station or depot that they may have or use in the city of Paterson, in the county of Passaic, as may be necessary for the convenient transaction of their business, for storing and working upon their engines, cars, fuel and materials to be used upon their roads, for receiving, delivering and keeping property transported or to be transported on their road, to the best advantage, for side tracks, platforms, and station houses, and for all other purposes strictly connected with and appertaining to their business of transporting passengers and freight.

2. AND BE IT ENACTED, That it shall be lawful for the said company to acquire or purchase, and hold in their own name, so much land as may be required to widen the railroad of the Paterson and Ramapo Railroad Company sufficiently for double or additional tracks to be laid thereon, and for the use

Exhibit R-15.

of any stone, gravel, sand, clay, or other materials along or near the said railroad, which may be required for the making, maintaining, or repairing of said railroads; and in all cases provided for in the eighth section of the act entitled "An act to incorporate the Paterson and Ramapo Railroad Company," are authorized to proceed to acquire the title to the said land or the right to the use of said materials, by proceeding in their own name, in the manner provided in said act, and upon paying the inquisition assessed, with the costs, or bringing the same into court, as in said act provided, shall be seized of or entitled to the said lands or materials in such inquisition described, in the same manner as the Paterson and Ramapo Railroad Company would have been; provided, that in this proceeding to acquire lands or materials, this section shall confer the same power upon the New York and Erie Railroad Company as was vested by the said act in the Paterson and Ramapo Railroad Company and no greater power.

3. AND BE IT ENACTED, That this act shall take effect immediately.

Approved February 27, 1857.

LEASE OF ROAD.
THE PATERSON AND HUDSON RIVER
RAILROAD COMPANY
TO THE
UNION RAILROAD COMPANY.

THIS INDENTURE made this ninth day of September, in the year one thousand eight hundred and fifty-two, between the President and Directors of the Paterson and Hudson River Railroad Company, of the State of New Jersey, parties of the first part, and the Union Railroad Company, parties of the second part:

WITNESSETH, that the parties of the first part, for and in consideration of the rents, covenants and agreements hereinafter mentioned, reserved and contained on the part and behalf of the said parties of the second part, their successors and assigns, to be paid, kept and performed, have granted, bargained and sold, demised and to farm letten, and by these presents do grant, bargain and sell, demise and to farm let unto the said parties of the second part, their successors and assigns all and singular the railroad of the parties of the first part, as it is now constructed and exists, and all the land and real property forming, or connected with, or appurtenant thereto, from and including its terminus and station at and in the city of Paterson, in the county of Passaic and State of New Jersey, to and including its terminus and station at and on Bergen Hill, in the county of Hudson, in the State of New Jersey, at the junction of said railroad with the railroad of the New Jersey Railroad and Transportation Company, and the rails, bridges, culverts, viaducts, turnouts, switches, fixtures and superstructures of every kind thereon or connected therewith; and also all their buildings, erections, depots, stations, station houses, offices, shops and superstructures on or adjacent to, or connected with, or appurtenant to the said road as above described; and all the estate, right, title and interest, property, profession and demand of the parties of the first part, of, in and to the premises and every and any of them, and every part and parcel thereof; and also all the rights, privileges, franchises, titles, power, property, claims and pretensions of the parties of the first part, to transport persons, mails and property of every description on said railroad, and to charge, demand, collect, sue for and receive in the name of the parties of the first part or otherwise, but for the exclusive benefit of the parties of the second part, money for tolls and for the transportation of persons, mails

Exhibit R-15.

and merchandise, in as full and ample a manner as the parties of the first part were authorized to do by the laws of the State of New Jersey.

And also all and singular the cars and engines mentioned and described in the schedule hereto annexed, marked C. (and which articles are estimated to be of the value in said schedule mentioned) and also the machinery and tools of every kind and description of the said parties of the first part used in the shops or works of the company, or in making or repairing said road, and also the hand carts and tools connected therewith used in the repairing of the track, and other articles of personal property appurtenant to said railroad.

To have and to hold the said above-mentioned and described premises, with the appurtenances, unto the said parties of the second part, their successors and assigns, from and including the fifteenth day of September one thousand eight hundred and fifty-two, for and during the existence and continuance of the charter of the parties of the first part, and the legal existence of the said the President and Directors of the Paterson and Hudson River Railroad Company, by virtue and in pursuance of the Act of Incorporation of the Legislature of the State of New Jersey, passed January 21, 1831, and all other Acts of said Legislature relating thereto, they, the said parties of the second part, yielding and paying therefor unto the parties of the first part, their successors and assigns, yearly and every year during the said term hereby granted, the yearly rent or sum of forty-five thousand six hundred dollars in equal half-yearly payments, to wit, on the first days of January and July in each and every year.

And the parties of the first part, for the considerations above expressed, further grant to the parties of the second part the right and power to use and enjoy all the privileges, benefits, grants, agreements and

Exhibit R-15.

covenants and interests, which the parties of the first part at or before the execution and delivery of these presents, have, or are entitled to or may enjoy, or claim, or any way interested in and may enforce contained in, or secured by a certain agreement, bearing the date of the tenth of October, one thousand eight hundred and thirty-four, made by and between the parties of the first part, and the New Jersey Railroad and Transportation Company, and a certain other agreement, bearing the date of the ninth of September one thousand eight hundred and fifty-two, made between the said the parties hereto of the first part, and the New Jersey Railroad and Transportation Company, the copies whereof are hereto annexed and respectively marked A and B. Provided, however, that the parties of the second part shall, during such time and so long as they shall claim to enforce and shall receive the benefit of such privileges, benefits, grants, agreements, covenants and interests, perform and fairly execute to and with the New Jersey Railroad and Transportation Company all the agreements and covenants which in and by the two agreements above referred to the parties of the first part are bound to perform and execute to and with the said the New Jersey Railroad and Transportation Company all the agreements and covenants which in and by the two agreements above referred to the parties of the first part are bound to perform and execute to and with the said the New Jersey Railroad and Transportation Company.

And these presents further witness, that for the consideration above expressed, the parties of the first part further covenant and agree to and with the parties of the second part, their successors and assigns, that in case of a renewal or extension of the charter of the parties of the first part by an Act of the Legislature of the State of New Jersey, or in pursuance of the laws of said State, they, the parties of the first part, will make and execute to the parties of the sec-

Exhibit R-13.

and part, a new lease and demise of all the property and premises hereinbefore mentioned and referred to for a term co-extensive in duration with the renewal or extended charter of the parties of the first part, at the same rents and under the same covenants (including a covenant for further renewal), as are contained in these presents. It being understood and agreed, however, that such new or renewed leases or demises shall contain provisions for an adjustment between the parties on a just and equitable principle of a valuation of any depreciation of said road or tracts by the use or neglect thereof; and it is further understood and agreed by and between the parties hereto, that the parties of the second part are to pay to the State of New Jersey all legislative charges for such renewals of the charters of the parties of the first part, and that at the termination of the leases or either of them, any erections or improvements on the said above mentioned and demised property that may have been made by the parties of the second part, or their assigns, at their own expense, shall be paid for by the parties of the first part, at their appraised and just value.

And the parties of the first part, for the considerations above expressed, further covenant and agree to and with the parties of the second part, that they, the parties of the second part, may, during the continuance of this demise, and during the continuance of a renewed or further demise or demises which may be hereafter made, use, employ and put in force all the rights, powers and chartered privileges of the parties of the first part for the purpose of making a tunnel, or otherwise passing Bergen Hill, and extending and making a railroad from any point on the railroad hereby demised to the Hudson River, to some point opposite to the city of New York, and for receiving tolls and making and collecting by all lawful ways, money, at the rates permitted in and by the charter of the parties of the first part for transporting per-

Exhibit R-15.

sons, mails and property of every description over such new or extended railroad; and the parties of the first part further covenant and agree to render such further aid and assistance in obtaining legislative enactments to carry out or advance the agreement and provisions in this instrument contained, as shall be necessary or advantageous to the parties of the second part, and as the parties of the first part may be justified in rendering without prejudice to the interests of their charter.

These presents further witness that the parties of the second part for themselves and their successors, in consideration of the grants, covenants and agreements herein contained, do covenant and agree to and with the said parties of the first part, and their successors, that the parties of the second part, their successors and assigns, shall and will yearly and every year during the terms hereby granted, or which may, as before provided, be hereafter granted, pay, or cause to be paid to the said parties of the first part, their successors and assigns, the said yearly rent above reserved, on the days and in the manner above prescribed.

And the parties of the second part, in like manner and for the like consideration, covenant and agree to and with the parties of the first part, that during the continuance of this demise, or of any future demise that may be made in pursuance of the provisions above contained, they, the parties of the second part their successors or assigns, will bear and pay to the State of New Jersey for taxes that may be laid by the authority of said State on the parties of the first part, or their property, such amount of money annually as shall be equivalent to one-half of one per cent on the capital stock of six hundred thousand dollars of the parties of the first part.

And it is further mutually covenanted and agreed by and between the parties to these presents, that in

Exhibit R-15.

the event of a reduction of capital, the amount to be paid under the agreement herein contained, by the parties of the second part, or towards the taxes imposed, or which may be imposed by the Legislature of the State of New Jersey, shall be proportionately reduced.

And the parties of the second part, for themselves, their successors and assigns, further covenant and agree to and with the parties of the first part, their successors and assigns, that they the parties of the second part shall and will, during the demise or demises herein made or hereafter to be made, as above provided, keep and maintain the said railroad in as good repair as it is at the date of this demise, and further that they will keep and maintain the depots, offices and houses connected with said railroad, and above demised, in good repair, ordinary decay and wear and tear excepted; and that on the termination of the demise or demises, according to the provisions of these presents, they will surrender up the said railroad, depots, offices and houses and shops, and the personal property above described or its equivalent, viz: twenty thousand dollars to such person or persons, representing the parties of the first part, as shall be entitled to receive the same.

And the parties of the second part do hereby covenant and agree with the parties of the first part that the said parties of the second part and their assigns will keep and maintain and run said railroad and other premises hereby demised, in such manner, order and condition as the said parties of the first part are bound to keep and maintain and run the same by the charter of the said parties of the first part and the statutes supplementary thereto, and that they will indemnify and save harmless the said parties of the first part from all damages to which they may be subject by reason of said road and premises not being so kept, maintained and run.

And it is further agreed by and between the parties hereto, that if at the termination of this or any future demise, and on the cessation of the interest of the parties of the second part, of, in and to the demised premises, it shall appear that there is any depreciation of the demised premises by the use or neglect thereof, contrary to the agreement hereinbefore contained, that the same shall be appraised by three arbitrators, whereof one shall be named by the parties of the first part, and one shall be named by the parties of the second part, and a third shall be selected by the said two arbitrators thus named; and the award of a majority of said three arbitrators of the value or amount of such depreciation shall be conclusive on the parties to these presents, and shall be paid and discharged by the said parties of the second part; and it is in like manner further agreed by and between the parties to these presents, that if any erections or improvements shall, during the said term hereby demised, or any future term or terms hereafter demised, be made on said demised premises or appurtenant thereto, the same shall, at the termination of said term or terms, and the cessation of the interest of the parties of the second part of, in and to the same, by the expiration thereof, or other termination thereof, be valued by arbitrators to be appointed in like manner as last above provided, and the award of a majority of such arbitrators shall be conclusive as to the value of the said erections and improvements; and the parties of the first part shall pay and discharge the amount so valued to the parties of the second part or their assigns.

It is further agreed by the parties of the second part, that during the demise or devises hereinbefore made or agreed to be made, the directors and secretary of the parties of the first part shall, while holding such offices, be entitled to free passes over said railroad, to and from Paterson aforesaid and Jersey City, or other terminus of the road on the Hudson

Exhibit R-15.

River; and if, or when the parties of the second part shall have received a lease of, and from the Paterson and Ramapo Railroad Company, of the railroad of such last named company, that, then, and in such case, the directors and secretary of the parties of the first part shall, while holding such offices, have the same privileges of free passes to and from Paterson aforesaid, to Suffern's Depot on the line of the New York and Erie Railroad.

And the parties of the first part further covenant that they will and shall, at any time or times hereafter, upon the reasonable request, and at the cost of the parties of the second part, make and execute all and every such further acts, conveyances and assurances, for the more effectually vesting the premises hereby intended to be granted in and to the parties of the second part, as by counsel learned in the law shall be reasonably devised, advised or required.

And the parties of the first part further covenant and agree to and with the parties of the second part, their successors and assigns, that they, the parties of the second part, or their assigns, paying the said yearly rent and performing the covenants and agreements on their part, they the parties of the second part, their successors and assigns shall and may, at all times, during the said term or terms above mentioned, peaceably and quietly have, hold and enjoy the demised premises, without let, suit, trouble or hindrance of or from the parties of the first part, their successors or assigns, or any other person or persons whomsoever.

In testimony whereof the parties to these presents have caused their respective common seals to be hereunto affixed, and these presents to be attested by their respective presidents and secretaries on the day and year first above written.

Sealed and delivered in the presence of

JOHN COLT, (L. S.)
President.

SCHEDULE "A."

AN AGREEMENT made and entered into this tenth day of October, in the year of our Lord one thousand eight hundred and thirty-four, between the New Jersey Railroad and Transportation Company of the one part, and the President and Directors of the Paterson and Hudson River Railroad Company of the other part.

I. It is mutually agreed by and between the said companies that the Paterson and Hudson River Railroad Company shall use the road of the New Jersey Railroad and Transportation Company from the junction of the two roads on the west side of Bergen Ridge to the Hudson River, during the continuance of the charter of the New Jersey Railroad and Transportation Company, for the transportation of passengers and merchandise upon the terms and under the rules and regulations hereinafter contained.

II. The New Jersey Railroad and Transportation Company hereby agrees to lay down two permanent tracks on their road from the said junction to Jersey City, at a grade not exceeding forty feet to the mile, as soon as the same can conveniently be done, and within five years from the date hereof, and when the two tracks shall be completed the two companies shall use the same in the following manner, viz:—The cars of each company, and all others travelling on the said road, shall, in approaching the Hudson River, travel on the south track, and in returning travel on the north track, except when some necessary repairs are

making upon one track, when both companies and all others shall temporarily use the other track.

III. The cars of the Paterson and Hudson River Railroad Company, and the cars of any other railroad company which may hereafter construct a road intersecting the Paterson Road, west of the junction, shall have equal privileges on the road from the said junction to the Hudson River with the cars of the New Jersey Railroad and Transportation Company; and the Paterson and Hudson River Railroad Company, and such other railroad company as may intersect the Paterson Road, as aforesaid, shall have the liberty of running their cars as often over the said road, east of the junction, as they may find necessary; reserving the same right to the New Jersey Railroad and Transportation Company, Provided such other company as shall hereafter intersect the Paterson Road, as aforesaid, shall, on using said road, pay to the New Jersey Railroad and Transportation Company as much per passenger and as much per ton for merchandise as the Paterson and Hudson River Railroad Company, has herein agreed to pay to the New Jersey Railroad and Transportation Company, unless the Paterson and Hudson River Railroad Company shall charge more to such other company, in proportion to the distance travelled on their road, than the Paterson and Hudson River Railroad Company have agreed to pay, in which case such other company shall pay to the New Jersey Railroad and Transportation Company the same rates they pay to the Paterson and Hudson River Railroad Company in proportion to the distance travelled.

IV. The passenger cars of each of said companies shall have a preference over the burthen cars of either company, on the road east of said point of junction.

V. The Paterson and Hudson River Railroad Company, and such other railroad company as shall intersect the Paterson road, as aforesaid, shall have

Exhibit R-15.

the privilege of traveling on the said road east of the junction, with as great velocity and to carry as heavy loads as are deemed safe and reasonable on the best regulated railroads, so that they do not in any case travel faster on the New Jersey Railroad, east of the junction, than they shall travel on the Paterson Railroad.

VI. The New Jersey Railroad and Transportation Company hereby agrees to lay down two sets of tracks on any branch which they may make from any point on their road to any landing or ferry on the Hudson River, and in approaching the Hudson River the cars of the several companies using the same shall take the right hand track, and in returning the other track; and all the agreements and regulations herein contained in relation to the use of the main line shall apply to the use of any branch of said road.

VII. In case the two Companies shall be desirous of starting the cars traveling the respective roads, either for the transportation of passengers or merchandise from the Hudson River or the junction at the same time or times, the car or cars of that Company which move with the greatest velocity on the road shall start first, but shall start precisely at the time appointed, and the others shall follow immediately. And in case the cars traveling on each road shall move with equal velocity, the cars traveling on one road shall start first for one week, and the cars traveling on the other road for the next week, and so on alternately afterwards week by week.

VIII. The merchandise cars traveling on either road shall not start from the Hudson River or the junction so as to retard the passenger cars traveling on either road in their regular trips on their intervening portion of the road; but shall start so long before the passenger cars set out on their regular trips, as to be out of their way, or else shall wait and start after them.

IX. In case it shall be found necessary for the accommodation of the cars transporting merchandise on the two roads, the New Jersey Railroad and Transportation Company agrees to construct, at some suitable place or places as near half-way from the Hudson River to the junction as is convenient, both on the main line of the road, and on any branch thereof proper turn-outs or passing places on the outside of each track.

X. The New Jersey Railroad and Transportation Company agrees to construct the junction of the two roads, and to continue the rails to the north line of their road, being thirty-three feet from the centre thereof, and to keep the same in good and sufficient repair. And it is mutually agreed between the two companies that the person attending the switches at the junction shall be the agent of the two companies, and shall be paid his salary equally by both companies.

XI. The New Jersey Railroad and Transportation Company agrees to keep the main line and any branch thereof between the junction and the Hudson River in good and sufficient repair, and that no track on said road east of the junction shall be narrower than the track now laid down on the Paterson road, nor more than one-eighth of an inch wider than the track on said Paterson road.

XII. And the Paterson and Hudson River Railroad Company does hereby agree with the New Jersey Railroad and Transportation Company to use that portion of the New Jersey Railroad east of the junction during the continuance of the charter of said Company, and to pay them for the use the following tolls, namely: For every passenger that shall enter upon the New Jersey Railroad six cents, and for every ton of merchandise twelve cents; but nothing is to be charged for the cars for transporting passengers or

Exhibit R-15.

merchandise over said road east of the junction, nor for the moving power. And the said Paterson and Hudson River Railroad Company further agrees to use the said road east of the junction in a careful and proper manner, and to observe such necessary rules and regulations as the New Jersey Railroad and Transportation Company shall from time to time adopt and enact for the government of the road.

XIII. In case any misunderstanding shall arise between the two Companies in relation to the use of the road under this agreement, it is hereby mutually agreed, that the matter in difference shall be made a rule of the Court of Chancery of New Jersey, and shall be referred to three such competent and disinterested persons as the Chancellor for the time being shall appoint, whose decision, when approved by the Chancellor, shall be final and conclude the parties.

XIV. And the New Jersey Railroad and Transportation Company hereby agrees with the Paterson and Hudson River Railroad Company that they will construct a branch of their road from some suitable point east of the junction to the Hoboken Ferry, as soon as it can legally and reasonably be done, and within five years from the date hereof.

IN WITNESS WHEREOF the New Jersey Railroad and Transportation Company have caused their common seal to be hereunto affixed, and the same to be signed by their president, John S. Darcy, and also in witness whereof the president and directors of the Paterson and Hudson River Railroad Company have caused their common seal to be affixed, and the same to be signed by their president, Elias B. D. Ogden.

JOHN S. DARCY, *Pres.* (L. S.)

ELIAS B. D. OGDEN, *Pres.* (L. S.)

Signed sealed and delivered

A. S. PENNINGTON.

SCHEDULE "B."

AN AGREEMENT made and entered into this ninth day of September, 1852, in the year of our Lord one thousand eight hundred and fifty-two, between the New Jersey Railroad and Transportation Company, of the first part, and the President and Directors of the Paterson and Hudson River Railroad Company, of the second part.

Whereas, application has been made to the said party of the second part by the Union Railroad Company of the State of New York, to secure to them the right of running the engines and cars of the New York and Erie Railroad Company without hindrance or change over the road and lands of the said party of the first part, now belonging to them; from the junction of the roads of the parties hereto, near Bergen Hill, to the grounds of the party of the second part, at Jersey City, as now enjoyed by the said party of the second part under their contract with the said party of the first part by constructing tracks of sufficient width to accommodate the engines and trains of the New York and Erie Railroad Company as aforesaid, and with such distance between the two tracks that the cars at present used by the New York and Erie Railroad Company may pass each other with a clear space of at least eighteen inches between them; and the said party of the second part being satisfied that the same is practicable,

Now, therefore, it is hereby mutually agreed between the parties hereto as follows:

I. The party of the first part, for and in consideration of the sum of one dollar, and the covenants and agreements hereinafter mentioned, do hereby agree to permit the party of the second part, or the agents and workmen in their employ to enter upon, use and occupy their said road and grounds between the junction at Bergen Hill aforesaid and the grounds of the

party of the second part at Jersey City, for the purpose of laying down a rail on one side of each of the tracks now in use, so as to form in conjunction with the use of the inside rail of each track of the party of the first part for each widened track, two tracks each of six feet in width; and to have the power to remove the rails of the present tracks whenever it may be necessary, so that the distance between the two tracks may be sufficient for the cars of the New York and Erie Railroad Company to pass each other with the clear distance of eighteen inches above mentioned between them.

II. The party of the first part further agrees to and with the party of the second part, to allow them to contract with the said Union Railroad Company for the transportation of the passengers and freight coming over the said New York and Erie Railroad, over the said six feet tracks and grounds, upon the same terms and conditions as to price per passenger and per ton for freight, as are now stipulated in an agreement between the parties to these presents in relation to the passengers and freight carried by the parties of the second part for the said Union Railroad Company, over the said road and grounds of the parties of the first part, it being understood that the terms and conditions are as now appears by the quarterly settlements between the parties of these presents; the said party of the first part receiving the price per passenger and ton of freight as now fixed above and agreed to.

III. The party of the first part further agrees to and with the party of the second part, that if the said tracks hereinabove provided for the said Union Railroad Company should only prove to be for a temporary use of the last named company, and for the purposes above mentioned, the said party of the first part agree to permit the party of the second part to remove the two rails so laid down as aforesaid on the sides of the tracks now in use, together with the

Exhibit R-15.

chairs and spikes, not, however, removing the ties or disturbing the road bed, leaving the road and grounds in as good condition for railroad uses as when entered on, natural wear and tear excepted. It being further understood and agreed, that if the said Union Railroad Company, or their assigns, should voluntarily cease to use the said widened tracks, and not remove the rails above mentioned for the space of ninety days, then the party of the first part shall be allowed to remove said rails, and not be required to allow anything for widening the cut and the tracks as aforesaid.

IV. Should the said Union Railroad Company or their assigns decide to conclude an agreement for the permanent use of the aforesaid tracks for the transportation of the passenger and freight of the said New York and Erie Railroad Company, with the party of the second part, during the charter of the latter company, said agreement being guaranteed by the New York and Erie Railroad Company, and the party of the first part have the permanent agreement above alluded to so guaranteed for the purposes aforesaid, secured to them by the party of the second part, then it is understood and agreed by the party of the first part that they will reimburse all costs and expenses incurred by the party of the second part in laying down the said rails and preparing the said tracks for the transportation of the passengers and freight of the said New York and Erie Railroad Company, and the use of the same, together with interest on the cost, from the time of their completion of the work. A statement of such cost and charges shall, on said completion, be furnished the party of the first part, and the said party of the first part will permit, if desired, the passengers and freight coming from or going to the New York and Erie Railroad to be passed over the said tracks and grounds upon the same terms and conditions as the parties of the second part are now

Exhibit R-15.

allowed to carry them, as appears by the quarterly settlements now made by the parties to these presents, it being further understood that the use of the aforesaid tracks between the said junction and the grounds of the party of the second part in Jersey City is to be subject to any existing regulation in virtue of the permanent agreement between the parties to these presents, and any others that may be adopted in pursuance thereof.

V. It is agreed by the party of the second part, that in entering upon and preparing the grounds for the laying down of the rails hereinbefore above provided for, they will not themselves, nor allow their agents or workmen to obstruct or interfere with the running of the regular trains of the parties of the first part, and will prosecute the work to completion at the earliest possible day. And it is understood and agreed that the work be constructed under the joint supervision and counsel of the parties to these presents or such officers or agents as may be designated by them with the view of performing the same in the most expeditious and practical manner, and to cause as little obstruction or interference with the present uses of the railroad as possible; and that all damages sustained by the party of the first part shall be restored or paid for by the party of the second part to the party of the first part, the amount of which damages so paid shall be considered and allowed by the party of the first part as a part of the whole costs of the work, if the agreement becomes permanent as aforesaid. And in case of any disagreement by the parties hereto as to the amount of damages sustained, or of any other difference under this agreement, the same shall be referred to the decision of George H. Schuyler of the city of New York; and in case of his inability to act, then the same shall be referred to the final decision of the engineer of the Morris and Essex Railroad Company for the time being.

Exhibit R-15.

VI. And it is further agreed, that after the work under the foregoing agreement is completed, and the engines and cars of the said Union Railroad Company, or of the New York and Erie Railroad Company enter upon the use of the same, as heretofore provided, that then the party of the first part are to repair and maintain the said widened tracks used by either of the above named companies in the same manner as is now performed under the present agreement between the parties to the presents.

In witness whereof the said parties hereto have interchangeably set their corporate seals, and caused the same to be attested by their presidents and secretaries.

AN ACT

to incorporate

THE PATERSON AND RAMAPO RAILROAD COMPANY.

Passed March 10, 1841.

AN ACT to incorporate the Paterson and Ramapo Railroad Company.

SEC. 1. BE IT ENACTED by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same THAT Elisha B. Clark, Cornelius G. Garrison, Abraham Godwin, David Roe, Jacob M. Ryerson, Cornelius S. Van Wagoner, John

Exhibit R-15.

S. Van Winkle, John G. Ackerson, Charles Kinney, Henry B. Hagerman, Francis Salmon, Jacob H. Hopper, Lauriston Hall, William G. Hopper, John Ward, Christian A. Wanamaker, and such other persons as may hereafter be associated with them, shall be, and they are hereby ordained, constituted and declared to be a body corporate and politic, in fact and in name, by the name of "The Paterson and Ramapo Railroad Company"; and by that name they and their successors and assigns shall and may have continued succession, and shall be persons in law capable of suing and being sued, pleading and being impleaded, answering and being answered unto, defending and being defended, in all courts and places whatsoever; and shall have power to make and use a common seal, and the same at pleasure to alter; and they and their successors, by the same name and style, shall be capable of purchasing, holding and conveying any lands, tenements, goods and chattels necessary or expedient to the objects of this corporation, and shall be clothed with all the rights, powers and privileges pertaining to corporate bodies and requisite for the purposes aforesaid.

II. And be it enacted, That the capital stock of said company shall be four hundred thousand dollars, and shall be divided into shares of fifty dollars, each, which shall be deemed personal property, and transferable in such manner as the said corporation shall by their by-laws direct.

III. And be it enacted, That the above-named persons, or a majority of them, shall open books to receive subscriptions to the capital stock of the said corporation at such time or times and place or places, in this State, as they, or a majority of them, may think proper, giving notice thereof at least twenty days prior to the opening of said books, by publishing the same in the newspapers printed in Paterson and in a newspaper printed in the city of New York; and

that the said books shall be kept open for three days at least, from ten o'clock in the forenoon until three o'clock in the afternoon, and as much longer as the said commissioners, or a majority of them, shall think proper; and if more subscriptions be taken than the amount of the capital stock hereby authorized, it shall be the duty of the said commissioners, or a majority of them, to apportion the stock among the subscribers, in proportion to their subscriptions; but no apportionment shall be made of any subscription for five shares or less.

IV. And be it enacted, That at the time of subscribing for said stock, five dollars shall be paid to the above named persons, or some one of them, upon each share subscribed for, which money shall be paid over to the treasurer of the company, as soon as one shall be appointed; and when the said capital stock shall be subscribed for, and the books closed, and the apportionment made (if the same become necessary), it shall be the duty of the persons named in the first section of this Act, or a majority of them, to call a meeting of the stockholders, upon like notice as above, to choose seven directors, a majority of whom shall be residents in this State; and such election shall be made by ballot, by such of the stockholders as shall attend for that purpose, either in person or by lawful proxy, each share of the capital stock entitling the holder thereof to one vote; and the said named persons, or a majority of them, shall be inspectors of the first election of directors of the said corporation, and shall certify, under their hands, the names of those persons duly elected, and deliver over the subscription books to the said directors, and that annually thereafter, upon like notice being given by the directors for the time being, the stockholders shall in the same manner elect the same number of directors, a majority of whom shall be residents in this State; and the time and place of holding the first

Exhibit R-15.

meeting of directors shall be fixed by the said persons named in the first section of this Act, or a majority of them; and the directors chosen at any of the elections of said corporation shall, as soon as may be after every election, choose out of their own number a president; and in case of the death, resignation, or removal of the president or any director, such vacancy or vacancies may be filled for the remainder of the year wherein they may happen by the said board of directors, or a majority of them; and in case of the absence of the president, the said board of directors, or a majority of them, may appoint a president pro tempore, who shall have such power and functions as the by-laws of the said corporation shall provide.

V. And be it enacted, That in case an election of directors should not be made during the day when by this Act it ought to have been made, the said corporation shall not be deemed to be dissolved, but such election may be afterwards held according to law, on notice as aforesaid; and the directors for the time being shall continue in office until an election shall take place.

VI. And be it enacted, That five directors of said corporation shall be a quorum to transact business; and they shall have power to call in the remainder of the capital stock by such instalments, not exceeding five dollars on each share at one time, and at such times as they may direct, and in case of the non-payment of any such instalment, to forfeit the share or shares upon which such default shall arise; and shall have power to appoint a secretary, treasurer, engineers, agents, and such workmen as may be required to transact the business of the company, with such compensation to them and the president as the board shall deem proper, and to take from the treasurer sufficient security for the due performance of his

Exhibit R-15.

trust; and further, to make and prescribe such by-laws, rules, and regulations, as to them shall appear needful and proper; provided the same be not repugnant to the laws or constitution of this State or of the United States.

VII. And be it enacted, That the said company be, and they are hereby authorized and invested with all the rights and powers necessary and expedient to convey, lay out, and construct a railroad from a suitable place in or near the town of Paterson, through the Counties of Passaic and Bergen, to some suitable point or points in or near the division line between the township of Franklin, in the county of Bergen, and the State of New York, and to locate and form said railroad, not exceeding sixty-six feet in width, with as many sets of tracks and rails as they may deem necessary; and it shall be lawful for the said president and directors, their agents, engineers, and others in their employ, to enter upon all lands and waters, for the purpose of exploring, surveying, levelling, and laying out the route of such railroad, and of locating the same; and when the route and the location of said road shall have been determined upon, and a survey thereof deposited in the office of the Secretary of State, it shall then be lawful for said company, by its officers, engineers, agents, contractors and workmen, to enter upon, take possession of, hold, use, occupy and excavate any such lands, and to erect embankments, bridges, and all other necessary works thereon, and to lay rails and do all other things which may be suitable and necessary for the completion and repairs of the said railroad, and to carry into full effect the object of this Act; and may also take and use any stone, gravel, sand, clay, or other materials, wood and timber excepted, on or near the said route, which may be required for the construction of, repairing, or altering the said road, or any of the works or appendages, subject to such

Exhibit R-15.

compensation to be made therefor as is hereinafter provided; provided always, that the payment of all damages for the occupancy of lands through which the said railroad may be laid out and located be made by the company, either to the owner or into court, as hereinafter provided for, before they or any person under their direction or in their employ shall enter upon or break ground upon the premises, excepting for the purpose of surveying and laying out said railroad, unless the consent of the owner or owners of such lands shall be first had in writing.

VIII. And be it enacted, That when the said company or its agents cannot agree with the owner or owners of such required lands or materials, for the use or purchase thereof, or when, by reason of the legal incapacity or absence of such owner or owners, no such agreement can be made, a particular description of the land or materials so required for the use of the said company in the construction of said road shall be given in writing, under the oath or affirmation of some engineer or proper agent of the company, and also the name or names of the occupant or occupants, if any there be, and of the owner or owners if known, and their residence, if the same can be ascertained, to one of the justices of the supreme court of this state, who shall cause the said company to give notice thereof to the persons interested, if known and in this State, or, if unknown or out of this State, to make publication thereof, as he shall direct, for any term not less than twenty days, and to assign a particular time and place for the appointment of the commissioners hereinafter named; at which time, upon satisfactory evidence to him of the service or publication of such notice aforesaid, he shall appoint, under his hand and seal, three disinterested, impartial, and judicious freeholders, commissioners to examine and appraise the said land or materials and to assess the damages, upon such notice to be given to

the persons interested as shall be directed by the justice making such appointment, to be expressed therein, not less than twenty days; and it shall be the duty of the said commissioners, having first taken and subscribed an oath or affirmation before some person duly authorized to administer an oath, faithfully and impartially to examine the matter in question, and make a true report according to the best of their skill and understanding, to meet at the time and place appointed, and proceed to view and examine the said lands or materials and make a just and equitable estimate or appraisement of the value of the same, and assessment of damages, to be paid by the company for such land or materials and damages aforesaid, and to make a report thereof under the hands and seals of the said commissioners, or any two of them, and file the same within ten days thereafter, together with the aforesaid description of the land or materials and the appointment and oaths or affirmations aforesaid, in the clerk's office of the county wherein said lands or materials may be, to remain of record therein, and shall be recorded by the said clerk; which report, or a copy thereof, certified by the clerk of said county, shall at all times be considered as plenary evidence of the right of the said company to have, hold, use, occupy, possess, and enjoy the said land or materials, after payment of the value and damages so assessed, and of the right of the said owner or owners to recover the amount of said valuation with interest and costs, in an action in any court of competent jurisdiction, in a suit to be instituted against the company, if they shall neglect or refuse to pay the same for twenty days after demand made of their treasurer, and shall constitute a lien upon the property of the company in the nature of a mortgage; and the said justice shall tax and allow such costs, fees, and expenses to the justice, commissioners, clerks, and other persons performing

Exhibit R-15.

any of the duties prescribed in this section, as he shall think equitable and right, which shall in all cases be paid by the company; provided always, that should the said company, or the owner or owners of any land or materials, feel himself, herself, or themselves aggrieved by the decision of the commissioners aforesaid, he, she, or they may appeal to the next circuit court in the county wherein said lands or materials shall be.

IX. And be it enacted, That every appeal from the decision of commissioners appointed under the preceding section shall be made in writing, and filed with the clerk of the circuit court of the county wherein the lands or materials appraised by the said commissioners shall be; and notice in writing of such appeal shall be given to the opposite party within ten days after the filing thereof; and thereupon, without any further proceedings, the parties shall be considered as at issue, and the like proceedings shall be had, and the like process awarded, for the trial thereof by a jury, and for compelling the attendance of witnesses, as may be had or awarded for the trial of any other issue before the said court, and the like judgment shall be rendered on the verdict of the jury, with costs, if costs ought to be awarded; and such judgment shall be recorded in the same manner, and have the like force and effect as in any action of trespass or on the case prosecuted in the said court, and execution may be thereupon issued, as in other cases; and if the verdict of the jury shall be for a greater amount than was reported by the commissioners, or, upon an appeal made by the company, shall be for the same amount which was reported by the commissioners, costs shall be awarded against the said company; and if the verdict of the jury shall be for a less amount than was reported by the commissioners, or, upon an appeal made by the owner of the land or materials, shall be for the same amount which was reported by the commissioners, then each party shall

Exhibit R-15.

pay his, her, or their own costs, and such appeal shall be brought on and disposed of at the first term of the court after the filing thereof, unless good and sufficient cause be shown to the court for a postponement; and the judgment of the circuit court rendered in such appeal shall be sufficient to authorize the company to take possession of and use the said land or materials; provided the amount of the said judgment shall first be paid to the party or parties recovering the same, or upon his, her, or their refusal to receive it, on tender thereof, it first be paid into the said court, to the clerk thereof.

X. And be it enacted, That in case any owner or owners of any such required lands or materials so appraised, or in favor of whom damages may have been so assessed, shall be feme covert, under age, non compos mentis, or resident out of this State, or shall refuse to receive the amount so awarded or assessed, then and in any such case the said company shall pay the amount or amounts so awarded to the last mentioned owner or owners respectively, or the damages so assessed into the Court of Chancery, to the clerk thereof, subject to the order of the said court, for the use of the owner or owners, or of the said person or persons so damnified; which payment shall have the same force and effect, and vest in the company the same rights and privileges as if paid to the owner or person damnified, or paid into the circuit court under the provisions of the next proceeding section, subject, however, to the right of appeal in the manner hereinbefore provided.

XI. And be it enacted, That it shall be the duty of the said Company to construct and keep in repair, good and sufficient bridges or passages over or under the said railroad, where any public or other road shall cross the same, so that the passage of carriages, horses and cattle on the said road shall not be pre-

Exhibit R-15.

vented thereby, and where the railroad shall intersect any farm or lands, they shall provide and keep in repair suitable wagon ways over or under the said railroad, so that persons may conveniently pass the same.

XII. And be it enacted, That the President and Directors of the said company shall have power to have constructed, or to purchase with the funds of the company, and to place on their railroad, all machines, engines, wagons, carriages and vehicles for the transportation of persons or any species of property thereon that they may think reasonable, expedient and right.

XIII. And be it enacted, That the President and Directors of the said company shall declare and make such dividends as they may deem prudent and proper, from time to time, of the net profits of the said railroad.

XIV. And be it enacted, That if any person shall wilfully impair, injure, destroy or obstruct the use of the railroad constructed under the provisions of this Act or any of their necessary works, bridges, carriages or machines, such person or persons so offending shall forfeit and pay to the said company any sum not exceeding two hundred dollars, at the discretion of the court or jury, to be by them recovered in an action of debt, with costs of suit, in any court having competent jurisdiction, and also shall be liable to pay to said company the amount of damages sustained thereon, with costs of suit, to be sued for in an action of trespass.

XV. And be it enacted, That the said company may have and hold real estate at the commencement and termination of said road not exceeding four acres at each place, and may erect and build thereon houses, warehouses, stables, machine shops, and such other buildings and improvements as they may deem

Exhibit R-15.

expedient for the safety of property, and construction of carriages and other necessary uses, and take and receive the rents, profits and emoluments thereof; and shall have the privilege and authority to erect, build and maintain on the river Passaic, and such other streams as the road may cross, such piers, bridges and other facilities as they may think expedient and necessary for the full enjoyment of all the benefits conferred by this Act, subject to the aforesaid restrictions.

XVI. And be it enacted, That the road authorized by this Act, be, and the same is hereby declared free for the passage of any railroad carriage thereon, with passengers or property, upon payment of the tolls prescribed by this Act: Provided always, that the said carriages so used thereon shall be so constructed and so regulated as to the time of starting, speed of traveling and amount of tonnage, as not to interfere with the carriages of the company, nor injure the said road.

XVII. And be it enacted, That if the said railroad shall not be commenced in two years from the fourth day of July next, and completed at the expiration of six years from the same time, that then, and in that case this Act shall be void.

XVIII. And be it enacted, That no part of the capital stock or moneys of the Company incorporated by this Act shall be used or employed by said company for banking purposes, under the penalty of forfeiting this charter.

XIX. And be it enacted, That at any time after the expiration of fifty years from the completion of the said road the Legislature of this State may cause an appraisement of said road and the appendages thereof to be made by six persons, three of whom shall be appointed by the chief justice of this State for the time being, the remaining three by the com-

Exhibit R-15.

pany, who, or a majority of them, shall report the value thereof to the Legislature within one year from the time of their appointment; or, if they cannot agree, they shall choose a seventh, who, with the aforesaid six, shall report as aforesaid, or in case the said company shall neglect or refuse to appoint the said three persons on their part for two months after the said appointment by the said chief justice, then the three persons so appointed by him shall proceed to make such appraisement, which shall be binding on the said company; or in case the said six commissioners shall be appointed as aforesaid, and they cannot agree upon the seventh man, then, upon two weeks' notice to the said company, the said chief justice shall appoint such seventh man as aforesaid, to make such appraisement as aforesaid, and thereupon the State shall have the privilege for three years of taking the said road, upon the payment to the company of the amount of the said report within one year after electing to take said road, which report shall be filed in the office of the secretary of this State, and the whole property and interest of said road, and the appendages thereof, shall be vested in the State of New Jersey upon the payment of the amount so reported to the said company; and that it shall be the duty of the president of the company to lay before the Legislature, under oath or affirmation, when they shall so request, a full and fair statement of the costs of the said road, and the appendages thereof; provided always, that the aforesaid valuation shall be made without reference to the receipts or disbursements of the company, or advance of the stock; and the said valuation shall in no case exceed the first cost of the said railroad, with the lands and appendages thereof.

XX. And be it enacted, That it shall be lawful for the said company, at any time during the continuance of its charter, to make contracts and engage-

Exhibit R-15.

ments with any other corporation, or with individuals for transporting or conveying any kind of goods, produce, merchandise, freight, or passengers between the northern termination of this road and the Hudson river, opposite to the city of New York, or between any intermediate point or points on the line thereof, and to enforce the fulfilment of such contracts; provided that every such contract and engagement for transporting or conveying any goods, merchandise, freight, or passengers, upon the Paterson and Hudson River Railroad, or by virtue or in pursuance of which any such goods, produce, merchandise, freight, or passengers shall be conveyed or transported on the said Paterson and Hudson River Railroad, shall be so made as to secure to this State the payment of five cents for each and every such passenger, and eight cents for each and every ton of such goods, produce, merchandise, and freight; and that before any such contract or engagement shall take effect, a copy thereof, certified by the president, secretary, or treasurer of the company hereby created, shall be filed with the treasurer of this State.

XXI. And be it enacted, That it shall be lawful for the said company to demand and receive, for carrying each passenger over said railroad, at the rate of six cents per mile, and for the transportation thereof of every species of property and freight, the loading and unloading thereof upon and from the cars of said company inclusive, at the rate of ten cents per mile for each ton weight; and when such passengers or property are carried over and upon said road in vehicles and by means not belonging to said company, but owned by others, the said company shall be empowered to demand and collect, as tolls therefor, at the rate of three cents per mile for each and every passenger, and at the rate of five cents per mile for each and every ton weight; and that the said company shall provide and maintain, at each

Exhibit R-15.

end of the said road, suitable and sufficient warehouses for the reception and protection of all such goods, produce, merchandise, and freight as shall be brought to the same, to be transported on the said road in the carriages of the said company.

XXII. And be it enacted, That from and after the completion of the said road, or its use by the company for public travel, it shall be the duty of the treasurer of the company, under oath or affirmation, to make annual returns to the treasurer of this State for the time being, of the number of passengers and of the number of tons of goods, produce, merchandise and freight transported over said road, and thereupon to pay to the said treasurer of the State the sum of five cents for each and every passenger, and the sum of eight cents for each and every ton of freight so transported thereon; and that no other State tax shall be levied or assessed on the said company; and that the said annual returns of the treasurer shall also contain statements of the number of passengers and the number of tons of goods, produce, merchandise and freight transported by the company hereby created on the Paterson and Hudson River Railroad, and the number of each delivered by this company to any other company, person or persons, to be transported on said Paterson and Hudson River Railroad.

XIII. And be it enacted, That it shall be lawful for the Legislature, at any time hereafter to alter, amend, or modify this Act, whenever in their opinion the public good may require it.

Passed March 10, 1841.

AN ACT respecting the Paterson and Ramapo Railroad Company.

Whereas the Paterson and Ramapo Railroad Company was chartered in March, eighteen hundred and

Exhibit R-15.

forty-one, and on account of the depressed state of the money market, the commissioners have not deemed it expedient to open the subscription books for the stock thereof; and whereas it is proper that the said charter should be continued in existence—therefore,

SEC. 1. Be it enacted by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That the act entitled, "An Act to incorporate the Paterson and Ramapo Railroad Company," passed the tenth day of March, in the year of our Lord, one thousand eight hundred and forty-one, shall not become void if the said railroad shall not be commenced by the fourth day of July next, anything in the seventeenth section of the said act to the contrary, notwithstanding.

Passed Feb. 21, 1843.

AN ACT, respecting "The Paterson and Ramapo Railroad Company," incorporated by an Act passed March 10th, 1841."

Whereas, the subscribers to a majority of the stock of "The Paterson and Ramapo Railroad Company," have represented by their petition, that it is necessary for effecting the objects of the incorporation, that the company should be organized, although the whole capital is not yet subscribed for, and have asked that a law may be passed, authorizing the same—therefore,

SEC. 1. Be it enacted by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same, That the commissioners named in the act incorporating the Paterson and Ramapo Railroad Company," or a majority of them, may call a meeting of the present subscribers for the capital stock of the said company, to choose seven directors, in the same manner that they might do, if all the shares were subscribed for; and that such

Exhibit R-15.

election shall be conducted in all respects as is provided in the charter of the said company.

II. And be it enacted, That this Act shall go into effect immediately after the passage thereof.

Passed February 15, 1844.

A SUPPLEMENT to the Act entitled "An Act to incorporate the Paterson and Ramapo Railroad Company."

SEC. I. Be it enacted by the Council and General Assembly of this State, and it is hereby enacted by the authority of the same. That the twentieth and twenty-second sections of the act to which this is a supplement, shall be so construed as to secure to the State the payment of five cents only for each and every passenger, and of eight cents only for each and every ton of goods, produce, merchandise and freight, carried and transported over said railroad, and that the exemption from taxation contained in the said twenty-second section, shall be construed to extend only to taxes, for the use of the State, anything in the said act to the contrary notwithstanding.

II. And be it enacted, That this Act shall go into effect immediately after the passage thereof.

Passed February 28, 1844.

AN ACT modifying the Charter of the Paterson and Ramapo Railroad Company.

Be it enacted by the Senate and General Assembly of the State of New Jersey, as follows:

SEC. I. It shall be the duty of the Treasurer of the Paterson and Ramapo Railroad Company to pay to the treasurer of this State, annually a tax of one half of one per centum upon their capital stock expended, until the net earnings of the railroad shall amount annually to six per centum upon the cost thereof, and from and after that time a tax of one

Exhibit R-15.

per centum; and that such payments shall be received and taken in full discharge and satisfaction of the transit duties of five cents a passenger, and eight cents a ton, provided for in the twenty-second section of their Act of Incorporation.

II. As soon as the road shall be completed it shall be the duty of the said company to make out a statement, to be verified by the oath or affirmation of the president and treasurer, showing the actual amount of the capital stock expended in the construction thereof, and file the same in the office of the Secretary of State; and it shall be the duty of the treasurer of said company to make to the treasurer of this State an annual statement, under oath or affirmation, at the end of each and every year from the completion of said road, and during the continuance of the charter of the said company, of the amount of the net earnings of the railroad for the next preceding year.

III. The Legislature at any time hereafter, may modify or repeal this act.

Approved, April 1, 1845.

AN ACT to extend the time limited for completing the Paterson and Ramapo Railroad.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That the time of completing the railroad, limited in the seventeenth section of the act entitled, "An Act to Incorporate the Paterson and Ramapo Railroad Company," passed the tenth day of March, eighteen hundred and forty-one, be extended to the period of five years from the fourth day of July next.

Approved, February 5, 1847.

CHAPTER CXCVIII.

AN ACT to enable parties having claims against the New York and Erie Railroad Company, and others, using the Paterson and Hudson River Railroad, and

Exhibit R-15.

the Paterson and Ramapo Railroad, to prosecute for such claims or damages, in the courts of this state, and to legalize the leases or contracts made by the Paterson and Ramapo Railroad Company and the Paterson and Hudson River Railroad Company to the Union Railroad Company.

WHEREAS, the New York and Erie Railroad Company are now in possession of the Paterson and Hudson River Railroad and the Paterson and Ramapo Railroad under certain leases and contracts made by said companies, and are now carrying on the business of said roads under said leases and contracts; and whereas, the New York and Erie Railroad Company being a foreign corporation, and any other corporation or individuals using said roads or either of them, and transacting the business of the same, ought to be liable to actions for damages done in operating said roads as fully as the said companies are by their charters now liable, and to effect that purpose, all doubts as to the authority of said companies to make such leases and contracts ought to be removed; and whereas, all persons having claims for debt or damages of any and every kind ought to be enabled to prosecute said foreign corporation in the courts of this state; therefore,

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That the New York and Erie Railroad Company, and any other corporation or individuals using the aforesaid roads, or either of them, shall be and they are hereby declared liable for all claims for debts, damages, omissions and delinquencies arising from the running or operating said railroads, and carrying freight and passengers on the same, as fully as the said the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company, are now liable by the laws of this state.

Exhibit R-15.

2. And be it enacted, That whenever any action shall be commenced against the said the New York and Erie Railroad Company or any other foreign corporation using said roads, in any of the courts of this state, the first process to be made use of may be a summons or subpoena, a copy whereof shall be served on the president or one or more of the directors, or the superintendent, or on any station agent of said corporation six entire days before its return.

3. And be it enacted, That when the sheriff or other officer shall return such summons or subpoena "served" or "summoned," the defendants shall be considered as appearing in court, and may be proceeded against accordingly.

4. And be it enacted, That the power and authority of the said Paterson and Hudson River Railroad Company, and the Paterson and Ramapo Railroad Company, to make such leases and contracts, is hereby declared and affirmed, and said leases and contracts are hereby declared legal and valid; provided, that said leases and contracts shall not be held to grant any power, privilege or right, not granted to said companies, respectively by their charters, and the supplements thereto.

5. And be it enacted, That the Legislature may at any time alter, amend or repeal this act.

Approved March 14, 1853.

CHAPTER XXI.

AN ACT to authorize the Paterson and Ramapo Railroad Company to issue new bonds.

WHEREAS, the Paterson and Ramapo Railroad Company have heretofore issued their bonds, amounting in the aggregate to one hundred thousand dollars, payable on the first day of November, eighteen hundred and fifty-eight, with coupons attached for half-yearly interest at seven per centum per annum; and

Exhibit R-15.

as security for the payment thereof, the said company executed a mortgage upon their road, property, and franchises, to John I. Palmer, William Samuel Johnson, and Edward Bement, as trustees for the holders of said bonds; which mortgage bears date the sixteenth day of October, eighteen hundred and forty-eight, and is recorded in the clerk's office of the County of Passaic, in Book D of mortgages, pages two hundred and forty-four, &c., and the said company propose to issue new bonds, with like coupons, to the same amount, and to negotiate the same in continuation of the original loan, and in lieu of the said first mentioned bonds, the said mortgage to remain as security for the payment of the said new bonds which may be issued for the purpose aforesaid, therefore,

1. BE IT ENACTED by the Senate and General Assembly of the State of New Jersey, That it shall and may be lawful for "The Paterson and Ramapo Railroad Company" to issue bonds of the said company, to the amount of one hundred thousand dollars, of no less denomination than five hundred dollars, with coupons for the payment of interest half-yearly, for the purposes mentioned in the preamble to this act, payable to the owners or *bona fide* holders thereof, at such times as to them shall appear expedient, and can be agreed upon, not exceeding twenty years from November first, eighteen hundred and fifty-eight, with interest payable half-yearly, not exceeding seven per centum per annum; provided, that the said bonds, or the proceeds thereof, shall be applied only in lieu or redemption of the said bonds heretofore issued by said company.

2. And be it enacted, That the mortgage mentioned in the said preamble shall be and remain a valid and subsisting lien and security upon the road, property, and franchises of the said company, as described in the said mortgage, for the due payment

Exhibit R-15.

of all such bonds as shall be issued by said company by virtue of this act, as fully and completely as if said bonds were recited and referred to therein.

3. And be it enacted, That the bonds so to be issued by the said company may be made convertible into stock at par, by the respective holders thereof, within such time from their date as the company shall designate therein.

Approved February 9, 1858.

LEASE OF ROAD.

THE
PATERSON & RAMAPO RAILROAD COMPANY
TO THE
UNION RAILROAD COMPANY.

THIS INDENTURE, made this ninth day of September, in the year one thousand eight hundred and fifty-two, between the Paterson and Ramapo Railroad Company, of the State of New Jersey, parties of the first part, and the Union Railroad Company, parties of the second part:—

WITNESSETH, that the parties of the first part, for and in consideration of the rents, covenants and agreements hereinafter mentioned, reserved and contained, on the part and behalf of the said parties of the second part, their successors and assigns, to be paid, kept and performed, have granted, bargained and sold, demised and farm letten, and by these presents do grant, bargain and sell, demise and to farm let, unto the parties of the second part, their successors and assigns, all and singular the railroad of the parties of the first part, as it is now constructed and exists, and all the land and real property, forming or connected with, or appurtenant thereto, and all the rails, tracks, bridges, culverts, viaducts, turnouts, switches, fixtures and superstructures of every kind connected therewith, and also all their buildings erec-

Exhibit R-15.

tions, depots, stations, station-houses, offices, factories, shops and edifices on, or adjacent to, or connected with, or appurtenant to the said road, as above described; and all the estate, right, title, interest, possession and demand of the parties of the first part, of, in and to the premises and every and any of them, and every part and parcel thereof; and also, all the rights, privileges, franchises, titles, powers, property, claims and pretensions of the parties of the first part to transport persons, mails and property of every description on said railroad, and to charge, demand, collect, sue for and receive (in the name of the parties of the first part, or otherwise, but for the exclusive benefit of the parties of the second part) money for tolls and for the transportation of persons, mails and merchandise, in as full and ample a manner as the parties of the first part were authorized to do by the laws of the State of New Jersey.

To have and to hold the said above-mentioned and described premises with the appurtenances, unto the parties of the second part, their successors and assigns, from the and including the fifteenth day of September one thousand eight hundred and fifty-two, for and during the existence and continuance of the charter of the parties of the first part, and the legal existence of the said The Paterson and Ramapo Railroad Company, by virtue and in pursuance of the Act of Incorporation of said company: they, the said parties of the second part, their successors and assigns, yielding and paying therefore unto the parties of the first part, and their assigns, yearly and every year during the said term hereby granted, the yearly rent or sum of twenty-six thousand five hundred dollars, in equal semi-annual payments, on the first days of January and July in each and every year.

It is however understood and agreed by and between the parties to these presents, that if the parties of the first part shall desire to alter the above-mentioned

Exhibit R-15.

mode of payment of the said yearly rent of twenty-six thousand five hundred dollars, and shall furnish to the parties of the second part a list of their stockholders and the number of shares belonging to each stockholder respectively, that then the parties of the second part shall pay at a convenient office to be designated, the said rent to the stockholders, dividing the same pro rata, and according to the quantity of stock or number of shares held by each stockholder.

It is further understood and agreed by and between the parties to these presents, that the parties of the first part shall bear and discharge all the taxes that may be imposed on them the parties of the first part, or on their property and estate, by the Legislature of New Jersey, during the continuance of the demise or demises in this instrument made or agreed to be made.

And these presents further witness, that for the considerations above expressed, the parties of the first part further covenant and agree to and with the parties of the second part, their successors and assigns, that in case of a renewal or extension of the charter of the parties of the first part by an Act of the Legislature of New Jersey, or in pursuance of the laws of said State, they the parties of the first part will make and execute to the parties of the second part a new lease and demise of all the property and premises hereinbefore mentioned and referred to, for a term co-extensive in duration with the renewal or extended charter of the parties of the first part, at the same rents and under the same covenants (including a covenant for further renewal) as are contained in these presents: it being however understood and agreed that the parties of the second part are to pay and shall pay to the State of New Jersey all legislative charges for the renewals of such charter: and at the final termination of the demise of the premises to the parties of the second part, either at the close

Exhibit R-15.

of this lease, or of any future renewal lease or leases that may be given, any erections or improvements on the said above-mentioned and demised property, that may be or may have been made by the parties of the second part at their own expense, shall be paid for by the parties of the first part to the parties of the second part, or their assigns, at their appraised and just value.

These presents further witness, that the parties of the second part, for and in consideration of the grants, covenants and agreements herein contained, do covenant and agree to and with the parties of the first part, that they the parties of the second part, will well and truly pay, or cause to be paid, the said yearly rent above reserved, at the times and in the manner above provided; and they further covenant and agree that, during the continuance of the term or terms above granted, or to be granted, they will maintain and keep said railroad in as good repair and condition as it is at the day of the date of these presents; and that they will, at the termination of this demise, or of any future demise, and when their interest in the demised premises shall cease, they will peaceably surrender and yield up said demised premises to the said parties of the first part, their successors and assigns, with said railroad, with its tracks, culverts, bridges, viaducts, ways, turnouts and switches, in as good condition as the same are at the date of these presents, and with the buildings, houses, depots, offices, shops and edifices, in as good a condition, reasonable wear and tear and ordinary decay only excepted, as the same are at the day of the date hereof.

It is further agreed, by and between the parties hereto, that if, at the said termination of this or any future demise, and on the cessation of the interest of the parties of the second part, of, in and to the demised premises, it shall appear that there is any de-

Exhibit R-15.

preciation of the demised premises, by the use or neglect thereof, contrary to the agreement last hereinbefore contained, that the same shall be appraised by three arbitrators, whereof one shall be named by the parties of the first part, and one shall be named by the parties of the second part, and a third shall be selected by the said two arbitrators thus named; and the award of a majority of said three arbitrators of the value or amount of such depreciation, shall be conclusive on the parties to these presents, and shall be paid and discharged by the said parties of the second part; and it is in like manner further agreed by and between the parties to these presents, that if any erections or improvements shall, during the said term hereby demised, or any future term or terms hereafter demised, be made on said demised premises, or appurtenant thereto, the same shall, at the termination of said term or terms, and the cessation of the interest of the parties of the second part, of, in and to the same by the expiration thereof, or other termination thereof, be valued by arbitrators to be appointed in like manner as last above provided, and the award of a majority of such arbitrators shall be conclusive as to the value of said erections and improvements, and the parties of the first part shall pay and discharge the amount so valued, to the parties of the second part or their assigns.

And the party of the second part further covenants and agrees to and with the party of the first part, that during the continuance of the demise, herein made, or of any future demise or demises of the property above-mentioned, the directors and secretary of the party of the first part shall, during their term of office, be entitled to free passes in the trains of the party of the second part, to and from Suffern's station, on the New York and Erie Railroad, to and from Jersey City, or other terminus of the Paterson and Hudson River Railroad, or Hudson River.

Exhibit R-15.

These presents further witness that the parties of the first part, for the considerations aforesaid, covenant and agree, at any time or times hereafter, upon the reasonable request and cost of the parties of the second part, to make and execute such further acts, conveyances, and assurances in the law for the better confirmation of the premises hereby intended to be granted, and the better conveying the same into effect, as by the parties of the second part, or their assigns, or their counsel, learned in the law, shall be reasonably advised, devised or required. And the parties of the first part further covenant and agree, that the parties of the second part, or their assigns, paying the said yearly rent as above provided, and performing the covenants and agreements on their part to be performed, they the parties of the second part, and their assigns, shall and may, at all times during the term hereby granted, and during any future terms hereafter granted, as hereinbefore provided, peaceably and quietly have, hold and enjoy the said demised premises without any manner of let, suit, trouble, or hindrance of, or from the parties of the first part, their successors or assigns, or any person or persons whomsoever.

But it is further agreed, that if during the existence of the lease or leases, made, or to be made, to the parties of the second part, they, the said last named parties, shall make or construct any buildings or additions to the road herein mentioned, whereby additional taxes shall be charged or levied on said road, then the parties of the second part shall bear and discharge additional taxes.

And the parties of the second part do hereby covenant and agree with the parties of the first part, that the said parties of the second part, and their assigns, will keep and maintain and run said railroad and other premises hereby demised in such manner, order and condition, as the said parties of the first part

Exhibit R-15.

are bound to keep, run and maintain the same by the charter of the said parties of the first part, and the statutes supplementary thereto, and that they will indemnify and save harmless the said parties of the first part from all damages to which they may be subject by reason of said road and premises not being so kept, maintained and run.

In testimony whereof the parties to these presents have hereto interchangeably set their respective common seals, and have caused these presents to be attested by their respective presidents and secretaries.

LEASE OF UNION ROAD, AND ASSIGNMENT
OF LEASES OF PATERSON ROAD AND
RAMAPO ROAD.

THE UNION RAILROAD COMPANY
TO THE
NEW YORK AND ERIE RAILROAD COMPANY.

THIS INDENTURE, made this tenth day of September, in the year one thousand eight hundred and fifty-two, between the Union Railroad Company, parties of the first part, and the New York and Erie Railroad Company, parties of the second part.

Exhibit R-15.

WITNESSETH, that the parties of the first part, for and in consideration of the rents, covenants and agreements hereinafter mentioned, reserved and contained, on the part and behalf of the said parties of the second part, their successors and assigns, to be paid, kept and performed, have granted, bargained and sold, demised, and to farm letten and by these presents do grant, bargain and sell, demise, and to farm let, unto the parties of the second part, their successors and assigns, all and singular, the railroad of the parties of the first part, as it is now constructed and exists, and all the land and real property, forming or connected with, or appurtenant thereto, and all the rails, tracks, bridges, culverts, viaducts, turnouts, switches, fixtures and superstructures of every kind or connected therewith; and also all their buildings, erections, depots, stations, station-houses, offices, factories, shops and edifices on, or adjacent to, or connected with, or appurtenant to the said road, as above described; and all the estate, right, title, interest, possession and demand of the parties of the first part of, in and to the premises, and every part and parcel thereof; and also all the rights, privileges, franchises, titles, power, property, claims and pretensions of the parties of the first part to transport persons, mails and property of every description on said railroad, and to charge, demand, collect, sue for and receive (in the name of the parties of the first part, or otherwise, but for the exclusive benefit of the parties of the second part), money for tolls and for the transportation of persons, mails and merchandise in as full and ample a manner as the parties of the first part were authorized to do by the laws of the State of New York, and their articles of association.

To have and to hold the said above-mentioned and described premises, with the appurtenances unto the parties of the second part, their successors and as-

Exhibit R-15.

signs, from and including the fifteenth day of September, one thousand eight hundred and fifty-two, for and during the existence and continuance of the charter of the parties of the first part, and the legal existence of the said the Union Railroad Company; they, the parties of the second part, their successors and assigns, yielding and paying therefor unto the parties of the first part, and their assigns, yearly and every year during said term hereby granted, the yearly rent or sum of three thousand five hundred dollars, in equal semi-annual payments, on the first days of January and July in each and every year.

And whereas the parties of the first part are now the holders and owners of certain demised premises and property subject to certain covenants and reservations by virtue of a certain indenture, bearing date the ninth day of September, one thousand eight hundred and fifty-two, made between the president and directors of the Paterson and Hudson River Railroad Company of the first part, and the Union Railroad Company of the second part, to which last-mentioned indenture, for the contents of the same, reference is hereby made. And whereas, also, the parties of the first part to these presents, are the holders and owners of certain other demised premises and property, subject to certain covenants and reservations, by virtue of certain other indenture, bearing date the ninth day of September, one thousand eight hundred and fifty-two, made between the Paterson and Ramapo Railroad Company of the first part, and the said the Union Railroad Company of the second part, to which last-mentioned indenture reference is hereby made for the contents and provisions of the same.

Now this indenture witnesseth, that for and in consideration of one hundred dollars, the receipt whereof is acknowledged, and also the covenants and agreements in this indenture, contained to be kept, performed and observed on the part of the parties

Exhibit B-15.

of the second part, the parties of the first part have granted, bargained, sold, assigned, transferred and set over, and by these presents do grant, bargain, sell, assign, transfer and set over unto the said parties of the second part the said first-mentioned indenture of lease bearing date the ninth day of September, in the year one thousand eight hundred and fifty-two, made as aforesaid by and between the president and directors of the Paterson and Hudson River Railroad Company and the Union Railroad Company; and also, the secondly above-mentioned indenture bearing date the ninth day of September, one thousand eight hundred and fifty-two, made between the Paterson and Ramapo Railroad Company and the Union Railroad Company, together with all and singular the premises therein mentioned and described, and the buildings thereon, and the property real and personal with the appurtenances in the said two indentures and each of them demised, conveyed and transferred, to have and to hold the same unto the parties of the second part, their successors and assigns, from the date of the date of these presents, for and during all the rest, residue and remainder yet to come of and in the terms respectively mentioned in the said indentures of lease, it being the intention of these presents to convey and vest in the parties of the second part, all the property, real and personal, covenants, agreements, rights, privileges and franchises, which, in and by said two indentures, and each of them, were and have been conveyed, demised, transferred, and vested in the parties of the first part; subject, however, to all the provisions, rents, covenants, conditions and agreements in the said two indentures respectively contained.

And the parties of the second part hereby expressly covenant and agree to and with the parties of the first part, to faithfully keep, observe, execute and perform, and be subject to, all the covenants, agree-

Exhibit R-15.

ments, engagements, conditions and provisions which in and by said two indentures respectively the parties of the first part have agreed and covenanted to keep, observe, perform and execute, and be subject to; and also to save harmless and indemnify the parties of the first part from all damage, costs, charges and expenses of every kind of, from, or arising out of, or caused by the said indentures respectively.

The parties of the second part further covenant to and with the parties of the first part, that they the parties of the second part will faithfully perform the covenants and observe the agreements and conditions to be kept, performed and observed by the grantees in a certain deed wherein one Edward Sullern is grantor, and in and by which deed was conveyed the land on which the Union Railroad is built.

The parties of the first part further covenant and agree to make and execute to the parties of the second part all such further assurances and conveyances to carry into effect and make valid and effectual these presents, as shall by counsel learned in the law be reasonably advised, devised and required.

And further the parties of the first part further covenant and agree to and with the parties of the second part, that they, the parties of the second part, paying the rent and performing the covenants and agreements aforesaid, shall and may at all times during the term and terms hereinbefore mentioned, peaceably and quietly have, hold and enjoy the above devised, and also the above assigned premises without any manner of let, suit, trouble or hindrance of or from the parties of the first part, their successors or assigns, or any other person or persons whomsoever.

COMPANY.**

Deed dated June 14, 1850, recorded July 18, 1851,
Book Q of Deeds, page 323 &c., Passaic County, N. J.

DESCRIPTION.

All that certain strip, tract or parcel of land and premises hereinafter particularly described, situate, lying and being in the Township of Paterson, in the County of Passaic and State of New Jersey, BEGINNING at the North side or line of the farm of the said Morgan G. Colt in or near the Town of Paterson, lately conveyed to him by his Father Roswell L. Colt, Esquire, where the Rail Road of the said party of the second part, running Southerly enters upon said farm and running from thence Southerly the several courses of the said rail road as located and surveyed with a width of sixty six feet to the Southerly side or line of said farm where the said rail road leaves the same being a strip of land parcel of said farm sixty six feet in width over which the said rail road now runs according to the location and survey thereof as deposited in the office of the Secretary of State of New Jersey. The center line of which location and survey, and of the strip of land hereby conveyed, is understood and hereby agreed to be the center line of the track of the said rail road as the rails are now laid and the said strip of land hereby conveyed being and extending thirty three feet each side of said center line. The said strip of land and premises hereby conveyed being necessary and expedient for the objects of the incorporation of the said party of the second part, and being conveyed to them hereby for the purposes of making and maintaining their Rail Road thereon.

AGREEMENT

between

THE WESTERN UNION TELEGRAPH
COMPANY

and

ERIE RAILROAD COMPANY.

THIS AGREEMENT, made and entered into in duplicate this twenty-fifth (25th) day of September, 1907, by and between THE WESTERN UNION TELEGRAPH COMPANY, a corporation of the State of New York, party of the first part, hereinafter designated for convenience as the Telegraph Company; and the ERIE RAILROAD COMPANY, a corporation of the State of New York, party of the second part, hereinafter designated for convenience as the Railroad Company, for itself, and for and in behalf of the Chicago and Erie Railroad Company, the New Jersey and New York Railroad Company, the Erie Terminals Railroad Company, the New York, Susquehanna and Western Railroad Company, Wilkes-Barre and Eastern Railroad Company, and Bath and Hammondsport Railroad Company,

WITNESSETH: That

WHEREAS the Railroad Company now owns, leases or controls certain railroads intended to be covered by this contract in the territory generally described as lying east of Lake Michigan; and

WHEREAS the mileage of said railroads, as the same now is and may hereafter be, from time to time, is and shall be shown in a schedule hereto attached and marked Schedule A; and

WHEREAS the telegraph poles, wires and appurtenances which now are or may hereafter be owned or controlled by the Telegraph Company along said rail-

Exhibit H-21.

road are and shall be shown in a Schedule hereto attached and marked Schedule B; and

WHEREAS the telegraph poles, wires and appurtenances which now are or may hereafter be owned or controlled by the Railroad Company along said railroads are and shall be shown in a schedule hereto attached and marked Schedule C; and

WHEREAS, telegraph lines have heretofore been operated over the railroads of the Railroad Company in accordance with the provisions of contracts named in a schedule hereto attached and marked Schedule D; and

WHEREAS it is desired that an agreement be entered into between the parties hereto covering all railroads and branches or extensions now owned, leased or controlled, and all branches or extensions thereof and all minor railroads hereafter owned, leased or controlled by the Railroad Company in said territory, granting to the Telegraph Company the right to maintain and operate telegraph lines thereon, and providing for the maintenance and operation of the same by the Telegraph Company, all on the terms and conditions herein provided;

NOW THEREFORE, for and in consideration of the mutual covenants of the parties hereto, it is agreed between them as follows:

FIRST. The Railroad Company does hereby, so far as it lawfully may, agree to let, lease and demise and does by these presents let, lease and demise unto the Telegraph Company, its successors and assigns, the right to maintain along said railroads, the said poles, with wires thereon and the instruments, batteries, machinery, tools, loops, insulators, cross-arms, fixtures, and other appurtenances thereto belonging which may now or hereafter be owned or controlled by the Telegraph Company along any and all of the said railroads intended to be covered by this agree-

Exhibit R-21.

ment, as hereinbefore provided, and the same shall be shown in said Schedule B hereto annexed, with the right to erect and maintain on said poles additional wires as hereinafter provided, together with the right to operate and use all of said poles, wires, and other property; and the Railroad Company does hereby agree to let, lease and demise, and does by these presents let, lease and demise unto the Telegraph Company, its successors and assigns, all lines of poles, with the wires thereon, and the instruments, batteries, machinery, tools, loops, insulators, cross-arms, fixtures, and all other appurtenances thereto belonging, now or hereafter owned or controlled by the Railroad Company, along any or all of the said railroads intended to be covered by this agreement, as herein before provided, as shown in said Schedule C hereto annexed; with the right to erect and maintain on said poles additional wires as hereinafter provided; together with the right to operate and use all of said poles, wires, and other property hereby leased, and to enjoy the returns and profits thereof, as fully and effectually as could be done by the Railroad Company;

TO HAVE AND TO HOLD the same unto the Telegraph Company, its successors and assigns, during the continuance of this agreement, and subject to the uses and conditions hereinafter set forth.

It is understood and agreed that the rights and privileges given the Telegraph Company in this agreement are subject to all conditions and reservations affecting the tenure of the Railroad Companies for and in behalf of which this agreement is made, to the Railroads, premises and property in connection with which said rights and privileges are given.

During the continuance of this agreement said poles, wires, and other telegraph property shall be used, maintained, repaired, and renewed as hereinafter provided, and upon the termination of this

Exhibit R-21.

agreement, said poles, wires, and other telegraph property enumerated in the said Schedule C, and hereby leased to the Telegraph Company, or such poles, wires, and other telegraph property as may have been substituted therefor, in the proper repair, maintenance and renewal thereof, shall be returned to the Railroad Company in like good order and repair as when received by the Telegraph Company, and the Telegraph Company shall thereupon remove from said poles such wires and fixtures as it may have thereon.

(Then follow provisions as to taxes, construction and maintenance of wires, poles, and other equipment, &c.)

EIGHTH. The Railroad Company, so far as it lawfully may, hereby grants and agrees to assure to the Telegraph Company the exclusive right to do and conduct commercial or public telegraph business and to construct and maintain telegraph lines, to be operated either by telegraph or telephone instruments, or both (but not for the purpose of doing and conducting commercial or public telephone business), for the term of and subject to the conditions and limitations in this agreement provided, on, along, across and under the line, lands and bridges, and in the premises of the railroad now or hereafter covered by this agreement, and any extensions and branches thereof; and for that purpose the Railroad Company grants to the Telegraph Company during the continuance of this agreement, right of way and entry upon, along, across and under the line, lands and bridges of the railroads now or hereafter covered by this agreement, and any extensions and branches thereof, for the construction, maintenance, operation and use of lines of poles and wires, and underground or otherwise, for the commercial or public business aforesaid, with the right to put up or construct or

Exhibit R-21.

cause to be put up or constructed from time to time, under the supervision of said Joint Superintendent and at the sole cost of the Telegraph Company except as herein otherwise provided, such additional wires and such additional lines of poles and wires and underground or other lines, and to issue revocable licenses for the occasional and limited use of the poles covered by this agreement for such telegraph or telephone wires, as the Telegraph Company may deem expedient, and which may not in the judgment of the Railroad Company interfere with its business and purposes or the operation of its railroads; but no additional or second line of poles shall be placed on said lands or right of way already occupied by one line of poles, without the Railroad Company's consent.

Wherever the Telegraph Company now has two lines of poles on the Railroad Company's lands or right of way, the Telegraph Company shall have the right to keep said two lines on said lands or right of way during the continuance of this agreement.

(Then follow provisions as to liability by the parties for loss or damages &c., patent rights, expenses of operation, &c.)

The provisions of this agreement shall be and continue in force from the first day of October, one thousand nine hundred and seven (1907), until the thirtieth (30th) day of September, one thousand nine hundred and twenty-eight (1928).

(Then follow testimonum clause, names of the parties &c.; then follow schedules of wires referred to in agreement.)

NOTE: The above cost does not include loss of gross revenue sustained during the month of March or April as a result of flood conditions, which was quite heavy, but difficult to arrive at in figures.

EXHIBIT R-47.

ORIGINAL PETITION OF PATERSON.

Paterson, N. J., March 15th, 1913.

To the Board of Public Utilities,
State of New Jersey.

Gentlemen:

The petition of the Board of Finance of the City of Paterson, respectfully shows unto your Honorable Body, that the Erie Railroad Company operates a railroad, running through the City of Paterson, in the County of Passaic, and the State of New Jersey, and entering the said City at the border line of the Township of Acquacknonk, and thence running in a north-westerly direction to about Taylor Street, in the said City, where it assumes a northerly direction, running to about Godwin Street in the said City, where it assumes a northeasterly direction, finally crossing the City line into the Borough of Hawthorne, at the Passaic River.

And your petitioner shows, that in passing through the City the said Railroad crosses a great number of streets and highways at grade, and that such crossings are dangerous to public safety, and that public travel on the streets and highways, crossing are greatly impeded by reason of such crossing.

Exhibit R-47.

Your petitioner further shows that the said Erie Railroad Company operates such Railroad by virtue of lease from two separate Railroad Companies; that it operates the part of such Railroad south of Market Street in the said City by virtue of a lease from the Paterson and Hudson River Railroad Company; and it operates the part of such railroad north of Market Street by virtue of a lease from the Paterson and Ramapo Railroad Company.

That the said Railroad crosses Market Street, one of the principal thoroughfares of Paterson at grade, and that by reason of the great number of engines, passenger and freight trains crossing the said point, travel along said Market Street is greatly impeded and hindered, and that lives of persons compelled to use said street at this point are greatly endangered.

That your petitioners are unable to set forth, whether the right-of-way leased by the said Erie Railroad Company at this point is owned by the Paterson and Hudson River Railroad Company, or by the Paterson and Ramapo Railroad Company, but asserts that the same is owned by one or the other of said Companies.

Your petitioner shows, that upon said Market Street, the Public Service Railway Company operates two lines of street cars, one running east and west on Market Street, over the said crossing, and the other running along Market Street west of the said crossing, and proceeding along another street or highway, known as Park Avenue, to the east of said crossing, which last named street begins at the said crossing and runs to the eastward.

That in the opinion of your petitioners, more pedestrians and vehicles use this crossing than any other crossing in the State of New Jersey, and that by reason thereof, traffic is impeded to a greater extent

Exhibit R-47.

than at any other such crossing within the knowledge of your petitioner.

Your petitioner further shows that the Public Service Electric Company maintains certain lines of wires over this crossing, both under and above said crossing; that the Passaic Water Company maintains certain pipes for the distribution of potable water, under the tracks of the said railroad; the Public Service Gas Company maintains certain pipes for the distribution of gas, under said crossing, and through the said streets.

(2) Your petitioner further shows that said railroad crosses Cedar Street at grade, and that the main line of said railroad at this point is owned by the Paterson and Hudson River Railroad Company, but the Erie Railroad Company owns and operates certain other side tracks at this crossing; said crossing interferes with and impedes very seriously the traffic over the said highway, and that same is extremely dangerous to public safety.

(3) Your petitioner further shows that the said railroad crosses Clay Street at grade, and that the main line of said railroad at this point is owned by the Paterson and Hudson River Railroad Company, but the Erie Railroad Company owns and operates certain tracks at this crossing; said crossing interferes with and impedes very seriously the traffic over said highway, and that same is extremely dangerous to public safety.

(4) Your petitioner further shows, that said railroad crosses Madison Avenue at grade; that the main line tracks at this point are owned by the Paterson and Hudson River Railroad Company; said crossing is extremely dangerous to public safety, and impedes travel on said Madison Avenue.

(5) That the said Erie Railroad Company also crosses Ellison Street in the City of Paterson, and

Exhibit R-47.

that the right-of-way at this point is owned by the Paterson and Ramapo Railroad Company; that no street railway lines use this crossing.

(6) That the said Erie Railroad Company crosses Van Houten Street, in the City of Paterson, and that the right-of-way at this point is owned by the Paterson and Ramapo Railroad Company; that no street car lines use this crossing.

(7) Broadway is crossed by the line of said Railroad Company, and that the right-of-way at this point is owned by the Paterson and Ramapo Railroad Company; that a street railroad is maintained at this point by the Public Service Railway Company, which operates a line east and west of Broadway at this point; that the Passaic Water Company owns a system of water pipes under this crossing; that the Public Service Gas Company owns and operates a system of pipes for the distribution of gas under this crossing; and that the Public Service Electric Company maintains a line of electric wires for supplying current over this crossing and also under same; that the New York Telephone Company also operates a series of conduits, used in and about for its telephone system under this crossing.

(8) That the said Railroad Company also crosses Fair Street in the City of Paterson, and that the right-of-way at this point is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(9) That the said Railroad Company also crosses Hamilton Avenue in the City of Paterson, and that the right-of-way at this point is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(10) That the said Railroad Company also crosses Tyler Street in the City of Paterson, and that the right-of-way at this point is owned by the Paterson

Exhibit R-47.

and Ramapo Railroad Company; that no street car line uses this crossing.

(11) That the said Railroad Company also crosses Governor Street in the City of Paterson, and that the right-of-way is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(12) That the said Railroad Company also crosses Lawrence Street in the City of Paterson, and that the right-of-way is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(13) That the said Railroad Company also crosses Montgomery Street in the City of Paterson, and that the right-of-way is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(14) That the said Railroad Company also crosses Lafayette Street in the City of Paterson, and that the right-of-way is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(15) That the said Railroad Company also crosses Franklin Street at this point in the City of Paterson, and that the right-of-way is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(16) That the said Railroad Company also crosses Keene Street in the City of Paterson, and that the right-of-way is owned by the Paterson and Ramapo Railroad Company; that no street car line uses this crossing.

(17) That the said Railroad Company also crosses Warren Street in the City of Paterson, and that the right-of-way is owned by the Paterson and Rama-

Exhibit R-47.

po Railroad Company; that no street car line uses this crossing.

(18) That the said Railroad Company also crosses River Street at a very acute angle, and that by reason thereof, the same is a very dangerous crossing, and that travel is impeded greatly thereupon. The right-of-way at this point is owned by the Paterson and Ramapo Railroad Company; that a street railway is maintained at this crossing by the Public Service Railroad Company, which operates a line east and west on River Street at this point, and that the Passaic Water Company owns a system of water pipes under this crossing; that the Public Service Gas Company owns and operates a system of pipes for the distribution of gas under this crossing; that the Public Service Electric Company maintains a line of electric wires for supplying electric current over this crossing and also under same; that the New York Telephone Company also operates a series of conduits in and about, for its telephone system under this crossing.

That all the above crossings are dangerous to public safety and greatly impede and interfere with travel over the said streets.

Your petitioner further shows that because of the nearness of these crossings, one to the other, and because of the grades of said streets and the conditions in the vicinity thereof, it is impossible to substitute a crossing not at grade at any one, without changing all of them from grade. When of the said crossings is altered so as to substitute a crossing not at grade, it will be necessary to change all the others, and that the question of the change of the same should be considered at one time, so that whatever change is made in one crossing, should be considered with reference to changes made at each of the others.

Your petitioner therefore prays that your Honorable Board shall fix a time and a place for a hearing before it, to determine what changes or alterations

Exhibit R-47.

should be made at the above named crossings, and requests that an order be made, directing the said Railroad Company to make such alterations that the said Railroad shall no longer cross the public streets or highways at grade, and your petitioner will therefore pray, etc.

Exhibit R-50.

EXHIBIT R-50.

THIS AGREEMENT, made in duplicate this Eighth day of July in the year one thousand nine hundred and Twelve by and between Erie Railroad Company (hereinafter called the Railroad Company) of the first part, and Leslie Elliott & Company, a co-partnership consisting of David Leslie and William Elliott, Jr., (hereinafter called the Shipper),

WITNESSETH

THAT, WHEREAS the shipper desires the construction of side-tracks, about 881 feet long, near Paterson in the County of Passaic and State of New Jersey which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side-tracks about 881 feet in length, extending from a point of connection in the west bound main track. Said point of connection being 259 feet south or east along south rail of the west bound track from a point where said south rail intersects with the south or easterly line of Iowa Avenue, continued across the said south rail, thence extending in an easterly direction and parallel to the west bound main track 418 feet; thence beginning at a point of connection 208 feet from the switch point of the first described side track and extending in a north or westerly direction 463 feet, in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said sidetrack

Exhibit R-50.

which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction of said side-tracks, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Four thousand five hundred and thirty seven and 10/100 (\$4537.10) dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side-track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Exhibit R-50.

Sixth: That portion of said side-tracks located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-tracks located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-tracks and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side-tracks involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-tracks, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employee; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said

Exhibit R-50.

side-tracks, or the cars standing thereon, providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side-tracks.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-tracks.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-51.

THIS AGREEMENT, made in duplicate this fourteenth day of September in the year one thousand, nine hundred and twelve, by and between the ERIE RAILROAD COMPANY (hereinafter called the Railroad Company) of the first part, and the Commercial Lumber & Millwork Company, a Corporation, existing under, and by virtue of the Laws of the State of New Jersey (hereinafter called the shipper) of the second part,

WITNESSETH:

THAT, WHEREAS, the Railroad Company has constructed, owns and is now operating a side track about 306 feet long, near Paterson, in the County of Passaic, and State of New Jersey.

THAT, WHEREAS, the shipper desires the construction of an extension to said side track of about 35 feet, which side track extension the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side track extension about thirty five (35) feet in length, extending in a southerly direction from the end of the existing side track, in substantially the location and position shown by the red lines upon the plan hereto attached and made a part hereof,—said existing side track being shown in yellow lines.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side track and extension, which shall be located outside of the lands of the Railroad Company, including such con-

Exhibit R-51.

sents and permits as may be necessary for the construction and operation of said side track and extension over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side track and extension, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction of said side track extension, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of one hundred fifty one and 32/100 (\$151.32) dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track, and extension thereto, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side track, or nearer than seven feet to the nearest rail of said side track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Exhibit R-51.

Sixth: That portion of said side track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side track, and without unnecessary damage to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side track and extension involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side track and extension, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employes, or by any other cause; and all risk of injury to the persons of or of death of its officers or members, or of any of its employes, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employes; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the

Exhibit R-51.

government of its employes while on or about said side track, or the cars standing thereon, providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side track extension.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days previous notice in writing of such cancellation and termination, but, until so canceled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

Exhibit R-52.

EXHIBIT R-52.

THIS AGREEMENT, made in duplicate this twentieth day of October in the year 1905, by and between the Erie Railroad Company, hereinafter called the "Railroad Company," party of the first part, and the David G. Rogers Company, of Paterson, New Jersey, hereinafter called the party of the second part.

WITNESSETH:

THAT WHEREAS, The party of the second part has requested the Railroad Company to construct a certain side track, which shall connect the road and tracks of the Railroad Company with the premises of the party of the second part, and

WHEREAS, The Railroad Company is willing to construct said side track as hereinafter provided.

NOW THEREFORE, in consideration of the premises and of the mutual covenants and agreements hereinafter stated, it is agreed as follows:

First: The Railroad Company agrees to construct a side track 215 feet long, as shown by the parallel red lines on the map hereto attached and hereby made a part of this agreement.

Second: The party of the second part agrees to procure all consents and permits from the local authorities and from the property owners and others, which shall be necessary for the construction of said side track and the operation of cars and engines there free from all claim for injury to property or otherwise, and hereby gives to the Railroad Company, its successors and assigns the right to enter upon the premises of the party of the second part for the purpose of constructing that portion of said side track, which shall be located outside the lands and right of way of the Railroad Company and for the removal of the materials thereof as herein provided.

Exhibit R-52.

Third: The party of the second part will, at its own proper cost and expense do all the grading as directed by the Railroad Company, furnish the cross and switch ties, rails, frogs, switches, splices, spikes, bolts, guard rails, switch points and switch stands delivered on the site of said side track and pay for all labor required in the construction of said side track.

Fourth: The Railroad Company hereby agrees to keep the siding in such repair as it may deem necessary for the safe transaction of business and the party of the second part agrees to pay to the party of the first part on demand, the actual market value of the material furnished for the repairs, based on the cost of the material, the labor in handling and in transportation to the siding, the Railroad Company to determine what repairs are necessary to the siding.

Fifth: The said party of the second part will not erect or cause to be erected any platform, shed or other structure along or over said side track without leaving sufficient clearance for the cars and engines of the Railroad Company, and without the written approval of the said Railroad Company of the plans and specifications of such structure.

Sixth: That all materials, namely: rails, frogs, switches, splices, bolts, guard rails, switch points and switch stands furnished by the David G. Rogers Company in the construction of said side track, may be removed by the said Company, its successors and assigns at any time, the party of the first having no claim whatever upon such material, either in law or in equity, nor will it at any time make claim thereto, but the same is the sole and exclusive property of the said David G. Rogers Company and not a fixture appurtenant to the land.

Seventh: The party of the second part assumes all risk of injury to the person of its officers, or of

Exhibit R-52.

any of its employes, and all loss of or damage to its property by fire, or otherwise, occasioned by, arising out of, or connected with the construction, maintenance or operation of said side track, whether caused by negligence of the said Railroad Company, its servants, agents, employes or otherwise, and hereby releases said Railroad Company, its successors and assigns from all claims for such loss or damage to property and for injuries to the persons of its officers, or of any of its employes and agrees to indemnify and save harmless said Railroad Company, its successors and assigns from all claim for such loss, damage or injury as aforesaid.

Eighth: The party of the second part further agrees to promulgate and enforce proper and suitable rules for the government of its employes, who may be working on or around said side track and the cars standing thereon, to the that when so at work, notice may be given to the employes of the Railroad Company and the danger of accidents thereby reduced.

Ninth: This agreement shall carry to and be binding upon the successors and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year first above written.

ERIE RAILROAD COMPANY,

By F. D. UNDERWOOD.

CRAIG GRAVES.

As to the party of the first part

DAVID G. ROGERS COMPANY,

By DAVID G. ROGERS,

Pres.

As to the party of the second part.

EXHIBIT R-53.

THIS AGREEMENT, made in duplicate this twenty-fifth day of June, in the year one thousand nine hundred and seven by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company) of the first part, and P. S. VAN KIRK COMPANY, a corporation, organized under the laws of New Jersey (hereinafter called the Shipper), of the second part,

WITNESSETH:

THAT, WHEREAS, the Railroad Company has heretofore constructed and is now operating for the Shipper at Paterson, in the County of Passaic and State of New Jersey, a side track, beginning at a point of connection with the Railroad Company's west bound main track near Montgomery Street and extending therefrom in a curve to the north and east across Lawrence Street, a distance of about five hundred eighty-seven (587) feet, substantially as indicated on the plan hereto attached, which side track is the property of the Railroad Company; and

WHEREAS, The Shipper desires the construction of an additional side track in connection with the side track above described, which additional side track the Railroad Company is willing to construct upon the conditions hereinafter set forth; and it is further desired that the ownership, maintenance and operation of both said side tracks shall be covered by this agreement.

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said additional side track about three hundred (300) feet in length, beginning at a point of connection with the existing

Exhibit R-53.

side track above described at a point near Lawrence Street and extending therefrom across said Lawrence Street to the coal pockets of the Shipper, in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same, and to remove therefrom the materials in said side track, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, other than rails and fastenings, and the cost of all the labor used in the construction of said side track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Four hundred ninety-two and 94/100 (\$492.94) Dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and value of all materials, other than rails or fastenings used in repairing or maintaining said side tracks such value being based upon the cost of such materials

Exhibit B-53.

and the labor in handling and transporting the same to said side tracks.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side tracks or nearer than six feet to the nearest rail thereof, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side tracks located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of those portions of said side tracks located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side tracks and, without unnecessary injury to said premises, to remove therefrom the materials furnished and owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side tracks involves a risk of injury to persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side tracks, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such

Exhibit R-33.

injuries are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage or injury so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side tracks, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side tracks.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination, but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, successors and assigns, respectively.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-54.

THIS AGREEMENT, made in duplicate this 29th day of January, in the year one thousand nine hundred and nine, by and between Erie Railroad Company, (hereinafter called the Railroad Company), of the first part, and A. H. Smith, of Paterson N. J., (hereinafter called the Shipper), of the second part,

WITNESSETH :

THAT, WHEREAS the Shipper desires the construction of a side track, about 350 feet long, near River Street, Paterson, in the County of Passaic and State of New Jersey, which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side-tracks about 350 feet in length, extending from a point of connection in the siding located between Keene and Lafayette Streets in the City of Paterson and extending to the property of the Shipper, in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove

Exhibit R-54.

therefrom the materials in said side-track, as herein-after provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, other than rails and fastenings, and the cost of all the labor used in the construction of said side-track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Seven Hundred Seventy-Six Dollars and Ten Cents (\$776.10), which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials, other than rails and fastenings, used in repairing or maintaining said side-track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than six feet to the nearest rail of said side-track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side track located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and

Exhibit R-54.

remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement the Railroad Company shall have the right to enter upon the premises occupied by said side-track, without unnecessary injury to said premises to remove therefrom the materials furnished and owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side-track involves a risk of injury to persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage or injury so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least sixty days' previous notice in writing of such can-

Exhibit R-55.

cellation and termination, whenever it becomes necessary to change or to abandon said side-track on account of any changes in the grade of the street, crossed by said side-track or on account of any changes or improvements that the Railroad Company may make in its said railroad, but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, successors and assigns respectively.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-55.

THIS AGREEMENT, made in duplicate, this day of February 21st, in the year 1906, by and between the Erie Railroad Company, hereinbefore called the Railroad Company, party of the first part, and the Armstrong Sons Company, of Paterson, New Jersey, hereinafter called the party of the second part,

WITNESSETH:

THAT WHEREAS, the party of the second part has requested the Railroad Company to relocate a certain side track, which shall connect the railroad and tracks of the Railroad Company with the premises

Exhibit R-55.

and coal trestle of the party of the second part, at Paterson, New Jersey, and,

WHEREAS, the Railroad Company is willing to relocate said side track as hereinafter provided:

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements hereinafter stated it is agreed as follows:

First: The Railroad Company agrees to relocate a side track 250 feet long in substantially the location as shown by parallel red lines on the map hereto attached and hereby made a part of this agreement, said side tracks to be and remain the property of the Railroad Company.

Second: The party of the second part agrees to procure all consents and permits from the local authorities and from the property owners and others which shall be necessary for the relocation of said side track and the operation of cars and engines thereon free from all claim for injury to property or otherwise, and hereby gives to the Railroad Company, its successors and assigns the right to enter upon the premises of the party of the second part for the purpose of constructing that portion of said side track which shall be located outside the lands and right of way of said Railroad Company and for the removal of the materials thereof, as herein provided:

Third: The party of the second part will at its own proper cost and expense do all the grading as directed by the Railroad Company and pay for all labor required in the relocation of said side track. The party of the second part will at its own proper cost and expense erect, in accordance with the specifications and subject to the approval of the Railroad Company, a coal trestle 190 ft. in length.

Fourth: The Railroad Company agrees to keep the siding in such repair as it may deem necessary for the safe transaction of business and the party of the second part agrees to pay to the party of the first

Exhibit R-55.

part, on demand the actual market value of the material furnished for the repairs, based on the cost of the material, the labor in handling, and in transportation to the siding, the Railroad Company to determine what repairs are necessary to the siding.

Fifth: The party of the part agrees to keep the coal trestle above mentioned in good repair, necessary for the safe transaction of business, the Railroad Company to determine what repairs are necessary for such safe transaction of business and the operation of cars over said trestle.

Sixth: The said party of the second part will not erect or cause to be erected, any platform, shed or other structure along or over said side track, without leaving sufficient clearance for the cars and engines of the Railroad Company and without the written approval of the said Railroad Company of the plans and specifications of such structure.

Seventh: That all materials, namely: rails, frogs, switches, splices, spikes, bolts, guard rails, switch points and switch stands furnished by the Railroad Company in the construction of said side track, may be removed by the said Railroad Company, its successors or assigns, at any time, the party of the second part having no claim whatever upon such material, either in law or in equity, nor will it, at any time, make claim thereto, but the same is the sole and exclusive property of the Railroad Company and not a fixture appurtenant to the land.

Eighth: The party of the second part assumes all risk of injury to the persons of its officers, or of any of its employes and all loss of or damage to its property by fire, occasioned by, arising out of, or connected with the construction, maintenance or operation of said side track, whether caused by negligence of the said Railroad Company, its servants, agents, employes or otherwise and hereby releases said Railroad Company, its successors and assigns from all

Exhibit R-55.

claim for such loss of, or damage to property and for injuries to the persons of its officers, or of any of its employes and agrees to indemnify and save harmless said Railroad Company, its successors and assigns from all claim for such loss, damage or injury as aforesaid.

Ninth: The party of the second part further agrees to promulgate and enforce proper and suitable rules for the government of their employes, who may be working on or around said side track, and the cars standing thereon to the end, that when so at work, notice thereof may be given to the employes of the Railroad Company and the danger of accidents thereby reduced.

Tenth: This agreement shall carry to and be binding upon the successors and assigns of the respective parties hereto.

Eleventh: The party of the second part hereby expressly agree to vacate, at any time; upon sixty days' written notice by the Railroad Company, that portion of the lands of the Railroad Company occupied by the trestle of the party of the second part, the same being enclosed by yellow lines on the map hereto attached.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed, the day and year first above written.

EXHIBIT R-56.

THIS AGREEMENT, made in duplicate this 21st day of August in the year one thousand nine hundred and eleven by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company), of the first part, and the Public Service Gas Company, a corporation duly organized and existing under and by virtue of the laws of the State of New Jersey with office at Paterson, N. J. (hereinafter called the Shipper), of the second part,

WITNESSETH:

THAT, WHEREAS, the shipper desires the construction of a side-track, about 411 feet long, near Paterson in the County of Passaic and State of New Jersey which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side-track about 411 feet in length, extending from a point of connection in the present siding, said point being opposite the westerly end of the present freight house and extending in a southwesterly direction four hundred and eleven (411) feet, in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Com-

Exhibit R-56.

pany the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction of said side-track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of one thousand seven hundred and twenty-nine and 54/100 dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side-track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the

Exhibit R-56.

lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed *fixtures appurtenant* to the land.

Seventh: It is understood that the movement of cars and engines over said side-track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least

Exhibit R-56.

ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

Tenth: To permit the construction of said side track it is necessary to relocate the present siding, placing the switch points or connection fifteen (15) feet easterly of the present location, which side track is covered by agreement dated May 23rd, 1907; the present location being shown in broken white lines, and the proposed relocation being shown in broken red lines on said plan. It is understood that the Shipper will pay the cost of such relocation and that such cost is covered by paragraph "Third" hereof.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

*Exhibit R-57.***EXHIBIT R-57.**

THIS AGREEMENT, made in duplicate this 23rd day of May, in the year one thousand nine hundred and seven, by and between the **ERIE RAILROAD COMPANY**, (hereinafter called the "Railroad Company") of the first part, and **PUBLIC SERVICE CORPORATION OF NEW JERSEY**, a corporation of the State of New Jersey, (hereinafter called the "Shipper") of the second part,

WITNESSETH:

THAT WHEREAS, the Railroad Company is now operating for the Shipper at River Street in the City of Paterson, County of Passaic, State of New Jersey a side track beginning at a point of connection with the Railroad Company's existing siding opposite the northerly side of Lyon Street and extending therefrom in a curve to the south and west a distance of about six hundred (600) feet, which side track is the property of the Railroad Company, and

WHEREAS, the Shipper desires that the location of the aforesaid siding be changed and an extension thereto about nineteen and one-half (19½) feet in length be constructed all substantially as indicated on the blue print hereto attached, and

WHEREAS, the Railroad Company is willing to make the change in location of said side track and to construct the extension thereto as aforesaid on the conditions hereinafter set forth, and it is further desired that the ownership, maintenance and operation of said side track as relocated and extended be covered by this agreement.

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

Exhibit R-57.

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials, and perform the work of changing the location of the existing siding from the location and position shown by the parallel broken white lines to that indicated by the parallel broken red lines on the plan hereto attached and hereby made a part hereof, and of constructing the extension to said side track as relocated about nineteen and one-half ($19\frac{1}{2}$) feet in length.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side track as hereinafter provided.

Third: The Shipper agrees to pay the cost of grading and of all materials other than metal materials, and the cost of all labor used in the relocation of said side track and the construction of the extension thereto, together with the usual percentages added for superintendence and use of tools, and upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Three hundred and seventy-five dollars and ninety-two cents (\$372.92) which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall pay to the Shipper the difference, and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Exhibit R-57.

Fourth: The Shipper shall pay to the Railroad Company promptly the cost of all labor and the value of all materials other than metal material, used in repairing or maintaining said side track constructed as hereinbefore provided, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Fifth: The Shipper shall, at its own cost and expense, construct the trestle upon which the latter portion of said side track as relocated and extended (about 180 feet in length) is to be constructed, subject to the approval as to plan and construction of the Engineer of the Railroad Company, and shall maintain said trestle in such condition as the Railroad Company shall deem necessary for the safe operation of cars and engines thereon.

Sixth: The Shipper shall not erect or allow to be erected any platform, shed or other structure over said side track or nearer than six feet to the nearest rail thereof, without the written approval of the Railroad Company of the plans and specifications therefor in order that sufficient clearance may be left for the cars of the Railroad Company.

Seventh: That portion of said side track located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side track, and without unnecessary injury to said premises, to remove therefrom the materials owned and furnished by it, which said materials shall not be deemed fixtures appurtenant to the land.

Exhibit R-57.

Eighth: It is understood that the movements of cars and engines over said side track involves a risk of injury to persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of, or damage to its property, occasioned by, or arising out of, the construction and maintenance of said side track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents, or employes, or by other cause, and all risk of injury to persons of its officers, or members, or of any of its employes, occasioned by, or arising out of such construction, maintenance and operation, unless such injuries are shown to have been caused solely by the negligence of the Railroad Company, its agents or employes; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage or injury so assumed by it, and from all costs and expenses connected therewith.

Ninth: The Shipper further agrees to promulgate and enforce rules for the government of its employes while on or about said side track, or the cars standing thereon, providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side track.

Tenth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination, but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their successors and assigns, respectively.

Exhibit R-58.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year above written.

EXHIBIT R-58.

THIS AGREEMENT, made in duplicate this 9th day of October, in the year one thousand nine hundred and twelve, by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company of the first part), and Swift & Company, a corporation of the State of New Jersey, (hereinafter called the Shipper), of the second part,

WITNESSETH:

THAT, WHEREAS the Shipper desires the construction of a side-track, about 395 feet long, near Pater-son in the County of Passaic and State of New Jersey which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained it is agreed as follows:

First: The Railroad Company agrees upon, the terms hereinafter mentioned to furnish the necessary

Exhibit R-58.

labor and materials and construct that portion of said side-track about 152 feet in length, extending from a point of connection in present siding, said point being 430 feet north of the northerly end of River Street freight house and extending in a south westerly direction to the right of way line of said Railroad Company in substantially the location and position as shown by red lines upon the plan attached hereto and made a part hereof. The Shipper to furnish the necessary labor and material and construct that portion of said side track about 243' in length extending from right of way line of Railroad Company in a south westerly direction across Wait Street and onto the property of the Shipper in substantially the location and position as shown by the yellow lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Third: The Shipper agrees to construct at its entire expense that portion of the track outside of the right of way of the Railroad Company. The Railroad Company will construct at its expense that portion of the track from the switch point to its right of way line.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said portion of the said side track outside of the right of way of the Railroad Company, such value being based

Exhibit R-58.

upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side-track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said sidetrack, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employes, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employes, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the

Exhibit R-58.

Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

Exhibit R-59.

EXHIBIT R-59.

THIS AGREEMENT made in duplicate this 26th day of February in the year one thousand nine hundred and eight, by and between **ERIE RAILROAD COMPANY** (hereinafter called the "Railroad Company") of the first part, and **THE ASHLEY AND BAILEY COMPANY**, a corporation of the State of New Jersey (hereinafter called the "Shipper") of the second part.

WITNESSETH

THAT WHEREAS, the Shipper desires the construction of a side-track, about 486 feet long, and a trestle about 150 feet long under a portion of said side track, near Paterson, in the County of Passaic and State of New Jersey, which side track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and material and construct said side track about 486 feet in length extending southerly from a siding at Wood Street to the property of the Shipper, in substantially the location and position as shown by the parallel solid red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to re-

Exhibit R-59.

move therefrom the materials in said side track, as hereinafter provided

Third. The Shipper agrees to pay the cost of the grading and of all materials and the cost of all the labor used in the construction of said side track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of fourteen hundred eight dollars and seventy eight cents (\$1408.78) which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side track, or nearer than six feet to the nearest rail of said side track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side track located upon the lands of the Railroad Company shall be and remain under its exclusive control, but all materials used in the construction and maintenance of the whole side track shall be and remain the property of the shipper. Upon the termination of this agreement

Exhibit R-59.

and upon payment to the Railroad Company of the cost of such removal the Railroad Company shall remove from that portion of said side track located upon the lands of the Railroad Company the materials furnished and owned by the Shipper, and deliver the same to the Shipper.

Seventh: The Shipper further agrees to build before said side track is constructed, and thereafter maintain at its own expense, a trestle 150 feet long under a portion of the said side track in substantially the location indicated by yellow lines on the said plan hereto annexed and in accordance with the plans and specifications of the Railroad Company, and agrees to repair at its own expense said trestle whenever such repairs are deemed necessary by the Railroad Company.

Eighth: It is understood that the movement of cars and engines over said side track and trestle involves a risk of injury to persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side track and trestle, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage or injury so assumed by it, and from all costs and expenses connected therewith.

Ninth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the govern-

Exhibit R-60.

ment of its employes while on or about said side track and trestle, or the cars standing thereon, providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side track.

Tenth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, successors and assigns, respectively.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

THIS AGREEMENT, made in duplicate this 20th day of December in the year one thousand nine hundred and eleven by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company), of the first part, and NATIONAL SILK DYEING COMPANY, a corporation of the State of New Jersey, (hereinafter called the Shipper), of the second part,

WITNESSETH

THAT WHEREAS, the Shipper desires the construction of a side-track, about 600 feet long, and a 182

Exhibit R-60.

feet extension to an existing side track near Paterson in the County of Passaic and State of New Jersey which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side-track about 600 feet in length, extending from a point of connection in the present side track as relocated, said point being 152 ft. from the switch point of the present side track in its relocated position and extending in a southwesterly direction six hundred (600) feet, and to relocate and extend said present side track from the position shown in broken white lines to that shown in broken red and solid red lines on the plan attached, said side tracks as relocated and constructed being in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction, relocation and extension of said side-track, together with the usual percentages added for superintendence and use of tools,

Exhibit R-60.

and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Two Thousand Eight Hundred Fifty-seven 50/100 (Letter of Jan. 30/12) dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side-track, six hundred feet in length, of which about 103 feet is located on the right of way of the Railroad Company and about 497 feet located outside the right of way of the Railroad Company, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the ter-

Exhibit R-60.

mination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side-track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the

Exhibit R-61.

respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessors, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-61.

THIS AGREEMENT made in duplicate this 20th day of June, 1905, by and between the ERIE RAILROAD COMPANY, hereinafter called the "Railroad Company," party of the first part, and the WEIDMAN SILK DYEING COMPANY, a corporation duly organized under the laws of the State of New Jersey, having its principal office at Paterson, N. J., hereinafter called the "Weidman Company," party of the second part,

WITNESSETH:

WHEREAS, The party of the first part operates a line of railroad extending through the City of Paterson, N. J., and said Weidman Company desires to construct a subway or tunnel across the right of way

Exhibit R-61.

and underneath the tracks of said Railroad Company to connect its buildings upon either side thereof, which said Railroad Company is willing to have done upon the terms and conditions hereinafter provided.

Now THEREFORE, in consideration of the premises and the covenants and conditions hereinafter contained and of the sum of One Dollar (\$1.00) paid by said Weidman Company to said Railroad Company, the receipt whereof is hereby acknowledged, said Railroad Company hereby consents that said Weidman Company may construct and operate its subway or tunnel across the right of way and lands and under the tracks of the said Railroad Company, in the location and manner and in accordance with the dimensions as shown more particularly on the maps and plans attached hereto and which are hereby made a part of this agreement, subject to the following conditions, which said Weidman Company hereby agrees to keep and perform.

First: The subway shall be constructed of concrete so laid that the top of the structure shall be no less than two feet six inches below the base of the lowest rail of the Railroad Company's present tracks, and in a manner satisfactory to and under the supervision of the Chief Engineer of said Railroad Company and for that purpose said engineer may employ a competent inspector, whose wages shall be paid by the Weidman Company upon the presentation of bills by the Railroad Company. Said subway shall be so constructed and maintained as not to interfere with said Railroad or with the transaction of the business of the Railroad Company, its successors or assigns, and at the sole cost and expense of the Weidman Company.

Second: The work of temporarily supporting the tracks and structures of the said Railroad Company, during the construction of the subway, shall be done

Exhibit R-61.

by the Railroad Company in such manner as shall be deemed safe and necessary to the transaction of the Railroad Company's business in the opinion of the Chief Engineer, or his inspector and the labor and material required in such work shall be paid for by the Weidman Company upon the presentation of a bill by the Railroad Company.

Third: The subway shall be maintained in safe condition and repair by the Weidman Company, its successors and assigns, at its sole cost and expense and the repairs or work necessary to the safe and sufficient maintenance thereof, shall be at all times determined by the Chief Engineer of the Railroad Company.

Fourth: The Weidman Company hereby assumes all risk of loss, damage or injury to persons or property occasioned by, arising out of, or in any way connected with the construction, operation or maintenance of said subway and the Weidman Company agrees hereby to indemnify and save harmless the said Railroad Company, its successors and assigns from all loss, damage or injury and from all claims for such injury and that if any such loss, damage or injury shall occur to the tracks, property or employes of the Railroad Company, either in the course of construction or by bursting or breaking of said subway, or afterward occur by reason of the existence of said subway, the said Weidman Company will pay the cost upon demand.

Fifth: It is further agreed and understood that in case the Railroad Company shall at any time during the continuance of this agreement, construct any additional tracks or other structures over or near said subway or change the grade of its present or future tracks said Weidman Company shall at its sole cost and expense make all necessary corresponding changes in said subway or tunnel, or if deemed neces-

Exhibit R-61.

sary by said Railroad Company, shall remove same entirely and in event of such change of conditions the provisions of the agreement shall apply in like manner after the construction of such additional tracks, structures or changes as at present and said subway shall be protected and made safe to the Railroad Company as hereinbefore described at the sole cost and expense of said Weidman Company, upon demand of the Railroad Company.

Sixth: It is further understood and agreed that upon or in the event of the removal of said subway, which removal shall be done under the supervision of the Chief Engineer of the Railroad Company at the sole cost and expense of the said Weidman Company, said Weidman Company shall restore the tracks, structures and premises of the said Railroad to such condition as shall be satisfactory to the Chief Engineer of said Railroad Company and if said Weidman Company will not restore the property of the Railroad Company as aforesaid, the Railroad Company may restore the same and charge the cost and expense to the Weidman Company, which the latter agrees hereby to pay on presentation of a bill therefor, and all rights herein granted shall cease and determine upon the removal of said subway.

Seventh: It is further understood and agreed that no vested right in said premises is hereby granted or conveyed and that the privileges hereby given are subject to any and all conditions, restrictions, and reservations upon or under which said Railroad Company holds said premises.

Eighth: The right, privileges, duties and obligations of the parties hereto under this agreement shall carry to and be binding upon the successors and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties hereto have caused the signatures of their presidents and their re-

Exhibit R-62.

spective seals to be hereto affixed duly attested by their respective secretaries the day and year first above written.

EXHIBIT R-62.

THIS AGREEMENT, made in duplicate this twelfth day of July in the year one thousand nine hundred and eleven, by and between the ERIE RAILROAD COMPANY (hereinafter called the Railroad Company) of the first part, and the WEIDMANN SILK DYEING COMPANY, a corporation organized and existing under and by virtue of the laws of the State of New Jersey, with office at Paterson, N. J. (hereinafter called the shipper) of the second part.

WITNESSETH:

THAT, WHEREAS, the Railroad Company has constructed and is now operating a side track six hundred twenty nine (629) feet in length for the accommodation of said shipper, at Fifth Avenue, in the City of Paterson, County of Passaic and State of New Jersey, and

WHEREAS, the shipper owns the rail and fastenings off the right of way of the Railroad Company, a distance of four hundred twenty nine (429) feet of said

side track, which said side track is covered by agreement dated May 11th, 1910, and which said agreement shall hereby be annulled and made void; and

WHEREAS, the shipper desires the relocation of said side track placing it entirely on the lands of the Railroad Company, beginning at a point approximately two hundred (200) feet easterly from the southerly street line of Fifth Avenue and extending in a westerly direction along and parallel with the east bound main track of the Railroad Company and thirteen (13) feet therefrom a distance of six hundred (600) feet, as shown in dashed red on the plan attached hereto and made a part hereof, and

WHEREAS: the shipper desires the construction of a coal hopper underneath said side track as relocated, said hopper to be located one hundred forty (140) feet westerly of the northerly street line of Fifth Avenue, in substantially the location and position as shown by solid red on said plan. Railroad Company agrees to relocate said side track and permit construction of said hopper upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The shipper agrees to furnish the necessary consents and permits as may be required for the relocation, construction and operation of said side track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side track as hereinafter provided.

Second: The shipper agrees to pay the cost of all materials and the cost of all labor used in relocating said side track and the westerly end of crossover connecting the east bound main track with said side track, also the cost of all material and the cost of all

Exhibit R-62.

labor used in changing the location of the crossing gates on the northwesterly side of the railroad at Fifth Avenue crossing, together with the usual percentages added for superintendence and use of tools and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Eight Hundred Sixteen Dollars and seventy five cents (\$816.75) which it is estimated will cover the expense to be borne by the shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the shipper the difference; and if such expense exceeds the sum so advanced, the shipper will pay to the Railroad Company the amount of such excess upon receipt of proper bill or voucher therefor.

Third: The shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Fourth: The shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side track, or nearer than nine feet to the center line of said side track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Fifth: That portion of said side track located upon the lands of the Railroad Company shall be and remain the property of the Railroad Company and under its exclusive control, and upon the termination of this agreement the Railroad Company shall have the right to remove therefrom the materials herein.

Sixth: The Railroad Company agrees upon the terms hereinafter mentioned to allow the shipper to construct and maintain, during the continuance of

Exhibit R-62.

this agreement, said coal hopper upon its right of way under said side track, in substantially the location as shown on said plan.

Seventh: The shipper agrees to furnish the necessary labor and materials and construct said coal hopper in good and workmanlike manner to the satisfaction of the Superintendent or other proper officer of the Railroad Company.

Eighth: The shipper further agrees to cover said hopper with a suitable trap door, and shall, at its own expense, keep said hopper and trap door in good condition and repair, all to the satisfaction and acceptance of the Superintendent, or other proper officer of the Railroad Company, and further assumes as its own the obligation to keep said hopper and the door thereof closed and locked at all times when not in use for the purpose of unloading coal, and assumes all risk of damage or injury sustained by the parties hereto, or any other person, caused by the non-compliance with this provision.

Ninth: The shipper further agrees to pay the cost of such further safety appliances as the Railroad Company may at any time deem necessary to be installed by it in connection with said hopper.

Tenth: It is understood that the movement of cars and engines over said side track and hopper involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the shipper hereby assumes all risk of loss of or damage to its property, occasioned by or arising out of the construction or maintenance of said side track and hopper, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents, or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction,

Exhibit R-62.

maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employes; and said shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eleventh: The shipper hereby assumes all risk of loss, damage, injury or death, by fire or otherwise, to persons or property on or about said coal hopper, and all risk of loss by fire to property of said shipper or in which he may be interested on any neighboring premises owned or occupied by said shipper, to which fire shall be communicated from said hopper, or the operation, maintenance or existence of the Railroad operated by the Railroad Company, and agrees to indemnify and save harmless said Railroad Company from all claims for any and all such loss, damage or injury whether caused by the negligence of the Railroad Company, its agents, servants or employes or otherwise.

Twelfth: The shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employes while on or about said side track and hopper, or the cars standing thereon providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side track.

Thirteenth: This agreement, except for the violation of any of its terms, may be cancelled and terminated by either party giving to the other at least sixty days previous notice in writing of such cancellation and termination, and upon such cancellation and termination, the shipper shall surrender the right of way of the Railroad Company occupied by said coal hopper, and the Railroad Company shall have the right to take up and remove both the said side track and the coal hopper immediately upon the expiration of

such notice, at the expense of said shipper. In case of the violation of any of the provisions of this agreement by said shipper, the Railroad Company may terminate and cancel this agreement by giving not less than three days notice to the shipper; upon such cancellation, in case all covenants herein on the part of said shipper have been performed, said coal hopper may be removed by said shipper, but if not so removed, said Railroad Company may convert the same to its own use or tear down and remove the same, and all right, title and interest of the shipper shall cease and be vested in the Railroad Company. Until cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track and hopper herein provided for shall apply to any additions and extensions of said side track and hopper.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-63.

THIS AGREEMENT, made in duplicate this 11th day of May in the year one thousand nine hundred and ten, by and between **ERIE RAILROAD COMPANY** (hereinafter called the **Railroad Company**) of the first part and **WEIDMANN SILK DYEING COMPANY**, a corporation organized and existing under the State of New Jersey (hereinafter called the **Shipper**) of the second part.

WITNESSETH:

THAT, WHEREAS, the shipper has the use of and owns the rail and fastenings off the right of way (a distance of 429 feet), of a side track of a total length of about 629 feet, at Fifth Avenue Paterson, in the County of Passaic and State of New Jersey, extending in a northerly direction from the point of connection with the east bound main track of the Railroad Company, said point being distant 225 feet southerly from the south line of Fifth Avenue, in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Now, **THEREFORE**, in consideration of the premises and the mutual covenants hereinafter considered, it is agreed as follows:

First: The shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Second: The shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side track or nearer than six feet to the nearest rail of said side track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Third: That portion of said side track located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Fourth: It is understood that the movement of cars and engines over said side track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side track, or the operation of the cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its members or officers, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it and from all costs and expenses connected therewith.

Fifth: The shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side track, or the cars standing thereon, provided for the

Exhibit R-64.

giving of notice thereof to the employees of the Railroad Company operating upon said side track.

Sixth: This agreement may be cancelled and terminated by either party giving the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-64.

THIS AGREEMENT, made in duplicate this 11th day of May in the year one thousand nine hundred and ten by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company) of the first part, and WEIDMAN SILK DYEING COMPANY, a cor-

poration organized and existing under the laws of the State of New Jersey (hereinafter called the Shipper), of the second part,

WITNESSETH:

THAT, WHEREAS, the shipper desires the construction of a side-track, about 420 feet long at Paterson in the County of Passaic and State of New Jersey which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side-track about 420 feet in length, extending from a point of connection with a siding of the Railroad Company, which point is near the south side of Fifth Avenue, in a northerly direction and parallel to the tracks of the Railroad Company and to relocate a crossover track from the position shown in broken white lines to that shown in broken red lines upon the plan hereinafter referred to; said new side track to be constructed in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Exhibit R-64.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction of said side-track, and the relocation of said crossover track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of one thousand six hundred and seventy dollars and seventy cents (\$1670.70), which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side-track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless fur-

nished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and

Exhibit R-65.

terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-65.

THIS AGREEMENT, made in duplicate this 27th day of August in the year one thousand nine hundred and seven by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company), of the first part, and LAZAR LAPAT, of Paterson, N. J. (hereinafter called the Shipper) of the second part,

WITNESSETH:

THAT, WHEREAS, the shipper desires the construction of a side-track, about 558 feet long, and a pro-

posed wall about 100 feet long, near Paterson, in the County of Passaic, and State of New Jersey, which side-track and wall the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side-track about 558 feet in length, being an extension easterly 201 feet from the end of an existing siding and a spur track extending westerly 357 feet from a point in said proposed extension near the end of said existing siding, all being in substantially the location and position as shown by the parallel red lines upon the plan hereto attached and made a part hereof, and said proposed wall, 100 feet long, in substantially the location, shown by the single solid red line upon said plan.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Third: The shipper agrees to pay the cost of the grading and of all materials other than rails and fastenings, and the cost of all the labor used in the construction of said side-track and wall together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement shall advance and pay to the Railroad

Exhibit R-65.

Company the sum of Twenty-four hundred thirty nine dollars & 70 cents (2439.70) which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials, other than rails and fastenings used in repairing or maintaining said side-track and wall such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than six feet to the nearest rail of said side-track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track and wall located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials furnished and owned

by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side-track involves a risk of injury to persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage or injury so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, successors and assigns, respectively.

EXHIBIT R-66.

THIS AGREEMENT, made in duplicate this 30th day of December in the year one thousand nine hundred and eleven by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company), of the first part, and SUTHERLAND & EDWARDS COMPANY, a corporation of the State of New Jersey (hereinafter called the Shipper), of the second part,

WITNESSETH:

THAT, WHEREAS the shipper desires the construction of a side track, about 270 feet long, near Paterson in the County of Passaic and State of New Jersey which side track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and construct said side track about 270 feet in length, extending from a point of connection in the present siding, known as "C" stage

Exhibit R-66.

Track No. 2, at Paterson, said point being located approximately 258 feet west of mile post 17, and extending thence, in a westerly direction two hundred and seventy (270) feet, in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side track, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction of said side track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Nine Hundred Seventy Four and 05/100 dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Exhibit R-66.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side track, or nearer than seven feet to the nearest rail of said side track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side-track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said

Exhibit R-66.

Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employes while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-67.

THIS AGREEMENT, made in duplicate, this 21st day of December, 1904, between the Erie Railroad Company, hereinafter called the "Railroad Company," party of the first part, and the Nicholson File Co., Paterson, N. J., hereinafter called the parties of the second part.

WITNESSETH:

That the Railroad Company, at the request of the parties of the second part, agrees to construct a side track described as follows:

Being a turnout 245 feet in length from the siding on the north side of main tracks between Fifth and Sixth Avenues, Paterson, N. J., all being substantially as shown on blue print hereto attached and made a part of this agreement.

And the parties of the second part hereby covenant and agree in consideration of the advantage to be by them derived from the operation of said side-track.

First: That they will at their own proper cost and expense do all the grading as directed by the Railroad Company, furnish the cross and switch ties, delivered on the site of the said side-track, and pay for all labor required in the construction of said side-track.

Second: The parties of the second part agree to procure all consents and permits from the local authorities and from the property owners and others, which shall be necessary for the construction of said siding, and the operation of trains thereon, free from all claims for the injury to the property or otherwise.

Third: The party of the first part agrees hereby to keep the siding in such repairs as it may deem necessary for the safe transaction of business and

the parties of the second part agree to pay to the party of the first part, on demand the actual market value of the material furnished, based on the cost of the material, the labor in handling and in transportation to the siding. The party of the first part is to determine what repairs are necessary to the siding.

Fourth: The said parties of the second part will not erect or cause to be erected, any platform, shed or other structure along or over the said tracks, or on the said right of way, without leaving sufficient clearance for the cars and engines of the party of the first part and the written approval of the Erie Railroad Company, of the plans and specifications of such structure.

Fifth: That all material, namely:

Rail,	Splices
Frogs	Switch Points
Bolts	Switch stands
Spikes	Guard rails

furnished by the Railroad Company in the construction of said siding, may be removed by said Railroad Company, its successors or assigns, at any time, the parties of the second part having no claim whatever upon such material, either in law or equity, nor will they at any time make any claim thereto, and that the same is the sole and exclusive property of the said Railroad Company, and not a fixture appurtenant to said land, and said Nicholson File Company for themselves, their heirs, successors and assigns do hereby give and grant to said Railroad Company, its successors and assigns, the right of easement to enter upon said premises at any time, to remove, take away and retain to its own use said materials.

Sixth: The said parties of the second part shall assume all risk of, loss of, or damage to their property, by fire, occasioned by, arising out of or con-

Exhibit R-67.

needed with the operation of said Railroad Company, or the said switch or siding, and release the said Railroad Company, its successors and assigns from all claims for any such loss or damage, whether caused by the negligence of said Railroad Company, its agents, servants, employees or otherwise.

Seventh: The said parties of the second part shall assume all risk of injury to the persons of the party of the second part or any employees of the party of the second part, occasioned by, arising out of, or in connection with the construction, maintenance or operation of said switch or siding, whether caused by the negligence of said Railroad Company, its agents, employees, officers or otherwise and hereby releases the said Railroad Company, its successors and assigns, from all claim for such injury sustained by the parties of the second part or by any of the employees of the party of the second part and agrees to indemnify and save harmless the said Railroad Company, its successors and assigns from all claim from such injury whether caused by the negligence of said party of the first part, its agents, servants, officers, employees or otherwise.

Eighth: The parties of the second part further agree to promulgate and enforce proper and suitable rules for the government of their employees who may be working on and around said side track, and the cars standing thereon, to the end that notice may be given to the employees of the said Railroad Company, and the danger of accidents thereby reduced.

Ninth: This agreement shall carry to and be binding upon the heirs, executors, administrators, successors and assigns of the respective parties hereto.

Exhibit R-68.

IN WITNESS WHEREOF: The parties hereto have caused this instrument to be executed the day and year first above written.

THIS AGREEMENT, made in duplicate this 12th day of November, 1904, between the Erie Railroad Company, hereinafter called the "Railroad Company," party of the first part, and the Hygeia Ice Company, Paterson, N. J., hereinafter called the parties of the second part:

WITNESSETH:

That the Railroad Company, at the request of the parties of the second part, agrees to construct a side track, described as follows:

Being an extension 100 feet in length on the west end of the present switch to McNab & Harlin's Foundry, on the north side of main tracks 250 feet east of Paterson Station and being directly in front of the ice house of the party of the second part and located on Ramapo Avenue, all being substantially

Exhibit R-68.

as shown on blue print hereto attached and made a part of this agreement.

And the parties of the second part hereby covenant and agree in consideration of the advantage to be by them derived from the operation of said side track.

First: That they will, at the own proper cost and expense do all the grading as directed by the Railroad Company, furnish the cross and switch ties, delivered on the site of the said side track, and pay for all labor required in the construction of said side track.

Second: The parties of the second part agree to procure all consents and permits from the local authorities and from the property owners and others, which shall be necessary for the construction of said siding, and the operation of trains thereon, free from all claims for the injury to the property or otherwise.

Third: The party of the first part agrees hereto to keep the siding in such repairs as it may deem necessary for the safe transaction of business and the parties of the second part agrees to pay to the party of the first part, on demand, the actual market value of the material furnished, based on the cost of the material, the labor in handling and in transportation of the siding. The party of the first part is to determine what repairs are necessary to the siding.

Fourth: The said parties of the second part will not erect or cause to be erected, any platform, shed or other structure along or over the said tracks, or on the said right of way, without leaving sufficient clearance for the cars and engines of the party of the first part, and the written approval of the Erie Railroad Company, of the plans and specifications of such structure.

Exhibit R-68.

Fifth: That all material, namely:

Rail	Splices
Frogs	Switch Points
Splices	Switch Stands
Bolts	Guard Rails

furnished by the Railroad Company in the construction of said siding, may be removed by said Railroad Company, its successors or assigns, at any time, the parties of the second part having no claim whatever upon such material, either in law or equity, nor will they at any time make any claim thereto, and that the same is the sole and exclusive property of the said Railroad Company, and not a fixture appurtenant to said land, and said Hygeia Ice Company for themselves, their heirs, successors and assigns do hereby give and grant to said Railroad Company, its successors and assigns, the right or easement to enter upon said premises at any time, to remove, take away and retain to its own use said material.

Sixth: The said parties of the second part shall assume all risk of loss of, or damage to their property, by fire, occasioned by, arising out or connected with the operation of said Railroad Company, or the said switch or siding, and release the said Railroad Company, its successors and assigns from all claims for any such loss or damage, whether caused by the negligence of said Railroad Company, its agents, servants, employees or otherwise.

Seventh: The said parties of the second part shall assume all risk of injury to the persons of the party of the second part or any employees of the party of the second part, occasioned by, arising out of, or in connection with the construction, maintenance or operation of said switch or siding, whether caused by the negligence of said Railroad Company, its agents, employees, officers or otherwise, and hereby releases the said Railroad Company, its successors and assigns,

Exhibit R-68.

from all claims for such injury sustained by the parties of the second part or by any of the employes of the party of the second part, and agrees to indemnify and save harmless the said Railroad Company, its successors and assigns from all claim from such injury, whether caused by the negligence of said party of the first part, its agents, servants, officers, employes or otherwise.

Eighth: The parties of the second part further agree to promulgate and enforce proper and suitable rules for the government of their employes who may be working on and around said side track, and the cars standing thereon, to the end that notice may be given to the employes of the said Railroad Company, and the danger of accidents thereby reduced.

Ninth: This agreement shall carry to and be binding upon the heirs, executors, administrators, successors and assigns of the respective parties hereto.

EXHIBIT R-69.

THIS AGREEMENT, made in duplicate this eighth day of July in the year one thousand nine hundred and eight by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company) of the first part, and PUGLIA & GRAMAFICE, a partnership consisting of Frank Puglia and Beniaurino Gramafice, dealers in the coal business (hereinafter called the Shipper), of the second part,

WITNESSETH :

THAT, WHEREAS, the shipper desires the construction of a side-track, about 868 feet long near Paterson, in the County of Passaic and State of New Jersey, which side-track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary **labor and materials** and construct said side-track about 868 feet in length, extending in an easterly direction from the most northerly yard track near Oregon Avenue, in substantially the location and position as shown by the red lines upon the plan here-to attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side-track over or along any street or highway, and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Exhibit R-69.

Third: The Shipper agrees to pay the cost of the grading and of all materials, and the cost of all the labor used in the construction of said side-track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of One thousand six hundred and sixty-nine dollars (\$1669.00), which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side-track, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track located upon the lands of the Railroad Company shall be its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the ter-

Exhibit R-69.

mination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said Shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the

Exhibit R-70.

respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year hereinbefore first above written.

EXHIBIT R-70.

THIS AGREEMENT, made in duplicate, this 14th day of February, in the year 1906, by and between the ERIE RAILROAD COMPANY, hereinafter called the "Railroad Company" party of the first part, and the AUGER AND SIMON SILK DYEING COMPANY, of Paterson, New Jersey, hereinafter called the party of the second part.

WITNESSETH :

THAT WHEREAS, The party of the second part has requested the Railroad Company to construct a certain side track, which shall connect the road and

Exhibit R-70.

tracks of the Railroad Company with the premises of the party of the second part, and—

WHEREAS, The Railroad Company is willing to construct said side track, as hereinafter provided:

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements herein-after stated, it is agreed as follows:

First: The Railroad Company agrees to construct a side track extending from a point of connection with its existing siding which is 2162 feet west of the east end of the station at River Street, Paterson, in substantially the location and position as shown by parallel red lines upon the blue print hereto attached and hereby made a part of this agreement.

SECOND: The party of the second part agrees to procure all consents and permits from the local authorities and from the property owners and others which shall be necessary for the construction of said side track and the operation of cars and engines thereon free from all claim for injury to property or otherwise and hereby gives to the Railroad Company, its successors and assigns the right or easement to enter upon the premises of the said party of the second part for the purpose of constructing that portion of said side track which shall be located outside the lands and right of way of the said Railroad Company.

Third: The party of the second part will at its own proper cost and expense do all the grading as directed by the Railroad Company, furnish the cross and switch ties and all other necessary material delivered on the site of said side track and pay for all labor required in the construction of said side track.

Fourth: The Railroad Company hereby agrees to keep the siding in such repair as it may deem necessary for the safe transaction of business and the party of the second part agrees to pay to the party of the

Exhibit R-79.

first part, on demand, the actual market value of the material furnished for the repairs based on the cost of the material, the labor in handling and in transportation to the siding, the Railroad Company to determine what repairs are necessary to the siding.

Fifth: The said party of the second part will not erect, or cause to be erected any platform, shed or other structure along or over said side track, without leaving sufficient clearance for the cars and engines of the Railroad Company, and without the written approval of the said Railroad Company of the plans and specifications of such structure.

Sixth: The party of the second part assumes all risk of injury to the persons of its officers or of any of its employees, and all loss of or damage to its property by fire, occasioned by, arising out of, or connected with the construction, maintenance or operation of said side track, whether caused by negligence of the said Railroad Company, its servants, agents, employees, or otherwise, and hereby releases the said Railroad Company, its successors and assigns from all claim for such loss or damage to property and for injury to persons of its officers or of any of its employees, and agrees to indemnify and save harmless the said Railroad Company, its successors and assigns from all claims for such loss, damage or injury as aforesaid.

Seventh: The party of the second part further agrees to promulgate and enforce proper and suitable rules for the government of its employees, who may be working on or around said side track and the cars standing thereon, to the end that when so at work notice may be given to the employees of the Railroad Company and the danger of accident thereby reduced.

Eighth: This agreement shall carry to and be binding upon the successors and assigns of the respective parties hereto.

EXHIBIT R-71.

THIS AGREEMENT made in duplicate this 14th day of November in the year one thousand nine hundred and ten by and between Erie Railroad Company (hereinafter called the Railroad Company) of the first part, and Paterson Consolidated Ice Company, a corporation organized and existing under the laws of the State of New Jersey (hereinafter called the shipper) of the second part,

WITNESSETH:

THAT, WHEREAS, the shipper desires the construction of a side track extension about 100 feet long, near Paterson, in the County of Passaic and State of New Jersey, which side track extension the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary

Exhibit R-71.

labor and materials and construct said side track extension about 100 feet in length, extending in a westerly direction from the westerly end of the present switch to McNab and Hartin's Foundry, on the north side of the main tracks 950 feet east of Paterson Station, and being directly in front of the Ice House of the party of the second part and located on Ramapo Avenue, all being in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The shipper agrees to furnish the necessary right of way for that portion of said side track extension which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track extension over or along any street or highway and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side track extension as hereinafter provided.

Third: The shipper agrees to do the grading and to pay the cost of all materials, and the cost of all the labor used in the construction of said side track extension, together with the usual percentages added for superintendence and use of tools, and upon the execution and delivery of this agreement shall advance and pay to the Railroad Company the sum of One hundred seventy one dollars and fifty nine cents (\$171.59) which it is estimated will cover the expense to be borne by the shipper, in addition to the grading it being understood that if such expense is less than the sum so advanced the Railroad Company shall repay to the shipper the difference; and if such expense exceeds the sum so advanced, the shipper will pay to the Railroad Company the amount of such excess upon receipt of proper bill or voucher therefor.

Exhibit R-71.

Fourth: The shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track extension, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track extension.

Fifth: The shipper shall not erect or allow to be erected any platform, shed or other structure over said side track extension, or nearer than six feet to the nearest rail of said side track extension without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side track extension located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control and all materials used in the construction and maintenance of that portion of said side track extension located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company unless furnished or paid for by the shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side track extension and, without unnecessary injury to said premises to remove therefrom the materials owned by it which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side track extension and siding involves a risk of injury to or death of persons and damage to property and as between the parties hereto, the shipper hereby assumes all risk of loss of or damage to its property, occasioned by or arising

Exhibit R-71.

out of the construction or maintenance of said side track extension and siding or the operation of cars or engines thereon whether caused by the negligence of the Railroad Company its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members or of any of its employees, occasioned by or arising out of such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees, and said shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from all costs and expenses connected therewith.

Eighth: The shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side track extension or siding, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side track extension or siding.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination, but until so cancelled and terminated the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side track.

EXHIBIT R-72.

THIS AGREEMENT, made in duplicate, this eleventh day of May in the year one thousand nine hundred and eleven, by and between the ERIE RAILROAD COMPANY (hereinafter called the Railroad Company) of the first part, and the VAN WINKLE-BROMLEY LUMBER COMPANY, a corporation of the State of New Jersey (hereinafter called the Shipper), of the second part.

WITNESSETH:

THAT, WHEREAS the Railroad Company owns the total material in a side track three hundred thirty two (332) feet long, said side track being known as the old Fairclough Switch, at Paterson in the County of Passaic and State of New Jersey, and

WHEREAS the shipper desires the said Railroad Company to repair and improve said side track, which the Railroad Company is willing to repair on the following conditions:

Exhibit R-72.

Now, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the necessary labor and materials and improve said side track about three hundred thirty-two (332) feet in length extending in a northeasterly direction from a point of connection in siding of Railroad Company located four hundred sixty-nine (469) feet east from the southeasterly end of South Paterson station, and in substantially the location and position as shown by red lines upon the plan hereto attached and made a part hereof.

Second: The shipper agrees to furnish the necessary right of way for that portion of said side track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track over or along any street or highway and agrees to secure to the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side track, as hereinafter provided.

Third: The shipper agrees to pay the cost of the grading, ties and ashes, and the cost of all labor used in repairing and in improving said side-track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of Four Hundred Dollars and five cents (\$400.05) which it is estimated will cover the expense to be borne by the shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the shipper the difference; and if such expense exceeds the sum so advanced, the shipper

Exhibit R-72.

will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Railroad Company agrees to furnish all materials necessary to repair and replace said side track, except the necessary ties and ashes.

Fifth: The shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track, other than rails and fastenings, such value being based upon the cost of such materials and the labor in handling and transporting the same to said side track.

Sixth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side track, or nearer than seven feet to the nearest rail of said side track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Seventh: That portion of said side track located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Eighth: It is understood that the movement of cars and engines over said side track involves a risk

Exhibit R-72.

of injury or death of persons and damage to property, and, as between the parties thereto, the shipper hereby assumes all risk of loss of or damage to its property occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or the death of its officers or members or of any of its employees, occasioned by or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees; and said shipper hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it and from all costs and expenses connected therewith.

Ninth: The shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employees while on or about said side track, or the cars standing thereon, providing for the giving of notice thereof to the employees of the Railroad Company operating upon said side tracks.

Tenth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side track.

EXHIBIT R-73.

THIS AGREEMENT, made in duplicate this 15th day of February in the year one thousand nine hundred and eleven by and between ERIE RAILROAD COMPANY (hereinafter called the Railroad Company), of the first part, and GULF REFINING COMPANY, a corporation of the State of Texas, with offices at 814 Battery Park Building, New York, N. Y. (hereinafter called the Shipper), of the second part,

WITNESSETH:

THAT, WHEREAS the shipper desires the construction of a side-track, about 97 feet long, near Paterson, in the County of Passaic and State of New Jersey, which side track the Railroad Company is willing to construct upon the following conditions:

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter contained, it is agreed as follows:

First: The Railroad Company agrees upon the terms hereinafter mentioned to furnish the neces-

Exhibit R-73.

sary labor and materials and construct said side-track about 97 feet in length, extending from the end of the present unloading siding in a southerly direction in substantially the location and position as shown by the red lines upon the plan hereto attached and made a part hereof.

Second: The Shipper agrees to furnish the necessary right of way for that portion of said side-track which shall be located outside of the lands of the Railroad Company, including such consents and permits as may be necessary for the construction and operation of said side track over or along any street or highway, and agrees to secure the Railroad Company the lawful right to use the same and to remove therefrom the materials in said side-track, as hereinafter provided.

Third: The Shipper agrees to pay the cost of the grading and of all materials and the cost of all the labor used in the construction of said side track, together with the usual percentages added for superintendence and use of tools, and, upon the execution and delivery of this agreement, shall advance and pay to the Railroad Company the sum of One Hundred Eighty-two and 91/100 (\$182.91) dollars, which it is estimated will cover the expense to be borne by the Shipper, it being understood that if such expense is less than the sum so advanced, the Railroad Company shall repay to the Shipper the difference; and if such expense exceeds the sum so advanced, the Shipper will pay to the Railroad Company the amount of such excess, upon receipt of proper bill or voucher therefor.

Fourth: The Shipper shall repay to the Railroad Company promptly the cost of all labor and the value of all materials used in repairing or maintaining said side track such value being based upon the cost of such materials and the labor in handling and transporting the same to said side-track.

Exhibit R-73.

Fifth: The Shipper shall not erect, or allow to be erected, any platform, shed or other structure over said side-track, or nearer than seven feet to the nearest rail of said side-track, without the written approval of the Railroad Company of the plans and specifications therefor, in order that sufficient clearance may be left for the cars of the Railroad Company.

Sixth: That portion of said side-track located upon the lands of the Railroad Company shall be and remain its property and under its exclusive control, and all materials used in the construction and maintenance of that portion of said side-track located outside the lands of the Railroad Company shall be and remain the property of the Railroad Company, unless furnished or paid for by the Shipper, and upon the termination of this agreement, the Railroad Company shall have the right to enter upon the premises occupied by said side-track and, without unnecessary injury to said premises, to remove therefrom the materials owned by it, which said materials shall not be deemed fixtures appurtenant to the land.

Seventh: It is understood that the movement of cars and engines over said side track involves a risk of injury to or death of persons and damage to property, and, as between the parties hereto, the Shipper hereby assumes all risk of loss of or damage to its property, occasioned by, or arising out of, the construction or maintenance of said side-track, or the operation of cars or engines thereon, whether caused by the negligence of the Railroad Company, its agents or employees, or by any other cause; and all risk of injury to the persons of or of the death of its officers or members, or of any of its employees, occasioned by, or arising out of, such construction, maintenance or operation, unless such injuries or death are shown to have been caused solely by the negligence of the Railroad Company, its agents or employees, and said Ship-

Exhibit R-73.

per hereby agrees to indemnify and save harmless the Railroad Company from all claims for such loss, damage, injury or death so assumed by it, and from costs and expenses connected therewith.

Eighth: The Shipper further agrees to promulgate and enforce proper and adequate rules for the government of its employes while on or about said side-track, or the cars standing thereon, providing for the giving of notice thereof to the employes of the Railroad Company operating upon said side-track.

Ninth: This agreement may be cancelled and terminated by either party giving to the other at least ninety days' previous notice in writing of such cancellation and termination; but, until so cancelled and terminated, the rights, duties and obligations of the respective parties hereto under this agreement shall carry to and be binding upon their heirs, executors, administrators, lessees, successors and assigns, respectively, and the terms of this agreement, except in so far as they relate to the description and cost of the particular track herein provided for, shall apply to any additions to or extensions of said side-track.

AUGUST B. TUTTLE *Chck.*

New York June 8th 1853. This is to certify that I have this day received from B. Marshman thirty dollars in addition to ten dollars received from Mr. M. I. Earl on his account June 6th both being on account of forty acres of land sold by me to B. Marshman in the Township of Acquackanonk New Jersey being part of a farm of about ninety acres purchased by me of Elizabeth VanHouten. The said forty acres lies on the first road from Passaic Bridge leading from the Passaic River to the Canal. The said B. Marshman is to pay one half of the purchase money cash when I give him possession of the said land which shall be on or before the first of September next eighteen hundred and fifty three. The balance to remain on bond and mortgage at the legal interest of New Jersey for the same period as specified in my deed received from

Exhibit. R-78.

Elizabeth VanHouten. The said forty acres I sell him at forty dollar per acre.

STATE OF NEW JERSEY, } ss.
PASSAIC COUNTY. }

I, JOHN R. MORRIS, Register of Deeds and Mortgages in and for said County and State, do hereby certify that the foregoing is a true copy of an ordinance providing for the taking up, vacating and relaying the streets and highways of the City of Paterson, as the same is taken from and compared with the original entry thereof recorded in Book A of Miscellaneous on pages 361, etc., and now remaining of record in my office.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the official seal of said County, at Paterson this Twenty fourth day of December, A. D., 1913.

(SEAL)

JOHN R. MORRIS, *Register.*

15684

By.....Deputy

Fees Twenty Eight Dollars and eighty cents.

EXHIBIT R-79.

An Ordinance providing for the taking up vacating and relaying Clay Street in the City of Paterson. The Mayor and Aldermen of the City of Paterson do ordain as follows. Sec. 1. That Clay Street in said city be and it is hereby taken up and vacated. Sec. That Clay Street be relaid and that the location of such relaid street be according to the survey and map

Exhibit R-79.

thereof and the return made by John H. Goetschius City Surveyor dated the fourteenth day of July Eighteen hundred and fifty six and that the said relaid street be twenty five feet wide on each side of the following centre line: Beginning at a stone monument with a brass pin centre placed one foot below the grade of the Street and at a point in the centre line of Main Street (as the same has heretofore been relaid by J. W. Allen City Surveyor Oct 20th 1852) distant fourteen hundred and forty feet and nine and quarter inches on a course of south thirteen degrees and thirty five minutes west from the monument placed at the intersection of said centre line of Main Street with the centre line of Slater Street and running thence on a course of north seventy six degrees and fifty nine minutes east two hundred and fifty seven feet seven and a half inches to a point of intersection of said centre line with the centre line of Jackson Street thence (2) along the centre line of Jackson Street on a course of north thirteen degrees and six minutes west one foot eight inches to a monument in the centre line of Jackson Street and thence (3) on a course of North seventy six degrees and forty four minutes east two hundred and fifty feet to a monument at the point of intersection of said centre line with the centre line of Apple Street and the same is hereby relaid accordingly. Sec. 3. That the grade of said street as laid down and designated on the aforesaid map be & it hereby is established as the new grade of the said street

Passed July 24 1886

SAMUEL SMITH *Mayor*

Attest JOS NIGHTENGALE *Clerk.*

(Register's certificate attached to original)

EXHIBIT R-80.**PATERSON GRADE CROSSING CASE.**

List of crossings mentioned in the petition of the City of Paterson, given in the same order, with a statement showing when each was laid out or opened as a public highway, with reference, in each case, to the book and page and the place where the record thereof may be found.

"A" MADISON AVENUE.

Prior to the year 1869, the territory in which this Avenue is located, was in the Township of Acquackanonk, and was, in that year, annexed to the City of Paterson. (N. J. P. L. 1869, page 482, Approved March 17th, 1869.)

The first recorded evidence of any intention to lay out or open Madison Avenue was the filing of "Return of courses and distances of Madison Avenue in the City of Paterson between Main street and the Erie Railroad according to the survey and map thereof made by John H. Goetschius, "City Surveyor" dated March 27, 1871, and recorded in the Road Records in the office of the Clerk of Passaic County in Book B, page 502.

The first property map showing the location of this part of Madison Avenue, is entitled "Map of property of John H. Terhune in the City of Paterson, Passaic County, New Jersey, dated 1869. This map, however, shows Madison Avenue as extending only from Main Street to West Railway Avenue, which was laid out on the Map parallel with and adjoining westerly with the right of way of the Paterson and Hudson River Railroad Company.

"B" STRAIGHT AND CLAY STREETS.

The first recorded evidence of any intention to lay out and open Clay Street was the filing of a "Return of courses and distances of Clay Street, Paterson, New Jersey, according to survey and map thereof,

Exhibit R-80.

made by John H. Goetschius, C. S." dated January 14, 1856, and recorded July 25, 1856, in the Clerk's office of Passaic County, in Book "B" of Road Records, page 101. This covers Clay Street from Main Street across Jackson Street to Apple (now Spring Street) and not across the Paterson and Hudson River Railroad or the Paterson and Ramapo Railroad.

The first property map showing Clay Street crossing the Paterson and Hudson River Railroad and the Paterson and Ramapo Railroad is entitled "Map of property of the estate of Rachel Van Houten, deceased, Paterson, New Jersey, J. H. Goetschius, C. E., Scale 60'-1". November, 1873."

Straight Street appears upon the 1850 map, but the first evidence of the intention on the part of the public authorities of Paterson, to lay out and open Straight Street across the Railroad, appears in Book B of Road Records, p. 72, of Passaic County, as a return of courses and distances according to survey and map made by J. W. Allen, City Surveyor, dated October 20, 1852, and recorded April 18, 1853.

"C" CEDAR STREET.

This street did not exist across the right of way of the Paterson and Hudson River, or the Paterson and Ramapo Railroads at the time the 1850 map was made, but appears to have been laid out subsequently thereto. By Section 1 of the City Ordinance, dated March 30, 1853, and recorded in the Passaic County Register's Office in Book A of Miscellaneous Records, page 361 (Certified copy offered in evidence), Cedar Street as then existing, was vacated. By Section 21 of the same Ordinance, this street was then opened between Marshall Street and Mill Street in accordance with Map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852, and recorded in Passaic County Clerk's Office, in Book B of Road Records, page 34.

Exhibit R-80.

This street was also opened by Section 80 of the same ordinance, from Straight Street east to the centre line of Vine Street in accordance with the map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852, and recorded in the Passaic County Clerk's Office in Book B of Road Records, page 96.

"D" MARKET STREET AND PARK AVENUE.

Market Street appears to have existed at the time the 1850 map was made, but was vacated by section 1 of the Paterson City Ordinance above referred to. By section 13 of the same ordinance, Market Street was laid out to its present width across the Paterson and Ramapo Railroad, in accordance with map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852, and recorded April 18, 1853, in Passaic County Clerk's Office in Book B of Road Records, page 20.

Park Avenue, formerly Willis Street, appears also to have existed at the time of making the 1850 map, but was also vacated by Section 1, of said ordinance. By Section 14 of the same ordinance this street was laid out across the Paterson and Ramapo Railroad in accordance with map, survey and return made by J. W. Allen, City Surveyor, dated Oct. 20, 1853, and recorded in Passaic County Clerk's Office, Book B of Road Records, page 23.

"E" ELIJAH STREET.

This street did not exist across the property occupied by the Paterson and Ramapo Railroad right of way, at the time the 1850 map was made but extended only from Prospect Street east to what was known as Dark Brook, or Ferguson Brook, which was located west of the Paterson and Ramapo Railroad. This street was also laid out east of Straight Street but did not cross the property formerly of the Society of Useful Manufactures, which extended between Church Street and Straight Street. Section 1, of the ordi-

Exhibit R-89.

nance above mentioned, vacated Ellison Street, as then existing, but by Section 9 of the same ordinance, the City laid out Ellison Street across the Paterson and Ramapo Railroad in accordance with the map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852, and recorded April 18, 1853, in the Passaic County Clerk's Office, Book B, of Road Records, page 14.

"4" VAN HOUTEN STREET

This street was originally known as Williamson Street, and later changed to East Van Houten Street. It appears on the 1850 map, but was vacated by Section 1 of the ordinance above mentioned. By Section 4 of the same ordinance Van Houten Street was laid out across the Paterson and Ramapo Railroad in accordance with the map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852, and recorded in the Passaic County Clerk's Office, in Book B of Road Records, page 86.

"41" BROADWAY.

This street appears to have existed at the time the 1850 map was made, but was vacated by Section 1 of the ordinance above referred to. By Section 6 of the same ordinance, this street was opened across the Paterson and Ramapo Railroad in accordance with the map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852, and filed in the Passaic County Clerk's Office, Book B of Road Records, page 7.

"11" FAIR STREET.

This street did not exist across the property of the Paterson and Ramapo Railroad at the time the 1850 map was made. Prior to the building of the Paterson and Ramapo Railroad, Fair Street, on the west side of the railroad, was opened from Main Street (Parke), east to the brook about 130 feet east of Bridge Street, east of the railroad, it extended from

Exhibit R-80.

the lands of Edward Van Winkle east to Yorke Street, in accordance with the return dated July 2, 1839, and recorded in the Passaic County Clerk's Office Book "A" of Road Records, page 16. This street is shown east of Bridge Street on the 1850 map (J. C. Sydney Map) as a *proposed* street. On the map of the City of Paterson by J. W. Allen, City Surveyor, dated October 20, 1852, this street is shown only as extending from Parke Street to a point 130 feet east of Bridge Street. In this location, it was opened by Section 48 of the City Ordinance above mentioned.

The first recorded evidence of any intention to lay out or open this street across the railroad appears in the Passaic County Clerk's Office in Book B of Road Records, page 134, entitled, return of map courses and distances of Fair Street from Bridge Street south-east across Paterson Street and Erie Railway to centre line of Straight Street, dated March 7, 1864, recorded March 18, 1864.

"I" HAMILTON AVENUE.

This street was formerly known as Division Street and is shown on the J. C. Sydney Map of 1850, and also on the map prepared by J. W. Allen, City Surveyor, in 1852, as existing from Parke Street east to a point 130 feet east of Bridge Street. In this location, it was opened by Section 49 of the City Ordinance above mentioned.

The first recorded evidence of any intention to lay out and open this street across the railroad, is found in Passaic County Clerk's Office, Book B of Road Records, page 116, entitled "Return of the map, courses and distances of Division Street from Bridge Street east across Erie Railway to Straight Street," dated December 19, 1859.

"J" LAFAYETTE STREET.

This street appears to have been in existence across the railroad when the 1850 map was made, but was

Exhibit R-80.

vacated by section one of the ordinance above mentioned. By Section 56 of the same ordinance, Lafayette Street was laid out and opened across the Paterson and Ramapo Railroad in accordance with map, survey and return made by J. W. Allen, City Surveyor, dated October 20, 1852.

“K” FRANKLIN STREET.

Franklin Street appears on the J. C. Sydney Map of 1850, across the railroad only as a *proposed* street. On the J. W. Allen map of October 20, 1852, prepared by the order of the City Council, Franklin Street does not appear at all.

The only recorded evidence of any intention on the part of the public authorities to open Franklin Street, is found in the Passaic County Clerk's Office in Book B of Road Records, page 438, in which a map of the courses and distances of Franklin Street from Summer Street to East Eighteenth Street, are given. This return is dated February 11, 1870.

“L” KEEN STREET.

The first recorded evidence of any intention on the part of the Public Authorities to lay out or to open Keen Street, is found in the Passaic County Clerk's Office, in Book B of Road Records, page 437, which contains a map and return of courses and distances of Keen Street from Summer Street east to East Eighteenth Street. This is entirely east of the Paterson and Ramapo Railroad.

This street is not shown on the map of the City of Paterson, made by J. W. Allen, City Surveyor, by direction of the City Council on October 20, 1852.

“M” WARREN STREET.

The first recorded evidence of any intentions on the part of public authorities to lay out or open this street is found in Passaic County Clerk's Office, Book B, of Road Records, page 436. It consists of a map, courses and distances of Warren Street from Graham

Exhibit R-81.

Avenue east to East 18th Street. This is entirely east of the right of way of the Paterson and Ramapo Railroad. Warren Street is not shown on the map of the City of Paterson prepared by J. W. Allen, City Surveyor, under order of the Common Council, October 20th, 1852.

"N" RIVER AND PUTNAM STREETS.

River Street appears on the 1850 map but was vacated by Section 1 of the City Ordinance dated March 30th, 1853. By Section 17 of this Ordinance this street was opened across the Paterson and Ramapo Railroad in approximately its present location.

PUTNAM STREET. The first recorded evidence of any intention to lay out or open this street is found in Passaic County Clerk's Office, Book B of Road Records, page 435. The return of map, courses and distances of Putnam street in the City of Paterson according to survey and map made thereof by John H. Goetschius, City Surveyor, February 11, 1870. This street is laid out in two sections; first section extends from the center line of Graham avenue to the center line of East 18th street, and in the second section from the center line of Wait street westerly to center line of East 5th street. Wait street lies westerly of and parallel to the right of way of the Paterson & Ramapo Railroad.

EXHIBIT R-81.

RETURN of the courses and distances of Madison Avenue in the City of Paterson between Main Street and the Erie Railway according to the survey and map thereof made by J. H. Goetschius, C. E., and dated March twenty-seventh, eighteen hundred and seventy-one. Said Street is forty feet wide on each side of the following centre line, to wit: A centre line beginning at a stone monument with an iron pin centre placed one foot below the grade of the street, and at the point of intersection of said centre line

Exhibit R-82.

with the easterly line of Main Street and running from thence on a course of north sixty one degrees and forty five minutes east one hundred and twenty five feet to a monument in said centre line thence on the same course five hundred and fifteen feet to a monument at the point of intersection of said centre line with the centre line of Getty Avenue, thence on the same course six hundred and seventy eight feet, to a monument at the point of intersection of said centre line with the northerly line of the Erie Railway. The grade to be as shown by the red figures on said map.

J. H. GOETSCHIUS,

ERIE RAILROAD COMPANY

Estimate of revenue which will be obtained from increases already granted in Central Freight Association territory. This will include the few in Trunk Line territory, which the Commission permitted to be made, in order to make effective the increase in Central Freight Association territory—based on the fiscal year ended June 30th, 1914.

Erie R. R. revenue in Central Freight Association territory	\$16,256,239.61
Revenue in Central Freight Association territory, on anthracite coal, bituminous coal, coke, iron, and other ores, cement, brick, tile and lime	6,737,065.67
Revenue on other commodities to which the five per cent increase may be applied	9,519,173.94
Five Per Cent on the above.....	475,958.70
Traffic local to Central Freight Association territory on Erie RR lines, estimated to be 15%, or.....	71,393.81

Copy

ERIE RAILROAD COMPANY

New York, October 30, 1914.

File 1.

Mr. C. P. Crawford,
Comptroller.

Dear Sir:

Upon examining the statement prepared in this office, showing our estimate of revenue which will be obtained from rate increases in Central Freight Association territory, permitted by the recent opinion of the Interstate Commerce Commission, we find that the text of the 4th item is somewhat misleading, as the amount noted represents our estimate of the revenue which accrues to the Erie R. R. Co., lines in Central Freight Association territory, not only from local traffic, but from traffic, also, in which other roads are interested. The heading should be "Traffic local to Central Freight Association Territory, estimated to be 15%." The words "Erie R. R. Lines" should be eliminated.

Yours truly,

(Signed) C. E. HILDUM

Auditor of Freight Accounts.

Exhibit R-123.

sion in its report—based on the fiscal year ended June 30, 1914.

Total Erie System Revenue		\$42,779,577.90
Exclusive of:		
Anthracite Coal	\$12,677,550.44	
Bituminous Coal	2,860,622.83	
Coke	471,186.24	
Iron Ore	1,095,496.99	
Cement, Brick, Tile and Lime,	624,261.02	17,729,117.52
		<hr/>
		\$25,050,460.38
Less:		
Trans-Continental	\$771,617.07	
C. M. & St. P.	86,799.41	
C. & N. W.	58,827.00	
C. R. I. & P.	32,659.38	
C. B. & Q.	27,307.45	977,210.31
		<hr/>
Five Per Cent of	\$24,073,250.07	
	1,203,662.50	

NOTE:—This includes the estimate of increased revenue in Central Freight Association territory, and the latter would, of course, be very largely increased by the inclusion of inter-territorial traffic.

EXHIBIT R-123.**ERIE RAILROAD COMPANY.****NINETEENTH ANNUAL REPORT.**

New York, October 13, 1914.

To the Bond and Share Holders of the Erie Railroad Company:

The following report of the operations of your Company for the year ending June 30, 1914, is respectfully submitted by the Board of Directors:

MILEAGE.

Table No 1 shows in detail the mileage of road operated June 30, 1914, from which you will note that the Company:

	Miles.
Owens in fee or controls by ownership of entire capital stock	1,673.40

Exhibit R-123.

	Miles.
Controls by ownership of a majority of capital stock	160.31
Leases	276.96
Has trackage rights over.....	146.73
<hr/>	
Total mileage operated.....	2,257.40
Has restricted trackage rights over.....	131.20
Owens and leases to other companies.....	15.12
Leases and re-leases to other companies....	2.35
Controls lines operated independently.....	37.87
<hr/>	
Total mileage controlled but not operated.	186.54
Grand Total	2,443.94
—of which 1,205.96 miles, or 49.34 per cent., have second track, 18.47 miles have third track and 18.42 miles have fourth track.	

The increase of 9684 miles in second track is due to the construction of additional track, as follows:

At Newburgh Junction, N. Y., .09 miles; between Red House and Steamburg, N. Y., 4.50 miles; Concord and Saegertown, Pa., 21.99 miles, and between Marion, Ohio and Wilders, Ind., 70.26 miles.

Exhibit R-123 (Continued).

OPERATING REVENUE AND EXPENSE.

The following statement shows the gross operating revenue, operating expenses, and operating income of the system for the fiscal year:

	REVENUE.			
	1914	1913	Increase	Decrease
Merchandise				
Coal	\$29,770,279.39	\$27,458,445.40		\$23,227.00
Passenger	16,009,339.51	16,887,293.79		877,954.28
Mail	10,245,372.00	10,213,955.29	\$31,316.49	
Express	633,983.63	412,164.53	41,799.10	
Milk	1,051,772.88	1,720,683.02		84,910.14
Miscellaneous	983,664.98	964,213.20	21,451.78	
	1,683,202.17	1,791,699.60		108,497.43
Revenue—Rail Operations	\$57,801,813.64	\$50,463,183.03		\$7,638,371.49
Revenue—Outside Operations	3,178,761.56	3,182,174.68		3,412.82
Gross Operating Revenue	\$60,980,575.20	\$53,645,357.71		\$7,603,794.22

Exhibit R-123 (Continued).

EXPENSES

	1914	1915	Increase	Decrease
Maintenance of Way and Structures	\$6,300,146.45	\$6,300,000.48	\$15,145.97	
Maintenance of Equipment	11,313,881.11	10,700,000.70	313,881.41

Transportation Expenses	20,223,445.44	20,918,673.77	695,228.33	
General Expenses	1,484,375.06	1,264,463.46	219,911.60	
Operating Expenses—Rail Operations	\$42,815,147.86	\$40,103,173.78	\$2,711,974.08	
Operating Expenses—Other Operations	3,322,932.27	3,300,406.08	22,526.19	
Total Operating Expenses	\$46,138,080.13	\$43,403,580.86	\$2,734,499.27	
Taxes	1,853,756.74	1,915,118.11	61,361.37	
Total Operating Expenses and Taxes	\$47,991,836.87	\$45,318,700.97	\$2,673,135.90	
Operating Income	\$12,159,567.03	\$16,500,500.13	\$4,340,933.10	
Ratio of Operating Expenses and Taxes to Gross Operating Revenue	79.68%	73.66%	5.02%	
Ratio of Operating Expenses to Gross Operating Revenue	79.67%	70.37%	9.30%	

MERCHANDISE.

The merchandise tonnage for the year was 20,306,275 tons, a decrease of 1,673,283 tons or 7.61 per cent.

The decrease in revenue from haulage of merchandise was \$688,227.01 or 2.51 per cent. less than the last year.

A detailed statement of the commodities hauled is shown in Table No. 18.

COAL AND COKE.

The total coal and coke tonnage for the year was 17,819,134 tons, a decrease of 1,189,301 tons, or 6.26 per cent. less than the last year.

The anthracite tonnage was 9,882,781 tons, a decrease of 259,686 tons, or 2.56 per cent. less than the last year.

The bituminous tonnage was 6,821,387 tons, a decrease of 829,913 tons, or 10.84 per cent. less than the last year.

The coke tonnage was 1,114,966 tons, a decrease of 169,692 tons, or 8.28 per cent.

The revenue from haulage of coal and coke decreased \$877,934.19 or 3.20 per cent.

The coal and coke tonnage was 46.74 per cent. of the total revenue tonnage hauled.

GENERAL FREIGHT TRAFFIC.

The total revenue freight traffic of the Company during the year, including merchandise, coal and coke, was 38,125,409 tons, a decrease of 2,862,584 tons, or 6.98 per cent.

The number of tons hauled one mile was 7,428,034,970, a decrease of 302,640,080 ton miles, or 3.91 per cent.

The total revenue derived from haulage of freight was \$42,779,577.90, as compared with \$44,345,739.10 for the year 1913, a decrease of \$1,566,161.20, or 3.53 per cent.

Exhibit R-123.

The average freight revenue per ton per mile was .576 cents, as compared with .574 cents the last year, an increase of .002 cents, or .35 per cent.

In addition to the above, 4,748,906 tons of Company's freight were hauled, making the total tonnage 42,874,315 tons.

In hauling this tonnage 12,583,346 train miles were run, a decrease compared with the last year, of 371,187 train miles, or 2.87 per cent.

The average distance each ton was hauled was 194,832 miles, an increase of 6.224 miles, or 3.30 per cent.

The revenue per freight train mile was \$3.40 as compared with \$3.42 the previous year, a decrease of 2 cents, or .69 per cent. The average train load of revenue freight was 590.31 tons, a decrease of 6.44 tons, or 1.08 per cent. Including Company's freight, the average train load was 641.32 tons, a decrease of 5.82 tons, or .90 per cent. The average carload of revenue freight was 21.27 tons, a decrease of .17 tons, or .79 per cent. Including Company's freight, the average carload was 23.11 tons, a decrease of .14 tons, or .60 per cent. less than last year.

PASSENGER TRAFFIC.

The total number of passengers carried during the year was 27,628,242, an increase of 265,406, or .97 per cent.

The number of passengers carried one mile was 651,393,355, an increase of 4,367,228 passenger miles, or .67 per cent.

The increase in gross revenue therefrom was \$33,316.49 or .33 per cent.

The average fare received from each passenger per mile was 1.573 cents, a decrease of .006 cents, or .38 per cent.

The average distance travelled was 23.58 miles, a decrease of .07 miles, or .29 per cent.

The average fare received from each passenger was • 37.09 cents, a decrease of .24 cents.

Exhibit R-123.

The passenger train mileage was 10,170,532 train miles, a decrease of .59 per cent.

The passenger train revenue per train mile was \$1.324, an increase of .53 per cent.

The average number of passengers in each train was 64.05, an increase of .81 passenger, or 1.28 per cent.

The average number of passengers in each car was 16.91, an increase of .14 passenger, or .83 per cent.

Of the total number of passengers carried, 26,896,144 were local and 732,098 were through passengers, the local traffic showing an increase in number of passengers carried and a slight decrease in the average revenue received per passenger per mile. The number of through passengers decreased, while the average revenue received per passenger per mile shows a slight increase.

MAIL.

A partial adjustment of the compensation for transportation of United States Mail was made during the year, resulting in an increased revenue of \$41,799.10, or 10.14 per cent.

EXPRESS.

The reduction in rates by the express companies and loss in volume of business due to Parcel Post, is reflected in the revenue from transportation of express, which shows a decrease of \$84,910.14, or 4.89 per cent.

MILK.

Revenue from transportation of milk was \$985,664.98, an increase of \$21,421.78, or 2.22 per cent.

MISCELLANEOUS.

Revenue from miscellaneous sources was \$1,685,262.17, a decrease of \$105,837.43, or 5.91 per cent.

OPERATING EXPENSES.**MAINTENANCE OF WAY AND STRUCTURES.**

The expense of Maintenance of Way and Structures was \$6,998,746.35, an increase of \$729,686.87, or 11.64 per cent. The details of this account in Table No. 10 show that among the principal items increased are Ties, Rails, Track Maintenance, Removal of Snow, Sand, and Ice, and Signals and Interlocking Plants.

60 bridges were reconstructed or are in the course of reconstruction, 303 repaired and 91 repainted.

25,098 tons of new 100-pound, 12,737 tons of new 90-pound and 2,417 tons of new 80-pound steel rails were laid, with the necessary frogs, switches, etc.

1,206,993 cross ties and 2,791,211 feet of switch timber were used in the track, with 839,086 tie plates.

146.05 miles of track were fully ballasted and 15.35 miles of track were partially ballasted.

79 miles right-of-way fences were built.

31.74 miles of passing and other sidings and 7.68 miles industrial side tracks were constructed.

Stations at Huntington and Rochester, Ind., were enlarged, and the stations at Hutchins and Rasselas were rebuilt. At West Nutley, Horseheads, Mount Morris, Rochester, N. Y., Buffalo and Warren the stations were remodeled.

MAINTENANCE OF EQUIPMENT.

Maintenance of Equipment expenses were \$11,314,881.41, an increase of \$515,811.62, or 4.78 per cent. more than last year. The details are shown in Table No. 10.

The total tractive power of locomotives is 49,007,245 pounds, an increase of 3,030,646 pounds.

The total number of locomotives at the close of the fiscal year was 1,501, an increase of 40. 68 new locomotives were received, 18 old locomotives were scrapped and 10 were sold.

Exhibit R-123.

The average age of locomotives is 13 years, 11 months.

The average mileage made by steam locomotives was 22,214 miles, a decrease of 1,474 miles, 6.22 per cent.

The average mileage made by motor cars was 29,467 miles, an increase of 601 miles, 2.08 per cent.

One tug boat was purchased and two condemned, one steam barge built, six covered barges built and twenty-four purchased, two open barges and three car floats purchased. The floating equipment in New York Harbor and on the Great Lakes was fully maintained.

The changes in equipment during the year are shown in Table No. 14.

TRAFFIC EXPENSES.

Traffic expenses increased \$62,987.42, or 4.33 per cent.

TRANSPORTATION EXPENSES.

Transportation Expenses were \$21,523,448.44, an increase of \$604,774.67, equal to 2.89 per cent.

Table No. 10 indicates that the increases are quite general, two of the principal items being increase in the price of fuel for locomotives and settlements for loss and damage—freight.

GENERAL EXPENSES.

General Expenses were \$1,481,375.06, compared with \$1,264,463.46 for last year, an increase of 17.15 per cent as per detail shown in Table No. 10.

TAXES.

The Taxes for the year were \$1,865,726.74, a decrease of \$69,391.37 or 3.59 per cent.

*Exhibit R-123.***ADDITIONS AND BETTERMENTS—ROAD.**

The Capital Account Additions and Betterments for the year is charged with \$5,438,378.79, as follows:

Right of Way and Station Grounds....	\$327,348 35
Protection of Banks and Drainage....	1,657 51
Grade Reductions and Changes of Line.	245 19
Tunnel Improvements	3,264 38
Bridges, Trestles, and Culverts.....	14,049 83

FINANCIAL.

The financial condition at the close of the fiscal year is shown by the General Balance Sheet, Table No. 4.

During the year your Company has received from the Trustee \$2,000,000 General Lien Bonds, being the fourteenth and fifteenth millions of the \$17,000,000 of General Lien Bonds reserved for construction purposes.

On April 1, 1914, \$13,500,000 three-year five and one-half per cent. Collateral Gold Notes and on April 8, a special note maturing October 1, 1914, for \$1,000,000, were issued, the proceeds thereof being applied toward

Exhibit R-123.

the payment of \$12,500,000 Collateral Gold Notes and \$2,500,000 short term notes maturing April 8, 1914, \$500,000 of the last mentioned notes being retired.

Special promissory notes for \$5,000,000, due October 1, 1914, were issued on March 2, 1914, to cover amounts theretofore expended from current funds for construction purposes.

Statements of charges to "Additions and Betterments" shown herein explain the increase in the account "Investment Since June 30, 1907."

Depreciation on equipment during the year was \$1,234,163.44, as shown by the increase in the account "Reserve for Accrued Depreciation—Cr."

The increase in the account "Securities of Proprietary, Affiliated, and Controlled Companies—Pledged," "Funded Debt," is caused by including Erie & Jersey Railroad bonds and Genesee River Railroad bonds with the securities pledged under the indenture of April 8, 1914, securing payment of the special \$1,000,000 note mentioned above, less Chicago & Western Indiana Railroad bonds released from pledge and sold.

\$336,000 Erie Railroad Company Pennsylvania Collateral Bonds pledged under the Collateral Indenture of April 8, 1911, were released and sold; \$2,000,000 General Lien Bonds were pledged under the new Collateral Indenture dated April 1, 1914, which items explain the increase in the account "Securities Issued or Assumed—Pledged" "Funded Debt."

The decrease in "Securities of Proprietary, Affiliated, and Controlled Companies—Unpledged" "Funded Debt," is due to the pledging of the bonds of Erie & Jersey Railroad and Genesee River Railroad heretofore mentioned, and sale of \$174,000 Chicago & Western Indiana Railroad bonds, less a slight increase due to miscellaneous securities acquired.

"Advances to Proprietary, Affiliated, and Controlled Companies for Construction, Equipment and Betterments" increased \$68,100.24, representing amounts ad-

Exhibit R-123.

vanced to the Long Dock Company, Penhorn Creek Railroad Company and the Industrial Center Land Company.

Elmira, Corning & Waverly Railway bonds valued at \$686,875 acquired during the year, bonds of the same company, \$100,000, heretofore shown as unpledged, and New Jersey & New York Railroad Company capital stock, were pledged under the Indentures of April 1, 1914, and Mutual Terminal Company and other miscellaneous securities were acquired, which explains the changes in the accounts "Miscellaneous Investments"—"Securities Pledged" and "Securities Unpledged."

The decrease of \$814,562.12 in the account "Temporary advances to Proprietary, Affiliated, and Controlled Companies," is principally explained by credits account securities received from the Southern Tier Development Company and the Erie Land & Improvement Company, in reimbursement for advances made in previous years.

"Working Funds" decreased \$89,232.75 account of reduction in advances made to the Erie Despatch Fast Freight Line.

There is an increase of \$765,051.64 in the account "Cash and Securities in Sinking and Redemption Funds," representing increased balances in Akron & Barberton Belt Railroad, Chicago & Western Indiana Railroad and Pennsylvania Collateral Sinking Funds.

The increase in "Mortgage Bonds," "Collateral Trust Bonds" and "Equipment Trust Obligations" has been heretofore explained.

The decrease of \$55,465.89 in "Miscellaneous Funded Obligations" is due to the payment of real estate mortgages, reduction in obligations issued for construction work, less amount of mortgages assumed on property acquired during the year.

The account "Loans and Bills Payable," \$6,000,000, represents special notes maturing October 1, 1914, heretofore mentioned.

Exhibit R-123.

The increase of \$861,425.99 in the account "Reserves from Income or Surplus," represents 10 cents per ton on coal mined from the mines of the Pennsylvania Coal Company during the fiscal year, together with interest on the Erie Railroad Company Pennsylvania Collateral Bonds purchased by the Trustee and held in the Trust Account.

All of the securities for construction purposes turned over by the Erie Reorganization Committee have been converted into cash, as follows:

Value as placed on the Books, January, 1897.	Cash Realized from Sale.
\$115,200 00 Buffalo & Southwestern Railroad Second Lien Bonds	\$126,720 00
405,000 00 Erie Railroad Company Prior Lien Bonds....	414,000 00
364,055 22 New York & Greenwood Lake Railway Prior Lien Bonds	385,570 22
1,034,400 00 Erie Railroad Company General Lien Bonds...	1,214,908 93
630,000 00 Delaware & Hudson Ex- clusive Car Trust Certi- ficates	630,000 00
202,000 00 Car Trust of New York Certificates	202,000 00
<hr/> \$2,750,655 22	<hr/> \$2,973,199 15

In addition to these securities there have been certified by the Trustee of the Erie Railroad Company First Consolidated Mortgage Deed and turned over to your Company in reimbursement for expenditures already made, \$5,000,000 Erie Railroad Company Prior Lien Bonds and \$15,000,000 Erie Railroad Company General Lien Bonds; and by the Trustee of the Erie Rail-

Exhibit R-123.

road Company General Mortgage \$32,000,000 Erie
Railroad Company Convertible Bonds.

Of these securities the following have been converted
into cash:

Par Value.	Cash Realized, from Sale.
\$5,000,000 00 Erie Railroad Company Prior Lien Bonds....	\$4,539,884 27
3,000,000 00 Erie Railroad Company General Lien Bonds..	2,484,111 11

<hr/> \$29,015,000 00	<hr/> \$26,238,995 38

leaving still owned by the Company:

Erie Railroad Company General Lien Bonds	\$12,000,000 00
Erie Railroad Company Convertible Bonds	10,985,000 00

From December 1, 1895, to June 30, 1914, the Com-
pany has received cash from all sources for Construc-
tion and equipment purposes, as follows:

\$500,000 00 Sale of Erie & Wyoming Valley Rail- road Co. Capital Stock.	
500,000 00 Settlement of account with the Na- tional Transit Co.	
4,343,850 13 From the Erie Reorganization Com- mittee.	
2,973,199 15 Proceeds of sale of securities received from the Erie Reorganization Com- mittee.	
7,023,995 38 Proceeds of sale of securities received from the Farmers' Loan and Trust Co., Trustee.	
19,215,000 00 Proceeds of sale of securities received from the Standard Trust Company of New York, Trustee.	

Exhibit R-123.

\$9,382,081 23 Proceeds of sale of Collateral Gold Notes.

230,227 05 Proceeds of sale of securities received for the purchase of Erie & Wyoming Valley Railroad Equipment.

2,500 00 Sale of Pittsburgh, Chartiers & Youghiogheny Railroad Co. Bonds acquired from the Receivers of the New York, Lake Erie & Western Railroad Co.

457,867 50 Sale June 1, 1899, of Capital Stock of the Northern Railroad Company of New Jersey, originally paid for by the Erie Reorganization Committee from Construction Funds.

740,000 00 Sale of Union Dry Dock property and franchises.

107,989 22 Special Tax deposit made by Erie Reorganization Committee, returned June 14, 1901, by the British Government.

\$45,476,709 66

This amount has been applied to partially reimburse the Company for the following expenditures:

\$457,867 50 Purchase of Northern Railroad Company of New Jersey Capital Stock.

1,729,611 68 New York, Lake Erie & Western Car Trusts.

65,000 00 Payment of Mortgages on Real Estate.

348,377 50 Disbursed on account of Union Steamboat Company in liquidation of its affairs and in building or acquiring additional property.

111,241 84 Liquidating Receivership New York, Lake Erie & Western Railroad Company.

Exhibit R-123.

\$30,437,216 62 New Construction.

44,740,648 62 New Equipment.

\$77,889,963 76

Your Company has expended from current cash for construction and equipment purposes from December 1, 1895, to June 30, 1914, \$32,413,254.10, for which it is or will be entitled to be reimbursed from the sale of either Erie Railroad Company General Lien Bonds or Erie Railroad Company Convertible Bonds.

The amount shown as expended for "New Equipment" includes payments aggregating \$18,233,086.33 for cars and locomotives covered by equipment trusts.

GENERAL REMARKS.

Additions and Betterments to the property and equipment of the Company, aggregating \$14,475,703.33, have been made during the year, as per tables shown.

On March 2, 1914, special promissory notes for \$5,000,000, due October 1, 1914, were issued to cover amounts theretofore expended from current funds for construction purposes.

On April 8, 1914, the Company's notes aggregating \$15,000,000 matured, of which \$500,000 were retired, the balance being paid from the proceeds of \$13,500,000 Collateral Gold Notes maturing April 1, 1917, and a special note for \$1,000,000, maturing October 1, 1914.

The special notes, \$5,000,000 and \$1,000,000 mentioned above, have been renewed on favorable terms to March 1, 1915, and the Company's three-year Collateral Gold Notes, \$4,550,000, due October 1, 1914, have been renewed for one year.

The double tracking, grade reductions and changes of alignment between Marion, Ohio, and Lomax, Ind., is completed, with the exception of about two miles near Laketon, Ind., and four miles near Akron, Ind., the completion of the work at these two points having

Exhibit R-123.

been deferred in February, 1914. It is expected that the uncompleted portion will be finished by January, 1915.

With the completion of the work between Lomax and Griffith, Ind., for which surveys have been made, the double tracking of the Chicago & Erie Railroad will be accomplished.

The double tracking, grade reductions and changes of alignment on the Meadville Division between Red House and Steamburg, N. Y., and between Corry and Meadville, Pa., has been completed.

There were added to the floating equipment of the Company in New York Harbor one tug, one steam barge, thirty covered barges, two open barges, and one steel and two wooden car floats.

During the year thirty-five hundred box cars, five hundred drop-end gondolas, fifteen hundred hopper bottom gondolas, sixty locomotives, and twenty-five express cars were added to the equipment.

Grade crossings have been eliminated at Narrowsburg, Barton, East First Street, Corning, Columbia Street, Corning, Main Street, Buffalo, Delaware Avenue, Buffalo, Collins and Gowanda, N. Y.

The work of eliminating grade crossings at Nanuet, Otisville, Military Road, Buffalo, and Jamestown, N. Y., is in progress.

The Interstate Commerce Commission's order denying the application of the railroads for a five per cent. increase in freight rates resulted in further stagnating the business of your Company and the country. Attention is called to the minority report of the Commission. The carriers' application for a rehearing having been granted, it is hoped that a modification of the order may be obtained, which will furnish a substantial increase in revenues.

To avoid the so-called interlocking directorate feature involved, Messrs. H. P. Davison, James J. Goodwin, Robert S. Lovett, Charles A. Peabody and Charles

Exhibit R-123.

Steele resigned as Directors of your Company. Messrs. Dwight W. Morrow and Albert H. Wiggin were elected to the Board. Since the close of the fiscal year Mr. Dwight W. Morrow resigned and Mr. Gates W. McGarrah was elected to the Board.

Mr. D. W. Cooke was elected Vice-President and General Traffic Manager on January 28, 1914.

Mr. A. J. Stone was elected Vice-President and General Manager on July 1, 1914.

Mr. John C. Stuart, late Vice-President in charge of Operation, died March 4, 1914. He was a valued officer and had rendered your Company intelligent and loyal service for many years.

\$28,297,226.76, equivalent to 61.04 per cent. of the Total Operating Expenses, was paid by the Company direct to labor, being distributed among 38,782 employes.

The efficient services of the officers and employes are hereby acknowledged.

By order of the Board,

Respectfully submitted,

F. D. UNDERWOOD,
President.

*Exhibit R-127.***EXHIBIT R-127.**

Memorandum showing basis of estimate of additional revenue to be secured by the Erie R. R. Co. on account of advance in price of mileage books.

The number of mileage books issued and the value of the coupons collected during the year ended June 30, 1914, are as follows:

Kind	No. of Books Sold	Value of Mileage Coupons Collected
Trunk Lines	13,393	\$236,668.90
New York State	1,292	24,861.30
Form "C"	6,513	129,210.90
	<hr/>	<hr/>
	21,198	\$390,741.10
Proposed increase $12\frac{1}{2}\%$		
	$12\frac{1}{2}\%$ of \$390,741.10	\$48,842.64

Based on the above calculations the Erie R. R. Co. advised the Trunk Line Association that we estimated the proposed increase would amount to approximately \$50,000 to the Erie R. R. Co., and it is our understanding that this item was used in making up the total of all railroads, which was said to be ten millions of dollars.

This is on the assumption that there would be used in the future the same amount of mileage strips or coupons as were used in the year 1914, and does not take into consideration the fact that due to an increase in price a large number of people might change the form of transportation which they would use.

The Erie R. R. Co. has not yet decided to advance its rate for mileage books in the C. P. A. Territory, which is that part of our line west of Salamanca and Buffalo, although the Trunk Line books are also good for passage in C. P. A. Territory on the Erie R. R. as far as Youngstown, Ohio.

10.30.14.

Office of Principal Asst. Engineer.

New York, October 16, 1914.

Memorandum re Various Improvements

WEEHAWKEN TERMINAL IMPROVEMENT: The revision of Weehawken Terminal consists of the entire remodeling of the yard to increase its capacity and to provide receiving tracks sufficiently long so that incoming trains will not have to be cut at Willow Avenue. It embraces the extension of all the piers to the pier head line and double decking and widening Pier "A," the construction of a new fire-proof covered pier doubled decked, and the construction of two open piers for the handling of our heavy freight. Our present facilities are so small that the freight is only handled at excessive cost.

DUANE STREET IMPROVEMENT: Consists of extending existing piers to the pierhead line, renewing the present timber sheds which were built in 1880 and cutting off piles under timber sheds at low water and erecting pony bents, and putting on new flooring.

PIER No. 36, EAST RIVER, IMPROVEMENT: Our pier facilities in the East River are inadequate, which results in the crowding of the present Pier No. 7 so that the cost of handling traffic is much greater than it should be. It is proposed to lease from the City Pier No. 36 and, as that is an old structure, we would have to replace it with a modern pier in accordance with the approved plan of the City. The City's present policy is to require the leases to make all improvements.

PIER No. 67, NORTH RIVER, IMPROVEMENT: It is proposed to extend this pier to the pierhead line and remodel the shed. This is to be done to relieve the

Exhibit R-130.

station at 28th Street, as we are handling too much business there now to do it economically.

WEBSTER AVENUE CHICAGO, IMPROVEMENT: This improvement consists of freight and yard on the North Branch of the Chicago River to which freight is to be taken in cars on car floats. The idea is to relieve the congestion of our present freight facilities by establishing sub stations on the Chicago River for freight delivery.

ERIE STREET, CHICAGO, IMPROVEMENT: It is proposed to establish a freight station and yard tracks at Erie Street and Chicago River, for the same reason as at Webster Avenue. In addition, we have now at Erie Street a freight house which is served by our floats but the freight has to be unloaded by hand from the car floats into the house and from there on to teams. By putting in a transfer bridge and tracks as proposed, we will be relieved of 50% of the cost of freight handling at this station.

EIGHTEENTH STREET, CHICAGO, IMPROVEMENT: It is proposed to establish a transfer bridge at 18th Street so that cars can be loaded on car floats at that point from our main tracks for delivery to the various sub stations on the Chicago River. We are at present using the Chicago River & Indiana Railroad's transfer bridge at Robey Street for this purpose. By putting in the 18th Street bridge, we will enable our tugs to do 50% more work and, in addition, save about three hours' delay to all freight handled at Erie Street.

ERIE STREET STORAGE WAREHOUSE: It is proposed to erect a storage warehouse at Erie Street and Chicago River which will serve to relieve congestion at our lake line warehouse and also at 14th Street.

LAKE LINE STATION, BUFFALO, N. Y.: The State of New York proposes to widen the present entrance to

Exhibit R-130.

the Ohio Basin from the Buffalo River, as Ohio Basin is to be one of the barge canal ports. This will necessitate rebuilding one of our lake line freight houses and the extension and improvement of the other, as the widening of the canal cuts off part of our west-bound house.

W W D

ERIE RAILROAD COMPANY.

Supplementary Memoranda to Memoranda of October 16th, 1914, re Various Improvements. 
Office of Principal Assistant Engineer.

New York, October 22, 1914.

REVISION OF JERSEY CITY TERMINAL, INCLUDING NEW OFFICE BUILDING: Revision of Jersey City Terminal consists of the entire remodeling of the yard which is at present badly congested and hardly adequate to handle the present business even with much unnecessary expense. It can be remodeled in such manner as to materially decrease the switching expense and to insure more prompt delivery of freight. Economy can be effected by the construction of an office building for the use of departments which now have their headquarters in New York City. The yard is barely sufficient, as before stated, to take cars of our present business, and we have virtually completed the double tracking of our entire line and have made no terminal arrangements to take care of the increased business which is bound to come. This reason applies to all expenditures in previous memoranda and in these.

NEW MILL AT LONG DOCK, JERSEY CITY: We lease this mill to a Feed Company. It is especially valuable for such purposes on account of its proximity to our grain elevator. The mill is in such bad condition that we will either have to abandon it or renew it within the next five years.

Exhibit R-130.

DUANE STREET IMPROVEMENT: This is also necessary because it is probable that the City of New York will order us to put in new foundations under the present wooden sheds and to rebuild the wooden sheds. We hold this pier under a lease which gives the City power to enforce such an order.

28TH STREET STORAGE WAREHOUSE: The construction of this warehouse is necessary because we are unable, with the present facilities, to handle the business consigned to our 28th Street Station. We have now a large storage business there which is overcrowded, and consequently expensive, and we are continually forced to hold freight for this station in our Jersey City yard, which increases the congestion there and consequently increases our expense of operating the yard.

HARLEM RIVER TERMINAL, 150TH STREET: We are at present occupying, jointly with the D L & W R. R., a terminal at 135th Street. We will be forced out of this location shortly on account of the City's program for constructing subways which will so interfere with the operation of this joint yard that the D L & W, which controls it, will only be able to handle their own business there; consequently, we will have to provide a similar station at 150th Street.

BULKHEAD SHED, PIER No. 7, EAST RIVER: On account of increased business, our present bulkhead shed at Pier No. 7 is inadequate and we are handling the westbound business at that point at an extra cost. The construction of the new bulkhead shed will relieve the situation.

GRAIN ELEVATOR, BUFFALO, N. Y.: Our grain elevator at Buffalo burned down some time since, and it will be necessary, in order to maintain our grain business, to rebuild it in the near future. Conditions in the grain trade have changed so that there is a very lively movement between Buffalo and New York City.

Exhibit R-130.

DOCK, BUFFALO RIVER: The City of Buffalo, which has power to issue such orders, has given us an order to renew this dock immediately or they will renew it and collect the cost from us.

COAL DOCKS, BUFFALO: Our present coal docks will not last more than one or two years longer. We ship in the neighborhood of 1,000,000 tons of anthracite coal from this station a year. The station is old and the facilities are antiquated and expensive to operate. A saving of at least 5 cents per ton can be made here by the construction of a modern plant and, if we do not construct this modern plant, we will have to renew the existing coal trestle, which will cost more than to construct a modern plant.

ADDITIONAL COAL UNLOADER, CLEVELAND, O.: Our present car dumper on the Cuyahoga River is inadequate to handle the business in sight. We ship in the neighborhood of 1,000,000 tons a year of bituminous coal at this station and, if new facilities are provided in addition, we could cut out the service of one or two switch engines and handle the business of 3,000,000 tons a year which is in sight.

REBUILDING BULKHEAD, CLEVELAND: This consists of renewing bulkheads on the Cuyahoga River which have rotted and are no longer sufficient to keep our existing tracks and facilities from falling into the river.

ENGINE HOUSE, CROXTON, N. J.: Our present engine house at Croxton is in bad repair and needs renewal. Its location is such that it interferes with the proper arrangement of tracks at the east end of our main receiving yard on the meadows. It is proposed to build a new one to replace it beyond and west of County Road, where it will also serve to house the Jersey City engines which are not now housed in it, and this will materially relieve the congestion in the Jersey City yard, as well as relieving the congestion in our main receiving yard.

Exhibit R-131.

EXTENSION OF ORE STORAGE PLANT, NORTH RANDALL, OHIO: Our present ore storage plant is inadequate for the business. We have contracted to store ore of certain companies at North Randall and the extension of the plant is in virtual fulfillment of our contract obligations.

DUNMORE, PA. The present engine terminal at Dunmore is in dilapidated condition and is improperly arranged so that it can only be operated under additional expense. It is proposed to replace it with a modern engine terminal, which should materially decrease the operating expense at Dunmore.

EXHIBIT 21.*M. P. 401 to Cy Tower, Allegheny Division.*

This is a stretch of single track about four and a half miles long and is the only stretch on the main line of the Allegheny Division where there are not two tracks on which to handle business. This work was authorized together with other double tracking and grade reduction in 1906. This stretch should be double tracked and its alignment improved in order to eliminate delay in the operation of trains. Estimated cost \$514,000.

Steensburg to Jamestown.

On Meadville Division East after expending \$5,000.00 in partially providing an additional track and in reducing grades to .2% and .3% east and westbound respectively, there still remains on this division 18 miles of line on which grades should be reduced, 10 miles of which is single track. The division now is operated with two pusher grades or on a basis of $\frac{1}{2}$ grade. On this .8% grade an H-21 engine will haul 30-40 ton cars, while if the proposed improvement were carried out, the same engine and crew would haul 75-40 ton cars westbound and 94-40 ton cars eastbound. The additional track on the 10 mile

Exhibit R-131.

stretch would also furnish relief badly needed as the operation of our present business over single track on this division involves burdensome delays and consequent increased expense. This work is estimated to cost \$2,600,000.

Buchanan Junction to Shenango.

We have at present a single track between these points with ruling grades of about 1% in each direction. We operate some westbound freight trains over the Bessemer and Lake Erie Railroad between these points as this road has lower grades than ours. The Bessemer and Lake Erie R. R. throughout a large portion of this distance is also a single track railroad and cannot take care of our traffic in both directions, and we, of necessity, operate eastbound freight trains on our own line. The route by the Bessemer and Lake Erie R. R. is seven (7) miles longer than our line. We should double track and reduce grades between these points in order to provide a railroad adequate to handle our present business and that increase which is bound to come when the double tracking through to Chicago is completed. As an item of the saving in operating expense and greater capacity of low grade line, we estimate that an H-21 engine can haul 30-40 ton cars up a 1% grade as against 94-40 ton cars on a .2% grade and 75-40 ton cars on a .3% grade. We expect to reduce the grades on this division to .2% and .3% east and westbound respectively. The estimated cost of this work is \$1,204,000.

Pymatuning Junction to Youngstown.

This part of the Mahoning Division should be double tracked and grades reduced both ways on account of the heavy business through and out of Youngstown. Estimated cost \$300,000.

Completion of Work Marion to Lomax.

Authority was granted for the double tracking of the Chicago and Erie R. R. from Marion to Lomax

Exhibit R-131.

in 1912 and \$7,548,000. has been expended on this work. There still remains work to be done which is estimated to cost \$651,000. This work consisted of double tracking and reducing grades on 205 miles of railroad. The ruling grades were originally .5%. They have been reduced to .2% and .3% with the exception of two pushers grades immediately east and west of Huntington, Ind. This improvement will result in material saving in operation expenses and has already greatly increased the capacity of the railroad.

Lomax to Griffith.

Between Lomax and Hammond, the western end of the Railroad owned by the Erie Company, there still remains 36 miles on which grades must be reduced and additional track completed in order to secure entire benefit of the grade reduction and double tracking already done. The ruling grades on this portion of the line are .5%. It is proposed to reduce grades to .2% westbound and .3% eastbound. The Operating Division containing this stretch of track is 77 miles long and extends from Huntington, Ind. to Hammond and now of necessity must be operated on basis of .5% grade division. On this basis, an H-21 engine can haul 53-40 ton cars whereas if the improvements were completed the same engine and crew would handle 75 eastbound and 94 westbound, 40 ton cars. The estimated cost of this improvement is \$2,031,000.

Perrona Branch.

On account of congestion of traffic in and through New Castle, Pa., and in and through Sharon and south to West Middlesex, it is necessary at this time to double track these two stretches of this branch. The branch is operated jointly by the Erie and Pittsburg and Lake Erie RRs. It is proposed to establish passenger service on this branch but this cannot be done safely until the congested portions of it have been

Exhibit R-131.

double tracked. The portion of this expense which is to be borne in the first instance by the Erie Co. is estimated at \$386,000.

Pennsylvania detour Belfast.

In connection with the construction of the Genesee River R.R. which was a low grade line between Cuba on the Allegheny Division and Hunts on the Buffalo Division, to avoid two very bad grades on the Allegheny Division between Cuba and Hornell, it is now necessary to build a new stretch of track for the Pennsylvania & Rochester R. R., one of the constituents of the Pennsylvania System. The detour is necessary because of the failure of the arch carrying the Genesee River R. R. over their tracks. The detour is about $1\frac{1}{4}$ miles long and will cost \$100,000. The construction of this line is incident to the construction of the Genesee River Railroad and cannot be avoided.

Penhorn Creek Tangent Line.

In order to straighten the passenger tracks between the Hackensack River bridge west of Jersey City and Croxton and to give sufficient room for the development of Bergen Yard, it is necessary to construct about two miles of new double track railroad. Authority for this work was granted and it has been largely completed. The work is now at a standstill and has been for a year or more. The estimated cost to complete is \$80,000.

Grade Reduction and Two Additional Tracks Croxton to Suffern.

On account of the great congestion of passenger and freight business on the main line between Suffern and Jersey City, it is now very desirable and soon will be imperative to build two additional tracks so that the freight business may be handled on independent tracks from the passenger business. This will add very greatly to the safety of operation and will result in saving in operating expenses as it is proposed

Exhibit R-131.

to reduce grades at the same time. Ruling grades now in both directions are about 1%. Proposed ruling grades will be .2% against eastbound traffic and .6% against westbound traffic. The estimated cost is \$3,560,000.

The operating division, known as the New York Division, extends from Jersey City to Port Jervis a distance of about 88 miles. We have already built the Erie and Jersey R. R., a low grade double track freight line from Guymard a point nine miles east of Port Jervis to Highland Mills, a length of 38 miles and improved the Newburgh Short Cut, double tracking it and reducing grades to Newburgh Junction, about 4 miles, so that we now have a new double track low grade railroad 42.2 miles long avoiding the bad grades on the old line. The cost of this work was \$7,766,000. In order to get the entire benefit of this expenditure, it is necessary to reduce grades between Jersey City and Newburgh Junction. The proposed work between Croxton and Suffern before referred to is a part of this work. Between Suffern and Newburgh Junction grades should be reduced and two additional tracks built at an estimated cost of \$2,500,000, so that there is a further expenditure on the New York Division of about \$6,000,000 in order to secure the benefits of the low grades.

As a single illustration of an item of the saving in operating expenses, we estimate that an H-21 engine can handle 30-40 ton cars on the existing 1% grades in both directions between Suffern and Jersey City, whereas the same engine and crew could handle 94-40 ton cars on a .2% grade. The grades westbound are to be reduced to only .6% for two reasons:—First, this is the best that the topography of the country affords and second, a very large proportion of the cars westward on the main line from Jersey City are empty and the higher rate of grade is permissible. An H-21 engine will handle 81-20 ton cars on a .6% grade as against 54-20 ton cars on a 1% grade.

*Exhibit R-131.**Grade Revision on C. & M. V. R. R. between Youngstown and Cleveland.*

85% of the iron ore produced in the United States is produced in the Lake Superior region. This ore is transported by water to the lake ports in northern Ohio and Pennsylvania, and thence by rail to the mill districts in the Mahoning and Shenango Valley, and the Pittsburgh District. The five ports receiving the greater portion of this ore are Lorraine, Cleveland, Fairport, Ashtabula and Conneaut, and the traffic from these ports is competitive.

The traffic between Cleveland and Youngstown consists chiefly of iron ore eastbound and coal and coke westbound. Between these lake ports and the mill and mine districts there are seven lines of transportation competing with the C & M. V. R. R. Four of these lines are low grade lines. The ore traffic on the C & M. V. R. R. is not increased in proportion to the tonnage on the remainder of the Erie system. Expert engineers have attributed this to the physical condition of the line. They have estimated that with an increase of 2.4% over the traffic carried in 1913, the saving in operation over the present line would pay 5% interest on the estimated cost of the proposed low grade improvement. This saving in operation would increase with any further increase in traffic. It is necessary that this improvement be made in order that the C. & M. V. R. R. can maintain its place in the competitive transportation of ore, coal and coke.

The ruling grades on the present line are .8% in each direction. An H-21 engine can haul on these grades only 37-40 ton cars as against 75-40 ton cars on the proposed .3% grades. The loads of ore and coal average about 70 tons per car. An H-21 engine will haul 22 of these 70 ton cars on the present grades or 50-70 ton cars on the proposed grades.

*Exhibit P. S. R.-1.***EXHIBIT P.S.R.-1.**

Summary of features in connection with the proposed Erie Railroad grade crossing elimination at Paterson which affect Public Service Railway Company.

1.—PARK AVENUE AND MARKET STREET.

This location involves 1895 lineal feet of single track street railway. The present plans call for elevating the railroad tracks fifteen feet and depressing the street three feet, giving approximately fourteen feet clearance under the bridge girders. The grade of the street on the easterly side of the railroad will be run out at Straight Street and that on the westerly side will be run out at Railroad Avenue. The total estimated cost to the Railway Company on account of the improvement at this point is \$18,816.12, which includes excavation under our tracks. In addition, the change will result in a decrease in our Capital Account of \$1,858.54, which will also have to be provided for. The alignment of our tracks will not be affected.

2.—BROADWAY.

The proposed change at this location involves 1379 lineal feet of single track street railway. The plans call for the same elevation of the railroad tracks and the same depression of the street grade as at Park Avenue and Market Street. The grade on the easterly side of the railroad will be run out at a point about one hundred feet east of Straight Street, affecting also about one hundred feet on Straight Street northwardly from Broadway. The grade on the westerly side of the railroad will be run out at a point in our present crossover between Paterson Street and the railroad tracks. The total estimated cost to the Railway Company at this point is \$14,830.80, which includes the excavation under our tracks. The align-

Exhibit P. S. R.-1.

ment of our tracks at this location will not be affected by the improvement.

3.—RIVER STREET AND PUTNAM STREET.

The proposed change at this point involves 940 lineal feet of double track street railway. The railroad tracks are to be elevated fourteen feet and the street depressed about three feet, giving a clearance under the bridge girders of about fourteen feet. The grade will be run out at Warren Street on the westerly side of the railroad and at Lyons Street on the easterly side of the railroad. The plans call for closing up the present River Street crossing, the reason given by Engineer Harder's office being on account of the sharp incline of crossing making such an expensive type of bridge necessary to carry the railroad over the street, should River Street be maintained in its present alignment. One opening under the elevated structure is to be provided to accommodate traffic from both Putnam and River Streets, making necessary a detour in our tracks and the installation of a sharp reverse curve. This means a very bad operating condition, both because of the sharp curve with increased track and equipment maintenance, and because of the obstructed view and traffic congestion which is bound to result. This proposed blocking of River Street should, therefore, be strenuously opposed by our Company. The estimated cost to the Railway Company is \$8,659.00, which includes excavation under the railway tracks.

4.—MADISON AVENUE.

Our track does not cross the railroad at this point, but turns from Madison Avenue into Railway Avenue, on which street it parallels the railroad. The plans call for depressing the railroad tracks ten feet and raising the grade at the junction of Railway and Madison Avenue twelve feet, the streets to cross the railroad above grade. The grade on Railway Avenue

Exhibit P. S. R.-1.

will be run out at Iowa Avenue and that on Madison Avenue at a point between Railway Avenue and 23rd Avenue. This proposition involves 1028 lineal feet of single track street railway, and the estimated cost to the Company is \$14,621.33, which includes the fill under the railway tracks.

5.—CLAY STREET.

Our track does not cross the railroad at this point, but turns from Straight Street into Clay Street, both of which streets diverge from the railroad tracks. The plans call for raising the railroad tracks nine feet and depressing the streets at their intersection about seven feet, running out the grade on Clay Street at Madison Street and on Straight Street at Bond Street, making the streets cross the railroad tracks under grade. This proposition involves 614 lin. ft. of street railway, and the estimated cost to the Company is \$5,351.52, which includes the excavation under the railway tracks.

Cons. \$1 and other valuable cons.

Passaic County.

CONVEYS all those certain tracts or parcels of land and premises, hereinafter particularly described, situate, lying and being in the City of Paterson, in the County of Passaic and State of New Jersey:

FIRST TRACT: Beginning at the corner formed by the intersection of the northerly side of Matlock Street with the Westerly side of Hamburg Avenue and running thence (1) Westerly along the Northerly side of Matlock Street one hundred and nineteen feet and three inches to lands now or formerly of Blauvelt; thence (2) along the same North fifty eight degrees and ten minutes West twenty-five feet and ten inches; thence (3) North thirty-seven degrees and thirty minutes east seven feet; thence (4) North forty-seven degrees and thirty five minutes west forty-nine feet and six inches; thence (5) North thirty four degrees and thirty minutes East five feet and three inches; thence (6) North fifty-four degrees and three minutes West twenty-six feet to lands now or for-

Exhibit B. O. 2.

merly of Thomas D. Honey; thence (7) Easterly along the same and at right angles to Hamburg Avenue ninety-nine feet to the Westerly side of Hamburg Avenue and thence (8) Southerly along the same one hundred feet to the place of beginning.

Being the premises known and designated as the brewery lots.

SECOND TRACT: Beginning in the line of division between lands of John J. Blauvelt and lands of Sarah J. and James A. Graham at a point distant twenty-five feet northwesterly from the westerly line of Matlock Street in the rear of the brick copper shops of Graham and Company, and running thence (1) along said line produced northwesterly and parallel with Hamburg Avenue fifty feet to a point; thence (2) northeasterly and parallel with Matlock street five feet; thence (3) northwesterly parallel with the first course twenty five feet; thence (4) northeasterly parallel with Matlock Street fourteen feet and eighty-eight hundredths of a foot; thence (5) Southeasterly twenty-five feet and seventy-five hundredths of a foot to a point; thence (6) South thirty five degrees and twenty-four minutes west four feet and fifty hundredths of a foot; thence (7) South forty-four degrees and forty-six minutes east fifty feet; thence (8) South thirty-five degrees and twenty-four minutes west seven feet to the place of beginning.

The above two tracts being the same premises conveyed to the Paterson Consolidated Brewing Company by Sarah J. Graham by deed dated January 13, 1893, and recorded in the Clerk's office of Passaic County in Book C 11 of Deeds on pages 455, &c.

THIRD TRACT: Beginning at the corner formed by the intersection of the Easterly line of Marshall Street (formerly called the Bloomfield Road) with the Southerly line of Braun Street (formerly called William Street) and running thence (1) Southerly along the Easterly line of Marshall Street seventy-

Exhibit 8. O. 2.

four feet and eight hundredths of a foot (74.08/100); thence (2) Easterly parallel with Braun Street two hundred and one feet and twenty-five hundredths (201.25/100) of a foot to the Westerly line of Chadwick street; thence (3) Northerly along the Westerly line of Chadwick street seventy-four feet and eight hundredths (74.08) of a foot to the Southerly line of Braun street and thence (4) Westerly along the Southerly line of Braun street two hundred and one feet and twenty-five (201.25/) hundredths of a foot to the easterly line of Marshall street and the place of beginning.

FOURTH TRACT: Beginning in the Easterly line of Chadwick Street and in the division line between the property formerly of Christian Braun and the property now or lately of John Peter Post and running thence (1) Easterly along said division line fourteen feet and fifty-one hundredths (14.50/100) of a foot to a bend in said division line, thence (2) North-easterly in a straight line and still along said division line and the division line between the said Christian Braun and the School House Plot belonging to the City of Paterson one hundred and ninety one (191) feet to a point in line with the Northerly line of the Brick stable now on the property formerly of said Christian Braun; thence (3) Northwesterly and along said northerly line of said Brick stable and in the prolongation thereof seventy two feet and fifty hundredths (72.50/) of a foot to the dividing line between the property formerly of said Christian Braun and the property now or lately of Mary Phalon, thence (4) Southwesterly along said division line One hundred and seventeen feet and ten hundredths of a foot to the Easterly line of Chadwick street; and thence (5) Southeasterly along the same One hundred and nine feet and sixty-one hundredths of a foot (109.60) to the place of beginning.

Exhibit S. O.-2.

The above two tracts as shown on map of property (formerly of Christian Braun made by Wm. Ferguson C. E., March 1890; and being the same premises conveyed to The Paterson Consolidated Brewing Company by Christian Braun and others by deed dated March 6, 1890 and recorded in the Clerk's Office of Passaic County in Book Y 9 of Deeds on pages 354 &c.

FIFTH TRACT: Beginning at the intersection of the Westerly line of Straight street with the Northerly line of Cedar street, thence running (1) Northerly along the Westerly line of Straight street one hundred and twenty-five feet; thence (2) Westerly parallel with Cedar Street about one hundred and ninety two feet to the Easterly line of Ramapo Avenue; thence (3) Southerly along the Easterly line of Ramapo Avenue one hundred and twenty-five feet to the Northerly line of Cedar Street and thence (4) Easterly along the Northerly line of Cedar Street one hundred and ninety two feet to the place of beginning.

Being lots 394, 396, 398, 400 and 402 Straight street and 66, 67, 68, 69 and 70 Ramapo avenue as laid down on the official map of the City of Paterson.

Also the rights in relation to laying and maintaining a switch tract conveyed to James A. Graham by Esther Ann Beckwith by deed dated November 12, 1886 and recorded in said Clerk's office in Book U 8 of Deeds page 299 &c. The above described tract being the same premises conveyed to The Consolidated Brewing Company by James A. Graham by deed dated March 6, 1890 and recorded in the Clerk's Office of Passaic County in Book Y 9 of Deeds on pages 352 &c.

SIXTH TRACT: Beginning in the Westerly line of Marshall Street at the point where said line is intersected by the division line between lands formerly of James M. Powers and lands formerly of Conrad

Exhibit S. O.-2.

Plock, about one hundred and eighty seven feet and five inches to the line of the Morris Canal; thence (2) Northerly along the line of said Canal seventy five feet, thence (3) Easterly parallel with the first line about one hundred and eighty seven feet and five inches to Marshall Street and thence (4) Southerly along Marshall street seventy five feet to the place of beginning.

SEVENTH TRACT: Beginning in the Westerly line of Marshall street at the Northeast corner of a lot heretofore conveyed to the said Gustav Sprattler and Christian Mennel by John M. Powers and wife and running thence (1) Northerly along Marshall street twenty five feet thence (2) Westerly parallel with the line of said party of the first part one hundred and eighty seven feet, five inches more or less to the line of the Morris Canal, thence (3) Southerly along the same twenty five feet to the aforesaid line of the party of the first part and thence (4) Easterly along the same one hundred and eighty seven feet and five inches more or less to the place of beginning.

EIGHTH TRACT: Beginning in the Westerly line of Marshall street at the Northeast corner of a lot conveyed to Gustav Sprattler and Christian Mennel by John M. Powers and wife by deed dated November 18, 1873, recorded in Book Z 4 of Deeds for the county of Passaic, pages 164 &c. and running thence (1) Northerly along Marshall street twenty-five feet thence (2) Westerly parallel with the line of the aforesaid lot of the party of the first part one hundred and eighty seven feet and five inches more or less to the line of lands of the Morris Canal, thence (3) Southerly along said Canal twenty-five feet to the aforesaid lot of the party of the first part, and thence (4) Easterly along the same one hundred and eighty seven feet and five inches to the place of beginning.

Exhibit S. O. 2.

NINTH TRACT: Beginning at a point in the Westerly line of Marshall Street distant one hundred and twenty five feet Northerly from the Northerly line of a lot of land of Conrad Ploch running thence (1) Westerly at right angles from Marshall Street one hundred and ninety feet (190) to the line of lands of the Morris Canal and Banking Company thence (2) Northerly along the same five and three quarter ($5\frac{3}{4}$) inches, thence (3) Easterly one hundred and ninety feet to Marshall street; and thence (4) Southerly along Marshall street seven and seven eighths ($7\frac{7}{8}$) to the place of beginning.

It is hereby understood and agreed that the said party of the second part or its successors or assigns are to be permitted to allow any and all projections of the roof or cornice of their building to be and remain as the same now are until such time as John M. Powers or any purchaser of the lands adjoining the lands above described or their heirs and assigns shall require the lands so encroached upon by reason of said projection for the purpose of erecting a building thereon.

TENTH TRACT: Beginning at the point where the westerly line of Marshall street intersects the Northerly line of a road laid out May 7th, 1833, which road is now called Van Winkle street, and running from thence (1) Westerly along the Northerly line of Van Winkle street one hundred and forty five feet to a corner in said street or road; thence (2) Northerly along another line of said road fifty feet; thence (3) Easterly parallel with the first course, to Marshall Street and thence (4) Southerly along Marshall street fifty feet to the place of beginning.

The above described five tracts constituting the Brewery plant with all the appurtenances thereto belonging as now used and occupied by the party of the first part and further being the same premises conveyed to The Paterson Consolidated Brewing

Exhibit S. O.-2.

Company by Christian Mennel and Catharine Spratler by deed dated March 6, 1890, and recorded in the Clerks office of Passaic County in Book X 9 of Deeds on pages 433 &c.

ELEVENTH TRACT: Beginning at the corner formed by the intersection of the Northerly line of Governor Street with the Easterly line of Straight street from thence running (1) Easterly along the north line of Governor street one hundred and ninety-four feet and seventy seven hundredths of a foot to a point distant four hundred feet Westerly from the West line of Summer street thence (2) Northerly at right angles from Governor street one hundred feet thence (3) Westerly parallel with Governor street one hundred and ninety one feet and seven hundredths of a foot to Straight Street; thence (4) Southerly along Straight street one hundred feet and eight hundredths of a foot to Governor Street and the place of beginning.

Being lots numbers ninety nine to one hundred and five alternately on map U of Society U M Straight street, numbers eighty nine to ninety five alternately on same map Governor Street.

TWELFTH TRACT: Beginning at the corner formed by the intersection of the Northerly line of Governor street with the westerly line of Straight street and thence running (1) Westerly along the Northerly line of Governor Street forty two feet and fifteen hundredths of a foot to the Easterly line of the New York, Lake Erie and Western Railroad thence (2) Northerly along the easterly line of said railroad one hundred and twenty three feet and sixty eight one hundredths of a foot to the westerly line of Straight street; thence (3) Southerly along said line of Straight street one hundred and fourteen feet and seventy two one hundredths of a foot to the place of beginning.

Exhibit S. O. 2.

Containing two thousand four hundred and sixteen square feet.

THIRTEENTH TRACT: Beginning in the Easterly line of Straight street at a point distant one hundred feet Northerly at right angles from the Northerly line of Governor Street running thence (1) Northerly along the Easterly line of Straight street four feet and eighty seven hundredths of a foot to a bend in the same thence (2) Northerly still along the Easterly line of Straight street twenty-two feet and fifty-eight hundredths of a foot to the Southerly line of lot number 95 thence (3) Easterly along said line of lot number 95 and parallel with Governor street one hundred and six feet and forty-four hundredths of a foot to the Westerly line of lot number 84 fronting on Harrison Street, thence (4) Southerly at right angles to the last mentioned course twenty five feet to a point distant one hundred feet Northerly at right angles from the Northerly line of Governor street, thence (5) Westerly parallel with Governor Street one hundred and sixteen feet and seven hundredths of a foot to the Easterly line of Straight street and the place of beginning.

Being lot number 97 as laid down on map U of property of Society for Establishing Useful Manufactures made by A. A. Fonda C. E.

FOURTEENTH TRACT: Beginning at the corner formed by the intersection of the Southerly line of Harrison Street with the Easterly line of Straight street, thence running (1) Easterly along the South line of Harrison Street two hundred and two feet and ninety hundredths of a foot thence (2) Southerly at right angles from Harrison Street ninety five feet and sixty seven hundredths of a foot to the North line of lots fronting on Governor Street; thence (3) Westerly along the rear line of said lots one hundred and twenty five feet to line of lot now of said party of the first

Exhibit S. O. 2.

part, thence (4) Northerly along said lot twenty five feet to the Northeast corner of same thence (5) Westerly still along the North line of said lot one hundred and six feet and forty-four hundredths of a foot to Straight street thence (6) Northerly along Straight street seventy five feet and ninety one hundredths of a foot to Harrison Street and the place of beginning.

Being lots numbers 91, 93 and 95 Straight Street and lots numbers 84, 86, 88, 90 and 92 Harrison Street as laid down on Map U of lots of said Society U. M.

FIFTEENTH TRACT: Beginning in the North line of Governor Street and at the Easterly line of land now of said company distant one hundred and ninety four feet and seventy seven hundredths of a foot Easterly from Straight Street; thence running (1) Northerly along said line one hundred feet to the south line of lots of said company, thence (2) Easterly along same and beyond same and parallel with Governor Street seventy five feet, thence (3) Southerly parallel with the first line one hundred feet to Governor street and thence (4) westerly along Governor street seventy five feet to the point of beginning.

Being lots numbers 97, 99 and 101 Governor street as laid down on Map U of lots of the Society U. M.

SIXTEENTH TRACT: Beginning in the South line of Harrison Street at the distance of two hundred and two feet and ninety hundredths of a foot Easterly from Straight street thence (1) Southerly along the East line of land of said Paterson Consolidated Brewing Company ninety five feet and sixty seven hundredths of a foot to another line of said Brewing Company's land; thence (2) Easterly along the same twenty five feet; thence (3) Northerly parallel with the first course ninety five feet and seventy three hundredths of a foot to Harrison Street and thence (4) Westerly along Harrison street twenty five feet to the place of beginning.

Exhibit D. F.-1.

Being lot numbers 94 Harrison Street as laid down on map U of lots formerly of the Society U. M.

The last six described tracts constituting the Brewery plant with all the appurtenances thereto belonging as now used and occupied by the parties of the first part and further being the same premises conveyed to the Paterson Consolidated Brewing Company by The Burton Brewing Company by deed dated March 6, 1890, and recorded in the Clerk's Office of Passaic County in Book X 9 on pages 427 &c.

It is also intended hereby to convey all the fixed machinery of every kind and description in all the buildings on the above described sixteen tracts of land including engines, boilers, ice machines, shafting, piping, &c.

CONVEYS IN FEE, all those certain tracts or parcels of land and premises, hereinafter particularly de-

Exhibit D. F. 1.

scribed, situate, lying and being in the City of Paterson, in the County of Passaic and State of New Jersey:

FIRST TRACT: Beginning at the southerly corner of River Street and Keene (formerly called Greene) Street, and running thence (1) easterly along Keene Street one hundred and twenty-nine feet and eighty-eight hundredths of a foot to the Paterson and Ramapo Railroad; thence (2) southerly along the said railroad one hundred and eight feet and five hundredths of a foot; thence (3) westerly parallel with Keene Street one hundred and sixty-nine feet and five tenths of a foot to River Street and thence (4) northeasterly along River Street one hundred and twenty-eight feet and thirty-eight hundredths of a foot to the place of beginning.

Being the same premises described in a deed from Sarah J. Fullerton and others to Emmons T. Fullerton and Ethelbert G. Fullerton, dated October 1st, 1901, recorded in the Passaic County Clerk's office in Book C 15 of deeds, pages 571 &c.

SECOND TRACT: Beginning on the westerly side of East Fifth (formerly Pearl) Street in the most southerly line of lands formerly belonging to Edward Van Houten, running from thence (1) northeasterly along the westerly line of East Fifth Street, one hundred feet; thence (2) northwesterly at right angles to said East Fifth Street about one hundred feet to the Passaic River; thence (3) southerly along Passaic River one hundred feet to the said most southerly line of land formerly belonging to Edward Van Houten; thence (4) southeasterly along the same one hundred and three feet and seven inches to the place of beginning.

THIRD TRACT: Beginning in the westerly line of East Fifth Street at a point in the same one hundred feet northerly from Warren Street and running from

Exhibit D. F. J.

thence (1) westerly at right angles with East Fifth street to the easterly line of the Passaic River; thence (2) northerly along the same about fifty feet; thence (3) easterly at right angles with East Fifth Street to the westerly line of the same; thence (4) southerly along the westerly line of East Fifth Street fifty feet to the place of beginning.

FOURTH TRACT: Beginning at a point in the westerly line of East Fifth Street one hundred and fifty feet northerly from Warren street, and running from thence (1) westerly at right angles from East Fifth Street to the easterly line of the Passaic River; thence (2) northerly along the same one hundred and twenty-five feet; thence (3) easterly at right angles with East Fifth Street to the westerly line of East Fifth Street; thence (4) southerly along the same one hundred and twenty-five feet to the place of beginning.

The three tracts of land last above described are the same as conveyed by Sarah J. Fullerton and others to Emmons T. Fullerton and Ethelbert G. Fullerton by deed dated October 1st, 1901, and recorded in the Passaic County Clerk's Office in Book C 15 of Deeds, pages 557 &c.

Also all those certain tracts or parcels of land and premises, hereinafter particularly described, situate, lying and being in the City of Passaic, County of Passaic and State of New Jersey.

FIRST TRACT: Beginning at a point on the westerly side of Central Avenue one hundred and forty five feet southerly from line of lands of Henry P. Simmons; said point of beginning being the southeasterly corner of lands now or formerly of Miriam H. Demarest, running thence (1) westerly along said Demarest's line one hundred and seven feet more or less to the right of way of the New York, Lake Erie and Western Railroad Company; thence (2) southerly

Exhibit D. F-1.

and along said right of way fifty feet; thence (3) easterly and parallel with the first course one hundred and seven feet, more or less, to the westerly side of Central Avenue; thence (4) northerly along said westerly side of Central Avenue fifty feet to the point or place of beginning.

SECOND TRACT: Beginning at a point on the westerly side of Central Avenue where the southerly line of lands of David Fullerton and the property herein described intersect each other, and running thence (1) westerly and along said division line one hundred and seven feet more or less to the line of the Erie Railway Company; thence (2) southerly and along said line six feet and six inches more or less to the lands of the said railroad; thence (3) easterly and parallel with the first course one hundred and seven feet more or less to the said side of Central Avenue and thence (4) northerly and along the same six and one-half feet to the point or place of beginning.

Being the same premises described in a deed from Sarah J. Fullerton and others to Emmons T. Fullerton and Ethelbert G. Fullerton, dated October 1st, 1901, and recorded in the Passaic County Clerk's Office in Book C 15 of deeds, pages 562 &c.

FIRST CONSOLIDATED MORTGAGE DEED

ERIE RAILROAD COMPANY

TO

THE FARMERS' LOAN AND TRUST COMPANY

TRUSTEE

Dated December 10, 1895.

STETSON, TRACY, JENNINGS & RUSSELL

GENERAL COUNSEL

15 Broad Street, New York

Exhibit R-118.

This Indenture, made this tenth day of December, in the year one thousand eight hundred and ninety-five, between

ERIE RAILROAD COMPANY, a corporation created by, and existing under, the laws of the State of New York, hereinafter called the "Railroad Company," party of the first part, and

THE FARMERS' LOAN AND TRUST COMPANY, of New York, a corporation created by and existing under the laws of the State of New York, hereinafter called the "Trustee," party of the second part.

WHEREAS, the Railroad Company, party of the first part, owns, possesses, controls or leases divers lines of railway together with franchises, rights, privileges, lands, tenements and hereditaments thereunto belonging or appertaining, on which lines of railway or various portions thereof and of the equipment thereof, bonds, secured by mortgages, and other liens are now outstanding;

AND WHEREAS, the Railroad Company owns various stocks and bonds, including stock and bonds of the Chicago and Erie Railroad Company, a corporation of Indiana;

AND WHEREAS, all such railroads, properties, leaseholds, stocks and bonds have been received by the Railroad Company by, under or in pursuance of a certain plan of reorganization of the New York, Lake Erie and Western Railroad Company and subordinate companies, and of the transfer to it, or for its benefit, of various stocks, bonds and other properties so transferred to or for its benefit by Charles H. Coster, Louis Fitzgerald and Anthony J. Thomas the Committee named in the Certificate of Incorporation of the Railroad Company, upon the express promise and agreement of the Railroad Company, among other things, to make, execute, issue and use its bonds as herein provided, including a limited issue thereof from time to time to be made to the said Coster, Fitzgerald and Thomas, jointly and not severally, or their survivors or successors, and further issues thereof to be made for the redemption and acquisition of bonds and stocks, and equipment liens and for new acquisitions, construction and betterments, all as herein provided;

Exhibit R-118.

AND, WHEREAS, the Board of Directors of the Railroad Company, at a meeting thereof held at New York on the nineteenth day of November, in the year eighteen hundred and ninety-five, adopted a resolution in the following words; that is to say:

Resolved, That the President and the Secretary of the Erie Railroad Company be, and they are hereby, authorized and directed, in its behalf and under the corporate seal, when approved by the stockholders, and in form substantially that now submitted to this Board, to execute and deliver a mortgage or deed of trust upon the property and franchises of the corporation to be known as its "First Consolidated Mortgage Deed," to The Farmers' Loan and Trust Company, as Trustee, to secure two issues of bonds, one to the aggregate amount of \$35,000,000, to be called "Prior Lien Bonds," and the other and remaining issue of bonds, to the aggregate amount of \$140,000,000, to be called "General Lien Bonds," the principal of both such issues of bonds to be payable in gold coin of the United States, of the present standard of weight and fineness, at the office or agency of this Company in the City of New York, on the 1st day of January, 1896, with interest thereon at the rate of four per cent. per annum, except that for two years from July 1st, 1896, the General Lien bonds shall bear interest at the rate of three per cent. per annum; all interest to be payable semi-annually in like gold coin at the said office or agency on the first days of January and July in each year; such bonds to be issued and disposed of, on the terms and conditions, for the purposes and in the manner set forth in said form of mortgage.

AND WHEREAS, it was also resolved by the Board of Directors of the Railroad Company at said meeting that the President, or any Vice-President, and the Secretary, or any Assistant Secretary of the Railroad Company or of any railroad company being lawful and sole successor to the Railroad Company for the time being, should from time to time, as directed by the Board of Directors of the Railroad Company or of its said successor, execute, in the behalf and name of the Railroad Company, and under its corporate seal, the two issues of bonds, to be secured by the said mortgage to the aggregate amount of one hundred and seventy-five million dollars (\$175,000,000), the said two issues to be respectively: "Prior Lien Bonds," for an aggregate principal amount of \$35,000,000, and "General Lien Bonds," subordinate and subject in lien to the Prior Lien Bonds,

Exhibit R-118.

for an aggregate principal amount of \$140,000,000; such bonds to be substantially of the following tenor, to wit:

[FORM OF PRIOR LIEN BOND.]

No.

\$1,000.

UNITED STATES OF AMERICA.

ERIE RAILROAD COMPANY.

PRIOR LIEN FOUR PER CENT. GOLD BOND.

Secured by First Consolidated Mortgage Deed.

KNOW ALL MEN BY THESE PRESENTS, That ERIE RAILROAD COMPANY, a corporation hereinafter called the "Railroad Company," for value received, promises to pay to the bearer, or, if registered, to the registered holder, One Thousand Dollars in gold coin of the United States of the present standard of weight and fineness, on the first day of January, in the year 1996, at the office or agency of the Railroad Company in the City of New York, N. Y., with interest at the rate of four per cent. per annum from January 1, 1896, payable semi-annually at said office or agency in like gold coin on the first days of January and July in each year, but only upon surrender of the annexed coupons therefor as they severally mature.

Both the principal and interest of this bond are payable without deduction for any tax or taxes which the Railroad Company may be required to pay or to retain therefrom, under or by reason of any present or future law, the Railroad Company hereby agreeing to pay all such tax or taxes.

This bond is one of a series of coupon and registered bonds of the Railroad Company, known as "Prior Lien Bonds," duly authorized and approved by the Directors and Stockholders of the Railroad Company, issued and to be issued, but so that the aggregate amount of such Prior Lien Bonds at any one time outstanding shall never exceed the total sum of \$35,000,000. All of such Prior Lien Bonds are equally secured by a mortgage deed dated December 10th, 1895, executed by said Railroad Company to the Farmers' Loan and Trust Company of New York, as Trustee, of all the property and franchises of the Railroad Company mentioned in said mortgage deed, to which reference is hereby made for a description of the property and

Exhibit R-118.

franchises mortgaged and the nature and extent of the security and the rights of the holders of said bonds under the same.

This bond may be registered as to principal in the owner's name on the Company's books, at its office or agency in the City of New York, such registry being noted on the bond by the Company's transfer agent, after which no transfer shall be valid unless made on the Company's books by the registered owner, and similarly noted on the bond; but the same may be discharged from registry by being transferred to bearer, after which transferability by delivery shall be restored; but it may again from time to time be registered or transferred to bearer as before; such registration, however, shall not affect the negotiability of the coupons by delivery merely. This bond is also exchangeable for registered bonds without coupons, as provided in said mortgage or deed of trust.

After the expiration of the Voting Trust authorized in the Certificate of Incorporation, the holder hereof shall have the right to vote as described in said certificate.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate hereon endorsed of the Trustee under said mortgage deed.

IN WITNESS WHEREOF, the Erie Railroad Company has caused these presents to be signed by its President or one of its Vice-Presidents, and its corporate seal to be hereunto affixed, and to be attested by its Secretary or Assistant Secretary, and coupons for said interest with the engraved signature of its Treasurer to be attached hereunto this tenth day of December, 1895.

\$

KNOW ALL MEN BY THESE PRESENTS: That ERIE RAILROAD COMPANY, a corporation hereinafter called the "Railroad Company," for value received, promises to pay _____ or assigns, the sum of _____ dollars, in gold coin of the United States of the present standard of weight and fineness, on the first day of January, in the year 1996, at the office or agency of the Railroad Company in the City of New York, and to pay interest thereon from the first day of January or July, as the case may be, next preceding the date hereof, at the rate of four per cent. per annum, payable semi-annually in like gold coin, at said office or agency, on the first days of January and July in each year, until payment of said principal sum.

Both the principal and interest of this bond are payable without deduction for any tax or taxes which the Railroad Company may be required to pay or to retain therefrom under or by reason of any present or future law; the Railroad Company hereby agreeing to pay all such tax or taxes.

This bond is one of a series of coupon bonds and registered bonds of the Railroad Company, known as Prior Lien bonds,

Exhibit R-118.

duly authorized and approved by the Directors and Stockholders of the Railroad Company, issued and to be issued, but so that the aggregate amount of such Prior Lien bonds, both coupon and registered, at any one time outstanding, shall never exceed the total sum of \$35,000,000. All of such Prior Lien bonds are equally secured by a Mortgage Deed, dated December 10th, 1895, executed by said Railroad Company to the Farmers' Loan and Trust Company of New York, as Trustee, of all the property and franchises of the Railroad Company mentioned in said mortgage deed, to which reference is hereby made for a description of the property and franchises mortgaged, and the nature and extent of the security and the rights of the holders of said bonds under the same, and the terms and conditions upon which said bonds are issued and secured.

This bond is transferable by the registered holder thereof, in person or by attorney duly authorized, on the Company's books at its office or agency in the City of New York, upon surrender and cancellation of this bond, and a new registered bond will be issued to the transferee in exchange therefor, as provided in said mortgage deed.

After the expiration of the Voting Trust authorized in the Certificate of Incorporation, the holder hereof shall have the right to vote as described in said certificate.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate, hereon endorsed, of the Trustee under said mortgage deed.

IN WITNESS WHEREOF, the Erie Railroad Company has caused these presents to be signed by its President, or one of its Vice-Presidents, and its corporate seal to be hereunto affixed and to be attested by its Secretary or Assistant Secretary this day of

1439

Exhibit R-118.

did, in the manner and form provided by and in Section 2 of the Stock Corporation Law of the State of New York, consent to the issue of this mortgage, which consent is in writing, and has been filed and recorded in the office of the Clerk of the City and County of New York, and also in the office of the Register of the City and County of New York, that being the County in which the Railroad Company has its principal place of business.

AND WHEREAS, the printed form of mortgage submitted to and approved by the Board of Directors at their said meeting, and submitted to the stockholders of the corporation at the time of the execution of their consent as aforesaid, was in the form of this indenture.

AND, WHEREAS, In pursuance of said resolutions and consent and of all and every legal power and authority in it vested, the Railroad Company proposes to make and execute, and from time to time to issue and deliver bonds of both the issues secured hereby.

Now, therefore, this indenture witnesseth:

That in order to secure the payment of the principal and interest of all such bonds at any time outstanding and lawfully issued, as provided in such bonds and in this indenture, and the performance of all the covenants and conditions herein contained,

THE RAILROAD COMPANY, party of the first part,

In consideration of the premises and of the purchase and acceptance of such bonds by the holders thereof, and of the sum of one dollar to it duly paid by the Trustee at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, has executed and delivered these presents with all the covenants and conditions thereof, and has granted, bargained, sold, aliened, remised, released, conveyed, confirmed, assigned, transferred and set over, and by these presents does grant, bargain, sell, alien, remise, release, convey, confirm, assign, transfer and set over unto

THE TRUSTEE, party of the second part, its successors and assigns forever:

ALL THE ESTATE, RIGHT, TITLE AND INTEREST of the Railroad Company of, in and to:

Exhibit R-118.

ALL AND SINGULAR the railway of the Railroad Company, from and including Piermont, on the Hudson River, in the State of New York, to and including the terminus of the said railway on Lake Erie at or near Dunkirk, in said State, and the railway known as the Newburgh Branch, from Newburgh to the main line, and also all that part of the railway designated as the Buffalo Branch of the Erie Railway extending from Hornellsville to Attica, in the State of New York, also that part of the railway known as the Newburgh and New York Railroad, extending from Turners on the main line to Vail's Gate on the Newburgh branch; also the railway formerly belonging to the Lockport and Buffalo Railroad Company and extending from Lockport to Black Rock, both in the State of New York; also the railway formerly belonging to the Erie International Railway Company, and extending from a point of connection with Suspension Bridge and Erie Junction Railroad in Niagara County to International Bridge in Erie County, both in the State of New York; and also all other railways now belonging to the Railroad Company in the States of New York, Pennsylvania and New Jersey, or any of them; also, all the estate, right, title and interest, terms and remainder of terms, franchises, privileges and rights of action of whatsoever name or nature in law or in equity conveyed or assigned unto the New York and Erie Railroad Company, or unto the Erie Railway Company, or to the New York, Lake Erie and Western Railroad Company, by the Union Railroad Company, a corporation existing under the laws of the State of New Jersey; by the Buffalo, New York and Erie Railroad Company, a corporation existing under the laws of the State of New York; by the Bergen County Railroad, a corporation existing under the laws of the State of New Jersey; by the Buffalo, Bradford and Pittsburg Railroad Company, a corporation existing under the laws of the States of New York and Pennsylvania; by the Rochester and Genesee Valley Railroad Company, a corporation existing under the laws of the State of New York; by the Long Dock Company, a corporation existing under the laws of the State of New Jersey; by the Goshen and Deckertown Railroad Company, a corporation existing under the laws of the State of New York; by the Hoboken Land and Improvement Company, a corporation existing under the laws of the State of New Jersey; by the New York and Fort Lee Railroad Company, a corporation existing

Exhibit R-118.

under the laws of the State of New Jersey, and the New Jersey Junction Railroad Company, a corporation existing under the laws of the State of New Jersey; by the Jefferson Railroad Company, a corporation existing under the laws of the State of Pennsylvania; by the Montgomery and Erie Railroad Company, a corporation existing under the laws of the State of New York; by the New York, Lake Erie and Western Docks and Improvement Company, a corporation existing under the laws of the State of New Jersey; by the Paterson, Newark and New York Railroad Company, a corporation existing under the laws of the State of New Jersey; by the Pennsylvania Coal Company, a corporation existing under the laws of the State of Pennsylvania; by the Newark and Hudson Railroad Company, a corporation existing under the laws of the State of New Jersey, and by the Suspension Bridge and Erie Junction Railroad Company, a corporation existing under the laws of the State of New York.

And also all the railroad formerly of the Buffalo and Southwestern Railroad Company, extending from Jamestown, in Chautauqua County, to Buffalo, in Erie County, both in the State of New York, subject only to two mortgages thereon prior to the lien of this indenture; *the first* to secure an issue of bonds for \$1,500,000, *the second* executed November 19th, 1895, by the Railroad Company to secure an issue of its bonds for \$1,000,000.

And also all the estate, right, title and interest of the Railroad Company in and to certain real estate situate in Hudson County, in the State of New Jersey, known as the Penhorn property, and to two certain other parcels of real estate situate in the County of Passaic, in the State of New Jersey, and known respectively as the Post farm and the Fredericks farm. And also to a certain parcel of land lying west of the Bergen Tunnel, in Hudson County, State of New Jersey, known as the Laundry property. And also all other real estate of the Railroad Company, situate in the State of New Jersey, of every kind and description, and wherever in the said State the same may be situate. Also a tract of land, being about four acres, situate in the Township of Texas, County of Wayne, in the State of Pennsylvania.

And also all the estate, right, title and interest of the Railroad Company of, in and to certain piers, bulkheads and water fronts in the said City of New York, that is to say: Piers 29,

Exhibit R-118.

30, 31 and 32, North River, with bulkheads between Piers 30 and 31, 31 and 32, and half the bulkhead between Piers 32 and 33; also the pier at the foot of West Twenty-third street, and the bulkhead between Twenty-second and Twenty-third streets; also the Piers 7 and 8, East River, and the bulkhead between them.

And, also, all tracts of land or interest therein of the Railroad Company lying and being in the following States and counties, namely: counties of Rockland, Orange, Sullivan, Delaware, Broome, Tioga, Chemung, Steuben, Alleghany, Livingston, Wyoming, Genesee, Erie, Niagara, Cattaraugus, Chautauqua and Monroe, in the State of New York; counties of Hudson, Essex, Bergen and Passaic, in the State of New Jersey; counties of Susquehanna, Jefferson, Pike and McKean, in the State of Pennsylvania.

Also all the right, title and interest of every name and nature hereafter acquired by the Railroad Company in or to the property, railroad and franchises now of the New York, Pennsylvania and Ohio Railroad Company, or any branch, extension or leased or operated line thereof or therefrom (except certain lands and interests in lands not immediately appurtenant to said railroad, of which lands and interests the description is on file in the possession of the party of the second part) or in any bonds, stocks or other security of such Railroad Company, or of any successor company or companies, subject to the terms upon which any such acquisition may have been made; provided, however, that nothing herein is intended or shall be construed to affect or limit the reserved right of the Railroad Company at its option to modify from time to time or to elect not to continue the agreement dated November 18th, 1895, under which it is now operating the said New York, Pennsylvania and Ohio Railroad.

Also, all the right, title, estate, interest, property and franchises of the Railroad Company of, in and to any and all other lines of railway, extension and branches now owned, leased or held by the Railroad Company or in which it has any interest whatsoever, wherever located, notwithstanding the same may not be particularly set forth or described in this indenture.

ALSO ALL THE RIGHT, TITLE, ESTATE, INTEREST AND PROPERTY of the Railroad Company in and to any and all lines of railway, extensions and branches, including the franchises appurtenant

Exhibit R-118.

thereto, and any and all bonds, stocks and other property of every kind or description (notwithstanding that the same are not now particularly set forth in this indenture), which, from time to time, in the manner hereinafter provided, shall be designated in the verified certificates to be furnished by the Railroad Company to the Trustee whenever it shall make any call for any of the \$5,000,000 "Prior Lien Bonds" reserved under the provisions of this indenture for enlargement and improvement of terminal facilities, including elevation of tracks at Jersey City, Buffalo and elsewhere, additional wharf facilities at New York, reducing grades, constructing double track and purchasing additional equipment; or whenever it shall make any call for any of the \$17,000,000 "General Lien Bonds" reserved under the provisions of this indenture for construction, equipment, additions to or improvements or purchases of property; and also any and all franchises and rights of any kind relating to any and all lines of railway, extensions, branches and other property constructed or acquired from the use of any such Prior Lien bonds or General Lien bonds or their proceeds.

INCLUDING any and all roadbed, superstructure, rights of way, rails, tracks, sidetracks, bridges, viaducts, buildings, depots, stations, warehouses, car-houses, engine-houses, freight-houses, wood-houses, machine shops and other shops, turntables, water-stations, fences, docks, structures, erections and fixtures, and all other things of whatever kind in anywise or at any time belonging or appertaining to any and every line of railway at any time subject to the lien of this indenture, or to any branch or operated line thereof, or provided for use thereon, or in connection therewith; and any and all lands designed for depots, warehouses or other structures at any terminus, or on or along such lines of railway, or upon or along any such branch or operated line; and any and all locomotives, engines, cars and other rolling stock, equipment, machinery, instruments, tools, implements, materials, furniture and other chattels now or hereafter acquired or provided for use upon such lines of railway or branches, or upon any other line or branch or upon any operated line; and any and all lease-holds, leases, rights under lease, or contract, covenants and agreements, terms or parts of terms; and any and all property, real or personal, of every kind and description, now or hereafter

Exhibit R-118.

acquired for use upon, or in connection with, or for the purpose of, such lines of railway, or any such branch, or operated line; and any and all corporate rights, privileges and franchises which the Railroad Company now has, or hereafter can or shall acquire, possess or exercise in, to, upon, or in any respect of such lines of railway or branches or any operated line, or any part thereof, necessary for, or appertaining to, the construction, maintenance or operation of such lines of railway or any such branch or operated line, or any part thereof; and any and all the rents, issues, profits, tolls and other income of such lines of railway, and of any and all branches and operated lines; and also any and all the rights, privileges, franchises, properties, real or personal, rights and things which the Railroad Company may or shall hereafter possess, or become entitled to possess, for the purposes of, or in connection with, such lines of railway or any such branch or operated line.

TOGETHER with all and singular the franchises, rights and privileges now or hereafter appurtenant to or used in connection with, the lines of railway above mentioned, or any branch or operated line thereof.

Also the following shares of stock, to be transferred to the Trustee as hereinafter provided:

Exhibit R-118.

Name of Company.	Par Value Per Share.	No. of Shares.

ALSO the following bonds, to be delivered to the Trustee as hereinafter provided:

\$185,000 bonds of the Buffalo, Bradford and Pittsburgh Railroad Company, secured by its mortgage dated January 1st, 1865, to Derman B. Eaton, as Trustee.

\$57,200 bonds of the Middletown and Crawford Railroad Company, secured by its mortgage dated April 1st, 1871, to Jonathan M. Matthews, Ambrose S. Murray and Alexander Crawford, as Trustees.

\$250,000 bonds of the Newark and Hudson Railroad Company, secured by its mortgage dated September 20th, 1871, to H. N. Otis, as Trustee.

Exhibit R-118.

\$499,000 bonds of the Paterson and Newark Railroad Company, secured by its mortgage dated January 1st, 1868, to W. C. Rushmore and C. Walsh, as Trustees.

\$604,000 bonds of the New York, Lake Erie and Western Docks and Improvement Company, secured by its mortgage dated June 1st, 1883, to The Farmers' Loan and Trust Company, as Trustee, as modified by the supplemental contract dated

\$1,900,000 bonds of the New York, Lake Erie and Western Coal and Railroad Company, secured by its mortgage dated May 15th, 1882, to the Metropolitan Trust Company of the City of New York and J. Lowber Welsh, of the City of Philadelphia, as Trustees.

\$35,000 bonds of the Suspension Bridge and Erie Junction Railroad Company, secured by its mortgage dated June 1st, 1870, to Horatio N. Otis, as Trustee.

\$9,776,000 Income bonds of the Chicago and Erie Railroad Company, secured by its mortgage dated August 21st, 1890, to New York Security and Trust Company and John B. Elam, as Trustees.

Also, all property of every name and nature, from time to time hereafter, by delivery or by writing of any kind, for the purposes hereof, pledged, assigned or transferred by the Railroad Company or any one in its behalf to the Trustee, which is hereby authorized to receive any property, at any and all times as and for additional security, and also, when and as hereinafter provided, as substituted security, for the payment of bonds issued or to be issued hereunder, and to hold and apply any and all such property subject to the terms hereof.

It being intended to include within the grant of this indenture all lines of railway, extensions, branches, real estate and railroad property conveyed to or acquired by, or for the benefit of, the Railroad Company, party of the first part hereto, under or in pursuance of the decree confirming the sale, and the deeds of the Special Master and others executed or to be executed pursuant to such decree, in the suit of Trenor Luther Park against The New York, Lake Erie and Western Railroad Company and The Farmers' Loan and Trust Company; The Farmers' Loan and Trust Company against The New York, Lake Erie and Western Railroad Company and Trenor Luther Park; Consolidated cause, in equity, in the Circuit Court of the

Exhibit R-118.

United States for the Eastern District of New York, and in the various decrees ancillary thereto, wherein also foreclosure was had of the second consolidated mortgage made by the New York, Lake Erie and Western Railroad Company, dated October 5th, 1878, to the Farmers' Loan and Trust Company, of New York, Trustee.

To have and to hold, the premises, railroads, properties, real or personal, rights, franchises, estates, appurtenances, stock and bonds hereby conveyed and assigned, or intended to be conveyed or assigned, unto the Trustee, its successor or successors and assigns forever:

But in trust, nevertheless, as to each of the said two issues of bonds respectively, viz., *primarily* the \$35,000,000 "Prior Lien Bonds" as one issue, and *secondarily* the \$140,000,000 "General Lien Bonds," as a separate, subordinate and subject issue, for the equal, proper and proportionate benefit and security severally and respectively of all and every the present and future holders, *first*, of any and every "Prior Lien Bond," and, *second*, and subject thereto, of any and every "General Lien Bond" issued under and secured by this indenture, as well all those now issued as all hereafter issued in addition thereto or by way of substitution or exchange, in accordance with the terms of this indenture, and for enforcing payment thereof when payable, in accordance with the true intent and meaning of the stipulations of this indenture, and of the said bonds and interest obligations respectively, so that the "Prior Lien Bonds," without regard of time of actual issue, shall have priority and preference, as to both principal and interest, over the "General Lien Bonds," and that the General Lien bonds shall all be subject to the prior and superior lien of the Prior Lien bonds; but without preference, priority or distinction as to lien or otherwise, of any one bond of either of such two issues over any other bond of the same issue, by reason of priority in the execution, delivery or negotiation thereof, and so that each and every bond of either of such two issues, issued and to be issued as aforesaid, shall have, under and by this indenture, the same right, lien and privilege as every other bond of that issue, and the principal and interest of every such bond of either issue shall, subject to the terms hereof, be secured hereby equally and proportionately with every other bond of that issue, as though all had been made,

Exhibit R-118.

executed, delivered and negotiated simultaneously with the execution and delivery of this indenture; it being intended that the lien and security of all such bonds shall take effect from the day of the date of this indenture, without regard to the date of actual issue, sale or disposition thereof; and so that the lien and security of this indenture, and of all bonds issued hereunder, shall take effect from the day of the date hereof as though upon such day, actually issued, sold and delivered to, and in the hands of, innocent holders for value.

AND IT IS HEREBY EXPRESSLY COVENANTED that all such bonds and the coupons for interest thereon are to be issued, certified, delivered, received and negotiated, and that the mortgaged properties and franchises are to be held by the Trustee subject to the following further covenants, conditions and provisions, viz.:

ARTICLE ONE.

All bonds hereby secured shall, from time to time, by the Railroad Company be executed and delivered for certification to the Trustee, which shall thereupon certify and deliver the same as provided in this Article. Only such bonds as shall bear the Trustee's certificate duly endorsed thereon and duly signed shall be secured by this indenture or shall be entitled to any lien or benefit hereunder; and every such certificate of the Trustee upon any bond executed in behalf of the Railroad Company shall be conclusive evidence that the bond so certified has been duly issued hereunder and is entitled to the benefit of the trust hereby created. Such certificates may be made and bonds may be delivered hereunder in advance of registration or record of this indenture.

The bonds and certificates for shares hereby pledged as specifically enumerated in the granting clauses hereof, shall, prior to the certification of any bonds hereunder, be assigned and delivered to The Farmers' Loan and Trust Company, Trustee under this indenture.

Before certifying or delivering any coupon bond, the Trustee shall cut off and cancel all coupons thereof then matured; and the Trustee shall not certify or deliver any registered bond bearing interest from any date more than six months prior to such certification or delivery.

A.

Of the bonds authorized to be issued under and secured by this indenture thirty-five million dollars (\$35,000,000) shall be **Prior Lien Bonds**.

SECTION 1. Of the Prior Lien bonds authorized to be issued under and secured by this indenture, bonds to the amount of fifteen million six hundred thousand dollars (\$15,600,000) shall be certified by the Trustee, and upon a resolution of the Board of Directors of the Railroad Company shall be delivered to Charles H. Coster, Louis Fitzgerald and Anthony J. Thomas, or their survivors or successors, the Committee named in the certificate of incorporation of the Railroad Company, immediately upon the execution and delivery hereof, or as soon as may be thereafter.

Sec. 2. Out of and from the remainder of such authorized issue of Prior Lien bonds there shall be reserved, not immediately to be executed or certified by the Trustee, bonds to the amount of fourteen million four hundred thousand dollars (\$14,400,000).

Said fourteen million four hundred thousand dollars (\$14,400,000) of such Prior Lien bonds shall be certified by the Trustee and delivered to the Railroad Company, from time to time hereafter, as and when called for by resolution of the Board of Directors of the Railroad Company, stating, in effect, that the same are to be used from time to time to acquire railroad and railroad equipment, now of the New York, Pennsylvania and Ohio Railroad Company (substantially as covered by its so-called "First Mortgage of May 6, 1880," to the Farmers' Loan and Trust Company, Trustee), subject to "Prior Lien" bonds of said New York, Pennsylvania and Ohio Railroad Company, Equipment obligations and rentals now resting thereon, or to acquire securities of the New York, Pennsylvania and Ohio Railroad Company, or of a successor Company or Companies, in amounts and to an extent which in the opinion of the Board of Directors of the Railroad Company shall give to the Railroad Company, or enable it to acquire, satisfactory control of the operation and management of said railroad.

If said Prior Lien Bonds hereby secured shall be used to acquire securities of the New York, Pennsylvania and Ohio Railroad Company, the Trustee shall certify and deliver said

Exhibit R-118.

\$14,400,000 of Prior Lien Bonds hereby secured from time to time only at the rate of one thousand dollars par value of such Prior Lien Bonds for each five thousand dollars par value of said so-called first mortgage bonds, which shall be acquired and pledged hereunder. If securities of a successor company or companies shall be acquired, then the Trustee shall reserve out of said \$14,400,000 of Prior Lien Bonds hereby secured, an amount equal at par to the aggregate amount of all the secured and unsecured indebtedness of such successor company or companies that shall not be acquired and pledged hereunder, other than the said New York, Pennsylvania and Ohio Prior Lien Bonds and equipment obligations and liens upon or for the benefit of properties leased or controlled by said New York, Pennsylvania and Ohio Railroad Company and ordinary operating accounts; and the bonds so reserved shall from time to time be certified and delivered by the Trustee when and as a like amount of such secured or unsecured indebtedness shall be discharged or acquired by the Railroad Company, and assigned to the Trustee hereunder.

As to the existence and amount of any such secured or unsecured indebtedness of a successor corporation, the written opinion of the Counsel of the Railroad Company shall, according to its terms and to any action pursuant thereto, be sufficient evidence and authority to the Trustee.

When delivering any bonds under this section the Trustee shall require either the immediate subjection of the property acquired to the lien thereof (excepting, however, certain lands and interests in lands of the New York, Pennsylvania and Ohio Railroad Company hereinbefore mentioned), or, if this be not reasonably practicable, shall deliver the bonds upon such trusts as are, in its judgment, calculated to accomplish such subjection within a reasonable period, but the Trustee shall not be liable for any error of judgment in this respect.

Sec. 3. Out of the remainder of such authorized issue of Prior Lien bonds there shall be reserved, not immediately to be executed or certified by the Trustee, bonds to the amount of five million dollars (\$5,000,000).

Said five million dollars of such Prior Lien bonds shall be certified by the Trustee and delivered to the Railroad Company from time to time hereafter, when and as called for by resolution of the Board of Directors to the effect that the bonds so

Exhibit R-118.

called for and their proceeds are to be used, upon lines or property now or hereafter owned by the Railroad Company, and subject to the lien of this indenture or upon lines or property of any company of which a majority of the capital stock shall be subjected to the lien of this indenture, only for the following purposes, or some one or more of them, viz.: (1) enlargement and improvement of terminal facilities, including elevation of tracks or other improvement of crossings at Jersey City, Buffalo and elsewhere, (2) additional wharf facilities at New York or Jersey City, (3) purchasing additional equipment, (4) reducing grades and constructing double track, or to reimburse the Railroad Company for outlays made subsequent to the date hereof for the purposes aforesaid or some one or more of them.

At any time or times, upon any such resolution, and with the written consent of the Voting Trustees (under the voting trust authorized in the certificate of incorporation of the Railroad Company), or the greater number of those then acting as such Voting Trustees, such Prior Lien bonds shall be so delivered to the amount specified in every such resolution, not in any one instance exceeding \$1,000,000, but, in every instance after the first delivery of such bonds (before delivering any additional amount of such bonds) the Trustee shall require the Railroad Company to furnish, in addition to such resolution of the Board, the verified certificate or certificates of some person or persons cognizant of the facts, stating

(a) that all such bonds and the proceeds of all such bonds certified and delivered on or subsequent to the date of the last preceding resolution, or resolution and verified certificate, as the case may be, have been used for such purposes, or for some one or more of them, or to reimburse the Railroad Company as above provided;

(b) the amount of such bonds so certified and delivered, which, or the proceeds of which, on or subsequently to the date of the last preceding resolution, or resolution and verified certificate (as the case may be), shall have been actually used for any such purpose, or to reimburse the Railroad Company, as above provided, and specifically indicating each and every such acquisition or construction, and also stating in detail the amount of bonds, or proceeds of bonds, used or expended for each and every such purpose.

Exhibit R-118.

(c) that the price paid in bonds or their proceeds for such construction or acquisition was not in excess of the fair value of the work done or property acquired, and that the bonds included in such verified certificate were sold, disposed of or otherwise accounted for, at not less than their fair market value at the time of such sale, disposition or accounting.

(d) that of the expenditures for which such certificate shall state that Prior Lien Bonds or their proceeds have been used, no part has been provided by the use of General Lien Bonds; and that of the expenditures for which reimbursement shall be claimed, no part has been obtained by the Railroad Company out of the General Lien Bonds or their proceeds.

Every such verified certificate shall be accompanied by the written statement of the President or of one of the Vice-Presidents, and of the Auditor or Treasurer of the Railroad Company that they believe such certificate to be true, and that such bonds have been used and the expenditures therein certified have been made only for purposes properly chargeable to capital account of the Railroad Company, and that no part thereof has been used for ordinary maintenance of the lines of railway or other property owned or in any way controlled by the Railroad Company or for replacements or other purposes ordinarily treated by railroad companies as a part of their operating expenses.

Such written consent of Voting Trustees, resolutions, statements and verified certificates shall be deemed and taken as plenary authority to the said Trustee for its certification of such Prior Lien bonds or of any one or more of them.

B.

Of the bonds authorized to be issued under and secured by this indenture, one hundred and forty million dollars (\$140,000,000) shall be GENERAL LIEN BONDS.

SEC. 4. Of the General Lien bonds authorized to be issued under and secured by this indenture, bonds to the amount of Thirty million nine hundred and twenty-seven thousand dollars (\$30,927,000) shall be certified by the Trustee and shall be delivered to Charles H. Coster, Louis Fitzgerald and Anthony J. Thomas or their survivors or successors, the Committee named in the certificate of incorporation of the Railroad Company, immediately upon the execution and delivery of this indenture, or as soon as may be thereafter.

Exhibit R-118.

SEC. 5. Out of and from the remainder of such authorized issue of General Lien bonds there shall be reserved, not immediately to be executed or certified by the Trustee, bonds to the amount of Seventy-nine million nine hundred and eighteen thousand dollars (\$79,918,000), for the purpose of providing for the purchase, redemption and acquisition by the Trustee, as hereinafter provided, of bonds secured by the thirty-six following mortgages (such mortgages being stated and described with substantial accuracy and as generally known) :

I.

The first mortgage or charge created by an Act of the Legislature of the State of New York, passed May 14, 1845, entitled "An Act in relation to the Construction of the New York and Erie Railroad," to secure an issue of bonds of said New York and Erie Railroad Company, bearing interest at the rate of seven per cent. per annum and payable on July 1st, 1867, which bonds have been duly extended until May 1, 1897, at interest at the rate of 7 per cent. per annum, and of which \$2,482,000 are now outstanding and unpaid.

The second mortgage made by said New York and Erie Railroad Company, dated March 1, 1849, to secure an issue of bonds of said company bearing interest at the rate of 7 per cent. per annum and payable March 1, 1859; which bonds have been duly extended until September 1, 1919, at interest at the rate of 5 per cent. per annum, payable in gold, and of which \$2,149,000 are now outstanding and unpaid.

The third mortgage made by said New York and Erie Railroad Company, dated March 1, 1853, to secure an issue of bonds of said company bearing interest at the rate of 7 per cent. per annum and payable on March 1, 1883, which bonds have been duly extended until March 1, 1923, at interest at the rate of 4½ per cent. per annum, payable in gold, and of which \$4,617,000 are now outstanding and unpaid.

The fourth mortgage made by said New York and Erie Railroad Company, dated August 15, 1857, to secure an issue of bonds of said company bearing interest at the rate of 7 per cent. per annum and payable on October 1, 1880, which bonds have been duly extended until October 1, 1920, at interest at the rate of 5 per cent. per annum, payable in gold, and of which \$2,926,000 are now outstanding and unpaid.

The fifth mortgage made by said New York and Erie Railroad Company, dated June 1, 1858, to secure an issue of bonds of said company bearing interest at the rate of 7 per cent. per annum and payable on June 1, 1888, which bonds have been duly extended until June 1, 1928, at interest at the rate of 4 per cent.

Exhibit R-118.

per annum, payable in gold, and of which \$709,500 are now outstanding and unpaid.

The mortgage made by the Buffalo branch of the Erie Railway and the Erie Railway Company, dated July 1, 1861, to secure a certain issue of bonds bearing interest at the rate of 7 per cent. per annum and payable on July 1, 1891, which bonds have been duly extended until July 1, 1931, at interest at the rate of 4 per cent. per annum, payable in gold, and of which \$182,600 are now outstanding and unpaid.

The mortgage made by said Erie Railway Company, dated September 1, 1870, to secure a certain issue of its bonds (commonly called "First Consolidated Mortgage Bonds"), bearing interest at the rate of 7 per cent. per annum and payable September 1, 1920, and of which \$16,891,000 are now outstanding and unpaid.

Also, \$3,705,977.10 First Consolidated Mortgage Funded coupon Bonds of the New York, Lake Erie and Western Railroad Company, dated September 1st, 1878, bearing interest at the rate of 7 per cent. per annum, payable September 1st, 1920, and secured by a pledge of coupons for interest on the First Consolidated mortgage bonds of the Erie Railway Company, all of which are now outstanding and unpaid.

The mortgage made by the Newburgh & New York Railroad Company, dated August 1st, 1868, to Jay Gould, as Trustee, to secure an issue of bonds of said Company and payable January 1st, 1889, which bonds have been duly extended until January 1, 1929, with interest at the rate of 5 per cent. per annum in gold, and of which \$250,000 are now outstanding and unpaid.

The mortgage made by the Buffalo and Southwestern Railroad Company, dated December 17, 1877, to Elbridge G. Spaulding, as Trustee, to secure an issue of bonds of said Company bearing interest at the rate of 6 per cent. per annum, payable December 1, 1907, of which \$1,500,000 are now outstanding and unpaid.

The mortgage made by the Lockport and Buffalo Railroad Company, dated October 1st, 1877, to Matthias H. Arnot, as Trustee, to secure bonds bearing interest at 7 per cent. per annum, and due October 1st, 1897, of which \$140,000 are now outstanding and unpaid.

II.

The mortgage made by the Long Dock Company, dated November 16, 1885, to Anthony J. Thomas and Charles Edward Tracy, as Trustees, to secure an issue of gold bonds of said Company, bearing interest at the rate of 6 per cent. per annum and payable October 1, 1935, of which \$7,500,000 are now outstanding and unpaid.

The mortgage made by the Jefferson Railroad Company, dated January 1st, 1889, to the Fidelity Insurance, Trust and

Exhibit R-118.

Safe Deposit Company, as Trustee, to secure an issue of gold bonds of said Company, bearing interest at the rate of 5 per cent. per annum and payable January 1, 1909, of which \$2,800,000 are now outstanding and unpaid.

The mortgage made by the Jefferson Railroad Company on its Honesdale Branch, dated July 1st, 1867, to John Torrey, Z. H. Russell and Coe F. Young, as Trustees, to secure an issue of bonds of said Company, payable July 1, 1927, of which \$204,000, bearing interest at $4\frac{1}{2}$ per cent. per annum, are now outstanding and unpaid.

The mortgage made by the Jefferson Railroad Company on its Honesdale Branch, dated January 1st, 1869, to John Torrey, Z. H. Russell and Coe F. Young, as Trustees, to secure an issue of bonds of said Company, payable July 1st, 1927, and bearing interest at the rate of 6 per cent. per annum, of which \$96,000 are now outstanding and unpaid.

The mortgage made by the Buffalo, Bradford and Pittsburgh Railroad Company, dated January 1st, 1865, to Dorman B. Eaton, as Trustee, to secure an issue of gold bonds of said Company, bearing interest at the rate of 7 per cent. per annum, and payable January 1, 1896, which bonds other than those pledged hereunder are now outstanding and unpaid to the amount of \$395,000.

The mortgage made by the Bergen County Railroad, dated March 1st, 1881, to the Farmers' Loan and Trust Company, as Trustee, to secure an issue of bonds of said Company bearing interest at the rate of 6 per cent. per annum and payable April 1, 1911, of which \$200,000 are now outstanding and unpaid.

The mortgage made by the New York, Lake Erie and Western Coal & Railroad Company, dated May 15, 1882, to the Metropolitan Trust Company of New York and John Lowber Welsh, of the City of Philadelphia, as Trustees, to secure an issue of gold bonds of said Company, bearing interest at the rate of 6 per cent. per annum, and payable May 1, 1922, which bonds, other than those pledged hereunder, are now outstanding and unpaid to the amount of \$1,100,000.

The mortgage made by the New York, Lake Erie and Western Docks & Improvement Company, dated June 1, 1883, to the Farmers' Loan and Trust Company, Trustee, as modified by the supplemental contract dated February 8th, 1890, to secure an issue of bonds of said Company, bearing interest at the rate of 6 per cent. per annum, and payable July 1, 1913, which bonds, other than those pledged hereunder, are now outstanding and unpaid to the amount of \$3,396,000.

The mortgage made by the Suspension Bridge and Erie Junction Railroad Company, dated July 1st, 1870, to Horatio N. Otis, as Trustee, to secure an issue of bonds of said Company, bearing interest at the rate of 7 per cent. per annum, and payable July 1, 1900, of which bonds, other than those pledged hereunder, \$965,000 are now outstanding and unpaid.

Exhibit R-118.

The mortgage made by the Tioga Railroad Company, dated April 24th, 1852, to Theodore Dehon, Alfred S. Fraser and Watts Sherman, as Trustees, to secure an issue of bonds of said Company, bearing interest at the rate of 5 per cent. per annum, and payable November 1, 1915, of which \$239,500 are now outstanding and unpaid.

The mortgage made by the Tioga Railroad Company, dated October 1st, 1875, to George M. Diven, as Trustee, to secure an issue of bonds of said Company, bearing interest at the rate of 7 per cent. per annum, and payable October 1, 1905, of which \$265,000 are now outstanding and unpaid.

The mortgage made by the Tioga Railroad Company, dated November 1st, 1876, to Myron P. Bush, as Trustee, to secure an issue of bonds of said Company, bearing interest at the rate of 7 per cent. per annum and payable November 1st, 1896, of which \$125,000 are now outstanding and unpaid.

The mortgage made by the Elmira and State Line Railroad Company, dated October 1st, 1875, to Matthias H. Arnot, as Trustee, to secure an issue of bonds of said Company, bearing interest at the rate of 7 per cent. per annum, and payable October 1, 1905, of which \$160,000 are now outstanding and unpaid.

The mortgage made by the Chicago and Atlantic Railroad Company, dated November 1st, 1888, to Central Trust Company of New York, as Trustee, to secure an issue of bonds of said Company, known as "Terminal Bonds," bearing interest at the rate of 5 per cent. per annum, and payable July 1, 1918, of which \$300,000 are now outstanding and unpaid.

The mortgage made by the Chicago and Erie Railroad Company, dated August 21st, 1890, to the Central Trust Company of New York and Edward Daniels, as Trustees, to secure an issue of bonds of said Company, bearing interest at the rate of 5 per cent. per annum, and payable May 1, 1982, of which \$12,000,000 are now outstanding and unpaid.

The mortgage made by the Blossburg Coal Company, dated January 1st, 1878, to Amaziah S. Kendall, as Trustee, to secure an issue of bonds of said Company, payable January 1st, 1893, which bonds have been duly extended until November 1, 1915, with interest at the rate of 5 per cent. per annum, payable in gold, and of which \$100,000 are now outstanding and unpaid.

The mortgage made by the Buffalo, New York and Erie Railroad Company, dated June 1st, 1876, to John A. C. Gray, as Trustee, to secure bonds, bearing interest at 7 per cent. per annum, due June 1, 1916, of which \$2,380,000 are now outstanding and unpaid.

III.

The mortgage made by the Montgomery and Erie Railroad Company, dated May 1st, 1866, to William Murray, Nathan C. Sanford and Henry Merriam, as Trustees, to secure bonds bearing interest at 5 per cent. per annum and due May 1st, 1926, of which \$130,000 are now outstanding and unpaid.

The mortgage made by the Montgomery and Erie Railroad Company, dated October 1st, 1867, to John M. Quackenbos and Bartow Wright, as Trustees, to secure bonds bearing interest at 5 per cent. per annum, and due October 1st, 1927, of which \$40,500 are now outstanding and unpaid.

The mortgage made by the Goshen and Deckertown Railroad Company, dated July 1st, 1868, to Ambrose S. Murray, Robert H. Berdell and John Stewart, as Trustees, to secure bonds bearing interest at 6 per cent. per annum, due July 1, 1928, of which \$186,500 are now outstanding and unpaid.

The mortgage made by the Goshen and Deckertown Railroad Company, dated November 1st, 1869, to Ambrose S. Murray and Robert H. Berdell and John Stewart, as Trustees, to secure bonds bearing interest at 6 per cent. per annum, due November 1, 1929, of which \$60,000 are now outstanding and unpaid.

The mortgage made by the Middletown and Crawford Railroad Company, dated April 1st, 1871, to Jonathan M. Matthews, Ambrose S. Murray and Alexander Crawford, as Trustees, to secure bonds bearing interest at $4\frac{1}{2}$ per cent. per annum, due April 1, 1921, of which bonds, other than those pledged hereunder, are now outstanding and unpaid to the amount of \$8,800.

IV.

The mortgage made by the New York, Pennsylvania and Ohio Railroad Company, dated May 5, 1880, to the Farmers' Loan and Trust Company, as Trustee, to secure an issue of gold bonds of said Company, payable March 1st, 1895, which bonds have been duly extended to March 1st, 1935, at $4\frac{1}{2}$ per cent. per annum interest, and of which \$8,000,000 are now outstanding and unpaid.

V.

The mortgage made by the Cleveland and Mahoning Valley Railroad Company, dated January 1st, 1888, to Central Trust Company of New York, as Trustee, to secure an issue of \$3,000,000 bonds of said Company, bearing interest at the rate of 5 per cent. per annum, and payable January 1st, 1938, and now or hereafter outstanding and unpaid.

Exhibit R-118.

The mortgage made by the Sharon Railway Company, dated June 1st, 1889, to Farmers' Loan and Trust Company, as Trustee, to secure an issue of bonds of said Company, bearing interest at the rate of $4\frac{1}{2}$ per cent. per annum, payable June 1st, 1919, of which \$164,000 are now outstanding and unpaid.

The mortgage made by the Newcastle and Shenango Valley Railroad Company, dated July 1st, 1887, to the Farmers' Loan and Trust Company, as Trustee, to secure an issue of bonds of said Company, bearing interest at the rate of 6 per cent. per annum, and payable July 1st, 1917, of which \$250,000 are now outstanding and unpaid.

SEC. 6. The said \$79,918,000 General Lien bonds hereby secured and reserved for the redemption, purchase or acquisition of a like amount of bonds (hereinafter called "old bonds") severally and respectively secured by the mortgages mentioned in the last above section, shall from time to time be issued, certified and delivered when authorized by resolution of the Board of Directors of Railroad Company only as follows, viz.:

(a) Whenever and as often as the Railroad Company shall tender or cause to be tendered any such old bonds, or bonds issued in exchange therefor under the provisions of Article Two, Section 2 hereof, together, in either case, with all unmatured interest obligations thereunto belonging, the Trustee forthwith shall receive the same, and in exchange therefor shall certify and deliver to the Railroad Company, or upon its order, a like amount at par of the said bonds hereby secured and reserved.

(b) Whenever and as often as the Railroad Company, on or after the maturity of any such old bonds, or of bonds issued in exchange therefor, as above, or on or after a date eight months prior to the maturity of such old bonds, or of bonds issued in exchange therefor, as above, shall tender or cause to be tendered, cash sufficient to purchase or to pay the same at par (and shall also provide to the satisfaction of the Trustee for any interest due upon such bonds or accruing before their maturity), the Trustee forthwith shall receive such cash, and in consideration thereof shall certify and deliver to the Railroad Company or upon its order an equivalent amount at par of the said bonds hereby secured and reserved.

All cash so received by the Trustee shall be by it held and applied to the purchase at par, or, if such purchase be impracticable, to the payment at par of an equivalent amount of the old bonds, or of bonds issued in exchange therefor, as above,

Exhibit R-118.

for the purchase or payment of which such case shall have been deposited.

Each and every old bond, or bond issued in exchange therefor, as above, received by the Trustee, shall be by it stamped with the words "Not negotiable, but held in trust for the purposes declared in the First Consolidated Mortgage Deed of the Erie Railroad Company, dated December 10th, 1895," and shall be by it held without extinguishment as additional security for the payment of this mortgage debt until at least ninety-nine per cent. of all bonds of the issue of which such bond is one, shall either have been paid and canceled, or shall have been received by the Trustee hereunder, whereupon in its discretion it may cancel and surrender to the Railroad Company all bonds of such issue then in its possession.

Provided, however, that no bond of any of the issues enumerated under II, III, IV, and V, of Section 5 of this article shall be canceled, unless or until all of the property mortgaged to secure the issue to which such bond belongs, shall have been lawfully vested free from other encumbrance in the Railroad Company, its successors or assigns, whereupon such property so mortgaged for such issue of old bonds forthwith, *ipso facto*, and without further conveyance, shall become and be part of the premises hereby mortgaged, and shall be hereby conveyed, as though herein expressly and specifically conveyed, mortgaged and pledged. Nevertheless, the Railroad Company, its successors and assigns, may, and shall, execute any and all transfers, assignments or conveyances, from time to time, desired by the Trustee in order expressly and specifically to subject to the lien of this indenture any property so acquired. Upon every such conveyance of the property mortgaged for any one of such issues, the Trustee may cancel and surrender to the Railroad Company all of the bonds of such issue then held by it, if not more than one per cent. of the total issue shall then remain outstanding and unsatisfied.

If at the time of the maturity of any such bonds, the holder thereof shall decline to sell and to deliver the same at par and accrued interest, but shall require the payment and cancellation thereof, then upon such payment and cancellation the Trustee shall certify and deliver to the Railroad Company, or upon its order, a like amount at par of said bonds reserved hereunder as though said matured bonds had been purchased

Exhibit R-118.

and had been received by the Trustee; but in every such case, if such matured bonds shall be of any one of the issues enumerated in II., III., IV., or V., of Section 5 of this article, and the Railroad Company shall not as above provided have acquired the property mortgaged to secure such bonds, the Railroad Company shall take and execute and shall cause the Company owning such property to take and execute such action, proceedings and instruments as in the opinion of the Trustee may reasonably be required to subrogate the Trustee to all the claim and security of the holder of such bonds, or else the Railroad Company shall cause to be issued and deposited with the Trustee an amount of renewal or other bonds upon the same property at least equivalent thereto at par.

So long as the Railroad Company shall not be in any default under this indenture in respect of which some request, proceeding or action herein authorized shall have been made or taken by the Trustee or by holders hereby secured, the Trustee shall not collect or be entitled to collect, except with the assent of the Railroad Company, the interest on any old bond at any time held by it hereunder or on any bond now or hereafter pledged with the Trustee under any provision of this indenture. Any sums so collected by it with the assent of the Railroad Company, unless it shall then be in default as aforesaid, shall at once be paid over to the Railroad Company except as hereinafter expressly otherwise provided.

The Railroad Company shall provide and maintain books wherein it shall register as the property of the Trustee all such old bonds received by the Trustee; and except as herein expressly provided no such old bond shall be canceled, unless the holder thereof, at time of maturity, shall require cancellation as a condition of surrender.

SEC. 7. Out of the remainder of the authorized issue hereunder, there shall be reserved, to be executed and to be certified by the Trustee, not immediately, but from time to time only when and as called for by resolutions of the Board of Directors, to the effect that the bonds so called for and their proceeds are to be used for such purpose, bonds to the amount of eight million and sixty-three thousand dollars (\$8,063,000) for the purchase and acquisition by the Railroad Company and simultaneous pledge hereunder to the Trustee, as hereinafter pro-

Exhibit R-118.

vided, of valid certificates of shares of stock issued by the following companies (other than the shares of some of such companies deliverable to the Trustee at the time of execution hereof), viz.:

Name of Company.	Par.	Shares.	Limit of Exchange per share.
Buffalo, New York and Erie Railroad Company	\$100	700	\$150
Montgomery and Erie Railroad Company	10	15,000	7
Goshen and Deckertown Railroad Company	10	9,619	7
Jefferson Railroad Company.....	50	12	50
Rochester and Genesee Valley Railroad Company	100	1,058	100
Buffalo, Bradford and Pittsburgh Railroad Company	100	965	10
Middletown and Crawford Railroad Company	50	841	10
Suspension Bridge and Erie Junction Railroad Company	100	8	100
Tioga Railroad Company.....	50	6	10
Elmira State Line Railroad Company	100	202	100
Newcastle and Seneca Valley Railroad Company	50	2,915	5
Sharon Railroad Company.....	50	9,067	62½
Cleveland and Mahoning Valley Railroad Company	100	30,000	22½

From time to time as and when the Trustee shall receive from the Railroad Company any such shares, it shall in exchange therefor and when and as called for by resolution of the Board of Directors of the Railroad Company certify and deliver to it bonds reserved under this Section in an amount not exceeding the value of such shares then so received at the limit of exchange above stated, which shares shall simultaneously be transferred into the name of the Trustee.

Whenever it shall make any delivery of bonds reserved as provided in this section, the Trustee shall require and receive from the Railroad Company in addition to such resolution of the Board of Directors the affidavit of one of its officers

Exhibit R-118.

recognition of the facts, stating the amount in bonds actually requisite for the express purpose of enabling the Railroad Company to acquire such shares then to be received by the Trustee. In no event shall any bonds be delivered by the Trustee in excess of the amount so stated; but if such amount be less than that in this section limited as the price of such shares, the surplus so left in possession of the Trustee, may thereafter be by it certified and delivered to the Railroad Company when and as necessary to enable it so to acquire other shares above mentioned, at prices exceeding those in this section stated; provided, that such necessity and the reasons therefor shall also be stated in such affidavit of the officer of the Railroad Company; and that, except as to such surplus bonds, deliveries shall not be made in excess of the limits imposed by this section; and provided further, that the Trustee shall not certify or deliver any such bonds in exchange for shares of the Newcastle and Shenango Valley Railroad Company, the Sharon Railroad Company, or the Cleveland and Mahoning Valley Railroad Company, until after the Railroad Company shall have acquired, as provided in Section 2 of this Article, the New York, Pennsylvania and Ohio Railroad or the control thereof, and shall have subjected the same to the lien of this indenture.

Sec. 8. Out of the remainder of the authorized issue of General Lien Bonds hereunder there shall be reserved, to be executed and to be certified by the Trustee, not immediately, but from time to time only when and as called for by resolution of the Board of Directors to the effect that the bonds so called for and their proceeds are to be used for such purpose, bonds to the amount of four million and ninety-two thousand dollars (\$4,092,000) for retiring or acquiring, as hereinafter provided, equipment-bonds and equipment-trust certificates, warrants, notes or obligations, which shall mature as hereinafter set forth, and to reimburse the Railroad Company for such of them as from time to time hereafter it shall acquire.

I.

Equipment Trust Certificates, Warrants, Notes and Obligations of, or affecting certain equipment formerly of the New York, Lake Erie and Western Railroad Company and now of the Erie Railroad Company, maturing after November 1st, 1898, viz.:

Baldwin Locomotive Works	\$ 282,447 72
Car Trust of New York, Series C, D, E, F and G ..	1,859,515 00

Exhibit R-118.

II.

Equipment Trust obligations of and affecting certain equipment of the New York, Pennsylvania and Ohio Railroad Company, viz.:

Bonds of the New York, Pennsylvania and Ohio Railroad Company, known as *London Equipment Trust bonds of 1888*, of which about £181,400 are now outstanding and unpaid.

Bonds of the New York, Pennsylvania and Ohio Railroad Company, known as *Equipment Trust bonds of 1890*, of which about £208,600 are now outstanding and unpaid.

In determining the value of sterling bonds, the Trustee shall treat one pound sterling as the equivalent of five dollars.

From time to time, and only when and as the Trustee shall receive from the Railroad Company, in addition to such resolution of the Board of Directors, the certificate of its President, or one of its Vice-Presidents and of its Treasurer or Auditor, and also (if the Trustee so desire) any additional evidence necessary to satisfy the Trustee (1) that such equipment bonds, certificates, warrants, notes or obligations have been paid to the amount specified in such certificate, and (2) that such payment has not been stated or included in any prior certificate hereunder, the Trustee shall certify and, upon the written order of the Railroad Company, shall deliver such reserved bonds at par to an amount equal to the payment of such outstanding obligations shown to have been made, by such certificate or other evidence, if any, required by the Trustee, provided, however, that the Trustee shall not certify or deliver any such bonds on account of "*London Equipment Trust Bonds of 1888*" or "*Equipment Trust Bonds of 1890*," until after the Railroad Company shall have acquired, as provided in Section 2 of this Article, the New York, Pennsylvania and Ohio Railroad, or the control thereof, and shall have subjected the same to the lien of this indenture.

SEC. 9. Out of the remainder of the authorized issue hereunder, there shall be reserved, to be executed, and to be certified by the Trustee, not immediately but only when and as called for by resolution of the Board of Directors as next hereinafter provided, bonds to the amount of seventeen million dollars (\$17,000,000), which from time to time, on and after January 1st, 1898, the Trustee shall certify upon resolutions of the Board of Directors of the Railroad Company, stating that such bonds, to the amount stated in such resolutions, or

Exhibit R-118.

the proceeds thereof, are to be set aside separate and apart from all other assets and funds of the Railroad Company, and are to be used only for the construction or acquisition of branch lines or extensions subsequent to December 31st, 1897, or for the acquisition of stocks or bonds thereof, subsequent to said date; or for the purchase or construction of rolling stock subsequent to said date; or for construction or betterments, subsequent to said date, or for purchase of additional property subsequent to said date, all such construction, betterments or property purchased to be upon, along or appurtenant to lines of railway of the Railroad Company, at the time of such use subject to the lien of this Indenture, or upon, along or appurtenant to the lines of railway or the terminal properties of some one or more of the companies mentioned in the schedule of stocks in the granting clauses hereof (other than the Buffalo Creek Railroad Company, the Hillside Coal and Iron Company, the Northwestern Mining and Exchange Company or the Blossburg Coal Company), or of other companies of whose capital stock, at least a majority in amount at the time of such use shall be pledged hereunder; or to reimburse the Railroad Company for outlays made subsequent to the thirty-first day of December, eighteen hundred and ninety-seven, for the purposes aforesaid or some one or more of them.

From and out of the \$17,000,000 General Lien bonds reserved under this section, the Trustee shall certify and shall deliver to the Railroad Company, or upon its order, bonds as follows, viz.:

Upon January 1, 1898, or upon any day thereafter, but prior to December 31st, 1898, upon such resolution or resolutions of the Board of Directors of the Railroad Company, such amount of such General Lien bonds not exceeding \$1,000,000 bonds, par value, as specified in such resolution, shall be so certified and delivered.

In each and every calendar year after December 31, 1898, there shall be so certified and delivered such additional amount of such General Lien bonds, not exceeding \$1,000,000, par value in any calendar year, as from time to time shall be specified in similar resolutions; but in every instance, before certifying and delivering any of the \$17,000,000 General Lien bonds reserved under this section (except the \$1,000,000 deliverable in the year 1898), the Trustee shall require the Railroad Com-

Exhibit R-118.

pany to furnish, in addition to such resolution of the Board, the verified certificate or certificates of some person or persons cognizant of the facts, stating

(a) that all such General Lien bonds and the proceeds of all such General Lien bonds certified and delivered on or subsequent to the date of the last preceding resolution, or resolution and verified certificate, in respect of General Lien bonds, as the case may be, have been used for such purposes, or for some one or more of them, or to reimburse the Railroad Company as above provided;

(b) the amount of such General Lien bonds so certified and delivered, which, or the proceeds of which, on or subsequently to the date of such last preceding resolution, or resolution and verified certificate (as the case may be), shall have been actually used for any such purpose, or to reimburse the Railroad Company, as above provided, and specifically indicating each and every such acquisition or construction of any railroad, track, structure, betterment, rolling stock or other property, and each and every acquisition of the bonds or stock of any Company owning or controlling any railroad or other property (which stock shall be acquired only when a majority of the total capital stock of such Company can and shall have been or shall be thereby obtained unless such majority shall theretofore have been acquired and pledged hereunder) and also stating in detail the amount of bonds, or proceeds of bonds, and cash used or expended for each and every such purpose;

(c) that the price paid in General Lien bonds or their proceeds for such construction or acquisition was not in excess of the fair value of the work done or property acquired, and that the bonds included in such verified certificate were sold, disposed of or otherwise accounted for, at not less than their fair market value at the time of such sale, disposition or accounting;

(d) that of the expenditures for which such certificate shall state that General Lien bonds or their proceeds have been used, no part has been provided for by the use of Prior Lien bonds: and that of the expenditures for which reimbursement shall be claimed no part has been obtained by the Railroad Company out of Prior Lien bonds or their proceeds.

No new property shall be acquired by the use of any such General Lien bonds or their proceeds in any one calendar year

Exhibit R-118.

upon which property there shall be any lien or charges prior to this indenture (excepting any of the mortgages specified in Sections 5 and 8 of this Article which may attach thereto and any undetermined liens or charges incidental to construction and ordinary operating accounts) in excess of one million dollars; and, in case of the acquisition hereunder of any new property, every such verified certificate shall further state whether the property so acquired is known or believed to be subject to any lien or charge prior to this indenture (excepting any of the mortgages specified in Sections 5 and 8 of this Article, and any undetermined liens or charges incidental to construction and ordinary operating accounts), and shall specify the amount of any such prior lien or charge (other than as aforesaid) known or believed to exist; and in case any bonds or any shares of the capital stock of any other Company shall have been acquired by the use of such bonds or their proceeds, every such verified certificate shall state whether the property of such other company whose bonds or stock shall have been so acquired is known or believed to be subject to any lien or charge prior to that securing such bonds of such company, and whether the company, whose capital stock shall have been so acquired, is known or believed to be indebted (except to the Railroad Company) in any amount (except for ordinary operating accounts) and whether its property is known or believed to be subject to any lien, charge or indebtedness, and in each instance specifying the amount of any such debt, lien or charge known or believed to exist. In every case of any such lien, charge or indebtedness (except indebtedness to the Railroad Company or undetermined liens or charges incidental to construction or the lien of any of the mortgages for which a reservation of bonds is made in Sections 5 and 8 of this Article or for ordinary operating accounts), and during the continuance of such lien, charge or indebtedness, the Railroad Company shall, by appropriate instrument or instruments, reserve out of the \$17,000,000 General Lien bonds set apart by this section an amount at par equivalent to all such liens, charges or indebtedness (except as aforesaid) affecting such property hereafter acquired, and the bonds so reserved shall be taken from the \$1,000,000 bonds deliverable under this section in such calendar year, or in the next succeeding calendar year, and shall be executed, certified, delivered and used only

Exhibit R-118.

for the retirement or acquisition of such liens, charges or indebtedness in amounts equivalent at least to the par of the bonds delivered therefor, and all the liens, charges or indebtedness so retired or acquired shall be canceled or held by the Trustee as, in its judgment, shall best protect the holders of the bonds hereby secured.

Every such verified certificate shall be accompanied by the written statement of the President or of one of the Vice-Presidents, and of the Auditor or Treasurer, of the Railroad Company that they believe such certificate to be true, and that such bonds have been used and the expenditures therein certified have been made only for purposes properly chargeable to capital account of the Railroad Company, and that no part thereof has been used for ordinary maintenance of the lines of railway or other property owned or in any way controlled by the Railroad Company or for replacements or other purposes ordinarily treated by railroad companies as a part of their operating expenses. Together with such statements and verified certificates, there shall be delivered to the Trustee certificates for all shares of stock and all bonds so acquired, and such further instruments and conveyances as may be necessary to vest in the Trustee all new property so acquired, and, so far as may be, any and all obligations taken up or acquired with, or by, the said bonds or their proceeds; and also the written opinion of counsel for the Railroad Company to the effect that such instruments and conveyances are sufficient for that purpose, or that no additional instrument or conveyance is necessary. The certificates for all shares of stock so acquired shall be duly transferred into the name of the Trustee, and any bonds so acquired shall, if practicable, be transferred in like manner, or, if not susceptible of such transfer, they shall be plainly endorsed as the property of the Trustee hereunder. Such resolutions, statements, verified certificates and opinions shall be deemed and taken as plenary authority to the said Trustee for its certification of such General Lien bonds or of any one or more of them.

Except to retire or acquire liens, charges or indebtedness for which bonds so used shall have been reserved as hereinbefore provided, General Lien Bonds in excess of an aggregate amount of \$1,000,000 shall not be issued or certified under this section in any one calendar year; *provided*, however, and the appro-

Exhibit R-118.

ation of such \$17,000,000 bonds in and by this Section 9 is all respects subject to the condition, and it is hereby expressly declared, that if the beforementioned Charles H. Coster, his Fitzgerald and Anthony J. Thomas, jointly but not severally, the survivors or survivor of them, from time to time, or before January 1, 1898, by writing addressed to the Railroad Company and to the Trustee, shall require the delivery to them jointly, or upon their joint order or orders, of the whole or any part of \$2,000,000 of said bonds, the Railroad Company shall execute, and the Trustee shall certify and deliver to them jointly, or upon their joint order or orders, bonds to the amount specified in such several requisitions to an aggregate amount not exceeding \$2,000,000 of such bonds; but no such delivery shall impair the preceding provision for delivery of the residue of the \$17,000,000 of bonds to the Railroad Company at various dates subsequent to December 31st, 1897, and shall be in addition to any deliveries under the foregoing provisions of this article.

C.

SEC. 10. The Railroad Company shall not and will not issue, negotiate, sell or dispose of any bonds hereunder, in any manner other than in accordance with the provisions of this indenture, and the agreements in that behalf herein contained, and in issuing, selling, negotiating or otherwise disposing of such bonds, from time to time, it shall and will well and truly apply, or cause to be applied, the same, or the proceeds thereof, and for purposes herein described, and to and for no other different purpose.

SEC. 11. The Railroad Company will make all lawful effort and pledge with the Trustee hereunder the bonds above specified in Section 5, III. and V., at the several dates when the same shall respectively mature: provided that it shall not be required to pay more than par for any such bonds.

SEC. 12. Nothing in this indenture expressed or implied intended, or shall be construed, to confer upon, or to give to, any person or corporation, other than the parties hereto and the holders of bonds issued under and secured by this indenture, any right, remedy or claim upon, under or in respect of this indenture, or any covenant, condition or stipulation thereof; its covenants, conditions and stipulations being intended to

Exhibit R-118.

be, and being for the sole and exclusive benefit of the parties hereto and of the holders of bonds hereby secured.

SEC. 14. Whenever any coupon bond or bonds amounting to \$1,000 or to any multiple of \$1,000, together with all unmatured coupons thereto belonging, shall be surrendered for exchange for registered bonds without coupons, the Railroad Company shall issue, and the Trustee shall thereupon certify and deliver in exchange for such coupon bond or bonds, a like amount of registered bonds (without coupons), which registered bonds shall be for \$500, or such convenient multiples thereof as the Railroad Company from time to time may establish, and shall bear interest at the same rate as the coupon bonds surrendered and from the date of the last matured coupon thereof. In every such case the Trustee shall forthwith cancel the bond or bonds and coupons surrendered, and deliver the same to the Railroad Company. The interest on such registered bonds without coupons shall be paid only to the several registered holders of such bonds, or upon their written orders.

Whenever any such registered bonds shall be surrendered for transfer, the Railroad Company shall issue, and the Trustee shall certify and deliver to the transferee, a like amount of new registered bonds, upon surrender and cancellation of the bond or bonds transferred. For any such transfer of registered bonds without coupons the Railroad Company, at its option, may make a charge not exceeding one dollar for each new registered bond issued in exchange for any surrendered bond or bonds.

In case any bond issued hereunder shall become mutilated or shall be destroyed, upon the surrender of any such mutilated bond to the Trustee, or upon filing with the Trustee satisfactory evidence of such destruction, the Railroad Company upon receiving indemnity satisfactory to it, may in its discretion, issue, and the Trustee in its discretion may certify, a new bond, bearing the same serial number, in lieu, substitution or exchange for, and upon cancellation of, the bond so mutilated, or in lieu of the bond destroyed.

SEC. 15. Any act or proceeding required or provided by any term of this indenture of any bond or resolution herein recited, to be done or performed by any board or officer of the Railroad Company, shall and may, in event of any change in its existence, be done and performed with like force and effect by the like board or officer of any railroad corporation that shall at the time be lawful sole successor of the Railroad Company.

ARTICLE TWO.

SECTION 1. The Railroad Company will well and truly pay and discharge, or will acquire and pledge hereunder, all of the old bonds mentioned in Article One, Section 5, I., II. and IV., and Section 8, I. and II., at or before the several dates of maturity thereof, provided it shall then be lawfully authorized to issue bonds hereunder for that purpose as provided in Article One hereof, and it will duly, punctually and regularly pay the interest on all such old bonds until the same shall be paid and discharged or acquired and pledged hereunder, excepting, however, that the payment of the bonds of the New York and Erie Railroad Company, secured by the mortgage or charge created by the Act of the Legislature of the State of New York passed May 14, 1845, and amounting to the principal sum of \$2,482,000, may be extended or renewed by the Railroad Company at or before maturity without impairment of the lien or the security of said bonds, for any period or periods, at not over four per cent. per annum interest, principal and interest payable in gold, and that the lien hereof on the property embraced in the mortgage securing such bonds shall be subordinate to the lien of such bonds as so extended; and excepting further that neither the covenants nor restrictions of this section shall apply in respect of any bonds now or hereafter issued by the New York, Pennsylvania and Ohio Railroad Company, or of any corporation (other than the Railroad Company) successor to said Company, unless or until the railroad now of said Company, or securities of said Company or of a successor Company, shall have been acquired and subjected to the lien hereof pursuant to the provisions of Article One, Section 2, hereof.

SEC. 2. As and when, but no further than, expressly required by the terms of any of the old mortgages, the Railroad Company will from time to time cause to be issued thereunder bonds for delivery in exchange for other old bonds for which reservation is made in Article One, Section 5; but no issue shall be made thereunder that shall increase the aggregate old indebtedness of \$79,918,000, or that, except for such exchange, shall increase the indebtedness as stated in said Article One, Section 5, secured by any one or more of said old mortgages; *provided*, however, that neither the covenants nor the restrictions of this paragraph shall apply in respect of any bonds now or hereafter issued by any of the Companies enumerated in Article One,

Exhibit R-118.

Section 5, III. and V., unless all the stock of any such Company shall have been duly pledged hereunder, and then only in respect of the Company of which all the capital stock shall have been so pledged.

SEC. 3. Having possession of the railroad now of the New York, Pennsylvania and Ohio Railroad as aforesaid, or securities therefor acquired and subjected to the lien hereof pursuant to the provisions of Article One, Section 2 hereof, the Railroad Company shall not and will not suffer or permit any default permitting any of the several lessors to terminate any of the existing leases of the Cleveland and Mahoning Valley Railroad, the Sharon Railroad, the Westerman Railroad or the Newcastle and Shenango Valley Railroad, or any lease hereafter made to it, or for its benefit, of any franchises or property now or hereafter belonging to any of the said Railroad Companies.

In case and whenever it shall make default in paying any sum stipulated to be paid in any such present or future lease of any of the said railroads, the Trustee, without affecting any of its rights hereunder, from time to time, in its discretion, may itself pay any sum so in default, and thereupon shall have and forthwith may assert a lien for such advances upon the premises hereby mortgaged and the proceeds thereof, which lien shall be entitled to priority in rank and payment from the income and profits of the mortgaged premises over any bonds hereby secured.

SEC. 4. The Railroad Company will (excepting as otherwise provided in its Buffalo and Southwestern Second Lien Mortgage in respect of that railroad) duly and punctually pay all lawful claims and demands not hereinbefore enumerated, which, if unpaid, might take precedence over this indenture, and each and every company (except the Buffalo Creek Railroad Company), of whose capital stock the greater part is now pledged hereunder or hereafter shall be acquired and pledged hereunder as provided in Section 9 of Article One, at all times during the continuance of such pledge, will duly and punctually pay all lawful claims and demands, which, if unpaid, might take precedence of any mortgage securing bonds of such company, or which might, in any wise, impair the value of such capital stock of such company if pledged hereunder; and the Railroad Company will enforce any and all of its claims and demands against any such company only in such manner as not to prejudice or affect the bonds secured by this indenture.

Exhibit R-118.

The Railroad Company will also at all times take all such action as from time to time may be proper to preserve the corporate rights of every company of whose capital stock the greater part shall be pledged hereunder.

SEC. 5. The Railroad Company shall and will, from time to time, pay and discharge all taxes, assessments and governmental charges lawfully imposed upon the lines of railroad and other premises hereby mortgaged, or upon any part thereof, or upon the income and profits thereof, the lien of which would be prior to the lien hereof, so that the priority of this indenture shall be fully preserved; and if any company of whose capital stock the greater part is now pledged hereunder or hereafter shall be acquired and pledged hereunder as provided in Section 9 of Article One (excepting the Buffalo Creek Railroad Company or any Coal Company in respect of lands upon which mining shall have been abandoned) shall, at any time during the continuance of any such pledge, fail to pay all such taxes, assessments and charges lawfully imposed upon the property of such company or upon the income and profits thereof, it will itself pay and discharge the same.

SEC. 6. Except as herein otherwise expressly provided, the Railroad Company will not sell any bond or share of stock now or hereafter pledged by it under this indenture nor pledge or agree to pledge or hypothecate the same, except subject to the prior lien hereof; it will not by any voluntary act part with the ownership and title of such bonds or stock, or of any part of such bonds or stock, or its equity of redemption therein or the voting power thereof; it will, subject to the lien hereof, hold all and singular such stock (other than the shares of the Buffalo Creek Railroad Company) of any company of whose capital it may control the major part, and exercise its voting power thereon in such manner that it shall retain in itself the rights and powers of a majority shareholder in the capital stock of every such company; and as such holder of such stock it will not by affirmative vote, or by abstaining from voting, sanction or permit any increase of the capital stock of any such company or the creation of any mortgage or other lien upon the railroad or property of any such company, unless effective provision be made that all bonds secured by any such additional mortgage and all additional shares of such stock (which shares shall be fully paid and non-assessable) shall, at the time of their issue,

Exhibit R-118.

be delivered and pledged to the Trustee, to be by it held, subject to all the trusts of this indenture, with the same effect as if such bonds and shares had been delivered and pledged to it herein and at the time of the making hereof. This provision, however, shall not apply to any increase of stock or to the creation of mortgages or other liens by the Buffalo Creek Railroad Company. But nothing herein contained shall prevent the extension at maturity of any bonds now or hereafter pledged to or held by the Trustee under this indenture, and at the time of such pledge secured by any mortgage of any company, or prevent the issue and substitution therefor of other bonds for equivalent amount, adequately secured by similar mortgage; it being distinctly understood that the time for the payment of the principal of any bonds so pledged hereunder may, at or before their maturity, be extended by the Railroad Company (not then being in default hereunder), with the consent of the company which, at the time of such consent, shall own or control the property upon which such bonds so to be extended may be a lien, and also that other bonds for an equivalent amount, adequately secured by similar mortgages, may be issued in substitution therefor, and that in every such case such new bonds shall forthwith *ipso facto* come under the lien and grant of this indenture, and shall forthwith be delivered to the Trustee.

ARTICLE THREE.

SECTION 1. The Railroad Company shall and will well, duly and punctually pay, or cause to be paid, to every holder of any bond issued hereunder and secured hereby, the principal and interest accruing thereon, at the dates and rates and in the manner mentioned therein, or in the coupons thereto belonging, according to the true intent and meaning thereof; without deduction from either principal or interest for any tax or taxes which it may be required to pay or retain therefrom under or by reason of any present or future law; and it shall and will pay every such tax. All coupons when paid shall forthwith be canceled.

SEC. 2. All lines of railway and property of every kind, and all interest therein, when and as and to the extent hereafter acquired, as above provided, out of, or from bonds, or the proceeds of bonds, secured by this indenture, or otherwise pursuant to the provisions hereof, shall, without any further con-

Exhibit R-118.

veyance or assignment, immediately upon such acquisition, and subject to the terms and conditions of such acquisition, become and be subject to the lien of this indenture as fully and completely as though now owned by the Railroad Company, and expressly and specifically conveyed by, and embraced in, the granting clauses of this indenture; and the Railroad Company at all times will execute and deliver any and all such further assurances or conveyances as the Trustee may reasonably direct or require, for the purpose of expressly and specifically subjecting the same to the lien of this indenture.

Sec. 3. Upon demand of the Trustee from time to time the Railroad Company will grant, convey, confirm, assign, transfer and set over unto the Trustee all real and personal estate, corporate rights and franchises which in any way or manner it shall acquire as appurtenant to, or in, or for use upon, or for the business of, any railroad hereby mortgaged, or as appurtenant to, or in, or for use upon, or for the business of, any leasehold estate hereby mortgaged (including all railroads and leasehold estates which shall hereafter become subject to the lien of this mortgage), or of any railroad of which any stocks or bonds are or shall be pledged hereunder; and it shall and will also make, do, seal, execute, acknowledge and deliver, or cause to be made, done, sealed, executed, acknowledged and delivered all and every such further acts, matters, things, deeds, conveyances, bills of sale and transfers, and assurances in the law, for the better assuring, conveying and confirming unto the Trustee all and singular the hereditaments and premises, estates and property hereby conveyed, or intended so to be, or which are hereby covenanted and agreed hereafter to be conveyed to the Trustee, as it, or its counsel learned in the law, shall reasonably require for better effectuating and carrying out the provisions objects and purposes of this indenture, and for securing payment of the principal and interest of the bonds intended to be hereby secured; all which estates shall be held by the Trustee in, under and upon the trusts, and for the uses and purposes, and subject to the powers herein mentioned, declared, given, implied or expressed; and, it will endeavor to procure from all companies, of which the capital stock or bonds or any part of either is, or shall be, pledged hereunder, all conveyances or assurances in law necessary to bring under the lien of this indenture any and all property connected with or appurtenant to the

Exhibit R-118.

property of any such company, that shall have been constructed or acquired with the proceeds of any of the bonds set apart by Article One, Section 3 and Section 9.

But nothing expressed or implied in this indenture is intended, or shall be construed, to limit the right or power of the Railroad Company, hereby distinctly reserved, by the use of its credit or in any manner other than by the use of such reserved bonds, to construct or acquire, other lines of railway, branches or extensions, or interests therein, free from the lien hereof.

Sec. 4. The Railroad Company shall and will, at its office or agency in the City of New York, keep a sufficient register or registers of bonds issued hereunder, which registers at all reasonable times shall be open to the inspection of the Trustee; and, upon presentation for such purpose, it will register therein any coupon bonds issued under the provisions hereof; and it shall and will register likewise all bonds without coupons issued under the provisions hereof. As to all bonds so registered, the person in whose name the same shall be registered shall for all purposes be deemed and regarded as the owner thereof, and thereafter payment of or on account of the principal sum in such bond mentioned shall be made only to such registered holder or upon his order, but such registration may be changed as hereinafter provided. All such payments so made shall be valid and effectual to satisfy and discharge the liability upon such bond to the extent of the sum or sums so paid.

Upon presentation of any coupon bonds which shall have been registered as aforesaid, with the order or assignment of the registered holder, the same shall be transferred upon such register to the person named in such written order or assignment, and thereafter such transferee or transferees of such bond shall be held to be the owner or owners thereof with all incidental rights and powers, and from time to time such transfers may be made as the registered holder of any such bond for the time being may direct as aforesaid. The registered holder of any such coupon bond shall also have the right to cause the same to be registered as payable to bearer, in which case transferability by delivery shall be restored, and thereafter the principal thereof shall be payable to any person presenting the same. Any holder of a coupon bond registered to bearer may cause such bond to be registered in the name of such holder

Exhibit R-118.

with the same effect as a first registration thereof; and successive registrations as aforesaid may be made from time to time as desired. Such registration of any coupon bond shall not restrain the negotiability of any coupon thereto belonging but every such coupon shall continue to pass by delivery merely.

ARTICLE FOUR.

SECTION 1. Neither any coupon belonging to any bond hereby secured, nor any interest obligation in respect of any registered bond which in any way on or after maturity shall be transferred or pledged separate and apart from its bond, shall be entitled to any benefit of or from this indenture, except after the prior full payment of the principal of all bonds issued hereunder, and of all coupons and interest obligations not so transferred or pledged.

SEC. 2. Until default shall have been made in the due and punctual payment of any interest, or in the due and punctual payment of any principal sum, of any bond hereby secured, or in the due and punctual performance and observance of any covenant or condition hereof obligatory upon the Railroad Company, and, until any such default continuing beyond the period of grace, if any, herein provided in respect thereof, shall have become the subject of some action hereunder by the Trustee or by the bondholders as hereinafter authorized, or until a Receiver shall have been appointed, or until the Railroad Company voluntarily shall have surrendered possession to the Trustee as hereinafter permitted, the Railroad Company, its successors and assigns, shall be suffered and permitted in any manner, and to any extent, not affecting the lien of this indenture, to retain actual possession of all and every the premises hereby mortgaged (other than bonds and certificates of stock) and the same and every part thereof, with the rights and franchises appertaining thereto, and the tolls, income, rents, issues and profits thereof, to manage, operate, collect, receive, use and enjoy in the same manner and to the same extent as if this indenture had not been made.

SEC. 3. In case default shall be made in the payment of any interest on any Prior Lien bond or on any General Lien bond at any time issued under and secured by this indenture, or on any bond secured by any mortgage recited in Article One,

Exhibit R-118.

Section 3, I., II. and IV., or in Section 8, and such default shall continue for a period of six months; or in case default shall be made in the due and punctual payment of the principal of any Prior Lien bond or of any General Lien bond secured hereby, or when and as the same shall be demanded in the due and punctual payment of the principal of any bond secured by any mortgage recited in Article One, Section 3, I., II. and IV., or in Section 8; or in case default shall be made by the Railroad Company in the payment of any tax, assessment or other governmental charge lawfully imposed or levied upon any part of the mortgaged property and premises, or the income and profits thereof, and such default shall continue for a period of six months after written notice thereof from the Trustee or from holders of five per cent. in amount of the bonds hereby secured; or in case the Railroad Company shall make default in the due observance and performance of its covenant of further assurance, or any other covenant, promise or condition herein contained, and any such default shall continue for a period of six months after written notice thereof from the Trustee or from the holders of five per cent. in amount of the bonds hereby secured; then, and in each and every such case of default (provided, however, in respect of each of the three cases so indicated that it shall have continued for six months as aforesaid), the Trustee personally, or by its agent or agents, attorney or attorneys, may enter into and upon all or any part of the railways, property and premises, lands, rights, interests and franchises hereby conveyed or intended so to be, and each and every part thereof, and may exclude the Railroad Company, its agents and servants, wholly therefrom, and having and holding the same may use, operate, manage and control said railways and other premises, regulate the tolls for the transportation of passengers and freight thereon, and conduct the business thereof, either personally or by its superintendents, managers, receivers, agents and servants or attorneys, to the best advantage, as well of the public as of the holders of the bonds hereby secured in accordance with law and with any statute relating to said railways and other premises or any part thereof, or to the operation thereof; and, upon every such entry, the Trustee, at the expense of the trust estate, from time to time, by either purchase, repairs or construction, may maintain and restore, and insure or keep insured, the rolling stock, tools and

Exhibit R-118.

machinery and other property, buildings, bridges and structures erected or provided for use on connection with said railways and other premises, and whereof it shall become possessed, as aforesaid, in the same manner and to the same extent as is usual with railway companies, and likewise from time to time, at the expense of the trust estate, may make all necessary or proper repairs, renewals and replacements and useful alterations, additions, betterments and improvements thereto and thereon, as well in respect of the rolling stock or equipments as in respect of the railways and appurtenances and other subject matters as to it may seem judicious; and it may collect and receive all tolls, freights, incomes, rents, issues and profits of the same and every part thereof, and also the income from stocks and bonds pledged hereunder, and after deducting the expenses of operating said railways, and other premises and of conducting the business thereof, and of all repairs, maintenance, renewals, replacements, alterations, additions, betterments and improvements, and all payments which may be made for taxes, assessments, insurance and prior or other proper charges upon the said premises and property, or any part thereof, as well as just and reasonable compensation for its own services and for all agents, clerks, servants and other employees by it properly engaged and employed, it shall apply the moneys arising as aforesaid as follows:

in case the principal of the Prior Lien bonds hereby secured shall not have become due, to the payment of the interest remaining in default in the order of the maturity of the installments of such interest, first, upon any and all "Prior Lien bonds," and, after satisfaction thereof, then upon any and all "General Lien bonds," and next, if the principal of the General Lien bonds shall have become due by declaration or otherwise, to the payment of the principal of all General Lien bonds; such payments in every instance to be made ratably to the persons or parties entitled thereto without discrimination or preference; but,

in case the principal of the Prior Lien bonds shall have become due by declaration or otherwise, first, to the payment of the accrued interest in the order of the maturity of the installments thereof, upon any and all Prior Lien bonds, and next to the payment of the principal of all Prior Lien bonds, and, after satisfaction thereof, to the

Exhibit R-118.

payment in like manner of the interest accrued upon any and all General Lien bonds, and finally to the payment of the principal of all General Lien bonds; in every instance such payments to be made ratably to the persons or parties entitled to such payment, without any discrimination or preference;

these provisions, however, not being intended in any wise to modify the provisions of Section 1 of this Article.

Upon and during such continuance of any such default, either with or without entry, the Trustees shall have, exercise, and enjoy the right to vote on all shares of stock pledged or agreed to be pledged hereunder, and for the benefit of the holders of bonds hereby secured to receive and collect all interest moneys and dividends maturing or payable upon all pledged bonds and stocks, and as holders of such shares of stock and of such bonds pledged or agreed to be pledged in this indenture, to perform any and all acts, or to make or execute any and all requests, requisitions or other instruments.

SEC. 4. In case default shall be made by the Railroad Company in the payment of any interest on any Prior Lien Bond, and such default shall continue for a period of six months, then and in every such case of continuing default, upon the written request of the holders of twenty-five per cent. in amount of the Prior Lien Bonds hereby secured then outstanding, the Trustee shall, by notice in writing delivered to the Railroad Company, declare the principal of all Prior Lien Bonds hereby secured then outstanding to be due and payable immediately, and upon any such declaration the same shall become and be immediately due and payable, anything in this indenture or in said bonds contained to the contrary thereof in anywise notwithstanding.

In case default shall be made by the Railroad Company in the payment of any interest on any Prior Lien Bond or any General Lien Bond hereby secured at any time issued and outstanding, and such default shall continue for a period of six months, then and in every such case of continuing default, upon the written request of the holders of twenty-five per cent. in amount of the General Lien Bonds hereby secured then outstanding, the Trustee, by notice in writing delivered to the Railroad Company, shall declare the principal of all General

Exhibit R-118.

Lien Bonds hereby secured, then outstanding, to be due and payable immediately, and upon any such declaration the same shall become and be immediately due and payable, anything in this indenture or in said bonds contained to the contrary thereof in anywise notwithstanding.

Each and every provision of this section is, *however*, subject to the condition (as to each of said two issues of bonds respectively), that if at any time after the principal of either of said two issues shall have been so declared due and payable, all arrears of interest upon all bonds of such issue shall either be paid by the Railroad Company or be collected out of the mortgaged premises before any sale of the mortgaged premises shall have been made, then and in every such case the holders of a majority in amount of the bonds of such issue hereby secured then outstanding, by like written notice to the Railroad Company and to the Trustee, may waive such default and its consequences as to such issue; but no such waiver shall extend to or affect any bonds of the other issue or any subsequent default as to either issue, or impair any right consequent thereon.

In case the Trustee shall have proceeded to enforce any right under this indenture by foreclosure, entry or otherwise, and such proceedings shall have been discontinued or abandoned because of such waiver, or for any other lawful reason, or shall have been determined adversely to the Trustee, then and in every such case, the Railroad Company shall be restored to its former position and rights in respect of the mortgaged premises and the shares of stock and bonds, and other property, herein pledged or agreed to be pledged; and, upon the written request of the Railroad Company, the Trustee shall do, make, execute, acknowledge and deliver such acts, deeds, instruments and assurances in the law as may be required to effectuate such purpose; but, nevertheless, all rights, remedies and powers of the Trustee shall survive and continue as though no such proceedings had been taken.

SEC. 5. In case default shall be made by the Railroad Company in the payment of any interest on any Prior Lien bond or on any General Lien bond secured by this indenture, or on any bond secured by any mortgage recited in Article One, Section 5, I., II., and IV., or in Section 8, and such default shall continue for a period of six months; or in case default shall be

Exhibit R-118.

made by the Railroad Company in the due and punctual payment of the principal of any Prior Lien bond or of any General Lien bond secured hereby, or when and as the same shall be demanded in the due and punctual payment of the principal of any bond secured by any mortgage recited in Article One, Section 5, I., II. and IV. or in Section 8; or in case default shall be made by the Railroad Company in the payment of any tax, assessment or other governmental charge lawfully imposed or levied upon any part of the mortgaged property and premises or the income and profits thereof, and such default shall continue for a period of six months after written notice thereof from the Trustee or from holders of five per cent. in amount of the bonds hereby secured; or in case the Railroad Company shall make default in the due observance and performance of its covenant of further assurance, or any other covenant, promise or condition herein contained, and any such default shall continue for a period of six months after written notice thereof from the Trustee or from the holders of five per cent. in amount of the bonds hereby secured; then, and in each and every such case of default (provided, however, in respect of each of the three cases so indicated, that it shall have continued for six months as aforesaid), the Trustee, with or without entry, personally or by attorney, in its discretion (a) may sell to the highest and best bidder, in one lot and as an entirety, all and singular the mortgaged property and premises, bonds and stocks, rights, franchises and interests, lands, and appurtenances, and all right, title and interest, claim and demand therein, and right of redemption thereof; which sale shall be made at public auction at such place in the City of Elmira, in the State of New York, or at such other place on the railroad hereby mortgaged, at such time and upon such terms, as may be specified in the notice of sale to be given as herein provided; or (b) may proceed to protect and enforce the rights of bondholders under this indenture, by a suit or suits in equity or at law, whether for the specific performance of any covenant or agreement contained herein, or in aid of the execution of any power herein granted, or for the foreclosure of this indenture, or for the enforcement of any other appropriate legal or equitable remedy, as the Trustee, being advised by counsel learned in the law, shall deem most effectual to protect and to enforce any of its rights or duties hereunder.

Exhibit R-118.

Upon either (c) the written request of the holders of twenty-five per cent. in amount of the General Lien bonds, in case of any such continuing default, or (d) the written request of the holders of twenty-five per cent. in amount of the Prior Lien bonds at the time outstanding, in case of any such continuing default other than in the payment of the principal or interest of the General Lien bonds, it shall be the duty of the Trustee upon being indemnified as hereinafter provided to take all needful steps for the protection and enforcement of its rights and the rights of the bondholders secured hereby, and to exercise the powers of entry and sale herein conferred, or both, or to take appropriate judicial proceedings according to such request, or in default of specific instructions by such bondholders to proceed by action, suit or otherwise, as the Trustee being advised by counsel learned in the law shall deem most expedient in the interest of the holders of the bonds hereby secured.

Provided, nevertheless, that no foreclosure of this mortgage or sale of the mortgaged premises pursuant to judicial proceedings or under the powers of sale conferred upon the Trustee hereunder, shall affect any right or lien of the holders of the Prior Lien bonds or accelerate or precipitate the maturity thereof, unless such foreclosure or sale be had upon the written request of the holders of twenty-five per cent. in amount of the Prior Lien bonds then outstanding; it being the intention that the lien and rights of such Prior Lien bonds shall continue unaffected by any sale or foreclosure hereunder unless made upon such request of holders of Prior Lien bonds; but that in case of any default the Trustee, in its discretion, may make, and such holders of twenty-five per cent. in amount of General Lien bonds may require, a sale or foreclosure subject to the Prior Lien bonds, and not otherwise, unless a sale or foreclosure shall have been requested by the holders of twenty-five per cent. in amount of the Prior Lien bonds as above authorized.

Notice of any sale pursuant to any provision of this indenture, shall state the time and place, when and where, and the terms upon which the same is to be made, and shall contain a brief description of the property to be sold, and shall be sufficiently given if published once in each week for six successive weeks prior to such sale in one newspaper at that time published in each of the cities of New York, N. Y.; Buffalo, N. Y.;

Exhibit R-118.

Newark, N. J.; Susquehanna, Pa.; Cleveland, O.; Indianapolis, Ind.; and Chicago, Ill.

Upon the completion of any sale or sales under this indenture, the Trustee shall make, execute and deliver to the accepted purchaser or purchasers a good and sufficient deed, or good and sufficient deeds, of conveyance, for the property and franchises sold.

In case the mortgaged and pledged premises shall be sold upon a default hereunder and such sale shall be made not subject to the lien of the Prior Lien bonds, hereby secured, the whole of the principal sum of all the bonds of both issues hereby secured, if not previously declared due, shall at once become due and payable, anything in said bond or bonds or herein contained to the contrary notwithstanding.

In case of any sale or sales made subject to the lien of the Prior Lien bonds, the whole of the principal of all the General Lien bonds, if not previously declared due, shall at once become due and payable, anything in said bond or bonds herein contained to the contrary notwithstanding; but no such sale made subject to the lien of the Prior Lien bonds, shall in anywise affect the maturity or lien of the Prior Lien bonds or any right or remedy in respect thereof.

SEC. 6. None of the remedies provided in the preceding Sections 3 and 5 shall apply, nor shall they be enforced, by reason of any default, in respect of any of the old bonds or obligations specified in Article One, Section 5, IV., and Section 8, II., until after the Railroad Company shall have acquired, as provided in Section 2 of Article One, the New York, Pennsylvania and Ohio Railroad, or the control thereof, and shall have subjected the same to the lien of this indenture.

SEC. 7. For all purposes and within the meaning of the preceding Sections 3, 4 and 5, and also of Sections 13 and 16 of this Article, any default in payment of principal or interest of any Prior Lien bonds shall constitute a default entitling the holders of General Lien bonds to all rights and remedies hereunder as though such default were in respect of General Lien bonds.

SEC. 8. Any sale or sales completed under or by virtue of this indenture, shall operate to divest all right, title, interest, claim and demand whatsoever, either at law or in equity, of the

Exhibit R-118.

Railroad Company of, in and to the premises hereby mortgaged, and shall be a perpetual bar both at law and in equity against the Railroad Company, its successors and assigns, and against any and all persons claiming or to claim the mortgaged premises, or any part or parcel thereof, by, from, through or under the Railroad Company, its successors and assigns, or any of them; *provided*, however, that in case of a foreclosure or sale hereunder made subject to the lien of the Prior Lien bonds, then and in such event the lien of the Prior Lien bonds shall continue unimpaired, and the holders thereof through the Trustee, or otherwise as in this indenture provided, shall have and may thereafter assert all their rights and remedies to the same extent as though there had been no foreclosure or sale hereunder.

Any sale pursuant to any provision hereof, because of any default of the Railroad Company, whether made under the power of sale hereby granted and conferred, or under or by virtue of judicial proceedings, or some judgment or decree of foreclosure and sale made by any Court of competent jurisdiction, shall be made subject to the lien of any mortgage or mortgages prior to this indenture upon any property hereby conveyed to the extent of such lien or liens respectively.

SEC. 9. The Trustee may, from time to time, adjourn any sale to be made by it under the provisions of this indenture, by announcement at the time and place appointed for such sale, or for such adjourned sale or sales; and, so adjourning such sale, it may without further notice or publication make sale of the mortgaged premises at the time and place to which the same shall be so adjourned.

SEC. 10. The receipt of the Trustee shall be a sufficient discharge to the purchaser or purchasers of the property, sold as aforesaid, for the purchase money, and no such purchaser or purchasers, or his, their or its representatives, vendees, grantees or assigns, after paying such purchase money and receiving such receipt, shall be bound to see to the application of such purchase money upon or for any trust or purpose of this indenture, or in any manner whatsoever be answerable for any loss, misapplication or non-application of any such purchase money, or any part thereof, or be bound to inquire as to the authorization, necessity, expediency or regularity of any such sale.

Exhibit R-118.

SEC. 11. The proceeds or avails of any sale under any provision of this indenture, and the purchase money paid thereon shall be applied as follows:

First. To the payment of the costs and expenses of such sale, including a reasonable compensation to the Trustee, its agents, attorneys and counsel, and of all expenses, liabilities and advances made and incurred by the Trustee in managing and maintaining the property hereby conveyed or so intended to be, and of all taxes, assessments or liens prior to the lien of these presents, except any taxes, assessments or other superior liens to which such sales shall have been made subject.

Second. To the payment of the whole amount then owing or unpaid upon the bonds hereby secured for principal and interest, and in case such proceeds shall be insufficient to pay in full the whole amount so due and unpaid upon the said bonds, then to the payment of such principal and interest, without preference or priority of principal over interest, or of interest over principal, or of any installment of interest over any other installment of interest, ratably, to the aggregate of such principal and the accrued and unpaid interest subject, however, to the provisions of Section 1 of this Article; *provided*, that the Prior Lien bonds shall be first paid in full as to both principal and interest, before any payment shall be made on the General Lien bonds, unless such sale shall have been made subject to the continuing lien and rights of the Prior Lien bonds, in which event any arrears of interest in default on the Prior Lien bonds shall first be paid under this *Second* paragraph, and with this exception the entire payment under this *Second* paragraph shall go to the holders of the "General Lien Bonds" or the coupons thereof, as above provided.

Third. To the payment of the surplus, if any, to the Railroad Company, its successors or assigns, or to whomsoever may be lawfully entitled to receive the same.

SEC. 12. The Railroad Company shall not and will not at any time insist upon or plead, or in any manner whatever claim, or take the benefit or advantage of, any stay or extension law now or at any time hereafter in force in any locality where the mortgaged premises, or any part thereof, may or shall be situate, nor will it claim, take or insist on, any benefit or advantage from any law now or hereafter in force, providing for the

Exhibit R-118.

valuation or appraisement of the mortgaged premises, or any part thereof, prior to any sale or sales thereof to be made pursuant to any provision herein contained, or to the decree of any court of competent jurisdiction; nor after any such sale or sales will it claim or exercise any right under any statute enacted by the Congress of the United States or by the Legislature of any State to redeem the property so sold, or any part thereof; and it hereby expressly waives all benefit and advantage of any such law or laws; and it agrees that it will not hinder, delay or impede the execution of any power herein granted and delegated to the Trustee, but that it will suffer and permit the execution of every such power, as though no such law or laws had been made or enacted.

SEC. 13. No holder of any bond or coupon hereby secured shall have any right to institute any suit, action or proceeding in equity or at law for the foreclosure of this indenture or for the execution of any trust thereof, or for the appointment of a Receiver, or for any other remedy, hereunder, without first giving to the Trustee written notice of the fact that default has occurred and continued as hereinbefore provided, nor unless also the holders of twenty-five per cent. in amount of the issue of bonds hereby secured and affected by such default and then outstanding in respect of which such holder requests action, shall have made written request of the Trustee, and shall have afforded to it reasonable opportunity either itself to proceed to exercise the powers hereinbefore granted, or to institute such action, suit or proceeding in its own name, nor unless also they shall have offered to the Trustee adequate security and indemnity against the cost, expenses and liabilities to be incurred therein or thereby; and such notification, request and offer of indemnity are hereby declared in every such case at the option of the Trustee to be conditions precedent to the execution of the powers and trusts of this indenture and to any action, or cause of action, for foreclosure or for the appointment of a Receiver, or for any other remedy hereunder; it being understood and intended that no one or more holders of bonds and coupons shall have any right in any manner whatever to affect, disturb or prejudice the lien of this indenture by his or their action, or to enforce any right hereunder, except in the manner herein provided, but that all proceedings at law or in equity shall be instituted, had and maintained in the manner herein

Exhibit R-118.

provided and for the equal benefit of all holders of such outstanding bonds and coupons according to the tenor and terms of the two issues of bonds hereunder issued and hereby secured. A default in the payment of interest upon General Lien bonds only shall not be deemed a default affecting Prior Lien Bonds.

SEC. 14. Except as herein expressly provided to the contrary, no remedy herein conferred upon or reserved to the Trustee or to the holders of bonds secured hereby is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative, and shall be in addition to every other remedy given hereunder or existing at law or in equity or by statute.

SEC. 15. The personal property and chattels hereby conveyed, or intended so to be, shall be real estate for all the purposes of this indenture, and shall be held and taken to be fixtures and appurtenances of the said railroads and part thereof, and are to be used and sold therewith and not separate therefrom.

SEC. 16. Upon proper indemnity to the Trustee, the holders of a majority in amount of each of the two issues of bonds hereby secured and then outstanding (the holders of each issue being considered and counted as a separate class) in case of any subsisting default other than in the payment of the interest on or principal of the General Lien Bonds, or the holders of a majority in amount of General Lien Bonds if such default be only as to interest upon, or principal of, those bonds, anything in this indenture contained to the contrary notwithstanding, from time to time, shall have the right to direct and control any and all proceedings theretofore instituted for any sale of the premises hereby conveyed and pledged, or agreed or intended so to be, or for the foreclosure of this indenture, or for the appointment of a Receiver, or any other proceedings hereunder, and for that purpose to instruct the Trustee to continue or to discontinue any such proceedings hereunder; and no such action by the Trustee or by such majority shall extend to, or be taken to affect, any subsequent default or to impair any right resulting therefrom. But nothing herein is intended to limit any power of the Trustee to exercise any right or to apply or enforce any remedy under any of the provisions of this indenture, unless the Trustee be otherwise expressly directed, as in this section provided, by the requisite number and class of holders of bonds hereby secured.

Exhibit R-118.

SEC. 17. In case of any sale hereunder, any and all purchasers in making settlement or payment, shall be entitled to turn in any bonds and any matured and unpaid coupons hereby secured, estimating the value of such bonds and coupons for that purpose at the sum payable out of the net proceeds of such sale to the holder or holders of such bonds and coupons as his or their ratable share of such net proceeds, after allowing for the proportion of the total payment required to be made in cash for the cost and expenses of the sale or otherwise; and if such share of net proceeds shall be less than the amount then due upon such bonds and coupons, such purchaser or purchasers may make such settlement by receipting on each bond the amount to be credited thereupon; and at any and every such sale any or all of the bondholders may bid for and purchase such property, and upon compliance with the terms of sale may hold and retain, and dispose of, such property without further accountability therefor.

SEC. 18. Any request in writing or other instrument required by this indenture to be signed and executed by bondholders may be in any number of concurrent instruments of similar tenor and date, and may be signed or executed by such bondholders in person or by attorney in fact. Proof of the execution of any such request or other instrument, and of the holding by any person of any of said coupon bonds transferable by delivery, shall be sufficient for any purpose of this indenture, if made in the following manner:

The fact and date of the execution by any person of any such request or other instrument, may be proved by the certificate of any notary public, or other officer authorized to take acknowledgments of deeds to be recorded in New York, that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution.

The amount of coupon bonds transferable by delivery, held by any person executing any such request or other instrument as the holder of bonds, and the amounts and issue numbers of the bonds held by such person, and the date of his holding the same, may be proved by a certificate in writing executed by any trust company, bank, bankers or other depository (wherever situated), whose certificate shall be deemed by the Trustee to be satisfactory, showing that such person had on

Exhibit R-118.

deposit with such depository the bonds described in such certificate at the date therein mentioned. Such proof shall be conclusive in favor of the Trustee with regard to any action taken by it under such request or other instrument.

Sec. 19. Upon filing a bill in equity, or upon commencement of any other judicial proceedings to enforce any right of the Trustee or of the bondholders under this indenture, the Trustee shall be entitled to exercise the right of entry herein conferred, and also any and all other rights and powers herein and hereby conferred and provided to be exercised by the Trustee upon the occurrence and continuance of default as herein before provided, and as a matter of right, the Trustee shall be entitled to the appointment of a Receiver or Receivers of the premises hereby mortgaged, and of the earnings, income, revenue, rents, issues or profits thereof, with such powers as the Court making such appointment shall confer.

Sec. 20. No delay or omission of the Trustee or of any holder of bonds hereby secured to exercise any right or power arising from any default continuing as aforesaid shall exhaust or impair any such right or power, or be construed to be a waiver of any such default, or an acquiescence therein.

Sec. 21. The Railroad Company at any time hereafter before full payment of the bonds secured hereby, and whenever it shall deem expedient for the better security of such bonds, although there be then no default entitling the Trustee to enter into possession, may surrender and deliver to the Trustee full possession of the whole or any part of the property, premises and interests hereby conveyed, or intended so to be, for any period fixed or indefinite. Upon such surrender and delivery the Trustee, at its option, may enter into and upon the premises so surrendered and delivered, and may take and receive possession thereof, for such period fixed or indefinite, as aforesaid, without prejudice, however, to its right at any time subsequently, when entitled thereto by any provision hereof, to insist upon and to maintain such possession, though beyond the expiration of any prescribed period. Upon any such voluntary surrender and delivery of said property and premises, or of any part thereof, the Trustee, from the time of its entry, shall and will work, use, manage, control and employ the same in accordance with the provisions of this indenture, and shall and will

Exhibit B-118.

receive and apply the income and revenues thereof as provided in Section 3 of this Article. Upon application of the Trustee, and with consent of the Railroad Company, if there be then no subsisting default hereunder, and without such consent if there shall then be a subsisting default, a Receiver or Receivers may be appointed to take possession of, and to operate and manage the whole or any part of said property, with all the rights, powers and duties by this section conferred upon the Trustee, and in every case when a Receiver of the whole or any part of the said property shall be appointed under this section or otherwise, the Trustee, shall be entitled to receive all the income and profits of such property for the benefit of the holders of bonds hereby secured.

Sec. 22. In the event of any sale, pursuant to any provision hereof, whether made under the power of sale hereby granted and conferred, or under or by virtue of judicial proceedings, or of some judgment or decree of foreclosure and sale made by any Court of competent jurisdiction, the whole of the property hereby mortgaged and pledged shall be sold in one parcel and as an entirety, including all the rights, titles, estates, railroads, equipment, franchises, leases, leasehold interests, contracts, stocks, bonds and other real and personal property of every name and nature; and this provision shall bind the parties hereto and each and every of the holders of the bonds and coupons hereby secured or intended so to be. And the Trustee and its successors are hereby appointed the true and lawful attorney or attorneys, irrevocable, of the Railroad Company, in its name and stead to make all necessary deeds and conveyances of property and all necessary transfers of the shares of stock or bonds or other obligations thus sold, and for that purpose it and they may execute all necessary acts of assignment and transfer, and may substitute one or more persons with like power, the Railroad Company hereby ratifying and confirming all that its said attorney or attorneys, or such substitute or substitutes, shall lawfully do by virtue hereof.

Sec. 23. Until default shall be made by the Railroad Company in the payment of either the principal or interest of the bonds hereby secured, or otherwise, as set forth in Sections 3 and 5 of this Article or either of them, and until the Trustee, as herein authorized, shall have taken some proceeding in respect thereof, or until a Receiver shall have been appointed as here-

Exhibit R-118.

inbefore permitted, the Railroad Company shall be entitled to receive all interest payable, and dividends declared, in respect of any bonds or stocks by or pursuant to this Indenture pledged or transferred to the Trustee as collateral security for the payment of the bonds issued hereunder, the coupons for such interest from time to time to be delivered by the Trustee to the Railroad Company for such purpose, and immediately upon such delivery to be collected and canceled to the satisfaction of the Trustee; suitable orders, in favor of the Railroad Company, or its nominee, for the payment of such dividends from time to time to be executed and delivered by the Trustee to the Railroad Company.

Sec. 24. Until default be made as aforesaid, and some action in respect thereof shall have been taken by the Trustee, or by bondholders, as herein authorized, the Railroad Company shall have the right to vote upon all shares of stock pledged hereunder, for all purposes not inconsistent with the provisions or purposes of this indenture and with the same force and effect as though such pledge had not been made. From time to time the Trustee shall give to the Railroad Company, or its nominee, suitable proxies for such purposes.

Sec. 25. The Trustee may do whatever may be necessary for the purpose of maintaining or preserving the corporate existence of any and all companies whose shares are pledged hereunder, and for such purposes from time to time it may sell or assign, transfer and deliver so many shares of the stocks of the several companies as may be necessary to qualify persons to act as Directors of, or in any other official relation to, said companies; provided, however, that no transfer under this provision shall be made which shall impair the Trustee's control of any corporation whose shares shall be so transferred; and subject to this limitation, the Trustee may make such other arrangements as it shall deem necessary for the protection of the trust hereunder.

Sec. 26. If at any time the obligors in any of the bonds at any time pledged hereunder shall fail to make payment of either the principal or interest thereof, according to the tenor of such bonds, then, unless the Trustee shall hold hereunder more than a majority of the stock of such obligor, (1) in any case where the Trustee holds more than eighty-five per cent. in amount of

Exhibit R-118.

any one or more issues of the bonds of such obligor, and (2) in other cases according to its discretion, the Trustee, upon the written request of the Railroad Company, and not otherwise, shall cause proper and apt proceedings to be instituted and prosecuted in some court of competent jurisdiction to foreclose the mortgage, or mortgages, by which such bonds shall be secured, and if the property covered by such mortgage, or mortgages, shall be sold under foreclosure, it shall, if it hold more than eighty-five per cent. in amount of the bonds thereby secured cause such property to be purchased for and in the name or in behalf of the Railroad Company, if the amount bid at such sale shall not exceed the full amount due on the entire issue of such bonds, and the cost and expenses of such suit and sale, and the Railroad Company shall furnish the necessary cash to pay such cost and expenses, any claims having priority of lien or in equity over the mortgage foreclosed and the dividends accruing from such sale on any bonds not held by the Trustee. If such property shall not be bought by the Trustee, the Trustee shall receive out of the proceeds of such sale the dividend accruing on the bonds held by it, and shall apply the same as herein provided. When any railroad or railroad property shall be purchased by the Trustee, for and in the name of the Railroad Company, as above provided, the lien of this indenture immediately and *ipso facto* shall attach to, and bind, the property so purchased.

If at any time the obligors in any of the bonds at any time pledged hereunder shall fail to make payment of either the principal or interest thereof, according to the tenor of such bonds, and by reason thereof foreclosure or other proceedings shall be taken, otherwise than at the instance of the Trustee, the Trustee shall take such steps as in its discretion shall be best calculated to protect its interests hereunder in respect of such bonds, and for this purpose it may join in any plan or agreement of reorganization, and may accept its share of new securities under such plan.

No such action of the Trustee shall relieve the Railroad Company from any liability hereunder by reason of such default, nor from any of the consequences thereof.

When the Trustee shall receive moneys arising from the foreclosure of any mortgage executed to secure the payment of bonds pledged hereunder, or from any sale of any railroad

Exhibit R-118.

mortgaged to secure any such bond, it shall apply such moneys, whether principal or interest, in the manner provided in Section 29 hereof, for the application of money arising from the release of real property mortgaged hereunder.

In the event of the dissolution of any corporation of whose capital stock the greater part shall be held hereunder by the Trustee, such action may be taken and such power be exercised with reference thereto as the Trustee in its discretion shall deem most expedient for the conservation of the interest of the trust estate in such property, either through the agency of a successor corporation or otherwise.

SEC. 27. No assignment or pledge hereunder of any shares of stock of any company or companies now or hereafter deposited hereunder, shall prevent the consolidation or merger of any one or more of said companies with, or its sale to, the Railroad Company, but such consolidation, merger or sale may be made under any laws to which such companies may then be subject, anything in this indenture contained to the contrary notwithstanding: Provided, however, that such consolidation, merger or sale shall be made only upon such terms as shall be approved by the Trustee, or by the holders of a majority in interest of the bonds secured by this indenture. In the event of consolidation or merger of any one or more of the said companies with, or its sale to, the Railroad Company, this indenture immediately shall become and be a lien upon the property of the company so consolidated or merged with, or sold to, the Railroad Company, with the same force and effect as if expressly conveyed by this indenture, and the holders of the bonds hereby secured shall always have as full and complete a lien upon such property as that herein created by the pledge of the stock and bonds of such constituent companies to the Trustee hereunder.

Neither shall the assignment or pledge hereunder of any capital stock of any company or companies prevent the consolidation or merger of any such companies with each other; but such consolidation or merger may be made under any laws to which such companies may then be subject, anything in this indenture contained to the contrary notwithstanding: Provided, however, that such consolidation or merger shall be made only upon such terms as shall be approved by the Trustee or by the holders of a majority in amount of the bonds secured by this

Exhibit R-118.

indenture; and that the portion of the capital stock of any such consolidated or merging company (but never less than a majority thereof), issued for and in lieu of any stock previously pledged hereunder, shall always bear to the total capital stock a proportionate relation at least as high as that borne by such previously pledged stock to the total capital stock of such constituent companies. Such portion of such stock of such consolidated or merging company shall be assigned to and deposited with the Trustee, and shall become and be subject to the lien of this indenture with the same force and effect as if expressly pledged by this indenture; and the holders of the bonds hereby secured shall always have a lien upon such portion of such stock of such consolidated or merging company as full and complete as upon the stock and bonds of such constituent companies, by reason of the pledge thereof hereunder.

The Trustee may do any and all things proper to carry into effect the purposes of this section, and in order to facilitate the merger in whole or in part, as authorized by law, of any railroad the Trustee may transfer into the name of the Railroad Company, under such restrictions as it may deem sufficient for the protection of the holders of the bonds secured hereby, the shares of any Company about to be so merged, but the certificates in the name of the Railroad Company shall be forthwith delivered to and held by the Trustee hereunder, and the Railroad Company shall simultaneously execute such irrevocable instruments as the Trustee shall deem necessary in order to enable it to transfer such shares back into its own name if at any time it shall deem such a course expedient for the protection of the holders of the bonds hereby secured.

SEC. 28. In case of any default hereunder, if in order to preserve the franchises of the Railroad Company and to avoid foreclosure and sale involving the organization of a successor Company, any plan of reorganization shall be proposed with provisions for the modification of this mortgage, so far as to authorize and require the creation of new liens upon the mortgaged premises prior and superior to the lien hereof; then and in every such case registered holders of four-fifths in amount of all outstanding bonds hereby secured, by writing may direct the Trustee in behalf of all the holders of all bonds then or

Exhibit R-118.

thereafter issued hereunder, to acquiesce in the provisions of such plan: which plan also may determine and provide for the interests of other creditors and lienors and of the shareholders of the Railroad Company. This special power, however, is granted to the registered holders of four-fifths in amount of the bonds upon the express condition, that no bond hereby secured, and then outstanding, shall be changed as to amount or date of payment of principal or rate or dates of payment of interest. Thereupon, but not otherwise, the Trustee shall by writing acquiesce in such provisions of such plan, and such acquiescence by the Trustee shall constitute the irrevocable assent of all holders of bonds and coupons hereby secured to any such accepted modifications, as set forth in such plan and necessary to give effect to such provisions thereof. All such modifications so affecting this indenture and the bonds and coupons hereby secured, shall be reduced to a written agreement between the Railroad Company and the Trustee, and such agreement shall be recorded in New York County, New York; Passaic County, New Jersey; Susquehanna County, Pennsylvania; Marion County, Ohio; Huntington County, Indiana; Cook County, Illinois, and thenceforth shall be deemed to be part of this indenture, and thereafter the lien of this indenture, and of the bonds hereby secured, shall be deemed to be and shall be subordinate to such new and prior liens created pursuant to such plan, but only to the extent specified in such written agreement; *provided*, that the consent of the holders of four-fifths of the Prior Lien Bonds shall be requisite to the creation of any new lien or charge in priority to the Prior Lien Bond.

Registration for any purpose of this section shall be sufficient if then or theretofore made and then continuing in any manner permitted by Section 14 of Article One of this indenture.

Sec. 29. Provided there shall then be no continuing default in respect of which the Trustee shall have taken some proceedings herein authorized, the Trustee, upon request of the Railroad Company, at any time or times, in its discretion, may release from the lien and operation of this indenture and of the bonds hereby secured, any premises acquired, held or used by the Railroad Company for the purpose of stations, depots, shops or other buildings or erections, or for other uses not connected with the maintenance or operation of some part of the lines of railway then subject to the lien of this indenture, or any prem-

Exhibit R-118.

ises which may have been acquired or held for the supply of gravel, fuel and other materials for the purposes of such lines of railway; provided that in the judgment of the Trustee, at the time of such release such premises shall no longer be requisite for the purposes for which the same shall have been so acquired or used, or necessary or expedient to be retained for use in connection with such lines of railway, and likewise it may release any parts of the line of track or roadway, or of the depot grounds, buildings or accommodations connected therewith, which at the time of such release, may have been thrown out of use and have ceased to form part of such lines of railway by reason of the straightening, alteration or abandonment of such part of the lines of railway; but the power of release given by this article is to be exercised only in case the Railroad Company shall sell or contract to sell the property so to be released, because no longer required for the uses or purposes of such railways, and shall require the same to be released, in order to give good title to the purchaser or purchasers thereof. The proceeds of any and all such sales shall, unless some other disposition thereof be required by some prior mortgage, be invested in the purchase of other property, real or personal, which shall be conveyed in trust by the Railroad Company to the Trustee, subject to all the trusts hereby declared, or in the purchase of bonds hereby secured (which bonds shall forthwith be canceled and delivered to the Trustee); or in betterments or improvements, or in some other way, to the benefit of the mortgaged premises, and satisfaction of the Trustee. When such released premises shall have been thrown out of use or shall have ceased to be required, by reason of changes of the line of the road, on or along the routes aforesaid, or any of them, or change of depot grounds, buildings or other accommodations, the substitutes therefor acquired by the Railroad Company, *ipso facto*, shall become and be subject to the lien of this indenture, the same as though specifically mortgaged hereby, and as a condition of such release they shall be conveyed to the Trustee by appropriate deeds upon the trusts and for the purposes of this indenture. The Railroad Company, from time to time, shall also have full power, according to its discretion, to dispose of such portion of the machinery, equipments and implements, at any time held or acquired for the use of any lines of railway, as may have become unfit for such use, replacing the same by new machinery,

Exhibit R-118.

equipment or implements, which shall become subject to the operation of this indenture.

In no event shall any purchaser or purchasers of any property sold or disposed of under any provision of this article of this indenture be required to see to the application of the purchase money.

SEC. 30. In case at any time it shall become necessary, or in the judgment of the Trustee be for the interest of the bondholders hereby secured, or for the benefit of the mortgaged property, that the Railroad Company shall make changes or alterations in, or substitutions of, any leases, contracts or trackage rights by which the Railroad Company now secures access to any point or points, the Railroad Company, with the written consent of the Trustee, may make any such changes, alterations or substitutions.

The Railroad Company, with the written consent of the Trustee, may make, or to cause to be made, executed and delivered, all such instruments in writing as may be proper and necessary to carry out and perfect any and all changes, alterations or substitutions authorized in this section when and as the same may be made.

At the same time, ample provision shall be made by apt and sufficient instruments in writing, so that such modified, altered or substituted leases, contracts or trackage rights shall be, and forthwith become bound by, and subject to, the terms of this indenture in the same manner, as the then existing leases, contracts and trackage rights.

SEC. 31. The Trustee shall not be answerable for the default or misconduct of any agent or attorney appointed by it in pursuance hereof, if such agent or attorney be selected with reasonable care; or for anything whatever, in connection with this trust, except misconduct or gross negligence; the Trustee shall not be personally liable for any debts contracted by it or for damages to persons or property carried or injured, or for salaries or non-fulfillment of contracts, during any period wherein the Trustee shall manage the trust property or premises upon entry or voluntary surrender as aforesaid. The Trustee shall not be under any obligation to take any action towards the execution or enforcement of the trust hereby created, which, in its opinion, shall be likely to involve it in expense or liability, unless one or more of the holders of the

Exhibit R-118.

bonds hereby secured shall, as often as required by the Trustee, furnish it reasonable indemnity against such expense or liability; nor shall the Trustee be required to take notice of any default hereunder or to take any action in respect thereof except after written notice of such default from one or more of the holders of the bonds hereby secured, together with tender of the indemnity aforesaid, anything herein contained to the contrary notwithstanding; neither shall the Trustee in any event be responsible for the proper recording of this indenture or for the filing of the same as a chattel mortgage.

The Trustee shall be entitled to reasonable compensation for all services rendered by it in the execution of the trusts hereby created.

SEC. 32. The terms or words "the Trustee," "said Trustee," and "the said Trustee," or any other equivalent term, as used in this indenture (except when otherwise clearly indicated), shall be held and construed to mean the Trustee or Trustees for the time being, whether original or successor, and the words "Trustee," "bond," "bondholder" and "holder" shall include the plural as well as the singular number, and the term "majority" shall signify "majority in amount," whether or not so expressed.

SEC. 33. The Trustee, or any Trustee hereafter appointed, may resign and be discharged of the trusts created by this indenture by giving notice thereof to the Railroad Company and to the bondholders, by publication, at least twice a week, for six successive weeks, in one of the newspapers at that time published in each of the cities of New York, N. Y., and London, England, and by due execution of the conveyance herein required.

The Trustee may be removed at any time by an instrument in writing under the hands and seals of three-quarters in amount of the holders of the bonds secured hereby and then outstanding.

SEC. 34. In case a Trustee shall die, or shall resign or be removed as herein provided, a majority in amount of holders of the bonds then outstanding hereunder shall have the right and power by instrument in writing under their hands and seals to appoint a new Trustee to fill such vacancy, and, until such appointment be so made by a majority of the bondholders, the Board of Directors of the Railroad Company may appoint a new

Exhibit R-118.

Trustee to fill such vacancy for the time being, and in every such case the new Trustee so appointed, while he or it continues as such, shall have and possess and be subject to the like rights, powers, estates and duties as though originally Trustee hereunder. Should any vacancy be filled by the Railroad Company under the foregoing provision in that behalf it shall be competent for any Judge of the United States in and for the Second Circuit, or for any Court of competent jurisdiction in the premises, upon the application of a majority in amount of the bondholders, to annul such appointment, and to appoint as Trustee the nominee of such majority.

SEC. 35. If at any time or times in order to conform to any law of any State in which the Railroad Company now holds or at any time hereafter shall hold any property, the Railroad Company shall so request, the Trustee shall unite with the Railroad Company in the execution, delivery and performance of all instruments and agreements necessary or proper to constitute an additional Trustee or Trustees to have, enjoy and exercise in association and equally with the Trustee originally named herein or its successor appointed as hereinbefore provided, any and all powers, rights and estates hereunder, excepting only those specified in Article One and in Article Four, Sections 23, 24, 25 and 27, and the custody of the securities therein mentioned, which powers, duties and estates shall be possessed and exercised, and such custody retained by said original Trustee or such successor, notwithstanding the appointment under this section of any co-Trustee or co-Trustees.

SEC. 36. Should any deed, conveyance or instrument in writing, from the Railroad Company or from any resigning or removed Trustee, be required by any new Trustee, for more fully and certainly vesting in and confirming to him or it such estate, rights, powers and duties, any and all such deeds, conveyances and instruments in writing shall, on request, be made, executed, acknowledged and delivered by the party from whom they may be required.

ARTICLE FIVE.

No recourse under any obligation, covenant or agreement of this indenture, or of any bond or coupon hereby secured, shall be had against any incorporator, stockholder, officer or director of the Railroad Company, or of any successor corpora-

Exhibit R-118.

tion, either directly or through the Railroad Company, by the enforcement of any assessment, or by any legal or equitable proceeding by virtue of any statute or otherwise, it being expressly agreed and understood that this mortgage and the obligations hereby secured are solely corporate obligations and that no personal liability whatever shall attach to, or be incurred by the incorporators, stockholders, officers or directors of the Railroad Company, or of any successor corporation or any or either of them, under or by reason of any or either of the obligations, covenants or agreements in this indenture, or in any of the bonds or coupons hereby secured, expressed and contained or implied therefrom, and that any and all personal liability of every name and nature, either at common law or in equity, or by statute, of every such incorporator, stockholder, officer or director, is hereby expressly waived as a condition of, and consideration for, the execution and issue of this mortgage and such obligations.

ARTICLE SIX.

If the said Railroad Company shall well and truly pay, or cause to be paid, the principal and interest of all bonds hereby secured at the times and in the manner therein specified, and shall well and truly keep and perform all the things herein required to be kept and performed by it, according to the true intent and meaning of this indenture, then and in that case all property, rights and interests hereby conveyed or pledged shall revert to the Railroad Company, and the estate, right, title and interest of the Trustee shall thereupon cease, determine and become void; otherwise, the same shall be, continue and remain in full force and virtue.

ARTICLE SEVEN.

All the covenants, stipulations, promises and agreements in this indenture contained, by or in behalf of the Railroad Company, shall bind and be binding upon its successors and assigns, whether so expressed or not.

Nothing contained in this indenture, or in any bond hereby secured, shall prevent the consolidation or merger of the Railroad Company with any other corporation; provided, however, that such consolidation or merger shall not impair the lien and security of this indenture, or any of the rights or powers of the

Exhibit R-118.

Trustee, or of the bondholders hereunder, and that, upon any such consolidation or merger, the due and punctual payment of the principal and interest of all of said bonds according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of this indenture, shall be assumed by the company formed by such consolidation or merger. In case the Railroad Company shall be consolidated or merged with any other corporation, the successor corporation formed by such consolidation or into which the Railroad Company shall have been merged, shall succeed to and be substituted for the Railroad Company, party of the first part hereto, with the same effect as if it had been named herein as such party of the first part, and such successor corporation may cause to be signed and may issue in the name of the Erie Railroad Company any or all of such bonds as shall not theretofore have been signed by the Erie Railroad Company and delivered to the Trustee, and the Trustee shall certify and deliver, upon the order of said successor corporation and subject to all the terms, conditions and restrictions herein prescribed, any of such bonds which shall have been previously signed by the officers of the Railroad Company and delivered to the Trustee for certification, and any of such bonds as such successor corporation shall thereafter cause to be signed and delivered to the Trustee for that purpose. All the bonds so issued shall in all respects have the same legal rank and security as the bonds of like issue, viz.: Prior Lien or General Lien, as the case may be, theretofore or thereafter issued in accordance with the terms of this indenture, as though all of said bonds had been issued at the date of the execution hereof.

And it is also expressly understood and agreed that for every purpose of this indenture, including the execution, issue and use of any and all bonds hereby secured, the terms "Railroad Company" and "Erie Railroad Company" include and mean not only the New York corporation, but also any sole successor railroad corporation, formed by consolidation or otherwise under the laws of New York or of any State or States; and every such successor railroad corporation shall possess and from time to time may exercise each and every right and power hereunder of the Erie Railroad Company, in its name or otherwise.

Exhibit R-118.

ARTICLE EIGHT.

The Farmers' Loan and Trust Company, Trustee, the party hereto of the second part, hereby accepts the trusts in this indenture declared and provided, and agrees to perform the same upon the terms and conditions hereinbefore set forth.

ARTICLE NINE.

In order to facilitate the record of this indenture, the same may be simultaneously executed in several counterparts, each of which so executed shall be deemed to be an original; and such counterparts shall together constitute but one and the same instrument.

In witness whereof, the Erie Railroad Company, the party hereto of the first part, has caused this indenture to be signed and acknowledged or proved by its President, and its corporate seal to be hereunto affixed, and the same to be attested by the signature of its Secretary; and the Farmers' Loan and Trust Company, the party of the second part, has caused its corporate seal to be hereunto affixed and attested by its Secretary, and these presents to be signed and acknowledged or proved by its Vice-President the day and year first above written.

ERIE RAILROAD COMPANY

TO

THE MERCANTILE TRUST COMPANY.

PENNSYLVANIA COLLATERAL INDENTURE

Dated February 1, 1901,

SECURING

\$35,000,000,

FIFTY-YEAR 4% PENNSYLVANIA COLLATERAL GOLD BONDS.

Interest Payable February and August.

Exhibit R-119.

An Indenture, dated as of the first day of February, one thousand nine hundred and one, between

ERIE RAILROAD COMPANY (hereinafter termed the "Railroad Company"), a corporation organized and existing under the laws of the State of New York, party of the first part, and

THE MERCANTILE TRUST COMPANY, of New York (hereinafter termed the "Trustee"), a corporation organized and existing under the laws of the State of New York, party of the second part.

WHEREAS, For the purpose of making payment for shares of the capital stock of the following companies acquired or to be acquired by the Railroad Company, namely:

Pennsylvania Coal Company, a corporation organized under the laws of the State of Pennsylvania;

Eric and Wyoming Valley Railroad Company, a corporation organized under the laws of the State of Pennsylvania, and

Delaware Valley and Kingston Railroad Company, a corporation organized under the laws of the State of New York;

and for the purpose of providing means for its other corporate purposes and business, the Railroad Company desires to make and to issue a series of Fifty-Year Four Per Cent. Pennsylvania Collateral Gold Bonds, limited in amount so that the aggregate principal sum of such bonds outstanding at any one time shall never exceed \$36,000,000, all of which bonds at any time outstanding shall be equally secured as hereinafter provided; and

WHEREAS, Such bonds of the Railroad Company to be issued under and secured by this indenture, are to be coupon bonds, each for the principal sum of \$1,000, numbered consecutively from 1 upwards, and registered bonds, each bearing a distinctive number or designation, of the denomination of \$1,000 or such multiples of \$1,000 as from time to time the Railroad Company, by resolution of its Board of Directors, may authorize; and all such coupon bonds and registered bonds, from time to time, as directed by the Board of Directors of the Railroad Company, are to be executed in the name and on behalf of the Railroad Company under its corporate seal by the President or a Vice-President and the Secretary or an Assistant Secretary of the Railroad Company, and are to be substantially of the following tenor:

Exhibit R-119.

[FORM OF COUPON FOUR PER CENT. GOLD BOND.]

No.

\$1,000.

UNITED STATES OF AMERICA.

Erie Railroad Company**Pennsylvania Collateral 4% Coupon Gold Bond.**

KNOW ALL MEN BY THESE PRESENTS, That the Erie Railroad Company, a corporation, hereinafter called the "Railroad Company," for value received, promises to pay to the bearer, or, if registered, to the registered holder of this bond, one thousand dollars, in Gold Coin of the United States of America, on the first day of February, 1951, at the office or agency of the Railroad Company in the City of New York, N. Y., and to pay interest thereon at the rate of four per cent. per annum from February 1, 1901, payable semi-annually, at the said office or agency in like Gold Coin on the first day of February and the first day of August, in each and every year, until the payment of said principal sum, but only upon presentation and surrender, as severally they shall mature, of the coupons therefor annexed hereto; such United States Gold Coin in every case to be of the standard of weight and fineness as it existed February 1, 1901.

Both the principal and interest of this bond are payable without deduction for any tax or taxes which the Railroad Company or the Trustee may be required to pay or to retain therefrom under any present or future law of the United States or of any State or County or municipality therein.

This bond is one of a series of Four Per Cent. Gold Bonds (coupon and registered) of the Railroad Company, issued and to be issued, for an aggregate principal sum not exceeding Thirty-six Million Dollars at any one time outstanding, under and in pursuance of, and all equally secured by a Collateral Indenture, dated February 1, 1901, executed by the Railroad Company to The Mercantile Trust Company, of New York, as Trustee, pledging all of the shares of the capital stock of the Pennsylvania Coal Company and of the Erie and Wyoming Valley Railroad Company and of the Delaware Valley and Kingston Railroad Company, now owned or hereafter acquired by the Railroad Company, and fifty-one per cent. of the capital stock of the New York, Susquehanna and Western Railroad Company, the certificates for which have been or shall be delivered to the Trustee pursuant to said Collateral Indenture, to which reference hereby is made for a statement of the property pledged, the nature and extent of the security, the rights of the holders of said bonds under the same, and of the terms and conditions upon which said bonds are secured and are to be used; the officers, directors and stockholders of the Rail-

Exhibit R-119.

road Company being expressly exempted, relieved and absolved from any and all personal liability in respect of said bonds, all such liability being hereby expressly waived.

As additional security for the retirement of every bond of this issue, at or before the stated maturity thereof, the Erie Railroad Company annually will appropriate and will pay to a sinking fund, the sum of ten cents for every ton of coal sold and delivered during the preceding year from the mines of the Pennsylvania Coal Company; and for the purposes of said sinking fund, this bond may be called in during the month of February or the month of August, in any year, at par, together with a premium of five per cent. thereof and all interest then accrued; all as is more fully stated in said Collateral Indenture.

This bond shall pass by delivery, unless registered in the owner's name on the books of the Railroad Company, at its office or agency in the City of New York, such registry being noted on the bond by the Bond Registrar of the Railroad Company. After such registration, no transfer shall be valid unless made on the Railroad Company's books by the registered owner, and similarly noted on the bond; but the same may be discharged from registry by being transferred to bearer, and thereafter transferability by delivery shall be restored, but this bond may again from time to time be registered or transferred to bearer as before. Such registration, however, shall not affect the negotiability of the coupons, which shall continue to be transferable by delivery merely.

The holder also, at his option, may surrender for cancellation this bond with the coupons for future interest thereon, in exchange for a registered bond without coupons, as provided in said Indenture.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate hereon endorsed, of the Trustee under said Indenture.

IN WITNESS WHEREOF, the Erie Railroad Company has caused these presents to be signed by its President or one of its Vice-Presidents, and its corporate seal to be hereunto affixed, and to be attested by its Secretary or an Assistant Secretary, and coupons for such interest, with the engraved signature of its Treasurer, to be attached hereto, this first day of February, 1901.

ERIE RAILROAD COMPANY,

[FORM OF REGISTERED BOND WITHOUT COUPONS.]

No.

§

UNITED STATES OF AMERICA.

Erie Railroad Company

PENNSYLVANIA COLLATERAL 4% REGISTERED GOLD BOND.

KNOW ALL MEN BY THESE PRESENTS, That the Erie Railroad Company, a corporation hereinafter called the "Railroad Company," for value received, promises to pay to
or assigns,

dollars, in the Gold Coin of the United States of America, on the first day of February, in the year 1951, at the office or agency of the Railroad Company in the City of New York, N. Y., and to pay interest thereon from the first day of February, or the first day of August, as the case may be, next preceding the date hereof, at the rate of four per cent. per annum, payable semi-annually at said office or agency, in like Gold Coin, on the first day of February and the first day of August in each year, until the payment of said principal sum; such United States Gold Coin in every case to be of the standard of weight and fineness as it existed February 1, 1901.

Both the principal and interest of this bond are payable without deduction for any tax or taxes which the Railroad Company or the Trustee may be required to pay or to retain therefrom, under any present or future law of the United States, or of any State or County or municipality therein.

This bond is one of a series of Four Per Cent. Gold Bonds (coupon and registered) of the Railroad Company, issued and to be issued, for an aggregate principal sum not exceeding Thirty-six Million Dollars at any one time outstanding, under and in pursuance of, and all equally secured by, a Collateral Indenture, dated February 1, 1901, executed by the Railroad Company to The Mercantile Trust Company, of New York, as Trustee, pledging all of the shares of the capital stock of the Pennsylvania Coal Company, and of the Erie & Wyoming Valley Railroad Company, and of the Delaware Valley and Kingston Railroad Company, now owned or hereafter acquired by the Railroad Company, and fifty-one per cent. of the capital stock of the New York, Susquehanna and Western Railroad Company, the certificates for which have been or shall be delivered to the Trustee pursuant to said Collateral Indenture, to which reference is hereby made for a statement of the property pledged, the nature and extent of the security, the rights of the holders of said bonds under the same, and of the terms and conditions upon which said bonds are secured, and are to be used; the officers, directors and stockholders of the Railroad Company being expressly exempted, relieved and absolved from

As additional security for the retirement of every bond of this issue, at or before the stated maturity thereof, the Erie Railroad Company annually will appropriate and will pay to a sinking fund, the sum of ten cents for every ton of coal sold and delivered during the preceding year from the mines of the Pennsylvania Coal Company; and for the purposes of said sinking fund, this bond may be called in during the month of February or the month of August, in any year, at par, together with a premium of five per cent. thereof, and all interest then accrued; all as is more fully stated in said Collateral Indenture.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate, hereon endorsed, of the Trustee under said Indenture.

ERIE RAILROAD COMPANY.

By

Attest:

Secretary.

AND, WHEREAS, There are to be attached to the said coupon bonds, at the time of the issue thereof, coupons representing the semi-annual instalments of interest which shall become due thereon to and including the first day of February, 1951, each of which coupons is to be substantially of the following tenor, viz. :

Exhibit R-119.

[FORM OF INTEREST COUPONS, OF WHICH THE FIRST IS TO BE
PAYABLE AUGUST 1, 1901.]

No.

\$20.00.

On the first day of Erie Railroad Company will pay to bearer, at its office or agency in the City of New York, N. Y., twenty dollars, gold coin of the standard existing February 1, 1901, without deduction for taxes, being six months' interest then due on its collateral Four Per Cent. Gold Bond No.

Treasurer.

AND, WHEREAS, There is to be endorsed on each of said coupon bonds and registered bonds without coupons, a certificate of the Trustee that it is one of the bonds issued hereunder, and no bond shall be secured by this indenture or be obligatory for any purpose unless such certificate shall have been executed by the Trustee; such Trustee's certificate to be substantially of the following tenor, viz.:

[FORM OF TRUSTEE'S CERTIFICATE.]

This bond is one of a series of bonds described in the within-mentioned Indenture, executed by Erie Railroad Company to the undersigned as Trustee.

THE MERCANTILE TRUST COMPANY,

By

AND WHEREAS, Each of the coupons to be attached to such coupon bonds is to be authenticated by the engraved fac-simile of the signature of the present Treasurer, or of any future Treasurer, of the Railroad Company, and the Railroad Company may adopt and use for that purpose the engraved signature of any person who shall have been such Treasurer, notwithstanding the fact that he may have ceased to be such Treasurer at the time when such bonds shall actually be certified and delivered; and

WHEREAS, the execution and delivery of this indenture, and the execution and issue of said bonds, have been duly and unanimously authorized by all the stockholders and by the

Exhibit R-119.

Board of Directors of the Railroad Company, and in pursuance of such authority and of all and every legal power and authority in it vested, the Railroad Company proposes to make and execute, and from time to time to issue, the bonds secured hereby:

Now, therefore, this Indenture witnesseth:

That in order to secure the payment of the principal and interest of all such bonds at any time issued and outstanding under this indenture and the performance of all the covenants and conditions herein contained, and in consideration of the premises and of the purchase and acceptance of such bonds by the holders thereof, and of the sum of one dollar to it duly paid by the Trustee at the encasing and delivery of these presents, the receipt whereof is hereby acknowledged.

The Railroad Company, party of the first part, has sold, assigned and transferred, and by these presents does sell, assign and transfer, unto the Trustee, party of the second part, its successors and assigns forever, the following shares of stock, the certificates for which in the name of the Erie Railroad Company but by it endorsed in blank have been delivered to the Trustee, namely:

98,212 shares, of the aggregate par value of \$4,910,600 of the capital stock of the PENNSYLVANIA COAL COMPANY, out of the total outstanding capital stock of said company, consisting of 100,000 shares of the par value of \$50 each;

30,000 shares of the aggregate par value of \$1,500,000 of the capital stock of the ERIE AND WYOMING VALLEY RAILROAD COMPANY, being all the outstanding capital stock of said corporation;

2,500 shares of the aggregate par value of \$250,000 of the capital stock of the DELAWARE VALLEY AND KINGSTON RAILROAD COMPANY, being all the outstanding capital stock of said corporation;

66,300 shares of the preferred stock, and **66,300** shares of the common stock of the NEW YORK, SUSQUEHANNA AND WESTERN RAILROAD COMPANY (a corporation existing under the laws of the State of New Jersey), such shares being of the par value of \$100 each, and together constituting fifty-one per cent. of the outstanding capital stock of said company;

The Railway Company covenants and agrees that any and all additional shares of the capital stock of the said Pennsylvania Coal Company, the Erie and Wyoming Valley Railroad

Exhibit R-119.

Company, or the Delaware Valley and Kingston Railroad Company, and other property of any kind or description whatsoever, which hereafter shall be acquired by the Railway Company or by the Trustee, and which by any covenant or provision of this indenture the Railway Company has subjected or has agreed to subject to the lien hereof, immediately upon such acquisition, but subject to the terms and conditions of such acquisition thereof, and without any further assignment, transfer or conveyance, shall become and be subject to the lien of this indenture as fully and completely as though expressly and specifically assigned, transferred and conveyed to the Trustee under this indenture; but the Railroad Company covenants and agrees that at any and all times it will execute, and will deliver to the Trustee any and all further assignments, transfers or conveyances and instruments of further assurance, as the Trustee may reasonably direct or require for the purpose of expressly and specifically subjecting such additional shares, bonds, certificates of indebtedness and other property to the lien of this indenture, and will deliver to the Trustee the certificates for any such shares of stock, and such bonds or certificates of indebtedness.

It is further covenanted and declared, that any other or additional property of any kind, including bonds and other securities, claims and stocks, from time to time hereafter, may be conveyed, assigned, transferred or delivered by the Railroad Company, or by any one in behalf of the Railroad Company with its written consent or approval, to the Trustee hereunder, as and for additional security for the bonds issued and to be issued hereunder, and the Trustee shall receive, hold and apply any and all such property subject to the trusts of this indenture; but any such conveyance, assignment, transfer or delivery, pursuant to the provisions of this clause, as and for additional security, may be made subject to any reservations, limitations, conditions and provisions which shall be set forth in an instrument in writing, then executed by the Trustee and by the Railroad Company, respecting the use, management and disposition of such additional property and the proceeds thereof.

But it is hereby expressly declared that there is reserved to and by the Railroad Company the right to acquire any properties (including stocks, bonds and other securities), and to hold and to dispose of the same free from the lien of this in-

Exhibit R-119.

denture, provided that neither any bonds hereby secured and reserved under Section 3 of Article One hereof nor the proceeds of any such bonds so reserved, and no bonds, stocks, or other property or moneys held by the Trustee hereunder shall be used for such acquisition, or to reimburse the Railroad Company in respect thereof.

To have and to hold the said shares of stock hereby assigned and transferred, and also all additional property of any kind, including shares of stock, bonds and other securities, certificates of indebtedness and claims, which hereafter shall become subject to this indenture, unto the Trustee, its successors and assigns forever:

But in trust, nevertheless, for the equal and proportionate benefit and security of all present and future holders of the bonds and interest obligations issued and to be issued under and secured by this indenture, and for the enforcement of the payment of said bonds and interest obligations, when payable, and the performance of, and compliance with, the covenants and conditions of this indenture, without any preference, priority or distinction, as to lien or otherwise, of any one bond over any other bond by reason of priority in the issue or negotiation thereof; so that each and every bond, issued and to be issued as aforesaid, shall have the same right, lien and privilege under this indenture, and that the principal and interest of every such bond shall, subject to the terms hereof, be equally and proportionately secured hereby as if all had been made, issued and negotiated simultaneously with the execution and delivery of this indenture; it being intended that the lien and security of this indenture shall take effect from the day of the date hereof, without regard to the date of actual issue, sale or disposition of said bonds, as though, upon such day, all of said bonds were actually issued, sold and delivered to holders for value.

And it is hereby covenanted and declared, that the property subject to this indenture is to be held by the Trustee, and that all such bonds, with the coupons for interest thereon, are to be issued and received, subject to the further covenants, conditions and trusts hereinafter set forth, to wit:

ARTICLE ONE.

Section 1. From time to time, the bonds to be secured hereby, shall be executed by the Railroad Company, and by it shall be delivered for certification to the Trustee, and thereupon, as provided in this Article, and not otherwise, the Trustee shall certify and shall deliver the same at the option of the Railroad Company, from time to time.

Any of such bonds, may be executed, certified and delivered originally either as coupon bonds or as registered bonds.

The amount of bonds hereby secured which may be executed by the Railroad Company and which may be certified by the Trustee is limited so that never at any time shall there be outstanding bonds hereby secured for an aggregate principal sum exceeding thirty-six million dollars (\$36,000,000).

Before certifying or delivering any coupon bond hereby secured the Trustee shall detach and shall cancel all coupons thereof then matured; and every registered bond shall be dated on the day of the actual certification thereof.

Only such bonds as shall bear thereon a certificate, substantially in the form hereinbefore recited, duly executed by the Trustee, shall be secured by this indenture, or shall be entitled to any lien or benefit hereunder. Every such certificate of the Trustee upon any bond executed by the Railroad Company, shall be the conclusive, and the only evidence that the bond so certified was duly issued hereunder and is entitled to the benefit of the trust hereby created.

Sec. 2. Of the bonds authorized to be issued under and secured by this indenture, bonds for the aggregate principal sum of \$32,000,000 shall be certified by the Trustee and returned to the Railroad Company, or upon the order of its President, immediately upon the execution of this indenture, or as soon thereafter as may be. The Railroad Company hereby covenanting that it will use and issue such \$32,000,000 bonds only in payment on account of the acquisition of shares of stock of the Pennsylvania Coal Company or of the Erie and Wyoming Valley Railroad Company or the Delaware Valley and Kingston Railroad Company all of which shares as and when acquired shall be pledged hereunder, and the certificates therefor delivered hereunder to the Trustee, which, however,

Exhibit R-119.

shall not be bound to see to such application or use of such bonds.

Sec. 3. Four million dollars (\$4,000,000), par value of the bonds authorized to be issued under and secured by this indenture, shall be reserved to be executed by the Railroad Company, and to be certified and delivered by the Trustee, from time to time, for some one or more of the following purposes, but only as hereinafter provided and subject to the restrictions hereinafter stated:

I. The purposes for which such \$4,000,000 of bonds shall be executed, certified and delivered and for which such bonds or their proceeds may be used are:

(a) To make betterments or improvements of or upon any property which at the time of issuing the bonds reserved under this Section 3 shall be subject to the lien of this indenture, and to construct or acquire additional mines, collieries, coal lands or coal leases, and additional lines of railway, extensions, branches, bridges, shops, depots, terminal properties, power houses, electrical plant, rolling stock or other additional property connected with, or for use in connection with, any of the mines or collieries or lines of railway, extensions, branches, shops, depots, terminal properties, power houses, electrical plant, rolling stock, bridges or other properties which at the time of such construction or acquisition either shall be subject to the lien of this indenture, or shall belong to any company of whose capital stock at least ninety per cent. shall be held by the Trustee under this indenture; and to provide the Railroad Company with funds for expenditures by it made or incurred for any of the foregoing purposes;

(b) To furnish moneys, or to reimburse the Railroad Company for moneys furnished, to any other such company or companies of whose capital stock not less than ninety per cent. in amount shall then be held hereunder by the Trustee, to an amount not exceeding expenditures by such company or companies made or incurred for the construction or acquisition of betterments or improvements of, or additional, mines, collieries, coal lands or coal leases, or additional lines of railway, extensions, branches, bridges, shops, depots, terminal properties, power houses, electrical plant, rolling stock or other additional property connected with, or for use in connection with mines, collieries, coal lands or coal leases or any of the lines of

Exhibit R-119.

railway, extensions, branches, shops, depots, terminal properties, power houses, electrical plant, rolling stock, bridges or other properties which at the time of such construction or acquisition shall belong to such other company or companies; *provided*, that in every such case the Railroad Company shall require such other company or companies to issue, and shall pledge or shall cause to be pledged with the Trustee hereunder, bonds or certificates of indebtedness or paid-up shares of the capital stock of such other company or companies of a par amount at least equal to the amount of the moneys so furnished; and,

(c) To acquire, or to reimburse the Railroad Company for the acquisition of, the shares of the capital stock, bonds and indebtedness of any company which at the time of such acquisition shall own any mine or colliery, coal lands or coal leases, or any line of railway, extension, branch, bridge, terminal property, power house, electrical plant, connected with or available for use in connection with, any mine or colliery, coal lands or coal leaseholds, or any line of railway, owned by any company of whose capital stock the greater part shall then be held by the Trustees hereunder; *provided*, that thereby not less than ninety per cent. of all the shares of the capital stock of such company shall be obtained, or previously shall have been obtained and pledged hereunder; and *provided*, further, that no shares or bonds or indebtedness issued or created by any such company after a majority in amount of the outstanding shares of the capital stock of such company shall have been pledged hereunder shall be acquired under this clause (c), but the same may be acquired under clause (b) of this section.

II. The restrictions subject to which such \$4,000,000 of reserve bonds from time to time shall be certified and delivered are as follows:

(1) Before certifying and delivering bonds under this section, there shall be delivered to the Trustee a copy of a resolution of the Board of Directors of the Railroad Company certified by its Secretary or Assistant Secretary, calling for the certification and delivery of such bonds, and directing the officers of the Railroad Company to set aside such bonds and their proceeds separate and apart from any other assets and funds of the Railroad Company, and to use the same only as authorized by this section;

Exhibit R-119.

(2) From time to time when and as requested by the President of the Railroad Company, upon the presentation to the Trustee of the copy of any such resolution as above provided, there shall be so certified and delivered such amount of the bonds reserved under this section, not in any one delivery exceeding, in the aggregate, \$1,000,000 par value, as from time to time shall be called for in such resolutions. But, in every instance before certifying and delivering any of the bonds reserved under this section (except the \$1,000,000 thereof first deliverable hereunder), the Trustee shall require the Railroad Company to furnish, in addition to such resolution of its Board of Directors, the certificate or certificates of some one or more officers of the Railroad Company, stating:

(a) That all bonds, theretofore certified and delivered under this section in respect of which no such certificate previously shall have been furnished, and the proceeds of all such bonds, have been actually used for the said purposes, or for some one or more of them, or to reimburse the Railroad Company as aforesaid—indicating the particular mines, collieries, coal lands and coal leaseholds and the lines of railway, extensions, branches, bridges, shops, depots, terminal properties, rolling stock or other additional property, and the kind or class of betterments or improvements constructed, acquired or made, and the stocks, bonds or indebtedness acquired, and the sums furnished to any such other company or companies, and the amount and description of the shares of capital stock, bonds or certificates of indebtedness of such other company or companies received by the Railroad Company on account thereof;

(b) That the price paid for such construction or for such acquisition, betterments or improvements was not in excess of the fair value of the property acquired or work done, and that the bonds included in such certificate were sold, disposed of or otherwise accounted for at not less than their fair value at the time of such sale, disposition or accounting.

(c) That no part of such expenditures so certified was included in any previous certificate furnished hereunder, or was made or reimbursed out of any bonds or

Exhibit R-119.

moneys received by the Railroad Company under any other provision of this indenture;

(d) That no part of the expenditures in such certificate so certified was included in the operating or maintenance expenses reported in any annual report theretofore issued by the Railroad Company.

(e) In case such certificate shall show the acquisition of new property, then such certificate also shall state whether such new property is known or is believed to be subject to any lien or charge prior to this indenture, except undetermined liens or charges incidental to construction; and such certificate shall specify the amount of any such prior lien or charge (other than as aforesaid) known or believed to exist. In case the certificate shall show the acquisition of any shares of the capital stock, bonds or other indebtedness of any other company, such certificate shall state whether the property of such other company is known or is believed to be subject to any lien or charge, and whether such company is known or is believed to have any indebtedness except ordinary operating accounts and undetermined claims, liens and charges incidental to construction, and except also indebtedness to the Railroad Company and liens, charges and indebtedness transferred to the Trustee or in respect of which bonds shall have been set apart under the following clause (3), and such certificate in each case shall specify the amount of any such lien, charge or indebtedness known or believed to exist;

(f) Any such certificate under this section may state any other facts pertaining to the right to certify and deliver bonds hereunder. The same officer or officers of the Railroad Company need not certify to all the facts required to be certified under the provisions of this section, but different officers may certify to different facts respectively.

(3) After delivery of the \$1,000,000 of bonds first deliverable hereunder, no bonds shall be certified and delivered under this section, for or in respect of the construction or acquisition of property subject to any such certified lien or charge, or for or in respect of the acquisition of shares of capi-

Exhibit R-119.

tal stock, bonds or indebtedness of a company subject to indebtedness so certified, or whose property is subject to a lien or charge so certified, unless or until the Railroad Company shall have deposited with the Trustee an amount of the bonds hereby secured of a par amount equal to the aggregate amount of such certified indebtedness, liens and charges. Whenever thereafter any of such certified indebtedness, liens and charges shall be paid or satisfied, or shall be acquired and be subjected to the lien hereof, then an equal amount at par of the bonds hereby secured so deposited with the Trustee under this clause shall be redelivered by the Trustee to the Railroad Company or upon its order, so that the amount of such bonds held by the Trustee under this clause at all times shall be equal to the amount of such indebtedness, liens and charges remaining unsatisfied or not subjected to the lien hereof.

(4) The Railroad Company covenants that whenever all the bonds reserved under this section shall have been certified and delivered to, and used by, the Railroad Company, it will execute and deliver to the Trustee a similar certificate indicating the particular application of all bonds, or proceeds of bonds, in respect of which the Railroad Company shall not theretofore have furnished such certificate to the Trustee.

(5) Every such certificate furnished under this section, unless signed, *first*, by the President or a Vice-President or the General Manager or the Chief Engineer, and, *secondly*, by the Comptroller or Auditor or Treasurer of the Railroad Company, shall have endorsed thereon, or shall be accompanied by, a written statement of one of the officers first above designated, and one of the officers secondly above designated, that they believe that such certificate is true, and that such bonds have been used, and the expenditures certified have been made, only for purposes authorized by this section. A certificate signed by one of the officers first above designated and one of the officers secondly above designated or having endorsed thereon, or being accompanied by a written statement of said officers as above provided may be received by the Trustee as conclusive evidence of any facts pertaining to the right to certify and deliver bonds pursuant to this section.

Together with such statements and certificates there shall be delivered to the Trustee any such bonds so acquired, and the certificates endorsed for transfer in blank for any such

Exhibit B-119.

shares of stock so acquired, and any conveyances or instruments of further assurance that may be necessary for the purpose of effectually subjecting to the lien and operation of this indenture any new property so acquired by the Railroad Company, and so far as may be, any indebtedness, liens or charges so taken up or acquired by use of said bonds, and, also, the written opinion of counsel for the Railroad Company to the effect that such conveyances or other instruments are sufficient for that purpose or that no conveyance or instrument of further assurance is necessary for the purpose aforesaid. Such resolutions, statements, certificates and opinion shall be deemed, and shall be taken to be, full authority and protection to the Trustee for its certification of such bonds under the foregoing provisions of this section.

The Railroad Company covenants that when all the bonds reserved under this Section 3 shall have been certified and delivered to and used by the Railroad Company, it will execute and deliver to the Trustee a similar certificate indicating the purposes for which the Railroad Company shall have used all bonds or the proceeds of all the bonds in respect of which the Railroad Company shall not theretofore have furnished such certificate to the Trustee.

Sec. 4. Whenever under Section 3 of this Article the Railroad Company shall be entitled to bonds hereby secured or their proceeds, the Railroad Company may take and accept such bonds at a price not less than their average market price during the previous calendar month, any bonds so taken and accepted by the Railroad Company in reimbursement for expenses therefore actually made by the Railroad Company shall be held and may be used by the Railroad Company for its general corporate purposes freed and discharged from all restrictions and provisions of said Section 3 as though such bonds had been sold at such price, and the proceeds paid over to the Railroad Company.

Sec. 5. Whenever any coupon bond or bonds, issued under and secured by this indenture, together with all unmatured coupons thereto belonging, shall be surrendered for exchange for registered bonds without coupons, the Railroad Company shall execute, and the Trustee shall certify, and in exchange for such coupon bond or bonds shall deliver registered bonds, or one registered bond, without coupons, for the like aggre-

Exhibit R-119.

gate principal sum. Such registered bonds shall bear interest at the same rate as the surrendered coupon bonds, and from the date of the last-matured coupon thereof. In every case of such exchange the Trustee forthwith shall cancel the surrendered bond or bonds and coupons, and shall deliver the same to the Railroad Company.

Whenever any registered bond without coupons shall be surrendered, transferred and cancelled, the Railroad Company shall issue, and the Trustee shall certify and deliver, to the transferee, registered bonds, or one registered bond without coupons, for a like aggregate principal sum;

Whenever any registered bond without coupons shall be surrendered for exchange for a coupon bond or bonds, then upon cancellation of such surrendered bond and payment of the charges therefor, the Railroad Company shall issue, and the Trustee shall certify and deliver, in exchange therefor, coupon bonds for the like aggregate principal sum, having attached thereto the coupons maturing on and after the date when the next semi-annual instalment of interest would have matured on such surrendered registered bond without coupons.

For any exchange of coupon bonds for registered bonds, and (2) for any transfer of registered bonds without coupons, and (3) for any exchange of registered bonds without coupons for coupon bonds, the Railroad Company, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge required to be paid, and also of the further sum of one dollar for each new coupon bond or registered bond without coupons issued upon any such exchange or transfer.

Sec. 6. In case any coupon bond issued hereunder with the coupons thereto appertaining, or any registered bond without coupons, shall become mutilated, or be destroyed, the Railroad Company, in its discretion, may execute, and thereupon the Trustee shall certify and deliver, a new bond of like tenor and date (including coupons in case of a coupon bond) bearing the same serial number, in exchange and substitution for and upon cancellation of, the mutilated coupon bond and its coupons, or the mutilated registered bond, or in lieu of, and substitution for, the coupon bond and its coupons, or the registered bond so destroyed, upon receipt of satisfactory evidence of the destruction of such coupon bond and its coupons, or of

Exhibit R-119.

such registered bond, and upon receipt also of satisfactory indemnity.

Sec. 7. Nothing in this Article, or in any other Article of this indenture, or in the bonds issued hereunder, expressed or implied, is intended, or shall be construed, to give to any person or corporation, other than the parties hereto and the holders of bonds issued under and secured by this indenture, any legal or equitable right, remedy or claim under or in respect of this indenture, or under any covenant, condition or provision herein contained; all its covenants, conditions and provisions being intended to be, and being, for the sole and exclusive benefit of the parties hereto and of the holders of the bonds hereby secured.

ARTICLE TWO.**THE RAILROAD COMPANY COVENANTS AS FOLLOWS:**

Section 1. Duly and punctually it will pay the principal and interest of every bond issued and secured hereunder at the dates and the place and in the manner mentioned in such bonds, or in the coupons thereto belonging, without deduction from either principal or interest, for any taxes imposed by the United States or any State or County or Municipality thereof, which the Railroad Company may be required to pay or to retain therefrom under or by reason of any present or future law. The interest on the coupon bonds shall be payable only upon presentation and surrender of the several coupons for such interest as they respectively mature, and when paid such coupons shall forthwith be canceled. The principal of each coupon bond shall be payable only upon presentation and surrender of the bond. The interest on the registered bonds without coupons shall be payable only to the registered holders thereof. The principal of each registered bond without coupons shall be payable to the person registered as holder of such bond at the time of payment, but only upon presentation and surrender of such bond.

At all times until the payment of the principal of the bonds secured by this indenture, the Railroad Company will keep an office or agency in the City of New York where bonds and coupons may be presented for payment, and where notices or demands in respect of said bonds and coupons may be served,

Exhibit R-119.

and from time to time the Railroad Company will give written notice to the Trustee of the place of such office or agency. In case the Railroad Company shall fail to do so, presentation and demand may be made and notices served at the office of the Trustee in the City of New York.

Sec. 2. Whenever demanded by the Trustee, the Railroad Company will do, execute, acknowledge and deliver, or will cause to be done, executed, acknowledged and delivered, all such further acts, deeds, transfers and assurances for the better assuring, conveying and confirming unto the Trustee all and singular the premises and property hereby assigned, pledged, or mortgaged, or intended so to be, or which the Railroad Company herein has covenanted and agreed hereafter to assign, pledge, or mortgage, as the Trustee shall reasonably require for better accomplishing the provisions and purposes of this indenture and for securing the payment of the principal and interest of the bonds intended to be secured hereby.

Sec. 3. The Railroad Company, at an office or agency to be maintained by it in the City of New York, will keep a register or registers for the registration and transfer of bonds issued hereunder, in which it will register subject to such reasonable regulations as it may prescribe, bonds without coupons, and upon presentation thereof for such purpose any coupon bonds issued hereunder. Such register, at all reasonable times, shall be open to the inspection of the Trustee.

Upon presentation to the Railroad Company, at the place where such register shall be kept, of any such registered coupon bond, accompanied by delivery of a written instrument of transfer in a form approved by the Railroad Company, executed by the registered holder, such bond shall be transferred upon such register, and such transfer shall be noted by the Railroad Company upon such bond. The registered holder of any such registered coupon bond also shall have the right to cause the same to be registered as payable to bearer, in which case transferability by delivery shall be restored, and thereafter the principal of such bond when due shall be payable to the person presenting the bond; but any such coupon bond registered as payable to bearer may be registered again in the name of the holder with the same effect as a first registration thereof. Successive registrations and transfers as aforesaid may be made from time to time as desired; and each registration of a

Exhibit R-119.

coupon bond shall be noted by the Railroad Company on the bond.

Registration of any coupon bond, however, shall not restrain the negotiability of any coupon thereto belonging, but every such coupon shall continue to pass by delivery merely, and shall remain payable to bearer.

Any registered bond without coupons may be transferred at said office or agency by surrender of such bond to the Railroad Company for cancellation, accompanied by the delivery of a written instrument of transfer in a form approved by the Railroad Company, duly executed by the registered holder for the time being, and by payment of any charge imposed under Section 5 of ARTICLE ONE hereof; and thereupon a new registered bond, or new registered bonds, for an equivalent aggregate principal sum, shall be issued to the transferee or transferees, as provided in said Section 4 of ARTICLE ONE.

Sec. 4. The Railroad Company will not voluntarily create or suffer to be created, any debt, lien or charge which would be prior to the lien of these presents upon any property which shall have become subject to this indenture, or any part thereof, or upon the income thereof; and within three months after the same shall accrue, it will pay, or will cause to be discharged, or will make adequate provision to satisfy and discharge, all lawful claims and demands of mechanics, laborers or others which, if unpaid, might by law be given precedence to this indenture as a lien or charge upon such property or any part thereof, or the income thereof; and if any company (other than the New York, Susquehanna and Western Railroad Company), of whose capital stock the greater part shall have been pledged hereunder at any time while the greater part of the capital stock of such company shall be pledged hereunder, shall voluntarily create, or shall suffer to be created (except as in this indenture expressly permitted), any new lien or charge upon its property or income, or shall create, or shall suffer to be created, any new indebtedness other than indebtedness to the Railroad Company, or indebtedness for the current expenses of such company during a period not exceeding three months, then it (the Railroad Company) will acquire such lien, charge or indebtedness and cause the same to be vested in the Trustee, or will cause the same to be paid, or discharged, or will make adequate provision for the satis-

Exhibit R-119.

faction or discharge thereof; *provided* that nothing in this section contained shall require the Railroad Company to acquire, or cause to be paid or discharged or make provision for, any such debt, lien or charge so long as the validity thereof in good faith shall be contested.

Sec. 5. The Railroad Company from time to time will pay and discharge all taxes, assessments and governmental charges (the lien of which would be prior to the lien hereof) lawfully imposed upon the stocks, bonds and other property pledged or mortgaged hereunder, or upon any part thereof, or upon the income and profits thereof, and also all taxes, assessments and governmental charges lawfully imposed upon the lien or interest under this indenture of the Trustee or of the holders of the bonds hereby secured in respect of such stocks, bonds and other property, so that the lien and priority of this indenture shall be fully preserved at the cost of the Railroad Company without expense to the Trustee or the Bondholders; and if any company of whose capital stock the greater part shall have been acquired and pledged hereunder, at any time while a greater part of the capital stock of such company shall be pledged hereunder, shall fail to pay all taxes, assessments and charges lawfully imposed upon the property of such company or upon the income and profits thereof, then it, the Railroad Company, either will pay the same, or will acquire and will transfer to the Trustee the claim therefor, or will make adequate provision for the satisfaction or discharge thereof; *provided, however*, that nothing in this section contained shall require the Railroad Company to pay, acquire or make provision for any such tax, assessment or charge so long as in good faith the Railroad Company shall contest the validity thereof.

Sec. 6. Except as in this indenture expressly authorized, the Railroad Company will not by affirmative vote or consent, or by abstaining from voting, sanction or permit any increase of the capital stock of any company of whose capital stock the greater part shall be subject to this indenture, or the issue or the guaranty of any new bonds by any such company, or the creation of any new indebtedness of any such company (except current operating accounts for a period not at any date exceeding six months prior thereto), or the creation of any new mortgage or other lien upon the railroad or property

Exhibit R-119.

of any such company, unless simultaneously there shall be effective provision that such new indebtedness, and the evidences thereof and such new bonds issued or guaranteed, and such new mortgage or other lien, and all such additional stock (or such part of such additional stock as shall be proportionate to the part of such entire capital stock previously pledged hereunder) forthwith, upon the issue or creation thereof, shall be transferred to or pledged with the Trustee, by it to be held subject to all the trusts of this indenture; and all such additional stock shall be fully paid and non-assessable.

Except as in this indenture expressly authorized, the Railroad Company will not, by affirmative vote or consent, or by abstaining from voting, sanction or permit any company, of whose capital stock the greater part shall be subject to this indenture, to sell or otherwise to dispose of, any mine, colliery, railroad or bridge belonging to such company, unless the operation thereof be abandoned, or any property required for such operation, or to lease the same (unless such lease be upon the express condition that it shall terminate at the election of the Trustee in case any default shall be made and shall continue as provided in Section 2 of Article Four hereof), except to the Railroad Company or to some other company of whose capital stock not less than ninety per cent. shall then be held by the Railroad Company and be pledged with the Trustee hereunder.

Sec. 7. Any and all claims or indebtedness, which the Railroad Company hereafter may acquire against any other company, of whose capital stock the greater part shall have been pledged or assigned to the Trustee hereunder, shall (subject to the provisions in respect thereof in this indenture contained) be and become subject to the lien of this indenture, and, if when requested in writing by the Trustee, the Railroad Company will execute to the Trustee appropriate assignments thereof.

Sec. 8. The Railroad Company will not issue, negotiate, sell or dispose of any bonds hereby secured in any manner other than in accordance with the provisions of this indenture and the agreements in that behalf herein contained; and in issuing, selling, negotiating or otherwise disposing of such bonds, from time to time, it will well and truly apply, or cause to be applied, the same, or the proceeds thereof, only to and

Exhibit R-119.

for the purposes herein prescribed, and to and for no other or different purpose.

Sec. 9. In each and every year after the year 1901 during the month of May the Railroad Company will deliver to the Trustee, and also to the copartnership firm of J. P. Morgan & Co., Bankers in the city of New York, as Sinking Fund Trustees hereunder, a statement in writing, under its corporate seal, showing the total amount of coal sold and delivered during the preceding calendar year from the mines of the Pennsylvania Coal Company; and simultaneously it will pay to the said copartnership firm of J. P. Morgan & Co. as Sinking Fund Trustees hereunder, a sum equal to ten cents for every ton of coal so sold and delivered. The moneys so received, together with all accumulations of interest thereon, as hereinafter provided, shall be appropriated to, and shall constitute, **a sinking fund**, as additional security for the retirement of every bond of this issue at or before the stated maturity thereof.

The moneys paid or coming into the sinking fund shall by the said firm of J. P. Morgan & Co., Sinking Fund Trustees, be held as bankers; and from time to time the said sinking fund, together with any accumulations of interest thereon, shall by them be invested in bonds hereby secured, by the purchase thereof in such manner as to them shall seem best, and at such prices as they shall deem best, not exceeding par and accrued interest, with five per cent. premium added to the principal.

To the extent that, in the opinion of the Sinking Fund Trustees, bonds hereby secured cannot be purchased on said terms, the Sinking Fund Trustees may and shall proceed to draw and to designate by lot, bonds hereby secured to an aggregate amount sufficient at the valuations above prescribed to exhaust the net moneys paid by the Railroad Company under the provisions of this section, and all accumulations of interest thereon and then in possession of the Sinking Fund Trustee and available for the redemption of the bonds so designated.

The numbers of all bonds so designated and drawn shall be published as directed by the Sinking Fund Trustees, twice in each week for three successive weeks in the month of January or the month of July, in two or more newspapers published in the City of New York, with a notice that upon presentation thereof to the Sinking Fund trustees, every such bond will be paid at par, together with a premium of five per cent. thereof

Exhibit R-119.

and all interest accrued thereon upon the first day of the following month of February or of August, as the case may be; and after such day so designated no interest shall thereafter accrue or be payable upon, or in respect of, any bond so designated and notified, nor shall any coupon representing any such subsequently accruing interest be of any force or effect. But, to the extent of any moneys at any time thereafter in their possession, upon receipt of any such bond so designated and notified, and not presented before the day so designated, together with all coupons (if any) belonging thereto for interest accruing after such designated day, the Sinking Fund Trustees may receive the same, and may pay therefor a sum equal to par together with a premium of five per cent. thereof and all interest accrued thereon up to the date so designated.

All of the bonds hereby secured, which shall be called or purchased, as aforesaid, shall, as soon as received by the Sinking Fund Trustees, be conspicuously and indelibly stamped on the face thereof, as "Received for the sinking fund, and no longer negotiable or transferable," and the date of the receipt thereof by the Sinking Fund Trustees shall also be plainly noted thereon; and the coupons thereto belonging shall be defaced or canceled by perforations or punctures through the name of the Treasurer; or the Sinking Fund Trustees may exchange any coupon bond for a registered bond or bonds without coupons, for the like aggregate principal sum, as permitted by Section 5 of Article One of this indenture; and, in case of such exchange, every such registered bond so received shall be stamped "Received for the sinking fund and no longer transferable."

All coupon bonds or registered bonds so received by the Sinking Fund Trustees shall be held by them for the sinking fund. All of the bonds hereby secured, which shall come into or be received for the sinking fund, shall remain in force as valid obligations, as an investment of and for the sinking fund, but for no other purpose; and the semi-annual interest thereon, as the same shall mature, shall be payable, and shall continue to be paid by the Railroad Company to the Sinking Fund Trustees, in the same manner and at the same times as such payments of interest would be made if the said bonds were held and owned by any other corporation or person, and the amount of such interest shall be added to and deposited and

Exhibit R-119.

shall be applied as a part of the sinking fund, in the manner, and with the limitations hereinbefore provided in respect of the deposit and investment of other moneys paid or coming into the sinking fund and the accumulations thereof.

When all of the bonds secured by this indenture shall have been paid, or shall have been called or designated for acquisition for the sinking fund, as hereinbefore provided, all of the said bonds that shall have been acquired or held for the sinking fund shall by the Sinking Fund Trustees be canceled and delivered to the Railroad Company, together with all coupons (if any) thereto belonging; and the Sinking Fund Trustees shall also pay over and deliver to the Railroad Company all moneys and securities for money then in or belonging to the sinking fund; but not without making ample provision, or taking adequate security, for the payment of the principal at or before the maturity of any of the said bonds that shall have been called for the sinking fund, as hereinbefore provided, and shall not have been presented and delivered in pursuance of such call.

No registered bond without coupons shall be drawn so long as any coupon bond is outstanding and unpaid.

As Sinking Fund Trustees, J. P. Morgan & Co. shall act as a copartnership. Notwithstanding any change in said firm, J. P. Morgan & Co., as from time to time constituted, shall continue to be Sinking Fund Trustees, with all the powers, right and title vested hereunder in the Sinking Fund Trustees. But in case of any change in said firm, the Railroad Company and the Trustee, by an instrument in writing under the corporate seals of the Trustee and of the Railroad Company, may appoint to be Sinking Fund Trustee in place and in lieu of J. P. Morgan & Co. some trust company in good standing, doing business in the City of New York and having a capital and surplus aggregating at least \$1,000,000. Thereupon the firm of J. P. Morgan & Co., as then constituted, shall execute and deliver an instrument transferring to such Sinking Fund Trustee all of the estates, properties, rights, powers and duties of the said J. P. Morgan & Co. as Sinking Fund Trustees, and shall duly transfer and deliver to the new Sinking Fund Trustee so appointed in their place all bonds and other property and moneys held by them as such Sinking Fund Trustees after deducting therefrom their reasonable costs and charges then

Exhibit R-119.

remaining unpaid. Without any further act, deed or conveyance, such new Sinking Fund Trustee forthwith shall become and be vested with all the properties, rights, powers, trusts, duties and obligations of J. P. Morgan & Co. as Sinking Fund Trustees hereunder, with like effect as if originally named herein as Sinking Fund Trustee.

Neither J. P. Morgan & Co., nor any successor, as Sinking Fund Trustees, shall be answerable for the default or misconduct of any agent or attorney appointed by them in pursuance hereof, if such agent or attorney shall have been selected with reasonable care, or for anything whatever in connection with such sinking fund except wilfull misconduct and gross negligence. The Sinking Fund Trustees shall be entitled to a reasonable compensation payable primarily by the Railroad Company and secondarily out of the Sinking Fund.

ARTICLE THREE.

Section 1. The Trustee shall be authorized to cause to be registered in its name as Trustee hereunder any and all coupon bonds pledged with it hereunder, or which at any time hereafter may be pledged with it under any of the provisions of this indenture, or it may cause the same to be exchanged for registered bonds without coupons of any denomination, or it may cause any such bonds to be stamped "Non-negotiable. Held in trust under the Collateral Trust Indenture bearing date February 1, 1901, executed by Erie Railroad Company to The Mercantile Trust Company, as Trustee."

The Trustee shall cause to be transferred into its name, as Trustee hereunder, all registered bonds which shall have been delivered and assigned to it as security hereunder. The Trustee at any time may transfer into its name, as Trustee hereunder, all or any shares of stock, the certificates for which shall have been pledged with it hereunder.

The Trustee may do whatever may be necessary for the purpose of maintaining or preserving the corporate existence of any company the greater part of whose shares shall have been pledged hereunder, and for such purposes, from time to time, it may sell, assign, transfer and deliver so many shares of the stock of the several companies as may be necessary to qualify persons to act as directors of, or in any other official relation to, said companies; provided, however, that under

Exhibit R-119.

this provision no transfer shall be made which shall so reduce the amount of stock in any company held by the Trustee as to render it less than a controlling interest in such stock; and in every case the Trustee may make such arrangements as it shall deem necessary for the protection of the trust hereunder.

Sec. 2. Unless and until there shall be some continuing default (1) in the payment of any interest on any bond or bonds secured by this indenture and such default shall have continued for a period of ninety days, or (2) in the payment of the principal of any bond hereby secured when the same shall have become payable, or (3) in the due observance or performance of any other covenant or condition in this indenture required to be kept or performed by the Railroad Company, and such last-mentioned default shall have continued for a period of six months after written notice thereof shall have been given by the Trustee to the Railroad Company—(a) the Trustee (except upon the request or with the assent of the Railroad Company) shall not enforce the payment of, or collect, the principal or interest of any bonds or of any other claims or indebtedness now or hereafter subject to this indenture, whether at or before or after the maturity of such bonds or contract obligations or other claims or indebtedness, and shall not enforce any provision of the mortgages, trust deeds or other instruments under which such bonds or other obligations were issued or by which the same are secured; and (b) the Railroad Company shall be entitled to receive all interest paid in respect of any such bonds or obligations, and the dividends on all shares of stock which shall be subject to this indenture, although the same shall have been transferred to the Trustee; (c) from time to time (subject to the covenants in respect thereof in this section contained), upon the request of the Railroad Company on a date not more than sixty days prior to the maturity of any coupons, held by the Trustee for such interest, the Trustee shall deliver such coupons to the Railroad Company in order that the Railroad Company may receive payment thereof for its own use, or may cause the same to be canceled, and, upon request of the Railroad Company on a date not more than sixty days prior to the maturity of any interest or dividends, the Trustee shall deliver to the Railroad Company suitable orders in favor of the Railroad Company, or its nominee, for the payment of such interest and dividends

Exhibit R-119.

upon any bonds or shares held by the Trustee, and the Railroad Company may collect such coupons, interest and dividends, but not by any proceeding which the Trustee shall deem to be prejudicial to the trusts hereunder, and the Trustee at once shall pay over to the Railroad Company any such interest and dividends which may be collected or be received by it; and (d) the Railroad Company, for its own use, shall be entitled to demand, collect and receive, and may release and discharge, the principal and interest of any claims and indebtedness subjected to the lien of this indenture under Section 7 of Article Two hereof, and upon request of the Railroad Company the Trustee shall execute any reassignments or releases which may be required for that purpose.

Provided, however, and hereby it is declared and agreed that, except as in this indenture otherwise expressly provided, (1) the Railroad Company shall not be entitled to receive, and the Trustee shall not pay over to the Railroad Company, any principal of any bond pledged or assigned to the Trustee hereunder; (2) the Railroad Company shall not be entitled to receive, and the Trustee shall not pay over, any interest on any such bond, or any principal or interest of any such other obligation, claim or indebtedness, which shall have been collected or paid out of the proceeds of any sale of the property covered by a mortgage securing such bonds, or out of the proceeds of the sale of any other property of the company liable upon such bonds, obligations, claims or indebtedness in case of a dissolution or liquidation of such company; it being the intention that the Railroad Company shall be entitled to receive payments made only out of the rents, revenues, income or proceeds of operation of such properties; (3) The Railroad Company shall not sell, assign or transfer any such coupon, or right to interest or dividends, delivered or assigned to it, or any other such claim or indebtedness, except subject to this indenture; (4) the Railroad Company shall not collect any such coupons or interest, or any such other claims or indebtedness, by legal proceeding or by enforcement of any security therefor, except with the assent of the Trustee, nor in any manner which the Trustee shall deem prejudicial to the trust hereunder; and, (5) until actually paid, released or discharged, every such coupon, or right to interest or dividends, and such other claims and indebtedness, shall remain subject to the lien of this indenture.

Exhibit B-119.

If any such coupon, claim or indebtedness shall not be paid or satisfied within sixty days after delivery thereof to the Railroad Company hereunder, the Railroad Company shall return the same to the Trustee; and in case of the payment or satisfaction of any such coupon, claim or indebtedness delivered by the Trustee to the Railroad Company hereunder, the Railroad Company, upon demand of the Trustee, shall furnish satisfactory evidence of such payment or satisfaction.

Sec. 3. In case any sum shall be paid on account of the principal of any bonds or of any obligations held by the Trustee hereunder, or in case any sum shall be paid on account of the interest on any such bonds or obligations out of the proceeds of a sale of the property covered by a mortgage or trust deed securing such bonds or obligations, or in case, upon the dissolution or liquidation of any company, any sum shall be paid upon any shares of stock of such company pledged hereunder or upon any such claims against or indebtedness of any such company held by the Trustee, then, in any such case, any such sum, unless applied on account of the purchase price of property purchased pursuant to Section 5 of this Article, shall be received by the Trustee and shall be paid over by the Trustee to the Railroad Company to reimburse it for expenditures by it made for any one or more of the purposes for which bonds reserved under Section 4 of Article One hereof or their proceeds may be used, upon certificates of such expenditures, signed by the President or a Vice-President, and by the Comptroller, or Auditor, or Treasurer, of the Railroad Company.

Sec. 4. Unless and until there shall be some continuing default (1) in the payment of any interest on any bond or bonds secured by this indenture and such default shall have continued for a period of ninety days; or (2) in the payment of the principal of any bond hereby secured when the same shall have become payable, or (3) in the due observance or performance of any other covenant or condition in this indenture, required to be kept or performed by the Railroad Company, and such last-mentioned default shall have continued for a period of six months after written notice thereof shall have been given by the Trustee to the Railroad Company—the Railroad Company shall have the right to vote upon all shares of stock subject to this indenture for all purposes not inconsistent with the provisions or purposes of this indenture.

Exhibit B-119.

and with the same force and effect as though such shares were not subject hereto; and from time to time, upon demand of the President of the Railroad Company, the Trustee, forthwith, shall execute and deliver to the Railroad Company, or to its nominees, suitable powers of attorney or proxies to vote upon any shares of stock which shall have been transferred to the name of the Trustee.

Sec. 5. In case default shall be made in the payment of the principal or interest of any of the bonds or obligations which shall have been delivered to, and held by, the Trustee hereunder, then in any such case, if the Trustee shall hold more than ninety per cent. in amount of the entire issue of such bonds or obligations in default, upon the written request of the Railroad Company, it shall, and in other cases, upon such written request, it may, in its discretion, cause proper proceedings to be instituted and prosecuted in some court of competent jurisdiction to foreclose or enforce the mortgage, or trust, or charge, by which such bonds or obligations in default are secured. In case the Railroad Company shall be in default in the payment of the principal or interest of any of the bonds hereby secured, and such default in the payment of interest shall have continued for a period of ninety days, then the Trustee, in its discretion, may institute such proceedings without such written request.

In case, at any time, any company of whose capital stock the greater part shall be held by the Trustee hereunder shall be dissolved or liquidated; or in case all or any of the property of any such company shall be sold upon the insolvency of such company at any judicial or other sale; or in case any property covered by a mortgage securing any bonds, or subject to any charge or trust for the payment of any other obligations held by the Trustee hereunder, shall be sold upon foreclosure of such mortgage, or by enforcement of such charge or trust; then and in every such case (if the property of such company, or the property sold, can be acquired by crediting on the bonds, obligations, claims, indebtedness or shares of stock of such company, held by the Trustee hereunder, any sum accruing or to be received thereon out of the proceeds of such property, and paying not more than ten per cent. of the price of such property in cash) the Trustee, in its discretion, may, but, if by the Railroad Company requested in writing and provided with the

1535

Exhibit R-119.

amount of cash necessary therefor (whether such amount be more or be less than ten per cent. of the price of such property), the Trustee shall purchase, or shall cause to be purchased, or shall permit the Railroad Company to purchase, such property, either in the name or on behalf of the Trustee or of the Railroad Company, or by purchasing trustees, and shall use, or shall permit the Railroad Company to use, such bonds, obligations, claims, indebtedness and stock, so far as may be, to make payment for such property. In case of such purchase the Trustee shall take such steps as it may deem proper to cause such property to be vested either in the Railroad Company, subject to the lien of this indenture, or in some other corporation organized or to be organized, with power to acquire and manage such property, provided that all the outstanding bonds and shares of capital stock of such other corporation (excepting the number of shares required to qualify Directors) shall by the Trustee be acquired on behalf of the Railroad Company and be held under this indenture.

With the consent of the Railroad Company at any time, the Trustee may take such proceedings as in its discretion it shall deem desirable to protect its interests hereunder in respect of any bonds, obligations or stock subject to the lien hereof, and for that purpose it may join in any plan of reorganization in respect of any such bonds, obligations or stocks, and may accept new securities issued in exchange therefor, under such plan. In case the Railroad Company shall be in default in the payment of the principal or interest of any of the bonds hereby secured, and such default shall have continued for the period of ninety days, the Trustee shall be entitled to take such proceedings without the consent of the Railroad Company.

The Railroad Company covenants that, forthwith, on demand of the Trustee, it, the Railroad Company, will pay, or will make satisfactory provision for, all expenditures to be incurred by the Trustee under any of the provisions of this section, including all expenditures necessary to obtain and to perfect the ownership and title to any property which pursuant to the provisions of this section the Trustee shall purchase or shall cause to be purchased; and in case the Railroad Company shall fail so to do, then, without impairment of, or preju-

Exhibit R-119.

dice to, any of its rights hereunder by reason of the default of the Railroad Company, the Trustee, in its discretion, may advance all such expenses and other moneys required, or may procure such advances to be made by others, and for such advances made by the Trustee, or by others at its request, with interest thereon, the Trustee shall have a lien prior to that under this indenture upon the bonds, obligations, claims, indebtedness or stock in respect of which such advances shall have been made, and upon the proceeds thereof and upon any property acquired by means of such bonds, obligations, claims, indebtedness or stock.

In case the Trustee shall not purchase or cause to be purchased the property sold at any such sale, and shall not join in a plan of reorganization as aforesaid in respect of such bonds, obligations or stock, then the Trustee shall receive any portion of the proceeds of the sale accruing on the bonds, obligations and stock by it held hereunder, and from time to time such proceeds shall be paid over to the Railroad Company to reimburse it for expenditures which shall have been made by it for any purpose for which bonds or their proceeds may be used under section 3 of Article One hereof, upon certificates of such expenditures signed by the President or a Vice-President, and by the Comptroller or Auditor or Treasurer of the Railroad Company

Sec. 6. Anything in this indenture to the contrary notwithstanding, any company of whose shares of capital stock the larger part shall be held by the Trustee hereunder may be merged or consolidated with, or all or any part of the property of any such company may be sold to, the Railroad Company or with or to any other company of whose capital stock at least ninety per cent. in amount shall then be held by the Trustee hereunder;

Provided, however, (1) that in case of a merger or consolidation with, or sale or conveyance to, the Railroad Company, the property of such company, or the property sold or conveyed, shall become and be subject to the lien of this indenture, free from any prior charge except to secure bonds then held by the Trustees or by the Trust Company hereunder, and shall be vested in the Trustees; and (2) that in case of a merger or consolidation with, or sale or conveyance to, any company other than the Railroad Company, all the shares of capital

Exhibit R-119.

stock (except the number of shares required to qualify directors), and all the bonded indebtedness and other obligations of such consolidated company or company into which such other company shall have been merged (except current operating liabilities), shall continue to be held by the Trustee, notwithstanding such merger, consolidation, sale or conveyance. The Trustee may make any exchange, substitution, cancellation or surrender of securities required for the purposes or in accomplishment of any such merger or consolidation; and the Trustee may receive the opinion of any counsel approved by it as to the legal effect of any such merger or consolidation, and as to the steps necessary to be taken to consummate the same, and as to any other matter under this section; and such opinion shall be full protection to the Trustee for any action by it taken pursuant thereto.

Sec. 7. At any time in its discretion, the Trustee may, and, if requested in writing by the Railroad Company, the Trustee shall, consent to the extension or renewal of any bonds or obligations now held, or which hereafter shall be held by the Trustee hereunder; *provided* that the mortgage and lien securing such bonds or obligations shall continue unimpaired notwithstanding such extension. The Trustee may receive the opinion of any counsel approved by it as conclusive evidence that any such extension is in compliance with the provisions of this section.

ARTICLE FOUR.

Section 1. Neither any coupon belonging to any bond hereby secured, nor any claim for interest on any registered bond which in any way, at or after maturity, shall have been transferred or pledged separate and apart from the bond to which it relates, shall, unless accompanied by such bond, be entitled, in case of a default hereunder, to any benefit, of or from, this indenture, except after the prior payment in full of the principal of the bonds issued hereunder, and of all coupons and interest obligations not so transferred or pledged.

Sec. 2. In case (1) default shall be made in the payment of any interest on any bond or bonds secured by this indenture, and any such default shall continue for a period of ninety days, or in case (2) default shall be made in the due and punctual

Exhibit R-119.

payment of the principal of any bond hereby secured, or in case (3) default shall be made in the due observance or performance of any other covenant or condition herein required to be kept or performed by the Railroad Company, and any such last-mentioned default shall continue for a period of six months after written notice thereof shall be given to the Railroad Company by the Trustee or by the holders of five per cent. in amount of the bonds hereby secured,—then and in every such case the Trustee, by any officer, attorney or agent, appointed by it therefor, shall be entitled to vote on all shares of stock then held by the Trustee hereunder, and shall be entitled to receive and collect all dividends and all interest moneys maturing or payable upon any and all stocks and bonds then held by the Trustee hereunder, and the Trustee shall be entitled, by its attorneys or agents, to enter into and upon all or any property and premises, rights and interests conveyed or mortgaged to the Trustee hereunder, and may exclude the Railroad Company, its agents and servants, wholly therefrom, and, having and holding the same, may use, operate, manage and control the same and conduct the business thereof, by its superintendents, managers, receivers, agents and servants, to the best advantage of the holders of the bonds hereby secured; and, at the expense of the trust estate, the Trustee may administer and manage the same as it may deem to the best advantage of the holders of said bonds. After deducting all expenses incurred under this section and any other expenses of the trust hereunder, the Trustee shall apply all moneys collected or received by it hereunder as follows:

In case the principal of the bonds hereby secured shall not have become due, to the payment of the interest in default, in the order of the maturity of the installments of such interest, with interest thereon at the rate of four per cent. per annum; such payments to be made ratably to the persons entitled thereto, without discrimination or preference: and

In case the principal of the bonds hereby secured shall have become due, by declaration or otherwise, *first* to the payment of the accrued interest (with interest on the overdue installments thereof at the rate of four per cent. per annum) in the order of the maturity of the installments, and *next* to the payment of the principal of all bonds hereby secured; in every instance such payments to be made ratably to the persons

Exhibit R-119.

entitled to such payment without any discrimination or preference.

These provisions, however, are not intended in anywise to modify the provisions of section 1 of this Article Four, but are subject thereto.

Sec. 3. In case default shall be made in the payment of any interest on any bond or bonds hereby secured, and any such default shall continue for a period of six months, then and in every case of such continuing default, the holders of a majority in amount of the bonds hereby secured then outstanding, by notice in writing delivered to the Railroad Company and to the Trustee, may declare the principal of all bonds hereby secured and then outstanding to be due and payable immediately, and upon any such declaration the same shall become and be immediately due and payable, anything in this Indenture or in said bonds contained to the contrary notwithstanding. This provision, however, is subject to the condition that if, at any time after the principal of said bonds shall have been so declared due and payable, all arrears of interest upon all such bonds, with interest at the rate of four per cent. per annum on overdue installments of interest, shall either be paid by the Railroad Company or be collected out of the mortgaged premises before any sale of the mortgaged premises shall have been made, then and in every such case the holders of a majority in amount of the bonds hereby secured then outstanding, by written notice to the Railroad Company and to the Trustee, may rescind and annul such declaration and its consequences; but no such rescission and annulment shall extend to, or shall affect any subsequent default, or impair any right consequent thereon.

In case the Trustee shall have proceeded to enforce any right under this indenture, by foreclosure, entry or otherwise, and such proceedings shall have been discontinued or abandoned because of such waiver, or for any other reason, or shall have been determined adversely to the Trustee, then and in every such case the Railroad Company and the Trustee shall be restored respectively to their several positions and rights hereunder in respect of the mortgaged premises, and the shares of stock and the bonds and other property herein pledged or agreed to be pledged; and all rights, remedies and powers of the Trustees, shall continue as though no such proceeding had been taken.

Exhibit R-119.

Sec. 4. In case (1) default shall be made in the payment of any interest on any bond at any time issued under and secured by this indenture, and any such default shall continue for a period of ninety days; or in case (2) default shall be made in the due and punctual payment of the principal of any bond hereby secured; or in case (3) default shall be made in the due observance or performance of any other covenant or condition herein required to be kept or performed by the Railroad Company, and any such last-mentioned default shall continue for a period of six months after written notice thereof from the Trustee; then, and in each and every such case of default, with or without entry, personally or by attorney, in its discretion, (a) the Trustee may sell to the highest and best bidder all and singular the stocks, bonds and other property which then shall be held by the Trustee, or in any manner shall be subject to this indenture, including any real and personal property, franchises and rights of any kind, and all right, title and interest, claim and demand therein, and right of redemption thereof, in one lot and as an entirety, unless a sale in parcels shall be required under the provisions of Section 6 of this Article Four, in which case such sale may be made in parcels as in said section provided, which sale or sales shall be made at public auction at such place in the City of New York, in the State of New York, or at such other place or places, and at such time or times, and upon such terms, as the Trustee may fix and briefly specify in the notice or notices of sale to be given, as herein provided; or (b) the Trustee may proceed to protect and enforce its rights and rights of bondholders under this indenture, by a suit or suits in equity or at law, whether for the specific performance of any covenant or agreement contained herein, or in aid of the execution of any power herein granted, or for the foreclosure of this indenture, or for the enforcement of any other appropriate legal or equitable remedy, as the Trustee, being advised by counsel learned in the law, shall deem most effectual to protect and enforce any of its rights or duties hereunder.

Sec. 5. Upon the written request of the holders of twenty-five per cent. in amount of the bonds hereby secured, in case of any such continuing default, it shall be the duty of the Trustee, upon being indemnified as hereinafter provided, to take all steps needful for the protection and enforcement of its rights and the

Exhibit R-119.

rights of the holders of the bonds hereby secured, and to exercise the powers of entry or sale herein conferred, or both, or to take appropriate judicial proceedings by action, suit, or otherwise, as the Trustee, being advised by counsel learned in the law, shall deem most expedient in the interest of the holders of the bonds hereby secured; but, anything in this indenture to the contrary notwithstanding, the holders of seventy-five per cent. in amount of the bonds hereby secured and then outstanding, from time to time, shall have the right to direct and to control the method and place of conducting any proceedings for any sale of the premises subject to the lien of this indenture, or for the foreclosure hereof, or for a receiver or any other proceedings hereunder.

Sec. 6. In the event of any sale hereunder, whether under the power of sale or by virtue of judicial proceedings, or of some judgment or decree of foreclosure and sale, the whole of the property held by the Trustee, or in any manner subject to this indenture, shall be sold in one parcel and as an entirety, unless the holders of a majority in amount of the bonds hereby secured, then outstanding, shall in writing request the Trustee to cause said premises to be sold in parcels, in which case the sale or sales shall be made in such parcels, and at such times and places, as may be specified in such request, or unless such sale as an entirety shall be impracticable by reason of some statute or other cause. This provision shall bind the parties hereto, and the holders of the bonds and the coupons hereby secured.

Sec. 7. Notice of any sale pursuant to any provision of this indenture shall state the time and place or the times and places when and where the same is to be made, and shall contain a brief general description of the property to be sold, and shall be given sufficiently if published once in each week for four successive weeks prior to such sale in a newspaper published in New York, N. Y.

Sec. 8. From time to time the Trustee may adjourn any sale by it to be made under the provisions of this indenture, by announcement at the time and place appointed for such sale, or for such adjourned sale or sales; and, in such event, without further notice or publication, the Trustee may make such sale at the time and place to which the same shall be so adjourned.

Exhibit R-119.

Sec. 9. Upon the completion of any sale or sales under this indenture the Trustee shall execute and deliver to the accepted purchaser or purchasers good and sufficient assignments, transfers and conveyances of the stocks, bonds and other property sold, and shall deliver to such purchaser or purchasers all bonds and obligations and the certificates for all shares of stock by it, held hereunder, which shall have been sold to such purchaser or purchasers. The Trustee and its successors hereby are appointed the true and lawful attorney or attorneys irrevocable, of the Railroad Company, in its name and stead to make all necessary assignments, transfers and conveyances of shares of stock or bonds or other property thus sold; and for that purpose it and they may execute all necessary acts of assignment and transfer and may substitute one or more persons with like power; the Railroad Company hereby ratifying and confirming all that its said attorney or attorneys or such substitute or substitutes shall lawfully do by virtue hereof.

Any such sale or sales made under or by virtue of this indenture, whether under the power of sale hereby granted and conferred, or under and by virtue of judicial proceedings, shall operate to divest all right, title, interest, claim and demand whatsoever, either at law or in equity, of the Railroad Company, of, in and to the property sold, and shall be a perpetual bar both at law and in equity, against the Railroad Company, its successors and assigns, and against any and all persons claiming or to claim the premises sold, or any part thereof, from, through or under the Railroad Company, its successors or assigns.

Sec. 10. The receipt of the Trustee shall be a sufficient discharge to any purchaser of the property or any part thereof, sold as aforesaid, for the purchase money; and no such purchaser or his representatives, grantees or assigns, after paying such purchase money and receiving such receipt, shall be bound to see to the application of such purchase money upon or for any trust or purpose of this indenture, or shall in any manner whatsoever be answerable for any loss, misapplication or non-application of any such purchase money or any part thereof, or shall be bound to inquire as to the authorization, necessity, expediency or regularity of any such sales.

Sec. 11. In case of such sale, whether made under the power of sale hereby granted or pursuant to judicial proceed-

Exhibit R-119.

ings, the whole of the principal sums of the bonds hereby secured, if not previously due, shall at once become due and payable, anything in said bonds or in this indenture to the contrary notwithstanding.

Sec. 12. The purchase money, proceeds or avails of any such sale, whether under the power of sale hereby granted or pursuant to judicial proceedings, together with any other sum which then may be held by the Trustee under any of the provisions of this indenture as part of the trust estate or the proceeds thereof, shall be applied as follows:

First. To the payment of the costs and expenses of such sale, including a reasonable compensation to the Trustee, its agents, attorneys and counsel, and of all expenses, liabilities and advances made or incurred by the Trustee under this indenture and to the payment of all taxes, assessments or liens prior to the lien of these presents, except any taxes, assessments or other superior liens to which such sales shall have been made subject;

Second. To the payment of the whole amount then owing or unpaid upon the bonds hereby secured for principal and interest, with interest at the rate of four per cent. per annum on the overdue installments of interest, and, in case such proceeds shall be insufficient to pay in full the whole amount so due and unpaid upon the said bonds, then to the payment of such principal and interest, ratably, without preference or priority of principal over interest, or of interest over principal, or of any installment of interest over any other installment of interest, subject, however, to the provisions of Section 1 of this Article Four; and

Third. To the payment of the surplus, if any, to the Railroad Company, its successors or assigns, or to whomsoever may be lawfully entitled to receive the same.

Sec. 13. Upon any such sale by the Trustee or pursuant to judicial proceedings, any purchaser, in settlement or payment of the purchase price of the property purchased, shall be entitled to use and apply any bonds, and any matured and unpaid coupons hereby secured, by presenting such bonds and coupons in order that there may be credited thereon the sums applicable to the payment thereof under Section 12 of this

Exhibit R-119.

article; and such purchaser thereupon shall be credited, on account of such purchase price payable by him, with the sums so applicable to the payment of, and credited on, the bonds and coupons so presented; and at any such sale, any bondholders may bid for and purchase such property, and may make payment therefor as aforesaid, and, in compliance with the terms of sale, may hold, retain and dispose of such property without further accountability.

Sec. 14. The Railroad Company covenants that (1) in case default shall be made in the payment of any interest on any bonds at any time outstanding and secured by this indenture, and such default shall continue for a period of six months, or (2) in case default shall be made in the payment of the principal of any such bonds when the same shall become payable, whether at the maturity of said bonds, or by declaration as authorized by this indenture, or upon a sale of the mortgaged premises as hereinbefore provided, then, upon demand of the Trustee, the Railroad Company will pay to the Trustee, for the benefit of the holders of the bonds and coupons hereby secured, then outstanding, the whole amount which then shall have become due and payable on all such bonds and coupons then outstanding, for interest or principal, or both, as the case may be, with interest at the rate of four per cent. per annum upon the overdue principal and installments of interest; and in case the Railroad Company shall fail to pay the same forthwith upon such demand, the Trustee in its own name, and as trustee of an express trust, shall be entitled to recover judgment for the whole amount so due and unpaid.

The Trustee shall be entitled to recover judgment as aforesaid, either before or after or during the pendency of any proceedings for the enforcement of the lien of this indenture upon the mortgaged and pledged premises, and the right of the Trustee to recover such judgment shall not be affected by any entry or sale hereunder, or by the exercise of any other right, power or remedy for the enforcement of the provisions of this indenture or the foreclosure of the lien thereof; and in case of a sale of the mortgaged premises, and of the application of the proceeds of sale to the payment of the mortgage debt, the Trustee, in its own name and as trustee of an express trust, shall be entitled to enforce payment of and to receive all amounts then remaining due and unpaid upon any and all of

Exhibit R-119.

the bonds issued hereunder and then outstanding, for the benefit of the holders thereof, and shall be entitled to recover judgment for any portion of the mortgage debt remaining unpaid, with interest. No recovery of any such judgment by the Trustee, no levy of any execution upon any such judgment upon property subject to the lien of this indenture, or upon any other property, shall in any manner or to any extent affect the lien of this indenture upon the mortgaged premises or any part thereof, or any rights, powers or remedies of the Trustee hereunder, or any lien, rights, powers or remedies of the holders of the bonds hereby secured, but such lien, rights, powers and remedies of the Trustee and of the bondholders shall continue unimpaired as before.

Any moneys thus collected by the Trustee under this section shall be applied by the Trustee towards payment of such amounts then due and payable upon such bonds and coupons and in respect of which such moneys shall have been collected, ratably and without any preference or priority of any kind, upon presentation of the respective bonds and coupons and stamping such payments thereon, if partly paid, or upon cancellation thereof, if paid in full.

Sec. 15. The Railroad Company will not at any time insist upon or plead, or in any manner whatever claim, or take the benefit or advantage of, any stay or extension law, now or at any time hereafter in force in any locality where the mortgaged premises or pledged property, or any part of either, may or shall be situate, nor will it claim, take or insist on, any benefit or advantage from any law now or hereafter in force providing for the valuation or appraisement of the mortgaged premises or pledged property, or any part thereof, prior to any sale, or sales, thereof to be made pursuant to any provision herein contained, or to the decree of any court of competent jurisdiction, nor after any such sale or sales will it claim or exercise any right, conferred by any statute enacted by any State, or otherwise, to redeem the property so sold or any part thereof, and it hereby expressly waives all benefit and advantage of any such law or laws, and it covenants that it will not hinder, delay or impede the execution of any power herein granted and delegated to the Trustee, but that it will suffer and permit the execution of every such power as though no such law or laws had been made or enacted.

Exhibit R-119.

Sec. 16. Upon filing a bill in equity, or upon beginning any other judicial proceedings, to enforce any right of the Trustee or of the bondholders under this indenture, the Trustee shall be entitled to exercise the right of entry herein conferred, and also any and all other rights and powers herein conferred, and provided to be exercised by the Trustee upon the occurrence and continuance of default, as hereinbefore provided; and, as matter of right, the Trustee shall be entitled to the appointment of a receiver of the premises subject to the lien of this indenture, and of the earnings, income, revenue, rents, issues or profits thereof, with such powers as the Court making such appointment shall confer; but notwithstanding the appointment of any receiver, the Trustee shall be entitled, as pledgee, to continue to retain possession and control of the stocks, bonds, cash and other property pledged or to be pledged with the Trustee hereunder.

Sec. 17. At any time hereafter before full payment of the bonds secured hereby and whenever it shall deem expedient for the better protection or security of such bonds (although then there shall be no default entitling the Trustee to exercise the rights and powers conferred by section 2 of this Article Four of this indenture) the Railroad Company, with the consent of the Trustee, may authorize the Trustee for any period, fixed or indefinite, to vote upon all the shares of stock then held by the Trustee hereunder, and to collect the dividends thereon and the interest upon any bonds or other obligations then held by the Trustee hereunder, and to enter into full possession of the whole or any part of the property and premises hereby mortgaged or conveyed or intended so to be. In such event the Trustee shall have, and may exercise, the same rights and powers, and shall apply the moneys by it collected or received, in the manner provided in said section 2 of this Article Four in case of exercise by the Trustee of the rights and powers thereby conferred upon a default continuing as therein set forth; but no action under this Section shall prejudice or impair the right of the Trustee at any time subsequently to exercise, or to continue to exercise, the rights and powers conferred by said section 2 of this Article Four, or by any other provision of this indenture, when entitled thereto.

Sec. 18. No holder of any bond or coupon hereby secured shall have any right to institute any suit, action or proceeding

Exhibit R-119.

in equity or at law for the foreclosure of this indenture, or for the execution of any trust thereof, or for the appointment of a Receiver, or for any other remedy hereunder, unless such holder previously shall have given to the Trustee written notice of such default and of the continuance thereof, as hereinbefore provided; nor unless, also, the holders of twenty-five per cent. in amount of the bonds hereby secured, then outstanding, shall have made written request upon the Trustee, and shall have afforded to it a reasonable opportunity, either to proceed to exercise the powers hereinbefore granted, or to institute such action, suit or proceeding in its own name; nor unless, also, they shall have offered to the Trustee adequate security and indemnity against the costs, expenses and liabilities to be incurred therein or thereby; and such notification, request and offer of indemnity are hereby declared, in every such case, at the option of the Trustee, to be conditions precedent to the execution of the powers and trusts of this indenture and to any action or cause of action, for foreclosure or for the appointment of a Receiver, or for any other remedy hereunder it: being understood and intended that no one or more holders of bonds and coupons shall have any right in any manner whatever to affect, disturb or prejudice the lien of this indenture by his or their action, or to enforce any right hereunder, except in the manner herein provided, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner herein provided and for the equal benefit of all holders of such outstanding bonds and coupons.

Sec. 19. Except as herein expressly provided to the contrary, no remedy herein conferred upon or reserved to the Trustee, or to the holders of bonds hereby secured, is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative, and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute.

Sec. 20. No delay or omission of the Trustee, or of any holder of bonds hereby secured, to exercise any right or power accruing upon any default, continuing as aforesaid, shall impair any such right or power, or shall be construed to be a waiver of any such default, or an acquiescence therein; and every power and remedy given by this Article to the Trustee,

Exhibit R-119.

or to the bondholders, may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the bondholders.

ARTICLE FIVE.

No recourse under or upon any obligation, covenant or agreement of this indenture, or of any bond or coupon hereby secured, or because of the creation of any indebtedness hereby secured, shall be had against any incorporator, stockholder, officer or director of the Railroad Company, or of any successor corporation, either directly or through the Railroad Company by the enforcement of any assessment or by any legal or equitable proceeding by virtue of any statute or otherwise; it being expressly understood that this mortgage, and the obligations hereby secured, are solely corporate obligations, and that no personal liability whatever shall attach to, or be incurred by, the incorporators, stockholders, officers or directors of the Railroad Company, or of any successor corporation, or any of them, because of the creation of the indebtedness hereby authorized, or under or by reason of the obligations, covenants or agreements contained in this indenture, or in any of the bonds or coupons hereby secured, or implied therefrom; and that any and all personal liability of every name and nature, either in common law or in equity, or by statute, of, and any all rights and claims against every such stockholder, officer or director, are hereby expressly waived as a condition of, and as a consideration for, the execution of this indenture, and the issue of such bonds and coupons.

ARTICLE SIX.

Section 1. Any request or other instrument, required by this indenture to be signed and executed by bondholders, may be in any number of concurrent instruments of similar tenor and may be signed or executed by such bondholders in person or by agent appointed in writing. Proof of the execution of any such request or other instrument, or of a writing appointing any such agent, and of the holding by any person of coupon bonds transferable by delivery, shall be sufficient for any purpose of this indenture, and shall be conclusive in favor of the Trustee with regard to due action taken by it under

Exhibit R-119.

such request or other instrument, if made in the following manner:

The fact and date of the execution by any person of any such request, or other instrument, or writing, may be proved by the certificate of any notary public, or other officer authorized to take acknowledgments of deeds to be recorded in New York, that the person whose name was subscribed to such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness to such execution.

The amount of coupon bonds transferable by delivery, held by any person executing any such request or other instrument as a bondholder, and the amounts and issue numbers of the bonds held by such persons, and the date of his holding the same, may be proved by a certificate executed by any trust company, bank, bankers or other depository (wherever situated), if such certificate shall be deemed by the Trustee to be satisfactory, showing therein that at the date therein mentioned such person had on deposit with such depository the bonds described in such certificate. The ownership of registered coupon bonds or of registered bonds without coupons shall be proved by the registers of such bonds.

Sec. 2. The Railroad Company and the Trustee may deem and treat the bearer of any coupon bond hereby secured, which shall not at the time be registered as hereinbefore authorized, and the bearer of any coupon for interest on any such bond, whether such bond shall be registered or not, as the absolute owner of such bond and coupon, as the case may be, for the purpose of receiving payment thereof and for all other purposes; and neither the Railroad Company nor the Trustee shall be affected by any notice to the contrary.

The Railroad Company and the Trustee may deem and treat the person in whose name any registered bond without coupons issued hereunder shall be registered upon the books of the Railroad Company, as hereinbefore provided, as the absolute owner of such bond for the purpose of receiving payment of, or on account of, the principal and interest of such bond, and for all other purposes, and may deem and treat the person in whose name any coupon bond shall be so registered as the absolute owner thereof for the purpose of receiving payment of, or on account of, the principal thereof, and for all other purposes except to receive payment of interest represented by

Exhibit R-119.

outstanding coupons; and all such payments so made to any such registered holder for the time being, or upon his order, shall be valid and effectual to satisfy and discharge the liability upon such bond to the extent of the sum or sums so paid.

ARTICLE SEVEN.

In case any real property, rolling stock, machinery or other tangible property (but not shares of stock or certificates therefor, bonds, certificates of indebtedness or other securities) shall be conveyed or mortgaged to the Trustee hereunder, then from time to time, upon the written request of the Railroad Company approved by resolution of its Board of Directors or Executive Committee, the Trustee shall release from the lien and operation of this indenture any of such real property, rolling stock, machinery or other tangible property described in such written request; *provided*, that there shall be delivered to the Trustee together with such written request a certified copy of the resolution approving thereof, and a certificate signed by the President or a Vice-President of the Railroad Company, stating (a) that the Railroad Company has sold or exchanged, or has agreed to sell or exchange, such property, and the price or consideration to be received therefor by the Railroad Company, in cash or other property, and that such price or consideration in his opinion is equal to the full value of such property; and (b) that it is no longer necessary or expedient to retain the property described in such request for use in carrying on the business of the Railroad Company or in connection with the maintenance or operation of any mine, colliery, railway or property belonging to any of the companies of whose capital stock the greater part shall then be held by the Trustee hereunder.

The Railroad Company covenants and agrees that it will set aside, separate and apart from all other property and funds of the Railroad Company, the price or consideration by it received for any property which may be released under the provisions of this Article, and that the same shall be applied, but only with the approval of the Trustee, for some one or more of the purposes for which bonds or their proceeds reserved under section 3 of Article One of this indenture may be applied.

It is expressly understood and declared that nothing in this Article contained shall authorize or permit the release by

Exhibit R-119.

the Trustee of any shares of stock or the certificates therefor, or any bonds or other evidences of indebtedness or securities which shall be held by the Trustee hereunder, but that the provisions of this Article shall apply only to real property, rolling stock, machinery or other tangible property which, pursuant to any provision of this indenture, shall have been conveyed or assigned to the Trustee by way of mortgage.

ARTICLE EIGHT.

Section 1. The Trustee shall not be answerable for the default or misconduct of any agent or attorney appointed by it in pursuance hereof, if such agent or attorney shall have been selected with reasonable care; or for anything whatever in connection with this trust, except willful misconduct or gross negligence. The Trustee shall not be personally liable for any debts contracted by it, or for damages to persons or property carried or injured, or for salaries or non-fulfillment of contracts during any period wherein the Trustee shall manage the trust property or premises. The Trustee shall not be under any obligation to take any action towards the execution or enforcement of the trusts hereby created, which, in its opinion, shall be likely to involve it in expense or liability, unless one or more of the holders of the bonds hereby secured shall, as often as required by the Trustee, furnish it reasonable indemnity against such expense or liability; nor shall the Trustee be required to take notice of any default hereunder, unless notified in writing of such default by the holders of at least five per cent. in amount of the bonds hereby secured then outstanding, or to take any action in respect of any default unless requested to take action in respect thereof by a writing signed by the holders of not less than twenty-five per cent. in amount of the bonds hereby secured, then outstanding, and tendered reasonable indemnity as aforesaid, anything herein contained to the contrary notwithstanding; but the foregoing provisions of this section are intended only for the protection of the Trustee, and shall not be construed to limit or affect any discretion or power by any provision of this indenture given to the Trustee to determine whether or not it shall take action in respect of any default, or any power or discretion of the Trustee to take action in respect of any default without such notice or request from bondholders. The Trustee shall not be responsible for

Exhibit R-119.

the recording of this indenture and shall not be required to file the same as a chattel mortgage.

The Trustee shall be entitled to reasonable compensation for all services rendered by it in the execution of the trusts hereby created, and the Railroad Company agrees to pay such compensation as well as all expenses necessarily incurred or disbursed by the Trustee hereunder.

Sec. 2. The Trustee, or any Trustees hereafter appointed, may resign, and may be discharged of the trusts created by this denture by giving notice thereof to the Railroad Company and to the bondholders, by publication, at least twice a week, for four successive weeks, in one newspaper at that time published in New York, N. Y.

The Trustee may be removed at any time by an instrument in writing under the hands of the holders of not less than two-thirds in amount of the bonds hereby secured and then outstanding.

Sec. 3. In case at any time said Trustee, The Mercantile Trust Company, or any trustee hereafter appointed, shall resign or shall be removed or otherwise shall become incapable of acting, a successor or successors may be appointed by the holders of a majority in amount of the bonds hereby secured then outstanding, by an instrument or concurrent instruments signed by such bondholders or their attorneys-in-fact duly authorized; provided, nevertheless, and it is hereby agreed and declared that, in case at any time there shall be a vacancy in the office of trustee hereunder, the Railroad Company, by an instrument executed by order of its Board of Directors, may appoint a trustee to fill such vacancy until a new trustee shall be appointed by the bondholders as herein authorized. Thereupon the Railroad Company shall publish notice of such appointment once a week for six successive weeks in a newspaper published in New York, N. Y., but any new trustee so appointed by the Railroad Company shall immediately and without further act be superseded by a trustee appointed in the manner above provided by the holders of a majority in amount of the bonds hereby secured prior to the expiration of one year after such publication of notice. Every such trustee appointed in place of The Mercantile Trust Company, or its successor in the trust, shall always be a trust company in good standing, doing

Exhibit R-119.

business in the City of New York, and having a capital and surplus aggregating at least \$1,000,000, if there be such a trust company willing and able to accept the trust upon reasonable or customary terms.

Any such new trustee appointed hereunder shall execute, acknowledge and deliver to the trustee last in office, and also to the Railroad Company, an instrument accepting such appointment hereunder, and thereupon such new trustee, without any further act, deed or conveyance, shall become vested with all the estates, properties, rights, powers, trusts, duties and obligations of its predecessor in the trust hereunder with like effect as if originally named as trustee herein; but nevertheless, on the written request of the new trustee, the trustee ceasing to act shall execute and deliver an instrument transferring to such new trustee, upon the trusts herein expressed, all the estates, properties, rights, powers and trusts of the trustee so resigning or removed, and shall duly assign, transfer and deliver all stocks, bonds or other property and moneys held by such trustee to the new trustee so appointed in its place; and, upon request of any such new trustee, the Railroad Company shall make, execute, acknowledge and deliver any and all assignments, deeds, conveyances or instruments in writing for more fully and certainly vesting in and confirming to such new trustee all such estates, properties, rights, powers and duties.

ARTICLE NINE.

Section 1. Until some default shall have been made in the due and punctual payment of the interest, or of the principal of the bonds hereby secured, or of some part of such interest or principal, or in the due and punctual performance and observance of some covenant or condition hereof obligatory upon the Railroad Company, and, until such default shall have continued beyond the period of grace, if any, herein provided in respect thereof, or until the Railroad Company voluntarily shall waive any such period of grace (such waiver by the Railroad Company being hereby expressly permitted), the Railroad Company, its successors and assigns, shall be suffered and permitted to retain actual possession of any property, other than certificates for shares of stock, bonds, certificates of indebtedness or other securities, cash or other property

Exhibit R-119.

pledged or to be pledged hereunder with the Trustee, which, hereafter, may be mortgaged to the Trustee pursuant to any provision of this indenture, and to manage, operate and use such property, with the rights and franchises appertaining thereto, and to collect, receive, take, use and enjoy the earnings, income, rents, issues and profits thereof, but not to sell or dispose of the property itself except as expressly in this indenture authorized; and to vote upon or to cause to be voted upon all the shares of stock subject to this indenture except as hereinbefore otherwise expressly provided.

Sec. 2. If, when all the bonds hereby secured shall have become due and payable, the Railroad Company well and truly shall pay, or shall cause to be paid, the whole amount of the principal moneys and interest due upon all of such bonds and coupons for interest thereon then due and unpaid, or shall provide for such payment by depositing with the Trustee hereunder, for the payment of such bonds and coupons, the entire amount then due thereon for principal and interest, and also shall pay, or shall cause to be paid, all other sums payable hereunder by the Railroad Company (including any costs and charges of the Trustee or of the Sinking Fund Trustee then remaining unpaid), and well and truly shall keep and perform all the things herein required to be kept and performed by it according to the true intent and meaning of this indenture, then, and in that case, all property, rights and interests hereby conveyed or pledged shall revert to the Railroad Company and the estate, rights, title and interest of the Trustee shall thereupon cease, determine and become void, and in such case the Trustee, on demand of the Railroad Company, and at its cost and expense, shall execute proper instruments acknowledging satisfaction of and discharging this indenture; otherwise the same shall be, continue and remain in full force and virtue.

ARTICLE TEN.

Section 1. All the covenants, stipulations, promises and agreements in this indenture contained, by or in behalf of the Railroad Company, shall bind its successors and assigns whether or not so expressed.

Sec. 2. Nothing contained in this indenture or in any bond hereby secured, shall prevent any consolidation, or merger of the Railroad Company with any other corporation or any

Exhibit R-119.

conveyance and transfer subject to the continuing lien of this indenture and to all the provisions thereof, of all the mortgaged and pledged premises as an entirety to any other corporation; *provided, however*, that such consolidation, merger or sale shall not impair the lien and security of this indenture, or any of the rights or powers of the Trustee, or of the bondholders hereunder, and that all stock, and the certificates therefor, and all bonds, certificates of indebtedness and other obligations then held by the Trustee shall continue to be held by the Trustee, as though such consolidation, merger or sale had not taken place, and, *provided, further*, that upon such consolidation, merger or sale, the due and punctual payment of the principal and interest of all of the said bonds according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of this indenture, shall be assumed by the corporation formed by such consolidation or merger, or purchasing as aforesaid.

Sec. 3. In case, pursuant to Section 2 of this Article, the Railroad Company shall be consolidated or merged with any other corporation, or shall sell, convey and transfer, subject to this indenture, all the mortgaged and pledged premises as an entirety, as aforesaid, the successor corporation formed by such consolidation, or into which the Railroad Company shall have been merged, or which shall have purchased and received a conveyance and transfer as aforesaid—upon executing, acknowledging and delivering to the Trustee an indenture satisfactory to the Trustee, whereby such successor corporation shall assume the due and punctual payment of the principal and interest of said bonds and the performance of all the covenants and conditions of this indenture—shall succeed to, and shall be substituted for, the Railroad Company, party of the first part hereto, with the same effect as though it had been named herein as such party of the first part; and thereupon such successor corporation may cause to be signed, and may issue, either in its own name or in name of the Railroad Company, any or all of such bonds which theretofore shall not have been signed by the Railroad Company and delivered to the Trustee; and, upon the order of said successor corporation, in lieu of the Railroad Company, and subject to all the terms, conditions and restrictions herein prescribed, the Trustee shall certify and shall deliver any of such bonds, which previously

Exhibit R-119.

shall have been signed and delivered by the officers of the Railroad Company to the Trustee for certification, and any of such bonds which such successor corporation thereafter shall cause to be signed and delivered to the Trustee for that purpose. All the bonds so issued shall, in all respects, have the same legal rank and security as the bonds theretofore or thereafter issued in accordance with the terms of this Indenture, as though all of said bonds had been issued at the date of the execution hereof.

Sec. 4. For every purpose of this indenture, including the execution, issue and use of any and all bonds hereby secured, the words "Railroad Company" include and mean, not only the party of the first part hereto, but also any such successor corporation. Every such successor corporation shall possess, and from time to time may exercise, each and every right and power hereunder of the Railroad Company in its name or otherwise.

Sec. 5. Any act or proceeding, by any provision of this indenture required to be done or performed by any board or officer of the Railroad Company, shall and may be done and performed with like force and effect by the like Board or officer of any corporation that shall at the time be such lawful sole successor of the Railroad Company.

Sec. 6. Nevertheless, before the exercise of the powers conferred by this Article, the Railroad Company, by instrument in writing executed by authority of two-thirds of its Board of Directors and delivered to the Trustee, may surrender any of the powers reserved to the Railroad Company or to such successor corporation under this Article; and thereupon such power so surrendered shall terminate.

The Mercantile Trust Company, Trustee, party hereto of the second part, hereby accepts the trusts in this indenture declared and provided, and agrees to perform the same upon the terms and conditions hereinbefore set forth.

Except when otherwise indicated, the words "the Trustee," or "said Trustee," or any other equivalent term, as used in this indenture shall be held and construed to mean the Trustee or Trustees, for the time being, whether original or successor, and the words "Trustee," "bond," "bondholder," "coupon" and "holder" shall include the plural as well as the singular num-

Exhibit R-119.

ber, and the term "majority" shall signify "majority in amount," whether or not so expressed.

The internal revenue stamps required by law are to be affixed to this indenture from time to time when and as the bonds thereby secured shall be issued.

In witness whereof, **ERIE RAILROAD COMPANY**, the party hereto of the first part, has caused this indenture to be signed by its President, and its corporate seal to be hereunto affixed, and the same to be attested by the signature of its Secretary, and the due execution of these presents to be proved, and **THE MERCANTILE TRUST COMPANY**, the party hereto of the second part, has caused its corporate seal to be hereunto affixed, and the same to be attested by the signature of its Secretary, and the due execution of these presents to be proved, and these presents to be signed by its Vice-President.

ERIE RAILROAD COMPANY

TO

THE STANDARD TRUST COMPANY OF NEW YORK,

TRUSTEE.

Dated April 1, 1903.

STETSON, JENNINGS & RUSSELL,

GENERAL COUNSEL,

15 Broad Street, New York.

Exhibit R-129.

This Indenture. Made this first day of April, in the year one thousand nine hundred and three, between

ERIE RAILROAD COMPANY, a corporation created by and existing under the laws of the State of New York, hereinafter called the "Railroad Company," party of the first part, and

THE STANDARD TRUST COMPANY OF NEW YORK, a corporation created by and existing under the laws of the State of New York, hereinafter called the "Trustee," party of the second part.

WHEREAS, At the 43rd meeting of the Board of Directors of the Railroad Company, duly held, pursuant to due notice, at the office of the Company, in the City of New York, on the 11th day of February, 1903, a quorum being present, resolutions were duly adopted, including the following, that is to say:

Whereas, Upon the report of the President this day made, the Board of Directors of the Erie Railroad Company has determined that it is desirable now to make comprehensive provision for the progressive improvement of the line and terminals of its railroad, during a series of years, to an extent involving the probable expenditure of \$50,000,000 for such purpose and for the acquisition of equipment and the funding or consolidating of existing obligations, which sum can best be provided through an issue of Four Per Cent. Convertible Fifty Year Bonds, such bonds to be dated April 1, 1903, and to be convertible into the common stock of the Company (stock trust certificates), at a price not less than the market value thereof at the date when the stockholders of the company shall have given their consent to such bonds; such bonds to be issued either in a single series or in successive series, and such price of conversion to be fixed from time to time by the Board of Directors when authorizing the issue of the several series, and to be specified in every bond of the several series when and as issued;

Now therefore be it

Resolved, That for the purpose of completing and finishing or operating and improving its railroad, or for any other of its lawful purposes, including the acquisition of equipment or the funding or consolidation of existing obligations, the Erie Railroad Company do borrow the sum of \$50,000,000, and do issue and dispose of its bonds for such amount so borrowed, and do mortgage its property and franchises to secure the payment of the said bonds; and, accordingly, that the President or any Vice-President, and the Secretary or any Assistant Secretary, of the Erie Railroad Company, be, and hereby they are, authorized to execute and to issue and deliver bonds of the Erie Railroad Company for the aggregate principle sum of \$50,000,000 dated

Exhibit R-120.

April 1, 1903, and payable April 1, 1953, with interest thereon at the rate of four per cent. per annum, payable semi-annually on the first day of April and the first day of October in each and every year until the principal shall be fully paid; both the principal and the interest to be payable in gold coin of the United States of the present standard of weight and fineness, at the office or agency of the Erie Railroad Company in the City of New York, without deduction for any tax or taxes which the Railroad Company or the trustee may be required to pay or to retain therefrom, under or by reason of any present or future law of the United States or of any State, County or municipality therein; such bonds to be coupon bonds each for the principal sum of \$1,000, giving to the holder the right to register the principal thereof and the right to convert the same into registered bonds without coupons; and also registered bonds without coupons, each for the principal sum of \$500, of \$1,000, or of such multiples of \$1,000 as from time to time may be prescribed by the Railroad Company by resolution of its Board of Directors; the bonds to be substantially in the form now submitted to this meeting, of which copies are annexed to the minutes thereof; interim or temporary bonds to be issued and to be exchangeable for permanent bonds pursuant to like resolution.

Resolved. That at any time after April 1, 1905, and before April 1, 1915, the holder of any such bonds shall have the right to convert the principal thereof at par into common stock (stock trust certificates) of the Erie Railroad Company at a price not less than the market value thereof at the date when the stockholders of this Company shall have given their consent to such bonds; such bonds to be issued either in a single series, or in successive series, and such prices of conversion to be fixed from time to time by the Board of Directors when authorizing the issue of the several series, and to be specified in every bond of the several series when and as issued.

Resolved. That the President or any Vice-President, and the Secretary or any Assistant Secretary, of the Erie Railroad Company, be, and hereby they are, authorized in the name and behalf of the Erie Railroad Company, and under its corporate seal, to execute and acknowledge, and to deliver to The Standard Trust Company of New York, a corporation of the State of New York, as Trustee, a mortgage or deed of trust to be dated April 1, 1903, mortgaging and pledging any and all of the railroads, franchises, income and property, now owned or hereafter acquired by the Erie Railroad Company, as security for the said issue of bonds for the aggregate principal sum not exceeding \$50,000,000, authorized by the foregoing resolutions; such mortgage or deed of trust to be in form generally similar to the First Consolidated Mortgage or Deed of Trust of the Erie Railroad Company dated December 10, 1895, and to be prepared and approved by the General Counsel of this Company.

Exhibit R-120.

Resolved, That the coupons attached to the said coupon bonds to be issued under these resolutions, may be authenticated by the engraved fac-simile signature of the present Treasurer, or of any future Treasurer of the Erie Railroad Company, it being hereby intended that the Railroad Company may adopt, and may use for that purpose, the engraved signature of any person who shall have been such Treasurer, notwithstanding the fact that he may have ceased to be such Treasurer, at the time when such bonds shall actually be certified and delivered.

Resolved, That the first \$10,000,000 bonds of such \$50,000,000 bonds shall be convertible at par into common stock at \$50 per share, and from time to time, when and as it shall become necessary for the conversion of any of said \$50,000,000 bonds the common stock be increased to the required amount, and that whenever so requested by the Voting Trustees such increased stock be issued to them in exchange for such bonds, that they may issue their common stock trust certificates in respect thereof.

Resolved, That the President or any Vice-President and the Secretary or any Assistant Secretary be, and hereby they are, authorized, in behalf of the Erie Railroad Company, to take all such action as from time to time may become necessary or proper to carry these resolutions into effect.

Resolved, That the execution and delivery of the bonds hereby authorized, and of the mortgage or deed of trust securing the same, shall take place when and not before consent thereto shall have given by stockholders owning at least two-thirds of the stock of the Erie Railroad Company, which consent shall be given and certified, and shall be filed and recorded in the office of the Clerk or Register of the County of New York, as provided in Section 2 of the Stock Corporation Law, and consent to such mortgage shall have been given also by the Board of Railroad Commissioners.

AND WHEREAS, Prior to the execution and delivery of the bonds and of the mortgage or deed of trust securing the same, as authorized by the said resolutions, consent in due form to the execution and issue of such convertible bonds conferring upon the holder thereof the right to convert the principal thereof into common stock (stock trust certificates) of the Erie Railroad Company as therein provided, was duly given upon February 11, 1903, by stockholders owning at least two-thirds of the stock of the Erie Railroad Company, which consent, prior to the execution and delivery of this indenture and of the bonds therein mentioned, as thus duly given and certified, was duly filed and recorded in the office of the Clerk or Register of the County of New York as provided in Section 2 of the Stock Cor-

Exhibit R-120.

poration Law, and consent to the execution of such mortgage has been duly given or authorized by stockholders, and has been duly given also by the Board of Railroad Commissioners of the State of New York; and

WHEREAS, At the 44th meeting of the Board of Directors of the Erie Railroad Company held upon the 21st day of April, 1903, the draft of a mortgage or deed of trust of the form and tenor and date of this indenture, was submitted and read, and resolutions authorizing the execution and delivery thereof were duly and unanimously adopted by said Board; and

WHEREAS, The bonds to be secured by this indenture may be issued in series, and are to be coupon bonds of the denomination of \$1,000, numbered consecutively from 1 upwards, giving to the holder the right to register the principal thereof and the right to convert the same into registered bonds without coupons; and also registered bonds without coupons, each for the principal sum of \$500, or of \$1,000, or of such multiples of \$1,000 as from time to time may be prescribed by the Railroad Company by resolution of its Board of Directors; every series of such bonds to have a distinctive serial letter and every such bond to bear a distinctive number or designation; and all such bonds from time to time, as directed by the Board of Directors of the Railroad Company, to be executed in the name and behalf of the corporation and under its corporate seal, by the President or any Vice-President, and by the Secretary or any Assistant Secretary, of the Railroad Company, and to be substantially of the following tenor—the letter of the series, the number of the bond, the rate at which shares of common stock will be issued in conversion of the bond, and the principal sum of each registered bond without coupons, and the date from which interest thereon is to accrue, having been inserted in the respective blanks therefor:

Exhibit R-120.

[FORM OF COUPON FOUR PER CENT. GOLD BOND.]

No.

SERIES

\$1,000

UNITED STATES OF AMERICA.

ERIE RAILROAD COMPANY.

4% CONVERTIBLE 50-YEAR COUPON GOLD BOND.

KNOW ALL MEN BY THESE PRESENTS, That the Erie Railroad Company, a corporation, hereinafter called the "Railroad Company," for value received, promises to pay to the bearer, or, if registered, to the registered holder of this bond, one thousand dollars in Gold Coin of the United States of America, on the first day of April, 1953, at the office or agency of the Railroad Company in the City of New York, N. Y., and to pay interest thereon at the rate of four per cent. per annum from April 1, 1903, payable semi-annually at the said office or agency, in like Gold Coin, on the first day of April and the first day of October in each and every year until the payment of said principal sum, but only upon presentation and surrender, as severally they shall mature, of the coupons therefor annexed hereto; such United States Gold Coin in every case to be of the standard of weight and fineness as it existed April 1, 1903.

Both the principal and the interest of this bond are payable without deduction for any tax or taxes which the Railroad Company or the Trustee may be required to pay or to retain therefrom, under any present or future law of the United States, or of any State or County or municipality therein.

This bond is one of a series of Four Per Cent. Convertible 50-year Gold Bonds (coupon and registered) of the Railroad Company, issued and to be issued, for an aggregate principal sum not exceeding Fifty Million Dollars at any one time outstanding, under and in pursuance of, and all equally secured by, a mortgage or deed of trust dated April 1, 1903, duly executed by the Railroad Company to The Standard Trust Company of New York, as Trustee, of the property and franchises mentioned in said mortgage or deed of trust, to which reference hereby is made for a description of the property and franchises mortgaged and pledged, the nature and extent of the security, the rights of the holders of said bonds under the same, and the terms and conditions upon which said bonds are secured and are to be used; the officers, directors and stockholders of the Railroad Company being expressly exempted, relieved and absolved from any and all personal liability in respect of said bonds, all such liability being hereby expressly waived.

This bond shall pass by delivery, unless registered in the owner's name on the books of the Railroad Company, at its office or agency in the City of New York, such registry being

Exhibit R-120.

noted on the bond by the Bond Registrar of the Railroad Company. After such registration, no transfer shall be valid unless made on the Railroad Company's books by the registered owner, and similarly noted on the bond; but the same may be discharged from registry by being transferred to bearer, and thereafter transferability by delivery shall be restored, but this bond may again from time to time be registered or transferred to bearer as before. Such registration, however, shall not affect the negotiability of the coupons, which shall continue to be transferable by delivery merely.

The holder, also, at his option, may surrender for cancellation this bond with the coupons for future interest thereon, in exchange for a registered bond without coupons, as provided in said Indenture.

As duly authorized by the consent of stockholders, the Board of Directors has conferred upon the holder of this bond the right to convert the principal thereof at par at any time after April 1, 1905, and before April 1, 1915, into the fully paid common stock of the Erie Railroad Company of the par value of \$100, at the price of \$ for each and every share; and if such common stock shall not be sufficient to meet the conversion when made, the Board of Directors will authorize an increase sufficient for that purpose. Accordingly this bond is convertible, at the option of the holder thereof, at any time after April 1, 1905, and prior to April 1, 1915, as provided in said mortgage or deed of trust, into shares of the common capital stock of the Railroad Company as such stock shall be constituted at the time of such conversion, with an adjustment of current or accrued interest and dividends as between this bond and the stock into which the same may be converted, with the right on the part of the Railroad Company during the continuance of the Voting Trust Agreement of January 1, 1896, in said indenture described, to deliver in lieu of certificates of common stock, voting trust certificates therefor.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate, hereon endorsed, of the Trustee under said Indenture.

IN WITNESS WHEREOF, the Erie Railroad Company has caused these presents to be signed by its President or one of its Vice-Presidents, and its corporate seal to be hereunto affixed, and to be attested by its Secretary or an Assistant Secretary, and coupons for such interest, with the engraved fac-simile signature of its Treasurer, to be attached hereto, this first day of April, 1903.

ERIE RAILROAD COMPANY,

Exhibit R-120.

[FORM OF REGISTERED FOUR PER CENT. GOLD BOND.]

No.

SERIES

§

UNITED STATES OF AMERICA.

ERIE RAILROAD COMPANY.

4% CONVERTIBLE 50-YEAR REGISTERED GOLD BOND.

KNOW ALL MEN BY THESE PRESENTS, That the Erie Railroad Company, a corporation, hereinafter called the "Railroad Company," for value received, promises to pay to or assigns _____ dollars, in the Gold Coin of the United States of America, on the first day of April, 1953, at the office or agency of the Railroad Company in the City of New York, N. Y., and to pay interest thereon from the first day of _____, 19____, at the rate of four per cent. per annum, payable semi-annually at said office or agency, in like Gold Coin, on the first day of April and the first day of October in each and every year until the payment of said principal sum; such United States Gold Coin in every case to be of the standard of weight and fineness as it existed April 1, 1903.

Both the principal and the interest of this bond are payable without deduction for any tax or taxes which the Railroad Company or the Trustee may be required to pay or to retain therefrom, under any present or future law of the United States, or of any State or County or municipality therein.

This bond is one of a series of Four Per Cent. Convertible 50-year Gold Bonds (coupon and registered) of the Railroad Company, issued and to be issued, for an aggregate principal sum not exceeding Fifty Million Dollars at any one time outstanding, under and in pursuance of, and all equally secured by, a mortgage or deed or trust dated April 1, 1903, duly executed by the Railroad Company to The Standard Trust Company of New York, as Trustee, of the property and franchises mentioned in said mortgage or deed of trust, to which reference hereby is made for a description of the property and franchises mortgaged and pledged, the nature and extent of the security, the rights of the holders of said bonds under the same, and the terms and conditions upon which said bonds are secured and are to be used; the officers, directors and stockholders of the Railroad Company being expressly exempted, relieved and absolved from any and all personal liability in respect of said bonds, all such liability being hereby expressly waived.

This bond is transferable by the registered holder hereof, in person or by attorney duly authorized, on the books of the Railroad Company, at its office or agency in the City of New York, upon surrender and cancellation of this bond; and there-

Exhibit R-120.

upon a new registered bond will be issued to the transferee in exchange therefor, as provided in said Indenture, and on payment, if the Railroad Company shall so require, of the charge therein provided for. This bond, also, in the manner prescribed in said Indenture, and upon payment of the charge therein provided for, is exchangeable for coupon bonds for the same aggregate principal sum.

As duly authorized by the consent of stockholders, the Board of Directors has conferred upon the holder of this bond, the right to convert the principal thereof at par at any time after April 1, 1905, and before April 1, 1915, into the fully paid common stock of the Erie Railroad Company of the par value of \$100, at the price of \$ for each and every share; and if such common stock shall not be sufficient to meet the conversion when made, the Board of Directors will authorize an increase sufficient for that purpose. Accordingly this bond is convertible, at the option of the holder hereof, at any time after April 1, 1905, and prior to April 1, 1915, as provided in said mortgage or deed of trust, into shares of the common capital stock of the Railroad Company as such stock shall be constituted at the time of such conversion, with an adjustment of current or accrued interest and dividends as between this bond and the stock into which the same may be converted, with the right on the part of the Railroad Company, during the continuance of the Voting Trust Agreement of January 1, 1896, in said indenture described, to deliver in lieu of certificates of common stock, voting trust certificates therefor.

This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate, hereon endorsed, of the Trustee under said Indenture.

IN WITNESS WHEREOF, the Erie Railroad Company has caused these presents to be signed by its President or one of its Vice-Presidents, and its corporate seal to be hereunto affixed, and to be attested by its Secretary or an Assistant Secretary, this first day of April, 1903.

ERIE RAILROAD COMPANY,

[L. s.]

By

President.

Attest:

Secretary.

AND WHEREAS, There are to be attached to the said coupon bonds, at the time of the issue thereof, coupons representing the semi-annual installments of interest which are to become due thereon, each of which coupons is to be substantially of the following tenor, to wit:

Exhibit R-120.

[FORM OF INTEREST COUPON, OF WHICH THE FIRST IS TO BE PAY-
ABLE OCTOBER 1, 1903.]

No. \$20.00

On the first day of Erie Railroad
Company will pay to bearer, at its office or agency in the City
of New York, N. Y., Twenty Dollars, United States Gold Coin
of the standard existing April 1, 1903, without deduction for
taxes, being six months' interest then due on its Four Per Cent.
Convertible 50-Year Gold Bonds, series , No. , subject to
the terms and conditions stated in said bond and in the inden-
ture dated April 1, 1903, therein mentioned.

Treasurer.

AND WHEREAS, On each of said coupon bonds, and on each
of said registered bonds without coupons, there is to be endorsed
a certificate of the Trustee, or its successor appointed hereunder,
that it is one of a series of bonds described in this indenture, and
no bond shall be secured by this indenture or shall be obligatory
for any purpose unless such certificate shall have been executed
by the said Trustee or its successor appointed hereunder; said
certificate to be substantially of the following tenor, to wit:

This bond is one of a series of bonds described in the within
mentioned Indenture.

THE STANDARD TRUST COMPANY OF NEW YORK,

Trustee.

By

AND WHEREAS, Each of the coupons to be attached to said
coupon bonds is to be authenticated by the engraved fac-simile
signature of the present Treasurer or of any future Treasurer
of the Railroad Company, and the Railroad Company may adopt
and may use for that purpose the engraved fac-simile signature
of any person who shall have been such Treasurer, notwith-
standing the fact that he may have ceased to be such Treasurer
at the time when any such coupon bond shall be actually certi-
fied and delivered, and such coupons shall be attached to the
bond; and

Exhibit R-120.

WHEREAS, This indenture is of the tenor of the draft thereof submitted to and duly approved by the Railroad Company; and

WHEREAS, All acts and things prescribed by law and by the by-laws of the Railroad Company have been duly complied with, and the Railroad Company has executed this indenture, and proposes to issue the bonds hereby secured, in the exercise of each and every legal right and power in it vested:

Now, Therefore, This Indenture Witnesseth:

That in consideration of the premises and of the purchase and acceptance of such bonds by the holders thereof, and of the sum of one dollar to it duly paid by the Trustee at or before the encasing and delivery of these presents, the receipt whereof is hereby acknowledged, and in order to secure the payment of the principal and interest of all such bonds at any time issued and outstanding under this indenture, according to their tenor and effect, and the performance of all the covenants and conditions herein contained, and to declare the terms and conditions upon which such bonds shall be issued and received:

THE RAILROAD COMPANY, party of the first part hereto, has executed and delivered these presents, and has granted, bargained, sold, aliened, remised, released, conveyed, confirmed, assigned, transferred and set over, and by these presents does grant, bargain, sell, alien, remise, release, convey, confirm, assign, transfer and set over, unto

THE TRUSTEE, party of the second part, its successors and assigns forever:

ALL THE ESTATE, RIGHT, TITLE, INTEREST AND PROPERTY NOW belonging to the Railroad Company, or that hereafter may be acquired by the Railroad Company, of, in and to

ALL AND SINGULAR the railway of the Railroad Company, from and including Piermont, on the Hudson River, in the State of New York, to and including the terminus of the said railway on Lake Erie at or near Dunkirk, in said State, and the railway known at the Newburgh Branch, from Newburgh to the main line, and also all that part of the railway designated as the Buffalo Branch of the Erie Railway extending from Hornellsville to Attica, in the State of New York, also that part of the railway known as the Newburgh and New York Railroad, extending from Turners on the main line to Vail's Gate on the Newburgh branch; also the railway formerly belonging to the

Exhibit R-120.

Lockport and Buffalo Railroad Company and extending from Lockport to North Tonawanda (subject to the lease thereof to the International Railway Company), both in the State of New York; also the railway formerly belonging to the Erie International Railway Company, and extending from a point of connection with the road formerly known as the Suspension Bridge and Erie Junction Railroad in Erie County, to International Bridge in Erie County, both in the State of New York; also the railway formerly known as the Suspension Bridge and Erie Junction Railroad, extending from East Buffalo, in Erie County, to Suspension Bridge, in Niagara County, with the passenger branch extending from the main line near Eleventh Street, in the City of Niagara Falls, Niagara County, to the passenger station at the corner of Fourth and Niagara Streets, in said city, all in the State of New York; also the railway formerly known as the Buffalo, New York and Erie Railroad, extending from Painted Post, Steuben County, to the City of Buffalo, Erie County, both in the State of New York; also all the railroad formerly of the Buffalo and Southwestern Railroad Company, extending from Jamestown, in Chautauqua County, to Buffalo, in Erie County, both in the State of New York; and also all other railways now belonging to the Railroad Company in the States of New York, Pennsylvania and New Jersey, or any of them;

Also all the estate, right, title and interest, terms and remainder of terms, franchises, privileges and rights of action of whatsoever name or nature in law or in equity, conveyed or assigned to the New York and Erie Railroad Company, or to the Erie Railway Company, or to the New York, Lake Erie and Western Railroad Company, or to the Erie Railroad Company, by the Union Railroad Company, a corporation existing under the laws of the State of New York; by the Bergen County Railroad Company, a corporation existing under the laws of the State of New Jersey; by the Buffalo, Bradford and Pittsburg Railroad Company, a corporation existing under the laws of the States of New York and Pennsylvania; by the Rochester and Genesee Valley Railroad Company, a corporation existing under the laws of the State of New York; by the Long Dock Company, a corporation existing under the laws of the State of New Jersey; by the Goshen and Deckertown Railroad Company, a corporation existing under the laws of the State of New York; by

Exhibit R-120.

the Hoboken Land and Improvement Company, a corporation existing under the laws of the State of New Jersey, by the New York and Fort Lee Railroad Company, a corporation existing under the laws of the State of New Jersey, and the New Jersey Junction Railroad Company, a corporation existing under the laws of the State of New Jersey; by the Jefferson Railroad Company, a corporation existing under the laws of the State of Pennsylvania; by the Montgomery and Erie Railroad Company, a corporation existing under the laws of the State of New York; by the New York, Lake Erie and Western Docks and Improvement Company, a corporation existing under the laws of the State of New Jersey; by the Middletown and Crawford Railroad Company, a corporation existing under the laws of the State of New York; by the New York, Lake Erie and Western Coal and Railroad Company, a corporation existing under the laws of the State of Pennsylvania; by the Northern Railroad Company of New Jersey, a corporation existing under the laws of the State of New Jersey; by the New York and Greenwood Lake Railway Company, a corporation existing under the laws of the State of New Jersey; by the Avon, Genesee and Mount Morris Railroad Company, a corporation existing under the laws of the State of New York; by the Tioga Railroad Company, a corporation existing under the laws of the State of Pennsylvania; or by the Newark and Hudson Railroad Company, a corporation existing under the laws of the State of New Jersey.

AND ALSO all the estate, right, title and interest of the Railroad Company in and to certain real estate situate in Hudson County, in the State of New Jersey, known as the Penhorn property; and also in and to a certain parcel of land lying west of the Bergen Tunnel, in Hudson County, State of New Jersey, known as the Laundry property; and also in and to all other real estate of the Railroad Company, situate in the State of New Jersey, of every kind and description, and wherever in the said State the same may be situate.

AND ALSO all the estate, right title and interest of the Railroad Company of, in and to certain piers, bulkheads and water fronts in the said City of New York—that is to say: Piers 20 and 21, North River, with slips and appurtenances; also 260 feet of bulkhead extending northerly from the northerly line of Pier 19, with certain wharf surface, together with ferry near foot of Chambers Street, and rights and franchises appurtenant

Exhibit R-120.

thereto; also bulkhead, slip and ferry at the foot of West Twenty-third street, and that portion of the bulkhead between Twenty-second and Twenty-third streets abutting on the ferry; together with ferry rights and franchises appurtenant thereto; also pier at foot of West Forty-ninth Street, and slips in connection therewith, together with certain water front south of the pier, and also Pier 7, East River, and slips connected therewith and appurtenant thereto.

AND ALSO all tracts of land or interest therein of the Railroad Company lying and being in the following states and counties—namely, counties of Rockland, Orange, Sullivan, Delaware, Broome, Tioga, Chemung, Steuben, Alleghany, Livingston, Wyoming, Genesee, Erie, Niagara, Cattaraugus, Chautauqua and Monroe, in the State of New York; counties of Hudson, Essex, Bergen and Passaic in the State of New Jersey, counties of Susquehanna, Jefferson, Elk, Pike, McKean, Wayne and Lackawanna, in the State of Pennsylvania.

ALSO all and singular the railroad, property and franchises of The Nypano Railroad Company demised and leased to the Erie Railroad Company by the Indenture made the 17th day of March, 1896, by and between said The Nypano Railroad Company, a corporation of the States of Ohio and Pennsylvania, as party of the first part thereto, and the Erie Railroad Company, as party of the second part thereto, and all rights of the Erie Railroad Company of every name and nature in and to such railroad, property and franchises leased as aforesaid; *subject, however*, to the conditions, reservations and provisos set forth in a certain indenture of pledge, dated July 6, 1896, by the Erie Railroad Company to The Farmers' Loan and Trust Company, as trustee, wherein the said leasehold estate and interest was assigned to the said trustee as security under the First Consolidated Mortgage Deed, dated December 10, 1895, made by the Erie Railroad Company to said The Farmers' Loan and Trust Company; and also any and all other right, title and interest of every name and nature now possessed or hereafter acquired by the Railroad Company in or to the property, railroad and franchises of said The Nypano Railroad Company, or of any branch, extension or leased or operated line thereof, or in or to any stocks, bonds or other obligations of said The Nypano Railroad Company, or of any successor company or

Exhibit R-129.

companies, subject to the terms upon which any such acquisition may have been made.

Also all the right, title, estate, interest and property of the Railroad Company, of, in and to any and all other lines of railway, extensions and branches, now owned, leased or held by the Railroad Company or in which it has any interest whatever (excepting its leasehold interest in the Buffalo Creek Railroad, and excepting also all shares of capital stock not herein expressly described and made subject hereto), wherever located, including the franchises appurtenant thereto, notwithstanding the same may not be particularly set forth or described in this indenture.

Also all the estate, right, title, interest and property of the Railroad Company of, in and to any and all lines of railway, extensions and branches, including the franchises appurtenant thereto, and any and all ferry-houses, ferry-boats, shops, depots, terminal properties, rolling stock and other equipment, and other acquisitions, additions, improvements and betterments, and any and all bonds, stocks and other property of every kind or description (notwithstanding that the same are not now particularly set forth in this indenture), which, from time to time, in the manner hereinafter provided, shall be purchased, acquired, or constructed by the use of any of the bonds secured by this indenture.

Including in the railroads, franchises and properties subject to this indenture, any and all roadbed, superstructure, rights of way, rails, tracks, sidetracks, bridges, viaducts, buildings, depots, stations, warehouses, car-houses, engine-houses, freight-houses, machine shops and other shops, turn-tables, water-stations, fences, docks, structures, erections and fixtures, and all other things of whatever kind in anywise or at any time belonging or appertaining to any and every line of railway at any time subject to this indenture, or to any branch thereof, or provided for use thereon, or in connection therewith; and any and all lands designed for depots, warehouses or other structures at any terminus, or on or along such lines of railway, or upon or along any such branch; and any and all locomotives, engines, cars and other rolling stock, equipment, machinery, instruments, tools, implements, materials, furniture and other chattels now or hereafter acquired or provided for use upon such lines of railway or branches, or upon any other line or

Exhibit R-120.

branch; and any and all property, real or personal, of every kind and description, now or hereafter acquired for use upon, or in connection with, or for the purpose of, such lines of railway, or any such branch; and any and all corporate rights, privileges and franchises which the Railroad Company now has, or hereafter can or shall acquire, possess or exercise in, to, upon, or in any respect of such lines of railway or branches or any part thereof, necessary for, or appertaining to, the construction, maintenance or operation of such lines of railway or any such branch, or any part thereof; and any and all the rents, issue, profits, tolls and other income of such lines of railway, and of any and all branches; and also any and all the rights, privileges, franchises, properties, real or personal, rights and things, which the Railroad Company may or shall hereafter possess, or become entitled to possess, for the purposes of or in connection with, such lines of railway or any such branch.

TOGETHER with all and singular the franchises, rights and privileges now or hereafter appurtenant to or used in connection with the lines of railway above mentioned or any branch thereof.

ALSO ALL THE RIGHT, TITLE AND INTEREST of the Railroad Company in and to the following shares of stock heretofore transferred to, and now held by, The Farmers' Loan and Trust Company, as Trustee under the said First Consolidated Mortgage Deed, dated December 10, 1895:

Exhibit R-120.

Also all the right, title and interest of the Railroad Company in and to the following bonds, heretofore delivered to and now held by the said Trustee under the said First Consolidated Mortgage Deed dated December 10, 1895:

\$580,000 bonds of the Buffalo, Bradford and Pittsburgh Railroad Company, secured by its mortgage dated January 1st, 1865, to Dorman B. Eaton, as Trustee.

\$57,200 bonds of the Middletown and Crawford Railroad Company, secured by its mortgage dated April 1st, 1871, to Jonathan M. Matthews, Ambrose S. Murray and Alexander Crawford, as Trustees.

\$250,000 bonds of the Newark and Hudson Railroad Company, secured by its mortgage dated September 20th, 1871, to H. N. Otis, as Trustee.

Exhibit R-120.

\$499,000 bonds of the Paterson, Newark and New York Railroad Company, secured by its mortgage dated January 1st, 1868, to W. C. Rushmore and C. Walsh, as Trustees.

\$604,000 bonds of the New York, Lake Erie and Western Docks and Improvement Company, secured by its mortgage dated June 1st, 1883, to The Farmers' Loan and Trust Company, as Trustee, as modified by the supplemental contract dated February 8, 1890.

\$1,900,000 bonds of the New York, Lake Erie and Western Coal and Railroad Company, secured by its mortgage dated May 15th, 1882, to the Metropolitan Trust Company of the City of New York and J. Lowber Welsh, of the City of Philadelphia, as Trustees.

\$1,000,000 bonds of the Suspension Bridge and Erie Junction Railroad Company, secured by its mortgage, dated June 1st, 1870, to Horatio N. Otis, as Trustee.

\$9,899,000 Income bonds of the Chicago and Erie Railroad Company, secured by its mortgage dated August 21st, 1890, to New York Security and Trust Company and John B. Elam, as Trustees.

\$125,000 bonds of the Tioga Railroad Company, secured by its mortgage dated November 1, 1876, to Myron P. Bush, as Trustee.

\$140,000 bonds of the Lockport and Buffalo Railroad Company, secured by its mortgage dated October 1, 1877, to Mathias H. Arnot, as Trustee.

\$20,000,000 bonds of The Nypano Railroad Company, secured by its mortgage dated March 17, 1896, to The Farmers' Loan and Trust Company, as Trustee.

ALSO all the right, title and interest of the Railroad Company in and to shares of stock of the following corporations, for which the certificates have been delivered to and are now held by The Mercantile Trust Company, as Trustee under the Pennsylvania Collateral Indenture of the Railroad Company dated February 1, 1901, viz.: The Pennsylvania Coal Company, the Erie and Wyoming Valley Railroad Company, the Delaware Valley and Kingston Railroad Company, and fifty-one per cent. of the capital stock of the New York, Susquehanna and Western Railroad Company.

ALSO the right, title and interest of the Railroad Company in and to sixty shares, of the aggregate par value of \$6,000, of the capital stock of the Penhorn Creek Railroad Company, being all the outstanding capital stock of said corporation.

But nothing in this indenture is intended or shall be construed to prevent or limit the powers in respect of any bonds

Exhibit R-120.

and stocks, subject to this indenture conferred upon the Trustee under said First Consolidated Mortgage Deed dated December 10, 1895, or upon the Trustee under the said Indenture dated February 1, 1901.

Also all property of every name and nature, from time to time hereafter, by delivery or by writing of any kind, for the purposes hereof, pledged, assigned or transferred by the Railroad Company or any one in its behalf to the Trustee, which hereby is authorized to receive any property at any and all times, as and for additional security, and also, when and as hereinafter provided, as substituted security, for the payment of the bonds issued or to be issued hereunder, and to hold and apply any and all such property according to the terms hereof.

It being intended to include within the grant of this indenture all the right, title and interest of the Railroad Company of, in and to all lines of railway, extensions, branches, real estate and railroad property, and all stocks and bonds and other securities now or hereafter described or embraced, in the two several indentures heretofore executed and delivered by the Railroad Company, viz.: (1) The First Consolidated Mortgage Deed to the Farmers' Loan and Trust Company, as Trustee, dated December 10, 1895, and (2) the Pennsylvania Collateral Indenture to The Mercantile Trust Company, as Trustee, dated February 1, 1901; and of, in and to the properties severally and respectively mentioned in and subject to the lien of said several indentures; and also all the right, title and interest of the Railroad Company of, in and to any and all other property herein conveyed, or agreed to be conveyed, to the Trustee hereunder.

To have and to hold, the premises, railroads, properties, real or personal, rights, franchises, estates, appurtenances, stocks and bonds hereby conveyed and assigned, or intended to be conveyed or assigned, unto the Trustee, its successor or successors and assigns, forever:

Subject, however, to the two indentures last above mentioned, and to the existing liens of the several mortgages or charges underlying either of the said indentures, and to all other existing liens and charges, upon and against the railroads, properties and franchises, and stocks, bonds and other obligations, hereby or in and by said indentures, mortgages or charges.

Exhibit R-120.

severally and respectively, conveyed, assigned, mortgaged or pledged, or so intended to be:

But in trust, nevertheless, for the equal, proper and proportionate benefit and security, severally and respectively, of all and every the present and future holders of any and every bond and interest obligation issued under and secured by this indenture, as well all those now issued as all hereafter issued in addition thereto or by way of substitution or exchange, in accordance with the terms of this indenture, and for enforcing the payment thereof when payable, in accordance with the true intent and meaning of the stipulations of this indenture and of the said bonds and interest obligations respectively, without preference, priority or distinction, as to lien or otherwise, of any one bond over any other bond, by reason of priority in the execution, delivery or negotiation thereof, and so that each and every bond, issued and to be issued as aforesaid, shall have, under and by this indenture, the same right, lien and privilege as every other bond of the issue; and so that the principal and interest of every such bond shall, subject to the terms hereof, be secured hereby equally and proportionately with every other bond, as though all had been made, executed, delivered and negotiated simultaneously with the execution and delivery of this indenture; it being intended that the lien and security of all such bonds shall take effect from the day of the date of this indenture, without regard to the date of actual issue, sale or disposition thereof; and so that the lien and security of this indenture, and of all bonds issued hereunder, shall take effect from the day of the date hereof, as though upon such day all such bonds shall have been actually issued, sold and delivered to, and in the hands of, innocent holders for value.

And it is hereby expressly covenanted, that all such bonds, and the coupons for interest thereon, are to be issued, certified, delivered, received and negotiated, and that the mortgaged and pledged properties and franchises are to be held by the Trustee, subject to the following further covenants, conditions and provisions, viz.:

ARTICLE ONE.

SECTION 1. From time to time the bonds to be secured hereby shall be executed by the Railroad Company and by it shall be delivered for certification to the Trustee; and thereupon as provided in this Article, and not otherwise, the Trustee shall certify and shall deliver the same. At the option of the Railroad Company, from time to time, any of such bonds may be executed, certified and delivered originally either as coupon bonds or as registered bonds.

The amount of bonds hereby secured which may be executed by the Railroad Company, and which may be certified by the Trustee, is limited so that never at any time shall there be outstanding bonds hereby secured for an aggregate principal sum exceeding **\$50,000,000**. All of such bonds shall be dated April 1, 1903; but in no instance shall the interest upon any such bond begin to accrue from a date earlier than the first day of April or the first day of October, as the case may be, next preceding the day of the certification thereof. The Trustee shall not certify or deliver any coupon bond hereby secured, until all coupons thereof then matured shall have been detached and shall have been canceled. The Trustee shall not certify or deliver any registered bond without coupons until there shall have been inserted therein the date from which interest is to accrue, which date shall be the first day of April or the first day of October, as the case may be, next preceding the day of the certification thereof, except as provided in Section 6 of this Article One.

Only such of said bonds as shall bear thereon a certificate substantially in the form hereinbefore recited, duly executed by the Trustee, shall be secured by this indenture, or shall be entitled to any lien or benefit hereunder. No such bond nor any coupon thereunto attached shall be valid for any purpose until such certificate shall have been duly endorsed on such bond. Every such certificate of the Trustee upon any bond executed by the Railroad Company shall be the conclusive and the only evidence that the bond so certified was duly issued hereunder, and is entitled to the benefit of the trust hereby created.

On request of the Railroad Company, but within the limitations hereinafter prescribed, bonds shall be certified and be delivered hereunder in advance of registration or recording of this

Exhibit R-120.

indenture; but the Railroad Company with all convenient speed shall cause this indenture to be recorded as a mortgage upon railways.

Whenever, from time to time, any bonds certified by the Trustee, shall be deliverable by it according to the terms of this indenture (excepting the \$10,000,000 bonds, for the immediate delivery whereof provision is hereinafter made in Section 2 of this Article), such bonds shall be delivered by the Trustee as may be directed by resolution of the Board of Directors of the Railroad Company or of the Executive Committee thereof. A copy of any such resolution, certified by the Secretary under the corporate seal, shall be full authority to the Trustee for the certification and delivery of such bonds.

SEC. 2. Of the bonds authorized to be issued under and secured by this indenture, bonds for the aggregate principal sum of ten million dollars (**\$10,000,000**), convertible at par into common stock of the Railroad Company at fifty per cent. of the par value of such stock, shall be executed by the Railroad Company and be delivered to the Trustee for certification, and as soon as may be after the execution of this indenture, and without any further action on the part of the Railroad Company, shall by the Trustee be certified and be delivered to the Railroad Company from time to time upon the written order of the Railroad Company signed by its President and its Treasurer under the corporate seal.

SEC. 3. The remaining forty million dollars (**\$40,000,000**), par value, of the bonds authorized to be issued under and secured by this indenture, shall be reserved to be executed by the Railroad Company and to be certified and delivered by the Trustee from time to time after December 31, 1903, for some one or more of the purposes specified in this section, but only as herein provided, and subject to the restrictions herein stated.

Such reserved bonds may be issued in one or more series. The Board of Directors of the Railroad Company from time to time shall determine the amount of bonds to be issued in any series, and shall fix the price or rate at which shares of the common stock of the Railroad Company will be issued in and upon conversion of the bonds of such series, when the right to demand such conversion shall be exercised by the holder of any such bond; but in no instance shall such price or rate be less than

Exhibit R-120.

the market price of such shares on February 11, 1903. The price or rate of conversion, as so fixed by the Board of Directors, shall be stated in every bond issued hereunder, and shall be alike in every bond of the same series.

A. The purposes for which such **\$40,000,000** of reserved bonds from time to time shall be executed, certified and delivered, and for which such bonds or their proceeds may be used, are:

(a) The construction or acquisition after December 31, 1903, of branch or connecting lines of railroad and extensions; and of ferry houses, ferry boats, shops, depots, terminal properties, rolling stock and other equipment, and other acquisitions, additions, improvements and betterments, upon, along or appertaining to, or for use in connection with, any lines of railway, branches or terminal properties, which at the time of such construction or acquisition, shall belong to the Railroad Company and be subject to the lien of this indenture, or shall belong to any other company of whose capital stock at least ninety per cent. in amount shall then be subject to this indenture (whether or not subject to the prior lien of the said First Consolidated Mortgage Deed dated December 14, 1895, or of the said Indenture dated February 1, 1901), or upon, along, or appertaining to, or for the use in connection with, the lines of railway of the Paterson and Hudson River Railroad Company, the Paterson and Ramapo Railroad Company, the Union Railroad Company, The New York and Greenwood Lake Railway Company, the Northern Railroad Company of New Jersey, The Cleveland and Mahoning Valley Railroad Company, The Sharon Railway, the Westerman Railroad or the Elmira State Line Railroad Company; and to reimburse the Railroad Company for sums expended by it, or by any such other company, after December 31, 1903, for any of the foregoing purposes.

(b) The acquisition after December 31, 1903, of shares of the capital stock, bonds or other indebtedness of any company owning any branch or connecting lines of railroad or extensions; or any ferry houses, ferry boats, shops, depots or terminal properties such as are specified in the foregoing clause (a), *provided* that no bonds or their proceeds shall be used for the acquisition of any shares of the capital stock, bonds or other indebtedness, for the purchase or acquisition of which any bonds have been reserved under the provisions of said First Consoli-

Exhibit R-120.

dated Mortgage Deed of December 10, 1895; and *provided, further*, that no bonds shall be used for the purchase of shares of the capital stock, bonds or other indebtedness of any company unless or until the greater part of the entire capital stock of such company shall be acquired or shall have been acquired, and that all the shares, bonds and other indebtedness so acquired shall become and shall be subject to the lien of this indenture, whether or not also subject to the prior lien of said First Consolidated Mortgage Deed dated December 10, 1895, or of said Indenture of February 1, 1901; and *provided, further*, that no shares, bonds or other indebtedness issued or created by any such company after such ninety per cent. of the capital stock thereof shall have become subject to this indenture, shall be acquired under this clause (b); but bonds may be certified and delivered under the foregoing clause (a) in respect of any construction or acquisition such as is specified in said clause, by any such company, and to reimburse the Railroad Company for sums expended by it after December 31, 1903, for any such acquisition.

B. The restrictions subject to which such **\$40,000,000** of reserved bonds from time to time shall be certified and delivered, are as follows, viz.:

(1) Before certifying and delivering bonds under this section, there shall be delivered to the Trustee a copy of a resolution of the Board of Directors of the Railroad Company, certified by its Secretary or an Assistant Secretary, calling for the certification and delivery of a specified amount of such bonds, and directing the officers of the Railroad Company to set aside such amount of bonds or their proceeds separate and apart from any other assets and funds of the Railroad Company, and to use the same only for purposes authorized by this section.

(2) In each calendar year after December 31, 1903, there shall be so certified and delivered out of such **\$40,000,000** of bonds, such amount not in the aggregate exceeding ten million dollars (\$10,000,000) par value in any calendar year, as from time to time shall be called for in such resolutions; but in every instance except the first, before certifying or delivering any of the bonds reserved under this section, the Trustee shall require the Railroad Company to furnish, in addition to such resolution

Exhibit R-120.

of its Board of Directors, the certificate or certificates of some officer or officers of the Railroad Company, stating:

(a) That all bonds certified and delivered under this section in respect of which no such certificate previously shall have been furnished, and the proceeds of all such bonds, have been actually used, or actually appropriated and set aside for liabilities actually incurred, for said purposes or for some one or more of them, or to reimburse the Railroad Company as aforesaid—indicating the particular branches, extensions, terminal properties, rolling stock or other property, acquired or constructed or contracted for, or the stock, bonds or other indebtedness of any other company acquired, and the kind or class of betterments or improvements made or contracted for, and the amount of bonds or proceeds of bonds or other cash, used or applied or actually appropriated and set aside for each such purpose;

(b) That the price paid or liability incurred for such construction, or for such acquisition, betterments or improvements, was not in excess of the fair value of such property or of such work, and that the bonds included in such certificate were sold, disposed of or otherwise accounted for, at not less than their fair market value at the time of such sale, disposition or accounting;

(c) That no part of such certified expenditures or liabilities was included in any previous certificate furnished hereunder, or was made or reimbursed or provided for out of any bonds or moneys received by the Railroad Company under any other provision of this indenture, or under any provision of the First Consolidated Mortgage Deed dated December 10, 1895, or of said Indenture dated February 1, 1901;

(d) That no part of the expenditures certified in such certificate was included in the operating or maintenance expenses reported in any annual report theretofore issued by the Railroad Company;

(e) In case such certificate shall show the acquisition of, or any contract for, new property, then such certificate also shall state whether such new property is known or believed to be, or that when acquired such new property will be, subject to any lien or charge prior to this indenture, except prior liens and charges to which the grant of

Exhibit R-120.

this indenture is made subject, and undetermined liens or ordinary operating accounts or charges incidental to construction, and such certificate shall specify the amount of any such prior lien or charge (other than as aforesaid) known or believed to exist or intended or expected to be created;

(f) Any such certificate under this section may state any other facts pertaining to the right to certify and deliver bonds hereunder. The same officer or officers of the Railroad Company need not certify to all the facts required to be certified under the provisions of this section, but different officers may certify to different facts respectively.

(3) None of the \$40,000,000 of reserved bonds deliverable after December 31, 1903, pursuant to this Section 3, shall be certified and delivered for or in respect of the construction or acquisition of property subject to any lien or charge so certified, unless or until the Railroad Company shall have deposited with the Trustee, an amount of bonds hereby secured equal at par to the aggregate amount of such certified indebtedness, liens and charges. Whenever thereafter any of such certified indebtedness, liens and charges shall be paid or be satisfied, or shall be acquired and be subjected to the lien hereof, then an equal amount at par of the bonds hereby secured so deposited with Trustee under this clause shall be redelivered by the Trustee to the Railroad Company or upon its order, so that the amount of such bonds held by the Trustee under this clause at all times shall be equal to the amount of such indebtedness, liens and charges remaining unsatisfied or not subjected to the lien thereof.

(4) The Railroad Company covenants that whenever all the bonds reserved under this section shall have been certified and delivered to, and used by, the Railroad Company, it will execute and deliver to the Trustee a similar certificate indicating the particular application of all such bonds, or proceeds of such bonds, in respect of which the Railroad Company shall not theretofore have furnished such certificate to the Trustee.

(5) Every such certificate furnished under this section, unless signed, *first*, by the President or a Vice-President or the General Manager or the Chief Engineer, and, *secondly*, by the Comptroller or Auditor or Treasurer, of the Railroad Company, shall have endorsed thereon, or shall be accompanied by, a writ-

Exhibit R-120.

ten statement of one of the officers first above designated, and one of the officers secondly above designated, that they believe that such certificate is true, and that such bonds or their proceeds have been used, and the expenditures certified have been made, only for purposes authorized by this section. A certificate signed by one of the officers first above designated and one of the officers secondly above designated, or a certificate having endorsed thereon or annexed thereto a written statement of such officers in the form in this paragraph specified, shall be received by the Trustee as conclusive evidence of any facts pertaining to the right to certify and deliver bonds pursuant to this section.

Unless the bonds or the certificates for shares of stock or the other indebtedness acquired under the provisions of this section, shall be deliverable and shall have been delivered to the Trustee under the said First Consolidated Mortgage Deed dated December 10, 1895, or to the Trustee under the said Indenture dated February 1, 1901, such bonds, and such certificates of stock, endorsed for transfer in blank, and the assignments of such other indebtedness, shall be delivered to the Trustee hereunder, together with the said statements and certificates, and the Railroad Company shall execute or shall cause to be executed any conveyances or instruments of further assurance that may be necessary for the purpose of subjecting to the lien and operation of this indenture any new property so acquired by the Railroad Company, and, so far as may be, any indebtedness, liens or charges so taken up or acquired by use of said bonds, and, also, in the case of any construction upon or acquisition for any of the railroads specifically referred to in part A of this section 3, the Railroad Company shall execute or cause to be executed such instruments as may be necessary to subject the same to the leases, if any, under which such railroads are held: and, also shall furnish the written opinion of counsel for the Railroad Company to the effect that such conveyances or other instruments are sufficient for that purpose or that no conveyance or instrument of further assurance is necessary for the purpose aforesaid. Such resolutions, statements, certificates and opinion shall be deemed, and shall be taken to be, full authority and protection to the Trustee for its certification of such bonds under the foregoing provisions of this section.

Exhibit R-126.

Sec. 4. Whenever, under section 3 of this Article, the Railroad Company shall be entitled to reimbursement out of bonds of any series hereby secured or their proceeds, the Railroad Company may take and accept such bonds at prices to be fixed by the resolution of the Board of Directors, but not in any case less than the average market prices for bonds of the same series at the New York Stock Exchange during the previous calendar month (if there be any such market price for such bonds) in settlement and discharge of its claim to be reimbursed; and the bonds so taken and accepted by the Railroad Company shall be held and may be used by it for its general corporate purposes, freed and discharged from all restrictions and provisions of said Section 3 as though such bonds had been sold at such price and the proceeds paid over to the Railroad Company.

Sec. 5. Whenever any coupon bond or bonds, issued under and secured by this indenture, together with all unmatured coupons thereto belonging, shall be surrendered for exchange for a registered bond or registered bonds without coupons, the Railroad Company shall execute, and the Trustee shall certify, and in exchange for such coupon bond or bonds shall deliver, registered bonds, or one registered bond, without coupons, for the like aggregate principal sum. The registered bond or bonds without coupons so delivered in exchange, shall be of the same series as the surrendered coupon bond or bonds, and shall bear interest from the date of the last-matured coupon thereof.

Whenever any registered bond without coupons shall be surrendered, transferred and canceled, as provided in Section 3 of Article Two hereof, the Railroad Company, upon request therefor, shall issue to the transferee, and the Trustee shall certify and shall deliver, registered bonds, or one registered bond without coupons, of the same series, for the like aggregate principal sum.

Whenever any registered bond or bonds without coupons, for the principal sum of one thousand dollars or some even multiple of one thousand dollars, shall be surrendered for exchange for a coupon bond or bonds, the Railroad Company shall issue, and the Trustee shall certify, and, in exchange for such registered bond or bonds without coupons, shall deliver, a coupon bond or coupon bonds, of the same series, for the like aggregate principal sum, with the coupons maturing on and after the

Exhibit H-129.

date when the next semi-annual installment of interest would have been payable on such surrendered bond or bonds.

In every case of any such exchange, the Trustee forthwith shall cancel the surrendered bond or bonds and coupons and shall deliver the same to the Railroad Company.

For (1) any exchange of coupon bonds for registered bonds, and for (2) any transfer of registered bonds without coupons, and for (3) any exchange of registered bonds without coupons for coupon bonds,—the Railroad Company, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge, and in addition thereto, such further sum as may be necessary to meet other expense connected therewith; such further sum, however, not to exceed one dollar for each new coupon bond or registered bond without coupons issued upon such exchange or transfer.

Sec. 6. In case any coupon bond issued hereunder with the coupons thereto appertaining, or any registered bond without coupons, shall become mutilated or be destroyed, the Railroad Company, in its discretion, may execute, and thereupon the Trustee shall certify and deliver, a new bond of like tenor and date (including coupons in case of a coupon bond) bearing the same serial number, in exchange and substitution for, and upon cancellation of, the mutilated coupon bond and its coupons, or the mutilated registered bond without coupons, or in lieu of and substitution for the coupon bond and its coupons or the registered bond without coupons so destroyed, upon receipt of satisfactory evidence of the destruction of such coupon bond and its coupons, or of such registered bond without coupons, and upon receipt also of satisfactory indemnity.

Sec. 7. Until the bonds to be issued under and secured by this indenture can be engraved and printed, the Railroad Company may execute, and, upon its request, the Trustee shall certify and deliver, in lieu of such engraved bonds and subject to the same provisions, limitations and conditions, temporary bonds of any denomination, substantially of the tenor of the bonds to be issued as hereinbefore provided. Upon surrender of such temporary bonds for exchange, the Railroad Company at its own expense shall issue, and upon cancellation of such surrendered bonds the Trustee shall certify and deliver, in

Exhibit B-129.

exchange therefor, engraved coupon bonds or registered bonds without coupons of the denominations hereinbefore provided, for the same aggregate principal sum as the temporary bonds surrendered; and, until so exchanged, the temporary bonds shall be entitled to the same security as the engraved bonds issued hereunder.

SEC. 8. Nothing in this indenture, or in the bonds issued hereunder, expressed or implied, is intended, or shall be construed, to give to any person or corporation other than the parties hereto and the holders of bonds issued under and secured by this indenture, any legal or equitable right, remedy or claim under or in respect of this indenture, or under any covenant, condition or provision herein contained; all its covenants, conditions and provisions being intended to be, and being, for the sole and exclusive benefit of the parties hereto, and of the holders of the bonds hereby secured.

ARTICLE TWO.

THE RAILROAD COMPANY COVENANTS AS FOLLOWS:

SECTION 1. Duly and punctually it will pay the principal and the interest of every bond issued under this indenture, at the dates and the place and in the manner mentioned in such bonds or in the coupons thereto belonging, according to the true intent and meaning thereof, without deduction from either principal or interest for any tax or taxes which the Railroad Company or the Trustee may be required to pay or to retain therefrom, under or by reason of any present or future law of the United States, or of any state or county or municipality therein. The interest on the coupon bonds shall be payable only upon presentation and surrender of the several coupons for such interest as they respectively mature, and when paid such coupons shall forthwith be canceled. The interest on the registered bonds without coupons shall be payable only to the registered holders thereof.

Duly and punctually the Railroad Company will also pay the principal and the interest of every bond issued under the said First Consolidated Mortgage Deed dated December 16, 1905, and of every bond issued under the said Indenture dated February 1, 1901, according to the terms of said bonds and

Exhibit R-126.

coupons and of said indentures securing the same, severally and respectively.

SEC. 2. All railways, franchises and other property of every kind, in respect of the acquisition or construction whereof bonds under this indenture hereafter shall be certified and be issued as hereinbefore provided, and all franchises and other property of every kind, as described and to the extent provided in the granting clauses of this indenture, which hereafter may be acquired by the Railroad Company, immediately upon the acquisition thereof by the Railroad Company, and without any further conveyance or assignment, shall become and shall be subject to the lien of this indenture as fully and completely as though now owned by the Railroad Company, and specifically described in the granting clauses hereof; but at any and all times the Railroad Company will execute and deliver any and all such further assurances or conveyances or assignments thereof as the Trustee may reasonably direct or require, for the purpose of expressly and specifically subjecting the same to the lien of this indenture; and also it will do, execute, acknowledge and deliver, or cause to be done, executed, acknowledged and delivered all and every such further acts, deeds, conveyances and transfers and assurances in the law, for the better assuring, conveying, assigning and confirming unto the Trustee, all and singular the hereditaments and premises, estates and property hereby conveyed or assigned, or intended so to be, or which the Railroad Company may hereafter become bound to convey or assign to the Trustee, as the Trustee shall reasonably require.

But nothing expressed or implied in this indenture is intended, or shall be construed, to limit the right or power of the Railroad Company, hereby distinctly reserved, by the use of its credit or in any manner other than by the use of the bonds hereby secured, or their proceeds, to construct or acquire other lines of railway, branches or extensions, or interests therein, or other property, free from the lien hereof.

SEC. 3. The Railroad Company, at an office or agency to be maintained by it in the City of New York, will keep a register or registers for the registration and transfer of bonds issued hereunder, in which it will register, subject to such reasonable regulations as it may prescribe, all such bonds without

Exhibit R-120.

coupons, and, upon presentation thereof for such purpose, any such coupon bonds; and such register or registers at all reasonable times shall be open to the inspection of the Trustee.

Upon presentation to the bond registrar of the Railroad Company, at the place where such register shall be kept, of any such registered coupon bond, accompanied by delivery of a written instrument of transfer in a form approved by the Railroad Company, executed by the registered holder, such bond shall be transferred upon such register by the registered holder, in person or by attorney, and such transfer shall be noted by such bond registrar upon the bond. The registered holder of any such registered coupon bond also shall have the right to cause the same to be registered as payable to bearer, in which case transferability by delivery shall be restored, and thereafter the principal of such bond when due shall be payable to the person presenting the bond; but any such coupon bonds registered as payable to bearer may be registered again in the name of the holder with the same effect as a first registration thereof. Successive registrations and transfers as aforesaid may be made from time to time as desired; and each registration of a coupon bond shall be noted by the bond registrar on the bond.

Registration of any coupon bond, however, shall not affect the transferability of any coupon thereto belonging, by delivery merely, and payment to the bearer of any such coupon shall discharge the Railroad Company in respect of the interest therein mentioned, whether or not the bond shall have been registered.

Any registered bond without coupons may be transferred upon such register at such office or agency by the registered holder, in person or by attorney, upon surrender of such bond to such bond registrar for cancellation, accompanied by delivery of a written instrument of transfer in a form approved of by the Railroad Company, duly executed by the registered holder of the bond; and thereupon a new registered bond, or new registered bonds, for an equivalent principal sum shall be issued to the transferee or transferees as provided in Section 5 of Article One hereof.

SEC. 4. The Railroad Company shall not and will not suffer or permit any default wherefor any of the several lessors may terminate any of the existing leases of the Cleveland and Mahoning Valley Railroad, the Sharon Railroad or the Wes-

Exhibit R-120.

terman Railroad, or any lease hereafter made to it, or for its benefit, of any franchises or property now or hereafter belonging to any of the said railroad companies. In case and whenever it shall make default in paying any sum stipulated to be paid in any such present or future lease of any of the said railroads, the Trustee, without affecting any of its rights hereunder, from time to time, in its discretion, may itself pay any sum so in default, and thereupon shall have and forthwith may assert a lien for such advances upon the premises hereby mortgaged, and the proceeds thereof, which lien shall be entitled to priority in rank and payment from the income and profits of the mortgaged premises over any bonds hereby secured.

The Railroad Company will not voluntarily create, or suffer to be created, any debt, lien or charge (except as permitted or required under the said First Consolidated Mortgage Deed dated December 10, 1895, or under the said Indenture dated February 1, 1901, severally and respectively) which would be prior to the lien of these presents upon the mortgaged or pledged premises and property or any part thereof, or upon the income thereof; and within three months after the same shall accrue, it will pay, or will cause to be discharged, or will make adequate provision to satisfy and discharge, all lawful claims and demands of mechanics, laborers and others, which, if unpaid, might by law be given precedence to this indenture as a lien or charge upon the mortgaged premises or any part thereof, or the income thereof; and if any company, of whose capital stock the greater part, pursuant to the provisions of Article One or to the provisions of Sections 5 and 6 of Article Three of this indenture, shall have been pledged hereunder, at any time while the greater part of the capital stock of such company shall be pledged hereunder (excepting the New York, Susquehanna and Western Railroad Company, or the Buffalo Creek Railroad Company, or the Blossburg Coal Company, or the Conesus Lake Railroad Company), shall create or shall suffer to be created (except as permitted or required under the two indentures above mentioned, or under this indenture, or as required by any existing obligation), any lien or charge upon its property or income, or any indebtedness other than indebtedness to the Railroad Company, or for the current operating expenses of such company during a period not exceeding three months, then it (the Railroad Company) will cause the same to be paid or discharged, or

Exhibit R-120.

will make adequate provision for the satisfaction or discharge thereof; provided, however, that the Railroad Company shall have the right to contest by legal proceeding any such debt, lien or charge, and pending such contest may delay or defer the payment or discharge thereof.

SEC. 5. The Railroad Company from time to time will pay and discharge all taxes, assessments and governmental charges (the lien whereof would be prior to the lien hereof) lawfully imposed upon the premises or property subject to this indenture, or upon any part thereof, or upon the income and profits thereof, and also all taxes, assessments and governmental charges lawfully imposed upon the lien or interest of the Trustee in respect of such premises or property, so that the lien and priority of this indenture shall be fully preserved at the cost of the Railroad Company without expense to the Trustee or the bondholders; and if any company of whose capital stock the greater part pursuant to Article One or Article Three of this indenture shall have been pledged hereunder, at any time while the greater part of the capital stock of such company shall be pledged hereunder (except the Buffalo Creek Railroad Company, or any Coal Company, in respect of lands upon which mining shall have been abandoned), shall fail to pay all such taxes, assessments and charges lawfully imposed upon the property of such company or upon the income and profits thereof, then the Railroad Company itself will pay the same or make adequate provision for the satisfaction or discharge thereof; provided, however, that the Railroad Company shall have the right to contest by legal proceeding any such tax, assessment or charge, and pending such contest may delay or defer the payment thereof.

SEC. 6. Except in the cases of this indenture expressly authorized, the Railroad Company will not, by affirmative vote or by abstaining from voting, sanction or permit any increase of the capital stock of any company of whose capital stock the greater part shall be subject to this indenture, or the issue or guaranty of any bonds by any such company, or the creation of any mortgage or other lien upon the railroad or property of any such company, unless simultaneously there shall be made effective provision that such indebtedness and the evidences thereof, and such bonds issued or guaranteed, and such mort-

Exhibit R-120.

gage or other lien, and all such additional stock (or such part of such additional stock as shall be proportionate to the part of such entire capital stock previously subject to this indenture), forthwith, upon the issue or creation thereof, shall be delivered to, and be pledged with, the Trustee under the said First Consolidated Mortgage Deed dated December 10, 1895, or with the Trustee under the said Indenture dated February 1, 1901, if required by said instruments, severally and respectively, or with the Trustee hereunder, and shall be subject to all the trusts of this indenture; and all such additional stock shall be fully paid and non-assessable. Nothing herein, however, shall be construed to prohibit any increase of stock of, or the creation of mortgages or other liens by, the Buffalo Creek Railroad Company or the New York, Susquehanna and Western Railroad Company.

Except as herein otherwise expressly provided, the Railroad Company will not, by affirmative vote or by abstaining from voting, sanction or permit any railroad or ferry or terminal company, of whose capital stock the greater part shall be owned by the Railroad Company and be subject to this indenture, to sell or otherwise to dispose of its railroad or any part thereof, or any ferry or terminal, or to lease the same (unless such lease be upon the condition that it shall terminate, at the election of the Trustee, by entry or otherwise, in case default shall be made and shall continue as provided in Section 2 of Article Four hereof, or, at the election of the purchaser, in case of a sale of the property subject to this indenture, under this indenture or under either of said two former indentures, dated respectively December 10, 1895, and February 1, 1901), except to the Railroad Company or to some other company of whose capital stock not less than ninety per cent. shall then be held by the Railroad Company and be subject to this indenture.

SEC. 7. Any and all claims and indebtedness, which the Railroad Company now has or hereafter may acquire against any other company, of whose capital stock the greater part shall have become subject to this indenture, shall (subject to the provisions in respect thereof in this indenture contained), be and become subject to this indenture, and if and when requested in writing by the Trustee, the Railroad Company will execute to the Trustee appropriate assignments thereof: subject, however, to any prior rights of the Trustee under the said

Exhibit R-120.

First Consolidated Mortgage Deed dated December 10, 1895, or of the Trustee under the said Indenture dated February 1, 1901.

SEC. 8. The Railroad Company will not issue, negotiate, sell or dispose of any bonds hereby secured in any manner other than in accordance with the provisions of this indenture and the agreements in that behalf herein contained; and in issuing, selling, negotiating or otherwise disposing of such bonds, from time to time, it will well and truly apply, or cause to be applied, the same, or the proceeds thereof, to and for the purposes herein prescribed, and to and for no other or different purpose.

SEC. 9. Prior to the first day of April, 1905, the Railroad Company will authorize the increase of its common capital stock to such amount as may be necessary to provide for the conversion thereof into of all of the bonds issued hereunder in accordance with the terms thereof; and, when and as demand therefor after April 1, 1905, and before April 1, 1915, shall be made by the holder of any such bond, it will as soon as practicable issue certificates for such shares of common stock as the same shall then be constituted, in exchange for, and in conversion of, such bond at the rate stipulated therein, but never at a rate less than the market price of such common stock on February 11, 1903; *provided, however*, that in case the voting trust of the stock of the Railroad Company under a certain agreement dated January 1, 1896, between Charles H. Coster, Louis Fitzgerald and Anthony J. Thomas, of the one part, and J. Pierrepont Morgan, Louis Fitzgerald and Sir Charles Tennant, Bart., Voting Trustees, of the other part, or any extension or renewal of said agreement, shall exist at the time of any such conversion, common stock voting trust certificates shall be deliverable in lieu of common stock certificates; and *provided further*, that scrip may be delivered for any fraction of a share of common stock, which scrip shall be exchangeable for common stock certificates, or common stock voting trust certificates, as the case may be, when presented in amounts aggregating \$100 or some even multiple thereof, but which, until so exchanged, shall not confer on the holder the right to receive any dividends declared on such common stock, or any right whatever other than such right of exchange.

Demand by the holders of bonds for the conversion thereof into common stock shall be made by writings addressed to the

Exhibit R-120.

Railroad Company, which shall be delivered, together with the bonds to be converted, to the bond registrar of the Railroad Company. If the bond so surrendered be a registered bond without coupons, all rights to interest subsequently payable shall cease and determine. If the bond so surrendered be a coupon bond, the holder shall also surrender all unmatured coupons thereof. All registered bonds (with or without coupons) shall bear a written assignment in blank in a form satisfactory to the Railroad Company.

Upon the conversion and exchange of any such surrendered bond as above provided, the Railroad Company forthwith will cancel such surrendered bond (and also all unmatured coupons thereof if it be a coupon bond), and will exhibit the same to the Trustee; and thereupon the said bond shall be deemed to be and shall be satisfied and discharged, and no bond in place thereof shall be issued by the Railroad Company or be certified or be delivered by the Trustee.

ARTICLE THREE.

SECTION 1. It is hereby declared and covenanted that until the final satisfaction or release of the said First Consolidated Mortgage Deed dated December 10, 1895, and of the said Indenture dated February 1, 1901, all the bonds, stocks and other property covered by said indentures, severally and respectively, shall be and shall remain subject to the prior and superior lien thereof, and shall be held as provided in said indentures severally and respectively, with all the powers, rights and discretions, and subject to all the provisions, set forth in said indentures severally and respectively; and neither the execution of this indenture, nor any action hereunder, shall in any manner affect said indentures or either of them, or any rights of the holders of the bonds thereby secured, or any rights or duties of the Trustee under either of said indentures.

Whenever said Indenture dated February 1, 1901, shall have been satisfied or released, the Trustee hereunder shall be entitled to receive, to take possession of, and to hold, as Trustee under this indenture, all the bonds, shares of stock and other property (including cash), then held by the Trustee under said Indenture dated February 1, 1901; and the Railroad Company covenants that it will execute and will deliver to the Trustee hereunder, such assignments, transfers, powers of attorney

Exhibit R-129.

and other instruments, as the Trustee may reasonably require in order to vest in the Trustee hereunder, or in order to enable the Trustee hereunder to acquire, the title and possession of all such bonds, shares of stock and other property; and the Trustee thereupon shall hold under this indenture all such bonds, shares of stock and other property, **including cash.**

The Railroad Company covenants that forthwith upon the execution hereof, it will cause due notice of the execution of this indenture to be given to each corporation or association which issued any of the shares of stock or any of the bonds now held by the Trustee under either of said two former indentures; and from time to time, upon the delivery to the Trustee under either of said indentures, of stocks, bonds or other obligations of any other corporation or association, it will give similar notice to such other corporation.

The Trustee shall be authorized (1) to cause to be registered in its name as Trustee, any and all coupon bonds pledged with and delivered to it hereunder, or which at any time hereafter may be received by it under any of the provisions of this indenture, or (2) to cause the same to be exchanged for registered bonds without coupons of any denomination, or (3) to cause any such bonds to be stamped—"Not negotiable. Held by The Standard Trust Company of New York, as Trustee under the General Mortgage of Erie Railroad Company, dated April 1, 1903."

The Trustee shall cause to be transferred into its name, as Trustee hereunder, all registered bonds which shall have been delivered and assigned to it hereunder. The Trustee at any time may transfer into its name, as Trustee hereunder, all or any shares of stock, the certificates for which shall have been pledged with and delivered to it hereunder, or in its discretion it may hold such certificates in the name of the registered holder thereof at the time of such pledge, provided that the same be endorsed in blank for transfer.

The Trustee may do whatever may be necessary for the purpose of maintaining, preserving, renewing or extending the corporate existence of any company the greater part of whose shares shall then be held by the Trustee hereunder, and for such purposes, from time to time, it may sell, assign, transfer and deliver so many shares of the stock of the several companies as may be necessary to qualify persons to act as directors

Exhibit R-120.

of, or in any other official relation to, said companies. Whenever requested in writing by the Railroad Company, the Trustee shall assign and transfer to persons designated by the Railroad Company a sufficient number of any shares that then shall be held by the Trustee hereunder, to qualify such persons to act as directors of, or in any official relation to, the several companies which issued such shares; *provided, however*, that under this provision no transfer shall be made which shall reduce the amount of stock in any company held by the Trustee, so as to render it less than a controlling interest in such stock; and in every case the Trustee may make such arrangements as it shall deem necessary for the protection of the trust hereunder.

Until the final satisfaction or release of said indentures dated December 10, 1895, and February 1, 1901, severally and respectively, unless the Railroad Company either (1) shall be in default in the payment of any interest upon any bond or bonds hereby secured and then outstanding, and such default shall have continued for a period of six months, or (2) shall be in default in the payment of the principal of any bond hereby secured; or (3) shall be in default in the payment of the principal of any of the bonds secured by the said Indenture dated February 1, 1901; or (4) shall be in default in the due observance or performance of some other covenant or condition in this indenture required to be kept or performed by the Railroad Company, and such last-mentioned default shall have continued for the period of six months after written notice thereof shall have been given by the Trustee to the Railroad Company,—all stocks, bonds, coupons, claims and other property that shall be subject to either of said indentures, dated December 10, 1895, and February 1, 1901, severally and respectively, except as herein expressly otherwise provided, may be used, held, dealt with and disposed of under and in accordance with the provisions of Article Four of said indenture dated December 10, 1895, and of Article Three of said indenture dated February 1, 1901, severally and respectively, as well by the Railroad Company as by the several trustees under said indentures, respectively, as though this indenture had not been made. None of the particular provisions hereinafter contained shall be construed as limiting the general provision contained in this section.

Exhibit R-120.

Sec. 2. Unless and until a Receiver shall have entered into possession of the railroad hereby mortgaged and conveyed; or unless the Trustee shall have entered into possession of the mortgaged premises or part thereof under the power herein granted; or unless and until there shall be a default (1) in the payment of any interest on any bond or bonds at any time outstanding and secured by this indenture and such default shall have continued for the period of six months; or (2) in the payment of the principal of any bond hereby secured; or (3) in the payment of the principal of any of the bonds secured by the said Indenture dated February 1, 1901; or (4) in the due observance or performance of any other covenant or condition in this indenture required to be kept or performed by the Railroad Company and such last-mentioned default shall have continued for the period of six months after written notice thereof shall have been given by the Trustee to the Railroad Company, —(a) the Trustee shall not (except with the assent of the Railroad Company) collect, or be entitled to collect, the principal or interest of any bonds or of any other claims or indebtedness now or hereafter subject to this indenture, whether at, or before, or after, the maturity of such bonds or contract obligations or other claims or indebtedness, and shall not enforce any provisions of the mortgages, trust deeds or other instruments under which such bonds or other obligations were issued, or by which the same are secured; (b) the Railroad Company shall be entitled to receive all interest paid in respect of any such bonds or obligations, and the dividends on all shares of stock, which shall be subject to this indenture although the same may have been transferred to the Trustee; (c) from time to time (subject to the covenants in respect thereof in this section contained), upon the request of the Railroad Company, the Trustee shall deliver to it any coupons for such interest then in the possession of the Trustee, in order that the Railroad Company may receive payment thereof for its own use or may cause the same to be canceled, and the Trustee shall deliver to the Railroad Company suitable orders in favor of the Railroad Company, or its nominee, for the payment of such interest and dividends, and the Railroad Company may collect such coupons, interest and dividends (but not by any proceeding which the Trustee shall deem to be prejudicial to the trusts hereunder), and the Trustee at once shall pay over to the Railroad Company any

Exhibit R-120.

such interest and dividends which may be collected or be received by it; and (d) the Railroad Company, for its own use, shall be entitled to demand, receive and collect, and may release and discharge, the principal and interest of any such claims and indebtedness subjected to the lien of this indenture under Section 7 of Article Two hereof, and upon request of the Railroad Company the Trustee shall execute any re-assignments or releases which may be required for that purpose:

Provided, however, and hereby it is declared and agreed that, except as in this indenture otherwise expressly provided, (1) the Railroad Company shall not be entitled to receive, and the Trustee shall not pay over to the Railroad Company, the principal of any bond subject to this indenture; (2) the Railroad Company shall not be entitled to receive, and the Trustee shall not pay over, any interest on any such bond, or the principal of or any interest on any such other obligations, claims or indebtedness, which shall have been collected or paid out of the proceeds of any sale or condemnation of the property covered by a mortgage securing such bonds, or out of the proceeds of the sale of any other property of the company liable upon such bonds, obligations, claims or indebtedness, in case of a dissolution or liquidation of such company, it being the intention that the Railroad Company shall be entitled to receive only payments made out of the rents, revenues, income or proceeds of operation of such property; (3) the Railroad Company shall not sell, assign or transfer any such coupon, or right to interest or dividends, delivered or assigned to it, or any other such claim or indebtedness, except subject to this indenture; (4) the Railroad Company shall not collect any such coupons or interest, or any such other claims or indebtedness, by legal proceedings or by enforcement of any security therefor, except with the assent of the Trustee, nor in any manner which the Trustee shall deem prejudicial to the trust hereunder; and (5) until actually paid, released or discharged, every such coupon, or right to interest or dividends, and all such other claims and indebtedness, shall remain subject to this indenture.

If any such coupons, or if any evidence of any such claim or indebtedness, delivered to the Railroad Company hereunder, shall not, as aforesaid, forthwith be paid or canceled, the Railroad Company shall return the same to the Trustee, and in case

Exhibit R-120.

of the payment of any such coupon, claim or indebtedness, shall, upon the demand of the Trustee, furnish satisfactory evidence of the cancellation and extinguishment thereof.

SEC. 3. In case any sum shall be paid on account of the principal of any bonds or of any obligations subject to this indenture, or in case any sum shall be paid on account of the interest on any such bonds or obligations, out of the proceeds of property covered by a mortgage or trust deed securing such bonds or obligations, or in case, upon the dissolution or liquidation of any company, any sum shall be paid upon any bonds or any shares of stock or any claims against or indebtedness of such company, subject to this indenture, then, in any such case, any such sum, unless received by the trustee under the said First Consolidated Mortgage Deed dated December 10, 1895, or by the trustee under the said Indenture dated February 1, 1901, upon the trusts thereof, severally and respectively, or unless applied on account of the purchase price of property purchased pursuant to Section 5 of this Article, shall be received by the Trustee and shall be paid over by the Trustee to the Railroad Company to reimburse it for expenditures by it made for any of the purposes for which bonds or their proceeds may be used under section 3 of Article One hereof, upon certificates of such expenditures, signed by the President or a Vice-President or the General Manager or Chief Engineer, and by the Comptroller or Auditor or Treasurer of the Railroad Company.

SEC. 4. Unless and until a Receiver shall have entered into possession of the railroad hereby mortgaged and conveyed; or unless the Trustee shall have entered into possession of the mortgaged premises or part thereof under the power herein granted; or unless and until there shall be a default (1) in the payment of any interest on any bond or bonds at any time outstanding and secured by this indenture and such default shall have continued for the period of six months; or (2) in the payment of the principal of any bond hereby secured; or (3) in the payment of the principal of any of the bonds secured by the said indenture dated February 1, 1901; or (4) in the due observance or performance of some other covenant or condition in this indenture required to be kept or performed by the Railroad Company and such last-mentioned default shall have con-

Exhibit R-120.

tinned for the period of six months after written notice thereof shall have been given by the Trustee to the Railroad Company, —the Railroad Company shall have the right to vote upon all shares of stock subject to this indenture, for all purposes not inconsistent with the provisions or purposes of this indenture and with the same force and effect as though such shares were not subject to this indenture; and from time to time, upon demand of the Railroad Company, the Trustee forthwith shall execute and deliver, or shall cause to be executed and delivered, to the Railroad Company, or to its nominees, suitable powers of attorney or proxies to vote upon any shares of stock which shall have been transferred to the Trustee.

SEC. 5. In case default shall be made in the payment of the principal or interest of any of the bonds or obligations which shall have been delivered to, and shall be held by the Trustee hereunder, or of any other bonds then secured by the same mortgage or deed of trust as such bonds held by the Trustee, then in any such case, if the Trustee shall hold more than ninety per cent. in amount of the entire issue of such bonds or obligations in default, it shall, upon the written request of the Railroad Company, and in other cases, upon such written request, it may, in its discretion, cause proper proceedings to be instituted and prosecuted in some court of competent jurisdiction to foreclose or enforce the mortgage, or trust, or charge, by which such bonds or obligations in default are secured. In case the Railroad Company shall be in default in the payment of the principal of any of the bonds hereby secured, or in case the Railroad Company shall be in default in the payment of the interest on any of such bonds, and such default in the payment of interest shall have continued for the period of six months, or in case a receiver of the mortgaged premises shall have been appointed, or in case the Trustee shall have entered or shall have elected to enter into possession of the mortgaged premises, either under the power herein conferred or by the voluntary action of the Railroad Company, then and in any such case the Trustee, in its discretion, may institute such proceedings without such written request.

In case (1) any company of whose capital stock the greater part shall be held by the Trustee subject to this indenture as a first lien thereon, shall be dissolved or liquidated, or in case (2) all or any of the property of any such company shall be sold

Exhibit B-120.

upon the insolvency of such company at any judicial or other sale, or in case (3) any property, covered by a mortgage securing any bonds, or subject to any charge or trust for the payment of any other obligations, held by the Trustee subject to this indenture as a first lien thereon, shall be sold upon foreclosure of such mortgage, or by enforcement of such charge or trust,—then in any such event, if the property of such dissolved or liquidated company, or the property sold, can be acquired by crediting on the bonds, obligations, claims, indebtedness or stock, held by the Trustee hereunder, any sum accruing or to be received thereon out of the proceeds of such property, and by paying not more than ten per cent. of the price of such property in cash (or more than ten per cent., if the holders of a majority in amount of the bonds hereby secured shall so request), the Trustee in its discretion may, but, if requested in writing by the Railroad Company or by the holders of a majority in amount of the bonds hereby secured, and provided with the amount of cash necessary therefor (whether such amount be more or less than ten per cent. of the price of such property), the Trustee in every case shall, purchase or cause to be purchased, or permit the Railroad Company to purchase, such property, either in the name or on behalf of the Trustee or of the Railroad Company, or by purchasing trustees, and shall use, or permit the Railroad Company to use, such bonds, obligations, claims, indebtedness and stock, so far as may be, to make payment for such property; and in case of any such purchase the Trustee shall take such steps as it may deem proper to cause such property to be vested either in the Railroad Company, subject to this indenture, or in some other corporation organized or to be organized, with power to acquire and manage such property, provided that all the bonds and other indebtedness and capital stock thereof (excepting the number of shares required to qualify directors), shall be received by the Trustee and shall be held for the benefit of the Railroad Company, or its assigns, subject to this indenture.

With the written consent of the Railroad Company, the Trustee at any time may vote upon any shares of stock that shall be held by it hereunder, and may take such other action as in its discretion it shall deem advisable to protect its interests and the interests of the bondholders hereunder, in respect of any bonds, obligations or stocks subject to the lien hereof, and

Exhibit R-120.

with such consent of the Railroad Company, the Trustee may join in any plan of reorganization in respect of any such bonds or stocks and may accept new securities issued in exchange therefor under such plan. In case the Railroad Company shall be in default in the payment of any interest or the principal of any of the bonds hereby secured and such default shall have continued for the period of six months, the Trustee shall be entitled to take such steps without the consent of the Railroad Company.

The Railroad Company covenants that, on demand of the Trustee, it, the Railroad Company, forthwith will pay, or will satisfactorily provide for, all expenditures incurred by the Trustee under any of the provisions of this section, including all sums required to obtain and perfect the ownership and title to any property which the Trustee shall purchase or shall cause to be purchased pursuant to the provisions of this section; and in case the Railroad Company shall fail so to do, then, without impairment of, or prejudice to, any of its rights hereunder by reason of the default of the Railroad Company, the Trustee, in its discretion, may advance all such expenses and other moneys required, or may procure such advances to be made by others, and for such advances made by the Trustee, or by others at its request, with interest thereon, the Trustee shall have a lien prior to these presents upon all the stocks, bonds, claims and indebtedness in respect of which such advances shall have been made, and the proceeds thereof and any property acquired by means thereof.

In case the Trustee shall not purchase or cause to be purchased the property sold at any such sale, and shall not join in a plan of reorganization as aforesaid in respect of such bonds or stocks, then the Trustee shall receive any portion of the proceeds of the sale accruing on the securities by it held hereunder, and such proceeds, from time to time, shall be paid over to the Railroad Company to reimburse it for expenditures by it made for any of the purposes for which bonds or their proceeds may be used under section 3 of Article One hereof, upon certificates of such expenditures signed by the President or a Vice-President or the General Manager or Chief Engineer, and by the Comptroller or Auditor or Treasurer, of the Railroad Company.

Exhibit R-120.

SEC. 6. Anything in this indenture to the contrary notwithstanding, any company all or part of whose capital stock shall be subject to this indenture, may be merged or consolidated with, or all or any part of its property may be sold or conveyed to, the Railroad Company. In the event of such consolidation or merger or sale, this indenture shall become and be a lien upon the property of the company so consolidated or merged with, or the property so sold or conveyed to, the Railroad Company, with the same force and effect as if expressly conveyed by this indenture, and the holders of the bonds hereby secured shall always have as full and complete a lien upon such property as that herein created by the pledge of the stock and bonds of such constituent companies or of such selling company, to the Trustee hereunder.

Anything in this indenture to the contrary, notwithstanding, any company, all or part of whose capital stock shall be subject to this indenture, may be merged or be consolidated with, or all of its property may be sold or conveyed to, any other company, all or part of whose capital stock shall be subject to this indenture: *provided, however*, that the portion of the capital stock of any such consolidated or merging company (but never less than a majority thereof) issued for and in lieu of any stock previously pledged hereunder, shall always bear to the total capital stock a proportionate relation at least as high as that borne by such previously pledged stock to the total capital stock of such constituent companies; and *provided further*, that in the case of any such sale by any such company of all its property, the portion of the capital stock of the purchasing company (but never less than a majority thereof) subject to this indenture, shall always bear to the total capital stock of such purchasing company a proportionate relation at least as high as that borne by the previously pledged stock of the selling company to the total capital stock of such selling company. Such portion of such stock of such consolidated or merging company shall then become and be subject to this indenture, and shall be held by the Trustee hereunder pursuant to the provisions hereof, or by the Trustee under the First Consolidated Mortgage Deed, dated December 10, 1895, or by the Trustee under the Indenture dated February 1, 1901, pursuant to the provisions thereof, severally and respectively, and the holders of the bonds hereby secured

Exhibit R-129.

shall always, subject to the lien of said two former indentures last above mentioned, have a lien upon such portion of such stock of such consolidated or merging company as full and complete as upon the stock of such constituent companies, by reason of the pledge hereunder.

The trustee holding the same may make any exchange, substitution, cancellation or surrender of securities required for the purposes or in accomplishment of any such merger or consolidation; and the Trustee hereunder may receive the opinion of any counsel approved by it as to the legal effect of any such merger or consolidation, and as to the steps necessary to be taken to consummate the same, and as to any other matter under this section; and such opinion shall be full protection to the Trustee for any action by it taken pursuant thereto.

SEC. 7. Nothing in this indenture contained shall prevent (1) the renewal or extension, if without impairment of lien or security, at the same or lower rate of interest, (a) by the Railroad Company of any bond or obligation secured by a mortgage or charge underlying the lien of the said First Consolidated Mortgage Deed dated December 10, 1895, or of the said Indenture dated February 1, 1901, or secured by a mortgage or lien permitted to be created under the provisions of either of said indentures; or (b) by any company any of the shares of whose capital stock shall be subject to this indenture, of any bond or obligation secured by mortgage upon its property; or (c) by any company of any of its bonds or obligations which shall be subject to this indenture; or (2) the issue in place of and in substitution for any such bonds or obligations of the Railroad Company or of any such other company, of other bonds or obligations for equivalent amounts, bearing the same or a lower rate of interest, adequately secured by a similar mortgage or lien upon the same property; *provided, however*, that in case any bonds or obligations subject to this indenture shall be so renewed or extended, such bonds or obligations as so renewed or extended shall continue subject to this indenture to the same extent, and shall be lodged and held in the same manner as theretofore; and that in case any bonds or obligations subject to this indenture shall be exchanged for bonds or obligations substituted as aforesaid, the substituted bonds or obligations shall *ipso facto* forthwith become subject to this indenture to

Exhibit R-120.

the same extent, and shall be lodged and held in the same manner as those for which they are substituted.

At any time, in its discretion, the Trustee may, and, if requested in writing by the Railroad Company, it shall, consent to any such renewal, extension or substitution. The Trustee may receive the opinion of any counsel approved by it as conclusive evidence that any such renewal, extension or substitution is in compliance with the provisions of this section.

ARTICLE FOUR.

SECTION 1. Neither any coupon belonging to any bond hereby secured, nor any claim for interest on any registered bond, which in any way at or after maturity shall have been transferred or pledged separate and apart from the bond to which it relates, shall, unless accompanied by such bond, be entitled, in case of a default hereunder, to any benefit of or from this indenture, except after the prior payment in full of the principal of the bonds issued hereunder, and of all coupons and interest obligations not so transferred or pledged.

SEC. 2. In case (1) default shall be made in the payment of any interest on any bond or bonds at any time outstanding and secured by this indenture, and any such default shall have continued for the period of six months, or in case (2) default shall be made in the payment of the principal of any bond hereby secured, or in case (3) default shall be made in the payment of the principal of any of the bonds secured by the said Indenture dated February 1, 1901; or (4) default shall be made in the due observance or performance of any other covenant or condition herein required to be kept or performed by the Railroad Company, and any such last-mentioned default shall have continued for the period of six months after written notice thereof shall have been given to the Railroad Company by the Trustee or by the holders of five per cent. in amount of the bonds hereby secured,—then and in each and every such case the Trustee personally, or by its agents or attorneys, may enter into and upon all or any part of the railways, rolling stock, property and premises, lands, rights, interests and franchises, hereby conveyed or intended so to be, and each and every part thereof, and may exclude the Railroad Company, its agents and servants, wholly therefrom; and having and holding the same,

Exhibit R-120.

may use, operate, manage and control said railways and other premises, regulate the tolls for the transportation of passengers and freight thereon, and conduct the business thereof, either personally or by its superintendents, managers, receivers, agents and servants or attorneys, to the best advantage of the holders of the bonds hereby secured; and upon every such entry, the Trustee, at the expense of the trust estate, from time to time, either by purchase, repairs or construction, may maintain and restore, and may insure or keep insured, the rolling stock, tools and machinery and other property, buildings, bridges and structures, erected or provided for use in connection with said railways and other premises whereof it shall have become possessed as aforesaid, in the same manner and to the same extent as is usual with railway companies; and likewise, from time to time, at the expense of the trust estate, may make all necessary or proper repairs, renewals and replacements, and useful alterations, additions, betterments and improvements thereto and thereon, as to it may seem judicious; and in such case the Trustee shall have the right to manage the mortgaged premises and to carry on the business and exercise all rights and powers of the Railroad Company, either in the name of the Railroad Company or otherwise, as the Trustee shall deem best; and it shall be entitled to collect and receive all tolls, earnings, income, rents, issues and profits of the same and every part thereof, and also the income from stocks and bonds subject to this indenture; and after deducting the expenses of operating said railways and other pretaises, and of conducting the business thereof, and of all repairs, maintenance, renewals, replacements, alterations, additions, betterments and improvements, and all payments which may be made for taxes, assessments, insurance, and prior or other proper charges upon the said premises and property, or any part thereof, as well as just and reasonable compensation for its own services and for all agents, clerks, servants and other employees by it properly engaged and employed, it shall apply the moneys arising as aforesaid as follows:

In case the principal of the bonds hereby secured shall not have become due, to the payment of the interest in default, in the order of the maturity of the installments of such interest, with interest on the overdue installments at the rate of four per cent. per annum; such payments to

Exhibit R-120.

be made ratably to the persons entitled thereto, without discrimination or preference.

In case the principal of the bonds hereby secured shall have become due, by declaration or otherwise, first to the payment of the accrued interest (with interest on the overdue installments thereof at the rate of four per cent. per annum) in the order of the maturity of the installments, and next to the payment of the principal of all bonds hereby secured; in every instance such payments to be made ratably to the persons entitled to such payment without discrimination or preference.

These provisions, however, are not intended in anywise to modify the provisions of section 1 of this Article Four, but are subject thereto.

SEC. 3. In case the Trustee shall have entered, or shall have elected to enter, as aforesaid, or in case a Receiver shall have entered into possession of the railroad hereby mortgaged and conveyed, or in case default shall be made and shall continue as specified in the preceding section 2 of this Article, the Trustee shall be entitled (subject to any prior rights of the trustee under the said First Consolidated Mortgage Deed dated December 10, 1895, or of the trustee under the said Indenture dated February 1, 1901, severally and respectively, in respect of the stocks and bonds pledged thereunder) to vote on all shares of stock then subject to this indenture, and, for the benefit of the holders of the bonds hereby secured, shall be entitled to collect and receive all dividends on the shares of stock that shall then be subject to this indenture, and all sums payable for principal, interest or otherwise upon any bonds or obligations that shall then be subject to this indenture, and to apply as hereinbefore provided the net moneys received; and, as holder of any such shares of stock and of any such bonds, to perform any and all acts, or to make or execute any and all transfers, requests, requisitions of other instruments, for the purpose of carrying out the provisions of this section; but in the event that a receiver of any railway upon which this indenture is a first lien shall have been appointed and shall be in possession thereof, the Trustee from time to time, in its discretion may, and if requested by the holders of a majority in amount of the bonds hereby secured, it shall, turn over any part or all of the interest moneys and dividends, so collected

Exhibit R-120.

by it, to such receiver, and may co-operate with such receiver in managing and operating the entire system of the Railroad Company in such manner as the Trustee shall deem for the best interests of the holders of the bonds hereby secured.

In aid of the powers in this section to it granted, the Trustee hereunder in case of and during any entry or receivership or default as herein contemplated, shall possess and may exercise, to the exclusion of the Railroad Company, any and all of the rights reserved to the Railroad Company under the said First Consolidated Mortgage Deed of December 10, 1895, and the Indenture of February 1, 1901, in respect of the stocks, bonds or other obligations held by the trustee of either of said indentures, respectively, and subject to this indenture, including the right to demand and to receive from either of said trustees, suitable proxies, orders or other instruments to enable it or its nominee to vote and to collect dividends and interest upon any of such stocks, bonds or other obligations.

Sec. 4. In case a default shall be made in the payment of any interest on any bond or bonds at any time outstanding and secured by this indenture, and any such default shall have continued for the period of six months,—then and in every case of such continuing default, upon the written request of the holders of twenty-five per cent. in amount of the bonds hereby secured then outstanding, the Trustee, by notice in writing delivered to the Railroad Company, shall declare the principal of all bonds hereby secured and then outstanding to be due and payable immediately, and upon any such declaration the same shall become and be due and payable immediately, anything in this indenture or in said bonds to the contrary notwithstanding. This provision, however, is subject to the condition that if, at any time after the principal of said bonds shall have been so declared due and payable, and before any sale of the mortgaged premises shall have been made, all arrears of interest upon all the bonds secured hereby, with interest at the rate of four per cent. per annum on overdue installments of interest, shall either be paid by the Railroad Company or be collected out of the mortgaged premises, and all defaults as aforesaid shall have been made good, then and in such case the holders of a majority in amount of the bonds hereby secured then outstanding, by written notice to the Railroad Company and to the Trustee may waive such default and its consequences;

Exhibit R-120.

but no such waiver shall extend to or affect any subsequent default, or impair any right consequent thereon.

In case the Trustee shall have proceeded to enforce any right under this indenture, by foreclosure, entry or otherwise and such proceedings shall have been discontinued or abandoned because of such waiver, or for any other reason, or shall have determined adversely to the Trustee, then and in every such case, the Railroad Company and the Trustee shall be restored to their former position and rights hereunder in respect of the mortgaged premises, and the shares of stock and the bonds and other property subject or to be subject to this indenture, and all rights, remedies and powers of the Trustee shall continue as though no such proceeding had been taken.

SEC. 5. In case (1) default shall be made in the payment of any interest on any bond or bonds at any time outstanding and secured by this indenture, and any such default shall have continued for the period of six months; or in case (2) default shall be made in the due and punctual payment of the principal of any bond hereby secured; or in case (3) default shall be made in the due observance or performance of any other covenant or condition herein required to be kept or performed by the Railroad Company, and any such last-mentioned default shall have continued for the period of six months after written notice thereof shall have been given to the Railroad Company by the Trustee, or by the holders of five per cent. in amount of the bonds hereby secured,—then, and in each and every such case of default, the Trustee, with or without entry, personally or by attorney, in its discretion either

(a) may sell, subject to the liens thereon which then shall be prior and superior to the lien of this indenture, to the highest and best bidder, all and singular the property and premises covered by this indenture, including bonds and stocks, rights, franchises and interests, and appurtenances, and other real and personal property of every kind, and all right, title and interest, claim and demand therein, and right of redemption thereof, in one lot and as an entirety, unless a sale in parcels shall be required under the provisions of section 7 of this Article Four, in which case such sale shall be made in parcels, as in said section provided; which sale or sales shall be made at public auction at such place in the City of Elmira, in the State of New York, or at such other place, and at such time and upon such

Exhibit R-129.

terms, as the Trustee may fix and briefly specify in the notice of sale to be given as herein provided, or as may be required by law; or

(b) may proceed to protect and to enforce its rights and the rights of bondholders under this indenture, by a suit or suits in equity or at law, whether for the specific performance of any covenant or agreement contained herein, or in aid of the execution of any power herein granted, or for any foreclosure hereunder, or for the enforcement of any other appropriate legal or equitable remedy, as the Trustee, being advised by counsel learned in the law, shall deem most effectual to protect and enforce any of its rights or duties hereunder.

Sec. 6. Upon the written request of the holders of twenty-five per cent. in amount of the bonds hereby secured, in case of any continuing default as specified in Section 5 of this Article Four, it shall be the duty of the Trustee, upon being indemnified as hereinafter provided, to take all steps needful for the protection and enforcement of its rights and the rights of the holders of the bonds hereby secured, and to exercise the powers of entry or sale herein conferred, or both, or to take appropriate judicial proceedings by action, suit or otherwise, as the Trustee, being advised by counsel learned in the law, shall deem most expedient in the interest of the holders of the bonds hereby secured; but anything in this indenture to the contrary notwithstanding, the holders of seventy-five per cent. in amount of the bonds hereby secured and then outstanding, from time to time, shall have the right to direct and to control the action of the Trustee, and the method and the place of conducting any and all proceedings for any sale of the premises and property subject to this indenture, or for the foreclosure of this indenture or for the appointment of a receiver, or any other proceedings hereunder.

Sec. 7. In the event of any sale, whether made under the power of sale herein granted or conferred, or under or by virtue of judicial proceedings, or of some judgment or decree of foreclosure and sale, the whole of the property subject to this indenture shall be sold in one parcel and as an entirety, including all the rights, titles, estates, railroads, equipment, franchises, leases, leasehold interests, contracts, stocks, bonds and other real and personal property of every name and nature, unless

Exhibit R-120.

such sale as an entirety is impracticable by reason of same statute or other cause, or unless the holders of a majority in amount of the bonds hereby secured then outstanding shall in writing request the Trustee to cause said premises to be sold in parcels, in which case the sale shall be made in such parcels as may be specified in such request; and this provision shall bind the parties hereto, and each and every of the holders of the bonds and coupons hereby secured, or intended so to be.

Sec. 8. Notice of any such sale pursuant to any provision of this indenture, shall state the time and place when and where the same is to be made, and shall contain a brief general description of the property to be sold, and shall be sufficiently given if published once in each week for four successive weeks prior to such sale in a newspaper published in New York, N. Y., and in a newspaper published in Chicago, Illinois.

Sec. 9. The Trustee may adjourn from time to time any sale by it to be made under the provisions of this indenture by announcement at the time and place appointed for such sale or for such adjourned sale or sales; and without further notice or publication, it may make such sale at the time and place to which the same shall be so adjourned.

Sec. 10. Upon the completion of any sale or sales under this indenture, the Trustee shall execute and deliver to the accepted purchaser or purchasers a good and sufficient deed, or good and sufficient deeds, and other instruments, conveying, assigning and transferring the properties and franchises sold, subject severally and respectively to the liens thereon which then shall be prior and superior to the lien of this indenture. The Trustee and its successors hereby are appointed the true and lawful attorneys irrevocable of the Railroad Company, in its name and stead to make all necessary conveyances and assignments of property and all necessary transfers of shares of stock or bonds or other obligations thus sold; and for that purpose it and they may execute all necessary deeds and instruments of assignment and transfer, and may substitute one or more persons with like power; the Railroad Company hereby ratifying and confirming all that its said attorneys or such substitute or substitutes shall lawfully do by virtue hereof.

Any such sale or sales made under or by virtue of this indenture, whether under the power of sale herein granted and

Exhibit R-129.

conferred, or under or by virtue of judicial proceedings, shall operate to divest all right, title, interest, claim and demand whatsoever, either at law or in equity, of the Railroad Company, of, in and to the premises and property so sold, and shall be a perpetual bar both at law and in equity, against the Railroad Company, its successors and assigns, and against any and all persons claiming or to claim the premises or property sold, or any part thereof, from, through or under the Railroad Company, its successors or assigns.

The personal property and chattels conveyed or intended to be conveyed by or pursuant to this indenture, other than stocks, bonds and other securities and claims, shall be real estate for all the purposes of this indenture, and shall be held and taken to be fixtures and appurtenances of the said railroads and part thereof, and are to be used and sold therewith and not separate therefrom, except as herein otherwise provided.

SEC. 11. The receipt of the Trustee for the purchase money paid at any such sale shall be a sufficient discharge therefor to any purchaser of the property or any part thereof, sold as aforesaid; and no such purchaser or his representatives, grantees or assigns, after paying such purchase money and receiving such receipt, shall be bound to see to the application of such purchase money upon or for any trust or purpose of this indenture, or in any manner whatsoever be answerable for any loss, misapplication or non-application of any such purchase money or any part thereof, or be bound to inquire as to the authorization, necessity, expediency or regularity of any such sale.

SEC. 12. In case of such sale under the foregoing provisions of this Article, whether made under the power of sale herein granted or pursuant to judicial proceedings, or in case of a sale upon foreclosure of the said First Consolidated Mortgage Deed dated December 10, 1893, or of the said Indenture dated February 1, 1901, by reason of a default of the Railroad Company thereunder, the principal sums of the bonds hereby secured, if not previously due, shall immediately thereupon become due and payable, anything in said bonds or in this indenture to the contrary notwithstanding.

Exhibit R-129.

Sec. 13. The purchase money, proceeds or avails of any such sale, whether under the power of sale herein granted or pursuant to judicial proceedings, together with any other sums which then may be held by the Trustee under any of the provisions of this indenture as part of the trust estate or the proceeds thereof, shall be applied as follows:

First. To the payment of the costs and expenses of such sale, including a reasonable compensation to the Trustee, its agents, attorneys and counsel, and of all expenses, liabilities and advances made or incurred by the Trustee, and to the payment of all taxes, assessments or liens prior to the lien of these presents, except the superior liens and any taxes, assessments or other charges subject to which the property shall have been sold.

Second. To the payment of the whole amount then owing or unpaid upon the bonds hereby secured for principal and interest, with interest at the rate of four per cent. per annum on the overdue installments of interest, and in case such proceeds shall be insufficient to pay in full the whole amount so due and unpaid upon the said bonds, then to the payment of such principal and interest, without preference or priority of principal over interest, or of interest over principal, or of any installment of interest over any other installment of interest, ratably, to the aggregate of such principal and the accrued and unpaid interest, subject, however, to the provisions of section 1 of this Article Four.

Third. To the payment of the surplus, if any, to the Railroad Company, its successors or assigns, or to whomsoever may be lawfully entitled to receive the same.

Sec. 14. Upon any such sale by the Trustee or pursuant to judicial proceedings, any purchaser, for or in settlement or payment of the purchase price of the property purchased, shall be entitled to use and apply any bonds, and any matured and unpaid coupons hereby secured, by presenting such bonds and coupons in order that there may be credited thereon the sums applicable to the payment thereof out of the net proceeds of such sale to the owner of such bonds and coupons, as his ratable share of such net proceeds, after the deduction of costs, expenses, compensations and other charges; and thereupon such purchaser shall be credited, on account of such purchase

Exhibit B-129.

price payable by him, with the portion of such net proceeds that shall be applicable to the payment of, and that shall have been credited upon, the bonds and coupons so presented; and, at any such sale, any bondholders may bid for and purchase, such property and may make payment therefor as aforesaid, and, upon compliance with the terms of sale, may hold, retain and dispose of such property without further accountability.

Sec. 15. The Railroad Company covenants that (1) in case default shall be made in the payment of any interest on any bond or bonds at any time outstanding and secured by this indenture, and such default shall have continued for the period of six months, or (2) in case default shall be made in the payment of the principal of any such bonds when the same shall become payable, whether upon the maturity of said bonds, or upon declaration as authorized by this indenture, or upon a sale as set forth in Section 12 of this Article Four,—then, upon demand of the Trustee, the Railroad Company will pay to the Trustee, for the benefit of the holders of the bonds and coupons hereby secured, then outstanding, the whole amount that then shall have become due and payable on all such bonds and coupons then outstanding, for interest or principal, or both, as the case may be, with interest at the rate of four per cent. per annum upon the overdue principal and installments of interest; and in case the Railroad Company shall fail to pay the same forthwith upon such demand, the Trustee, in its own name and as trustee of an express trust, shall be entitled to recover judgment for the whole amount so due and unpaid.

The Trustee shall be entitled to recover judgment as aforesaid, either before or after or during the pendency of any proceedings for the enforcement of the lien of this indenture, and the right of the Trustee to recover such judgment shall not be affected by any entry or sale hereunder, or by the exercise of any other right, power or remedy for the enforcement of the provisions of this indenture or the foreclosure of the lien thereof; and in case of a sale of the property subject to this indenture, and of the application of the proceeds of sale to the payment of the debt hereby secured, the Trustee, in its own name and as trustee of an express trust, shall be entitled to enforce payment of and to receive all amounts then remaining due and unpaid upon any and all of the bonds issued hereunder and then outstanding, for the benefit of the holders thereof.

Exhibit B-129.

and shall be entitled to recover judgment for any portion of the debt remaining unpaid, with interest. No recovery of any such judgment by the Trustee, and no levy of any execution upon any such judgment upon property subject to this indenture, or upon any other property, shall in any manner or to any extent affect the lien of this indenture upon the property or any part of the property subject to this indenture, or any rights, powers or remedies of the Trustee hereunder, or any lien, rights, powers or remedies of the holders of the bonds hereby secured, but such lien, rights, powers and remedies of the Trustee and of the bondholders shall continue unimpaired as before.

Any moneys thus collected by the Trustee under this section shall be applied by the Trustee towards payment of the amounts then due and unpaid upon such bonds and coupons in respect of which such moneys shall have been collected, ratably and without any preference or priority of any kind (except as provided in Section 1 of this Article Four), according to the amounts due and payable upon such bonds and coupons, respectively, at the date fixed by the Trustee for the distribution of such moneys, upon presentation of the several bonds and coupons and stamping such payment thereon, if partly paid, and upon surrender thereof, if fully paid.

Sec. 16. The Railroad Company will not at any time insist upon or plead, or in any manner whatever claim or take the benefit or advantage of, any stay or extension law, now or at any time hereafter in force, nor will it claim, take or insist upon, any benefit or advantage from any law now or hereafter in force providing for the valuation or appraisement of the property or any part of the property subject to this indenture, prior to any sale or sales thereof to be made pursuant to any provision herein contained, or to the decree, judgment or order of any court of competent jurisdiction, nor after any such sale or sales will it claim or exercise any right under any statute enacted by any State, or otherwise, to redeem the property so sold or any part thereof, and it hereby expressly waives all benefit and advantage of any such law or laws, and it covenants that it will not hinder, delay or impede the execution of any power herein granted and delegated to the Trustee, but that it will suffer and permit the execution of every such power as though no such law or laws had been made or enacted.

Exhibit R-120.

SEC. 17. Upon filing a bill in equity, or upon commencement of any other judicial proceedings, to enforce any right of the Trustee or of the bondholders under this indenture, the Trustee shall be entitled to exercise the right of entry, and also any and all other rights and powers, herein conferred and provided to be exercised by the Trustee upon the occurrence and continuance of default, as hereinbefore provided; and, as matter of right, the Trustee shall be entitled to the appointment of a receiver of the premises and property subject to this indenture, and of the earnings, income, revenue, rents, issues or profits thereof, with such powers as the Court making such appointment shall confer; but notwithstanding the appointment of any receiver, the Trustee shall be entitled, as pledgee, to continue to retain possession and control of any stocks, bonds, cash and other property pledged or to be pledged with the Trustee hereunder.

SEC. 18. At any time hereafter before full payment of the bonds secured hereby, and when ever it shall deem expedient for the better protection or security of such bonds (although then there shall be no default entitling the Trustee to exercise the rights and powers conferred by Sections 2 and 3 of this Article Four), the Railroad Company, with the consent of the Trustee, may surrender and may deliver to the Trustee full possession of the whole or of any part of the property, premises and interests hereby conveyed or assigned, or intended so to be, and may authorize the Trustee to collect the dividends and interest on all shares of stock, bonds and other obligations subject to this indenture, and to vote upon all such shares of stock, bonds and other obligations subject to this indenture, and to vote upon all such shares of stock, for any period fixed or indefinite. In such event the Trustee shall enter into and upon the premises and property so surrendered and delivered, and shall take and receive possession thereof, for such period, fixed or indefinite, as aforesaid, without prejudice, however, to its right at any time subsequently, when entitled thereto by any provision hereof, to insist upon maintaining and to maintain such possession though beyond the expiration of any such prescribed period, and the Trustee, from the time of its entry upon such premises and property, shall work, maintain, use, manage, control and employ the same in accordance with the provisions of this indenture, and shall receive and apply the income and

Exhibit R-120.

revenues thereof as provided in Section 2 of this Article Four. Upon application of the Trustee, and with the consent of the Railroad Company, if then there be no subsisting default such as is specified in said Section 2 of this Article Four, and without such consent if then there shall be such a subsisting default, a receiver may be appointed to take possession of, and to operate, maintain and manage the whole or any part of the property subject to this indenture, and the Railroad Company shall transfer and deliver to such receiver all such property, wheresoever the same may be situated; and in every case, when a receiver of the whole or of any part of said property shall be appointed under this section, or otherwise, the net income and profits of such property shall be paid over to, and shall be received by, the Trustee, for the benefit of the holders of the bonds hereby secured; *provided, however*, that notwithstanding the appointment of any such receiver, the Trustee, as pledgee, shall be entitled to retain possession and control of any stocks, bonds, cash and other property pledged or to be pledged with the Trustee hereunder.

SEC. 19. In case of any default hereunder, if, in order to preserve the franchises of the Railroad Company and to avoid foreclosure and sale involving the organization of a successor company, any plan of reorganization shall be proposed with provisions for the modification of this indenture, as far as to authorize and require the creation of new liens upon the property subject to this indenture, prior and superior to the lien hereof, then, and in every such case, registered holders of four-fifths in amount of all of the bonds hereby secured then outstanding, by writing, may direct the Trustee, in behalf of all the holders of all bonds then or thereafter issued hereunder, to acquiesce in the provisions of such plan, which plan also may determine and provide for the interests of other creditors and lienors and of the shareholders of the Railroad Company. This special power, however, is granted to the registered holders of four-fifths in amount of the bonds upon the express condition that no bond hereby secured and then outstanding shall be changed as to the amount of principal or the date of payment thereof, or as to the rate or dates of payment of interest, or as to the price or rate at which shares of common stock will be issued in conversion of any such bond according to the terms thereof, as herein contemplated. Thereupon, but not otherwise,

Exhibit R-120.

the Trustee shall, by writing, acquiesce in such provisions of such plan, and such acquiescence by the Trustee shall constitute the irrevocable assent of all holders of bonds and coupons hereby secured to any such accepted modifications, as set forth in such plan and necessary to give effect to such provisions thereof. All such modifications so affecting this indenture and the bonds and coupons hereby secured, shall be reduced to a written agreement between the Railroad Company and the Trustee, and such agreement shall be recorded in New York County, New York; Passaic County, New Jersey; Susquehanna County, Pennsylvania; Marion County, Ohio; Huntington County, Indiana, and Cook County, Illinois; and, thenceforth, shall be deemed to be part of this indenture, and thereafter the lien of this indenture, and of the bonds hereby secured, shall be deemed to be, and shall be, subordinate to such new and prior liens created pursuant to such plan, but only to the extent specified in such written agreement.

Registration for any purpose of this section shall be sufficient if then or theretofore made and then continuing in any manner permitted by Section 3 of Article Two of this indenture.

SEC. 20. No holder of any bond or coupon hereby secured shall have any right to institute any suit, action or proceeding in equity or at law for the foreclosure of this indenture, or for the execution of any trust hereunder, or for the appointment of a receiver, or for any other remedy hereunder, unless such holder previously shall have given to the Trustee written notice of such default, and of the continuance thereof, as hereinbefore provided; nor unless, also, the holders of twenty-five per cent. in amount of the bonds hereby secured, then outstanding, shall have made written request upon the Trustee, and shall have afforded to it a reasonable opportunity, either to proceed to exercise the powers hereinbefore granted, or to institute such action, suit or proceeding in its own name; nor, unless, also, they shall have offered to the Trustee adequate security and indemnity against the costs, expenses and liabilities to be incurred therein or thereby; and such notification, request and offer of indemnity are hereby declared, in every such case, at the option of the Trustee, to be conditions precedent to the execution of the powers and trusts of this indenture for the benefit of the bondholders, and to any action or cause of action for foreclosure or for the appointment of a receiver or for any

Exhibit R-120.

other remedy hereunder; it being understood and intended that no one or more holders of bonds and coupons shall have any right in any manner whatever by his or their action to affect, disturb or prejudice the lien of this indenture, or to enforce any right hereunder except in the manner herein provided, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner herein provided and for the equal benefit of all holders of such outstanding bonds and coupons.

SEC. 21. Except as herein expressly provided to the contrary, no remedy herein conferred upon or reserved to the Trustee, or to the holders of bonds hereby secured, is intended to be exclusive of any other remedy or remedies, and each and every such remedy shall be cumulative, and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute.

SEC. 22. No delay or omission of the Trustee, or of any holder of bonds hereby secured, to exercise any right or power accruing upon any default continuing as aforesaid, shall impair any such right or power, or shall be construed to be a waiver of any such default, or an acquiescence therein; and every power and remedy given by this Article to the Trustee, or to the bondholders, may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the bondholders.

ARTICLE FIVE.

No recourse under or upon any obligation, covenant or agreement contained in this indenture, or in any bond or coupon hereby secured, or because of the creation of any indebtedness hereby secured, shall be had against any incorporator, stockholder, officer or director of the Railroad Company, or of any successor corporation, either directly or through the Railroad Company, by the enforcement of any assessment or by any legal or equitable proceeding by virtue of any statute or otherwise; it being expressly agreed and understood that this indenture, and the obligations hereby secured, are solely corporate obligations, and that no personal liability whatever shall attach to, or be incurred by, the incorporators, stockholders, officers or directors of the Railroad Company or of any successor cor-

Exhibit R-120.

poration, or any of them, because of the incurring of the indebtedness hereby authorized, or under or by reason of any of the obligations, covenants or agreements contained in this indenture, or in any of the bonds or coupons hereby secured, or implied therefrom; and that any and all personal liability of every name and nature, and any and all rights and claims against, every such stockholder, officer or director, whether arising at common law or in equity, or created by statute or constitution, are hereby expressly released and waived as a condition of, and as part of the consideration for, the execution of this indenture and the issue of the bonds and interest obligations secured hereby.

ARTICLE SIX.

SECTION 1. Any demand, request or other instrument, required by this indenture to be signed and executed by bondholders, may be in any number of concurrent writings of similar tenor, and may be signed or executed by such bondholders in person or by agent appointed in writing. Proof of the execution of any such demand, request or other instrument, or of the writing appointing any such agent, and of the ownership by any person of coupon bonds transferable by delivery, shall be sufficient for any purpose of this indenture, and shall be conclusive in favor of the Trustee or of the Railroad Company with regard to due action taken by it under such instrument, if such proof be made in the following manner:

The fact and date of the execution by any person of any such demand, request, or other instrument or writing, may be proved by the certificate of any notary public, or other officer authorized to take acknowledgments of deeds to be recorded in New York, that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness to such execution.

The fact of the holding by any bondholder of coupon bonds transferable by delivery, and the amounts and issue numbers and serial letter of such bonds, and the date of his holding the same, may be proved by a certificate executed by any trust company, bank, bankers or other depository (wherever situated), if such certificate shall be deemed by the Trustee to be satisfactory, showing that at the date therein mentioned such person had on deposit with such depository the bonds described

Exhibit R-120.

in such certificate. The ownership of registered coupon bonds or of registered bonds without coupons shall be proved by the registers of such bonds.

SEC. 2. The Railroad Company and the Trustee may deem and may treat the bearer of any coupon bond hereby secured, which shall not at the time be registered as hereinbefore authorized, and the bearer of any coupon for interest on any such bond, whether such bond shall be registered or not, as the absolute owner of such bond or coupon, as the case may be, for the purpose of converting the bond, or of receiving payment of any bond or coupon, and for all other purposes, and neither the Railroad Company nor the Trustee shall be affected by any notice to the contrary.

The Railroad Company and the Trustee may deem and treat the person in whose name any registered bond without coupons, issued hereunder, shall be registered upon the books of the Railroad Company as hereinbefore provided, as the absolute owner of such bond, for the purpose of converting the bond, or of receiving payment of, or on account of, the principal and interest of such bond, and for all other purposes, and may deem and treat the person in whose name any coupon bond shall be so registered as the absolute owner thereof, for the purpose of converting the bond, or of receiving payment of or on account of, the principal thereof, and for all other purposes, except to receive payment of interest represented by outstanding coupons; and all such conversions or payments so made to any such registered holder for the time being, or upon his order, shall be valid, and effectual to satisfy and discharge the obligation to convert such bonds, and to the extent of the sum or sums so paid the liability for moneys payable upon any such bonds.

ARTICLE SEVEN.

SECTION 1. Upon the written request of the President or of a Vice-President of the Railroad Company, approved of or authorized by resolution of its Board of Directors or Executive Committee, from time to time, while the Railroad Company is in possession of any of the property subject to this indenture, but subject to the conditions and limitations in this section prescribed, and not otherwise, the Trustee shall release from the lien and operation of this indenture any part of the railways, lands and other property then subject thereto, except

Exhibit R-120.

stocks, bonds and other securities; *provided* (1) that no part of the lines of track or of the rights of way shall be released unless the use thereof no longer shall be necessary or advantageous in the operation of any of the lines of railway subject to this indenture, and no part of such lines of track or rights of way shall so be released if thereby the continuity of the lines of railway of the Railroad Company shall be broken; and (2) that no part of the railways or other property subject to this indenture shall be released hereunder, unless at the time of such release it no longer shall be necessary or advantageous to retain the same for the operation, maintenance or use of such lines of railway, or for use in the business of the Railroad Company, and no such release shall be made unless the Railroad Company shall have sold, or shall have contracted to exchange for other property or to sell, the property so to be released.

The proceeds of any and all such sales, and all moneys received as compensation for any property subject to this indenture taken by exercise of the power of eminent domain (unless applied in accordance with the requirements of the said indentures dated December 10, 1895, and February 1, 1901, severally and respectively) shall be set apart and applied, with the approval of the Trustee, to the purchase of other property, real or personal, or for betterments of or improvements upon any part of the mortgaged premises. Any new property acquired by the Railroad Company to take the place of any property released hereunder, *ipso facto*, shall become and be subject to this indenture, as fully as if specifically mortgaged or assigned hereby, but, if requested by the Trustee, the Railroad Company will convey and assign the same to the Trustee by appropriate deeds or other instruments upon the trusts and for the purposes of this indenture.

The Railroad Company, from time to time, while in possession of any of the property subject to this indenture, also shall have full power, in its discretion, to dispose of any portion of the machinery, equipment and implements, at any time subject to the lien hereof, which may have become unfit for such use, replacing the same by new machinery, equipment or implements, which shall become subject to this indenture.

In no event shall any purchaser or purchasers of any property sold or disposed of under any provision of this Article be required to see to the application of the purchase money.

Exhibit R-120.

Sec. 2. Upon the written request of the President or of a Vice-President of the Railroad Company, authorized or approved by resolution of the Board of Directors or of the Executive Committee of the Railroad Company, the Trustee, from time to time, shall execute such releases or other instruments as may be required to release from the lien and operation of this indenture, the leasehold interest, or the term of the lessee or lessees and assigns, under any lease or sub-lease, which may be executed by the Railroad Company or by any lessor Company of any land subject to this indenture or embraced in any lease pledged or assigned under this indenture, which is not embraced in the right of way of the mortgaged railroad or of any leased railroad and is not used for the purpose of stations, yards, round-houses, freight houses, machine shops, docks or gravel-beds, or other purposes connected with the maintenance or operation of the railroad, and thereupon such leasehold interest or term shall be free from the lien and operation of this indenture. The reversion under any such lease shall be and shall remain subject to this indenture.

Sec. 3. In case any of the property subject to this indenture shall be in the possession of a receiver lawfully appointed, the powers in and by this Article conferred upon the Railroad Company may be exercised by such receiver with the approval of the Trustee; and if the Trustee shall be in possession of any of such property under any provision of this indenture, then all the powers of this Article conferred upon the Railroad Company may be exercised by the Trustee in its discretion.

Sec. 4. The Railroad Company from time to time may make changes or alterations in, or substitutions of, any leases, trackage rights or contracts that are subject to this indenture; provided that in case of any changes or alterations in, or any substitutions of, any leases, contracts or trackage rights, by which the Railroad Company now secures access to any point or points, the written consent of the trustee under the said First Consolidated Mortgage Deed, dated December 10, 1895, shall first be obtained so far as concerns any such leases, contracts of trackage rights subject to said indenture, and the written consent of the Trustee hereunder shall first be obtained so far as concerns any such leases, contracts or trackage rights, subject to this indenture and not subject to said First Consoli-

Exhibit R-120.

dated Mortgage Deed. In any such event, any modified, altered or substituted leases, contracts or trackage rights forthwith shall become bound by and be subject to the terms of this indenture, in the same manner as those previously existing.

SEC. 5. A certificate signed by the President or any Vice-President, or the Chief Engineer of the Railroad Company, may be received by the Trustee as conclusive evidence of any of the facts mentioned in this Article, and shall be full warrant to the Trustee for its action on the faith thereof.

ARTICLE EIGHT.

SECTION 1. The Trustee, shall not be answerable for the default or the misconduct of any agent or attorney appointed in pursuance hereof, if such agent or attorney shall have been selected with reasonable care; nor shall any trustee be responsible for the acts or defaults of any other trustee or trustees, or for anything whatever in connection with this trust, except each for its or his willful misconduct or gross negligence. The Trustee shall be protected in acting upon any notice, request, consent, certificate, bond or other paper or document, believed by it to be genuine and to have been signed by the proper party. The Trustee shall not be personally liable for any debts duly contracted by it, or for damages to persons or property carried or injured, or for salaries or non-fulfillment of contracts, during any period wherein the Trustee shall manage the trust property or premises upon entry or voluntary surrender as aforesaid. Neither shall the Trustee be under any obligation to take any action towards the execution or enforcement of the trusts hereby created, which, in the opinion of the Trustee, shall be likely to involve expense or liability, unless one or more of the holders of the bonds hereby secured shall, as often as required by the Trustee, furnish reasonable indemnity against such expense or liability; nor shall the Trustee be required to take notice of any default hereunder, unless notified in writing of such default by the holders of at least five per cent. in amount of the bonds hereby secured then outstanding, or to take any action in respect of any default unless requested to take action in respect thereof by a writing signed by the holders of not less than twenty-five per cent. in amount of the bonds hereby secured, then outstanding, and tendered reasonable indemnity

Exhibit R-120.

as aforesaid, anything herein contained to the contrary notwithstanding; but the foregoing provisions of this section are intended only for the protection of the Trustee and shall not be construed to affect any discretion or power by any provision of this indenture given to the Trustee, to determine whether or not it shall take action in respect of any default without such notice or request from bondholders, or to affect any other decision or power given to the Trustee. The Trustee shall not be responsible for the recording of this indenture and shall not be required to file the same as a chattel mortgage.

The Trustee shall be reimbursed for, and be indemnified against, any liability or damages which may be sustained by it in the premises. The Trustee shall have, secured hereby upon the property covered by this indenture, a lien prior to that of any bond issued under this indenture, for its compensation and expenses, and also for any liability or damage by it sustained in the premises.

The Trustee shall not be responsible in any manner whatsoever for the validity hereof, or for the amount or the extent of the security afforded by the property covered hereby, or for the recitals herein or in said bonds contained, all such recitals being and to be taken as the statements of the Railroad Company; nor shall it be accountable for the use of any bonds certified and delivered by the Trustee hereunder or for the application of the proceeds of such bonds.

The Trustee shall be entitled to reasonable compensation for all services rendered by it in the execution of the trusts hereby created, and the Railroad Company agrees to pay such compensation as well as all expenses necessarily incurred or disbursed by the Trustee hereunder.

SEC. 2. The Trustee, or any trustee or trustees hereafter appointed, may resign and be discharged from the trusts created by this indenture by giving to the Railroad Company and to the bondholders, notice by publication of such resignation, specifying a date when such resignation shall take effect, which notice shall be published at least once a day not less than thirty days nor more than sixty days prior to the date so specified, in a newspaper at that time published in New York, N. Y., and in a newspaper published in Chicago, Illinois. Such resignation shall take effect on the day specified in such notice, unless previously a successor trustee shall have been appointed as here-

Exhibit R-120.

inafter provided, in which event such resignation shall take effect immediately upon the appointment of such successor trustee.

Any trustee or trustees hereunder may be removed at any time by an instrument in writing under the hands of the holders of one-half in amount of the bonds hereby secured and then outstanding.

Sec. 3. In case at any time the Trustee, or any successor trustee, shall resign or shall be removed or otherwise shall become incapable of acting, a successor or successors may be appointed by the holders of a majority in amount of the bonds hereby secured then outstanding, by an instrument or instruments signed by such bondholders or their attorneys-in-fact duly authorized; but until a new trustee shall be appointed by the bondholders as herein authorized, the Railroad Company, by an instrument executed by order of its board of directors, may appoint a trustee to fill such vacancy; *provided, however,* that every such trustee shall be a trust company in the City of New York, having a capital and surplus aggregating at least \$2,000,000, if there be such a trust company willing and able to accept the trust upon reasonable or customary terms. After any such appointment by the Railroad Company, it shall publish notice of such appointment once in each of four successive weeks in a newspaper published in New York, N. Y., and a newspaper published in Chicago, Illinois; and any new trustee so appointed by the Railroad Company shall immediately and without further act be superseded by a new trustee appointed in the manner above provided by the holders of a majority in amount of the bonds hereby secured, if such appointment by such bondholders be made prior to the expiration of six months after such publication of notice.

Any successor trustee appointed hereunder shall execute, acknowledge and deliver to the Railroad Company, an instrument accepting such appointment hereunder, and thereupon such successor trustee, without any further act, deed or conveyance shall become vested with all the estates, properties, rights, powers, trusts, duties and obligations of its predecessor in the trust hereunder, with like effect as if originally named as trustee herein; but nevertheless, on the written request of the Railroad Company or of the successor trustee, the trustee ceasing to act shall execute and deliver an instrument trans-

transferring to such successor trustee, upon the trusts herein expressed, all the estates, properties, rights, powers and trusts of the trustee so ceasing to act, and shall duly assign, transfer and deliver its interest in any stocks, bonds or other property and moneys subject to this indenture to the successor trustee so appointed in its place; and, upon request of any such successor trustee, the Railroad Company shall make, execute, acknowledge and deliver any and all deeds, conveyances or other instruments in writing for more fully and certainly vesting in and confirming to such successor trustee all such estates, properties, rights, powers and duties.

If at any time or times, in order to conform to any law of any State in which the Railroad Company may hold property, the Railroad Company shall so request, the Railroad Company and the Trustee shall unite in the execution, delivery and performance of all instruments and agreements necessary or proper to appoint another trust company or one or more persons approved by the Trustee, to act either as co-trustee or as co-trustees, for any purpose of this indenture, of all or any of the property subject to this indenture jointly with the Trustee originally named herein or its successors, or to act as separate trustee or trustees of any of such property.

ARTICLE NINE.

SECTION 1. Until some default shall have been made in the due and punctual payment of the interest or of the principal of the bonds at any time outstanding and hereby secured, or of some part of such interest or principal, or in the due and punctual performance and observance of some covenant or condition hereof obligatory upon the Railroad Company, and, until such default shall have continued beyond the period of grace, if any, herein provided in respect thereof, or until the Railroad Company voluntarily shall have surrendered possession to the Trustee as herein permitted, the Railroad Company, its successors and assigns, shall be suffered and permitted to retain actual possession of all the property subject to this indenture (other than bonds, certificates of stock, cash and other property pledged or to be pledged hereunder with the Trustee), and to manage, operate and use the same and every part thereof, with the rights and franchises appertaining thereto, and to collect, receive, take, use and enjoy the tolls, earnings, income, rents, issues and profits thereof.

Exhibit B-129.

Sec. 2. If, when the bonds hereby secured shall have become due and payable, the Railroad Company shall well and truly pay, or cause to be paid, the whole amount of the principal and interest due upon all of the bonds and coupons hereby secured, then outstanding, or shall provide for the payment of such bonds and coupons by depositing with the Trustee hereunder the entire amount due thereon for principal and interest, and also shall pay, or cause to be paid, all other sums payable hereunder by the Railroad Company, and shall well and truly keep and perform all the things herein required to be kept and performed by it according to the true intent and meaning of this indenture, then and in that case all property, rights and interests hereby conveyed or assigned or pledged shall revert to the Railroad Company, and the estate, rights, title and interest of the Trustee shall thereupon cease, determine and become void; and the Trustee in such case, on demand of the Railroad Company, and at its cost and expense, shall enter satisfaction of this indenture upon the record; otherwise the same shall be, continue and remain in full force and virtue.

ARTICLE TEN.

SECTION 1. All the covenants, stipulations, promises and agreements in this indenture contained, by or in behalf of the Railroad Company, shall bind its successors and assigns, whether so expressed or not.

Sec. 2. Nothing contained in this indenture or in any bond hereby secured, shall prevent any consolidation or merger of the Railroad Company with any other corporation, or any conveyance and transfer (subject to the continuing lien of this indenture and to all provisions thereof), of all the property subject to this indenture as an entirety to a railroad corporation at that time existing under and by virtue of the laws of any State or States, and empowered to acquire the same; provided, however, that such consolidation, merger or sale shall not impair the lien and security of this indenture, or any of the rights or powers of the Trustee or of the bondholders hereunder, and that upon such consolidation, merger or sale, the due and punctual payment of the principal and interest of all of the bonds hereby secured, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of this indenture, shall be assumed

Exhibit R-129.

by the corporation formed by such consolidation or merger, or purchasing as aforesaid.

SEC. 3. In case, pursuant to Section 2 of this Article, the Railroad Company shall be consolidated or merged with any other corporation, or shall sell, convey and transfer (subject to this indenture), all the property covered by this indenture, as an entirety as aforesaid, the successor corporation formed by such consolidation, or into which the Railroad Company shall have been merged, or which shall have purchased and received a conveyance and transfer, as aforesaid—upon executing and causing to be recorded an instrument satisfactory to the Trustee, whereby such successor corporation shall assume the due and punctual payment of the principal and interest of the bonds hereby secured, and the performance of all the covenants and conditions of this indenture—shall succeed to, and be substituted for, the Railroad Company, party of the first part hereto, with the same effect as if it had been named herein as such party of the first part; and such successor corporation thereupon may cause to be signed, and may issue, either in its own name or in the name of the Erie Railroad Company, any or all of such bonds which theretofore shall not have been signed by the Erie Railroad Company and delivered to the Trustee; and, upon the order of said successor corporation, in lieu of the Railroad Company, and subject to all the terms, conditions and restrictions herein prescribed, the Trustee shall certify and shall deliver any of such bonds which previously shall have been signed and delivered by the officers of the Railroad Company to the Trustee for certification, and any of such bonds which such successor corporation thereafter shall cause to be signed and delivered to the Trustee for that purpose. All the bonds so issued shall, in all respects, have the same legal rank and security as the bonds theretofore or thereafter issued in accordance with the terms of this indenture, as though all of said bonds had been issued at the date of the execution hereof.

SEC. 4. For every purpose of this indenture, including the execution, issue and use of any and all bonds hereby secured, the terms "Railroad Company" and "Erie Railroad Company" include and mean not only the party of the first part hereto, but also any such successor corporation formed by consolidation

Exhibit R-120.

or otherwise under the laws of New York or of any State or States. Every such successor or purchasing corporation shall possess, and from time to time may exercise, each and every right and power hereunder of the Erie Railroad Company, in its name or otherwise.

SEC. 5. Any act or proceeding, by any provision of this indenture authorized or required to be done or performed by any board or officer of the Railroad Company, shall and may be done and performed with like force and effect by the like board or officer of any railroad corporation that shall at the time of such lawful sole successor or purchaser of the Railroad Company.

SEC. 6. Nevertheless, before the exercise of the powers conferred by this Article, the Railroad Company, by instrument in writing executed by authority of two-thirds of its board of directors and delivered to the Trustee, may surrender any of the powers reserved to the Railroad Company or to such successor corporation; and thereupon such power so surrendered shall terminate.

THE STANDARD TRUST COMPANY OF NEW YORK, Trustee, the party hereto of the second part, hereby accepts the trusts in this indenture declared and provided, and agrees to perform the same upon the terms and conditions hereinbefore set forth.

In order to facilitate the record of this indenture, the same may be simultaneously executed in several counterparts, each of which when so executed shall be deemed to be an original; and such counterparts shall together constitute but one and the same instrument.

The Erie Railroad Company hereby constitutes and appoints Frederick D. Underwood to be its attorney for it and in its name, and as and for its corporate act and deed, to acknowledge this mortgage deed before any person having authority by the laws of the Commonwealth of Pennsylvania to take such acknowledgment to the intent that the same may be duly recorded.

THE STANDARD TRUST COMPANY OF NEW YORK hereby constitutes and appoints William C. Lane to be its attorney for it and in its name, and as and for its corporate act and deed, to acknowledge this mortgage deed before any person having

Exhibit R-120.

authority by the laws of the Commonwealth of Pennsylvania to take such acknowledgment to the intent that the same may be duly recorded.

In witness whereof, the Erie Railroad Company, the party hereto of the first part, has caused this indenture to be signed and acknowledged or proved by its President, and its corporate seal to be hereunto affixed, and the same to be attested by the signature of its Secretary; and The Standard Trust Company of New York, the party of the second part, has caused its corporate seal to be hereunto affixed and to be attested by its Secretary, and these presents to be signed and acknowledged or proved by its President, the day and year first above written.

*Amended Petition.***Petition.**

To the Board of Public Utility Commissioners of New Jersey:

The amended petition of the Board of Finance of the City of Paterson respectfully shows unto your honorable body:

10

1. That the Board of Finance of the City of Paterson is the Board or body having charge of the finances of the municipality known as "City of Paterson"; that it heretofore under date of March 15th, 1913, filed with the Board of Public Utility Commissioners a petition for relief against the Erie Railroad Company, which maintains certain grade crossings in the City of Paterson.

2. This amended petition is filed by virtue of a resolution of the Board of Finance passed on the eleventh day of September, 1913, a copy of which resolution is hereto attached and marked Exhibit 1.

20

3. The Erie Railroad Company operates a railroad running through the City of Paterson, in the County of Passaic and State of New Jersey, entering the said city from the south at the border line of the Township of Acquackanonk, and thence running in a northwesterly direction to about Taylor street, where it assumes a northerly direction, running to about Godwin street in the said city, where it assumes a northeasterly direction, finally crossing the city line into the Borough of Hawthorne at the Passaic River.

30

4. In passing through the city said railroad crosses a great number of streets and highways at grade, and such crossing, and each of them, are dangerous to public safety, and public travel on the said streets and highways where the same are so crossed and on each of them is greatly impeded by reason of the said railroad crossing them at grade.

40

Amended Petition.

5. Your petitioner further shows that it is informed that the said Erie Railroad Company operates said railroad by virtue of a lease from two separate railroad companies.

10 6. Your petitioner is informed that the main right of way of the said railroad from a point at about Market street to the line of the Township of Acquackanonk is owned by the Paterson and Hudson River Railroad Company, which leases the said right of way to the Erie Railroad Company, which of its own right owns certain property adjacent to the said right of way and upon which are located certain side tracks and switches.

20 7. Your petitioner is informed that the main right of way of the said railroad from a point about Market street to the line of the Borough of Hawthorne is owned by the Paterson and Ramapo Railroad Company, which leases the said right of way to the Erie Railroad Company, which of its own right owns certain property adjacent to the said right of way and upon which are located certain side tracks and switches.

30 8. Your petitioner further shows that for a great many years the necessity of altering those grade crossings has been recognized by the people of the City of Paterson, and at various times the question of relief from the same has been taken up by various official and public boards or bodies of the City of Paterson.

9. That the Mayor of the City of Paterson has frequently endeavored to have the Erie Railroad Company enter into some arrangement for altering the said crossings.

40 10. That several years ago the Erie Railroad Company submitted to the Board of Trade of the City of Paterson for the consideration of the said board and the municipal authorities a plan for the abolition of

Amended Petition.

said crossings together with an estimate of the cost of said work. That the negotiations were unsuccessful because the proposition offered by the railroad company included the lending of money by the City of Paterson to the said company, which lending is forbidden by the constitution of the State of New Jersey. Your petitioner believes that the said railroad company now has on hand plans for the altering of the said crossings.

10

11. Accompanying this petition is a set of maps showing the crossings concerning which relief is sought. The first is a map entitled, "Map Showing Grade Crossings of the Erie Railroad." On the said map the crossings concerning which this petition is filed are indicated by letters of the alphabet, as follows:

- A. Madison Avenue.
- B. Clay and Straight Streets.
- C. Cedar street.
- D. Market street and Park Avenue.
- E. Ellison Street.
- F. Van Houten Street.
- G. Broadway.
- H. Fair Street.
- I. Hamilton Avenue.
- J. Lafayette Street.
- K. Franklin Street.
- L. Keen Street.
- M. Warren Street.
- N. River and Putnam Streets.

20

30

The following crossings as shown on the said map are not at grade but are carried under the said railroad: Essex street, Governor street, Fulton and Straight streets.

12. The said map referred to above shows the area which may possibly be affected by any order that may be made granting the relief sought by this petition.

40

Amended Petition.

10 The other maps accompanying this petition show more in detail each of said crossings and are lettered as shown in section 11 above. The said maps show all water or sewer pipes or other municipal pipe conduits or subways, street railways and any property or construction of any telegraph, telephone, gas, electric, lighting power, water, oil, pipe line or other public utility located within the limits of each of such crossings or within such area. They show also the elevation above sea level at the said crossings and at the nearest cross streets.

20 13. Your petitioner shows that during the months of March and April, 1913, an inspection of the said crossings was caused to be made by your petitioner for the purpose of ascertaining the frequency with which trains passed over the said crossings and the use of the same by vehicles and pedestrians. Such inspection was made at a time when a strike of textile workers was in progress in the city and most of the mills were closed so that the use of the said crossings by vehicles and pedestrians is probably greater than set forth herein and based on said inspection.

14. The following are the facts relating to each crossing:

A. Madison Avenue Crossing.**a. HOW PROTECTED.**

30 This crossing is now protected by gates and watchmen, operated part of the day.

b. OBSTRUCTIONS.

On the southwesterly side of the crossing is a large brick building owned by the American Locomotive Company, as shown on Map A.

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 250 automobiles, 500 wagons and from 2,200 to 2,500 pedestrians use this crossing daily. The time table of the company shows 34 passen-

Amended Petition.

ger trains running east and 39 running west daily. In addition a large number of freight trains and switch engines pass over this crossing. The passenger trains pass over this crossing at a high rate of speed, varying from 30 to 60 miles per hour.

d. DISTANCE TO NEAREST PASSENGER STATION.

The Lakeview station is located within 5,000 feet and the main Paterson station is about 7,000 feet from this crossing.

10

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Essex street, a distance of about 6,500 feet.

f. GRADE OF HIGHWAY.

The highway runs at a slight grade down from the west and to the east of the crossing is about level.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

The automobile and wagon traffic is considerably impeded at this crossing by the frequency of train service. The section near this crossing is rapidly increasing in population and will be used with greater frequency in the future. It is the main thoroughfare from the eastern section of Paterson to Passaic and points south. It connects with Main street about one thousand feet west of the crossing. The avenue is macadamized, is 80 feet wide and is about 3 miles long.

20

h. STREET RAILWAY TRACKS.

The crossing is not used by any street railway company.

30

i. PIPE CROSSING.

Public Service Gas Company maintains two mains under the crossing, one six inches, the other sixteen inches in diameter.

The Passaic Water Company maintains a sixteen-inch water main under the crossing.

j. WIRES.

40

*Amended Petition.***B. Clay and Straight Streets.****a. HOW PROTECTED.**

These crossings are now protected by gates and watchmen.

b. OBSTRUCTIONS.

10 The approach of Straight street from the south is obstructed by a frame building on the west side and a stone building on the east side. Both of which are built close to the right of way. The approach on Straight street on the north is obstructed by a brick building on the west side.

The approach on Clay street from the east is obstructed by a high brick building to the north and from the west by a frame building to the south. Crossing Clay street a short distance to the west is a spur railroad operated by the D., L. & W. R. R. Company.

20 **c. VOLUME AND FREQUENCY OF TRAVEL.**

On the average about 90 automobiles, 250 wagons and from 2,500 to 3,000 pedestrians use this crossing daily. The time table of the company shows 50 passenger trains running east and 53 trains running west daily. In addition a large number of freight trains and switch engines pass over this crossing. It lies within the freight yard of the company and there are four tracks crossing this street at this point. Passenger trains are restricted in passing over this crossing
30 by an order of the Public Utility Commissioners to a speed of fifteen miles per hour.

d. DISTANCE TO NEAREST PASSENGER STATION.

These crossings are located about 3,000 feet from the main Paterson station at Market street.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Essex street, a distance of about 2,500 feet.

Amended Petition.

f. GRADE OF HIGHWAY.

The grade of both streets in the vicinity of these crossings is practically level.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

This crossing is a very dangerous one and the travel is impeded because a very high degree of care must be exercised to pass over the same in safety. There is a sharp curve immediately north of Clay street. This street crosses the freight yard of the company and there is much switching in the vicinity. There are a great many manufacturing establishments along the line of the railroad at this point. The sharp curve to the north prevents a view of the trains coming from that direction until the trains are nearly upon the crossing. The record of accidents and deaths here is a very long one.

h. STREET RAILWAY TRACKS.

The crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The City of Paterson maintains two sewer pipes under Clay street crossing; a fifteen-inch pipe sewer and a forty-inch brick sewer.

The Passaic Water Company maintains a twelve-inch pipe under Clay street crossing.

The City of Paterson maintains an eighteen-inch pipe sewer under Straight street.

The Passaic Water Company maintains a six-inch water pipe under the Straight street crossing.

The Public Service Gas Company maintains a six-inch gas main under Straight street.

j. WIRE CROSSINGS.

Crossing the right of way on the northerly side of Clay street are eight wires forty-one feet high, maintained by the Public Service Electric Company.

Amended Petition.

Crossing the right of way on the northerly side of Clay street are 33 wires 39 feet high, maintained by the New York Telephone Company.

The Erie Railroad Company also maintains wires crossing its right of way at these crossings and running to its signal towers.

10

C. Cedar Street Crossing.**a. HOW PROTECTED.**

This crossing is now protected by double set of gates and watchmen.

b. OBSTRUCTIONS.

This crossing is obstructed on both sides by large buildings located near the right of way. Ten sets of tracks cross this street and the company maintains
20 on a number of them long lines of freight cars which obstruct the view of those who use the crossing.

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 25 automobiles, 300 wagons, and from 3,200 to 3,500 pedestrians pass over this crossing daily. The time-table of the company shows fifty passenger trains running east and fifty-three running west daily. There is much switching done at this point. The speed of passenger trains is regulated
30 by the order referred to above.

d. DISTANCE TO NEAREST PASSENGER STATION.

This crossing is located about 1,800 feet from the main Paterson station at Market street.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Essex street, a distance of about 1,300 feet.

f. GRADE OF HIGHWAY.

The grade of the highway on both sides of this crossing is practically level.
40

Amended Petition.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

This crossing is a very dangerous one and is the scene of many accidents. There is a sharp curve in the railroad just south of this crossing and because of the many freight cars on the tracks extreme care must be used in crossing at this point. It is especially dangerous at night when a great deal of switching is done. Much of the travel in this vicinity is to the freight yard of the company. There are many warehouses in the vicinity which require considerable trucking.

10

h. STREET RAILWAY TRACKS.

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The Passaic Water Company maintains an eight-inch water pipe under this crossing.

20

The Public Service Gas Company maintains a six-inch gas main under this crossing.

j. WIRE CROSSINGS.

Crossing the right of way on the northerly side of Cedar street are sixteen wires thirty-seven feet high, maintained by New York Telephone Company.

Crossing the right of way on the southerly side of Cedar street are seven wires thirty-seven feet high, maintained by the Public Service Electric Company.

30

The Erie Railroad also maintains wires crossing its right of way at this crossing and running to its signal tower.

D. Market Street.

a. HOW PROTECTED.

This crossing is now protected by gates operated from a tower and by crossing watchmen.

b. OBSTRUCTIONS.

This crossing is obstructed by large buildings built near to the right of way. On the east side there is

40

Amended Petition.

an open street between these buildings and the right of way. The view to the north on this side is obstructed further, however, by freight cars on the Susquehanna Railroad, which is about 200 feet north of this crossing at right angles to the right of way of the Erie Railroad. The Susquehanna Railroad does not cross the right of way or connect with the Erie Railroad in any way.

10

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 1,100 automobiles, 2,000 wagons and from 28,000 to 30,000 pedestrians and about 1,000 street railway cars use this crossing daily. The timetable of the company shows fifty passenger trains running east and fifty-three running west daily. The main station of the company is located at this crossing and trains all stop here, so that they do not pass over the crossing at a high rate of speed.

20

d. DISTANCE TO NEAREST PASSENGER STATION.

The main station of the company is located at this crossing.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Essex street, a distance of about 800 feet from this crossing.

f. GRADE OF HIGHWAY.

To the west the grade of Market street falls slightly and to the east the grade of Market street and Park avenue rises slightly.

30

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

This crossing is one most used in the City of Paterson. The business center of the city lies to the west of this crossing and a large residential section to the east. The gates of this crossing during certain periods of the day are closed from twenty to thirty minutes in the hour. The crossing is located so near to the passenger station that trains coming into the station from the south are apt to run over the crossing before

40

Amended Petition.

stopping, thus necessitating the closing of the gates as the train comes into the station, also the closing of them as it leaves the station.

Trains from the north frequently do not clear the street, thus blocking the travel on the street while such trains remain in the station. Some of the trains carry cars for Fuller's Express Company, which are detached from the train at this point, causing two extra movements over the crossing. The Board of Railroad Commissioners three or four years ago directed the Attorney-General to proceed in the courts to have this grade crossing altered. So far as your petitioner can ascertain no action has been taken by the Attorney-General under this order. The frequent closing of the gates at this crossing interferes with the schedule of the trolley company which operates three lines of cars over this crossing. The delays caused the passengers of the street railway are very serious and annoying. The street railway is protected by a derail switch, but notwithstanding this protection several collisions have occurred between trains and street railway cars. Market street is paved with asphalt, Park avenue with wood block.

h. STREET RAILWAY TRACKS.

The Public Service Railway Company operates going east a line of street railway cars known as the PARK AVENUE LINE and going west the BROADWAY LINE, and also CEDAR LAWN LINE. These lines use two tracks crossing the railroad running east on Park avenue and west on Market street. The same company also operates a third track over this crossing running east and west on Market street, over which it operates a line of street cars known as the HALEDON LINE and also a line known as the WHITE LINE.

i. PIPE CROSSINGS.

The City of Paterson maintains under this crossing a thirty-inch brick sewer and an eighteen-inch pipe sewer.

Amended Petition.

The Public Service Gas Company maintains under this crossing a twelve-inch gas main and two six-inch gas mains.

The Public Service Electric Company maintains under this crossing one two-inch tube, two two-inch tubes and twelve conduits.

10 The New York Telephone Company maintains under this crossing nine conduits.

The Passaic Water Company maintains under this crossing one twelve-inch water main.

j. **WIRE CROSSINGS.**

Crossing the right of way on the southerly side of Market street are four wires twenty-six feet high and maintained by the Public Service Electric Company.

The Public Service Railway Company maintains three trolley wires over this crossing.

20 **E. Ellison Street Crossing.**

a. **HOW PROTECTED.**

This crossing is now protected by gates operated from a tower.

b. **OBSTRUCTIONS.**

The view of this crossing is obstructed on all sides by large buildings built up close to the right of way.

c. **VOLUME AND FREQUENCY OF TRAVEL.**

30 On an average about 50 automobiles, 600 to 700 wagons, and from 4,000 to 5,000 pedestrians use this crossing daily. The number of passenger trains is the same as at the Market street crossing. Trains at this point from the south generally run slowly as they are approaching the passenger station at Market street and from the north are gathering headway after leaving said station.

d. **DISTANCE TO NEAREST PASSENGER STATION.**

40 This crossing is located about 1,000 feet from the main Paterson station at Market street.

Amended Petition.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Essex street, a distance of about 1,800 feet from this crossing.

f. GRADE OF HIGHWAY.

The highway on both sides of this crossing is practically level with the right of way.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains and by trains from the north stopping at this point until the station is cleared of trains from the south. 10

h. STREET RAILWAY TRACKS.

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The City of Paterson maintains a thirty-six inch brick sewer and an eighteen-inch pipe sewer under this crossing. 20

The Public Service Gas Company maintains one six-inch and one four-inch gas main under this crossing.

The Public Service Electric Company maintains one tube on the north side and four conduits and two tubes on the south side under this crossing.

The Passaic Water Company maintains a six-inch water main under this crossing.

j. WIRE CROSSING.

Crossing the right of way on the southerly side are sixteen wires forty feet high maintained by the Public Service Electric Company. 30

F. Van Houten Street Crossing.

a. HOW PROTECTED.

This crossing is now protected by gates operated from a tower.

b. OBSTRUCTIONS.

The view at this crossing is obstructed on all sides by large buildings built up close to the right of way. 40

Amended Petition.

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 300 automobiles, 500 wagons and from 4,000 to 5,000 pedestrians use this crossing daily. The number of passenger trains are the same as at the Market street crossing and their speed is regulated by the order referred to above.

d. DISTANCE TO NEAREST PASSENGER STATION.

- 10 This crossing is located about 1,200 feet from the main Paterson station at Market street.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Essex street, a distance of about 2,000 feet from this crossing.

f. GRADE OF HIGHWAY.

The highway on both sides of this crossing is practically level with the right of way.

- 20 g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains. This street is paved for a long distance on both sides of this crossing with asphalt and is used very much by automobiles.

h. STREET RAILWAY TRACKS.

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

- 30 The City of Paterson maintains an eighteen-inch pipe sewer under this crossing.

The Public Service maintains two three-inch mains under this crossing.

The Public Service Electric Company maintains one tube on the northerly side and twenty conduits and two tubes on the southerly side under this crossing.

- 40 The Passaic Water Company maintains one twenty-four-inch and one six-inch water main under this crossing.

*Amended Petition.***j. WIRE CROSSINGS.**

Crossing the right of way on the southerly side are seven wires fifty-two feet high maintained by the Public Service Electric Company.

G. Broadway Crossing.**a. HOW PROTECTED.**

This crossing is now protected by gates operated from a tower and watchman. 10

b. OBSTRUCTIONS.

The view to the south is obstructed by large buildings built close to the right of way. To the north it is obstructed by two large dwellings and from the east side by a high bank. This crossing is the one referred to in the 1910 report of the Public Utility Commissioners page 226. As a result of the accident referred to in the said report a recommendation was made by the commission that the company run its trains through the City of Paterson at a rate not exceeding fifteen miles per hour. 20

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 300 to 400 automobiles, 400 to 500 wagons, 12,000 to 15,000 pedestrians use this crossing daily. The number of passenger trains is the same as at the Market street crossing. The automobile travel over this crossing is greatly increased on Saturday and Sunday because this street provides an outlet from the city to Hackensack, and New York and the east. Many of these automobilists are not familiar with the crossing and by reason of the obstructions it is particularly dangerous. The street car traffic over this crossing is heavy and the delays caused here are serious and annoying. This crossing interferes seriously with the schedule of the street railway company. 30

d. DISTANCE TO NEAREST PASSENGER STATION.

This crossing is located about 1,500 feet from the main Paterson station at Market street. 40

Amended Petition.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Governor street a distance of about 1,800 feet from this crossing.

f. GRADE OF HIGHWAY.

The street crosses this railroad at a sharp grade falling from the east to the west.

10 g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains. This street is paved for a long distance on both sides of this crossing with brick. It is one of the main thoroughfares of the city providing access from the residential section on the east to the business section on the west.

h. STREET RAILWAY TRACKS.

The Public Service Railway Company maintains the following lines of street cars over this crossing:

- 20 1. Cedar Lawn line running east;
 2. Broadway line running east;
 3. Park Avenue line running west;
 4. Governor Street line running east and west;
 5. Hudson River line running east and west.

The number of cars crossing at this point average about fifty an hour. During the summer season on Saturday afternoons and Sundays the travel on the
 30 Hudson River line is greatly increased.

i. PIPE CROSSINGS.

The City of Paterson maintains a twelve-inch pipe sewer under this crossing.

The Public Service Gas Company maintains one three-inch and one four-inch gas main under this crossing.

The Public Service Electric Company maintains one two-inch tube and six conduits under this crossing.

40 The Passaic Water Company maintains one sixteen-inch water main under this crossing.

Amended Petition.

The Paterson, Passaic and Suburban Telephone Company maintains four conduits under this crossing.

j. WIRE CROSSINGS.

Crossing the right of way diagonally from the northeast to the southwest are six wires fifty-three feet high, maintained by the Public Service Railway Company.

H. Fair Street Crossings.

10

a. HOW PROTECTED.

This crossing is now protected by gates operated from a tower.

b. OBSTRUCTIONS.

The view to the north and south coming from the east is obstructed by frame buildings close to the right of way. Coming from the west the view is obstructed by frame buildings which are not built as close as those on the east side.

20

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 50 to 100 automobiles, 200 to 250 wagons, and from 2,000 to 2,500 pedestrians use this crossing daily. The number of trains is about the same as at the Market street crossing.

d. DISTANCE TO NEAREST PASSENGER STATION.

This crossing is located about 2,000 feet from the main Paterson station at Market street.

30

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Governor street, a distance of about 1,500 feet from this crossing.

f. GRADE OF HIGHWAY.

The grade of the highway at this crossing falls sharply from the east to the west.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains.

40

*Amended Petition.***h. STREET RAILWAY TRACKS.**

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The City of Paterson maintains one twelve-inch pipe sewer under this crossing.

10 The Passaic Water Company maintains one six-inch water main under this crossing.

j. WIRE CROSSINGS.

No wires cross the right of way at this point.

I. Hamilton Avenue Crossing.**a. HOW PROTECTED.**

This crossing is now protected by gates operated from a tower.

b. OBSTRUCTIONS.

20 From all sides the view to the crossing is obstructed by buildings built close to the right of way.

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 150 to 200 automobiles, 500 to 600 wagons, and from 4,000 to 5,000 pedestrians use this crossing daily. The number of trains is about the same as at the Market street crossing.

d. DISTANCE TO THE NEAREST PASSENGER STATION.

30 This crossing is located about 2,500 feet from the main Paterson station at Market street.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Governor street, a distance of about 1,000 feet from this crossing.

f. GRADE OF HIGHWAY.

The highway at this crossing falls sharply from the east to the west.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains.

*Amended Petition.***h. STREET RAILWAY TRACKS.**

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The City of Paterson maintains one twelve-inch pipe sewer under this crossing.

The Public Service Gas Company maintains one 10
four-inch gas main under this crossing.

The Passaic Water Company maintains one six-inch water main under this crossing.

j. WIRE CROSSINGS.

No wires cross the right of way at this point.

J. Lafayette Street.**a. HOW PROTECTED.**

This crossing is now protected by gates operated 20
from a tower.

b. OBSTRUCTIONS.

From all sides the view to the crossing is obstructed by buildings built up close to the right of way.

c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 50 automobiles, 400 to 500 wagons and 5,000 to 6,000 pedestrians use this crossing daily. The number of trains is about the same as at the Market street crossing.

d. DISTANCE FROM NEAREST PASSENGER STATION. 30

This crossing is located about 1,500 feet from the River street station.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Fulton street, a distance of about 1,000 feet from this crossing.

f. GRADE OF HIGHWAY.

The highway at this crossing falls gradually from east to west.

*Amended Petition.***g. EXTENT TO WHICH TRAVEL IS IMPEDED.**

Travel is impeded by the great number of trains. There are three tracks at this crossing and the River-side or West Paterson yards begin about at this point and the number of switching movements increases from at this point to the north.

10 **h. STREET RAILWAY TRACKS.**

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The City of Paterson maintains one thirty-inch brick and one twelve-inch pipe sewer.

The Public Service Gas Company maintains one six-inch gas main.

20 The Passaic Water Company maintains one six-inch water main.

j. WIRE CROSSINGS.

Crossing the right of way on the northerly side are six wires forty-one feet high and on the southerly side one cable thirty feet high maintained by the Public Service Electric Company.

K. Franklin Street Crossing.**a. HOW PROTECTED.**

30 This crossing is now protected by gates operated from a tower.

b. OBSTRUCTIONS.

At this crossing the view is obstructed by buildings built close to the right of way with the exception to the view to the south coming from the east where the nearest building is located about fifty feet from the right of way.

c. VOLUME AND FREQUENCY OF TRAVEL.

40 On an average about 25 automobiles, 100 to 200 wagons and from 1,500 to 2,000 pedestrians use this crossing daily. The number of trains is about the

Amended Petition.

same as at the Market street crossing. The switching movements are frequent because of the vicinity of the Riverside yards.

d. DISTANCE TO THE NEAREST PASSENGER STATION.

This crossing is located about 1,250 feet from the Riverside station.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Fulton street, a distance of about 1,250 feet from this crossing.

10

f. GRADE OF HIGHWAY.

The highway at this crossing falls slightly to the east and to the west.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains. There are four tracks at this crossing.

20

h. STREET RAILWAY TRACKS.

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The Passaic Water Company maintains a six-inch water main.

j. WIRE CROSSINGS.

Crossing the right of way on the northerly side are twenty wires thirty-one feet high maintained by the New York Telephone Company.

30

L. Keen Street Crossing.

a. HOW PROTECTED.

This crossing is now protected by flagman and bell.

b. OBSTRUCTIONS.

At this crossing the view is obstructed on all sides by buildings built close to the right of way.

c. VOLUME AND FREQUENCY OF TRAVEL.

40

On an average about 50 to 100 automobiles, 200 to 300 wagons and 2,000 to 3,000 pedestrians use this

Amended Petition.

crossing daily. The number of trains is about the same as at the Market street crossing. There are five tracks at this crossing. The amount of switching movements is very great.

d. DISTANCE TO THE NEAREST PASSENGER STATION.

This crossing is located about 750 feet from the
10 Riverside station.

e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING is at Fulton street a distance of about 1,750 feet from this crossing.

f. GRADE OF HIGHWAY.

The highway falls slightly to the east and west of the right of way.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

Travel is impeded by the great number of trains.
20

h. STREET RAILWAY TRACKS.

This crossing is not used by any street railway company.

i. PIPE CROSSINGS.

The City of Paterson maintains one twenty-four-inch pipe sewer under this crossing.

j. WIRE CROSSINGS.

Crossing the right of way on the northerly side are
30 eight wires forty-seven feet high maintained by the Public Service Electric Company.

M. Warren Street Crossing.

a. HOW PROTECTED.

This crossing is now protected by gates operated from a tower.

b. OBSTRUCTIONS.

At this crossing the view to the south is obstructed
40 by buildings built close to the right of way on both sides thereof. The view to the north is obstructed by

Amended Petition.

a building built close to the right of way on the east side thereof.

c. **VOLUME AND FREQUENCY OF TRAVEL.**

On an average about 50 to 100 automobiles, 200 wagons and from 2,000 to 2,500 pedestrians use this crossing daily. The number of trains is about the same as at the Market street crossing. There are two tracks at this crossing.

d. **DISTANCE TO THE NEAREST PASSENGER STATION.**

10

The crossing is located about 500 feet from the River street station.

e. **THE NEAREST OVERHEAD OR UNDERGROUND CROSSING** is at Fulton street a distance of about 2,000 feet from this crossing.

f. **GRADE OF HIGHWAY.**

The highway to the west is about level with the right of way and to the east rises slightly above the right of way.

20

g. **EXTENT TO WHICH TRAVEL IS IMPEDED.**

Travel is impeded by the great number of trains.

h. **STREET RAILWAY TRACKS.**

This crossing is not used by any street railway company.

i. **PIPE CROSSINGS.**

The City of Paterson maintains one eighteen-inch pipe sewer under this crossing.

30

The Public Service Gas Company maintains one four-inch gas main under their crossing.

The Passaic Water Company maintains two six-inch water mains.

j. **WIRE CROSSINGS.**

No wires cross the right of way at this point.

*Amended Petition.***N. River and Putnam Streets Crossing.****a. HOW PROTECTED.**

This crossing is now protected by several gates and by crossing watchmen.

b. OBSTRUCTIONS.

10 The view on Putnam street coming from the east is obstructed to the north and south by buildings built close to the right of way. The view coming from the west on Putnam street is obstructed by buildings to the south and by freight cars to the north. The view to the south coming from the west on River street is obstructed by buildings and to the north by freight cars. The view on River street coming from the east is obstructed to the north by buildings and by the depot of the company, and to the south by large brick buildings built close to the right of way. There are two tracks at this crossing.

20 c. VOLUME AND FREQUENCY OF TRAVEL.

On an average about 300 to 400 automobiles, 800 to 1,000 wagons and 12,000 to 15,000 pedestrians use this crossing daily. The number of trains is about the same as at the Market street crossing.

d. DISTANCE TO THE NEAREST PASSENGER STATION.

The River street passenger station is located at this station, as is also a freight station.

30 **e. THE NEAREST OVERHEAD OR UNDERGROUND CROSSING** is at Fulton street a distance of about 2,800 feet from this crossing.

f. GRADE OF HIGHWAY.

The grade of River street to the west is about level with the right of way and to the east rises sharply. Putnam street to the west is about level with the right of way and to the east rises gradually.

g. EXTENT TO WHICH TRAVEL IS IMPEDED.

40 This crossing is an exceedingly dangerous one because of the sharp angle at which River street crosses

Amended Petition.

and it is very confusing to the persons who use it. There are a great number of switching movements to and from the freight yards in the vicinity. The stoppage of trains at the depot causes the gates to be lowered twice for each train from the north which stops at the River street station.

h. STREET RAILWAY TRACKS.

The Public Service Railway Company operates a street railway upon River street over this crossing and runs about 25 cars per hour.

10

i. PIPE CROSSINGS.

The City of Paterson maintains a twenty-four-inch brick sewer through River street under this crossing and an eighteen-inch pipe sewer through Putnam street and under this crossing.

The Public Service Gas Company maintains seven gas mains under this crossing.

20

The Passaic Water Company maintains a six-inch water main.

j. WIRE CROSSINGS.

Crossing the right of way are one set of wires maintained by the New York Telephone Company and one set maintained by the Public Service Electric Company.

15. Your petitioner shows that the said crossings are so located with respect to each other that any plan for altering one will necessarily involve the others so that it will be necessary and advisable to formulate some plan for the alternation of all of them.

30

16. Your petitioner further shows that by the last United States census the City of Paterson had a population of 125,600 and that it is constantly increasing; that it is the third city in size in this State and that the railway crossings in the two larger cities of Newark and Jersey City have been largely eliminated. Your petitioner shows that the crossings referred to in

40

Amended Petition.

10 this petition are the most important grade crossings in the State, that travel on these highways and especially Market street is impeded to an unusual extent. In the above tabulation your petitioner has not shown the number of persons carried over the crossings in street cars because of being unable to obtain such information; but your petitioner believes the number so carried is about equal to the number of pedestrians at the same crossings.

20 17. Your petitioner, therefore, prays that your honorable body order the said Erie Railroad Company and the Paterson and Hudson Railroad Company and the Paterson and Ramapo Railroad Company to alter such crossings according to plans to be approved by your board by substituting for each of such crossings a crossing not at the grade of such public highways either by carrying such public highways under or over such railroad or by reconstructing such railroad under or over such public highway or by vacating, relocating, changing the lines, width, direction or location of such highway and the opening of a new highway in place of the one or ones ordered vacant.

30 18. That your petitioner further shows and insists that is not practicable to change the grade of said highways or any of them so as to carry the same under or over the said railway. The said highways are all in the center of a thickly populated city and all contain large numbers of buildings which would be ruined or destroyed by any such change of grade.

19. Your petitioner insists that the said grade crossings should be altered by depressing the tracks of the said railroad so that the same will pass under the said highways or in case such a plan should be impracticable for any reason, that the said railroad should be elevated to pass over said highways.

Amended Petition.

20. Your petitioner therefore prays your honorable board to fix a time and place for a hearing before it upon this petition and shall give notice thereof to your petitioner and to the following corporations interested therein :

1. Erie Railroad Company.
 Paterson and Hudson River Railroad Com-
 pany. 10
 Paterson and Ramapo Railroad Company.
2. Public Service Railway Company.
 Public Service Gas Company.
 Public Service Electric Company.
3. Passaic Water Company.
4. New York Telephone Company.
5. Paterson, Passaic and Suburban Telephone
 Company.

BOARD OF FINANCE, CITY OF PATERSON. 20

By WM. BERDAN,
President.

Attest :

JNO. J. BROPHY,
Clerk.

Approved

ANDREW F. MCBRIDE,
Mayor. 30

Amended Petition.

EXHIBIT "I."

RESOLUTION 1003.

BE IT RESOLVED, that the petition to the Board of Public Utility Commissioners for the removal of grade crossings upon the main line of the Erie Railroad at the following streets:

- | | |
|----|---|
| 10 | Madison Avenue,
Clay and Straight Streets,
Cedar Street,
Market Street and Park Avenue,
Ellison Street,
Van Houten Street,
Broadway,
Fair Street,
Hamilton Avenue,
Lafayette Street, |
| 20 | Franklin Street,
Keen Street,
Warren Street,
River and Putnam Streets, |

and which petition was prepared by the City Council by the direction of this board, be filed as the petition of the Board of Finance of the City of Paterson, and that the Mayor and the Clerk of this Board authenticate the same.

Passed September 11th, 1913.

30

WM. BERDAN,

President of Board of Finance.

Attest:

JOHN J. BURNBY,

Clerk.

Approved Sept. 12, 1913.

ANDREW E. McBRIDE,

Mayor.

40

*Amendment to Petition.***Amendment to Petition.**

BE IT RESOLVED, that the petition heretofore made to the Board of Utility Commissioners by the Board of Finance of the City of Paterson be amended by adding the following paragraph:

14a. And your petitioner further shows that running along the line of the said Erie Railroad Company and situate upon the same are a number of overhead wires some of which your petitioner believes are owned and operated by the said Railroad Company and other by the Western Union Telegraph Company but that it is unable to state which of said wires are owned by the Erie Railroad Company and which by the Western Union Telegraph Company.

10

Your petitioner shows that the number and height of said wires where they cross any of the streets above mentioned are shown upon the various maps accompanying the petition.

20

AND BE IT FURTHER RESOLVED, that his resolution properly authenticated be filed with the Board of Public Utility Commissioners of the State of New Jersey.

Passed October 23rd, 1913.

(Signed) WILLIAM BERDAN,
President of Board of Finance.

Approved October 24th, 1913.

(Signed) ANDREW F. McBRIDE,
Mayor.

Attest:

JNO. J. BROPHY,
Clerk of Board of Finance.

Answer of Erie Railroad Company.**STATE OF NEW JERSEY.****BEFORE THE BOARD OF PUBLIC UTILITY COMMISSIONERS**

10 **IN THE MATTER OF THE APPLICATION
OF THE CITY OF PATERSON TO AL-
TER GRADE CROSSINGS ON LINE OF
THE ERIE RAILROAD.**

The respondent, Erie Railroad Company, answers the petition herein as follows:

1. Respondent has no knowledge of the allegations in paragraph 1, but says that if such petition was filed, this respondent has never received a copy thereof, or been informed as to its contents as required by
20 law and the rules of your honorable board. Respondent admits, however, that it maintains certain grade crossings in the City of Paterson.

2. Respondent has no knowledge of the allegations in paragraph 2.

3. Respondent admits paragraph 3.

4. Respondent denies the allegations in paragraph 4, except it admits that in passing through the City of Paterson, the said railroad crosses several streets
30 and highways at grade.

5. Respondent admits the allegations in paragraphs 5, 6 and 7, except it says that the correct corporate name of the railroad described in paragraph 6 of petition as "Paterson & Hudson River Railroad Company" is "The President and Board of Directors of Paterson & Hudson River Railroad Company"; and except that it says that the said leases were not made to this respondent, but to a corporation known as Union Railroad Company under date of September

Answer of Erie Railroad Company.

10th, 1852, and that the junction between the Paterson and Hudson River Railroad and the Paterson and Ramapo Railroad is not correctly described and located in said petition, and respondent says that it acquired the right, title and interest of the Union Railroad Company in said leased property and franchises by means conveyances through the following named companies:

Union Railroad Company.

New York and Erie Railroad Company.

Erie Railway Company, and

New York, Lake Erie & Western Railroad Company.

10

6. Respondent has no knowledge of the allegations in paragraph 8, but says that if the same are true, they are immaterial.

7. Respondent admits the allegations of paragraph 9; as to paragraph 10, respondent says that while it is true that the respondent has had under informal discussion at various times with various civic bodies of the City of Paterson the question of the abolition of certain grade crossings in the city, such negotiations have not as yet been consummated for the reason that the proposition suggested by said civic bodies was such, that respondent was not financially able to comply therewith. Respondent further says that its engineers have prepared studies or preliminary plans with respect to said crossings, or some of them, for the purpose of making an approximate estimate of the cost of altering the grade thereof, but it has never had prepared any comprehensive plan including all of said crossings and has no said plan on hand.

20

30

8. Respondent admits the allegations in paragraphs 11 and 12, except that it says that said maps are not accurate or complete in that the said maps do not show all of the railroad tracks, nor any of the freight yards of this respondent, nor all sidings or

40

Answer of Erie Railroad Company.

switches, or connections with the property of private individuals or corporations that rely upon this respondent for service, which would be affected by a change of grade of said railroad, nor do they show all of the grade crossings that would necessarily be affected by a change of grade of the crossings described in the petition, nor do they show any of the freight
10 or passenger stations of this respondent in the City of Paterson, nor do they show the names of the owners of the land adjoining or abutting the streets within, nor all of the areas which may possibly be affected by any order made under said petition, and in many other respects the said maps are inaccurate, incomplete and misleading. Respondent further says that if an order is made to depress its tracks as prayed for in said petition, the present undergrade crossings of Essex, Governor, Fulton and Straight streets will
20 be destroyed.

9. Respondent has no knowledge of the allegations in paragraph 13.

10. Respondent neither admits nor denies the allegations in paragraph 14, except as stated below and requires petitioner to make proof of all material facts therein contained. It says that said petition does not fully and accurately set forth the protection provided at said crossings, and respondent attaches here-
30 to a complete schedule marked Schedule "A" showing the protection actually provided therefor, and it says that the said protection is reasonable and adequate; and it denies that said crossings or any of them, are dangerous to public safety, or that public travel thereon is impeded within the meaning of the statute.

11. With respect to the allegations in paragraph 15, respondent has not at the present time sufficient information to state whether or not the alteration of one of the crossings described in the petition will
40

Answer of Erie Railroad Company.

necessarily involve all of the others, or any or either of them.

12. Respondent has no knowledge of the allegations in paragraph 16, except that it denies that the travel on said streets is impeded to an unusual extent, or is impeded at all within the meaning of the statute.

10

13. Further answering, respondent says that said petition is not made nor presented as required by Chapter 57 of the laws of 1913, or by the rules of this honorable board and that the Board of Public Utility Commissioners has not acquired jurisdiction to act under said law and respondent therefore objects to any further proceedings thereunder.

14. Respondent further says that the said board has no valid power or authority in law or otherwise to compel this respondent by order or otherwise to eliminate, change, or otherwise alter any of the streets or highway crossings referred to in the petition herein.

20

15. Respondent further says that the Act of the Legislature of the State of New Jersey, being Chapter 57 of the Laws of 1913, is unconstitutional and void in that, if the said Board of Public Utility Commissioners complies with the request of the petition herein, said statute will operate to take the property of this respondent, which property is private property, for a private use, and will also take property of this respondent for public use without just compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey.

30

16. Respondent, further answering, says that the said statute and the exercise of the power purporting to be conferred upon said board thereby, operates and will operate to take the property of this respondent, without affording to it any opportunity to protect said property, and thereby this respondent is and will be deprived of its right and guarantee of enjoy-

40

Answer of Erie Railroad Company.

ing, defending, possessing and protecting said property given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey and in violation thereof.

17. Respondent further says that the said statute is unconstitutional and void because it deprives and will operate to deprive the Court of Chancery of the State of New Jersey of its exclusive jurisdiction over the regulation of the use of easements, contrary to Article VI, Section 1, of the Constitution of the State of New Jersey.

18. Respondent, further answering, says that the said statute is unconstitutional and void in that, contrary to Article IV, Section VII, Paragraph 4, of the Constitution of the State of New Jersey, the object of the said statute is not expressed in the title thereof and the said statute embraces more than one object.

19. Respondent further says that the said statute is unconstitutional and void under the constitution of the United States in that it operates and the requested action of the said Board of Public Utility Commissioners thereunder will operate to deprive this respondent of its property without due process of law, and denies and will deny to this respondent the equal protection of the law contrary to the XIV amendment to the Constitution of the United States.

20. Respondent, further answering, says that the said board has no valid power or authority in law or otherwise to entertain the said petition or to conduct hearings thereon or to compel this respondent by order or otherwise to eliminate, change or otherwise alter any of the streets or highway crossings referred to in the said petition, because, as respondent urges and insists, said petition is filed and this proceeding instituted, contrary to the provisions of said statute, being Chapter 57, Laws of 1913, in that more than one street

Answer of Erie Railroad Company.

or highway crossing is embraced within the said petition.

21. Respondent further says that if an order is made as requested by the petitioner, such order will require changes of grade or location, or the removal or reconstruction of the property of the following persons and corporations, all of whom have sidings, switches and other physical connections with respondent's railroad and tracks and are entitled to notice and an opportunity to be heard herein to wit:

Leslie Elliott Co.,	
Cooke Locomotive Works,	
Passaic Steel Company,	
R. H. McDonald,	
G. A. Zabriskie,	
Commercial Lumber & Mill Work Co.,	
C. Kelly,	
M. Goble,	20
National Wood Company,	
Standard Oil Company,	
John Agnew Company (two sidings),	
Saml. Smith & Son Company,	
Rogers Locomotive Works,	
James Wilson & Son,	
McNab & Harlin Mfg. Co. (two sidings),	
Jas. A. Graham Brewing Co.,	
National Biscuit Company,	
Morris & Company,	30
Paterson Vehicle Company,	
Paterson Beef Company,	
E. M. Stiles,	
Laffray & Herman Company,	
Schwarzschild & Sulzberger Company,	
David G. Rodgers Company,	
Armour & Company,	
Hinchcliffe Brewery,	
Katz Brewery,	
P. S. VanKirk Company,	40

Answer of Erie Railroad Company.

A. H. Smith,
 Myer & De Vogle,
 Armstrong Sons Company,
 A. H. Smith,
 D. Fullerton & Company,
 Atherton Grain Company,
 J. A. Lydicker,
 Public Service Gas Company (two sidings),
 J. VanDenHendel,
 Swift & Company,
 H. M. Post,
 Ashley & Esiley Company,
 National Silk Dyeing Company,
 Crasselli Chemical Company,
 Weidman Silk Dyeing Company (two sidings),
 L. Lapst,
 Sutherland & Edwards Company,
 Nicholson File Company.

22. Respondent further answering says that certain wires along the right of way of respondent in and through the City of Paterson and over and above the city streets or highways mentioned in the petition, are operated and maintained by the Western Union Telegraph Company under and by virtue of certain lease made between it and respondent under date of the 25th day of September, 1907, and that the Western Union Telegraph Company is, therefore, a necessary party to this proceeding and it is entitled to receive notice thereof and to be represented at any hearings held thereon.

23. Respondent does not own the franchise of the President and Board of Directors of Paterson & Hudson River Railroad Company and Paterson & Ramapo Railroad Company, nor the right of way of either of said companies, but is merely a tenant of them, and says that that part of the statute which imposes upon the operating company alone the obligation of paying

Answer of Erie Railroad Company.

the expense of changes of grade renders the statute unconstitutional, in that it takes the property of the Erie Railroad Company without compensation, for the benefit of the President and Board of Directors of Paterson & Hudson River Railroad Company, and Paterson & Ramapo Railroad Company.

24. Respondent further answering, says that certain of said crossings mentioned in said petition were laid out and constructed by the City of Paterson across the existing tracks and right of way of the President and Board of Directors of the Paterson & Hudson River Railroad Company, incorporated under special act approved January 21, 1831 (F. L. 1830-1, p. 24) and of the Paterson & Ramapo Railroad Company under special act approved March 10, 1841 (P. L. 1840-1, p. 97), now operated by respondent, and subsequent to the construction and commencement of operation of said railroads, and as to these crossings the said Board of Public Utility Commissioners is without jurisdiction to order respondent at its own expense to alter or change the grade thereof, or to construct another crossing in the place or stead thereof not at grade.

25. Respondent further answering, says that the cost of eliminating said grade crossings as requested in said petition would exceed the value of all the property, real and personal, of the Paterson & Ramapo Railroad Company, and the President and Board of Directors of the Paterson & Hudson River Railroad Company, or either of them, and would make the property of either or both of said corporations incapable of earning, when used for railroad purposes a fair and reasonable return upon the amount invested therein, and would result in the confiscation of their property, and of respondent's property and interest in the leases hereinbefore mentioned, and would amount to a taking of the property of the Paterson & Ramapo

10

20

30

40

Answer of Erie Railroad Company.

Railroad Company, the President and Board of Directors of the Paterson & Hudson River Railroad Company, and of respondent, without due process of law, contrary to Articles V and XIV, amendments to the Constitution of the United States.

26. Respondent, further answering, says that the President and Board of Directors of the Paterson & Hudson River Railroad Company was incorporated, and its railroad constructed under and by virtue of the provisions of a special act of the Legislature of the State of New Jersey, approved January 21, 1831 (P. L. 1830-1, p. 24), and the various supplements and amendments thereto, and that the Paterson & Ramapo Railroad Company was incorporated and its railroad constructed under and by virtue of the provisions of a special act of the Legislature of the State of New Jersey, approved March 10, 1841 (P. L. 1840-1, p. 97), and the various supplements and amendments thereto, and that said railroads under and by virtue of the provisions of these acts were constructed across certain of the streets mentioned in the petition as they then existed, and that the respondent has succeeded to all of the rights and privileges of the President and Board of Directors of the Paterson & Hudson River Railroad Company and the Paterson & Ramapo Railroad Company, in the manner described in the fifth paragraph of this answer, and that therefore the act of the Legislature, being Chapter 57 of the Laws of 1913 is inapplicable to said crossings, and if held to be applicable, is unconstitutional and void, in that, contrary to Article I, Section X, Paragraph 1, of the Constitution of the United States, it will impair the obligation of contracts.

27. Respondent further answering says that it is informed and believes that this honorable board has made a classification of all the grade crossings existing within the State of New Jersey, for the purpose

Answer of Erie Railroad Company.

of indicating in such classification the various degrees in which such crossings are dangerous to, or impede public travel, and that your honorable board has adopted a policy under which it proposes to accomplish the gradual elimination of such crossings in the order that they appear in said classification to be most dangerous; and respondent says that said petition does not show that all or any of the crossings therein mentioned are classified or considered to be among the most dangerous grade crossings in the State. Respondent further says that the crossings mentioned in the petition are not among the most dangerous existing in the State, both on account of the protection provided at each of said crossings and on account of the location of some of them and the small amount of travel on the highway at said crossings and for other reasons and respondent, therefore, says that even if the said act (being Chapter 57 of the Laws of 1913) is held to be constitutional and valid and to confer jurisdiction on the board to make an order eliminating any or all of said crossings, your honorable board should not order the elimination of the crossings mentioned in said petition.

WHEREFORE, respondent prays that the said petition be dismissed.

COLLINS & CORBIN,
Attorneys for Respondent.

*First Amendment to Answer of Erie Railroad Co.***First Amendment to Answer of Erie Railroad Co.**

The respondent, Erie Railroad Company, hereby amends its answer filed in the above entitled matter on October 31, 1913, in the following particulars:

1. At the end of paragraph 16, add the following:

"Respondent further says that said statute, being Chapter 57, Laws of 1913, is unconstitutional and void under the Constitutions of the United States and of the State of New Jersey, in that it operates, and the requested action of the Board of Public Utility Commissioners thereunder will operate to take the property of Public Service Railway Company, Public Service Gas Company, Public Service Electric Company, Passaic Water Company, New York Telephone Company, and the Paterson, Passaic & Suburban Telephone Company, or of some or all of them (which property is private property) for public use without just or any compensation, contrary to and in violation of Article 1, Section 16 of the Constitution of the State of New Jersey; and the said statute and any order of the board that may be made thereunder in the present proceedings, operates and will operate to deny to them and each of them the equal protection of the law, and to deprive them and each of them of their property, without due process of law, and abridges their privileges and immunities as citizens of the United States, contrary to and in violation of the 5th and 14th amendments of the Constitution of the United States."

10

20

30

known as 17-a, to read as follows:

2. Add to paragraph 17, a new paragraph to be

"17-a. Said statute is also unconstitutional and void because it deprives and will operate to deprive the Supreme Court of the State of New Jersey of its jurisdiction to compel the respondent Erie Railroad Company, or its lessors, The President and Board of Directors of the Paterson & Hudson River Railroad Company and the Paterson & Ramapo Railroad Company, by mandamus or other appropriate proceeding to

40

First Amendment to Answer of Erie Railroad Co.

perform the duties imposed by law upon this respondent or upon said The President and Board of Directors of the Paterson & Hudson River Railroad Company and Paterson & Ramapo Railroad Company, with respect to the construction and maintenance of said crossings, or some of them, contrary to the provisions of said Article 6, Section 1 of the Constitution of the State of New Jersey."

- 10 3. At the end of paragraph 21, add as part of said paragraph, the following:

 "Respondent says that said statute is unconstitutional and void under the Constitutions of the United States and of the State of New Jersey, and that it operates and the requested action of said board thereunder will operate to take the property of some or all of the above named persons or corporations (which property is private property) for public use, without just or any compensation, contrary to and in violation of Article 1, Section 16, of the Constitution of the State of New Jersey; and said statute and any order of the board that may be made thereunder in the present proceedings, operates and will operate to deny to them and each of them the equal protection of the law, and to deprive them and each of them of their property, without due process of law, and abridges their privileges and immunities as citizens of the United States, contrary to and in violation of the 5th and 14th amendments of the Constitution of the United States."

20

4. Add to paragraph 22, the following:

30 "And respondent says that said statute is unconstitutional and void under the Constitutions of the United States and of the State of New Jersey, in that it operates and the proposed action thereunder will operate to take the property of said Western Union Telegraph Company (which property is private property) for public use, without just or any compensation, contrary to and in violation of Article 1, Section 16 of the Constitution of the State of New Jersey; and said statute and any order of the board that may be made thereunder in the present proceedings, operates

40

First Amendment to Answer of Erie Railroad Co.

and will operate to deny to it, the equal protection of the law, and to deprive it of its property without due process of law, and abridges its privileges and immunities as a citizen of the United States, contrary to and in violation of the 5th and 14th amendments of the Constitution of the United States."

5. Add after paragraph 27, two new paragraphs to be called 28 and 29, as follows:

10

"28. Respondent further says that any order that may be made by said board in this proceeding will require changes in and the removal of the property or constructions of telegraph, telephone, gas, electric, lighting, power and water lines, and will also require changes in and the removal of the property and constructions of various companies or corporations, co-partnerships and individuals; and that said statute in so far as it operates to require said companies or corporations, co-partnerships and individuals, at their own expense to move or change the grade or location of their property or constructions in conformity with the order of said board, is unconstitutional and void, in that it takes the private property of such companies or corporations, co-partnerships and individuals for public use without just or any compensation, contrary to and in violation of Article 1, Section 16, of the Constitution of the State of New Jersey; and said statute and any order of the board made thereunder in the present proceedings, operates and will operate to deprive said companies or corporations, co-partnerships and individuals, of their property without due process of law, and denies to them the equal protection of the law, and abridges their privileges and immunities as citizens of the United States, contrary to and in violation of the Constitution of the United States."

20

30

"29. Said statute, in so far as it confers upon said board power to alter grade crossings according to plans to be approved by said board, whenever it appears to said board that the crossing of a public highway and a railroad at the same level

40

Second Amendment to Answer of Erie Railroad Co.

is dangerous to public safety, or that the public travel on such highway is impeded thereby, is unconstitutional and void, because it establishes no reasonable nor any standard for the guidance of said board in making orders thereunder, and delegates legislative power to said board with respect to such crossings, and confers arbitrary power on said board."

10

COLLINS & CORBIN,
Attorneys of Respondent.

Second Amendment to Answer of Erie Railroad Co.

The respondent, Erie Railroad Company, pursuant to request of the Board of Public Utility Commissioners of the State of New Jersey hereby amends its answer filed in the above entitled proceedings by substituting for paragraph 24 the following:

20

24. Respondent further answering says that certain of said crossings mentioned in said petition, namely, Madison avenue, Cedar street and Putnam street, were laid out and constructed by the City of Paterson across the existing tracks and right of way of the President and Board of Directors of the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company subsequent to the construction and commencement of operation of said railroads, and respondent further says it has no knowledge as to whether the other streets mentioned in said petition or any of them were laid out and constructed across the tracks and right of way of said Railroad Companies before or subsequent to the construction and commencement of operation of said railroads and requires from said petitioner such proof concerning the same as it may be advised shall be necessary. Respondent therefore says that as to any and all of said crossings which were created by the laying out and construction of streets across the

40

Answer of Paterson & Hudson River Railroad Co.

tracks and right of way of said railroads, or either of them, subsequent to the construction and commencement of operation thereof, or of either of them, the said Board of Public Utility Commissioners is without authority or jurisdiction to order respondent, at its own expense, to alter or change the grade thereof, or to construct another crossing in the place or stead thereof not at grade.

10

COLLINS & CORBIN,

Attorneys for Respondent.

Answer of Paterson & Hudson River Railroad Co.

The respondent, THE PRESIDENT AND BOARD OF DIRECTORS OF THE PATERSON AND HUDSON RIVER RAILROAD COMPANY, answers the petition herein as follows:

20

1. Respondent has no knowledge of the allegations in paragraph 1 excepting the allegation that the Erie Railroad Company maintains certain grade crossings in the City of Paterson, which allegation it admits.

2. Respondent has no knowledge of the allegations in paragraph 2.

3. It admits paragraph 3.

4. It denies the allegations in paragraph 4, except that it admits that in passing through the City of Paterson said railroad crosses several streets and highways at grade.

30

5. It admits the allegations in paragraph 5 but says that said leases were not made to the Erie Railroad Company but to a corporation known as Union Railroad Company and said Erie Railroad Company acquired the right, title and interest of the Union Railroad Company in said leased property and franchises by mean conveyances from the following named companies; the Union Railroad Company, New York and

40

Answer of Paterson & Hudson River Railroad Co.

Erie Railroad Company, Erie Railway Company and the New York, Lake Erie and Western Railroad Company.

6. It admits paragraph 6.

7. It admits paragraph 7.

10 8. It has no knowledge of the allegations in paragraph 8, but says that if they are true they are immaterial.

9. It has no knowledge of the allegations of paragraph 9.

10. It has no knowledge of the allegations of paragraph 10.

20 11. Respondent admits the allegations in paragraphs 11 and 12 except that it says that said maps are not accurate or complete in that the said maps do not show all of the railroad tracks nor any of the freight yards of said Erie Railroad Company, nor all sidings or switches or connections with the property of private individuals or corporations that rely upon said Erie Railroad Company for service, which would be affected by a change of grade of said railroad, nor do they show all of the grade crossings that would necessarily be affected by a change of grade by the crossings described in the petition, nor do they show any of the freight or passenger stations of said Erie Railroad Company in the City of Paterson, nor do
30 they show the names of owners of the land adjoining or abutting the streets within nor all of the areas which may be possibly affected by any order made upon said petition, and in many other respects the said maps are inaccurate, incomplete and misleading. Respondent further says that if an order is made to depress the tracks operated by said Erie Railroad Company as prayed for in said petition, the present undergrade crossings of Essex, Governor, Fulton and
40 Straight streets will be destroyed.

Answer of Paterson & Hudson River Railroad Co.

12. Respondent has no knowledge of the allegations in paragraph 13.

13. Respondent has no knowledge of the allegations in paragraph 14, except as stated below and says that said petition does not fully and accurately set forth the protection provided at said crossings and begs leave to refer to Schedule A annexed to the answer of the Erie Railroad Company heretofore filed in this matter as showing the protection actually provided therefor, and it says that the said protection is reasonable and adequate; and it denies that said crossings, or any of them, are dangerous to public safety, or that public travel thereon is impeded within the meaning of the statute.

10

14. It has not sufficient information at present to state whether or not the alteration in one of the crossings described in the petition will necessarily involve all of the others.

20

15. It has no knowledge of the allegations in paragraph 16 except that it denies that the travel on said streets is impeded to an unusual extent, or is impeded at all within the meaning of the statute.

16. Respondent further says that the said board has no valid power or authority in law or otherwise, to compel this respondent by order or otherwise to eliminate, change or otherwise alter any of the streets or highway crossings referred to in the petition herein for the reason, among others, that this respondent is not the company operating the railroad mentioned in the said petition.

30

17. Respondent further answering says that certain of said crossings mentioned in said petition were laid out and constructed by the City of Paterson across the existing tracks and right of way of this respondent, now operated by said Erie Railroad Company and subsequent to the construction and commencement of operation of said railroad by this re-

40

spondent and as to these crossings the said Board of Public Utility Commissioners is without jurisdiction to order respondent at its own expense to alter or change the grade thereof, or to construct other crossings in the place or stead thereof not at grade.

10 18. Respondent further answering says that the cost of eliminating said crossings as requested in said petition would exceed the value of all the property, real and personal, of this respondent and would make its property incapable of earning when used for railroad purposes a fair and reasonable return upon the amount involved therein and would result in the confiscation of its property and amount to a taking of its property without due process of law contrary to Article V and XIV amendments to the Constitution of the United States.

20 19. Respondent further says that the said statute is unconstitutional and void because it deprives and will operate to deprive the Court of Chancery of the State of New Jersey of its exclusive jurisdiction over the regulation of the use of easements, contrary to Article VI, Section 1 of the Constitution of the State of New Jersey. Said statute is also unconstitutional and void because it deprives and will operate to deprive the Supreme Court of the State of New Jersey of its jurisdiction to compel the Erie Railroad Company, or its said lessors by mandamus or other appropriate proceedings to perform the duties imposed by law upon said Erie Railroad Company or its said lessors, with respect to the construction and maintenance of said crossings or some of them, contrary to the provisions of said Article VI, Section 1 of the Constitution of New Jersey.

30

20. Respondent further says that by virtue of its act of incorporation and the various amendments thereto it constructed its said railroad across certain of the streets mentioned in the petition as they then

40

Answer of Paterson & Hudson River Railroad Co.

existed and that the Erie Railroad has succeeded to all of the rights and privileges of this respondent in the manner hereinbefore described and that therefore Chapter 57 of the Laws of 1913 of the State of New Jersey is inapplicable to said crossings and if held to be applicable is unconstitutional and void in that, contrary to Article I, Section X, paragraph 1 of the Constitution of the United States it will impair the obligation of contracts.

10

21. Respondent further says that the Act of the Legislature of the State of New Jersey, being Chapter 57 of the Laws of 1913, is unconstitutional and void in that, if the said Board of Public Utility Commissioners complies with the request of the petition herein, said statute will operate to take the property of this respondent, which property is private property, for a private use and will also take property of this respondent for public use without just compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey.

20

22. Respondent, further answering, says that the said statute and the exercise of the power purporting to be conferred upon said board thereby, operates and will operate to take the property of this respondent, without affording to it any opportunity to protect said property, and thereby this respondent is and will be deprived of its right and guarantee of enjoying, defending, possessing and protecting said property given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey and in violation thereof.

30

23. Respondent further says that the said statute is unconstitutional and void under the constitution of the United States in that it operates and the requested action of the said Board of Public Utility Commissioners thereunder will operate to deprive this respondent of its property without due process of law,

40

Answer of Paterson & Ramapo Railroad Co.

and denies and will deny to this respondent the equal protection of the law contrary to the XIV amendment to the Constitution of the United States.

WILLIAM E. LEWIS,
Attorney of Respondent.

10 **Answer of Paterson & Ramapo Railroad Co.**

The respondent, THE PATERSON & RAMAPO RAILROAD COMPANY, answers the petition herein as follows:

1. Respondent has no knowledge of the allegations in paragraph 1 excepting the allegation that the Erie Railroad Company maintains certain grade crossings in the City of Paterson, which allegation it admits.

20 2. Respondent has no knowledge of the allegations in paragraph 2.

3. It admits paragraph 3.

4. It denies the allegations in paragraph 4, except that it admits that in passing through the City of Paterson said railroad crosses several streets and highways at grade.

30 5. It admits the allegations in paragraph 5 but says that said leases were not made to the Erie Railroad Company but to a corporation known as Union Railroad Company and said Erie Railroad Company acquired the right, title and interest of the Union Railroad Company in said leased property and franchises by mean conveyances from the following named companies; the Union Railroad Company, New York and Erie Railroad Company, Erie Railroad Company and the New York, Lake Erie and Western Railroad Company.

6. It admits paragraph 6.

40 7. It admits paragraph 7.

Answer of Paterson & Ramapo Railroad Co.

8. It has no knowledge of the allegations in paragraph 8, but says that if true they are immaterial.

9. It has no knowledge of the allegations of paragraph 9.

10. It has no knowledge of the allegations of paragraph 10.

11. Respondent admits the allegations in paragraphs 11 and 12 except that it says that said maps are not accurate or complete in that the said maps do not show all of the railroad tracks nor any of the freight yards of said Erie Railroad Company, nor all sidings or switches or connections with the property of private individuals or corporations that rely upon said Erie Railroad Company for service, which would be affected by a change of grade of said railroads nor do they show all of the grade crossings that would necessarily be affected by a change of grade by the crossings described in the petition, nor do they show any of the freight or passenger stations of said Erie Railroad Company in the City of Paterson, nor do they show the names of owners of the land adjoining or abutting the streets within, nor all of the areas which may be possibly affected by any order made upon said petition, and in many other respects the said maps are inaccurate, incomplete and misleading. Respondent further says that if an order is made to depress the tracks operated by said Erie Railroad Company as prayed for in said petition, the present undergrade crossings of Essex, Governor, Fulton and Straight streets will be destroyed.

10

20

30

12. Respondent has no knowledge of the allegations in paragraph 13.

13. Respondent has no knowledge of the allegations in paragraph 14, except as stated below and says that said petition does not fully and accurately set forth the protection provided at said crossings

40

Answer of Paterson & Ramapo Railroad Co.

and begs leave to refer to Schedule A, annexed to the answer of the Erie Railroad Company heretofore filed in this matter as showing the protection actually provided therefor, and it says that the said protection is reasonable and adequate; and it denies that said crossings, or any of them are dangerous to public safety, or that public travel thereon is impeded within the meaning of the statute.

14. It has not sufficient information at present to state whether or not the alteration in one of the crossings described in the petition will necessarily involve all of the others.

15. It has no knowledge of the allegations in paragraph 16 except that it denies that the travel on said streets is impeded to an unusual extent, or is impeded at all within the meaning of the statute.

16. Respondent further says that the said board has no valid power or authority in law or otherwise, to compel this respondent by order or otherwise to eliminate, change or otherwise alter any of the streets or highway crossings referred to in the petition herein for the reason, among others, that this respondent is not the Company operating the railroad mentioned in the said petition.

17. Respondent further answering says that certain of said crossings mentioned in said petition were laid out and constructed by the City of Paterson across the existing tracks and right of way of this respondent, now operated by said Erie Railroad Company, and subsequent to the construction and commencement of operation of said railroad by this respondent and as to these crossings the said Board of Public Utility Commissioners is without jurisdiction to order respondent at its own expense to alter or change the grade thereof, or to construct other crossings in the place and stead thereof not at grade.

18. Respondent further answering says that the cost of eliminating said crossings as requested in said petition would exceed the value of all the property real and personal of this respondent and would make its property incapable of earning when used for railroad purposes, a fair and reasonable return upon the amount involved therein, and would result in the confiscation of its property and amount to a taking of its property without due process of law contrary to Article V and XIV amendments to the Constitution of the United States.

19. Respondent further says that the said statute is unconstitutional and void because it deprives and will operate to deprive the Court of Chancery of the State of New Jersey of its exclusive jurisdiction over the regulation of the use of easements, contrary to Article VI, Section 1 of the Constitution of the State of New Jersey. Said statute is also unconstitutional and void because it deprives and will operate to deprive the Supreme Court of the State of New Jersey of its jurisdiction to compel the Erie Railroad Company, or its said lessors by mandamus or other appropriate proceedings to perform the duties imposed by law upon said Erie Railroad Company or its lessors, with respect to the construction and maintenance of said crossings or some of them, contrary to the provisions of said Article VI, Section 1 of the Constitution of New Jersey.

20. Respondent further says that by virtue of its act of incorporation and the various amendments thereto it constructed its said railroad across certain of the streets mentioned in the petition as they then existed and that the Erie Railroad has succeeded to all of the rights and privileges of this respondent in the manner hereinbefore described and that therefore Chapter 57 of the Laws of 1913 of the State of New Jersey is inapplicable to said crossings and if held to

Answer of Paterson & Ramapo Railroad Co.

be applicable is unconstitutional and void in that, contrary to Article I, Section 10, paragraph 1 of the Constitution of the United States it will impair the obligation of contracts.

10 21. Respondent further says that the Act of the Legislature of the State of New Jersey, being Chapter 57 of the laws of 1913, is unconstitutional and void in that, if the said Board of Public Utility Commissioners complies with the request of the petition herein. Said statute will operate to take the property of this respondent, which property is private property, for a private use, and will also take property of this respondent for public use without just compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey.

20 22. Respondent, further answering, says that the said statute and the exercise of the power purporting to be conferred upon said Board thereby, operates and will operate to take the property of this respondent, without affording to it any opportunity to protect said property, and thereby this respondent is and will be deprived of its right and guarantee of enjoying, defending, possession and protecting said property given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey and in violation thereof.

30 23. Respondent further says that the said statute is unconstitutional and void under the constitution of the United States in that it operates and the requested action of the said Board of Public Utility Commissioners thereunder will operate to deprive this respondent of its property without due process of law, and denies and will deny to this respondent the equal protection of the law contrary to the XIV amendment to the Constitution of the United States.

 Attorney of Respondent.

Answer of Public Service Railway Co.

Answer of Public Service Railway Co.

Changing of Grade Crossings.

The answer of Public Service Railway Company to the above petition respectfully shows:

That this respondent neither admits nor denies the allegations contained in the first thirteen sections of the complainant's complaint.

This respondent admits that it has street railway tracks crossing the tracks of the Erie Railroad Company at grade at Market street crossing, marked "D," in complainant's complaint; at Broadway crossing marked "G" in complainant's complaint, and at River street crossing marked "X" in complainant's complaint. 10

This respondent neither admits nor denies the allegations contained in the fifteenth to the nineteenth sections inclusive, of said complaint, but submits that the elimination of the grade crossing, if made, should be made without expense to this respondent. 20

Respectfully submitted,

PUBLIC SERVICE RAILWAY COMPANY.

By J. J. BURLEIGH,
Vice-President.

Dated, Newark, N. J.,

November 5, 1913.

*Answer of Public Service Electric Co.***Answer of Public Service Electric Co.**

The answer of Public Service Electric Company to the above petition respectfully shows:

That this respondent neither admits nor denies the allegations contained in the first thirteen sections of the complainant's complaint.

10 This respondent admits that it has electric wires crossing the tracks of the Erie Railroad Company at Fulton and Straight streets, Governor street, Broadway, Grand street, Montgomery street, Cedar street, Warren street and River street.

The crossings at Fulton and Straight streets, Governor street, Broadway and Grand street, under an agreement between Public Service Electric Company and City of Paterson will have to be made underground. The other crossings will be overhead.

20 This respondent neither admits nor denies the allegations contained in the fifteenth to the nineteenth sections inclusive, of said complaint, but submits that the elimination of the grade crossing, if made, should be made without expense to this respondent.

Respectfully submitted,

PUBLIC SERVICE ELECTRIC COMPANY.

By J. J. BURNHAM,

Vice-President.

30 Dated Newark, N. J.,

November 10, 1913.

Answer of Public Service Gas Co.

The answer of Public Service Gas Company to the above petition respectfully shows:

That this respondent neither admits nor denies any of the allegations contained in complainant's petition except in so far as the same relates to the acts or property of this respondent.

10

This respondent admits that it has gas pipes beneath the surface of the following streets where the same are crossed by the tracks of the Erie Railroad Company; Madison avenue, Clay street, Cedar street, Market street, Ellison street, Van Houten street, Broadway, Fair street, Hamilton avenue, Lafayette street, Franklin street, Keene street, Warren street, Putnam street, Grand street, Governor street and Fulton street; and that the separation of the grades of the railroad and the streets above specified will necessitate large expense for removal and reconstruction of said pipes, but submits that the elimination of the grade crossings, if made, should be made without expense to this respondent.

20

Respectfully submitted,

PUBLIC SERVICE GAS COMPANY.

APPLICATION—CITY OF PATERSON
TO ALTER GRADE CROSSINGS ON LINE
OF ERIE RAILROAD COMPANY.

10 Board of Public Utility Commissioners,
Mr. A. N. Barber, Secretary,
Trenton, New Jersey.

Dear Sir:—

In answer to your letter dated October 18, 1913, relative to the above entitled matter, I submit the following statement, showing the present construction of this company at the points in question:

Madison Avenue—

No construction

20 Clay & Straight Streets—

No construction.

Cedar Street—

One (1) 100-pair No. 22 gauge aerial cable

Two (2) guys

Market Street—

Nine (9) subway ducts containing

Two (2) 500-pair No. 22 gauge underground cable

Two (2) 300-pair No. 19 gauge underground cable

30 One (1) 200-pair No. 19 gauge underground cable

Ellison Street—

No construction

Van Houten Street—

Six (6) subway ducts containing

Two (2) 600-pair No. 22 gauge underground cable

One (1) 300-pair No. 19 gauge underground cable

Answer of New York Telephone Co.

One (1) 200-pair No. 19 gauge underground cable

Broadway—

No construction

Fair Street—

No construction

Hamilton Avenue—

No construction

10

Lafayette Street—

One (1) 50-pair No. 22 gauge aerial cable

Franklin Street—

Twelve (12) open wire No. 14 gauge

Four (4) twisted pairs

Keen Street—

No construction

Warren Street—

No construction

River & Putnam Streets

20

One (1) Guy

Four (4) subway ducts containing

One (1) 200-pair No. 22 gauge underground cable

One (1) 100-pair No. 19 gauge underground cable

I desire to further advise you that this company does not maintain any construction at the following crossings, where the streets run under the tracks of the railroad:

30

Essex Street

Governor Street

Fulton Street

Straight Street

Yours very truly,

(Signed) J. L. SWAYZE, C.,
General Attorney.

Answer of Western Union Telegraph Co.

Respondent, WESTERN UNION TELEGRAPH COMPANY, hereby answers the petition filed in the above entitled proceeding as follows:

10 (1) Respondent says that it has constructed and now maintains and operates certain wires along the right of way and across the several streets in the City of Paterson, as set forth in Schedule "A" which is attached hereto and made a part of this answer; that said wires and poles upon which they are strung were constructed and are operated and maintained under and by virtue of a certain lease or agreement made between it and the said Erie Railroad Company, under date of the 25th day of September, 1907, and respondent says that said statute is unconstitutional and void under the constitution of the United States and of the State of New Jersey, in that it operates, 20 and the proposed action of said Board thereunder will operate to take property of this respondent (which property is private property) for public use without just or any compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey, and said statute and any order of the Board that may be made thereunder in the present proceedings operates and will operate to deny to it the equal protection of the law and to deprive it of its property without due process of law and abridge its privileges and immunities as a citizen of the United States contrary to and in violation 30 of the 5th and 14th amendments of the Constitution of the United States.

(2) The said Board has no valid power in law or otherwise to make any order for the alteration of said crossings or either of them, in such a manner as to require changes in or the removal of the property or constructions of respondent's telegraph lines and other property, or to compel respondent, at its own 40

Answer of Western Union Telegraph Co.

expense, to move or change the grade or location of its property or constructions in conformity with any order of said Board.

(3) Respondent further says that the said statute and the exercise of the power purporting to be conferred upon said Board, thereby operates and will operate to take the property of this respondent without affording it any opportunity to protect said property, and thereby this respondent is and will be deprived of its right and guaranty of enjoying, defending, possessing and protecting said property, given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey. 10

(4) Respondent further says that the said statute is unconstitutional and void because it deprives and will operate to deprive the Court of Chancery of the State of New Jersey of its exclusive jurisdiction over the regulation of the use of easements contrary to Article VI, Section 1, of the Constitution of the State of New Jersey. 20

(5) Respondent further says that said act is unconstitutional and void, in that it is contrary to article I, Section 10, paragraph 1, of the Constitution of the United States in that it will impair the obligation of contracts.

(6) Respondent further says that any order that may be made by said board in this proceeding will require changes in or the removal of the property or constructions of respondent consisting of telegraph wires and poles and that such statute in so far as it operates or in so far as any order of this board made thereunder shall operate, to require this respondent its own expense to change, alter or remove the location of its said property or constructions so as to conform with such order of said board is unconstitutional and void, in that it takes the private property of this respondent for public use without just or any 30 40

Answer of Western Union Telegraph Co.

compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey, and said statute and any order of the Board made thereunder in the present proceedings, operate and will operate to deprive said respondent of its property without due process of law, and denies to it the equal protection of the law, and abridges its privileges and immunities as a citizen of the United States, contrary to and in violation of the Constitution of the United States.

WHEREFORE, this respondent, WESTERN UNION TELEGRAPH COMPANY, prays that this proceeding be dismissed.

GEORGE H. FEARONS,
General Attorney.

195 Broadway, New York City.

20

SCHEDULE "A."

WESTERN UNION TELEGRAPH COMPANY has constructed and now maintains and operates poles and wires along the right of way of the Erie Railroad Company through the City of Paterson and across certain streets as follows:

(1) Madison Avenue, line of poles and wires on both sides of track, the line on the north side owned by Erie Railroad Company but leased to and maintained by the Western Union Telegraph Company, carries on top arm five telegraph and two signal wires operated by Erie Railroad Company. On the other arms all wires are signal wires operated by Erie Railroad Company. The line of poles and wires on the south side of tracks is owned and operated by Western Union Telegraph Company and carries two railroad company wires and eight Western Union wires.

(2) Between Newark Jct. and east end of the Paterson station opposite the telegraph office the lines

40

Answer of Western Union Telegraph Co.

are consolidated on the north side. This joint line carries nine Erie Railroad telegraph wires, eighteen Western Union wires, and six Erie Railroad short line signal and telephone wires. The above wires are on six upper arms. The wires on arms below the sixth arm are Erie Railroad automatic signal wires.

(3) Between the east end of Paterson Station and a point opposite the Paterson City station of the N. Y. S. & W. R. R. There are seven Erie Telegraph wires and fourteen Western Union telegraph wires and a varying number of Erie R. R. short line telephone and signal wires and Public Service Electric light wires; also Erie Railroad automatic signal wires. 10

(4) Between a point opposite the N. Y. S. & W. R. R. Paterson City station and Broadway the line is consolidated and carries seven Erie R. R. telegraph wires; seven Western Union telegraph wires; three Railroad short line signal wires and two Erie R. R. short line telephone wires, with a varying number of Erie R. R. automatic signal wires. 20

(5) Between Broadway and River St. Station there are two pole lines one on either side of the tracks. The north side line carries seven Erie R. R. telegraph wires. Three Erie R. R. short line signal and two Erie R. R. short line telephone wires on the two upper arms and a varying number of automatic signal wires on the arms below the second crossarm. On the south side there are seven Western Union telegraph wires. 30

**Answer of Paterson, Passaic & Suburban
Telephone Company.**

R. E. LINDSAY,

PATERSON, PASSAIC AND SUBURBAN TELEPHONE CO.,
181 Market St., Paterson, N. J.

10

November 1st, 1913.

Board of Public Utility Commissioners,
Trenton, New Jersey.

Gentlemen:—

The Paterson, Passaic and Suburban Telephone Company has no objection to the granting of the above petition, and will promptly carry out any instructions in the matter concerning the property of this company that may be issued by your Board.

20

Neither proposed plan for the elimination of the several crossing presents any engineering difficulty for the telephone company, but I find that the petition is in error regarding the ownership of certain aerial wires crossing railroad right of way, and am submitting herewith a corrected list of property of the Paterson, Passaic and Suburban Telephone Company involved in the proposed work.

Very truly yours,

(Signed) R. E. LINDSAY.

Answer of Respondent, Passaic Water Co.

Respondent, PASSAIC WATER COMPANY, a corporation of the State of New Jersey, answers the petition in this proceeding as follows:

1. It admits that it maintains water pipes and water mains, as set forth in paragraph fourteen of the petition herein, and says that the same were constructed, and are maintained, under and by virtue of the provisions of a special Act of the Legislature of the State of New Jersey (constituting its charter) entitled "An Act to Incorporate the Passaic Water Company," approved February 13, 1849, and the various supplements and amendments thereto, under and by which said charter it was fully authorized and empowered to lay its pipes beneath such public roads, streets, avenues and alleys in the City of Paterson (among other places) as it might deem necessary for supplying the City (then Town) of Paterson (and other places) with water sufficient for extinguishing fires, culinary and other family uses, water the streets and such other purposes as might conduce to the health and comfort of the citizens of Paterson; that so far as any of said streets abutting on said crossings mentioned in said petition were laid out and constructed before the tracks and right of way of the President and Board of Directors of the Paterson & Hudson River Railroad Company, and those of the Paterson and Ramapo Railroad Company, now operated by Erie Railroad Company, came into existence the said Railroad Company's title was subject to the burden of said streets, with all their incidents such as the public right to lay and maintain sewers, water pipes and gas pipes and electric conduits, etc., and with reference to any of said streets abutting upon said crossings mentioned in said petition, which were laid out and constructed by the City of Paterson across the then existing tracks and right of way of

said Railroad Company, the said Railroad Company received compensation once for all when said streets were opened, and that this respondent in laying its pipes under all of said crossings was merely exercising the public easement conferred upon it by its charter, to which the said Railroad Company, whether it owned the land or had only a right of way, was bound to submit.

10

2. Respondent says that the statute under which this proceeding is brought is unconstitutional and void under the constitutions of the United States and of the State of New Jersey, in that it operates, and the proposed action of said Board thereunder will operate, to take property of this respondent (which property is private property) for public use without just or any compensation, contrary to, and in violation of Article I, Section 16, of the Constitution of the State of New Jersey, and said statute and any order of the Board that may be made thereunder in the present proceedings, operate, and will operate, to deny to it the equal protection of the law, and to deprive it of its property without process of law and abridge its privilege and immunities as a citizen of the United States, contrary to and in violation of the 5th and 14th amendments of the Constitution of the United States.

20

3. Respondent further says that the Board of Public Utility Commissioners has no valid power in law or otherwise, to make any order for the alteration of said crossings, or any or either of them, in such manner as to require changes in or the removal of the property or construction of respondent's water pipes or water mains, or other property, or to compel respondent, at its own expense, to move or change the grade or location of its property or constructions in conformity with any such order.

30

40

4. Respondent further says that the said statute and the exercise of the power purporting to be conferred upon said Board, thereby operates and will operate to take the property of this respondent without affording it any opportunity to protect said property, and thereby this respondent is and will be deprived of its right and guaranty of enjoying, defending, possessing and protecting said property, given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey.

5. Respondent further says that the said statute is unconstitutional and void because it deprives, and will operate to deprive, the Court of Chancery of the State of New Jersey of its exclusive jurisdiction over the regulation of the use of easements, contrary to Article VI, Section 1, of the Constitution of the State of New Jersey.

6. Respondent further says that said act is unconstitutional and void, in that it is contrary to Article I, Section 10, Paragraph 1, of the Constitution of the United States, in that it will impair the obligation of contracts.

7. Respondent further says that any order that may be made by the said Board in this proceeding will require changes in or the removal of the property or constructions of respondent, consisting of water pipes and water mains, and that such statute in so far as it operates or in so far as any order of this Board made thereunder shall operate, to require this respondent at its own expense to change, alter or remove the location of its said property or constructions, so as to conform with such order of said Board, is unconstitutional and void, in that it takes the private property of this respondent for public use without just or any compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey, and said statute and any

Answer of D. Fullerton & Co.

order of the Board made thereunder in the present proceedings, operates and will operate to deprive said respondent of its property without due process of law, and denies to it the equal protection of the law, and abridges its privileges and immunities as a citizen of the United States, contrary to and in violation of the Constitution of the United States.

WHEREFORE, this respondent, PASSAIC WATER COMPANY, prays that this proceeding be dismissed.

10

HUMPHREYS & SUMMER,

*Attorneys for Respondent,
Passaic Water Company.*

Answer of D. Fullerton & Co.

The respondent, D. Fullerton & Co., makes answer as follows:

20

1. It admits paragraphs 1 and 2 of the petition filed herein and paragraph 3.

2. It has not sufficient knowledge as to paragraphs 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16 and 18 to make answer thereunto.

3. Respondent says that as to paragraph 19, it believes that depressing the tracks of said railroad, is impracticable, and that if the grade of said railroad is altered at all, it should be elevated.

4. Respondent says it has been engaged in business of selling meats and provisions at wholesale in the City of Paterson since its incorporation, and prior to its incorporation, the stockholders of respondent conducted the same business as a partnership, and have continued to conduct said business for about forty years last past.

30

5. Respondent says its business is conducted upon property owned by it, consisting of a tract of land comprising the Northerly half of the plot bounded West by River Street; North by Keene Street and

40

East by Erie Railroad Company, upon which land respondent has erected buildings and installed equipment at a cost of more than One Hundred Thousand Dollars.

10 6. Respondent says that Erie Railroad Company has for more than twenty years last past maintained a switch of about one hundred feet in length, along the Easterly line of the property of respondent. Said switch is entirely upon lands of Erie Railroad Company and extends parallel with the tracks of said company, and lies between the main tracks of said company and the lands of respondent. Said switch crosses no thoroughfare, and is used exclusively by D. Fullerton & Company in its business, and train movements thereon amount to about twenty cars a week; cars are placed and re-placed on and off said switch two and three times each day.

20 7. Respondent says its buildings were erected with reference to the facilities afforded it by the Erie Railroad Company, and especially with reference to said switch; that such switch privilege is absolutely necessary for the conduct of the business of D. Fullerton & Co.

30 8. Respondent says that if the tracks of the Erie Railroad Company are depressed as set forth in the petition, it will be deprived entirely of its use of said switch and railroad service, and that if said tracks are elevated, it will be required to remodel and rebuild its said buildings, and re-arrange its equipment both inside and outside of said buildings.

40 8. Respondent further says that the statute, being chapter 57 of the laws of 1913, is unconstitutional and void, under the constitution of the United States and of the State of New Jersey, in that it operates and the requested actions of said board thereunder will operate to take the property of this respondent and others for public use without just or any compensa-

tion, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey; and said statute and any order of the board that may be made thereunder in the present proceedings, operates and will operate to deny to respondent, equal protection of the law, and to deprive it without due process of law of its property and abridges its privileges and immunities as a citizen of the United States contrary to and in violation of the 5th and 14th amendment of the Constitution of the United States.

10

9. Respondent further says that any order that may be made by the board in this proceeding, will require changes in and the removal of the property and buildings and equipment of respondent, and that said statute in so far as it operates to require respondent at its own expense to remove or change the grade or location of its property, buildings or equipment in conformity with the order of said Board, is unconstitutional and void, in that it takes the private property of respondent for public use without just or any compensation, contrary to and in violation of Article I, Section 16, of the Constitution of the State of New Jersey, and any order of the Board that may be made thereunder, in the present proceedings, and operates and will operate to deprive this respondent of its property without due process of law, and denies to it the equal protection of the law, and abridges its privileges and immunities as a citizen of the United States, contrary to and in violation of the Constitution of the United States.

20

30

Respondent therefore prays that the petition filed herein shall be dismissed.

HUDSON & JOELSON,

Attorneys.

Answer of National Silk Dyeing Co.

The answer of the NATIONAL SILK DYEING COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

10 1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

20 3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief says that the Erie Railroad Company owns certain property adjacent to its right of way.

30 6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

40 7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it ex-

ists in reference to this respondent and other switch owners. It does not show the freight yard, sidings and switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

11. Respondent in answer to the allegations in paragraph 16, says that it admits the population of Paterson is correctly stated therein, and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says that it has no information in relation to the allegation in paragraph 14A, and leaves the petitioner to make such proof as may be required.

13. Respondent further answering says that it is a corporation engaged in business as silk dyers; that for the purpose of supplying its various dye houses

10

20

30

40

Answer of National Silk Dyeing Co.

with coal it purchased some years ago property on Wait street, near Leon street, opposite the tracks of the Erie Railroad, and that it has expended a very large amount of money in adapting the same to such use; that its object in buying said property was because it adjoined the said Erie Railroad and would consequently have adequate facilities to unload its coal economically; that said property is connected
10 with said railroad by a switch and this respondent depends upon such connection with said railroad to use its said property for the purpose for which it was purchased; that this respondent interposes no objection to the elevation of said tracks as prayed for by the said petitioner, as it would not work any serious damage to it, but it strongly resists any efforts made to depress the said tracks, as such change of grade would utterly destroy the value of the property of
20 this respondent at the place aforesaid for the use for which it was purchased and improved, and would very seriously damage it for any purpose whatever.

14. Respondent further says that any change in the grade of the said railroad by depressing the same will deprive this respondent of the power to carry on its business as aforesaid, will be of the most serious damage, and will take its property for public use without compensation.

WILLIAM B. GOURLEY,

30

Attorney of Respondent.

Answer of Fullers Express Co.

The answer of FULLERS EXPRESS COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

10

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such crossing.

4. Respondent has no knowledge of the allegations of paragraph 5.

20

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7, but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

30

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch own-

40

ers. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

10 9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

20 10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

30 11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

40 13. Respondent further answering says that it is a corporation of this state engaged in the business of transporting merchandise in the City of New York to the City of Paterson and from the City of Paterson to the City of New York over the line of the Erie

Railroad Company; that it has a leasehold estate in property abutting on the line of the Erie Railroad Company upon which switches are laid to afford facilities for said express business; that it has erected valuable buildings on the west side of said railroad at the junction of Ellison street in the City of Paterson, which it uses in its aforesaid business; that such buildings consist of freight houses in which merchandise, transported as aforesaid, is stored and handled; that these buildings are constructed so that the floor thereof and the platform surrounding the same will be on a level with the floor of cars standing alongside thereof; that such aforesaid buildings were constructed in that manner to facilitate the unloading of cars into said houses, and that if the grade of said tracks were changed it would make such property of this respondent useless for such purposes; that said land was obtained and said buildings were erected because of the propinquity of said railroad; that this respondent has materially improved the property and has spent large sums of money in the construction of said building; that without the privilege of switching it will be unable to carry on its said business and that to depress the tracks of the said railroad would utterly destroy the value of your respondent's property; that if said tracks were elevated the present buildings constructed as aforesaid by this respondent would become useless; that this respondent has no precise information and no clear understanding of how said tracks could be elevated without totally destroying this respondent's said business.

10

20

30

14. Respondent further says that any change in the grade of the railroad by depressing the tracks or elevating the same will deprive this respondent of the power to carry on its business, as aforesaid; will be of most serious damage and will take its property for public use without compensation.

40

Answer of The Herman Co.

15. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons;

10 (a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this state.

20 (c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

WM. B. GOURLEY,
Attorney of Respondent.

Answer of The Herman Co.

30 The answer of THE HERMAN COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondent admits paragraph three.

40 3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public

safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

10

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

20

8. Respondent is not informed as to the allegations in paragraph 13.

30

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that is it not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge con-

40

cerning the allegations that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

10 11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

20 12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

30 13. Respondent further says that Ellison street upon which part of the buildings of this respondent is erected was laid out by the City of Paterson over and across the tracks of the Erie Railroad Company, or its predecessors in title, and that the respondent in constructing its buildings and adapting its property to the use to which it is put accepted this grade as established by the city and constructed its buildings in conformity therewith; that this recognized the level of the railroad as the street level and was used as a guide in the construction of its buildings in and along the line of said railroad, and that the petitioner cannot now cause the said grade to be changed without affording compensation therefor to this respondent.

40 14. Respondent further says that if said railroad is elevated it will, where its line crosses Ellison street, cause a high embankment to be erected immediately adjoining the property of this respondent in Ellison street and will materially damage such property.

15. Respondent further answering says that it is a corporation of this state, engaged in the business of wholesale grocers, and that its place of business is at Ellison street in said City of Paterson at the junction of said street with the said Erie Railroad; that it owns a tract of land abutting upon said railroad, on part of which has been erected a large brick building for its business; that respondent selected this site years ago because it bordered upon the line of said railroad; that it is of the utmost importance to this respondent in its competition with its competitors to have the quickest facilities for shipment of its purchases and sales; that it has a switch from the railroad to its property, and that this switch is the property of this respondent; that to depress the tracks at this point would be utterly to destroy the property of respondent for the purposes for which it is now used, and materially damage it for any purpose; that to elevate the tracks of the said railroad, while less damaging, would be of the most serious consequence to this respondent, and respondent is unable to understand how such elevation can be made without impairing the present value of its property.

10

20

16. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons:

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

30

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use

40

Answer of John Agnew Co.

without just or any compensation in violation of the Constitution of this State.

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

10

WILLIAM B. GOURLEY,

Attorney of Respondent.

Answer of John Agnew Co.

The answer of John Agnew Company, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad:

20

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

30

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

40

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but

has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad. 10

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged. 20 30

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

11. Respondent in answer to the allegations in paragraph 16, says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said 40

Answer of John Agnew & Co.

paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

- 10 13. Respondent further answering says that it is a corporation engaged in business as coal merchants, and has two places of business in the City of Paterson, one at Prince street and one at Ann and Governor streets, in the said City of Paterson; that its property at Prince street is connected with the Erie Railroad by tracks in the public street; that its property at Governor and Ann streets abuts upon the property of the Erie Railroad; that it has been doing business for over forty years as coal merchants; that both
20 places were selected because it was advantageous for the business and particularly for the coal yard at Governor and Ann streets; that if the grade of the Erie Railroad is changed it will prevent this respondent from obtaining its coal to supply the yard at Prince street and will destroy the business of the respondent; that the tracks of the respondent connect at the prince street yard with the tracks of the Erie Railroad at the freight yard, which yard is used in common by the merchants of the whole city; that if
30 there is any practical way—which the respondent does not think is practicable—of permitting the freight yard at this point to remain at its present level, no objection will be interposed by respondent to a change of grade of the main track.

14. Respondent further says that the yard at Governor and Ann streets would be affected by any change in the grade of said road and would seriously deprive the respondent of its property at this latter point without compensation.

Lawyer of John Agnew Co.

15. Respondent further says that any change in the grade of the railroad by depressing the tracks or elevating the same will deprive this respondent of the power to carry on its business, as aforesaid, will be of the most serious damage and will take its property for public use without compensation.

16. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons:

10

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

(b) It operates to require the respondent at its own expense to move or change its property of constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this State.

20

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

WILLIAM B. GOURLEY,

Attorney of Respondent.

30

Answer of James Wilson & Sons (Incorporated).

The answer of James Wilson & Sons (incorporated), respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad:

10 1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

20 4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

30 6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said City at the intersections named in this paragraph and also admits that certain crossings named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in refer-

Answer of James Wilson & Sons (Inc.).

ence to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

13. Respondent further says that this company is engaged in business as dealers in coal and has been so engaged for about forty years; that its property is

Answer of P. S. Van Kirk Co.

situate on the west side of Railroad avenue, at the corner of Slater street, in said City of Paterson; that it purchased its said property and established its business and erected buildings thereon because it adjoined the said Erie Railroad and because of the facilities afforded in consequence thereof; that it is dependent upon its connection with the tracks of the Erie Railroad by means of an overhead coal conveyer; that it would work irreparable damage to this respondent if it was deprived of the right which it now enjoys; that the freight yard of the Erie Railroad Company is opposite the property of this respondent; that if the freight yard is allowed to remain upon the grade where it now is, this respondent would interpose no objection to any change sought to be made, as it would not in such case materially affect the interests of this respondent.

20

WILLIAM B. GOURLEY,
Attorney of Respondent.

Answer of P. S. Van Kirk Co.

The answer of P. S. VAN KIRK COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad:

30 1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly
40 impeded by reason of such crossing.

Answer of P. S. Van Kirk Co.

4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10. 10

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad. 20

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegations that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged. 30 40

Answer of P. S. Van Kirk Co.

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

10 11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

20 13. Respondent further answering says that it is a corporation of this State, engaged in business as general contractors on Fulton street, in the said City of Paterson, and that it has property abutting on the line of the Erie Railroad, upon which switches are laid to afford it facilities for shipment; that the proximity of said railroad to the property of this respondent is a valuable property right, adding materially to the value of the respondent's property; that said switch is used by tenants of said respondent, that is to say, by the Olive Oil Company and the Diamond Coal Company; that said land was purchased because
30 it abutted on said railroad; that this respondent has materially improved the property, and has added thereto and has spent considerable sums of money in the construction of buildings on its said lands, that without the privilege of switching, it will be unable properly to carry on its business; that to depress the tracks of the railroad would be utterly to destroy the value of respondent's property.

40 14. Respondent further says that if there is any practical way by which the tracks can be elevated and the rights of the respondent protected, it would

Answer of P. S. Van Kirk Co.

not interpose any objection thereto; but this respondent, in the absence of precise information, has no clear understanding that such plan can be executed.

15. Respondent further says that any change in the grade of the railroad by depressing the tracks or elevating the same will deprive this respondent of the power to carry on its business, as aforesaid, will be of the most serious damage and will take its property for public use without compensation. 10

16. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons:

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey. 20

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this state.

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States. 30

WILLIAM B. GOURLEY,
Attorney of Respondent.

Answer of Henry M. Post.

Answer of Henry M. Post.

The answer of HENRY M. POST, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad:

10 1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

20 4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

30 6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

40 7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said City at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch

Answer of Henry M. Post.

owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged. 10

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others. 20

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent. 30

12. Respondent says it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

13. Respondent further says that he is engaged in business as a dealer in coal and masons' supplies, and has been so engaged for about thirteen years; that his property is situate on the westerly side of Wait street at its intersection with Lowe street; that 40

Answer of Paterson Brewing & Malting Co.

respondent purchased the said property because it ad-
joined the said railroad and because of the facilities
afforded in consequence thereof; that respondent is
dependent upon the connection with the tracks of
the Erie Railroad by means of a switch for a great
part of his business; and that the freight yard of the
Erie Railroad Company is opposite the property of
10 this respondent; and that if said tracks are depressed
and elevated it would deprive this petitioner of the
use of his property and materially affect its value.

WILLIAM B. GOURLEY,

Attorney of Respondent.

Answer of Paterson Brewing and Malting Co.

20 The answer of the PATERSON BREWING AND MALTING
COMPANY, respondent, to the petition of the City of
Paterson to alter grade crossings on line of the Erie
Railroad.

1. The respondent has no knowledge of the allega-
tions in paragraphs 1 and 2 of the petition, except
that it admits the Erie Railroad maintains certain
grade crossings in the City of Paterson.

2. Respondent admits paragraph three.

30 3. Respondent admits that said railroad crosses
a great number of streets and highways at grade as
alleged in the fourth paragraph, but it has no direct
knowledge that each of them is dangerous to public
safety or that public travel on each of them is greatly
impeded by reason of such grade crossing.

4. Respondent has no knowledge of the allegations
of paragraph 5.

40 5. Respondent has no knowledge of the leases de-
scribed in paragraphs 6 and 7 but, upon information
and belief, says that the Erie Railroad Company owns
certain property adjacent to its right of way.

Answer of Paterson Brewing & Malting Co.

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

10

8. Respondent is not informed as to the allegations in paragraph 13.

20

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

30

10. Respondent says that it is not advised whether or not as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of

40

Answer of Paterson Brewing & Malting Co.

Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

10 12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

20 13. Respondent further answering says that it is a corporation engaged in business as brewers, and that it has been doing business for many years at its present site; that it owns property along the line of the Erie Railroad in said City at several places; that among them is one piece of property on the easterly side of Ramapo avenue on the corner of Cedar street; that the said piece of property of the respondent is
30 known as the Graham Branch of its brewery; that it has at said point a switch which connects its property with that of the Erie Railroad; that this connection is of the highest advantage to this respondent, and that without this facility for carrying on business, its business would be materially abridged; that its property known as the Katz Branch on Governor street abuts the Erie Railroad, and that its property known as the Hinchliffe Branch on Governor street abuts the Erie Railroad; that through its various places ad-
40 joining the tracks of the said Erie Railroad, respondent has increased advantages for carrying on its business; that this is of great pecuniary advantage to it; that switches run from the said Erie Railroad over and along its property on which goods are shipped and supplies obtained; that any depression of the tracks or elevation of said tracks in and along the line of the road at the respective places aforesaid would be to seriously damage the properties of the respondent known as the Hinchliffe Branch and the Katz

Answer of Paterson Brewing & Malting Co.

Branch, and to materially destroy the value of said property; that said lands were purchased because of their availability for such service, and to make such contemplated changes in the line of said railroad, either by depressing or elevating the same would be to take the property of this respondent without compensation.

14. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons:

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this State.

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

WILLIAM B. GOURLEY,
Attorney of Respondent.

**Answer of Jacob Meyer and Kommer De Vogel,
Partners, Etc.**

The answer of JACOB MEYER AND KOMMER DE VOGEL, partners, trading and doing business as Meyer and De Vogel, respondents, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

10 1. The respondents have no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that they admit that the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondents admit paragraph 3.

20 3. Respondents admit that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but have no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

4. Respondents have no knowledge of the allegations of paragraph five.

5. Respondents have no knowledge of the leases described in paragraphs 6 and 7, but, upon information and belief, say that the Erie Railroad Company owns certain property adjacent to its right of way.

30 6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

40 7. Respondent says in answer to the allegations in paragraph 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately

places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

10

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

20

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says the traffic on these streets is not impeded to an unusual extent.

30

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

13. These respondents further answering say that they are dealers in grain, flour, feed, hay and other supplies; that their place of business is at the junct-

40

tion of Franklin street and Summer street, in the said City of Paterson; that this tract of land is triangular in shape, and that the long side of the triangle fronts on the Erie Railroad, and that said land abuts on the property of the Erie Railroad, and that they have a switch upon their lands which connects with the Erie Railroad near Keen street; that said lands are very valuable to respondents for the purposes for which they were purchased, and that said lands were purchased because they abutted on the property of the Erie Railroad; that respondents have spent a large amount of money in making extensive alterations upon said property in constructing an elevator in which they have installed the most modern machinery; that either depressing said tracks or elevating them would be of the most serious damage to respondent; that to raise the tracks of said railroad twenty feet would bring them between the second and third stories of respondent's building; that respondents could not use the upper floors of their said building for the same purposes for which they now use the lower floors, as the upper structure of said building is not strong enough for such purposes, and besides such use would in other ways seriously incommode respondents in their business; these respondents say that the volume and frequency of travel at Franklin street is moderate, nor is travel seriously impeded.

14. Respondent further says that any change in the grade of the railroad by depressing the tracks or elevating the same will deprive this respondent of the power to carry on its business, as aforesaid, will be of the most serious damage and will take its property for public use without compensation.

15. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons:

Answer of Leslie Elliott Company.

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this State. 10

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

WILLIAM B. GOURLEY,

Attorney of Respondent. 20

Answer of Leslie Elliott Company.

The answer of WILLIAM LESLIE AND DAVID ELLIOTT, partners, trading and doing business as Leslie Elliott Company, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad:

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson. 30

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossings. 40

Answer of Leslie Elliott Company.

4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

10 6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

20 7. Respondent says in answer to the allegations in paragraph 11 and 12 that it admits that grade crossings exist in said City at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

30 9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon
40 is impeded, as therein alleged.

Answer of Leslie Elliott Company.

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, his respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

10

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

13. Respondents further say that they are engaged in business as boiler makers and have been so engaged for eight years; that their property is situate on the east side of Railway avenue, near Iowa avenue in said City of Paterson; that respondents purchased said property and established their business there and erected buildings on said property because it adjoined said railroad tracks of the Erie Railroad and because of the facilities afforded in consequence thereof; that respondents are dependent upon their connection with the tracks of the Erie Railroad Company by means of a switch for a great part of their business, and that in the judgment of these respondents, either the depressing or elevating of the tracks of the Erie Railroad Company would deprive respondents of this right.

20

30

WILLIAM B. GOURLEY,
Attorney of Respondent.

Answer of Samuel Smith & Sons Co.

The answer of SAMUEL SMITH & SONS COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain
10 grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

4. Respondent has no knowledge of the allegations
20 of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7 but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any
30 public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said City at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners.
40 It does not show the freight yards, sidings and

Answer to Samuel Smith & Sons Co.

switches that would necessarily be affected by change of grade of said railroad.

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

10

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

20

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

30

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

13. Respondent further says that this company is engaged in business as boiler makers and has been so engaged for more than forty years; that its property is situate on the west side of Railroad avenue, between Slater street and Green street, in said City of Pater-

40

Answer of Morris & Co.

son; that its said property was purchased and its said business established in said place because it adjoined said Erie Railroad and because of the facilities afforded it in consequence thereof; that respondent is dependent upon its connection with the tracks of the Erie Railroad by means of a switch for a great part of its business; that it would work irreparable damage to this respondent if it was deprived of this right which it now enjoys; that the freight yard of the Erie Railroad Company is opposite the property of this respondent; that if the freight yard is allowed to remain upon the grade where it now is, this respondent would interpose no objection to any change sought to be made, as it would not in such case materially affect the interests of this respondent.

WILLIAM B. GOURLEY,
Attorney of Respondent.

20

Answer of Morris & Co.

The answer of MORRIS & COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

30

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such crossing.

4. Respondent has no knowledge of the allegations of paragraph 5.

40

Answer of Morris & Co.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7, but, upon information and belief, says that the Erie Railroad Company owns certain property adjacent to its right of way.

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by any public body in relation thereto, and that it has no knowledge of allegations in paragraph 9 and 10.

10

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

20

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true, are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged.

30

40

Answer of Morris & Co.

10. Respondent says that it is not advised whether or not, as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

10 11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

20 13. Respondent further answering says that it is a corporation of this state engaged in the business of selling and transporting meat and provisions; that it has possession of property abutting on the line of the Erie Railroad Company in the City of Paterson between Ellison and Market streets upon which it has switches connected with the said tracks of the Erie Railroad; that it uses such property in its said business and has made valuable improvements thereon for such purposes; that such improvements have been made in reference to the tracks of the said railroad at their present grade and that if the grade of said tracks were changed it would make such property of this respondent useless for such purposes; that said land was obtained and said improvements made thereon because of the propinquity of said railroad; that this respondent has materially improved the property and has spent large sums of money in such improvements and in adapting it to its present use in conjunction with said railroad; that without the privilege of switching, it will be unable to carry on its said business; that to depress the tracks of said railroad would

30

40

Answer of Morris & Co.

utterly destroy the value of your respondent's property and if said tracks were elevated, the improvements placed upon the said land by this respondent for the purpose of adapting it to the uses aforesaid would become useless; that this respondent has no precise information and no clear understanding of how said tracks could be elevated without totally destroying this respondent's said business at said location in the City of Paterson; that this respondent has also acquired the property and control of the Paterson Beef Company, a corporation of this state, which has property also adjoining the said tracks of the Erie Railroad Company between Ellison and Market streets in said City of Paterson; that the business of the said Paterson Beef Company is the same as the business conducted by this respondent and the improvements made upon its property for the purpose of adapting it to its present uses in conjunction with the said railroad tracks at their present grade would be destroyed if said tracks were either elevated or depressed.

14. Respondent further says that the Act of the Legislature, that is to say, Chapter 57 of the Laws of 1913 is unconstitutional and void for the following reasons:

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this State.

Answer of McNab & Harlin Manufacturing Co.

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

WILLIAM B. GOURLEY,

Attorney of Respondent.

10

**Answer of McNab & Harlin Manufacturing
Company.**

The answer of the McNAB & HARLIN MANUFACTURING COMPANY, respondent, to the petition of the City of Paterson to alter grade crossings on line of the Erie Railroad.

20

1. The respondent has no knowledge of the allegations in paragraphs 1 and 2 of the petition, except that it admits the Erie Railroad maintains certain grade crossings in the City of Paterson.

2. Respondent admits paragraph 3.

3. Respondent admits that said railroad crosses a great number of streets and highways at grade, as alleged in the fourth paragraph, but it has no direct knowledge that each of them is dangerous to public safety or that public travel on each of them is greatly impeded by reason of such grade crossing.

30

4. Respondent has no knowledge of the allegations of paragraph 5.

5. Respondent has no knowledge of the leases described in paragraphs 6 and 7, but, upon information and belief, says that the Erie Railroad owns certain property adjacent to its right of way.

40

6. Respondent says that it is informed that there has been some discussion from time to time in the City of Paterson about altering grade crossings, but has no knowledge that any action has been taken by

Answer of McNab & Harlin Manufacturing Co.

any public body in relation thereto, and that it has no knowledge of allegations in paragraphs 9 and 10.

7. Respondent says in answer to the allegations in paragraphs 11 and 12 that it admits that grade crossings exist in said city at the intersections named in this paragraph and also admits that certain crossings therein named are carried under the railroad, but this respondent denies that said map accurately places before the Commission the situation as it exists in reference to this respondent and other switch owners. It does not show the freight yards, sidings and switches that would necessarily be affected by change of grade of said railroad.

10

8. Respondent is not informed as to the allegations in paragraph 13.

9. Respondent says in response to the allegations in paragraph 14 that said crossings, as this respondent is informed and believes to be true are protected as in said paragraphs set forth; that it is not fully informed as to the alleged obstructions to the respective crossings in this paragraph named, or to the volume and frequency of travel and other allegations therein contained, and leaves the petitioner to make proof thereof; that it has no direct knowledge concerning the allegation that said crossings are dangerous to public safety or that public travel thereon is impeded, as therein alleged; that as to the crossing at Cedar street near which the property of this respondent is situated and of which it has a more precise knowledge, this respondent says that the volume of travel is light; that the freight cars placed on the siding near this crossing does not materially affect the crossing.

20

30

10. Respondent says that it is not advised whether or not as alleged in paragraph 15, any plan of altering one crossing necessarily involves the others.

40

Answer of McNab & Harlin Manufacturing Co.

11. Respondent in answer to the allegations in paragraph 16 says, that it admits the population of Paterson is correctly stated therein and that it is constantly increasing; that it is the third city in size in the state, but as to the other allegations in said paragraph, this respondent has no knowledge except that it says that the traffic on these streets is not impeded to an unusual extent.

12. Respondent says, that it has no information in relation to the allegation in paragraph 14A and leaves the petitioner to make such proof as may be required.

13. Respondent further answering says, that it is a manufacturing corporation engaged in business as brass founders and finishers and manufacturers of plumbers supplies; that it has been doing business on part of its present site for over forty years; that such place was selected because it adjoined said railroad; that large sums of money have been expended in erecting buildings thereon; that its business has increased to such an extent that it has obtained possession of property along the line of this railroad in addition to its original tract; that its property abuts upon the property of the Erie Railroad Company; that this property is connected with switches with the Erie Railroad affording it the utmost facility in the operation of its works and better enabling it to compete in the market with its competitors; that these switches are essential to its business and without them it would be unable properly to carry on the same.

14. Respondent further says that any change in the grade of the railway by depressing the tracks or elevating the same will deprive this respondent of the power to carry on its business as aforesaid, will be of the most serious damage and will take its property for public use without compensation.

Answer of McNab & Harlin Manufacturing Co.

15. Respondent further says that Cedar street upon which part of the buildings of this respondent is erected was laid out by the City of Paterson over and across the tracks of the Erie Railroad Company, or its predecessors in title and that the respondent in constructing its buildings and adapting its property to the use to which it is put accepted this grade as established by the city and constructed its buildings in conformity therewith; that this recognized the level of the railroad as the street level and was used as a guide in the construction of its buildings in and along the line of said railway and that the petitioner cannot cause the said grade to be now changed without affording compensation therefor to this respondent.

10

16. Respondent further says that from Cedar street south its property abuts upon the land of the railroad upon which land of respondent there are private tracks connected with those of said railroad; that north of said Cedar street, the siding runs to the switch upon the land of the Erie Railway.

20

17. Respondent further says that the Act of the Legislature, that is to say, Chapter 37 of the Laws of 1913 is unconstitutional and void for the following reasons:

(a) It operates to take the private property of this respondent for public use without just or any compensation therefor, in violation of the Constitution of the State of New Jersey.

30

(b) It operates to require the respondent at its own expense to move or change its property or constructions in conformity to the order of the Board of Public Utility Commissioners and thus will take the private property of this respondent for public use without just or any compensation in violation of the Constitution of this State.

40

Report of Board.

(c) It operates to deprive this respondent of its property without due process of law and will deny to it the equal protection of the laws contrary to the 14th amendment of the Constitution of the United States.

WILLIAM B. GOURLEY,
Attorney of Respondent.

10

Report of Board.

(Dated January 11, 1915.)

REPORT.

Submitted November 4th, 1914.

20 E. F. Merrey and R. B. Lewis, for the City of Paterson.

H. A. Taylor, G. S. Hobart and D. E. Minard, for the Erie Railroad Company.

William S. Lewis, for Paterson & Ramapo Railroad and President and Directors of Paterson and Hudson River Railroad.

L. D. H. Gilmour, for Public Service Railway Company, Public Service Gas Company and Public Service Electric Company.

30 Humphreys & Summer, for Passaic Water Company.

John L. Swayze, for New York Telephone Company.

George H. Pearsons, for Western Union Telegraph Company.

William B. Gourley, for numerous switch and property owners.

W. R. Hudson, for D. Fullerton & Company and Swift Company.

40 Frank H. Sommer, for the Commission.

Report of Board.

The Board of Finance of the City of Paterson (being the body having charge of municipal finances) filed its amended petition on September 15th, 1913, for the elimination of certain grade crossings on the main line of the Erie Railroad, in the City of Paterson, beginning with Madison avenue on the east and ending with River and Putnam streets on the west. In all, fifteen grade crossings are sought to be eliminated, to wit:

- A. Madison avenue.
- B. Clay and Straight streets (two crossings).
- C. Cedar street (Taylor street substituted).
- D. Market street and Park avenue (one crossing).
- E. Ellison street.
- F. Van Houten street.
- G. Broadway.
- H. Fair street.
- I. Hamilton avenue.
- J. Lafayette street.
- K. Franklin street (Montgomery street substituted).
- L. Keen street.
- M. Warren street.
- N. River and Putnam streets (one crossing).

The petition was filed under the fifth section of a supplement to the "Public Utilities Act," approved March 12th, 1913, P. L. 1913, p. 91, known as the "Fielder Grade Crossing Act." This provides, *inter alia*, that

"the board or body having charge of the finances of any municipality wherein any such crossing exists, may present to the Board of Public Utility Commissioners in writing a petition setting forth the facts upon which relief under this act is sought * * * whereupon said Board of Public Utility Commissioners shall fix a time and place

Report of Board.

for a hearing before it and shall give such notice thereof as it shall deem reasonable to the municipality and corporations, co-partnership or individuals interested therein and after such hearing, shall determine or order what, if any, alterations to or changes in or connected with such crossing and public highway shall be made."

- 10 Notice, as required by the statute, was given to the municipality and corporations, co-partnerships and individuals interested and likely to be affected by any order requiring changes or alterations at the crossings mentioned in said petition. Answers were filed by the railroad companies, some of the other utilities, switch owners, and others who might be affected.

The first section of the Act provides:

- 20 "Whenever a public highway and a railroad cross each other at the same level and it shall appear to the Board that such crossing is dangerous to public safety, or that the public travel on such highway is impeded thereby, the Board of Public Utility Commissioners may order the company operating such railroad, within such time as said Board may fix, to alter such crossing according to plans to be approved by said Board, by substituting therefor a crossing not at the grade of such public highway either by carrying such public highway under or over such railroad, 30 or by reconstructing such railroad under or over such public highway, or by vacating, relocating or changing the lines, width, direction or location of such highway and the opening of a new highway in the place of the one ordered vacated."

- 40 The answers of the railroad companies deny that the conditions as to danger and impediment to traffic contemplated by the statute exist at the crossings in question, and deny the power of the Board to act because it is claimed the statute is invalid and, further,

Report of Board.

allege that the city has not done the things required to confer jurisdiction upon the Board.

Generally speaking, the other answers raise similar questions or submit the questions involved for the determination of the Board.

Inasmuch as the answer, and amendments to the answer, of the Erie Railroad Company, upon which company the heaviest burden would fall, raise most of the questions, it will be sufficient for present purposes to deal with some of the matters contained in its answer, and the amendments thereto. 10

Section 13 of the answer of the Erie Railroad Company avers that the petition is not filed under the act of 1913, or under the rules of the Board, and Section 20 raises the question that the petition is faulty because more than one crossing is embraced in the prayer of the petition.

No specific objection is made, but the claim is general that the petition is not filed under the act of 1913. 20

Obviously, the petition was filed under that act. The proper municipal body filed the petition, and it was intended to comply with the provisions of that act. There is no statutory requirement as to the form of the petition. The statute merely requires that the petition shall "set forth the facts upon which relief under this Act is sought."

The petition and amendments are quite full, and in the judgment of the Board, are a compliance with the statute, which is taken to mean that the petition must sufficiently set forth the facts relied upon as to put interested parties on notice of what the municipality intends to show to base its claim for relief under the act. The petition describes the physical conditions at each crossing as to protection, obstructions, volume of travel, proximity to other highways, property of other utilities likely to be affected, extent to which travel is impeded, and other facts concerning such crossings. The petition is, therefore, held to be a 30 40

Report of Board.

compliance with the statute and sufficient to confer jurisdiction upon the Board.

10 The grade crossing act is designed to provide a means whereby railroad grade crossings that are found to be dangerous or which unduly impede travel may be eliminated. It is true that the phrase "a public highway" is used in the first section of the act, but certainly the Legislature never intended thereby to limit the filing of a petition to a single crossing, in
20 cases where the elimination of one crossing would be impracticable and inadvisable. In a case like the present, to take such view would be to practically deny all relief, for the reason that separation of the grades of many of the crossings involved in this proceeding cannot be satisfactorily accomplished without affecting other crossings. It may be that each crossing must be dealt with and found to require change
20 or alteration, but the whole legislative scheme, as found in the act, negatives the idea that each crossing must be dealt with independently of, and not in connection with, other crossings in the same locality and upon the same line of railroad. The Board is of opinion that a separate proceeding is not required by the act for each crossing, and that more than one crossing may be embraced in a petition.

30 Many objections are urged to the constitutionality of the act. These are questions which must be determined by the courts. It is not the function of this Board to pass upon the constitutionality of legislative acts. Whenever this Board is directed by statute to act upon finding a state of facts to exist, its duty is to follow such mandate, leaving to the courts determination as to the validity of the statute.

40 Inasmuch as some of the questions raised by respondents have heretofore been dealt with by this Board, and others are now in the Courts, a lengthy discussion of such questions at this time would not appear to be necessary or profitable. It is sufficient

Report of Board.

that the rights of all parties to have such questions passed upon by a proper tribunal are preserved to them.

Having concluded that the petition is properly filed under the act, and that the Board is required to act whenever the conditions specified in the statute are found to exist, the first question of fact to be determined by this Board seems to be whether the crossings in question appear to the Board to be, in the language of the act, "dangerous to public safety, or that the public travel on such highway is impeded thereby." 10

Seventeen streets in the built-up section of the City of Paterson which now cross the railroad at grade are involved in this proceeding. At each of these crossings some form of protection is provided. At twelve, gates are operated continuously, namely, Clay street, Straight street, Cedar street, Market street, Park avenue, Ellison street, Van Houten street, Broadway, Fair street, Hamilton avenue, Lafayette street, Warren street, River and Putnam streets. At two, Market street-Park avenue, and Broadway, there is an additional man on the ground. At three, Madison avenue, Cedar street side tracks and yard, and Franklin street, gates are operated only during the day time; at Madison avenue and Keen street, there is bell protection when the gates are not operated at night; at Franklin street, there is no protection when the gates are not operated at night. At Keen street, there is a flagman on the ground between 6.30 A. M. and 6.30 P. M., and there is bell protection during the balance of the twenty-four hours. 20 30

Testimony was produced to show what the physical conditions are at each of the crossings in question. From all the testimony, it appears that the crossings in question are dangerous to safety; that a number of accidents have occurred at many of the crossings, resulting in injury and death; and that a high degree of protection is necessary in order to avoid more fre- 40

Report of Board.

quent accidents. For such protection the railroad company showed (Ex. R. 12) that it expends \$14,736.87 for employees and \$2,101.59 for costs of maintenance each year. A statement of such expense is appended hereto and marked Schedule "A." This sum is the interest at 5% upon approximately \$350,000. Notwithstanding the measures adopted to prevent accidents, the testimony shows that they have occurred at some of these crossings within the year 1913 (p. 234). That some of the crossings are regarded as especially dangerous is further evidenced by the fact that at two of them two men are constantly on duty, one operating gates and one on the crossing.

Paterson is one of the busiest and most populous cities in the State. Many thousands use the crossings every day. It is shown that there is an average of 210 train movements over a single crossing in eighteen hours. Schedule "B," attached to this report contains a statement based upon testimony as to the view at each crossing. The terms "Good," "Fair," "Poor" and "Bad" as used in this schedule, indicate the judgment of the Board as to the view obtainable at each crossing, from a point about 35 feet from the nearest rail, and may generally be defined as follows:

Good—A clear view; anything beyond 1,000 feet.

Fair—From 1,000 feet to 500 feet.

Poor—From 500 feet to 100 feet, and

Bad—Below 100 feet.

The statute provides that whenever the Board finds that public travel on the highway is impeded by the presence of the railroad, the Board may order a change of alteration of the grade.

Counts were made by the petitioner, as shown in the petition, by the Board of Trade, by the Street Commissioners of Paterson and by the Erie Railroad. Such testimony has been charted and is shown in Schedule "B."

Report of Board.

While the several counts vary, having been made at different times and different seasons of the year, they indicate that from one thousand to thirty thousand pedestrians pass over each of the crossings in eighteen hours, and that hundreds of vehicles use each of the crossings during the same period of time. On October 4th, 1913 (Ex. p. 4), it is shown that 34,517 pedestrians, 593 trolley cars, 1,901 horse-drawn vehicles, 1,700 automobiles, and 827 bicycles passed over Market street crossing between 5 A. M. and 11 P. M. During the same period of time, the gates were lowered 207 times, and 104 passenger trains, 13 freight trains and 47 drill engines passed over the crossing.

10

It was testified that the gates were down from 30 seconds to three to four minutes on each occasion (pp. 95, 209). Mr. Hattersley testified (p. 95) that he took observations of the time gates were down on Market street for a period of $4\frac{1}{2}$ hours and found the average to be fifty-three seconds. Assuming this to be a fair average, it appears that traffic was blocked on the fourth of October, at Market street, for something over three hours out of the eighteen hours covered by the count, or about one-sixth of the time. The Erie Railroad Company's testimony showed that an average of about 103 trains passed over all of the crossings during eighteen hours. Assuming the same average time of fifty-three seconds consumed in lowering and raising gates, we find the streets blocked for a period of one hour and thirty-one minutes out of eighteen hours, or that traffic is interfered with about one-twelfth of the entire time.

20

30

From the foregoing, it will be readily seen that public travel is seriously impeded at all of these crossings.

The Board, therefore, finds and determines that the crossing of each of the streets involved in this proceeding and the railroad tracks of Erie Railroad Company at the same level appear to this Board to be dangerous

40

Report of Board.

to public safety, and that public travel on such highways is impeded thereby.

Having determined that at each of the crossings involved a condition exists such as was designed to be remedied by the "Grade Crossing Act," the question arises as to whether it is practicable and feasible to change or alter such crossings.

10 While the Railroad Company, in its answer, protested against the inclusion of more than one crossing in the petition, the consideration of the entire subject is simplified by the acquiescence of all parties to the proceeding, that all of the crossings mentioned in the petition must be considered in any plan of elimination. From the beginning to the conclusion of the hearings, there was no intimation from anyone that a change at a particular crossing only should be considered. We will, therefore, deal with the proceeding
20 as involving the adoption of one comprehensive plan or scheme covering all of the crossings. It was never questioned but that a general plan for the separation of grades at the crossings was practicable. Differences of opinion between engineers for the municipality and the utilities affected occurred as to some details, but the chief objection raised was to the expense.

 The estimates of cost varied from that of the city of \$2,587,924.95 to that of the Erie Railroad of \$3,384,084.88, if the work was all done at one time. The
30 city's estimate did not include certain elements of cost included in the railroad's estimate.

 In considering this matter the Board has been mindful of the claim of the Erie Railroad Company that it is not now financially able to make the expenditure necessary to do the work. The testimony discloses that the Company contemplates spending larger sums than would be required for this purpose, in doing work that, in the judgment of the Board, is not so immediately necessary. It seems to the Board that
40 some of the money intended to be used for other purposes might more appropriately be used in this work,

Report of Board.

should it be found necessary to divert it. Nor does the testimony satisfy us that the Company will not be able to secure the necessary funds:

Having reached the conclusion that the crossings are such that the grades should be changed in accordance with the prayer of the petition, as provided by the statute, it now remains to consider plans to accomplish the purpose.

Plans were submitted by the City of Paterson, showing how the grades of the streets and railroad can be altered.

In the territory covered by the streets in question are three streets which at the present time pass under the railroad, namely, Essex street, Governor street and Fulton street.

The plans of the city provide for substituting for Cedar street the opening of a new street under the railroad one block east at Taylor street, and for substituting for the present crossing at Franklin street a new undergrade crossing at Montgomery street.

The plans submitted by the city extend the territory to be considered for elimination westward of River street in two schemes—the first one, known as Plan No. 2, is but the harmonizing of the existing grade with the elimination scheme outlined in the petition, and leaves the situation at Sixth avenue practically as it is, and the crossing at Fifth avenue at grade.

The second scheme, known as Plan No. 1, contemplates a new grade line from a point west of the proposed crossing of River street, running down to the present grade line at a point west of the Passaic river near the present overhead crossing of the Susquehanna railroad. This scheme contemplates the elimination of the grade crossing at Fifth avenue and the creation of a new undergrade crossing at Sixth avenue. In this scheme the Passaic river bridge would have to be raised 6.9 feet. The part of the city's plan known as Plan No. 1 is not included in the petition.

10

20

30

40

Report of Board.

Of the existing undergrade crossings, the Essex street bridge will have to be renewed at a higher elevation, because the street is to be widened. The Governor street and Fulton street bridges would be raised to accommodate the new line. The heaviest grade on the existing line through the city is .78%, and on the line as proposed by the city a .95% grade, which occurs on the run-off west of the River street bridge down to grade at Fifth avenue according to Plan No. 2. Plan No. 1 changes this particular part of the grade to .55%, leaving the maximum grade, .78%, from Lafayette street to Governor street. The proposed grades are therefore well below the ruling grade of the New York division, which is a little over 1% (p. 422). 1.00% grades are used temporarily on the division of work into sections proposed by the railroad company.

The City of Paterson submitted a profile (Exhibit P-2, p. 85) dated March, 1908, showing a scheme for eliminating the Market street and River street group of streets in separate sections; Madison avenue, Fifth avenue, Clay and Straight streets, and Main street on the Newark branch, were also included in the elimination. On this plan permanent approach grades run as high as 2%. James C. Patterson, for the Erie Railroad, comments on this as not being a "plan" but only a "scheme" (page 421) and indicates the objections to or defects of the plan as follows (p. 422):

First, the profile shows a proposed 2% east-bound grade approximately 2,000 feet long; 500 feet of this grade would be equivalent to 2.14% since it is located on a four degree curve, or what appears to be a four degree curve from the map. As .035 per degree is allowed for the resistance of the curve, .14% which added makes 2.14% which a portion of this grade would be equivalent to.

Q What have you to say about the practicability of that from a railroad proposition?

Report of Board.

"A I should say the grade was prohibitive.

"Q What is the ruling grade now of the New York division?

"A The ruling grade of the New York division at the present is a little over 1%.

"Q When you say the ruling grade, what do you mean?

"A The ruling grade is the one that limits the tonnage of a division. 10

"Q What limits this division?

"A The limits of the New York division are Port Jervis and Jersey City."

There are various other utilities affected by the proposed changes, the principal one being the Public Service Railway Company whose lines would be interfered with by the city's plan at Madison avenue, Straight and Clay streets, Park avenue and Market street, Broadway and River street. Detailed estimates of the cost of making changes at these points have been placed in evidence, the result of which are tabulated in parallel columns below: 20

PATERSON ESTIMATES—STREET WORK ONLY.

Damages to other utilities affected are included in the estimates, details of which are in evidence. Some of these other utilities will be affected very little. Estimates have been made by the city covering the entire work, which are shown in detail in a pamphlet entitled "Report on Proposed Elimination of Grade Crossings, Along the Erie Railroad in Paterson, N. J., H. J. Harder, City Engineer," and this is dated May 21st, 1914. It is summarized in Exhibit P-48. The 40

Report of Board.

detailed estimates cover items for changes to all the utilities affected.

- A comparative table is annexed (Schedule "C") considering the entire work to be done at one time, showing the totals of the estimates made by the city and Erie Railroad on the same basis, and one made by the Erie Railroad including the various items omitted by the city. They are arranged in parallel columns for convenience, showing estimates for the complete plan and three suggested modifications—
- (1) Leaving Fifth avenue at present grade; that is, following city's Plan No. 2; (2) Leaving both Fifth and Madison avenues at the present grade; that is, following city's Plan No. 2 without Section D; (3) Leaving Madison avenue at present grade, but raising Fifth avenue; that is, following city's Plan No. 1 without Section D.

- It being obvious that the complete plan must be considered, Mr. Brameld, the engineer of grade crossings of the Erie Railroad Company, at the hearing of July 9th, 1914 (p. 712), suggested the division of the work into five sections. These sections were designated by the letters from A to E, inclusive, in the order of their assumed importance, and in the order in which it was believed they could be taken up so as to give the relief sought at the earliest possible time.

- Section A covers the district from a point east of Essex street, and provides for the elimination of Market street, Ellison street, Van Houten street, Broadway, Fair street, and Hamilton avenue. It would leave Governor and Fulton streets open as they now are. It would separate the grades at Lafayette street, open a new street, Montgomery street, and permanently close Franklin street, and temporarily close Keen street. Warren street would be temporarily maintained as a grade crossing by raising it about three feet.

- Section B provides for raising the grade from Hamilton avenue to Fifth avenue, at the elevation shown

Report of Board.

on the city's plan. Included in this section would be the elimination of crossings of Keen street, Warren street and River street, using the city's Plan No. 2 west of River street to grade at Fifth avenue.

Section C provides for eliminating crossings at Straight street and Clay street, providing an under-grade crossing at Taylor street, in place of Cedar street, which would be closed, and widening Essex street, as proposed by the city. 10

Section D provides for the elimination of the crossing of Madison avenue, in accordance with the city's plan.

Section E provides for the elimination of the crossing of Fifth avenue, the opening undergrade of Sixth avenue, according to the city's Plan No. 1.

Mr. Brameld, for the Erie Company, testified (pp. 714 and 715) as follows:

"Q Now, Mr. Brameld, have you given sufficient study to this subject to be able to state whether or not this division of the whole work for these sections would be practicable and possible without interfering substantially with the city's plan? 20

"A Yes, sir. The only change in the city's plan would be the temporary closing of Keen street, and they have sufficient access to Keen street by using Lafayette street, and the raising of Warren street temporarily three feet. It does change the elimination of Lafayette street by depressing the street probably a foot and a half more, but the railroad is on a knoll there, and it means just cutting the knoll down one and a half feet. 30

"Q It disposes of the same crossings as the city's plan proposes to eliminate?

"A It is the city's plan.

"Q With regard to the sidings does it have substantially the same effect on the sidings as the city's plan? 40

Report of Board.

"A Yes, temporarily they would have to make some slight changes to meet the temporary grade, but eventually the situation is the same as proposed by the city.

"Q Now, have you prepared an estimate of the cost of each of these sections?

"A I have.

10 "Q Let me ask you first does your total of the entire work of the five sections amount to any more than the estimate you made of doing the entire work?

"A Yes, sir, due to the necessity of duplication of trestle, raising track and ballasting and surfacing track.

"About how much more would it amount to?

A Roughly about \$115,000 to \$120,000."

Objection was made by the Erie Railroad Company to the scheme proposed by the city for eliminating
20 Madison avenue, known as "Section D," because it involves a heavy rock cut, and did not provide width enough for the tracks with the necessary drainage through the cut. An alternative plan, Exhibit R-105, was submitted, showing the railroad grade for this entire section to remain as it is at the present time, and carrying Madison avenue over the railroad track with a bridge having the standard clearance of 22 feet, located on the westerly side of Madison avenue, in such manner as not to disturb the grade of the
30 streets around the crossing; thus Madison avenue, East Railway avenue and California avenue, the first two of which carry tracks of the Public Service Railway Company, would not have to be changed. The estimate for this substitution by the Erie Company effects a saving of \$192,133.92 in the cost of "Section D."

This plan provides for grade approaches of 5% and gives the standard 22 feet clearance over the railroad, and effects such a large saving that it commends itself

Report of Board.

to the Board. The Board will, therefore, adopt the plan of the Erie Railroad Company, known as Exhibit R-105, for the elimination of Madison avenue, instead of "Section D" of the plan submitted by the city.

The proposal of Erie Railroad Company, Exhibits R-106 and R-107, for the elimination of Keen, Warren and River streets, does not commend itself to the Board and is not adopted. It appears to the Board that the highway grades on approaches to Keen street bridge and on the approach to the viaduct crossing at River street are excessive, and that the right angled turn on the viaduct which would carry the traffic of a highway as important as River street is dangerous. In addition the platforms provided in this plan are shorter than they should be, according to the claim of the Railroad Company (p. 699). The objections more than balance the possible saving in cost.

A further estimate is made by the Erie Railroad Company (Exhibit R-108, p. 744) which provides for the elimination of Fifth and Sixth avenues, on the city's plan, but with the railroad grades changed so as to allow River street to be carried over the railroad according to plan (Exhibit R-107).

The Board having declined to adopt the suggestion contained in Exhibit R-107, the proposal contained in Exhibit R-108 falls with it.

The suggestions of Mr. Falconer, engineer for Erie Railroad Company, as to using a standard floor at some of the bridges, and placing columns in River and Market streets are adopted by the Board as being more economical and, at the same time, rendering possible a reasonable solution of a difficult problem, that otherwise would seem well nigh impossible.

The request for the consolidation of Straight and Clay streets does not appeal to the Board. The general lay-out of the ground in such that, in the judgment of the Board, both streets should be maintained at their present location. No plan covering such con-

Report of Board.

solidation was submitted, and it does not seem desirable under present conditions.

10 Other modifications proposed by the Erie Railroad Company and by Public Service Railway Company, were as to matter of detail only. In all matters of this kind some little adjustments for such matters as arranging vertical curves, slight alterations in grade, clearances, etc., are to be expected and can readily be
10 met when the plans are advanced to a stage of accurate detail. The plans submitted, as modified, show that the scheme for elevation proposed is entirely feasible.

The results of the various estimates for dividing the work into sections, and the various modifications thereunder, are shown in tabular form in "Section D" attached hereto.

20 In addition to the utilities mentioned and others whose property will be affected, there are sixty-one private siding owners served by sixty-eight railroad sidings. Testimony was taken with respect to many of these sidings, and as to some no testimony was taken.

With Section D modified according to the Erie Railroad plan, no switch owners east of Newark Branch Junction would be affected, neither would the Newark branch be affected. It appears, from present plans, five industries would be left without any switch connections, and two industries would be moved to a
30 new location with switching facilities equal to the ones they now enjoy. Alterations will have to be made in connections to 31 industries by Plan No. 1 and 26 by Plan No. 2, some apparently resulting advantageously and others not so much to their advantage; and 20 on Plan No. 1 and 25 on Plan No. 2 will have no change in their present accommodations. At present one has no siding.

40 It is unfortunate that a few interests served by sidings along the railroad may be required to suffer some inconvenience and expense, but when the magnitude

Report of Board.

and importance of the work is considered, it appears that the inconvenience to the property and switch owners is reduced to a minimum.

If the city's plan is adopted, with Section D modified according to the Erie plan, the total cost based on the Erie Railroad estimate would be for Plan No. 1, \$3,320,708.90; and for Plan No. 2, \$2,937,858.44, which would be modified by including the Public Service Railway's estimates for street work to \$3,331,069.14 for Plan No. 1 and \$2,948,218.68 for Plan No. 2. A division of the work would be more expensive than to do the work at one time, but would result in an advantage to the city in that traffic in only part of the territory involved would be interfered with at one time. This method accords with the Railroad Company's suggestion. 10

Upon consideration of all questions involved, the Board is of opinion that the work of elimination should be ordered at the earliest practicable time; that the plan to be approved should be that generally outlined in Plan No. 2 of the City of Paterson, as modified in the respect hereinbefore referred to, and that the work should be permitted to be done in sections as requested, and in the order suggested by Erie Railroad Company. 20

There remains but a single question to be considered, namely, the time within which work should be commenced and completed. To secure the views of parties interested, the Board hereby fixes Friday, February 5th, at eleven A. M., at Newark, to hear discussion upon the questions of the times to be provided in the order within which the work included in each section and in its entirety, is to be commenced and completed. Meantime, and sufficiently in advance of such hearing to permit study, copies of this report and the plan and profile, embodying these conclusions, will be made available to the parties hereto. 30

After said hearing, an order will issue in accordance with the conclusions reached. 40

Report of Board.

Division of Work Into Five Sections, A, B, C, D and E.

[illegible]

Petition of Erie Railroad for Further Hearing.

**Petition of Respondent, Erie Railroad Co., for
Further Hearing.**

(Filed February 5, 1915.)

To the Honorable, The Board of Public Utility Commissioners of the State of New Jersey:

Erie Railroad Company, one of the respondents in the above matter, respectively shows as follows:

10 1. On the 11th day of January, 1915, this Board filed its report herein, in which it stated:

(a) That the crossing of each of the streets involved in this proceeding, and the railroad tracks of this respondent at the same level, appeared to the Board to be dangerous to public safety, and that public travel on such highways was impeded thereby.

20 (b) That said crossings are such that the grades should be changed in accordance with the prayer of the petition of the City of Paterson, as provided by the statute;

(c) That it would deal with the proceeding as involving the adoption of one comprehensive plan or scheme covering all of said crossings;

30 (d) That this respondent contemplates spending larger sums than would be required for the purpose of eliminating the crossings in question in making other improvements which, in the judgment of the Board, are not considered so immediately necessary, and that some of the money intended to be used for such other improvements might be more appropriately used in this work, should it be found necessary to divert it.

(e) That the testimony offered by this respondent for the purpose of showing its financial ability to pay the cost of eliminating said crossings (if said cost should be imposed upon it), did not satisfy said Board that his respondent would not be able to secure the necessary funds:

40 (f) That the work of elimination of said grade crossings should be ordered at the earliest practicable

Petition of Erie Railroad for Further Hearing.

time, and that the plan to be approved should be that generally outlined in what is described in the preceding as Plan No. 2 of the City of Paterson, with certain modifications thereof, and that the work should be permitted to be done in sections:

(g) That the question of the time within which work should be commenced and completed would be heard by the Board on February 5th, 1915.

2. Respondent, Erie Railroad Company, represents that it infers from the said report that it is the intention of this Board when it issues its order upon said report, to direct that the expense of the elimination of said grade crossings shall be paid by this respondent, except such proportion of the expense as may be legally chargeable to Public Service Railway Company, Public Service Gas Company, Public Service Electric Company, Passaic Water Company, New York Telephone Company, Paterson, Passaic and Suburban Telephone Company, Western Union Telegraph Company, the City of Paterson; and also except such proportion of said expense as may be legally chargeable to the owners of adjacent sidings or other property.

3. Respondent therefore respectfully calls the attention of the Board to the fact that its answer and amended answer, and undisputed testimony offered on its behalf at the hearings, show that this respondent is not the owner of the right of way upon which said railroad tracks are constructed, and over which this respondent runs certain trains, but that the fee of the same, and the franchise to operate a railroad thereon, are, and for many years past have been, owned by two other companies, part of said right of way and franchises being owned by a corporation organized under the laws of the State of New Jersey, known as the President and Board of Directors of the Paterson and Hudson River Railroad Company,

10

20

30

40

Petition of Erie Railroad for Farther Hearing.

and part thereof being owned by a corporation organized under the laws of the State of New Jersey, known as Paterson and Ramapo Railroad Company; the testimony shows that this respondent runs trains over said right of way of said companies by virtue of certain leases made under date of September 9, 1852, by said President and Board of Directors of the Paterson and Hudson River Railroad Company, and said Paterson and Ramapo Railroad Company, to a corporation known as Union Railroad Company, and that this respondent has succeeded to the rights of said Union Railroad Company in said leased property and franchises; the testimony further shows that this respondent does not own or control the fee of any of the right of way or property where said grade crossings are proposed to be eliminated, except that it owns or controls certain property adjacent to said right of way, consisting of various parcels of real estate upon which are located certain side tracks, switches and station buildings. The testimony shows in detail which portions of said right of way and other property are owned or controlled by said Paterson and Hudson River Railroad Company, the Paterson and Ramapo Railroad Company and this respondent, respectively.

4. Respondent further shows that it does not own any of the right of way upon which said trains are run, but that it runs trains over the crossing in question only as lessees under the two leases above referred to, and in so far as the obligation to the State is concerned, it runs the same only as an agent of said Paterson and Hudson River Railroad Company and Paterson and Ramapo Railroad Company, and that the obligation to the State of New Jersey and the people thereof for the operation of said railroad, is imposed by their respective charters solely upon the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company; and that there

Petition of Erie Railroad for Further Hearing.

fore the said two companies, and each of them, are the companies operating such railroad, within the meaning of Chapter 57 of the Laws of 1913, upon which this proceeding is based. Wherefore, this respondent urges and insists that any order made by this Board should direct that said two companies should eliminate said crossings, and bear the expense thereof as their respective interests may appear, and that no part of the expense thereof should be borne by this respondent, except so much, if any, as it may be legally chargeable with under Section 4 of said statute. 10

5. Respondent further urges and insists that if this Board should find that this respondent is one of the companies operating said railroad, or any part thereof, within the meaning of said statute, then and in that event any order made by this Board with respect to the elimination of said crossings, or any or either of them, should direct that said crossings be eliminated jointly by said Paterson and Hudson River Railroad Company, Paterson and Ramapo Railroad Company and this respondent, so that the cost thereof may thereafter be apportioned between and among the said Paterson and Hudson River Railroad Company, Paterson and Ramapo Railroad Company and this respondent by appropriate proceedings as now provided by law. 20

6. Respondent further says that from said report it appears that the Board has decided to adopt a plan for the elimination of said crossings which will cost approximately \$2,350,000.00; it also appears from said report that the Board has decided to divide the work of eliminating said crossings into five sections, as shown in schedule "D" attached to said report; that of said five sections numbered from "A" to "E," inclusive, sections "A," "B" and "E," the cost of eliminating which according to the estimate of this respondent would amount to approximately \$2,400,000.00, are on the right of way of the Paterson and Rama- 30 40

Petition of Erie Railroad for Further Hearing.

po Railroad Company; that sections "C" and "D," the cost of eliminating which, according to estimates of this respondent, would amount to about \$980,000.00, are on the right of way of the Paterson and Hudson River Railroad Company.

10 Respondent further says that it appears from Exhibit R-19 offered in this proceeding, that the entire valuation of the property of the Paterson and Ramapo Railroad Company within the State of New Jersey amounts to \$1,836,688.00, and from Exhibit R-18 offered in this proceeding, that the entire valuation of the property of the Paterson and Hudson River Railroad Company within the State of New Jersey amounts to \$2,881,603.00.

20 Respondent further says that the assessed valuation of all property, including the franchise, of the Paterson and Ramapo Railroad Company located within the limits of the City of Paterson, amounts to the sum of \$495,474.00, and that the assessed valuation of all property, including the franchise, of the Paterson and Hudson River Railroad Company located within the limits of the City of Paterson, amounts to \$593,290.00; that the total amount assessed upon the Paterson and Ramapo Railroad Company in the State of New Jersey, as the value of the franchise, is the sum of \$10,000.00; and that the total assessment for franchise upon the Paterson and Hudson River Railroad Company is the sum of \$40,000.00.

30 This respondent therefore says that the proportion of the expense for the elimination of said crossings proposed to be charged to that portion of the railroad in question embracing the crossings mentioned in sections "A," "B" and "E" will far exceed the total assessed valuation of the entire railroad, including franchise, of the Paterson and Ramapo Railroad Company; and that the cost of eliminating the crossings which fall within sections "C" and "D" of said report,
40 and which lie within that portion of the right of way

Petition of Erie Railroad for Further Hearing.

of the railroad in question owned by Paterson and Hudson River Railroad Company will far exceed the total assessed valuation of all character of property, including franchise, of said company lying within the limits of the City of Paterson.

That the cost of such elimination, as stated in the Board's opinion, exceeds the value of the leasehold interest of this respondent in the property of either or both of said two companies, which is subject to termination by the State without adequate provision for reimbursement of this respondent for the expense incurred by it in such elimination. Your petitioner therefore urges and insists that any order made by this Commission in accordance with said report will exceed the authority or power conferred upon this Commission by Chapter 57 of the Laws of 1913, or possessed by the State of New Jersey, and amounts to the confiscation of the property of this respondent within the meaning of the Constitution of the State of New Jersey and of the United States, as set forth in more detail in the answer and amended answer filed in this proceeding.

7. Respondent further says that the conclusion of the Board, above referred to, (d), to the effect that this respondent contemplates spending larger sums than would be required for the purpose of eliminating the crossings in question, in making other improvements, and the position of the Board, above referred to, (e), that it is not satisfied that this respondent will not be able to secure the necessary funds to eliminate the crossings in question, indicate that the uncontradicted evidence submitted to the Board by this respondent was not understood and that the Board has mistaken the Company's desire to make needed improvements for its ability to secure or expend the sums required therefor; that as a matter of fact, the respondent does not now and at the time of the giving of the testimony in this proceeding did not con-

Petition of Erie Railroad for Further Hearing.

- template the spending of larger sums than would be required for the elimination of these crossings, nor indeed any considerable sums, in making other improvements, for the reason, as the evidence submitted shows, that the respondent did not at that time have, nor has it now, nor can it at the present time obtain, the necessary funds or any considerable part thereof
- 10 beyond what it actually required for the continuance of safe operation on its railroad, either for the making of such other improvements or for the elimination of the crossings in question; that as shown by the evidence heretofore submitted, this respondent's net income available for expenditure on improvements during the fiscal year ending June 30th, 1914, was \$662,295.87, being its entire net income less such amounts as were required to be devoted to sinking and other reserve funds under prior existing mortgages. That
- 20 the result of the Company's operations for the six months following June 30th, 1914, indicate that the amount of income available for expenditure on improvements will not exceed, if it equals, the amount available during the proceeding year, and even this result can be obtained only by the exercise of the most rigid economy in operation and postponement of expenditures actually required. That the company has already during the six months ending December 31st, 1914, been required to expend for necessary improve-
- 30 ments, principally in the interest of safety in operation, such as the furnishing of additional ballast, heavier rails and tie plates and reconstructing and strengthening bridges, safety appliances and steel underframes on cars and locomotives, over \$600,000.00, and expenditures of this character must continue to large amounts. Your respondent is also under legal obligation to spend large sums for improvements under existing contracts, or orders of the courts or of public authorities, as set forth in Section 8 below.
- 40 There are also expenditures required immediately in

Petition of Erie Railroad for Further Hearing.

the interests of safety in operation as set forth in Section 9 below. Your respondent has no capital funds outside of its income, to devote to these purposes except the remaining proceeds of certain capital obligations heretofore issued, amounting to approximately \$300,000.00, all of which is required by an obligation heretofore incurred, to be devoted to a particular work now in the course of construction, under order of the public authorities; that your respondent has no additional capital obligations available for issue and disposition for the purpose of securing new capital funds over and above what is required for the payment of capital obligations about to mature.

10

8. Respondent further says that it will be required during the remaining portion of the year ending June 30, 1915, by obligations already incurred under orders of public authorities, or contracts heretofore made, to expend for improvements the amount of \$885,900.00, as shown more in detail on schedule "A" attached hereto; that during the next twelve months this respondent will be obliged to expend under similar obligations the amount of \$2,052,400.00, as shown more in detail on schedule "A" attached hereto, and that the total amount of such obligations for improvements so imposed upon respondent is the sum of \$4,042,700.00, as shown more in detail on schedule "A" attached hereto; that it will be impossible for the respondent to obtain funds for the elimination of grade crossings in question in this case from the diversion of funds from the expenditures mentioned in this paragraph, as respondent is bound by law to make the same.

20

30

9. Respondent further says that during the next twelve months, repairs and renewals of bridges on its railroad will be absolutely necessary for safety in the operation of its railroad as an estimated cost of \$1,094,825.00, details of which are shown on schedule "B" attached hereto; that it will be impossible for

40

Petition of Erie Railroad for Further Hearing.

10 this respondent to divert funds from such work for the purpose of eliminating the grade crossings now in question, because such work is absolutely necessary for safety, and the failure on the part of this respondent to make the same might result in serious accident and loss of life, and subject this respondent to suits for heavy damages, or result in prosecution of this respondent, its officers, or directors, for failure to properly perform its or their duty.

20 10. Respondent further says that the various improvements set forth in the evidence heretofore presented by it in this proceeding should be made, and that in particular the sum of upwards of \$12,000,000.00, as set forth more in detail in schedule "C" attached hereto, should be expended at once upon improvements and settlements of its railroad and property for the purpose of enabling it to render safe, adequate and proper service in the transportation of the traffic in interstate commerce which is now offered to it, and any order made in this proceeding whereby any substantial part of the cost of eliminating said crossings, or any or either of them, is imposed upon this respondent, will inevitably impose a burden upon the interstate traffic of this respondent, and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers because, such order would compel this respondent to expend, 30 for the purpose of eliminating said crossings, to the extent that it complied with the same, moneys which would otherwise be available for, and could be used by this respondent in the making of the changes and improvements, or some of them, referred to in Sections 7 to 10 hereof, and particularly those specified in schedules "A" to "C" inclusive, and such order would to that extent prevent this respondent from making such necessary changes and improvements.

40 11. Respondent further shows that from and by the report of the said Board, it appears that it is the

Petition of Erie Railroad for Further Hearing.

determination of the Board that the heaviest burden of expense for the elimination of said crossings will fall upon this respondent, but said report does not announce any determination of the Board as to what, if any, other persons or corporations will share in the cost of such eliminations, or to what extent they or either of them should so share; this respondent respectfully calls the attention of this Board to the provisions of Section 2, Chapter 57, Laws of 1913, under which this proceeding is brought, providing as follows:

“The entire expense of such alterations, changes, relocation or opening, including the damages to adjacent property, shall be paid by such railroad, unless a street railway uses such crossings, in which event the Board may order not exceeding ten per centum of such expense directly chargeable to the crossing, by the street railway company, to be paid by the company operating said street railway and the balance to be paid by the company operating such railroad.”

Respondent shows that the Public Service Railway Company is a street railway, and as such, uses the crossings at Market street, Broadway and River street—three of the crossings involved in the one comprehensive plan or scheme which the Board has adopted in its report as a general plan covering all of the crossings involved in this proceeding; and this respondent respectfully urges and insists that said Public Service Railway Company should be chargeable with ten per cent. of the total cost of eliminating all of said crossings involved in said plan or scheme so adopted by said Board, in addition to all costs and expenses legally chargeable to said Public Service Railway Company or made necessary by reason of changes in, or the removal of, property, constructions, tracks, wires, poles or other appurtenances thereto, which may be necessary to conform its property or

Petition of Erie Railroad for Further Hearing.

constructions to any order which this Board may make in this proceeding.

- 10 12. Respondent further says that in and by said report the Board finds, among other things, that the crossing of each of the streets involved in this proceeding and the railroad tracks of this respondent at the same level, is dangerous to public safety, and that public travel on such highways is impeded there-
by; these conclusions are predicated upon the finding of the Board that a large number of freight trains, passenger trains and drill engines pass daily over said crossings, or some of them, thereby endangering public safety and impeding public travel; that inas-
much as this respondent cannot assume the cost which would be imposed upon it by an order of the Commission requiring it to eliminate the grade cross-
20 ings in question, this respondent urges that if the Board concludes that under existing circumstances such an order must be made, an opportunity should be given this respondent to present plans whereby the number of trains or engine movements, or the manner of the same, or both, over said crossings, may be changed so as to remove the danger and impediment to public travel.

- 30 Wherefore, this respondent, expressly reserving, and not waiving, any and all objections heretofore made, and saving all legal rights or defenses heretofore asserted or claimed, respectfully prays that further hearing be granted for the purpose of considering the following matters, and taking testimony thereon so far as may be necessary.

- 40 (a) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company as the railroad companies operating the railroad over the crossings in question within the meaning of Chapter 57, Laws of 1913.

Petition of Eric Railroad for Further Hearing.

(b) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company, the Paterson and Ramapo Railroad Company and this respondent jointly, so that the cost thereof may be apportioned between and among said companies by appropriate proceedings.

(c) Whether this respondent is financially able to carry out the terms of any order made in this proceeding if the heaviest burden of the cost thereof falls upon it. 10

(d) Whether such order would impose a burden upon the interstate traffic of this respondent, and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers.

(e) Whether in any order made in this proceeding the Public Service Railway Company should not be chargeable with ten per cent. of the total cost of eliminating all of the crossings involved in said plan or scheme adopted by the Board, in addition to all costs and expenses legally chargeable to said Public Service Railway Company under Section 4 of said statute. 20

(f) If the Board reaches the conclusion that under existing circumstances an order must be made requiring this respondent to eliminate the grade crossings in question, whether the danger to public safety and the impediment to public travel could not be removed by reducing the number of train movements over said crossings, or some of them, in accordance with plans which this respondent will submit. 30

Erie Railroad Company,
Office of Supt. of Construction,
New York, N. Y.,
Feb. 4, 1915.

Order of Board of April 29, 1915.

Order of Board.

Dated April 29, 1915.

STATE OF NEW JERSEY.

BOARD OF PUBLIC UTILITY COMMISSIONERS.

IN THE MATTER OF THE APPLICATION
OF THE CITY OF PATERSON FOR
ALTERATION OF GRADE CROSSINGS
ON THE LINE OF THE ERIE RAIL-
ROAD.

Order.

10

The Board of Finance of the City of Paterson, a municipality of this state, having presented to, and filed with, the Board of Public Utility Commissioners, a petition in writing, and an amendment to said petition, likewise in writing, praying that, by virtue of the powers conferred by an Act of the Legislature of this State entitled, "A Supplement to an Act concerning Public Utilities; to create a Board of Public Utility Commissioners, and to prescribe its duties and powers, approved April 21, 1911," which supplement was approved March 12, 1913, and which constitutes Chapter 57 of the Laws of 1913, the Board order the alteration of the crossing of Madison Avenue, Clay and Straight Streets (two crossings), Cedar Street, Market Street and Park Avenue (one crossing), Ellison Street, Van Houten Street, Broadway, Fair Street, Hamilton Avenue, Lafayette Street, Franklin Street, Keen Street, Warren Street, River and Putnam Streets (one crossing), each of which streets and highways is a public highway in said City of Paterson, where the same cross at the same level the railroad of the Erie Railroad Company, in said City of Paterson, "according to plans to be approved by said board by substituting for each of such crossings a crossing not at the grade of such public highways either by carrying such public highway under or over such railroad or by recon-

20

30

40

Order of Board of April 20, 1915.

10 structing such railroad under or over such public highway or by vacating, relocating or changing the lines, width, direction or location of such highway, and the opening of a new highway in place of the one or ones ordered vacated," and which petition set forth the facts upon which relief under said statute was sought, and the Board having fixed a time and place for a hearing before it upon said petition, and having given
20 notice thereof to the said municipality, the Erie Railroad Company, the Paterson and Ramapo Railroad Company, the President and Board of Directors of the Paterson and Hudson River Railroad Company, and all corporations, co-partnerships and individuals interested, all in accordance with the provisions of said act, and the said Erie Railroad Company having filed its answer to said petition, which answer was later amended, and the Paterson and Ramapo Railroad
30 Company, the President and Board of Directors of the Paterson and Hudson River Railroad Company, Passaic Water Company, Western Union Telegraph Company, National Silk Dyeing Company, Fullers' Express Company, The Herman Company, John Agnew Company, James Wilson & Sons (Inc.), P. S. Van Kirk Company, Henry M. Post, Paterson Brewing and Malting Company, Public Service Electric Company, Public Service Gas Company, Public Service Railway Company, D. Fullerton & Company, Meyer & DeVogel, Leslie Elliott & Co., Samuel Smith & Sons Company,
40 Morris & Company, McNab & Harlin Manufacturing Company, New York Telephone Company, and Paterson, Passaic & Suburban Telephone Company having likewise filed answers, and all of the parties in interest who appeared having been duly heard, the Board of Public Utility Commissioners filed a report of its findings and determinations on January 11th, 1915, which report is made part of this order by reference thereto herein, and it

40 Now appearing to said Board that the Board of Finance of the City of Paterson is the board or body

Order of Board of April 20, 1915.

having charge of the finances of said municipality, and that said Madison Avenue (Clay Street, Straight Street), Cedar Street, Market Street, Park Avenue, Ellison Street, Van Houten Street, Broadway, Fair Street, Hamilton Avenue, Lafayette Street, Franklin Street, Keen Street, Warren Street, River Street and Putnam Street is each a public highway; and that the said public highways, and each of them, and the railroad of the Erie Railroad Company in said city cross each other at the same level, and that such crossings are, and each of them is, dangerous to public safety and that the public travel on such highways, and each of them is impeded thereby and that the said Erie Railroad Company is operating said railroad, and that said crossings, and each of them, should be altered according to a plan and profile approved by the board, and such a plan and profile having been prepared.

10

Now, therefore, it is on this twentieth day of April, nineteen hundred and fifteen, ORDERED, and the said Board of Public Utility Commissioners by virtue of the power and authority vested in it by the aforesaid act, does hereby ORDER the Erie Railroad Company to alter such crossings, and each of them, according to the plan therefor annexed to and made part hereof, entitled "State of New Jersey Board of Public Utility Commissioners Division of Bridges and Grade Crossings Plan for Elimination of Grade Crossings on Main Line of Erie Railroad from Madison Avenue to River Street, Paterson, N. J. Based on Surveys Made by the City of Paterson, H. J. Harder, Eng'r. Scale, 1 in. = 50 ft. January, 1915, Approved Chas. A. Mead, Chief Inspector Div. of Bridges and Grade Crossings," and profile of same also annexed to and made part hereof, entitled "State of New Jersey Board of Public Utility Commissioners Division of Bridges and Grade Crossings. Profile for Elimination of Grade Crossings on Main Line of Erie Railroad from Madison Ave. to River St., Paterson, N. J. Based in surveys made by the City of Paterson, H. J. Harder, Eng'r. Scales:

20

30

40

Hor. 1" = 100' Vert. 1" = 4'. January, 1915, Drawn
by J. L. Vogel, Approved Chas. A. Mead, Chief Inspec-
tor Div. of Bridges & Grade Crossings," which said
plan and profile are hereby approved; by substituting
therefor crossings not at the grade of the public high-
ways known as Madison Avenue, Straight Street, Clay
Street, Market Street and Park Avenue, Ellison Street,
10 Van Houten Street, Broadway, Fair Street, Hamilton
Avenue, Lafayette Street, Keen Street, Warren Street,
Putnam and River Streets; by changing the lines,
width and direction thereof and carrying so much
thereof as so changed under the said railroad, except
in the case of Madison Avenue, which is carried over
the railroad, according to and as shown on said plan
and profile for said purpose, and by vacating the re-
maining parts of said highways within the lines of the
right of way of said railroad company, and further by
20 vacating that part of Madison Avenue lying west of the
railroad which is included between the right of way
line of the railroad and the line of the relocated Madi-
son Avenue; by substituting for the existing crossings
at Cedar Street a crossing under the railroad at Taylor
Street and for the existing crossing at Franklin Street
a crossing under the railroad at Montgomery Street
and also by widening and altering the existing high-
ways known as Essex Street, Governor Street and Ful-
ton Street, adjusting the structures spanning them
30 to the proposed grade or grades (which said new high-
ways shall be located, and of the width, length and
direction and carried over or under the said railroad
where so indicated); by reconstructing said railroad
and highways and by performing all other work re-
quired according to and as shown on the said plan and
profile.

Any telegraph, telephone, gas, electric, lighting,
water, oil, pipe, line or other company, or corporation,
co-partnership or individual whose property or con-
struction it may be necessary to change or remove to
40 carry said plan and this order into effect, shall change
or remove the same, according to said plan.

Order of Board of April 20, 1915.

AND IT IS FURTHER ORDERED, that the said Erie Railroad Company and the City of Paterson, and Public Service Railway Company, Public Service Gas Company, Public Service Electric Company, Passaic Water Company, New York Telephone Company, Paterson, Passaic and Suburban Telephone Company and Western Union Telegraph Company, and all other parties to this proceeding, and each and every of them proceed with due diligence to the execution of this order, and comply with all of the requirements thereof and the duties imposed upon them thereby, and by the said Act under which this order is made, and the laws of this State, and that to that end, they and each of them exercise in good faith, all of the powers conferred upon them and each or any of them by the Laws of this State. 10

AND IT IS FURTHER ORDERED, that the said Erie Railroad Company begin the actual work of construction required in the performance and execution of this order on or before the first day of August, nineteen hundred and sixteen, and continuously carry on the same thereafter and perform and fully comply with the directions and requirements of this order, and complete all of the work required to be done, within eight years from the date hereof, and that in the continuous prosecution of said work it takes up in the order named the divisions thereof in said profile marked and designated "A," "B," "C," and "D"; the work required in connection with Section "A" thereof to be begun on or before August 1st, 1916, and to be completed within four years and three months from the date hereof; the work required in connection with Section "B" to be begun within four years and three months from the date hereof and completed within five years and six months from the date hereof; the work required in connection with Section "C" to be begun within five years and six months from the date hereof and completed within seven years and three months from the date hereof; and the work in connection with Section "D" 20 30 40

Order of Board of April 20, 1915.

to be begun within seven years and three months and completed within eight years from the date hereof.

And it appearing to the Board that the street railway operated by Public Service Railway Company uses the said crossings at (1) Park Avenue and Market Street, (2) Broadway, and (3) River Street, the Board in accordance with the power and authority vested in it by said act further ORDERS the Public Service Railway Company to pay ten per centum of the expenses of the alterations, changes, relocating and opening, required by this order, including damages to adjacent property, directly chargeable to the crossings, and each of them, so used by the said street railway operated by it.

And the said Erie Railroad Company and said Public Service Railway Company are ordered to keep specific and complete records of the expenses directly chargeable to the crossings, and each of them, so used by said street railway of said Public Service Railway Company and leave is hereby given to said companies, or either or them, to make application to the Board for further order in the event that they cannot agree upon the amount of such expenses so directly chargeable to said crossings used by the street railway operated by said Public Service Railway, or any of them.

This order shall take effect May 20th, 1915.

Dated April 20th, 1915.

BOARD OF PUBLIC UTILITY COMMISSIONERS,
By

(Signed) RALPH W. E. DONGES,

(SEAL)

President.

Attest:

(Signed) ALFRED N. BARBER,

Secretary.

I HEREBY CERTIFY the foregoing to be a true copy of Order adopted by the Board of Public Utility Commissioners, at a meeting held Tuesday, April 20th, 1915, and recorded in the minutes of said meeting.

(Signed) ALFRED N. BARBER,

Secretary.

*Report of Board on Petition for Further Hearing.***Report of Board.**

(Filed April 20, 1915.)

STATE OF NEW JERSEY.

BOARD OF PUBLIC UTILITY COMMISSIONERS.

IN THE MATTER OF THE APPLICATION
OF THE CITY OF PATERSON FOR
ALTERATION OF GRADE CROSSINGS
ON THE LINE OF THE ERIE RAIL-
ROAD.

*On Petition
for Further
Hearing.
Report.*

10

E. F. Merrey, for the City of Paterson.

G. S. Hobart, D. E. Minard and H. A. Taylor, for
Erie Railroad Company.

20

William B. Gourley, for numerous switch and prop-
erty owners.

L. D. H. Gilmour, for Public Service Railway Com-
pany, Public Service Gas Company and Public Service
Electric Company.

Frank H. Sommer, for the Board.

The Board filed its conclusions in this proceeding,
and fixed a date for hearing upon the single question
as to the time to be allowed for the commencement and
completion of the work found to be necessary to be
done. At such hearing the Erie Railroad Company
made application for leave to file a petition for a fur-
ther hearing upon certain matters set forth in such
petition. The Board granted leave to file the petition,
and also afforded counsel an opportunity to discuss the
merits of the application contained therein.

30

The petition prayed that the Board take further tes-
timony upon six questions, namely:

“(a) Whether any order made in this proceed-
ing should not be made against the Paterson and Hud-
son River Railroad Company and the Paterson and

40

Report of Board on Petition for Further Hearing.

Ramapo Railroad Company as the railroad companies operating the railroad over the crossings in question within the meaning of Chapter 57, Laws of 1913.

10 “(b) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company, the Paterson and Ramapo Railroad Company and this respondent jointly, so that the cost thereof may be apportioned between and among said companies by appropriate proceedings.

 “(c) Whether this respondent is financially able to carry out the terms of any order made in this proceeding if the heaviest burden of the cost thereof falls upon it.

20 “(d) Whether such order would impose a burden upon the interstate traffic of this respondent, and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers.

 “(e) Whether in any order made in this proceeding the Public Service Railway Company should not be chargeable with ten per cent. of the total cost of eliminating all of the crossings involved in said plan or scheme adopted by the Board, in addition to all costs and expenses legally chargeable to said Public Service Railway Company under Section 4 of said Statute.

30 “(f) If the Board reaches the conclusion that under existing circumstances an order must be made requiring this respondent to eliminate the grade crossings in question, whether the danger to public safety and the impediment to public travel could not be removed by reducing the number of train movements over said crossings, or some of them, in accordance with plans which this respondent will submit.”

40 This proceeding was pending for a number of months, during which time ample opportunity was afforded to all parties interested to present fully and completely all the testimony desired to be submitted.

Report of Board on Petition for Further Hearing.

Testimony was in fact submitted touching all questions, except that arising from the suggestion to reduce train movements, and the Board had before it and considered such proofs in arriving at the conclusion. Since the filing of the petition for further hearing, the Board has given further consideration to the testimony taken, and the suggestions contained in the petition of the railroad company.

The Board concludes that as the petitioner had ample opportunity to submit all and any material evidence, and the Board had before it and actually considered the questions raised, that the prayer for an opportunity to submit further testimony on such questions should be denied.

As to the reduction of train movements, the company was afforded every opportunity to furnish such proof, if it had any, and did not avail itself of such opportunity. In addition, the offer on this score was so indefinite that it does not appear reasonable to delay the proceeding for the purpose.

The prayer of the petition will be denied.

Dated April 20th, 1915.

**Writ of Certiorari.
(Erie Railroad Company.)**

NEW JERSEY, ss.

The State of New Jersey to the Board
(L. S.) of Public Utility Commissioners, GREET-
ING:

10 We being willing for certain reasons, to be certi-
fied of a certain order of said Board dated April 20,
1915, in a certain proceeding entitled "In the Matter
of the application of the City of Paterson for altera-
tion of grade crossings on the line of the Erie Rail-
road," wherein the Board of Finance of the City of
Paterson was the petitioner and the Erie Railroad
Company and certain others were respondents, by
which order said Erie Railroad Company was ordered
20 to alter certain crossings and each of them, named
in said order, according to the plan therefor, thereto
annexed and made part thereof, by substituting
therefor crossings not at the grade of said streets; do
command you that the said order, together with the
said petition, the answers of Erie Railroad Company
and of the other respondents in said proceeding, the
petition of Erie Railroad Company for further hear-
ing thereon (filed February 5, 1915), and the report
and order of the Board with respect thereto, the testi-
mony and exhibits offered before said Board, the peti-
30 tion of Erie Railroad Company for rehearing (filed
June 16, 1915), and all other proceedings by or be-
fore said Board concerning the same, as fully and
entirely as before you they remain or are in your
custody or control, you do certify and send, together
with this writ, to our Supreme Court at Trenton, on
the sixth day of July, 1915, that we may cause to be
done thereupon what of right and according to law
ought to be done.

Reasons of Erie Railroad Company.

**Reasons
of
Erie Railroad Company.**

Filed September 15, 1915.

NEW JERSEY SUPREME COURT.

10

ERIE RAILROAD COMPANY,
Prosecutor,
vs.
BOARD OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATERSON AND
BOARD OF FINANCE OF SAID CITY,
Defendants.

**On
Certiorari.
Reasons.**

20

The prosecutor files the following reasons upon which it will rely for the reversal of the proceedings under review in this case:

(1) The conclusions or findings of the Board of Public Utility Commissioners that the crossings, and each of them, at the same level of the following highways, and each of them, known respectively as (A) Madison avenue, (B) Clay and Straight streets (two crossings), (C) Cedar street, (D) Market street and Park avenue (one crossing), (E) Ellison street, (F) Van Houten street, (G) Broadway, (H) Fair street, (I) Hamilton avenue, (J) Lafayette street, (K) Franklin street, (L) Keen street (M) Warren street, (N) River and Putnam streets (one crossing), and the railroad stated in the order under review to be the railroad of the Erie Railroad Company in the City of Paterson are dangerous to public safety and that the public travel on said highways and each of them is impeded thereby, were not, nor was either of them, justified nor reasonably supported as to any

30

40

Reasons of Erie Railroad Company.

or all of said crossings, by the evidence taken before said Board.

(2) There was no evidence before said Board to support reasonably the order under review with respect to said crossings named in Reason (1), or any or either of them.

10 (3) According to the whole of the evidence taken before said Board, the said order under review, so far as the same relates to the crossings of the said highways, and each of them, named in Reason (1), and the railroad stated in said order to be the railroad of Erie Railroad Company is unreasonable as to each and all of said crossings.

20 (4) The evidence taken before said Board shows that at the crossings at the same level of the highways, and each of them, named in Reason (1) and the railroad stated in said order to be the railroad of Erie Railroad Company, the prosecutor has provided and maintains safeguards that measure up to the danger to be encountered by the public at said crossings and each of them; and further shows that the said highway crossings are not, nor is any or either of them, dangerous to public safety; and that the public travel at the crossings of the said highways, and each of them, is not impeded by said crossings, or any or either of them, within the meaning of Chapter 57, Laws of 1913.

30 (5) The evidence shows that the action of said Board in ordering that the crossings at the same level of the highways, and each of them, named in Reason (1) and the railroad stated in said order to be the railroad of Erie Railroad Company be altered in the manner and according to the plan described in the said order, is, as to each and all of said crossings—

(a) purely arbitrary, or

(b) without reasonable basis upon which to rest,

(c) unsupported by the facts laid before said Board, and should therefore be declared null and void and ordered to be set aside.

(6) If the conclusions or findings of said Board that all of the said crossings, and each of them named in Reason (1) are dangerous to public safety and that the public travel on all of said highways, and each of them, is impeded thereby, are justified, or reasonably supported, by the evidence taken before said Board so far as it relates to some one or more of said crossings, nevertheless, the said conclusions or findings are not justified, or reasonably supported, so far as relates to the other crossings, or any or either of them; and said conclusions or findings cannot, under the evidence be applied to the other crossings, or any or either of them, so as to support or justify like conclusions or findings as to said other crossings, and each and all of them.

10

20

(7) If there was some evidence before said Board to support reasonably the order under review, with respect to some one or more of the said crossings named in Reason (1), nevertheless, there was no evidence to support reasonably the order under review with respect to the other crossings, or any or either of them; and the conclusions or findings as to some one or more of said crossings cannot, under the evidence, be applied to the other crossings, or any or either of them, so as to permit like conclusions or findings or a similar order as to said other crossings, and each and all of them respecting which there was no evidence to support reasonably the conclusions or findings, and the order based thereon.

30

(8) According to the whole of the evidence taken before said Board, the said order under review is unreasonable so far as relates to at least some one or more of the said crossings named in Reason (1); and even if, according to the whole of the evidence, the

40

Reasons of Erie Railroad Company.

said order is unreasonable as to some one or more of said crossings, that fact does not permit the Board to enlarge and extend its order so as to include the other crossings, or any or either of them, as to which said order is unreasonable.

- (9) The evidence taken before said Board shows that at least some one or more of the said crossings named in Reason (1), the prosecutor has provided and maintains safeguards that measure up to the danger to be encountered by the public at said crossings, or some one or more of them; and further shows that at least some one or more of said crossings named in Reason (1) are not dangerous to public safety, and that public travel is not impeded thereby, within the meaning of Chapter 57, Laws of 1913; and, even if the evidence shows that, at some one or more of said crossings the prosecutor has not provided and does not maintain such safeguards, and even if the evidence shows that some one or more of said crossings are dangerous to public safety, and that public travel is impeded thereby, within the meaning of said statute, those facts do not permit the Board to enlarge and extend its order so as to include the other crossings, or any or either of them, at which the prosecutor has provided and maintains such safeguards, and which are not dangerous to public safety, and by which public travel is not impeded within the meaning of said statute.

(10) The evidence shows that the action of said Board in ordering that the crossings at the same level at the highways and each of them named in Reason (1) and the railroad stated in said order to be the railroad of Erie Railroad Company be altered in the manner and according to the plan described in the said order is, as to at least some one or more of said crossings—

- (a) purely arbitrary, or

Reasons of Erie Railroad Company.

(b) without any reasonable basis upon which to rest, or

(c) unsupported by the facts laid before said Board, and even if the order is not purely arbitrary, nor without any reasonable basis upon which to rest, nor unsupported by the facts laid before said Board as to some one or more of said crossings, that fact does not permit the Board to enlarge and extend its order so as to include the other crossings, or any or either of them. 10

(11) The petition of the Board of Finance of the City of Paterson was not made or presented as required by Chapter 57 of the Laws of 1913, or by the rules of the Board of Public Utility Commissioners, and said Board therefore did not acquire any jurisdiction to take any proceedings under said statute or to make any order by virtue thereof, because more than one highway grade crossing was involved and embraced in said petition, proceedings and order. 20

(12) Said order under review is unreasonable and invalid because the fact, if it be a fact, that some one or more of the public highway crossings named in Reason (1) are dangerous to public safety or that public travel on such highways is impeded thereby (within the meaning of Chapter 57 of the Laws of 1913) does not confer upon said Board of Public Utility Commissioners power or jurisdiction under said statute to order, at the expense of the prosecutor, the alteration or the elimination of other highway grade crossings that may be affected by, or involved in, the alteration or elimination of such crossing, or crossings, as are dangerous to public safety or impede public travel, within the meaning of said statute. 30

(13) The conclusions or findings of said Board that the railroad which crosses at the same level the highways named in Reason (1) was the railroad of 40

Reasons of Erie Railroad Company.

Erie Railroad Company were not justified, or reasonably supported by the evidence taken before said Board.

10 (14) There was no evidence before said Board to support reasonably the order under review with respect to the ownership of said railroad by Erie Railroad Company at said highway crossings named in Reason (1).

(15) According to the whole of the evidence taken before said Board the said order under review is unreasonable so far as it is based upon the conclusions or findings of said Board that the railroad which crosses at the same level the highways named in Reason (1) is the railroad of Erie Railroad Company.

20 (16) The evidence taken before said Board shows that the railroad which crosses the said highways named in Reason (1) is not the railroad of Erie Railroad Company.

(17) The evidence shows that the action of said Board in finding that the railroad which crosses the said highways named in Reason (1) is the railroad of Erie Railroad Company is—

(a) purely arbitrary, or

30 (b) without reasonable basis upon which to rest, or

(c) unsupported by the facts laid before said Board.

(18) The conclusions or findings of said Board that Erie Railroad Company was, within the meaning of Chapter 57, Laws of 1913, operating the railroad which crosses at the same level the highways named in Reason (1), were not justified nor reasonably supported by the evidence taken before said Board.

40 (19) There was no evidence before said Board to support reasonably the order under review, with re-

Reasons of Erie Railroad Company.

spect to the operation of said railroad, within the meaning of Chapter 57, Laws of 1913, by Erie Railroad Company at said highway crossings named in Reason (1).

(20) According to the whole of the evidence taken before said Board, the said order under review is unreasonable so far as it relates to the operation of said railroad, within the meaning of Chapter 57, Laws of 1913, by Erie Railroad Company, at the said highways named in Reason (1). 10

(21) The evidence taken before said Board shows that Erie Railroad Company was not, within the meaning of Chapter 57, Laws of 1913, operating the railroad which crosses the said highways named in Reason (1).

(22) The evidence shows that the action of said Board in finding that the said Erie Railroad Company was operating said railroad within the meaning of Chapter 57, Laws of 1913, at the said highways named in Reason (1) is— 20

- (a) purely arbitrary, or
- (b) without reasonable basis upon which to rest, or
- (c) unsupported by the facts laid before said Board.

(23) The evidence taken before said Board shows that the railroad which crosses at the same level the highways known as (A) Madison avenue, (B) Clay and Straight streets, (C) Cedar street and (D) Market street and Park avenue, is the railroad of a corporation known as "The President and Board of Directors of the Paterson and Hudson River Railroad Company." 30

(24) The evidence taken before said Board shows that the railroad which crosses at the same level the highways known as (E) Ellison street, (F) Van Houten street, (G) Broadway, (H) Fair street, (I) Hamilton avenue, (J) Lafayette street, (K) Frank- 40

Reasons of Erie Railroad Company.

lin street, (L) Keen street, (M) Warren street, and (N) River and Putnam streets, is the railroad of a corporation known as "Paterson and Ramapo Railroad Company.

10 (25) The evidence taken before said Board shows that a corporation known as "The President and Board of Directors of the Paterson and Hudson River Railroad Company" is the company operating the railroad which crosses at the same level the highways known as (A) Madison avenue, (B) Clay and Straight streets, (C) Cedar street, and (D) Market street and Park avenue, within the meaning of Chapter 57, Laws of 1913.

20 (26) The evidence taken before said Board shows that a corporation known as "Paterson and Ramapo Railroad Company" is the company operating the railroad which crosses at the same level the highways known as (E) Ellison street, (F) Van Houten street, (G) Broadway, (H) Fair street, (I) Hamilton avenue, (J) Lafayette street, (K) Franklin street, (L) Keen street, (M) Warren street, and (N) River and Putnam streets, within the meaning of Chapter 57, Laws of 1913.

30 (27) Said order under review is unreasonable and invalid in so far as it orders Erie Railroad Company to alter the crossings and each of them at the highways known as (A) Madison avenue, (B) Clay street and Straight street, (C) Cedar street, (D) Market street and Park avenue, for the reason that said order requires that the entire expense of the alterations, changes, re-location and opening, as directed in said order, be paid by Erie Railroad Company (less the amount to be paid by Public Service Railway Company at (1) Park avenue and Market street, (2) Broadway, and (3) River street), whereas said order, if, under the evidence, any order is justified, should
40 have directed that the expense of such alterations,

Reasons of Erie Railroad Company.

changes, re-locations and opening (less the amount to be paid by Public Service Railway Company), should be paid by The President and Board of Directors of the Paterson and Hudson River Railroad Company.

(28) Said order under review is unreasonable and invalid in so far as it orders Erie Railroad Company to alter the crossings and each of them at the highways known as (E) Ellison street, (F) Van Houten street, (G) Broadway, (H) Fair street, (I) Hamilton avenue, (J) Lafayette street, (K) Franklin street, (L) Keen street, (M) Warren street, (N) River and Putnam streets, for the reason that said order requires that the entire expense of the alterations, changes, re-location and opening, as directed in said order, be paid by Erie Railroad Company (less the amount to be paid by Public Service Railway Company at (1) Park avenue and Market street, (2) Broadway, and (3) River street), whereas said order—if, under the evidence, any order is justified—should have directed that the expense of such alterations, changes, re-location and opening (less the amount to be paid by Public Service Railway Company), should be paid by Paterson and Ramapo Railroad Company.

(29) Said order under review is unreasonable and invalid in so far as it orders Erie Railroad Company to alter the crossings and each of them at the highways named in Reason (1) for the reason that said order requires that the entire expense of the alterations, changes, re-location and opening, as directed in said order, be paid by Erie Railroad Company (less the amount to be paid by Public Service Railway Company at (1) Park avenue and Market street, (2) Broadway, and (3) River street, whereas said order—if, under the evidence, any order is justified—should have directed that the expense of such alterations, changes, re-location and opening (less the amount to

Reasons of Erie Railroad Company.

be paid by Public Service Railway Company), should be paid by The President and Board of Directors of the Paterson and Hudson River Railroad Company and Paterson and Ramapo Railroad Company, as their respective interests may appear, or be determined by appropriate proceedings.

- 10 (30) Said order under review is unreasonable and invalid in so far as it orders Erie Railroad Company to alter the crossings and each of them at the highways named in Reason (1), for the reason that said order requires that the entire expense of the alterations, changes, re-location and opening, as directed in said order, be paid by Erie Railroad Company (less the amount to be paid by Public Service Railway Company at (1) Park avenue and Market street, (2) Broadway, and (3) River street), whereas said order —if, under the evidence any order is justified—should
- 20 have directed that the expense of such alterations, changes, re-location and opening (less the amount to be paid by Public Service Railway Company), should be paid jointly by said Erie Railroad Company, The President and Board of Directors of Paterson and Hudson River Railroad Company, and Paterson and Ramapo Railroad Company, so that the cost thereof might be apportioned between and among said Erie Railroad Company, The President and Board of Directors of Paterson and Hudson River Railroad Company,
- 30 and Paterson and Ramapo Railroad Company, by appropriate proceedings, as provided by law, in accordance with the respective interests of said companies.

(31) Said order and the statute upon which the same is based, to wit, Chapter 57, Laws of 1913, are void, for the reason that the same are in violation of, and contrary to, the Constitution of the State of New Jersey in the following particulars:—

- 40 (a) Said order and statute take the private property of the prosecutor for a private use and also take

Reasons of Erie Railroad Company.

the property of the prosecutor for public use without just compensation, contrary to Article I, Section 16, reading as follows:

"Private property shall not be taken for public use without just compensation."

(b) Said order and statute take the property of the prosecutor without affording to it any opportunity to protect its said property, thereby depriving the prosecutor of its right and guaranty of enjoying and defending, acquiring, possessing and protecting said property, contrary to Article I, Section 1, reading as follows: 10

"All men are by nature free and independent
 "and have certain natural and unalienable rights,
 "among which are those of enjoying and defending
 "life and liberty, acquiring, possessing and
 "protecting property, and of pursuing and obtaining safety and happiness."

(c) Said order and statute deprive the Court of Chancery of the State of New Jersey of its exclusive jurisdiction over the regulation of the use of easements, contrary to Article III, Section 1, reading as follows: 20

"The powers of the government shall be divided into three distinct departments—the legislative, executive and judicial; and no person or persons belonging to, or constituting one of these departments shall exercise any of the powers properly belonging to either of the others, except as herein expressly provided." 30

and contrary to Article VI, Section 1, reading as follows:

"The judicial power shall be vested in a court of errors and appeals in the last resort in all causes as heretofore; a court for the trial of impeachment; a court of chancery; a prerogative court; a supreme court; circuit courts, and such inferior courts as now exist, and as may be hereafter ordained and established by law, which in-

Reasons of Erie Railroad Company.

"inferior courts the legislature may alter or abolish,
 "as the public good shall require."

10 (d) Said order and statute deprive the Supreme Court of the State of New Jersey of its jurisdiction to compel the prosecutor or its lessors, The President and Board of Directors of the Hudson River Railroad Company, and the Paterson and Ramapo Railroad Company, by mandamus or other appropriate proceed-
 ings to perform the duties imposed by law upon the prosecutor or upon its said lessors, or either or both of them, with respect to the construction and maintenance of such crossings particularly named in said order, or some one or more of them, contrary to the provisions of said Article III, Section 1, and Article VI, Section.

20 (e) The object of the said statute is not expressed in the title thereof and the said statute embraces more than one object, contrary to Article IV, Section VII, paragraph 4, reading as follows:

"To avoid improper influence which may result
 "from intermixing in one and the same act such
 "things as have no proper relation to each other,
 "every law shall embrace but one subject, and
 "that shall be expressed in the title."

30 (32) Said order and statute upon which the same is based, to wit, Chapter 57 of the New Jersey Laws of 1913, are void for the reason that the same are in violation of and contrary to the Constitution of the United States in the following particulars:

(a) Said order and statute deprive the prosecutor of its liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of said Constitution, reading as follows:

"ARTICLE V."

"No person shall be * * * deprived of
 life, liberty or property, without due process of
 law."

"ARTICLE XIV."

"Nor shall any state deprive any person of life, liberty or property without due process of law."

(b) Said order and statute deny to prosecutor the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows:

"Nor shall any State deny to any person within its jurisdiction the equal protection of the laws."

(c) Said order and statute abridge the privileges or immunities of the prosecutor, contrary to the Fourteenth Amendment of the Constitution, reading as follows:

"No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

(d) Said order and statute take the private property of the prosecutor for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

"Nor shall private property be taken for public use without just compensation."

(e) Said order and statute create a burden upon and operate as a regulation of, and an interference with interstate commerce, contrary to Article I, Section VIII, paragraph 3, reading as follows:

"The Congress shall have power * * * 3. To regulate commerce with foreign nations, and among the several states, and with the Indian Tribes."

(f) Said order and statute impair the obligation of contracts between the State of New Jersey and the prosecutor, contrary to Article I, Section X, paragraph 1, reading as follows:

"No State shall pass any * * * law impairing the obligation of contracts."

(33) The statute upon which the order under review is based (being Chapter 57, Laws of 1913), is

Reasons of Erie Railroad Company.

unreasonable, unconstitutional and invalid for the reason that it establishes no reasonable, or any, standard whereby the Board of Public Utility Commissioners may determine when or under what circumstances a highway grade crossing is dangerous to public safety, or that the public travel on said highway is impeded thereby, within the meaning of said statute, and delegates legislative power to said Board with respect to such crossings and the orders that may be made concerning the same.

(34) The statute upon which the order under review is based (being Chapter 57, Laws of 1913), is unreasonable, unconstitutional and invalid for the reason that, when and if the Board finds that a highway grade crossing is dangerous to public safety, or that the public travel on the highway is impeded by such crossing, the said statute confers upon said Board arbitrary power to order or to refuse to order that such crossing be altered.

(35) Said order is unreasonable and unconstitutional for the reason that it appears that the cost to Erie Railroad Company of complying with said order will greatly exceed the value of the leasehold interest of said company in the property of the President and Board of Directors of the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company, or both of them combined, without any compensating advantage to said Erie Railroad Company, and therefore is, in effect, a confiscation of the property of said Erie Railroad Company, and takes the property of said Erie Railroad Company for the benefit of said The President and Board of Directors of Paterson and Hudson River Railroad Company and Paterson and Ramapo Railroad Company, contrary to the provisions of the Constitution of the State of New Jersey and of the United States as hereinbefore set forth.

Reasons of Erie Railroad Company.

(36) Said order is unreasonable and unconstitutional for the reason that the cost of complying therewith will exceed the total combined value of all the property, real and personal, of the corporations known as The President and Board of Directors of the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company and the value of the prosecutor's interest therein, and will make the interest and investment of the prosecutor in said properties, or either of them incapable of earning, when used for railroad purposes, a fair and reasonable return upon the amount invested therein, and will confiscate prosecutor's property and interest therein. 10

(37) Said order, with the plan thereto annexed, in so far as they require, changes in the location or grades or other property of the corporations known respectively as, "The President and Board of Directors of Paterson and Hudson River Railroad Company," and "Paterson and Ramapo Railroad Company," and the construction, relocation or rebuilding thereof in whole or in part, as indicated on said plan, is invalid and beyond the jurisdiction of said Board, for the reason that the said changes, relocations, constructions, reconstructions and rebuildings confiscate the property of the prosecutor for the benefit of the said The President and Board of Directors of the Paterson and Hudson River Railroad Company and Paterson and Ramapo Railroad Company, and take the property of the prosecutor for public use without just compensation, contrary to the provisions of the Constitutions of the State of New Jersey and of the United States, as hereinbefore set forth. 20 30

(38) The statute upon which said order is based (being Chapter 57, Laws of 1913), if construed to permit or require the Board of Public Utility Commissioners to order the company operating the rail- 40

Reasons of Erie Railroad Company.

road at the highway crossings named in Reason (1) to alter said crossings, or any or either of them, at the expense of said company so operating such railroad (less such amount as may be ordered to be paid by the street railway company using such crossing or crossings), is unconstitutional and void because it takes the property of the prosecutor for private use, and also takes its property for public use without just compensation and otherwise violates the provisions of the constitutions of the State of New Jersey and of the United States, as hereinbefore set forth.

10 (39) Said order is unreasonable and invalid and impossible of performance, for the reason that the cost to the prosecutor of complying therewith will be approximately the sum of three million dollars (exclusive of property damage), whereas the testimony taken before said Board shows that prosecutor did not have, and in all, reasonable probability will not have, sufficient funds available for such purpose; and has not and in all reasonable probability will not have, any means of securing funds whereby it might be enabled to comply with said order within the time limited therein.

30 (40) Said order is unreasonable, and the statute upon which the same is based is unconstitutional and invalid, for the reason that each of them fails to give to the railroad the alternative of decreasing or eliminating the danger to public safety and the impediment to public travel by decreasing the number of train movements over said crossings, or some of them, or by abandoning the railroad at said crossings, or some of them.

40 (41) Said order and the statute upon which the same is based, in so far as they require changes in, or the removal of, the property or constructions (or changes in the grade or location thereof), of persons or corporations other than telegraph, telephone, gas,

Reasons of Erie Railroad Company.

electric, lighting, power, water, oil or pipe lines companies (as specified in Section 4 of Chapter 57, Laws of 1913), or other persons or companies owning or controlling or operating or managing within the State of New Jersey any steam railroad, street railway, traction railway, canal, express, subway, pipe line, gas, electric light, heat, power, water, oil, sewer, telephone, telegraph system, plant or equipment for public use under privileges granted by the State of New Jersey, or by any political sub-division thereof, are unconstitutional and invalid for the reason that none of said persons or corporations is included within the description of the term "public utility" as defined in the act entitled, "An Act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April 21, 1911 (being Chapter 195, Laws of 1911), nor are any of them otherwise subject to the jurisdiction of said Board.

(42) Said order and statute in so far as they require that the expense of removing, relaying or relocating municipal water or sewer pipes or other municipal pipes, conduits or subways to be borne by the municipality owning the same, and in so far as they require the expense of paving, curbing and flagging the highway, or highways, constructed as the result of changes of grade to be borne by the municipality, are unconstitutional and invalid, for the reason that a municipality is not included within the description of the terms, "public utility," as defined in the act entitled, "An Act concerning public utilities; to create a Board of Public Utility Commissioners, and to prescribe its duties and powers," approved April 21, 1911 (being Chapter 195, Laws of 1911), nor is it otherwise subject to the jurisdiction of said Board.

Reasons of Erie Railroad Company.

10 (43) Said statute (being Chapter 57, Laws of 1913), is in violation of and contrary to Article III, Section VII, paragraph 4, of the Constitution of the State of New Jersey, in that the object of the said statute is not expressed in the title thereof and the said statute embraces more than one object, in that said statute purports to empower the Board of Public Utility Commissioners to exercise jurisdiction over municipalities, companies, or corporations, copartnerships or individuals which are not included within the description of the term, "public utility," as defined in the act entitled, "An Act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April 21, 1911 (being Chapter 195, Laws of 1911), to which said statute is a supplement.

20 (44) Said order is impossible of performance, in that it has no effective provision requiring changes in the property or construction of the various companies, copartnerships and individuals mentioned in the testimony taken before said Board, whose lands, buildings, facilities or other property will, as shown on the plan annexed to said order, be affected, or destroyed, or rendered useless thereby.

30 (45) Said order is invalid and beyond the jurisdiction of said Board in so far as it purports to command the prosecutor to acquire certain property for the purpose of complying therewith, to reconstruct the said railroad and highways, to perform all other work required according to and as shown on the plan and profile attached to said order, and to proceed with due diligence to the execution of said order, and to comply with all of the requirements thereof, and the duties imposed on it thereby, and by the said act under which said order was made and the laws of this state, and that to that end it exercise in good faith all of the

Reasons of Erie Railroad Company.

powers conferred upon it by the laws of this State, for the following reasons:—

(a) The prosecutor is not now required, or empowered, by law, to carry out the said commands of said order, or any or either of them.

(b) Said Board has no power to issue such commands or any or either of them, to the prosecutor.

10

(c) Said commands, and each of them, interfere unlawfully with the judgment and discretion of the board of directors of the prosecutor and deprive said directors of the right given them by law to exercise their judgment and discretion in the management of the prosecutor's business.

(46) Said order with the plan thereto annexed, so far as they require changes in the location or grade of various switches, sidetracks, leads, bridges, yards, structures and other facilities and property of the prosecutor, and other companies, corporations, co-partnerships, or individuals, and the construction, relocation or rebuilding thereof, in whole or in part, as indicated on said plan, is invalid and beyond the jurisdiction of said Board for the following reasons:

20

(a) The petition of the Board of Finance of the City of Paterson, upon which said order is based, was limited to a prayer for the elimination of certain highway crossings, and did not include therein any prayer for the relocation or reconstruction or rebuilding of said property of prosecutor, and said other companies, corporations, copartnerships or individuals.

30

(b) Said Board has no power to order said changes, relocations, constructions, reconstructions and rebuildings, or any or either of them, upon the petition filed by said Board of Finance of the City of Paterson.

(c) Said changes, relocations, constructions, reconstructions and rebuildings are not, nor is any or either of them, included within the powers conferred by law upon said Board.

40

Reasons of Erie Railroad Company.

(d) Said order was not made after hearing, upon notice, as required by law.

(e) Said changes, relocations, constructions, reconstructions and rebuildings are not, nor is any or either of them, any part of the duties or obligations imposed by law upon the prosecutor, or upon said other companies, corporations, co-partnerships or individuals.

10

(f) Said changes, relocations, constructions, reconstructions and rebuildings are not, nor is any or either of them, reasonably necessary, or required, or appropriate for the elimination of said crossings named in Reason (1), or any or either of them.

20

(g) Said changes, relocations, constructions, reconstructions and rebuildings impose a burden upon the interstate traffic of the prosecutor and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers.

(47) Said order is invalid in so far as it requires the construction or reconstruction and the relocation of the station buildings and facilities at or near Market street and the station buildings and facilities at or near River street, or either of them, in the City of Paterson, other than the station buildings and facilities respectively now occupied and maintained by the prosecutor, for the following reasons:

30

(a) The petition of the Board of Finance of the City of Paterson, upon which said order was based, was limited to a prayer for the elimination of certain highway crossings, and did not include therein any prayer for the construction or reconstruction or relocation of said station buildings and facilities, or either of them.

(b) There is no evidence to show that said existing station buildings and facilities, or either of them, are not safe, adequate or proper.

Reasons of Eric Railroad Company.

(c) It was not made, after hearing, upon notice, as required by law.

(d) It does not appear that said constructions, or reconstructions, or relocations, or any or either of them, are reasonably necessary, required or appropriate for the elimination of the highway crossings named in Reason (1), or any or either of them.

(e) It deprives the prosecutor of its property without due process of law, as no hearing has been given to the prosecutor on the question as to whether said present station buildings and facilities, or either of them, are safe, adequate and proper, or on the question whether, in order to have the same safe, adequate and proper, it is necessary or reasonable to construct or reconstruct or relocate said station buildings and facilities, or either of them, in the manner required by said order.

10

(48) Said order is invalid in so far as it requires the prosecutor as a part of the construction, reconstruction and relocation of its station buildings and facilities at or near Market street in the City of Paterson, to take, occupy and use certain property on the approach of the Paterson City station of the New York, Susquehanna and Western Railroad Company indicated on said plan under the name of "Crosby Place," and owned by said New York, Susquehanna and Western Railroad Company.

20

(49) Said order is invalid in so far as it requires the prosecutor as a part of the construction, reconstruction and relocation of its station buildings and facilities at or near River street in the City of Paterson, to build and maintain a sidewalk in the public street and to take, occupy and use part of a public street for the purpose of said construction, reconstruction and relocation.

30

(50) Said order is invalid in so far as it requires the prosecutor as a part of the construction, recon-

40

Reasons of Erie Railroad Company.

struction and relocation of its station buildings and facilities at or near River street in the City of Paterson, to devote part of its right of way to the use of the public in the form of a sidewalk on said right of way, and to construct and maintain the same as shown on said plan.

10 (51) Said order is invalid in so far as it requires the prosecutor to remove from its present location the buildings and facilities, and each of them, now used respectively by Fullers Express Company and Morris & Company, and to relocate, rebuild, reconstruct and maintain the same upon the respective sites indicated on the plan and profile attached to said order, for the following reasons:—

20 (a) Said Board is without authority or jurisdiction to make an order requiring the prosecutor to take any action whatever involving or affecting said buildings and facilities, or either of them.

(b) Said Board is without authority or jurisdiction to require the prosecutor to remove, rebuild, relocate and maintain said buildings and facilities or either of them at the respective sites indicated on the said plan and profile.

30 (c) Said Board is without authority or jurisdiction to require the prosecutor to devote said sites, or either of them, to private purposes for the benefit of said Fullers Express Company and Morris & Company, or either of them.

(d) Said Board is without authority or jurisdiction to require the prosecutor to devote said sites, or either of them, to public or any purposes other than the public purposes to which the same, or either of them, are now devoted.

40 (e) The evidence does not show that the removal of said buildings and facilities, or the relocation, rebuilding, reconstruction and maintenance of the same or either of them, are reasonably necessary, or required, or appropriate for the

Reasons of Erie Railroad Company.

elimination of the highway crossings named in Reason (1), or any or either of them.

(52) Said order is invalid in so far as it requires the Prosecutor to relay, relocate, rebuild, reconstruct and maintain the tracks, poles and wires of Public Service Railway Company on the several sites indicated on the plan and profile attached to said order, for the following reasons:—

10

(a) Said Board is without authority or jurisdiction to make an order requiring the prosecutor to take any action whatever involving or affecting said tracks, poles, wires, or any or either of them.

(b) Said Board is without authority or jurisdiction to require the prosecutor to relay, relocate, rebuild, reconstruct, or maintain said tracks, poles and wires at the respective sites indicated on said plan and profile.

20

(c) Said Board is without authority or jurisdiction to require the prosecutor to devote said sites, or any or either of them, so far as the same or some of them are on the right of way or other property of the prosecutor, to private purposes for the benefit of said Public Service Railway Company.

(d) Said Board is without authority or jurisdiction to require the prosecutor to devote said sites, or any or either of them, so far as the same or some of them are on the right of way or other property of the prosecutor, to public or any purposes other than the public purposes to which the same or some of them are now devoted.

30

(e) The evidence does not show that the relaying, relocation, rebuilding, reconstruction, or maintenance of said tracks, poles and wires, or any or either of them, are reasonably necessary or appropriate for the elimination of the highway crossings named in Reason (1), or any or either of them.

40

Reasons of Erie Railroad Company.

(f) The prosecutor has no legal duty or right to relay, relocate, rebuild, reconstruct, or maintain said tracks, poles and wires, or any or either of them.

(g) The legal duty and right to relay, relocate, rebuild, reconstruct and maintain said tracks, poles and wires rests on persons or corporations other than the prosecutor.

10

(h) The existing contracts between the prosecutor or its predecessors, and other persons or corporations, or their predecessors, respectively, with respect to the relaying, relocating, rebuilding, reconstruction and maintenance of said tracks, poles and wires, and each of them, are impaired and destroyed.

20

(i) There is no right in the prosecutor to relay, relocate, rebuild, reconstruct, or maintain said tracks, poles and wires in, along, or through public streets, except under the limitations imposed by law.

(53) Said order of said Board is invalid in so far as it requires the prosecutor to substitute for the existing crossings at Cedar street a crossing under the railroad at Taylor street and for the existing crossing at Franklin street a crossing under the railroad at Montgomery street, for the reason that:—

30

(a) Such substitution amounts to the opening of new streets across the railroad at Taylor street and Montgomery street and the closing of existing streets at Cedar street and Franklin street, and the power to open and close said streets respectively is not within the authority or jurisdiction conferred upon said Board by law.

40

(b) The opening or closing of said streets respectively does not constitute the altering of such crossings by substituting therefor a crossing not at the grade of such public highway, either by carrying such public highway over or under said railroad or by reconstructing such railroad under or over such public highway, or by vacating, re-

locating or changing the lines, width, direction or location of such highway and the opening of a new highway in place of the one ordered vacated, within the meaning of Chapter 57, of the Laws of New Jersey for 1913.

(54) Said order is invalid in so far as it requires the prosecutor to widen and alter the undergrade crossings at Essex street, Governor street and Fulton street, and each of them, and to adjust, relocate and reconstruct the existing abutments and other structures at said streets and each of them, for the following reasons :— 10

(a) The petition of the Board of Finance of the City of Paterson, upon which said order was based, did not pray for any change in said undergrade crossings, or any or either of them, nor for the widening, nor alteration thereof, nor for the adjustment, reconstruction or relocation of the said abutments, and other structures, or any or either of them. 20

(b) Said order was not made after hearing, upon notice, as required by law.

(c) Said order deprives the prosecutor of its property without due process of law, because the prosecutor has had no hearing in regard thereto or concerning the propriety thereof.

(d) Said Board is without authority or jurisdiction to make any order requiring any action whatever to be taken for the widening or alteration of said undergrade crossings, or any or either of them, or the adjustment, reconstruction or relocation of the existing abutments, or other structures, at said undergrade crossings, or any or either of them. 30

(e) It does not appear that the widening and alteration of said undergrade crossings, or any or either of them, and the adjustment, reconstruction and relocation of said abutments and other structures are reasonably necessary, re- 40

Reasons of Erie Railroad Company.

quired or appropriate for the elimination of the highway crossings named in Reason (1), or any or either of them.

(f) None of said highways cross the railroad of the prosecutor at the same level.

- 10 (55) Said order is invalid in so far as it requires the prosecutor to change the lines, width and direction of the highways named in Reason (1), or any or either of them, and to carry so much thereof as so changed under said railroad (except in the case of Madison
20 avenue), and to carry Madison avenue over said railroad, according to and as shown on said plan and profile for said purpose, and to vacate the remaining parts of said highways within the lines of the right of way of the prosecutor, and to vacate that part of Madison avenue lying west of the railroad which is included between the right of way line of the railroad and the line of the relocated Madison avenue, for the following reasons:—

(a) The prosecutor is under no legal duty or obligation to change the lines, width or direction of the said highways, or any or either of them, nor to carry any part thereof as so changed under the said railroad, nor to vacate the remaining parts of said highways, or any or either of them, within the lines of said right of way, nor to vacate said part of said Madison avenue.

- 30 (b) The prosecutor has no power, or authority to change the lines, width or direction of the said highways, or any or either of them, nor to carry any part thereof as so changed under the said railroad, nor to vacate the remaining parts of said highway, or any or either of them, within the lines of the said right of way, nor to vacate said part of said Madison avenue.

- 40 (c) Said order imposes upon the prosecutor the entire expense of such changes, relocations and vacations, including damages to adjacent property (except such expenses as by statute are

Reasons of Erie Railroad Company.

expressly imposed upon municipalities, or other persons or corporations), without affording to the prosecutor any hearing as to the propriety or necessity of such changes, relocations and vacations, and without affording to the prosecutor any hearing as to the cause of such changes, relocations or vacations and the method or the amount of the assessment, or assessments, therefore.

10

(d) The power or authority to order the prosecutor to change the lines, width or direction of said highways, or any or either of them, and to carry any part thereof as so changed under the said railroad and to vacate the remaining parts of said highways, or any or either of them, within the lines of the said right of way, and to vacate said part of said Madison avenue has not been conferred by law upon said Board of Public Utility Commissioners, and can only be exercised by the proper municipal, or other authorities, in the manner provided by law.

20

(e) No appropriate proceedings have been taken and the necessary consents have not been given by or in behalf of the prosecutor, or other interested property owners, for the said changes, relocations and vacations of said highways, or any or either of them, as required by the Charter of the City of Paterson and by the laws of the State of New Jersey.

(56) The statute upon which said order is based is unreasonable, invalid and unconstitutional, in so far as it permits or requires said Board of Public Utility Commissioners to order the prosecutor to vacate, relocate or change the lines, width, direction or location of the highways named in Reason (1), or any or either of them; and in so far as it permits or requires the opening of new highways in the place of those ordered vacated, for the following reasons:—

30

(a) The prosecutor is under no legal duty or obligation to vacate, relocate or change the lines,

40

Reasons of Erie Railroad Company.

width, direction or location of said highways, or any or either of them, or to open new highways in the place of those ordered vacated.

(b) The prosecutor has no power or authority to vacate, relocate or change the lines, width, direction or location of said highways, or any or either of them, or to open new highways in the place of those ordered vacated.

10

(c) Said statute attempts to impose upon the prosecutor the entire expense of such changes, relocations, or openings, including damages to adjacent property (except such expenses as by statute are expressly imposed upon municipalities or other persons or corporations), without affording to the prosecutor any hearing as to the propriety or necessity of such changes, relocations, or openings; and without affording to the prosecutor any hearing as to the cost of such changes, relocations or openings and the method or the amount of the assessment or assessments therefor.

20

(d) The power or authority to vacate, relocate or change the lines, width, direction or location of such highways and to open new highways in the place of those ordered vacated, has not been conferred by law upon said Board of Public Utility Commissioners and can only be exercised by the proper municipal or other authorities in the manner provided by law.

30

(e) No appropriate proceedings have been taken, and the necessary consents have not been given, by or in behalf of the prosecutor or other interested property owners for the vacation, relocation or change of the lines, width, direction or location of such highways, or any or either of them, or for the opening of new highways in the place of those ordered vacated, as required by the Charter of the City of Paterson and by the laws of the State of New Jersey.

40

(57) Said order is invalid in so far as it requires the prosecutor to reconstruct the railroad over the

public highways named in Reason (1) (except Madison avenue), by elevating the railroad at such public highways, and each of them, and by depressing the grade of said highways, and each of them, in order to pass under the railroad when thus elevated.

(58) The statute upon which the order under review is based is unreasonable and invalid and deprives the prosecutor of its property without due process of law, because it requires grade crossings to be altered and eliminated by substituting therefor a crossing not at the grade of the public highway, either by carrying the public highway over or under such railroad, or by reconstructing such railroad over or under such public highway, without permitting the Board of Public Utility Commissioners in its discretion to alter and eliminate such crossings by depressing or elevating the public highway in part and depressing or elevating the railroad in part.

(59) Said order and the statute upon which the same is based are illegal, unconstitutional and void in so far as they permit or require the prosecutor to construct or maintain bridges or passages over or under the railroad at the said crossing, or some one or more of them, named in Reason (1), for the reason that the highways at said crossings, or some one or more of them, were opened and laid out subsequent to the construction of the railroad at said crossings.

(60) The statute upon which the order under review is based (being Chapter 57, Laws of 1913) is unreasonable, unconstitutional and invalid because it deprives the prosecutor of its property without due process of law, and impairs the obligation of prosecutor's contracts by permitting the Board of Public Utility Commissioners to alter and amend the charters of the several predecessors in interest of the prosecutor, to whose rights the prosecutor has succeeded.
